The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Three and a half years after the establishment of the TARP, we are making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. As of March 31, 2012, taxpayers have recovered almost \$260 billion from TARP's bank programs through repayments, dividends, interest, and other income – approximately \$15 billion more than the \$245 billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

Highlights

In March, Treasury made significant progress toward exiting its investments in AIG, recovering more than \$14.6 billion. The proceeds included \$6 billion from the sale of common stock and \$8.6 billion in repayments of the government's preferred equity investment in the AIG-owned entity AIA Aurora LLC (AIA SPV) – more than one year ahead of schedule. Treasury's preferred equity investment in AIG has now been repaid in full.

During the financial crisis, overall support for AIG through Treasury and the Federal Reserve Bank of New York (FRBNY) totaled approximately \$182 billion. Following the March transactions, the government's remaining outstanding investment is \$45 billion, which represents a more than 75 percent reduction from that original commitment. Of that amount TARP holds \$36 billion in AIG common stock and the company owes the Federal Reserve \$9 billion in loan proceeds tied to the Maiden Lane III investment vehicle.

Since the last monthly report to Congress, Treasury made additional progress in exiting its remaining investments in banks. On March 28, Zions Bancorporation, the institution with the second largest remaining CPP investment, redeemed one half of its outstanding preferred shares for \$700 million. Also, on March 28, Treasury held a successful auction of its preferred positions in 6 banks, which resulted in proceeds of approximately \$362 million. On March 30, Treasury sold its remaining shares of common stock in Central Pacific Financial Corporation, which resulted in approximate proceeds of \$36 million for a total of approximately \$71.9 million in proceeds from all sales of Central Pacific Financial Corporation.

Finally, on April 4, the bank with the largest remaining TARP investment, Regions Financial Corporation, repurchased all of its 3,500,000 outstanding preferred shares for \$3.5 billion, including accrued dividends.¹

¹ Because the Regions repurchase took place after the end of the reporting period, it is not reflected in the tables and charts that follow.

Where are the TARP Funds?²

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Figure 1: Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update is also available on FinancialStability.gov and is updated after every business day.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

² Numbers in text and tables in this report may not add because of rounding.

Notes to Daily TARP Update

- 1/ This represents the portion of the repayments that were received from refinancing to the Small Business Lending Fund (SBLF), a program established by law outside of TARP. This column is not used to calculate the outstanding amount.
- 2/ Amounts of "Realized Loss," "Gain / Other Income," and "Warrants Sold" reflect net cash receipts.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.

- 4/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 5/ Citigroup Capital Purchase Program (CPP) investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 6/ Repayments do not include the repurchase of \$3.5 billion by Regions Financial Corporation on April 4, 2012.
- 7/ Repayments do not include the preferred auction sales totally \$362 million that traded on March 28, 2012 and TARP received payment for on April 3, 2012.
- 8/ Gain/Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 9/ All Community Development Capital Initiative (CDCI) collections are grouped in the "Not From Exchanges" row/category.
- 10/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- 11/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 12/ TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 13/ Treasury's investment in AIG common shares consisted of 1.09 billion shares acquired on conversion of preferred stock purchased with TARP funds ("TARP shares") and 563 million shares received from the trust created by the Federal Reserve Bank of New York (FRBNY) for the benefit of Treasury ("non-TARP shares"). The non-TARP shares were part of the consideration owed to the FRBNY for its original loan to AIG. On repayment of that loan (which was repaid in part with TARP funds), the shares were distributed to Treasury. Treasury manages the TARP shares and non-TARP shares together, and disposes of them pro-rata in proportion to its holdings. To date, Treasury has sold a total of 407 million shares, consisting of approximately 268 million TARP shares and 138 million non-TARP shares, at an average price of \$29 per share. For accounting purposes, only the TARP shares and cash from the sale of such shares are shown in the Daily TARP Update. Therefore, the Daily TARP Update shows cash back of \$7.79 billion from the sale of such 268 million shares, and a realized loss based on Treasury's cost basis in the TARP shares alone. However, Treasury has realized a gain on sales sold to date overall when one includes the "non-TARP" shares in the calculation of Treasury's cash basis. See also the lifetime cost estimates and note 5 thereto. The CBO estimate for the cost of the TARP investment in AIG refers only to the TARP shares.
- 14/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 15/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of February 29, 2012, except for TALF and PPIP.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of February 29, 2012. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in aggregate value of the shares outstanding as of February 29, 2012. The amounts as of March 31, 2012 include the market value of the outstanding AIG shares and the proceeds from the sale of AIG common stock in March.

Outstanding Investment	02/29/2012 Market Value	03/31/2012 Market Value	Increase (Decrease) in Cost
	In billions		
AIG Common Stock	\$ 28.06	\$ 29.35	\$ (1.29)
GM Common Stock	\$ 13.01	\$ 12.83	\$ 0.18
Additional AIG Common Shares	\$ 14.46	\$ 15.13	\$ (0.67)

Note: For the period ending 02/29/2012, the share price for AIG was \$29.22 and for GM was \$26.02. For the period ending 03/31/2012, the share price for AIG was \$30.83 and for GM was \$25.65.

- 3/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 5/ As discussed in note 13 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired on conversion of preferred stock purchased with TARP funds ("TARP shares") and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG. Treasury manages the TARP shares and non-TARP shares together, and disposes of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per shares and there is currently an estimated loss of \$1.19 billion overall, which reflects proceeds of sales to date (at an average price of \$29.00 per share), the closing price of AIG common shares on February 29, 2012 of \$29.22 and the financing costs associated with Treasury borrowings from the time of initial investment through the reporting period.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100% of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds and estimates that the bank programs will result in a lifetime positive return for taxpayers of more than \$20 billion (see Figure 2).

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Repayments

In March, eight institutions repurchased all or part of their outstanding CPP preferred shares or subordinated debentures from Treasury's investments in those institutions, for total proceeds of \$952.52 million.

- Heritage Commerce Corporation; Mainline Bancorp, Inc.; MB Financial Inc.; Valley Commerce Bancorp; First Commerce Bank, formerly known as Northern State Bank, repurchased all outstanding CPP investment in that institution for a total of \$250.77 million.
- Beach Business Bank; Patterson Bancshares, Inc.; and Zions Bancorporation made partial repayments of the outstanding CPP investment in that institution for a total of \$701.75 million. A total of \$704.94 million of outstanding CPP investment remains in those institutions.

Dispositions

- On March 9, Treasury completed the sale of all Mainline Bancorp, Inc. preferred stock and exercised warrants held by Treasury to 9th Street Holdings, Inc., a subsidiary of S&T Bancorp, Inc., for an aggregate purchase price of \$4,725,000 plus accrued and unpaid dividends, pursuant to the terms of an agreement among Treasury, 9th Street Holdings, Inc., and S&T Bancorp, Inc., entered into on March 8, 2012.
- On March 28, Treasury executed underwriting agreements for the sale of all preferred stock at six institutions through a modified Dutch auction (Banner Corporation; First Financial Holdings Inc.; MainSource Financial Group, Inc.; Seacoast Banking Corporation of Florida; Wilshire Bancorp, Inc.; and WSFS Financial Corporation) for a total of approximately \$362 million in proceeds. More information can be found in Treasury's Press Release here: <http://www.treasury.gov/press-center/press-releases/Pages/tg1513.aspx>

- On March 29, Treasury executed an underwriting agreement for the sale of all of Treasury's remaining 2,770,117 shares of Central Pacific Financial Corporation common stock at \$13.01 per share (which represents the \$13.15 public offering price less underwriting discounts) for proceeds of approximately \$36 million for total proceeds across all sales of Central Pacific Financial Corporation of approximately \$71.9 million.

Warrant Repurchases

In March, Treasury disposed of warrant positions in three institutions that were received in consideration for investments made under the CPP. These proceeds provided an additional return to the American taxpayer of \$0.45 million from Treasury's investments in banks beyond any dividend or interest payments.

- Valley Commerce Bancorp and First Commerce Bank repurchased preferred shares and/or subordinated debentures from exercised warrants from Treasury for a total of \$452,000.

Dividends and Interest

In March, Treasury received dividends and interest income from CPP investments of approximately \$5.5 million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$11.56 billion.

Board of Directors Appointments

In March, Treasury exercised its right to elect members to the board of directors of three institutions participating in CPP.

- William Grant was elected to the Board of Directors of First Security Group, Inc. (Chattanooga, TN). This is Treasury's second and final appointment at the institution.
- Bruce Currier was elected to the Board of Directors of PremierWest Bancorp (Medford, OR). This is Treasury's second and final appointment at the institution.
- Susan Roth Katzke was elected to the Board of Directors of Intervest Bancshares Corporation (New York, NY).

As a participant in CPP, each institution entered into securities purchase agreements with Treasury that provide Treasury the contractual right to nominate up to two members to the board of a CPP recipient in the event that the institution misses a sixth dividend or interest payments on the preferred stock issued to Treasury. These appointments bring the total number of Treasury elected board of director members to sixteen at nine CPP institutions.

Community Development Capital Initiative

In order to provide lower cost capital to community development financial institutions, Treasury established the Community Development Capital Initiative. In total, Treasury invested approximately \$570 million in 84 community development financial institutions, which includes approximately \$363 million exchanged by 28 financial institutions from the Capital Purchase Program.

- On March 23, 2012, Premier Bank, Wilmette, IL, the banking subsidiary of Premier Bancorp, Inc., was closed by the Illinois Department of Financial and Professional Regulation - Division of Banking, and the Federal Deposit Insurance Corporation (FDIC) was named Receiver.

Capital Purchase Program Density Maps and Regional Snapshots³

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped nationwide and regionally to provide a visual overview of outstanding investments. The maps and regional snapshots will provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

The regional maps are shown with a list of the Top 15 largest outstanding investments in that region, and a state by state snapshot is provided for further detail. The regional maps also indicate which of the top 15 institutions in each region have outstanding payments due to Treasury. A full list of remaining CPP investments, including more detail about those banks with outstanding payments including the number of payments they have missed, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at <http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx>.

³ The regional maps do not reflect the repurchase by Regions Financial Corporation of its remaining outstanding CPP investment as it took place after the end of the reporting period.

Credit Market Programs**Public-Private Investment Program (PPIP)**

The Legacy Securities Public-Private Investment Program (PPIP) supports credit market functions by bringing private capital back into the market for legacy securities (*i.e.*, non-agency residential mortgage-backed securities (RMBS) and commercial mortgage-backed securities (CMBS)) that were central to the problems facing the U.S. financial system. By restarting the market for these securities, the program has helped financial institutions begin to remove these assets from their balance sheets and allowed for a general increase in credit availability to consumers and small businesses.

- In March, Invesco Legacy Securities Master Fund (Invesco) became the first of eight remaining Public-Private Investment Funds (PPIFs) established under PPIP, to sell its remaining investments and return substantially all of the proceeds to Treasury and its private investors. Invesco is expected to retain a small amount of capital to satisfy remaining obligations of the fund, with a wind up and final liquidation expected to occur in the next few months.
- Invesco has repaid all of the approximately \$1.2 billion in debt and \$581 million in equity capital invested by Treasury in the fund. In addition, Treasury received approximately \$18 million in interest, \$3 million in warrant proceeds and \$135 million in cumulative realized gains net of fees and expenses on the equity invested (approximately 18% net internal rate of return) in the Invesco PPIF.
- The seven remaining PPIFs collectively have approximately \$26.0 billion in total purchasing power and have drawn down more than 80% of the total purchasing power to date. These PPIFs continue to invest in legacy mortgage-backed securities for the remainder of their investment periods, which end in late 2012. Following the end of the investment period, these PPIFs may continue to manage their investments for an additional five years, which may be extended for consecutive periods of up to one-year each, up to a maximum of two years. For more details regarding the activity, holdings and performance of the PPIFs, please see the latest quarterly report at: <http://www.treasury.gov/initiatives/financial-stability/programs/Credit%20Market%20Programs/ppip/Pages/publicprivatefund.aspx>.
- The next PPIP quarterly report for the period ended March 31, 2012 is scheduled to be released in late April.

Investment in American International Group (AIG)

In March 2012, Treasury recovered more than \$14.6 billion on its investment in AIG. That includes \$6 billion in proceeds from the sale of common stock and \$8.6 billion in repayments of preferred equity interests.

- On March 13, Treasury sold 206,896,552 shares of its American International Group (AIG) common stock for proceeds of \$6.0 billion. Of that, 103,448,276 shares were purchased by AIG.
- In addition, in March, AIG fully repaid the government's \$8.5 billion (plus accrued preferred return) preferred equity investment in the AIG-owned entity AIA Aurora LLC (AIA SPV) – a special purpose vehicle that holds ordinary shares in AIA Group Limited (AIA) – more than a year ahead of schedule.

During the financial crisis, overall support for AIG through Treasury and the Federal Reserve Bank of New York (FRBNY) totaled approximately \$182 billion. With last month's transactions, the government's remaining outstanding investment is now \$45 billion, which represents a more than 75 percent reduction from that original commitment. The remaining \$45 billion investment consists of:

- Treasury holds 1.248 billion shares of AIG common stock (approximately 824 million TARP shares and 424 million non-TARP shares) as described in footnote 13 on page 4.
- The FRBNY's loan to Maiden Lane III (\$9 billion), which is collateralized by assets with a current value well in excess of the outstanding loan value.

Housing Programs

Making Home Affordable Program Performance Report

On April 6, 2012, the U.S. Department of the Treasury released the **Making Home Affordable (MHA) Program Performance Report through February 2012**: <http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx>. Highlights from this month include:

- In total, more than 1.1 million homeowner assistance actions have been granted through MHA, consisting of first and second lien permanent modifications, HAFA transactions, and UP forbearance plans.
- More than 970,000 homeowners have been granted permanent modifications since the start of the program. Approximately 22,000 new permanent modifications and 17,000 trial modification starts have been reported since the January report.
- To date, homeowners in permanent modifications have saved an estimated \$11.6 billion in monthly mortgage payments. Homeowners in active first lien permanent modifications are currently saving a median of \$534 per month – more than one-third of the median before-modification payment.
- Eighty-five percent of eligible homeowners entering a HAMP trial modification since June 1, 2010 received a permanent modification, with an average trial period of 3.5 months.
- For homeowners currently in HAMP permanent modifications with the Principal Reduction Alternative feature, the median amount of principal reduced is \$68,523. To date, more than 50,000 permanent PRA modifications have been started.

2MP and HAFA Program Results

- The Second Lien Modification Program (2MP) enables homeowners in a HAMP first lien permanent modification to modify eligible second lien mortgages held by a participating servicer. To date, more than 70,000 homeowners in a HAMP first lien permanent modification have received assistance through 2MP. Since homeowners with HAMP first lien permanent mortgage modifications become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow. Homeowners in 2MP have saved a median of \$161 per month on their second mortgage, in addition to the savings realized from the modification of their first mortgage under HAMP. Over 50 percent of second lien borrowers reside in three states: California (36%); Florida (9%); and New York (6%).
- Nearly 55,000 homeowners have reached agreements with their servicer to exit their home and transition to a more affordable living situation under the Home Affordable Foreclosure Alternatives (HAFA) Program through a short sale or deed-in-lieu of foreclosure. Nearly 36,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides \$3,000 for relocation assistance after a homeowner exits the home.

Hardest Hit Fund

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

- There are now 55 programs across the 19 HFAs. Approximately 70 percent of total program funds are being targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring of underwriters and other staff to review and approve applications.
- The five largest servicers (Bank of America, GMAC, JPMorgan Chase, Citibank, and Wells Fargo) are participating in all states, primarily in mortgage payment assistance and reinstatement programs; several states have over one hundred participating servicers.
- All HFAs are now up and fully operational. Although states take time to refine processes and build volume, a number of states that have been up and running for longer periods of time are starting to show substantial growth in the number of borrowers assisted (e.g. Michigan, Ohio, North Carolina, Oregon, California, and Florida). Treasury is working to identify best practices, share lessons learned between states, and develop other ways to provide technical assistance to states with lower participation volumes.
- Treasury recently approved changes to programs in Arizona, Oregon, Rhode Island, and the District of Columbia. The changes to these states' programs are designed to make these programs more flexible and offer deeper levels of assistance to enable particularly hard hit homeowners to recover from unemployment.
- Treasury continues to hold conversations with HFAs, servicers, the Government Sponsored Enterprises (GSEs), and other relevant stakeholders on ways to improve the delivery of foreclosure prevention assistance. Discussion topics include enhancing states' transition assistance programs and identifying ways to help transition homeowners at the end of unemployment mortgage assistance to other resources available.
- Three HFAs drew a total of \$65.2 million in March; over the life of the program, a total of \$894 million has been drawn down by the 18 states and DC. Each state draws down funds as they are needed. (See Figure 6) States have until December 31, 2017 to expend funds, and must have no more than 5 percent of its allocation on hand before they can draw down additional funds.
- Each state submits a quarterly report on the progress of its program. Direct links to each state's most recent performance report can be found at <http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx> and below in Figure 5. These reports include the states' performance on metrics set by Treasury on various aspects of their programs.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
12. Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
13. The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
15. The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
17. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
19. Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
20. Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
21. Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
22. Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
23. On April 30, 2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
24. On October 27, 2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
25. On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional 53,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
26. On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500,000 of convertible preferred stock.
27. On 3/1/2011, Treasury entered into an agreement with Ally Financial, Inc. (Ally) and certain other parties to amend and restate the \$2,667,000,000 in aggregate liquidation preference of its Ally trust preferred securities so to facilitate a public underwritten offering. At the time of amendment and restatement, Treasury received all outstanding accrued and unpaid dividends and a distribution fee of \$28,170,000.
28. On 3/2/2011, Treasury entered into an underwritten offering for all of its Ally trust preferred securities, the proceeds of which were \$2,638,830,000, which together with the distribution fee referred to in footnote 27, provided total disposition proceeds to Treasury of \$2,667,000,000. This amount does not include the accumulated and unpaid dividends on the trust preferred securities from the date of the amendment and restatement through but excluding the closing date that Treasury will receive separately at settlement.
29. On March 31, 2011, the Plan of Liquidation for Motors Liquidation Company (Old GM) became effective, Treasury's \$986 million loan to Old GM was converted to an administrative claim and the assets remaining with Old GM, including Treasury's liens on certain collateral and other rights attached to the loan, were transferred to liquidation trusts. On December 15, 2011, Old GM was dissolved, as required by the Plan of Liquidation. Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.
30. In June 2009, Treasury provided a \$6.6 billion loan commitment to Chrysler Group LLC and received a 9.9 percent equity ownership in Chrysler Group LLC (Chrysler). In January and April 2011, Chrysler met the first and second of three performance related milestones. As a result, Fiat's ownership automatically increased from 20% to 30%, and Treasury's ownership was reduced to 8.6%. On May 24, 2011, Fiat, through the exercise of an equity call option, purchased an incremental 16% fully diluted ownership interest in Chrysler for \$1.268 billion, reducing Treasury's ownership to 6.6% (or 6.0% on a fully diluted basis). On July 21, 2011, Fiat, through the exercise of an equity call option, purchased Treasury's ownership interest for \$500 million. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trust's shares in Chrysler.
31. On May 24, 2011, Chrysler Group LLC terminated its ability to draw on the remaining \$2.066 billion outstanding under this loan facility.
32. On November 1, 2011, Treasury received a \$201,345.42 pro-rata tax distribution on its common stock from Ally Financial, Inc. pursuant to the terms of the Sixth Amended and Restated Limited Liability Company Operating Agreement of GMAC LLC dated May 22, 2009.

1/ The equity amount may be incrementally funded. Investment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.
2/ The loan may be incrementally funded. Investment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.
3/ Adjusted to show Treasury's maximum obligations to a fund.
4/ On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.
5/ Profit after capital repayments will be paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury) to the fund's partners, including Treasury, in respect of their membership interests.
6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation and \$267 million of maximum debt obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCW fund will remain a part of Treasury's total maximum S-PPIP investment amount.
7/ Amount adjusted to show Treasury's final capital commitment (membership interest) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.
8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.
