February 2012

The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). More than three years after the establishment of the TARP, we are making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. As of today, taxpayers have recovered almost \$259 billion from TARP's bank programs through repayments, dividends, interest, and other income – approximately \$14 billion more than the \$245 billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

Where are the TARP Funds?¹

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Figure 1: Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update is also available on FinancialStability.gov and is updated after every business day. http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-daily-summary-report/Pages/default.aspx.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of

¹ Numbers in text and tables in this report may not add because of rounding.

specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

1/ This represents the portion of the repayments that were received from refinancing to the Small Business Lending Fund (SBLF), a program established by law outside of TARP. This column is not used to calculate the outstanding amount.

- 2/ Amounts of "Realized Loss," "Gain / Other Income," and "Warrants Sold" reflect net cash receipts.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 5/ Citigroup Capital Purchase Program (CPP) investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 6/ Gain/Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 7/ All Community Development Capital Initiative (CDCI) collections are grouped in the "Not From Exchanges" row/category.
- 8/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- 9/ TARP's investment in American International Group, Inc. (AIG) was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 10/ On May 24, 2011, Treasury sold a total of 200 million AIG common shares at \$29 per share, consisting of 131,981,246 TARP shares and 68,018,754 non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$1,972,543,866 and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is \$28.73.
- 11/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 12/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of November 30, 2011, except for TALF and PPIP.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of November 30, 2011. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in aggregate value of the outstanding shares of the investments in light of market prices as of February 29, 2012 and the corresponding effect on estimated cost assuming no other changes.

- 3/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 30, 2011, Treasury had recovered more than 100% of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds and estimates that the bank programs will result in a lifetime positive return for taxpayers of more than \$20 billion (see Figure 2).

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

- 2/ Gross proceeds excluding commissions paid. Includes proceeds from exercised warrants.
- 3/ Institutions where Treasury has converted its original investment into shares of common stock in the institution.

Repayments

In February, two institutions repurchased all or part of their outstanding CPP preferred shares or subordinated debentures from Treasury's investments in those institutions, for total proceeds of \$24 million.

- On February 8, Lakeland Bancorp Inc. repurchased the remaining outstanding CPP investment in that institution for a total of \$19 million.
- On February 15, First Express of Nebraska Inc. repurchased the outstanding CPP investment in that institution for a total of \$5 million.

Exchanges and Sales

In limited cases, in order to protect the taxpayers' interest in the value of a CPP investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities. Treasury evaluates whether to participate in an exchange of the CPP preferred stock on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital position and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

• On February 10, Treasury entered into an agreement with Broadway Financial Corporation to exchange Treasury's \$15,000,000 of preferred stock for common stock. The exchange is subject to the fulfillment by Broadway Financial Corporation of certain conditions, including the satisfactory completion of a capital plan.

Warrant Repurchases

On February 22, Treasury released the latest <u>TARP Warrant Disposition Report</u> http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/other/DocumentsOther/TARP_Warrant_Disposition_Report_2-22-2012.pdf including data during the six months ending December 31, 2011. During that period, Treasury received more than \$70.3 million in gross proceeds from the disposition of varrants associated with 127 CPP investments and 2 Targeted Investment Program (TIP) investments, consisting of \$3.7 billion from issuer repurchases at agreed upon fair market values and \$5.4 billion from auctions. As of December 31, 2011, Treasury held warrants to purchase common stock in 17 financial institutions that have fully repaid their CPP investments and in 146 publicly traded companies in which the CPP investment is still outstanding. Treasury intends to continue to execute a consistent and transparent disposition process which achieves fair market values and protects taxpayer interests.

In February, Treasury disposed of warrant positions in five institutions that were received in consideration for investments made under the CPP. These proceeds provided an additional return to the American taxpayer of \$5.53 million from Treasury's investments in banks beyond any dividend or interest payments.

- Treasury completed the sale of warrants issued by Pathfinder Bancorp, Inc.; Peoples Bancorp, Inc.; New Hampshire Thrift Bancshares, Inc.; and Lakeland Bancorp Inc. for a total of \$5.28 million as part of each institution's purchase of all preferred stock held by Treasury.
- First Express of Nebraska Inc. repurchased preferred shares and/or subordinated debentures from exercised warrants from Treasury for a total of \$250,000.

Dividends and Interest

In February, Treasury received dividends and interest income from CPP investments of approximately \$154.33 million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$11.55 billion.

Bank Closures

• On February 10, SCB Bank, Shelbyville, Indiana, the banking subsidiary of Blue River Bancshares, Inc., was closed by the Office of the Comptroller of the Currency, which appointed the Federal Deposit Insurance Corporation (FDIC) as receiver.

Board of Directors Appointments

In February, Treasury exercised its right to elect members to the board of directors of one institution participating in CPP.

Robert R. "Bob" Lane was elected to the Board of Directors of First Security Group, Inc. (Chattanooga, TN).

As a participant in CPP, each institution entered into securities purchase agreements with Treasury that provide Treasury the contractual right to nominate up to two members to the board of a CPP recipient in the event that the institution misses a sixth dividend or interest payments on the preferred stock issued to Treasury. This appointment brings the total number of Treasury elected board of director members to thirteen at eight CPP institutions.

Capital Purchase Program Density Maps and Regional Snapshots

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped nationwide and regionally to provide a visual overview of outstanding investments. The maps and regional snapshots will provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

The regional maps are shown with a list of the Top 15 largest outstanding investments in that region, and a state by state snapshot is provided for further detail. The regional maps also indicate which of the top 15 institutions in each region have outstanding payments due to Treasury. A full list of remaining CPP investments, including more detail about those banks with outstanding payments including the number of payments they have missed, is contained in the appendix to this report. Other Investment Programs

Investment in American International Group (AIG)

- On March 8, AIG sold 1.72 billion ordinary shares of AIA Group Limited (AIA) for approximately \$6 billion. AIG will use the \$5.6 billion of
 the net proceeds from the sale to reduce the balance due to Treasury on Treasury's preferred equity interest in the special purpose
 vehicle through which AIG holds the AIA ordinary shares.
- On March 8, Treasury priced an offering of 206,896,552 shares of its American International Group (AIG) common stock at a price to
 the public of \$29.00 per share. Treasury will receive proceeds of \$6.0 billion. AIG is purchasing 103,448,276 shares of the common
 stock sold by Treasury in this offering at the initial public offering price for approximate proceeds of \$3 billion.
- In addition, Treasury and AIG have reached an agreement that provides for the repayment of the government's remaining \$8.5 billion preferred equity investment in the AIG-owned entity AIA Aurora LLC (AIA SPV) a special purpose vehicle that holds ordinary shares in AIA Group Limited (AIA). AIG is expected to repay this remaining \$8.5 billion (plus accrued preferred return) from the following sources:
 - o \$5.6 billion in proceeds from AIG's sale of ordinary shares of AIA, described above, received by Treasury on March 8, 2012.
 - \$1.6 billion in expected proceeds from the Federal Reserve Bank of New York's (FRBNY) final disposition of Maiden Lane II LLC securities to be received by Treasury in March 2012.
 - \$1.6 billion in escrowed cash proceeds from AIG's sale of its American Life Insurance Co. (ALICO) subsidiary to MetLife, Inc., to be received in installments in November 2012 and May 2013.
- With the receipt of the proceeds from the AIG's sale of ordinary shares of AIA and the closing of the AIG share offering on March 13,
 Treasury will hold approximately 1.248 billion shares of common stock and approximately \$2.9 billion of preferred equity interests.
 Treasury's percentage of ownership of AIG's outstanding shares of common stock will decline from 77 percent to approximately 70 percent.
- In addition, the Federal Reserve Bank of New York has a loan to Maiden Lane III totaling \$9.3 billion. That FRBNY loan is collateralized by assets with a current value well in excess of the outstanding loan balance.

Housing Programs

Making Home Affordable Program Performance Report

On March 2, 2012, the U.S. Department of the Treasury released the **Making Home Affordable (MHA) Program Performance Report through January 2012**: http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx. Highlights from this month include:

- More than 950,000 homeowners have been granted permanent modifications since the start of the program. Approximately 18,000 new
 permanent modifications and nearly 17,000 trial modification starts have been reported since the December report. To date,
 homeowners in permanent modifications have saved an estimated \$11 billion in monthly mortgage payments. Homeowners in active
 first lien permanent modifications are currently saving a median of \$533 per month more than one-third of the median beforemodification payment.
- Eighty-five percent of eligible homeowners entering a HAMP trial modification since June 1, 2010 received a permanent modification, with an average trial period of 3.5 months.
- For homeowners currently in HAMP permanent modifications with the Principal Reduction Alternative feature, the median amount of principal reduced is \$68,063. This amounts to over \$3.7 billion in principal reductions. These homeowners are further underwater and more seriously delinquent at trial start than the overall population of HAMP participants. 88% of homeowners in the PRA program are at least 60 days delinquent at trial start (compared to 80% of the overall HAMP portfolio) with a before-modification loan-to-value ratio of 159% (compared to 120% for the overall portfolio).

Servicer Assessments

Included in MHA Program Performance Report through January 2012 are detailed assessments for the largest mortgage servicers participating in the MHA Program with results from the fourth quarter of 2011. In addition to providing greater transparency about servicer performance in the program, the servicer assessments – first introduced in June 2011 and published quarterly – are intended to set a new industry benchmark for disclosure around servicer efforts to assist struggling homeowners, while prompting them to correct identified deficiencies.

• For the fourth quarter of 2011, seven servicers were found in need of moderate improvement and two servicers were found to need minor improvement with respect to the specific metrics tested. No servicer was found in need of substantial improvement this quarter.

2MP and HAFA Program Results

• The Second Lien Modification Program (2MP) enables homeowners in a HAMP first lien permanent modification to modify eligible second lien mortgages held by a participating servicer. To date, more than 65,000 homeowners in a HAMP first lien permanent modification have received assistance through 2MP. Since homeowners with HAMP first lien permanent mortgage modifications become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow.

Nearly 50,000 homeowners have reached agreements with their servicer to exit their home and transition to a more affordable living
situation under the Home Affordable Foreclosure Alternatives (HAFA) Program through a short sale or deed-in-lieu of foreclosure. More
than 31,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides \$3,000 for relocation assistance
after a homeowner exits the home.

Hardest Hit Fund

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

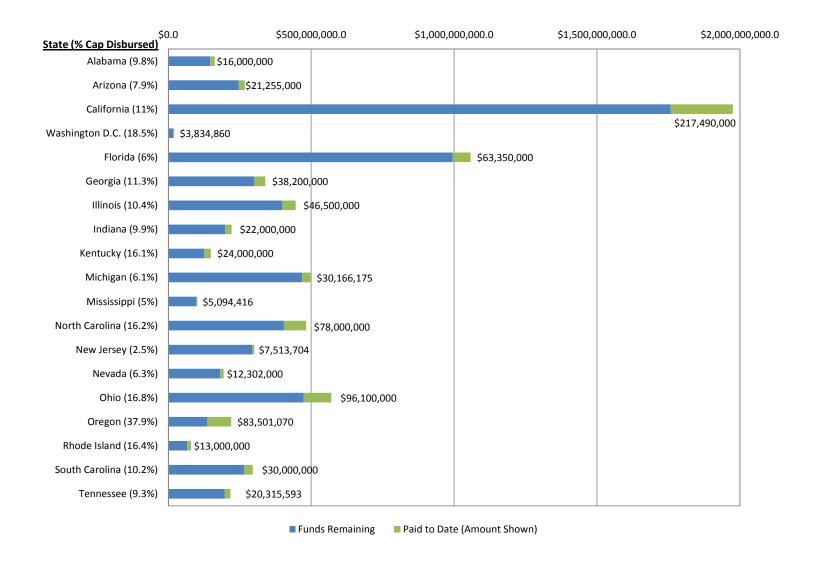

- There are now 55 programs across the 19 HFAs. Approximately 70 percent of total program funds are being targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing
 counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring of
 underwriters and other staff to review and approve applications.
- The five largest servicers (Bank of America, GMAC, JPMorgan Chase, Citibank, and Wells Fargo) are participating in all states, primarily in mortgage payment assistance and reinstatement programs; several states have over one hundred participating servicers.
- All HFAs are now up and fully operational. Although states take time to refine processes and build volume, a number of states that
 have been up and running for longer periods of time are starting to show substantial growth in the number of borrowers assisted (e.g.
 Michigan, Ohio, North Carolina, Oregon, California, and Florida). Treasury is working to identify best practices, share lessons learned
 between states, and develop other ways to provide technical assistance to states with lower participation volumes.
- Treasury recently approved changes to Nevada's program, including an option for reinstatement of homeowners who have recovered
 from a hardship and a new program that is designed to provide bridge assistance for homeowners on a fixed income to obtain a
 mortgage modification or other long-term sustainable solution.
- Treasury continues to hold conversations with HFAs, servicers, the Government Sponsored Enterprises (GSEs), and other relevant stakeholders on ways to improve the delivery of foreclosure prevention assistance. Discussion topics include enhancing states' transition assistance programs and identifying ways to help transition homeowners at the end of unemployment mortgage assistance to other resources available.
- Three HFAs drew a total of \$25.5 million in February; over the life of the program, a total of \$829 million has been drawn down by the 18 states and DC. Each state draws down funds as they are needed. (See Figure 6) States have until December 31, 2017 to expend funds, and must have no more than 5 percent of its allocation on hand before they can draw down additional funds.

• Each state submits a quarterly report on the progress of its program. Direct links to each state's most recent performance report can be found at http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx and below in Figure 5.

^{1/} The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

^{2/} Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

^{3/} If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

^{4/} In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

^{5/} Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

^{6/} If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security is priced according to the prior-month's factor. The PMF disposition amount will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

^{7/} Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

1/ The Cap of Incentive Payments represents the potential total amount allocated to each servicer and includes the maximum amount allotted for all payments on behalf of borrowers and payments to servicers and lenders/investors.

The Cap is subject to adjustment based on the total amount allocated to the program and individual servicer usage for borrower modifications. Each adjustment to the Cap is reflected under Adjustment Details.

2/ On July 31, 2009, the SPA with Chase Home Finance, LLC was terminated and superseded by new SPAs with J.P. Morgan Chase Bank, NA and EMC Mortgage Corporation.

3/ Wachovia Mortgage, FSB was merged with Wells Fargo Bank, NA, and the remaining Adjusted Cap stated above represents the amount previously paid to Wachovia Mortgage, FSB prior to such merger.

4/ Initial cap amount includes FHA-HAMP.

5/ Initial cap amount includes RD-HAMP.

6/ Initial cap amount includes 2MP.

7/ Initial cap amount includes FHA-2LP.

8/ Initial cap does not include HAMP.

9/ This institution executed an Assignment and Assumption Agreement (a copy of which is available on www.FinancialStability.gov) with respect to all rights and obligations for the transferred loan modifications. The amount transferred is realized as a cap adjustment and not as initial cap.

10/ The amendment reflects a change in the legal name of the institution.

11/ MorEquity, Inc executed a subservicing agreement with Nationstar Mortgage, LLC, that took effect 02/01/2011. All mortgage loans including all HAMP loans were transferred to Nationstar. Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.
