July 2013

The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). Almost five years after the establishment of the TARP, Treasury is making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has continued to work to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. To date, taxpayers have recovered approximately \$403 billion – or more than 95 percent – of the \$420.6 billion in TARP funds disbursed. And, when excluding disbursements under the housing programs -- which were never intended to be repaid -- Treasury has disbursed \$411.7 billion and recovered \$420.4 billion (including the proceeds from sales of all Treasury AIG shares)¹. \$272.4 billion has been recovered from TARP's bank programs through repayments, dividends, interest, and other income, which represents a \$27.3 billion positive return compared to the \$245.1 billion invested in those institutions.

By any objective standards, the Troubled Asset Relief Program worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

July Highlights

In July, Treasury continued its ongoing strategy for winding down its remaining bank investments in a way that protects taxpayer interests and preserves the strength of our nation's community banks. Two of the five institutions with the largest remaining outstanding CPP investment (Synovus Financial Corp. and New York Private Bank & Trust Corp.) repaid all of Treasury's outstanding investments in their firms for combined total repayments of more than \$1.2 billion. Treasury also held an auction on July 8, 2013 for outstanding preferred stock and subordinated debt in eight institutions, which generated aggregate gross proceeds of \$57.4 million.

Where are the TARP Funds?²

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost. To see how Treasury has invested and recovered TARP funds over time please visit the interactive TARP Tracker at: http://www.treasury.gov/initiatives/financial-stability/reports/Pages/TARP-Tracker.aspx.

Figure 1: Daily TARP Update (DTU)

The first chart shows for each TARP program the amount of funds obligated, the amount disbursed, repayments, income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. The Daily Tarp Update (DTU) is updated after every business day and is available at: http://www.treasury.gov/initiatives/financial-stability/reports/Pages/daily-tarp-reports.aspx.

² Numbers in text and tables in this report may not add due to rounding.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that OFS has consistently used to estimate lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future. It also includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

1/ This row represents the portion of CPP repayments that were received from refinancing to the Small Business Lending Fund (SBLF), which is not a TARP program. The law creating the SBLF provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of

- \$2.21 billion in CPP investments. This amount is included in total repayments and therefore, this column is not used to calculate the "Outstanding" amount.
- 2/ This column represents non-cash exchanges out of CPP into CDCI. A total of 28 CPP banks, representing \$355.7 million, converted from CPP to CDCI. The total amount exchanged into CDCI, with converted warrants, was \$363.3 million.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ Amount of "Warrants Sold" reflects net cash receipts.
- 5/ "Other Income (Expenses)" includes gains on sales, investment income, fees collected, and disposition expenses.
- 6/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which are detailed in Figure 2.
- 7/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 8/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 9/ Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the "Write-offs & Realized Losses" column shows a loss based on Treasury's cost basis of \$43.53 in the TARP shares alone. The non-TARP shares are shown at the bottom of the page after the TARP Total under "Additional AIG Common Shares Held by Treasury." A gain in the "Other Income (Expenses)" column is shown for the non-TARP shares because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per share. With the sale of all remaining shares in December 2012, Treasury has recovered a total of \$72.84 billion (including proceeds from the sale of the non-TARP shares), compared to total TARP disbursements of \$67.84 billion.
- 10/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the prices at which Treasury has sold common shares in GM's initial public offering and subsequent sales and the Treasury's cost basis (\$43.52 per common share) for such shares. Treasury intends to continue to dispose of its GM shares in an orderly fashion, subject to market conditions.
- 11/ Treasury entered into an \$8 billion letter of credit facility to fund a portion of losses associated with the FHA Short Refinance Program. Pursuant to this letter of credit facility, a reserve account was pre-funded with \$50 million for any future loss claim payments. All unused amounts from this account will be returned to Treasury. In March 2013, Treasury extended the letter of credit facility to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount to \$1 billion. The obligation related to the FHA Short Refinance Program was reduced accordingly from \$8 billion to \$1 billion, including administrative expenses.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

1/ Lifetime cost information are as of May 31, 2013. Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of May 31, 2013. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in the aggregate value of the shares outstanding as of May 31, 2013, compared to the aggregate value of shares outstanding as of July 31, 2013, including the net proceeds from shares sold in June and July, 2013.

Outstanding Investment	 /31/2013 ket Value		013 Market alue	Increase (Decrease in Cost	
	In billions				
GM Common Stock	\$ 7.43	\$	7.76	\$	(0.33)

Note: The share price for GM was \$33.89 for the period ending May 31, 2013 and \$35.87 for the period ending July 31, 2013.

- 2/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 3/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 4/ In March 2013, Treasury extended the letter of credit facility to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount from \$8 billion to \$1 billion. Treasury believes this lower amount will be sufficient to accommodate any increased usage that could result through the close of the program. The figures in this line include administrative expenses associated with the letter of credit facility.
- 5/ As discussed in note 9 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares was deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis was \$28.73 per share. TARP estimates include financing costs (borrowing) from the time of initial investment through the reporting period.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100 percent of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds, and so far taxpayers have realized a gain of more than \$27 billion on their investments through TARP's bank programs.

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banking institutions of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Today, every additional dollar recovered from CPP participants represents a positive return for taxpayers.

Repayments at Par

In July, seven institutions repaid all or part of the outstanding CPP preferred shares or subordinated debentures held by Treasury for total proceeds of \$1.3 billion.

- On July 26, the institution with the largest remaining outstanding investment, Synovus Financial Corp., repaid all of Treasury's preferred CPP investment for a total of \$967.9 million.
- On July 24, New York Private Bank & Trust Corp., the fifth largest remaining outstanding investment outstanding at the time, repaid all of Treasury's preferred CPP investment for a total of \$267.3 million.
- Avidbank Holdings, Inc. (formerly Peninsula Bank Holding Co.); Heritage Oaks Bancorp; Unity Bancorp, Inc.; and Vision Bank Texas
 repaid all of the outstanding CPP preferred investments in their institutions for a total of \$38.0 million.
- Community Bankers Trust Corporation made a partial repayment of Treasury's outstanding CPP preferred investment for a total of \$4.5 million, resulting in a total of \$13.2 million in outstanding CPP preferred investment remaining.

Sales & Dispositions

On July 12, Treasury sold to private investors its preferred stock and subordinated debentures in eight institutions (Crosstown Holding Company; ColoEast Bancshares, Inc.; Commonwealth Business Bank; Fidelity Federal Bancorp; Alarion Financial Services, Inc.; Premier Financial Corp.; Mountain Valley Bancshares, Inc.; Omega Capital Corp.) for actual aggregate gross proceeds of \$57.4 million. More information can be found in Treasury's Press Release: http://www.treasury.gov/press-center/press-releases/Pages/jl2009.aspx.

Restructurings

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

 On July 17, Treasury entered into a securities purchase agreement with Central Virginia Bankshares, Inc. (CVB) and C&F Financial Corporation (C&F) pursuant to which Treasury agreed to sell to C&F the CPP preferred stock and warrant issued by CVB, subject to the conditions specified in such agreement.

On April 16, 2010, Treasury exchanged its \$72.0 million of preferred stock in Independent Bank Corporation (Independent) for \$74.4 million of mandatory convertible preferred Stock (MCP), which was equivalent to the initial investment amount of \$72.0 million plus \$2.4 million of capitalized previously accrued and unpaid dividends. On July 26, Treasury entered into a securities purchase agreement with Independent pursuant to which Treasury agreed to sell to Independent the MCP and the warrant issued by Independent, subject to the conditions specified in such agreement.

Warrant Repurchases

In addition to the transactions above, Treasury disposed of its warrant positions in three institutions in July that were received in consideration for investments made under the CPP. These proceeds provided an additional return of \$13.5 million to taxpayers from Treasury's investments in banks beyond any dividend or interest payment.

- Treasury completed the sale of warrants issued by Security Federal Corporation for a total of \$50,000.
- Vision Bank Texas and New York Private Bank and Trust Corp. repurchased their preferred shares from exercised warrants from Treasury for a total of \$13.4 million.

Dividends and Interest

In July, Treasury received dividends and interest income from CPP investments of \$13.1 million. As of June 30, 2013, cumulative dividends, interest and fee income received from CPP investments total \$12.0 billion.

Capital Purchase Program Regional Snapshots

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped to provide a visual overview of outstanding investments. The regional snapshots provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

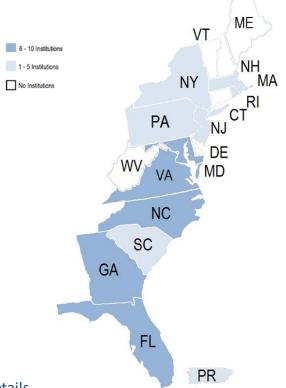

The regional snapshots include a state-by-state breakdown showing how many institutions remain in the program; the outstanding investment amount; and how many institutions in each state, if any, have outstanding payments due to Treasury. The regional snapshots also show the Top 10 largest outstanding investments in that region; the total amount outstanding; the number of missed payments, if any; and the amount owed in non-current dividends, if applicable.

A full list of remaining CPP investments, including more detail about those banks with outstanding payments, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at: http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx.

Auto Industry Financing Program

The Automotive Industry Financing Program (AIFP) was launched in December 2008 to prevent the uncontrolled liquidation of Chrysler and General Motors (GM) and the collapse of the U.S. auto industry, because the potential for such a disruption at that time posed a significant risk to financial market stability and threatened the overall economy.

Under AIFP, Treasury invested a total of \$51.03 billion to help stabilize and restructure GM. In November 2010, GM completed an initial public offering, which yielded \$13.5 billion in net proceeds for Treasury and reduced its stake in GM to 500.1 million remaining shares of GM common stock.

In December 2012, as part of its continuing efforts to wind down TARP, Treasury announced its intent to fully exit its remaining investment in GM within the following 12-15 months, subject to market conditions. On April 11, 2013, Treasury completed its first pre-arranged trading plan for the sale of its GM common stock. Under this plan, Treasury sold 58.4 million shares of GM common stock for total gross proceeds of approximately \$1.6 billion. In addition, in June 2013, Treasury sold 30 million additional shares of GM common stock at \$34.41 per share, in an underwritten public offering in conjunction with GM's inclusion in the S&P 500 index. The aggregate proceeds from the sale were approximately \$1.03 billion.

In July 2013, Treasury continued its sale of GM common stock, pursuant to its second pre-arranged written trading plan initiated in May 2013. For more information, see Treasury's press release: http://www.treasury.gov/press-center/press-releases/Pages/jl1926.aspx.

During the reporting period, Treasury received total net proceeds of approximately \$876.9 million from the sales of GM common stock.³ As of July 31, 2013, Treasury has recovered approximately \$34.6 billion⁴ of its investment in GM through repayments, sales of stock, dividends, interest, and other income.

_

³ Additional details on the number of GM shares and average price per share that Treasury sold under its pre-arranged written trading plan will be disclosed upon the completion of each pre-arranged trading plan and provided in the Monthly Report to Congress that is issued subsequent to the sale.

⁴ This amount includes the total amount that Treasury has recovered, including the investment in GM and loans for the Supplier and Warranty Programs.

Housing Programs

Making Home Affordable Program Performance Report

On August 9, 2013, the U.S. Department of the Treasury released the **Making Home Affordable Program Performance Report through June 2013**. The report is available on the following page: http://www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx.

Highlights include:

- Since the start of the program, more than 1.7 million homeowner assistance actions have been taken under MHA.
- More than 1.3 million homeowners have received a permanent first lien modification through MHA since the start of the program, including more than 1.2 million through the Home Affordable Modification Program (HAMP). Almost 25,000 new MHA first lien modifications have been reported since the May report.
- To date, homeowners in HAMP permanent modifications have saved an estimated \$21 billion in monthly mortgage payments.
 Homeowners in active first lien permanent modifications are currently saving a median of \$547 per month more than one-third of their median before-modification payment.
- Homeowners currently in HAMP permanent modifications with some form of principal reduction have been granted an estimated \$10.9 billion in principal reduction. Of all non-GSE loans eligible for principal reduction entering HAMP in June, 72 percent included a principal reduction feature.

2MP and HAFA Program Results

- The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify
 eligible second lien mortgages serviced by a participating servicer. To date, more than 113,000 homeowners in a permanent first lien
 modification under HAMP have received assistance through 2MP.
- Approximately 181,000 homeowners have exited their homes through a short sale or deed-in-lieu of foreclosure with assistance from the Home Affordable Foreclosure Alternatives Program (HAFA), which provides \$3,000 for relocation assistance after a homeowner exits the home.

Hardest Hit Fund

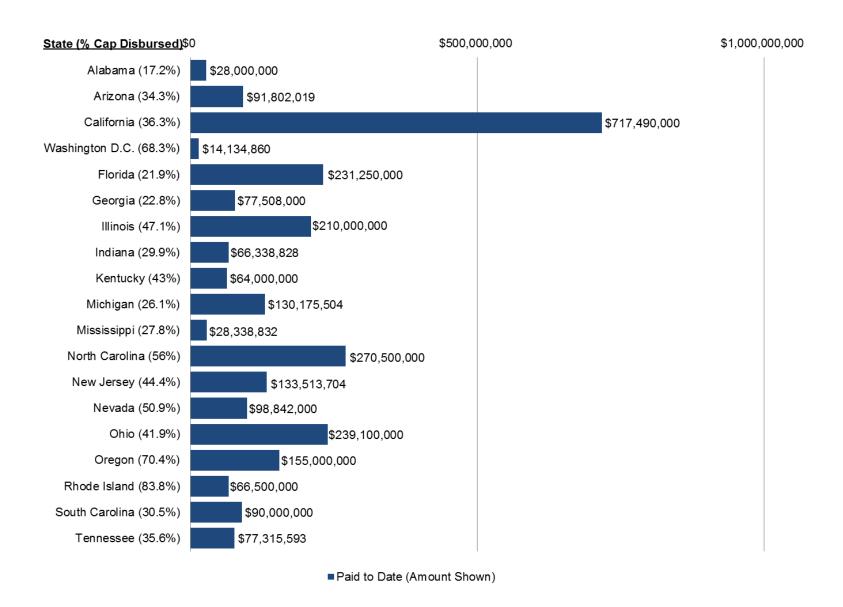

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

- There are now 63 active programs across the 19 HFAs. Approximately 67 percent of total program funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing
 counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring
 underwriters and other staff to review and approve applications.
- Treasury is working to identify best practices, share lessons learned, and provide additional assistance and oversight to HFAs. In July,
 Treasury continued to participate in bi-weekly conference calls with the 19 HFAs and the large servicers participating in the Hardest Hit
 Fund to discuss best practices in reaching the target population, ways to expand program eligibility and promising new programs that
 can effectively utilize Hardest Hit Funds.
- On July 1, 2013, Florida formally launched their new Modification Enabling Pilot Program. On July 19, Treasury officials joined Illinois
 Governor Pat Quinn to announce that the final date to submit new applications for Hardest Hit Fund assistance in Illinois will be
 September 30, 2013. The Governor commended the overall success of the foreclosure prevention program, noting the 29% decrease
 in the state foreclosure rate in the last year alone. Although the Illinois Hardest Hit Fund will no longer accept new applications after
 September 30, Illinois will continue to administer the program and process borrowers under review until they reach full commitment of
 their program funds.
- Four HFAs drew a total of \$111.5 million in July; over the life of the program, the 18 states and the District of Columbia have drawn a total of \$2.79 billion. Each HFA draws down funds as they are needed. (See Figure 6) HFAs have until December 31, 2017 to expend funds, and must have no more than 5 percent of their allocation on hand before they can draw down additional funds.
- Each state submits a quarterly report on the progress of its programs. Direct links to each state's most recent performance report can be found at http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx and below in Figure 5.

^{1/} The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

^{2/} Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

^{3/} If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

^{4/} In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

^{5/} Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

^{6/} If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor (on or about the 11th business day of each month).

^{7/} Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

^{8/} The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

1/ The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.
2/ The loan may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.

3/ Adjusted to show Treasury's maximum obligations to a fund.

4/ On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.
5/ Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury, in proportion to their membership interests. These figures exclude pro-rata distributions to Treasury of gross investment proceeds (reported on the Dividends & Interest report), which may be made from time to time in accordance with the terms of the fund's Limited Partnership Agreement.

6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum debt obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$3.55 million of final investment in the TCW fund will remain a part of Treasury's total maximum S-PPI investment amount.

7/ Amount adjusted to show Treasury's final capital commitment (membership interers) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.

8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.

9/ Cumulative capital drawn at end of the Investment Period.

10/ The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.

11/ Distribution represents a gain on funded capital and is subject to revision pending any additional fundings of the outstanding commitment.

12/ On 08/23/2012, AllianceBernstein agreed to de-obligate its unused debt commitment. The Final Investment Amount represents the cumulative capital drawn as of the de-obligation.
13/ On, 6/5/2013, Invesco Mortgage Recovery Master Fund L.P. made a distribution to Treasury that is the result of adjustments made to positions previously held by the Invesco Legacy Securities Master Fund, L.P. 1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the mortgages refinanced under the FHA Short Refinance program during the eligibility period. After that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury could incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.

2/ On March 4, 2013, the U.S. Department of the Treasury and Citibank, N.A. entered into Amendment No. 1 to the L/C Facility Agreement, which reduced the maximum amount of the L/C from \$8 billion to \$1 billion; extends by two years the period of time Treasury has to increase the L/C to cover new loans that are entered into the program; and modified the fee structure paid to Citibank, N.A. Based on this new fee structure and the lower L/C, Treasury expects that the fees incurred for the availability and usage of the L/C will not exceed \$25 million.

¹This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement. All data present in this report reflects what is provided by servicers participating in the survey, and cannot be separately reviewed or validated by Treasury.

Beginning in August 2012, this report reflects a change in reporting requirements of the Monthly Servicer Survey; servicers report all HAMP modification requests received and their outcome, including multiple requests made on a loan. Prior to August 2012, servicers counted only one request per loan. As a result of this change, prior months' reporting contained data compiled under the different methodology. This update is reflected in this report on a going forward basis. From time to time, a servicer's current month's cumulative results and current month's cativity; this is due to corrections or updates made to prior reporting methodology. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

² "Requests Received" is the total number of HAMP mortgage modification requests received, as reported by servicers to Monthly Servicer Survey question: "Number of requests received for a HAMP modification". Cumulative Requests Received include all HAMP mortgage modification requests received since implementation of Supplemental Directive 10-02, effective June 1, 2010, and any requests that were approved and sent a Trial Offer prior to implementation of this program guidance.

³ "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the borrower by the servicer, calculated as the sum of Requests Approved and Requests Denied, defined below. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

⁴ "Requests Approved" is the total number of HAMP mortgage modification requests approved and Trial Offers sent to the borrowers, as reported by servicers to Monthly Servicer Survey question: "Number of requests Approved and Sent a HAMP Trial Offer". Note that all Requests Approved do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment. Cumulative Requests Approved include all HAMP mortgage modification requests approved and Trial Offers sent since program inception, or March 2009.

⁵ "Requests Denied" is the total number of HAMP mortgage modification requests denied and communicated to the borrower by the servicer in accordance with program guidance, as reported by servicers to Monthly Servicer Survey question: "Number of requests Denied for a HAMP Trial". Cumulative Requests Denied include all HAMP mortgage modification requests denied and communicated to the borrower by the servicer since implementation of Supplemental Directive 10-02, effective June 1, 2010. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.
