The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). More than four years after the establishment of the TARP, we are making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has continued to work to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. To date, taxpayers have recovered \$393 billion – or 94 percent – of the \$419 billion in TARP funds disbursed to date. And taxpayers have so far realized a \$24 billion positive return on their investments through TARP's bank programs. Treasury has recovered more than \$269 billion from TARP's bank programs through repayments, dividends, interest, and other income – compared to the \$245 billion invested in those institutions.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

## **February Highlights**

In February, Treasury held auctions for its outstanding preferred stock and subordinated debt in 15 financial institutions under the Capital Purchase Program (CPP), for aggregate net proceeds of approximately \$248.4 million. The auctions were part of the strategy Treasury outlined in May 2012 for winding down its remaining bank investments in a way that protects taxpayer interests and preserves the strength of our nation's community banks.

## Where are the TARP Funds?1

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

## Figure 1: Daily TARP Update (DTU)

The first chart shows for each TARP program the amount of funds obligated, the amount disbursed, repayments, income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update (DTU) is updated after every business day and is available at: <a href="http://www.treasury.gov/initiatives/financial-stability/reports/Pages/daily-tarp-reports.aspx">http://www.treasury.gov/initiatives/financial-stability/reports/Pages/daily-tarp-reports.aspx</a>.

## Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of

<sup>&</sup>lt;sup>1</sup> Numbers in text and tables in this report may not add because of rounding.

those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that TARP has consistently used to estimate lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future. It also includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

#### **Notes to Daily TARP Update**

- 1/ This row represents the portion of CPP repayments that were received from refinancing to the Small Business Lending Fund (SBLF), which is not a TARP program. The law creating the SBLF provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments. This amount is included in total repayments and therefore, this column is not used to calculate the "Outstanding" amount.
- 2/ This column represents non-cash exchanges out of CPP into CDCI. A total of 28 CPP banks, representing \$355.7 million, converted from CPP to CDCI. The total amount exchanged into CDCI, with converted warrants, was \$363.3 million.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ Amount of "Warrants Sold" reflects net cash receipts.
- 5/ "Other Income (Expenses)" includes gains on sales, investment income, fees collected, and disposition expenses.
- 6/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which are detailed in Figure 2.
- 7/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 8/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 9/ Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the "Write-offs & Realized Losses" column shows a loss based on Treasury's cost basis of \$43.53 in the TARP shares alone. The non-TARP shares are shown at the bottom of the page after the TARP Total under "Additional AIG Common Shares Held by Treasury." A gain in the "Other Income (Expenses)" column is shown for the non-TARP shares because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per share. With the sale of all remaining shares in December 2012, Treasury has recovered a total of \$72.84 billion (including proceeds from the sale of the non-TARP shares), compared to total TARP disbursements of \$67.84 billion.
- 10/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the prices at which Treasury has sold common shares in GM's initial public offering and subsequent sales and the Treasury's cost basis (\$43.52 per common share) for such shares. Treasury is implementing a disposition strategy for its remaining shares, under a pre-arranged written trading plan.
- 11/Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

## Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of December 31, 2012.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of December 31, 2012. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in the aggregate value of the shares outstanding as of December 31, 2012, compared to the aggregate value of shares outstanding as of February 28, 2013, including the shares sold during January and February, 2013.

Outstanding Investment	12/31/2012 Market Value		•	8/2013 et Value	Increase (Decrease) in Cost		
			In b	illions			
GM Common Stock	\$	8.65	\$	8.17	\$	0.48	

Note: The share price for GM was \$28.83 for the period ending December 31, 2012 and \$27.15 for the period ending February 28, 2013.

- 3/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 5/ As discussed in note 9 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares was deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis was \$28.73 per share. TARP estimates include financing costs (borrowing) from the time of initial investment through the reporting period.

## **Program Updates**

## **Bank Support Programs**

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100 percent of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds and so far taxpayers have realized a \$24 billion positive return on their investments through TARP's bank programs.

## **Capital Purchase Program (CPP)**

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banking institutions of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Today, every additional dollar recovered from CPP participants represents a positive return for taxpayers.

#### Notes to Capital Purchase Program Snapshot as of February 28, 2013:

- 1/ Institutions where Treasury has converted its original investment at a discount, into shares of common stock in the institution.
- 2/ Actual collections to date. Includes \$2.21 billion in SBLF transfers, \$0.36 billion in CDCI transfers and the gain of \$6.85 billion on the sale of Citi common.
- 3/ Includes proceeds from all auctions of CPP preferred, warrant preferred, note, and warrant note securities where cash has settled with OFS as of 2/28/2013.
- 4/ Net proceeds; includes proceeds from exercised warrants.

## Repayments at Par

In February, two institutions (Citizens First Corporation and Valley Financial Corporation) repurchased part of their outstanding CPP preferred shares from Treasury's investments in those institutions at par for total proceeds of \$4.9 million, resulting in a total of \$16.1 million in outstanding CPP investment remaining among those institutions.

## **Sales & Dispositions**

- On February 7 and 8, Treasury sold to private investors its preferred stock and subordinated debentures in 10 institutions (Alliance Financial Services, Inc.; Biscayne Bancshares, Inc.; Citizens Bancshares Co.; Colony Bankcorp, Inc.; Delmar Bancorp; Dickinson Financial Corporation II; F & M Bancshares, Inc.; First Priority Financial Corp.; HMN Financial, Inc.; and Waukesha Bankshares, Inc.) for aggregate gross proceeds of approximately \$174.1 million. More information can be found in Treasury's Press Release here: <a href="http://www.treasury.gov/press-center/press-releases/Pages/tg1834.aspx">http://www.treasury.gov/press-center/press-releases/Pages/tg1834.aspx</a>.
- On February 15, Treasury sold its CPP preferred stock and warrant issued by BancTrust Financial Group, Inc. (BancTrust) pursuant to an agreement with BancTrust and Trustmark Corporation entered into on February 11, 2013.
- On February 15, pursuant to the terms of the merger of Pacific International Bancorp, Inc. (Pacific International) with BBCN Bancorp, Inc. (BBCN), Treasury received \$7.5 million (representing the par amount together with accrued and unpaid dividends thereon) in respect of the preferred stock that had been issued to Treasury by Pacific International. Treasury exchanged its Pacific International warrant for an equivalent warrant issued by BBCN.
- On February 20, Treasury sold to private investors its preferred stock and subordinated debentures in five institutions (Carolina Bank Holdings, Inc.; FC Holdings, Inc.; First Trust Corporation; National Bancshares, Inc.; and Ridgestone Financial Services, Inc.) for aggregate gross proceeds of approximately \$78.0 million. More information can be found in Treasury's Press Release here: <a href="http://www.treasury.gov/press-center/press-releases/Pages/tg1849.aspx">http://www.treasury.gov/press-center/press-releases/Pages/tg1849.aspx</a>.

#### Restructurings

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring

or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

- On February 12, Treasury entered into an agreement with Florida Bank Group, Inc. (FBG) pursuant to which Treasury agreed to sell its CPP preferred stock back to FBG at a discount subject to the satisfaction of the conditions specified in the agreement.
- On February 20, Treasury sold its CPP preferred stock and warrant issued by First Sound Bank (First Sound) back to First Sound for an aggregate purchase price of \$3,700,000, pursuant to the terms of the agreement between Treasury and First Sound entered into on November 30, 2012.
- On February 22, Treasury completed the exchange of its Standard Bancshares, Inc. preferred stock for common stock and immediately sold the resulting Standard Bancshares, Inc. common stock, pursuant to agreements dated as of November 5, 2012.
- On February 25, Treasury entered into an agreement with First Security Group, Inc. to exchange Treasury's CPP warrant and \$33,000,000 of preferred stock for common stock. The exchange is subject to the fulfillment by First Security Group, Inc. of certain conditions, including the satisfactory completion of a capital plan.

### **Warrant Repurchases**

In addition to the transactions above, Treasury disposed of its warrant positions in three institutions in February that were received in consideration for investments made under the CPP. These proceeds provided an additional return of \$3.4 million to taxpayers from Treasury's investments in banks beyond any dividend or interest payment.

- Treasury completed the sale of warrants issued by Oak Ridge Financial Services, Inc. and First Capital Bancorp, Inc. for a total of \$0.4 million.
- Standard Bancshares, Inc. repurchased preferred shares from exercised warrants from Treasury for a total of \$3.0 million.

#### **Dividends and Interest**

In February, Treasury received dividends and interest income from CPP investments of approximately \$54.2 million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$11.9 billion.

#### Figure 4: Top 25 Remaining Capital Purchase Program Investments as of February 28, 2013

#### **Capital Purchase Program Regional Snapshots**

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped to provide a visual overview of outstanding investments. The regional snapshots provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

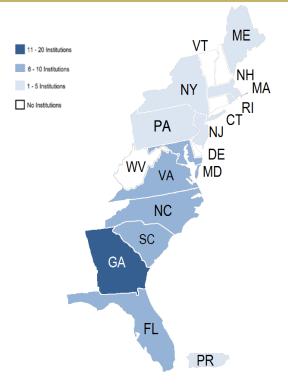

The regional snapshots include a state-by-state breakdown showing how many institutions remain in the program; the outstanding investment amount; and how many institutions in each state, if any, have outstanding payments due to Treasury. The regional snapshots also show the Top 10 largest outstanding investments in that region; the total amount outstanding; the number of missed payments, if any; and the amount owed in non-current dividends, if applicable.

A full list of remaining CPP investments, including more detail about those banks with outstanding payments, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at: <a href="http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx">http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx</a>.

#### **Auto Industry Financing Program**

The Automotive Industry Financing Program (AIFP) was launched in December 2008 to prevent the uncontrolled liquidation of Chrysler and General Motors (GM) and the collapse of the U.S. auto industry, because the potential for such a disruption at that time posed a significant risk to financial market stability and threatened the overall economy.

Under AIFP, Treasury invested a total of \$49.5 billion to help stabilize and restructure GM. In November 2010, GM completed an initial public offering, which yielded \$13.5 billion in net proceeds for Treasury and reduced its stake in GM to 500.1 million remaining shares of GM common stock.

On December 19, 2012, as part of its continuing efforts to wind down TARP, Treasury announced its intent to fully exit its remaining investment in GM within the following 12-15 months, subject to market conditions. As part of that announcement, GM agreed to purchase 200 million shares of GM common stock from Treasury at \$27.50 per share – a transaction that closed on December 21, 2012.

In January 2013, the U.S. Department of the Treasury began the process of selling its shares into the market under a pre-arranged written trading plan. At that time, Treasury also announced that there would be opportunities for smaller broker-dealers, including minority- and women-owned broker-dealers, to participate in the sale of Treasury's remaining GM common shares pursuant to the plan.

In February, Treasury's brokers for GM stock sales informed Treasury that they had engaged six smaller broker-dealers, including minority-and women-owned broker-dealers, assist with Treasury's sales of its GM common stock. The six smaller broker-dealers are:

- Academy Securities
- C.L. King & Associates
- o Lebenthal & Co., LLC
- Loop Capital Markets
- Ramirez & Company
- o The Williams Capital Group, L.P.

In February 2013, Treasury received total net proceeds of approximately \$489.9 million from the sales of GM common stock<sup>2</sup>. To date, Treasury has recovered approximately \$29.8 billion<sup>3</sup> of its investment in GM through repayments, sales of stock, dividends, interest, and other income.

<sup>2</sup> Additional details on the number of GM shares that Treasury sold and average price per share will be disclosed upon the completion of each pre-arranged trading plan and provided in the Monthly Report to Congress that is issued subsequent to the sale.

<sup>&</sup>lt;sup>3</sup> This amount only includes what Treasury has recovered from Old GM. The total amount that Treasury has recovered, including the investment in Old GM, the loan to GM to purchase GMAC rights, and loans for the Supplier and Warranty Programs is \$30.11 billion.

#### **Investment in American International Group**

During the financial crisis, Treasury and the Federal Reserve committed approximately \$182 billion to prevent the collapse of AIG. That amount included \$70 billion that Treasury committed through TARP as well as \$112 billion committed by the FRBNY. Since that time, AIG has dramatically restructured, enabling it to fully repay taxpayers. The size of the company has been cut nearly in half as it sold non-core assets and focused on its core insurance operations.

At its peak in January 2011, Treasury owned 1.655 billion shares of AIG common stock. Over the next 19 months, Treasury conducted six public offerings of AIG common stock, selling all 1.655 billion shares (originally 92 percent of AIG's outstanding common stock) at an average price of \$31.18 per share. As a result of the combined efforts of AIG, Treasury, and the Federal Reserve, the \$182 billion committed to stabilize the company has been fully recovered – plus an additional positive return of \$22.7 billion.<sup>4</sup>

On March 1, 2013, American International Group (AIG) repurchased warrants issued to Treasury in 2008 and 2009 for approximately \$25 million. Following this sale, Treasury has no residual interest in AIG.

\_

<sup>&</sup>lt;sup>4</sup>Treasury realized a positive return of \$5.0 billion (when including Treasury's other interest in AIG) and the Federal Reserve has realized a positive return of \$17.7 billion.

#### **Housing Programs**

## **Making Home Affordable Program Performance Report**

On March 8, the U.S. Department of the Treasury released the **Making Home Affordable (MHA) Program Performance Report through January 2013**. The report is available on the following page: <a href="http://www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx">http://www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx</a>.

### Highlights include:

- More than 1.1 million homeowners have received a permanent modification since the start of the program. Approximately 15,000 new permanent modifications and approximately 12,000 trial modification starts have been reported since the December report.
- In total, more than 1.5 million homeowner assistance actions have been granted through MHA, consisting of first and second lien permanent modifications, Home Affordable Foreclosure Alternatives (HAFA) transactions, and Unemployment Program (UP) forbearance plans.
- To date, homeowners in permanent modifications have saved an estimated \$17.9 billion in monthly mortgage payments. Homeowners
  in active first lien permanent modifications are currently saving a median of \$546 per month more than one-third of their median
  before-modification payment.
- Homeowners currently in HAMP permanent modifications with some form of principal reduction have been granted an estimated \$9.2 billion in principal reduction. Of all non-GSE loans eligible for principal reduction entering HAMP in January, 69% included a principal reduction feature.

## 2MP and HAFA Program Results

- The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify eligible second lien mortgages serviced by a participating servicer. To date, more than 105,000 homeowners in a permanent first lien modification under HAMP have received assistance through 2MP.
- More than 114,000 homeowners have exited their homes through a short sale or deed-in-lieu of foreclosure with assistance from the Home Affordable Alternatives Program (HAFA), which provides \$3,000 for relocation assistance after a homeowner exits the home.

#### Servicer Assessments

Included in the MHA Program Performance Report through January 2013 are detailed assessments for the largest mortgage servicers participating in the MHA Program with results from the fourth quarter of 2012. In addition to providing greater transparency about servicer performance in the program, the Servicer Assessments – first introduced in June 2011 and published quarterly – are intended to set a new industry benchmark for disclosure around servicer efforts to assist struggling homeowners, while prompting them to correct identified deficiencies.

- For the fourth quarter of 2012, two servicers were found to need only minor improvement on the areas reviewed for program performance, while seven servicers were found to need moderate improvement. All servicers will need to continue to demonstrate progress in areas identified in follow-up program reviews.
- Servicers continue to focus attention on areas identified in previous program reviews and, as a result, are demonstrating considerable improvement in program implementation:
  - Mortgage servicers continue to appropriately calculate homeowner income, which is used to determine a homeowner's eligibility and modified payment amount under the program. In fourth quarter of 2012, the average income calculation error rate for the top servicers was less than two percent.
  - Servicers are more effectively evaluating homeowners under program eligibility criteria as evidenced in the "second look disagree" category, which reflects the rate at which Treasury's program reviews disagree with the servicers' decision not to assist a homeowner. In the fourth quarter of 2012, the average second look disagree percentage for the top servicers was less than two percent.

#### **Hardest Hit Fund**

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase, and mortgage payment programs.

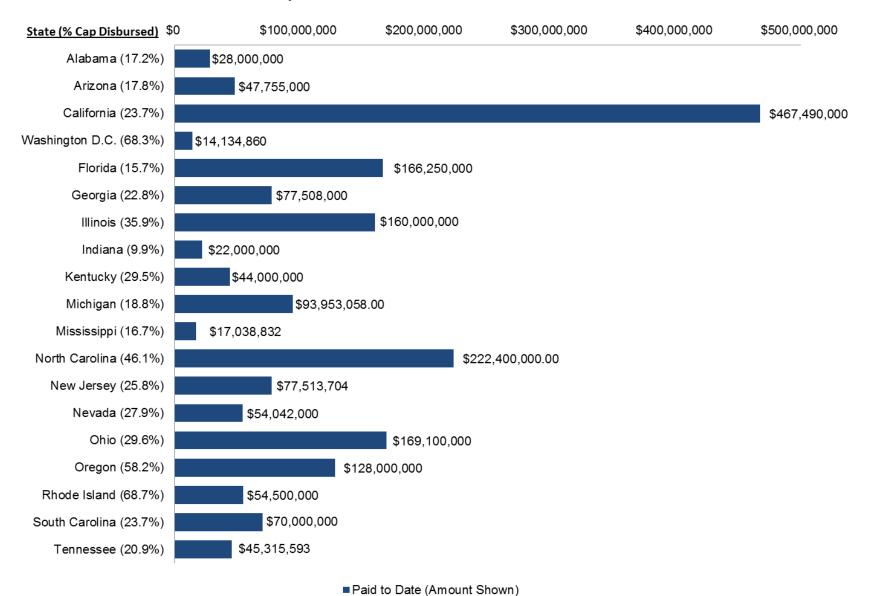

- There are now 58 programs across the 19 HFAs. Approximately 70 percent of total program funds are being targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing
  counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring of
  underwriters and other staff to review and approve applications.
- Treasury is working to identify best practices, share lessons learned between states and provide additional assistance and oversight to struggling HFAs. In February, Treasury continued to participate in bi-weekly conference calls with the 19 HFAs and the large servicers participating in the Hardest Hit Fund to discuss best practices in reaching the target population, ways to expand program eligibility and promising new programs that can effectively utilize Hardest Hit Funds.
- Treasury recently approved program changes for Alabama, Indiana and Illinois; these changes became final in early March. Typically, program changes are designed to make them more flexible, expand the eligible population of homeowners, and offer deeper levels of assistance to enable particularly hard hit homeowners to recover from unemployment or achieve a more sustainable mortgage payment. In addition to expanding borrower eligibility for their respective unemployment assistance programs, Alabama will be introducing short sale and loan modification programs, and Indiana will be implementing programs for transition assistance and principal reduction with loan recast/modification.

- Two HFAs drew a total of \$64.12 million in February; over the life of the program, a total of \$1.96 billion has been drawn down by the 18 states and the District of Columbia. Each HFA draws down funds as they are needed. (See Figure 6) HFAs have until December 31, 2017 to expend funds, and must have exhausted at least 95 percent of their allocation before they can draw down additional funds.
- Each state submits a quarterly report on the progress of its programs. Direct links to each state's most recent performance report can be found at <a href="http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx">http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx</a> and below in Figure 5.

- 1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
- 2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.

  3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/29/2009. (See transactions marked by orange line in the table above and footnote 22.)
- This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
- 5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
- 6. This transaction was a further amendment to the Old GM Lcan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
- 7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.) 8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"). Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
- 9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines
- in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
- 10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
- 11. Pursuant to a corporate reorganization completed on or about 101/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed "General Motors Holding Company" (the ultimate parent company of New GM), which was renamed to the ultimate parent company of New GM, and the ultimate parent company of New GM). <sup>1/</sup> The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

<sup>2/</sup> Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

<sup>3/</sup> If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

<sup>4/</sup> In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

<sup>5/</sup> Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

<sup>6/</sup> If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor (on or about the 11th business day of each month).

<sup>7/</sup> Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

<sup>8/</sup> The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

- 1/ The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.
  2/ The loan may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.
- 3/ Adjusted to show Treasury's maximum obligations to a fund.
  4/ On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.
- 5/Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds (reported on the Dividends & Interest report), which may be made from time to time in accordance with the terms of the fund's Limited Partnership Agreement.

6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation were reallocated per fund, after adjustment for the \$17.6 million and \$28.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCV fund will remain a part of Treasury's total aximum GPPPi investment a norm.

7 Amount adjustment of part of the S17.6 million and \$28.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCV fund will remain a part of Treasury's total aximum GPPPi investment a norm.

- 8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.
  9/ Cumulative capital drawn at end of the Investment Period.
- 10/ The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.
- 11/ Distribution represents a gain on funded capital and is subject to revision pending any additional fundings of the outstanding commitment.

  12/ On 08/23/2012, AllianceBernstein agreed to de-obligate its unused debt commitment. The Final Investment Amount represents the cumulative capital drawn as of the de-obligation.

TOTAL \$ 8,117,000,000

<sup>1/</sup> On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.

<sup>&</sup>lt;sup>1</sup>This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement. All data present in this report reflects what is provided by servicers participating in the survey, and cannot be separately reviewed or validated by Treasury.

Beginning in August 2012, this report reflects a change in reporting requirements of the Monthly Servicer Survey; servicers report all HAMP modification requests received and their outcome, including multiple requests made on a loan. Prior to August 2012, servicers counted only one request per loan. As a result of this change, prior months' reporting contained data compiled under the different methodology. This update is reflected in this report on a going forward basis.

From time to time, a servicer's current month's cumulative results may not equal that servicer's prior month's cumulative results and current month's activity; this is due to corrections or updates made to prior reporting methodology. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

<sup>&</sup>lt;sup>2</sup> "Requests Received" is the total number of HAMP mortgage modification requests received, as reported by servicers to Monthly Servicer Survey question: "Number of requests received for a HAMP modification". Cumulative Requests Received include all HAMP mortgage modification requests received since implementation of Supplemental Directive 10-02, effective June 1, 2010, and any requests that were approved and sent a Trial Offer prior to implementation of this program guidance.

<sup>&</sup>lt;sup>3</sup> "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the borrower by the servicer, calculated as the sum of Requests Approved and Requests Denied, defined below. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

<sup>&</sup>lt;sup>4</sup> "Requests Approved" is the total number of HAMP mortgage modification requests approved and Srent a HAMP Trial Offer". Note that all Requests Approved do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment. Cumulative Requests Approved include all HAMP mortgage modification requests approved and Trial Offers sent since program inception, or March 2009.

<sup>&</sup>lt;sup>5</sup> "Requests Denied" is the total number of HAMP mortgage modification requests denied and communicated to the borrower by the servicer in accordance with program guidance, as reported by servicers to Monthly Servicer Survey question: "Number of requests Denied for a HAMP Trial". Cumulative Requests Denied include all HAMP mortgage modification requests denied and communicated to the borrower by the servicer since implementation of Supplemental Directive 10-02, effective June 1, 2010. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

<sup>&</sup>lt;sup>6</sup> Bank of America, NA includes BAC Home Loans Servicing, LP.

<sup>&</sup>lt;sup>7</sup> Includes servicers that are no longer actively participating in the survey process or whose Servicer Participation Agreement has been terminated. These servicers no longer submit a survey, and their results only reflect previous periods when the survey questions were not as extensive as current surveys (e.g. #Requests Denied was not a component of earlier surveys).
