The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Three and a half years after the establishment of the TARP, we are making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. To date, taxpayers have recovered almost \$264 billion from TARP's bank programs through repayments, dividends, interest, and other income – approximately \$19 billion more than the \$245 billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

### Where are the TARP Funds?<sup>1</sup>

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

### Figure 1: Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update is also available on FinancialStability.gov and is updated after every business day. http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-daily-summary-report/Pages/default.aspx.

### Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting

<sup>&</sup>lt;sup>1</sup> Numbers in text and tables in this report may not add because of rounding.

guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

### **Notes to Daily TARP Update**

1/ This represents the portion of the repayments that were received from refinancing to the Small Business Lending Fund (SBLF), a program established by law outside of TARP. This column is not used to calculate the outstanding amount.

- 2/ Amounts of "Realized Loss," "Gain / Other Income," and "Warrants Sold" reflect net cash receipts.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 5/ Citigroup Capital Purchase Program (CPP) investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 6/ Gain/Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 7/ All Community Development Capital Initiative (CDCI) collections are grouped in the "Not From Exchanges" row/category.
- 8/ The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- 9/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 10/ TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 11/Treasury has sold a total of 595 million AIG common shares at an average price of \$29.47 per share, consisting of 392.92 million TARP shares and 202.50 million non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$ 5.97 billion and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is \$28.73.
- 12/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 13/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

### Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of February 29, 2012.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of May 31, 2012. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in aggregate value of the shares outstanding as of May 31, 2012. The amounts include the market value of the outstanding AIG shares and the proceeds from the sale of AIG common stock in March.

Outstanding Investment	 29/2012 ket Value	-	/31/2012 ket Value	crease ase) in Cost
		In	billions	
AIG Common Stock	\$ 28.06	\$	28.16	\$ (0.10)
GM Common Stock	\$ 13.01	\$	11.10	\$ 1.91
Additional AIG Common Shares	\$ 14.46	\$	14.51	\$ (0.05)

Note: For the period ending 02/29/2012, the share price for AIG was \$29.22 and for GM was \$26.02. For the period ending 05/31/2012, the share price for AIG was \$29.18 and for GM was \$22.20.

- 3/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 5/ As discussed in note 11 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds ("TARP shares") and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG. Treasury manages the TARP shares and non-TARP shares together, and disposes of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per shares and there is currently an estimated loss of \$1.19 billion overall, which reflects proceeds of sales to date (at an average price of \$29.47 per share), the closing price of AIG common shares on February 29, 2012 of \$29.22, and the financing costs associated with Treasury borrowings from the time of initial investment through the reporting period.

### **Program Updates**

### **Bank Support Programs**

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100% of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds and estimates that the bank programs will result in a lifetime positive return for taxpayers of more than \$20 billion (see Figure 2). For additional details on how Treasury intends to wind down its remaining bank investments under the Capital Purchase Program, see: <a href="http://www.treasury.gov/connect/blog/Pages/Winding-Down-TARPs-Bank-Programs.aspx">http://www.treasury.gov/connect/blog/Pages/Winding-Down-TARPs-Bank-Programs.aspx</a>

### **Capital Purchase Program (CPP)**

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

### Repayments

In May, two institutions repurchased part of their outstanding CPP preferred shares or subordinated debentures from Treasury's investments in those institutions, for total proceeds of \$18 million.

### **Warrant Repurchases/Dispositions**

In May, Treasury disposed of warrant positions in four institutions that were received in consideration for investments made under the CPP. These proceeds provided an additional return to the American taxpayer of \$49.4 million from Treasury's investments in banks beyond any dividend or interest payments.

- On May 2, Treasury sold warrants issued by Regions Financial Corp. for a total of \$45 million.
- In May, Treasury also sold warrants issued by MB Financial, Inc.; Park National Corporation; and Seacoast Banking Corporation of Florida for a total of \$4.4 million.

#### **Dividends and Interest**

In May, Treasury received dividends and interest income from CPP investments of approximately \$91.7 million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$11.7 billion.

### **Exit Strategy**

On May 3, Treasury provided additional details on how it intends to wind down its remaining bank investments under the Capital Purchase Program. In a blog post published on the Treasury website, http://www.treasury.gov/connect/blog/Pages/Winding-Down-TARPs-Bank-Programs.aspx, Timothy Massad, Assistant Secretary for Financial Stability, outlined Treasury's strategy, which will include repayments, restructurings, and sales. The extent to which Treasury employs each of the individual options will depend on market conditions and other factors.

### **Capital Purchase Program Density Maps and Regional Snapshots**

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped nationwide and regionally to provide a visual overview of outstanding investments. The maps and regional snapshots will provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

The regional maps are shown with a list of the Top 15 largest outstanding investments in that region, and a state by state snapshot is provided for further detail. The regional maps also indicate which of the top 15 institutions in each region have outstanding payments due to Treasury. A full list of remaining CPP investments, including more detail about those banks with outstanding payments including the number of payments they have missed, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at <a href="http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx">http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx</a>.

### **Investment in American International Group, Inc. (AIG)**

On May 6, Treasury priced an offering of approximately 163.9 million shares of its American International Group (AIG) common stock at \$30.50 per share in an underwritten public offering<sup>2</sup>. On May 7, the underwriters exercised their over-allotment option to purchase an additional \$750 million of AIG common stock from Treasury. The exercise of the over-allotment option increased Treasury's proceeds from the public offering to approximately \$5.8 billion and total number of shares sold in the offering to approximately 188.5 million. Overall, the offering reduced Treasury's remaining investment in AIG to \$30 billion, consisting of approximately 1.06 billion shares of common stock; and reduced Treasury's percentage ownership of AIG's outstanding shares of common stock from 70 percent to 61 percent.

<sup>2</sup> 

<sup>&</sup>lt;sup>2</sup> As part of Treasury's offering, AIG agreed to purchase approximately 65.6 million shares at the public offering price of \$30.50 per share – representing \$2.0 billion of Treasury's expected proceeds from the sale.

### **Auto Programs**

### **Ally Financial**

In May 2012, Residential Capital, LLC (ResCap) filed to enter into a Chapter 11 reorganization process. ResCap is a residential mortgage company owned by Ally Financial. It is a separate and distinct company from Ally that has its own board of directors and creditors. And it is about one-tenth the size of Ally based on assets. Treasury does not hold any equity, debt, or other direct investment in ResCap. While it is unfortunate that a Chapter 11 filing became necessary for ResCap, we believe that this action puts taxpayers in a stronger position to continue recovering their investment in Ally Financial.

A blog post by Assistant Secretary Timothy G. Massad discussing Treasury's view of the Chapter 11 filing is available on the Treasury website at: <a href="http://www.treasury.gov/connect/blog/Pages/Putting-Taxpayers-in-a-Stronger-Position-to-Continue-Recovering-Their-Investment-in-Ally-Financial.aspx">http://www.treasury.gov/connect/blog/Pages/Putting-Taxpayers-in-a-Stronger-Position-to-Continue-Recovering-Their-Investment-in-Ally-Financial.aspx</a>.

#### **Housing Programs**

### **Making Home Affordable Program Performance Report**

On June 6, 2012, the U.S. Department of the Treasury released the **Making Home Affordable (MHA) Program Performance Report through April 2012**: <a href="http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx">http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx</a>. Highlights from this month include:

- In total, more than 1.1 million homeowner assistance actions have been granted through MHA, consisting of first and second lien permanent modifications, Home Affordable Foreclosure Alternatives (HAFA) transactions, and Unemployment Program (UP) forbearance plans.
- More than 1,000,000 homeowners have been granted permanent modifications since the start of the program. Approximately 15,000 new permanent modifications and 19,000 trial modification starts have been reported since the March report.
- To date, homeowners in permanent modifications have saved an estimated \$12.7 billion in monthly mortgage payments. Homeowners
  in active first lien permanent modifications are currently saving a median of \$535 per month more than one-third of the median
  before-modification payment.
- For homeowners currently in HAMP permanent modifications with the Principal Reduction Alternative feature, the median amount of principal reduced is \$68,267. This totals nearly \$4.7 billion in principal reductions. To date, homeowners in PRA are further underwater and more homeowners are seriously delinquent at trial start than the overall population of HAMP participants. 88% of homeowners in the PRA program are at least 60 days delinquent at trial start (compared to 80% of the overall HAMP population) with a before-modification loan-to-value ratio of 157% (compared to 120% for the overall HAMP population).
- On January 27, 2012, Treasury announced program enhancements to expand HAMP eligibility to "Tier 2". HAMP Tier 2 is designed to provide help for borrowers with a financial hardship whose debt-to-income ratio is below 31 percent, who have properties occupied by a tenant or who have vacant properties that the borrower is trying to rent. As of June 1, 2012, servicers have informed Treasury that they have begun accepting HAMP Tier 2 modification requests from borrowers. For more detail, please refer to page 3 of the MHA Program Performance Report through April 2012.

#### Servicer Assessments

Included in MHA Program Performance Report through April 2012 are detailed assessments for the largest mortgage servicers participating in the MHA Program with results from the first quarter of 2012. In addition to providing greater transparency about servicer performance in the program, the servicer assessments – first introduced in June 2011 and published quarterly – are intended to set a new industry benchmark for disclosure around servicer efforts to assist struggling homeowners, while prompting them to correct identified deficiencies.

 For the first quarter of 2012, three servicers were found to need minor improvement on the areas reviewed, while six servicers were found to need moderate improvement. All servicers will need to continue to demonstrate progress in areas identified in follow-up program reviews.

### 2MP and HAFA Program Results

The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify
eligible second lien mortgages serviced by a participating servicer. To date, more than 80,000 homeowners in a permanent first lien
modification under HAMP have received assistance through 2MP. Since homeowners with permanent first lien modifications under
HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow.

• Over 68,000 homeowners have reached agreements with their servicer to exit their home and transition to a more affordable living situation under the HAFA Program through a short sale or deed-in-lieu of foreclosure. Over 44,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides \$3,000 for relocation assistance after a homeowner exits the home.

#### **Hardest Hit Fund**

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

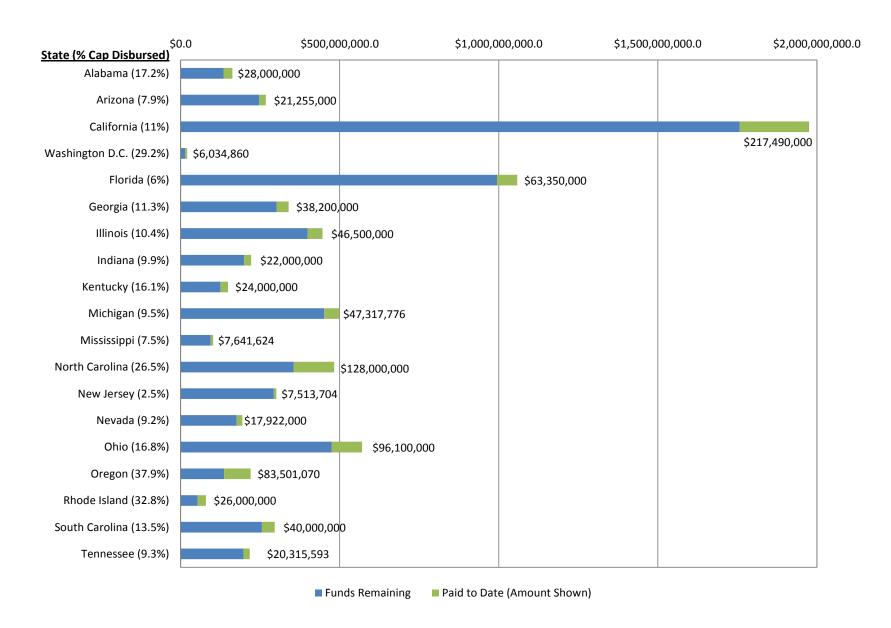

- There are now 55 programs across the 19 HFAs. Approximately 70 percent of total program funds are being targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing
  counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring of
  underwriters and other staff to review and approve applications.
- The five largest servicers (Bank of America, GMAC, JPMorgan Chase, Citibank, and Wells Fargo) are participating in all states, primarily in mortgage payment assistance and reinstatement programs; several states have over one hundred participating servicers.
- All HFAs are up and fully operational. Although states take time to refine processes and build volume, a number of states that have been up and running for longer periods of time are starting to show substantial growth in the number of borrowers assisted (e.g. California, Florida, Illinois, Michigan, North Carolina, Ohio and South Carolina). Treasury is working to identify best practices, share lessons learned between states, and develop other ways to provide technical assistance to states with lower participation volumes.
- Treasury recently approved program changes in Florida. The changes to Florida's programs are designed to make them more flexible, expand the eligible population of homeowners, and offer deeper levels of assistance to enable particularly hard hit homeowners to recover from unemployment or achieve a more sustainable mortgage payment.
- Two HFAs drew a total of \$17.6 million in May; over the life of the program, a total of \$941million has been drawn down by the 18 states and the District of Columbia. Each HFA draws down funds as they are needed. (See Figure 6) HFAs have until December 31, 2017 to expend funds, and must have no more than 5 percent of their allocation on hand before they can draw down additional funds.

• Each state submits a quarterly report on the progress of its programs. Direct links to each state's most recent performance report can be found at <a href="http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx">http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx</a> and below in Figure 5.

<sup>1/</sup> The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

<sup>2/</sup> Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

<sup>3/</sup> If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

<sup>4/</sup> In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008. Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

<sup>5/</sup> Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

<sup>6/</sup> If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security is priced according to the prior-month's factor. The PMF disposition amount will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

<sup>7/</sup>Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

<sup>8/</sup> The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

<sup>1/</sup> On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.

<sup>&</sup>lt;sup>1</sup>This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement through April 30, 2012. This report only contains data for servicers that provide this survey. This survey is a cumulative survey, therefore, an estimate of monthly activity was calculated by taking the latest monthly survey and subtracting it from the previous month's survey. This calculation may at times result in negative numbers due to servicing transfers or servicer corrections to prior reporting. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

<sup>&</sup>lt;sup>2</sup> "Requests Received" is the total number of HAMP mortgage modification requests received, calculated as the sum of the following from the Monthly Servicer Survey: Initial Packages Received and Being Evaluated; Packages Evaluated, Incomplete and Notice Sent; Packages Evaluated, Complete and Borrower Ineligible; and Packages Evaluated, Complete and Trial Offers Sent.

<sup>&</sup>lt;sup>3</sup> "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the Borrower by the Servicer, calculated as the sum of the following from the Monthly Servicer Survey: Packages Evaluated, Complete and Borrower Ineligible; and Packages Evaluated, Complete and Trial Offers Sent.

<sup>&</sup>lt;sup>4</sup> "Requests Approved" is the total number of HAMP mortgage modification requests approved, calculated as Packages Evaluated, Complete, and Trial Offers Sent. Note that all "Requests Approved" do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment.

<sup>&</sup>lt;sup>5</sup>"Requests Denied" is the total number of HAMP mortgage modification requests denied, calculated as Packages Evaluated, Complete and Borrower Ineligible.

<sup>&</sup>lt;sup>6</sup> Bank of America, NA includes Home Loan Services, Wilshire Credit Corporation and BAC Home Loans Servicing, LP.

<sup>&</sup>lt;sup>7</sup> Includes servicers that are no longer actively participating in the survey process or whose Servicer Participation Agreement has been terminated. These servicers no longer submit a survey, and their results only reflect previous periods when the survey questions were not as extensive as current surveys (e.g. #Requests Denied was not a component of earlier surveys).

<sup>&</sup>lt;sup>9</sup>Ocwen Loan Servicing, LLC includes Litton Loan Servicing LP.

<sup>&</sup>lt;sup>10</sup> Wells Fargo Bank, NA includes Wachovia Mortgage FSB.
