The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Two and a half years after the establishment of the TARP, we are making substantial progress in unwinding the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency support and to return our financial institutions to private hands as quickly as possible. When President Obama took office, the U.S. government had made investments in banks representing approximately 75 percent of U.S. bank holding companies by assets. Today, banks that have not yet repaid Treasury for its investments represent only about 8 percent of bank holding companies by assets. Moreover, as of today, taxpayers have recovered more than $\$ 255$ billion from TARP's bank programs through repayments, dividends, interest, and other income -- over $\$ 10$ billion more than the $\$ 245$ billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

## Where are TARP Funds? ${ }^{1}$

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

## Figure 1: Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update is also available on FinancialStability.gov and is updated after every business day.
http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-daily-summary-report/Pages/default.aspx.
Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget
The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

[^0]This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Figure 1: Daily TARP Update for September 1, 2011 (through August 31, 2011)

Daily TARP Update for 09/01/2011

## Notes to Daily TARP Update

1/ This represents the portion of the repayments that were received from refinancing to the Small Business Lending Fund (SBLF). This column is not used to calculate the Outstanding amount.

2/ Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.

4/ This column represents the sum of repayments plus income/revenue. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.

5/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
6/ Gain / Other Income does not include the receivable for up to $\$ 800$ million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).

7/ All CDCI collections are grouped in the "Not From Exchanges" row/category.
8/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.

9/ TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" column.

10/ On May 24, 2011, Treasury sold a total of 200 million AIG common shares at $\$ 29$ per share, consisting of $131,981,246$ TARP shares and $68,018,754$ non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled $\$ 1,972,543,866$ and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is $\$ 28.73$.

11/Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis ( $\$ 43.52$ per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
12/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been prefunded with $\$ 50$ million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

| Programs as of August 31, 2011 <br> (dollar amounts in billions) | Obligation/ Commitment | Disbursed as of August 31 | Outstanding Investment Balance as of August 31 | Estimated Lifetime Cost as of Jun $30^{1,2}$ |

## Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

1/ Lifetime cost information is as of June 30, 2011.
2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of June 30, 2011. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in aggregate value of the outstanding shares of the investments in light of market prices as of August 31, 2011 and the corresponding effect on estimated cost assuming no other changes.

| Outstanding Investment | $\begin{aligned} & \text { 6/30/2011 } \\ & \text { Market } \\ & \text { Value } \end{aligned}$ |  | $\begin{aligned} & \text { 8/31/2011 } \\ & \text { Market } \\ & \text { Value } \end{aligned}$ |  | Increase (Decrease) in Cost |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | In billions |  |  |  |  |  |
| AIG Common Stock | \$ | 28.15 | \$ | 24.32 | \$ | 3.83 |
| GM Common Stock | \$ | 15.18 | \$ | 12.02 | \$ | 3.16 |
| Additional AIG Common Shares | \$ | 14.51 | \$ | 12.53 | \$ | 1.98 |

3/ Some CPP banks will convert to the Small Business Lending Fund resulting in full repayment of associated CPP investments.
4/ Estimated lifetime costs for AGP includes $\$ 276$ million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.

5/ Represents additional 563 million shares of AIG common stock that was received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury, including $\$ 1.97$ billion received from a sale of stock in May 2011.

## Program Updates

## Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of $\$ 245$ billion was invested in banking institutions, and as of March 30, 2011, Treasury has recovered more than $100 \%$ of that amount through repayments, dividends, interest, and other income. Treasury estimates the bank programs will result in a lifetime positive return for taxpayers of more than $\$ 20$ billion (see Figure 2).

## Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Figure 3: Capital Purchase Program Snapshot as of August 31, 2011

| CPP Cumulative Investments |  |  |  |
| :---: | :---: | :---: | :---: |
| Amount Invested: |  | \$204.9 billion |  |
| Largest Investment: |  | \$25 billion |  |
| Smallest Investment: |  | \$301,000.00 |  |
| CPP Institutions (Banks in 48 states, D.C and Puerto Rico) |  | CPP Income to Treasury |  |
| Total Institutions Funded: | 707 | Total Amount of Repayments ${ }^{1}$ : | \$183.26 billion |
| Full Repayments: | 126 |  |  |
| SBLF Repayments: | 65 | Total Dividends, Interest, \& Fee Income: | \$11.2 billion |
| CDCI Conversions: | 28 | August Dividends and Interest: \$ | lion |
| Partial Repayments: | 13 | Citigroup Gain: | \$6.85 billion |
| Sold Investments: | 10 |  |  |
| In Bankruptcy/Receivership: | 12 | Total Warrant Income ${ }^{\text {2 }}$ | \$7.57 billion |
| Merged Institutions: | 2 |  |  |
| Total Remaining Institutions: | 464 | Total CPP Income: | \$208.9 billion |

## Notes to Capital Purchase Program Snapshot as of August 31, 2011:

1/ Includes repayment of $\$ 25$ billion from completed Citigroup common stock conversion, $\$ 335,724,000$ from $\mathbf{C D C I}$ conversions and \$856,739,000 from SBLF refinancings.
2/ Gross proceeds excluding commissions paid. Includes proceeds from exercised warrants.

## Repayments

In August, a total of 45 institutions repurchased all or part of their outstanding CPP preferred shares from Treasury's investments in those institutions for total proceeds of $\$ 614,225,000$.

- In 41 of those cases, all or part of the funds came from the Small Business Lending Fund. The portion of repayments that are due to refinancing under SBLF is shown on the TARP Daily Update (Figure 1).

## Exchanges and Sales

In limited cases, in order to protect the taxpayers' interest in the value of a CPP investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities. Treasury evaluates whether to participate in an exchange of the CPP preferred stock on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital position and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

- On $8 / 12 / 2011$, Treasury entered into an agreement with FNB United Corp. to exchange Treasury's $\$ 51,500,000$ of preferred stock for common stock. The exchange is subject to the fulfillment by FNB United Corp. of certain conditions, including the satisfactory completion of a capital plan.

## Warrant Repurchases

In August, Treasury disposed of warrant positions in thirty institutions that were received in consideration for investments made under the Capital Purchase Program (CPP). These proceeds provide an additional return to the American taxpayer of more than $\$ 13.4$ million from Treasury's investments in banks beyond any dividend or interest payments.

- Twenty seven institutions repurchased preferred shares from exercised warrants from Treasury for a total of \$11,655,000.
- Treasury also completed the sale of three warrants for First California Financial Group Inc., Heritage Financial Corporation and West Bancorporation, Inc. for a total of $\$ 1,749,042$ as part of each institution's purchase of all preferred stock held by Treasury.
- On August 25, Treasury released the latest TARP Warrant Disposition Report including data during the six months ending June 30, 2011. During that period, Treasury received more than $\$ 886$ million in gross proceeds from the disposition of 20 warrant positions through repurchases and auctions of institutions in the Capital Purchase Program (CPP), the Targeted Investment Program (TIP) and the Asset Guarantee Program (AGP). Since the TARP's inception, Treasury has received more than $\$ 9$ billion in gross proceeds from
the disposition of warrants associated with investments made through CPP, TIP and AGP. As of June 30, 2011, Treasury held warrants to purchase common stock in 19 financial institutions that have fully repaid their CPP investments and in 171 publicly traded companies in which the CPP investment is still outstanding. Treasury intends to continue to execute a consistent and transparent disposition process that achieves fair market values and protects taxpayer interests.

## Dividends and Interest

In August, Treasury received dividends and interest income from CPP investments of approximately $\$ 201.5$ million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately $\$ 11.2$ billion.

Figure 4: $\quad$ Top 25 Remaining Capital Purchase Program Investments (as of August 31, 2011)

Figure 4 Footnotes
a/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. Subject to the fulfillment by First BanCorp of certain conditions, including those related to its capital plan, the MCP may be converted to common stock.
b/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP). Sterling fulfilled the conversion conditions, including those related to its capital plan, and Treasury's MCP was converted into 378,750,000 shares of common stock.
c/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. Pacific Capital fulfilled the conversion conditions and Treasury's MCP was converted into 360,833,250 shares of common stock.

## Credit Market Programs

## Public-Private Investment Program (PPIP)

On July 22, 2011, Treasury released its quarterly report for the period ending June 30, 2011 on the Legacy Securities Public-Private Investment Program. This is the seventh quarterly report on PPIP and includes a summary of PPIP capital activity, portfolio holdings and current pricing, and program and fund performance. Treasury is committed to transparency and accountability in its programs and will provide additional information as the program continues to mature in subsequent quarterly reports. The report can be found at: http://www.treasury.gov/initiatives/financial-stability/programs/Credit\ Market\ Programs/ppip/Pages/publicprivatefund.aspx

As of June 30, 2011:

- The PPIFs have drawn-down approximately $\$ 22.2$ billion of the total capital committed ( $75.6 \%$ of total purchasing power), which has been invested in Eligible Assets and cash equivalents pending investment, as compared to $\$ 20.9$ billion of total capital drawn-down as of March 31, 2011. Among the individual PPIFs, RLJ Western had drawn the most ( $100 \%$ of its total purchasing power) and Oaktree had drawn the least ( $15.8 \%$ of its total purchasing power).
- Treasury has received approximately $\$ 714$ million in net cumulative equity distributions, approximately $\$ 147$ million in cumulative interest payments and approximately $\$ 777$ million in cumulative debt principal payments from the PPIFs. Net internal rates of return for individual PPIFs ranged from $8.3 \%$ for Wellington to $32.2 \%$ for Angelo Gordon.
- The total market value of Non-Agency RMBS and CMBS held by all PPIFs was approximately $\$ 21.3$ billion with approximately $79 \%$ of the portfolio holdings as Non-Agency RMBS and $21 \%$ as CMBS.

PPIFs are now more than halfway through their three-year investment periods and performance to date may be disproportionately impacted by structuring and transaction costs and the pace of capital deployment by each PPIF. Because of this, industry practice counsels that, at this stage, any performance analysis done on these funds would not generate meaningful results and it would be premature to draw any long-term conclusions about the performance of individual PPIFs or PPIP in general from the data reported to date. For example, if the market value of the PPIFs were to remain at current levels going forward, then the net rates of return on Treasury's equity investment would decrease simply due to the passage of time. It should be noted that the current and past performance of a PPIF is not indicative of its future performance.

## Other Programs

## American International Group (AIG)

On August 18, 2011, Treasury announced that it had received an additional repayment from American International Group (AIG) of \$2.15 billion funded through the proceeds from the previously announced sale of AIG's Nan Shan life insurance subsidiary. The proceeds were used to pay back the U.S. taxpayers' investment in AIG through the redemption of an equal portion of Treasury's preferred equity interests in AIA Aurora LLC, a subsidiary of AIG.

During the financial crisis, the U.S. Government's support for AIG, including both $\$ 69.8$ billion in TARP assistance and $\$ 112.5$ from the Federal Reserve, totaled approximately $\$ 180$ billion. After this repayment, the U.S. Government's remaining outstanding investment in AIG through Treasury is $\$ 51$ billion. Treasury currently owns approximately 1.455 billion shares of AIG common stock and $\$ 9.3$ billion of preferred interests in a subsidiary of AIG. In addition, as of August 31, 2011, the Federal Reserve Bank of New York has loans to Maiden Lane II and III ( $\$ 18.85$ billion, including principal and accrued interest outstanding). These Federal Reserve Bank of New York loans are collateralized by assets with value well in excess of the outstanding loan balances (\$31.4 billion).

## Housing Programs

## Making Home Affordable Program Performance Report

On September 1, 2011 , the U.S. Department Treasury released the Making Home Affordable (MHA) Program Performance Report through July 2011: http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx. Highlights from this report include:

- The MHA program continues to assist more Americans. In July, more than 28,000 additional homeowners received a permanent modification through the Administration's Home Affordable Modification Program (HAMP). To date, more than 790,000 homeowners across the country have now received a HAMP permanent modification.
- The conversion rate for homeowners entering trial modifications since June 1, 2010 continues to improve. Of homeowners eligible to convert, $75 \%$ were granted permanent modifications with an average time to convert of 3.5 months - a higher conversion rate and shorter time to convert than earlier in the program.
- Homeowners receiving permanent modifications save a median of $\$ 525$ each month, or $37 \%$ of the median before-modification payment. To date, homeowners in permanent modifications have realized aggregate savings in monthly mortgage payments of approximately $\$ 7.8$ billion.

## Servicer Assessments

The Obama Administration continues its commitment to transparency with the release of the second installment of quarterly Servicer Assessments. For the second quarter of 2011:

- Two servicers, Bank of America and J.P. Morgan Chase Bank, have been determined to need substantial improvement. These servicers were also in need of substantial improvement in the first quarter, and their servicer incentives will continue to be withheld.
- Three servicers met the established benchmarks for program compliance, indicating that they require just minor improvement on the areas reviewed for the second quarter. Five servicers were found to need moderate improvement.

## Second Lien, HAFA and PRA Program Results

- The Second Lien Modification Program (2MP) provides assistance to homeowners in a first lien permanent modification who have an eligible second lien with a participating servicer. To date, over 37,000 homeowners in a first-lien HAMP modification have received assistance through 2MP. Since homeowners with first lien mortgage modifications under HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow.
- Over 25,000 homeowners have reached agreements with their servicer to exit their home gracefully under the Home Affordable Foreclosure Alternatives (HAFA) Program through a potential short sale or deed-in-lieu of foreclosure transaction.
- Nearly 13,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides up to $\$ 3,000$ for relocation assistance after a homeowner exits the home.
- The Principal Reduction Alternative (PRA) requires servicers of non-GSE loans to evaluate the benefit of principal reduction for mortgages with a loan-to-value ratio of $115 \%$ or greater when evaluating a homeowner for a HAMP first lien modification. Almost 30,000 modifications have been started through the Principal Reduction Alternative (PRA), with more than 9,000 of those permanently modified to date. The median principal amount reduced for those active permanent modifications is $\$ 67,735$ or $30 \%$.

## Hardest Hit Fund

The Hardest Hit Fund provides funding to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). $\$ 7.6$ billion has been allocated. These areas were chosen because they have experienced steep home price declines or unemployment in the economic downturn. States have developed principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

- There are now 55 programs across 19 HFAs. $70 \%$ of funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs are out of pilot and have begun offering assistance statewide (IL was the last state, which went statewide on 7/25/2011).
- $\$ 62$ million was drawn down by 5 HFAs in August; a total of $\$ 541$ million has been drawn down from Treasury from the 18 states and DC. Each state draws down funds as they are needed.
- All 19 eligible entities have created extensive infrastructures to operate these programs, including selecting and training networks of housing counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and the hiring of underwriters and other staff to review and approve applications.
- The five largest servicers (Ally Bank, Bank of America, J.P. Morgan Chase, Citibank, and Wells Fargo) are participating in all states, primarily in mortgage payment assistance and reinstatement; several states have over a hundred participating servicers.
- Fannie Mae and Freddie Mac, the Federal Housing Administration, the U.S. Department of Veterans Affairs, and the U.S. Department of Agriculture have issued guidance strongly encouraging servicers servicing their loans to participate in unemployment programs under the Hardest Hit Fund.
- Although many states need time to get their programs started, those states that have been up and running for longer periods are starting to show substantial growth in the number of borrowers assisted (Ohio, North Carolina, Oregon, California); Treasury is working on sharing lessons learned between states, and developing other ways to provide technical assistance to states with lower participation volumes.
- Treasury recently approved changes to three states (Arizona, New Jersey and South Carolina) designed to increase homeowner participation in their programs.

## CONSUMER AND BUSINESS LENDING INITIATIVE INVESTMENT PROGRAM

The loan was funded through TALF LLC, a special purpose vehicle created by The Federal Reserve Bank of New York ("FRBNY"). The amoun of $\$ 20,000,000,000$ represents the maximum loan amount. The loan will be incrementally funded.
$2 /$ On $7 / 191 / 2010$, Treasury, the FRBNY and TALF LLC entered into an amendment of the credit agreement previously entered into on $3 / 3 / 20009$, which amendment reduced Treasury's maximum loan amount to $\$ 4,300,000,000$.

Subject to adjustment
TOTAL INVESTMENT AMOUNT $\xlongequal{\$ \quad 368,145,452}$ *
/The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at mum. Financialstabili
/ Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement. if applicable.
If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. II publication of the applicable month's factor (on or about the 11th business day of each month).
4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7 Ta Security. Each Senior Security will (i) have an aggregate principal amount
equal to the product of (A) $0.05 \%$ and (B) the
set forth in the Master Purchase Agreemen.
 I/ otat Program Proceeds To Date includes
8/ The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount only after the applicable month's factor has been published and trailing principal \& interest payments have been received.

| 1 | 9/3/2010 | Citigroup, Inc. | New York | NY | Purchase | Facility Purchase Agreement, dated as of September 3, 2010, between the U.S. Department of the Treasury and Citibank, N.A | \$ | 8,117,000,000 | N/A |
|  |  |  |  |  |  | total | \$ | 8,117,000,000 |  |

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the 'L/C Facility Agreement'), which allowed Treasury to demand from Citigroup the issuance of an up to $\$ 8$ billion, 10 -year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of $\$ 117$ million.

## U.S. Treasury Department Office of Financial Stability

Troubled Asset Relief Program
Projected Costs and Liabilities [Section 105(a)(3)(E)]

For Period Ending August 31, 2011

Type of Expense/Liability
Amount
None

Note: Treasury interprets this reporting requirement as applicable to costs and liabilities related to insurance contracts entered into under the provisions of section 102 of the EESA; and the single insurance contract with Citigroup was terminated on December 23, 2009.
