Highlights for July 2011

The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Two and a half years after the establishment of the TARP, we are making substantial progress in unwinding the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency support and to return our financial institutions to private hands as quickly as possible. When President Obama took office, the government had made investments in financial institutions representing 75 percent of the assets of the entire banking system. Today, the government's remaining investments in banks represent only about 10 percent of the assets of the banking system. Moreover, as of today, taxpayers have recovered approximately \$255 billion from TARP's bank programs through repayments, dividends, interest, and other income -- approximately \$10 billion more than the \$245 billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

On July 21, 2011, Treasury made significant progress toward its goal of exiting the government's investments in private companies as quickly as practicable. Treasury completed the sale of its remaining 6 percent equity stake in Chrysler Group LLC to Fiat for \$500 million. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trust's shares in Chrysler. With this transaction, Treasury has now fully exited its investment in Chrysler Group under the Troubled Asset Relief Program (TARP). In a press release announcing the sale, Assistant Secretary for Financial Stability Tim Massad said "This is a major accomplishment and further evidence of the success of the Administration's actions to assist the US auto industry, which helped save a million jobs during the worst economic crisis since the Great Depression."

Where are TARP Funds?¹

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. This chart is also available on FinancialStability.gov and is updated after every business day.

¹ Numbers in text and tables in this report may not add because of rounding.

Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

- 1/ This represents the portion of the repayments that were received from refinancing to SBLF. This column is not used to calculate the Outstanding amount.
- 2/ Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ This column represents the sum of repayments plus income/revenue. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 5/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 6/ Gain / Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 7/ All CDCI collections are grouped in the "Not From Exchanges" row/category.
- 8/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- 9/ TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" column.
- 10/ On May 24, 2011, Treasury sold a total of 200 million AIG common shares at \$29 per share, consisting of 131,981,246 TARP shares and 68,018,754 non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$1,972,543,866 and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is \$28.73.
- 11/Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 12/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been prefunded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. The programs included the Capital Purchase Program (CPP), the Capital Assistance Program (CAP), the Targeted Investment Program (TIP), the Asset Guarantee Program (AGP) and the Community Development Capital Initiative (CDCI). A total of \$245 billion was invested in banking institutions, and as of March 30, 2011, Treasury has recovered more than 100% of that amount through repayments, dividends, interest, and other income. CAP closed on November 9, 2009 with no investments having been made. TIP and AGP have both closed. The programs generated net positive returns to the taxpayer totaling \$4.0 and \$3.8 billion, respectively. CPP closed to new investments in December 2009 and CDCI was closed in September 2010. Treasury estimates the bank programs will result in a lifetime positive return for taxpayers of more than \$20 billion (see Figure 2).

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Refinancing Through SBLF

In July, for the first time, a number of CPP banks received funding under the Small Business Lending Fund (SBLF). Enacted into law as part of the Small Business Jobs Act of 2010, the SBLF is a \$30 billion fund that encourages lending to small businesses by providing capital to qualified community banks with assets of less than \$10 billion. SBLF is not a TARP program and does not use TARP funds. Congress provided in the law that recipients of CPP funds are eligible to refinance CPP investments if certain conditions are met. In order to be eligible for SBLF funding, CPP recipients must meet all of the eligibility requirements that otherwise apply to Small Business Lending Fund participants, plus the following additional requirements:

- The institution must be in material compliance with all the terms, conditions, and covenants of its CPP agreement and financial instrument;
- The institution must not have missed more than one dividend payment under CPP (where a missed payment is defined as a payment submitted more than 60 days after the due date);
- The institution must pay, in immediately available funds, the amount of any unpaid dividends for the payment period prior to the SBLF closing date, plus accrued and unpaid dividends as of the date of refinancing for the payment period that includes the closing date;
- All outstanding CPP securities must be refinanced or repaid in full at the time of the refinancing. If the value of CPP securities is greater
 than the maximum amount of permissible SBLF funding, the bank must redeem the additional CPP securities using its own funds on or
 before the date it receives SBLF funding; and

• Any unexercised warrants that the bank has issued to Treasury under CPP will remain outstanding after CPP refinancing through the Small Business Lending Fund, unless they are repurchased.

Appointments to CPP Bank Boards of Directors

On July 19, 2011, Treasury announced that it had, for the first time, exercised its right to elect members to the boards of directors of two banks participating in the Capital Purchase Program. John S. Poelker and Guy Rounsaville, Jr. were elected to the First Banks, Inc. (First Banks) board of directors and Gerard M. Thomchick was elected to the Royal Bancshares of Pennsylvania, Inc. (Royal Bancshares) board of directors. As participants in Treasury's Capital Purchase Program (CPP), First Banks and Royal Bancshares entered into securities purchase agreements with Treasury that provide Treasury the contractual right to nominate up to two members to the board of a CPP recipient in the event that an institution misses a sixth dividend or interest payment on the preferred stock issued to Treasury. Future appointments to the boards of directors of CPP participants will be included in monthly TARP Dividend and Interest Reports, which are available at: http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx

- 2/ Gross proceeds excluding commissions paid. Includes proceeds from exercised warrants.

Repayments

- On July 5, 2011, Treasury completed a transaction with Harris Financial Corp., a wholly-owned subsidiary of Bank of Montreal ("BMO"), for the sale of (i) all Marshall & Ilsley Corporation ("M&I") Preferred Stock held by Treasury for a purchase price of \$1,715,000,000 plus accrued dividends and (ii) the Treasury-held M&I Warrant for an amount equal to \$3,250,000, pursuant to the terms of the agreement between Treasury and BMO entered into on May 16, 2011.
- In July, a total of 28 institutions repurchased all or part of their outstanding CPP preferred shares from Treasury's investments in those institutions for a total of \$363,814,000. In 24 of those cases, all or part of the funds came from the SBLF. The portion of repayments that are due to refinancing under SBLF is shown on the TARP Daily Update (Figure 1).
- Two institutions repurchased a portion of their outstanding CPP preferred shares for \$11,500,000. Treasury's remaining investment in those two banks is \$14,500,000.

Warrant Repurchases

In July, Treasury disposed of warrant positions in twenty six institutions that were received in consideration for investments made under the Capital Purchase Program (CPP). These proceeds provide an additional return to the American taxpayer of more than \$16.6 million from Treasury's investments in banks beyond any dividend or interest payments.

- As described above, on July 5, 2011, Treasury completed the sale of a warrant for Marshall & Illsey Corporation ("M&I") to Harris Financial Corp. for \$3,250,000, as part of Harris Financial Corp.'s purchase of all M&I preferred stock held by Treasury.
- Twenty three institutions repurchased preferred shares from exercised warrants from Treasury for a total of \$11,075,000.
- Treasury also completed the sale of two warrants for MidWestOne Financial Group Inc. and Home Bancshares, Inc. for a total of \$2,300,000 as part of each institution's purchase of all preferred stock held by Treasury.

Dividends and Interest

• Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$10.99 billion. In July, Treasury received dividends and interest income from CPP investments of approximately \$15.29 million.

Bank Closures

During July, three recipients of CPP funding were closed by their regulators. The banks and amount of their CPP funding are as follows:

- First Peoples Bank, Port Saint Lucie, Florida: \$5,800,000
- One Georgia Bank, Atlanta, GA: \$5,500,000
- Integra Bank National Association, Evansville, Indiana: \$83,586,000

Other Programs

Automotive Industry Financing Program (AIFP)

When President Obama took office, the American auto industry was on the brink of collapse. The President made the difficult decision to provide support to General Motors (GM) and Chrysler on the condition that all stakeholders make the sacrifices necessary to achieve a path to viability. By conservative estimates, providing this support saved more than 1 million American jobs. Moreover, the expected costs of TARP's support for the industry have come down dramatically over the last two years as the auto industry has continued to recover and strengthen.

• On July 21, 2011, Treasury received \$500 million in proceeds from the sale of its remaining six percent equity stake in Chrysler Group LLC to Fiat. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trust's shares in Chrysler. With this transaction, Treasury has now fully exited its investment in Chrysler Group under the Troubled Asset Relief Program (TARP).

Housing Programs

Making Home Affordable Program Performance Report

On August 5, 2011, the U.S. Department Treasury released the **Making Home Affordable (MHA) Program Performance Report through June 2011**: http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx. Highlights from this month's report include:

- The MHA program has shown steady entry to permanent modifications, averaging about 30,000 new permanent modifications each
 month for the past twelve months and reaching a cumulative total of more than 760,000 permanent modifications started since
 inception of the program.
- The conversion rate for homeowners entering trial modifications since June 1, 2010 continues to improve. Of homeowners eligible to convert, 74% were granted permanent modifications with an average time to convert of 3.5 months a higher conversion rate and shorter time to convert than earlier in the program.
- Homeowners receiving permanent modifications save a median of \$524 each month, or 37% of the median before-modification payment. Program to date, homeowners in permanent modifications have realized aggregate savings in monthly mortgage payments of approximately \$7.3 billion.
- Homeowners in HAMP modifications continue to perform well over time, with re-default rates lower than experienced for industry
 modifications. At six months, more than 93% of homeowners remain in permanent modifications, with just 10.5% of homeowners 60+
 days delinquent. At one year, more than 84% of homeowners remain in the program.
- Payment reduction is strongly correlated with permanent modification sustainability. At one year, more than 91% of homeowners with a
 payment reduction greater than 50% remain in the program, exceeding the performance of modifications with less substantial payment
 reductions.

Second Lien and HAFA Program Results

- The Second Lien Modification Program (2MP) provides assistance to homeowners in a first lien permanent modification who have an eligible second lien with a participating servicer. To date, over 33,000 homeowners in a first-lien HAMP modification have received assistance through 2MP. Since homeowners with first lien mortgage modifications under HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow.
- Over 21,000 homeowners have reached agreements with their servicer to exit their home gracefully under the Home Affordable Foreclosure Alternatives (HAFA) Program through a potential short sale or deed-in-lieu of foreclosure transaction.
- More than 10,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides up to \$3,000 for relocation assistance after a homeowner exits the home.

Hardest Hit Fund

The Hardest Hit Fund provides funding to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). \$7.6 billion has been allocated. These areas were chosen because they have experienced steep home price declines or unemployment in the economic downturn. States have developed principal reduction, reinstatement, short sale/transition assistance, modification assistance and mortgage payment programs.

- 70% of funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs are out of pilot and have begun offering assistance statewide (IL was the last state, which went statewide on July 25, 2011).
- A total of \$478 million has been drawn down from Treasury from the 18 states and DC. Each state has its own timeline for implementation of their program and draws down funds as they are needed.
- All 19 eligible entities have created extensive infrastructure to operate these programs, including selecting and training networks of
 housing counselors to assist with applications, the creation of homeowner portals to apply for assistance, and the hiring of
 underwriters and other staff to review and approve applications.
- The five largest servicers (Ally Bank, Bank of America, J.P. Morgan Chase, Citibank, and Wells Fargo) are participating in all states.
- In addition to discussions with large servicers, HFAs have had a great deal of success signing hundreds of smaller and mid-size servicers onto their programs.
- Fannie Mae and Freddie Mac (GSEs), the Federal Housing Administration (FHA), the U.S. Department of Veterans Affairs(VA) and the U.S. Department of Agriculture (USDA) have issued guidance strongly encouraging servicers servicing their loans to participate in unemployment programs under the Hardest Hit Fund.
- Although most states have started out slowly, many states that have been up and running for several months are starting to show substantial growth in the number of borrowers assisted (Ohio, North Carolina, Oregon, and California).
- Treasury approved several new programs in July (bringing the total up to 55 programs), including a loan purchase model from Illinois (the Mortgage Resolution Fund) and 3 programs from California aimed to help underwater borrowers.

^{6/} On 1/14/2011, Treasury received 562,868,096 shares of AIG Common Stock from the AIG Credit Facility Trust, which trust was established in connection with the credit facility between AIG and the Federal Reserve Bank of New York.
