FIVE YEAR UPDATE

Five years ago this month, the nation was experiencing the worst financial crisis since the Great Depression. Several major financial institutions had already failed – including Bear Stearns, Indy Mac, and Washington Mutual bank. On September 15th, Lehman Brothers filed for bankruptcy. The next day, a money market fund broke the buck, triggering the start of a run on money market funds generally. The day after that, AIG, one of the largest and most complex financial firms in the world, was on the verge of failure.

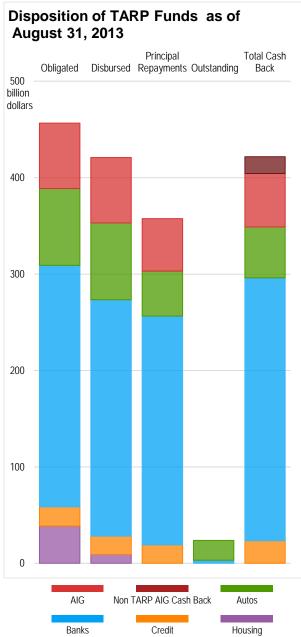

Confidence in the financial system was eroding. Panic was spreading. The stock market dropped by more than 770 points in a single day. And, for the first time in generations, Americans were questioning the safety of their money in banks. It was out of these extraordinary circumstances that a bi-partisan majority of Congress passed the Emergency Economic Stabilization Act (EESA). TARP was created under EESA to stem the panic and stabilize the financial system.

Each month, Treasury's Office of Financial Stability -- the office responsible for the implementation of TARP – releases a monthly report to Congress on the TARP program as required by Section 105(a) of EESA. This month, as we approach the fifth anniversary of the creation of TARP, we are expanding this report to provide a brief update on the status of all the programs created under TARP.

TARP was a critical part of the federal government's bipartisan response to the financial crisis, and it worked. It, along with the other extraordinary measures taken by the government, successfully prevented the collapse of the financial system, helped restart economic growth and restore access to credit and capital. As of August 31, 2013, cumulative collections under TARP, together with Treasury's additional proceeds from the sale of non-TARP shares of AIG¹, exceed total disbursements by \$0.9 billion².

While TARP has ended up costing only a fraction of what was originally projected, the true cost of the financial crisis will always be measured in terms of the financial impact on Americans generally, and the human suffering caused by the crisis – the millions of jobs that were lost, the thousands of small businesses that were closed, the millions of families who lost their homes to foreclosure, and the retirements or college educations that were deferred.

² Treasury is continuing to disburse funds related to its housing programs, and continuing to recoup its outstanding investments. For the latest lifetime cost estimates, please see the chart on page 23: *Treasury Estimates of the Impact of TARP Programs and AIG Investments on the Federal Budget.*

HIGHLIGHTS IN AUGUST

On September 11, Treasury will publish a chart deck titled "The Financial Crisis Five Years Later: Response, Reform and Progress." The deck provides a concise overview of the government's response to the 2008 financial crisis, including actions taken under TARP and other government measures to stop the panic and restore financial stability, and efforts under the Dodd-Frank Wall Street Reform and Consumer Protection Act to reform the regulatory system. It also includes the most recent cost projections for Treasury and Federal Reserve financial stability programs. The deck will be available on the Treasury website.

As part of the government's assistance to the automotive industry, Treasury invested a total of \$17.2 billion of TARP funds in Ally Financial (formerly GMAC), to ensure the continuation of financing for GM's dealers and consumers during the financial crisis. In August, Ally Financial announced a series of transactions that will result in Ally repaying Treasury approximately \$6 billion. This marks a major step forward in Treasury's eventual exit from Ally. Upon completion of these transactions, which are expected to conclude no later than November 30, Treasury will have recovered \$12.1 billion of its original investment, and its remaining stake will be reduced to an approximate 66 percent common equity stake in the company.

Treasury has continued its ongoing strategy to wind down the remaining bank investments in a way that protects taxpayer interests and preserves the strength of our nation's community banks. On August 12, Treasury held an auction for its preferred stock and subordinated debentures in five institutions for actual aggregate gross proceeds of \$129.1 million. More information can be found in Treasury's Press Release: http://www.treasury.gov/press-center/press-releases/Pages/jl2141.aspx.

BANK SUPPORT PROGRAMS UPDATE

In early October 2008, Treasury launched a series of programs to stabilize the nation's banking institutions. A total of \$245.1 billion was invested in banking institutions. As of August 31, 2013 Treasury has recovered \$272.7 billion through repayments ³, dividends, interest, and other income, with approximately \$3.3 billion outstanding. This represents a gain of \$27.6 billion on its investments through TARP's bank programs. Every additional dollar collected from its investments in banking institutions represents an additional gain for taxpayers.

Of the five banking programs established under TARP, only two – the Capital Purchase Program (CPP) and the Community Development Capital Initiative (CDCI) -- remain. Treasury is now following a strategy to wind down its remaining TARP bank investments in a way that protects taxpayer interests, promotes financial stability, and preserves the strength of our nation's community banks.

³ This includes (i) \$2.21 billion in CPP investments refinanced under the Small Business Lending Fund (SBLF), a program created by Congress outside of TARP under which certain CPP institutions were allowed to repay TARP funds by borrowing under that program, and (ii) \$0.36 billion in exchanges of CPP investments into the Community Development Capital Initiative (CDCI), as permitted under the terms of that program.

CAPITAL PURCHASE PROGRAM

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banking institutions of all sizes throughout the nation. The CPP Snapshot shows the cumulative Capital Purchase Program activity since its inception. Today, every dollar recovered from CPP participants represents a positive return for taxpayers.

⁵ Institutions where Treasury has converted its original investment, at a discount, into shares of common stock in the institution.

SALES AND DISPOSITIONS

- On August 12, Treasury sold to private investors its preferred stock and subordinated debentures in five institutions (First Banks, Inc.; Universal Bancorp; First Intercontinental Bank; Virginia Company Bank; and Community Pride Bank Corporation) for actual aggregate gross proceeds of \$129.1 million. More information can be found in Treasury's Press Release:
 http://www.treasury.gov/press-center/press-releases/Pages/jl2141.aspx.
- On August 16, Treasury sold 12 million shares of First BanCorp common stock for proceeds of \$81 million. Treasury had received such shares pursuant to an exchange of its preferred stock investment for common stock in October 2011.

RESTRUCTURINGS

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury decides whether to participate in an exchange or sale based on whether it will enable the bank to attract additional capital, conduct a restructuring or otherwise strengthen its financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

- On August 14, Treasury sold its CPP preferred stock and warrant preferred stock issued by Florida Bank Group, Inc. (FBG) back to FBG for an aggregate purchase price of \$8.0 million, pursuant to the terms of the agreement between Treasury and FBG entered into on February 12, 2013.
- On August 22, Treasury exchanged its preferred stock in Broadway Financial Corporation for 10,146 shares of common stock equivalent representing (i) 50% of the liquidation preference of the preferred stock, plus (ii) 100% of previously accrued and unpaid dividends on the preferred stock (\$2.6 million). The common stock equivalent will be converted to common stock upon the receipt of certain shareholder approvals.
- On August 29, Treasury sold its mandatorily convertible preferred stock and warrant issued by Independent Bank Corporation (Independent) back to Independent for an aggregate purchase price of \$81.0 million, pursuant to the terms of the agreement between Treasury and FBG entered into on July 26, 2013.

DIVIDENDS AND INTEREST

In August, Treasury received dividends and interest income from CPP investments of \$25.0 million. As of August 31, 2013, cumulative dividends, interest and fee income received from CPP investments total \$12.0 billion.

WARRANT REPURCHASES

In addition to the transactions above, Treasury disposed of its warrant positions in six institutions in August that were received in consideration for investments made under the CPP. These proceeds provided an additional return of \$9.1 million to taxpayers from Treasury's investments in banks beyond any dividend or interest payment.

- Treasury completed the sale of warrants issued by Heritage Oaks Bancorp; Unity Bancorp, Inc.; Avidbank Holdings, Inc. (formerly Peninsula Bank Holding Co.); and First M&F Corporation for a total of \$8.6 million.
- Hometown Bancorp of Alabama, Inc. and BNB Financial Services Corporation repurchased their preferred shares from exercised warrants from Treasury for a total of \$0.5 million.

⁶ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. First Bancorp fulfilled the conversion conditions and Treasury's MCP was converted into 32,941,797 shares of common stock. Treasury sold 12,000,000 of such shares on August 16, 2013.

On August 12, Anchor BanCorp Wisconsin Inc. filed for Chapter 11 protection in the U.S. Bankruptcy Court. See page 7 for more details.

⁸ Treasury exchanged its preferred stock for MCP. Hampton fulfilled the conversion conditions and Treasury's MCP was converted into 52,225,550 shares of common stock. Treasury currently holds 2,089,022 shares of Hampton common stock following a reverse stock split.

⁹ Treasury exchanged its preferred stock for 108,555,303 shares of FNB United common stock. Treasury currently holds 1,085,553 shares of FNB United common stock following a reverse stock split. On June 28, 2013, FNB United announced that, effective July 1, 2013; its name will change to CommunityOne Bancorp.

BANKRUPTCY AND RECEIVERSHIP

• On August 12, Anchor BanCorp Wisconsin Inc. filed for Chapter 11 protection in the U.S. Bankruptcy Court for the Western District of Wisconsin. Treasury's investment in Anchor BanCorp, Inc. was \$110.0 million, and the bank had made no repayments to Treasury as of the date of its bankruptcy filing.

COMMUNITY DEVELOPMENT CAPITAL INITIATIVE

In order to provide lower-cost capital to community development financial institutions, Treasury established the Community Development Capital Initiative. In total, Treasury invested approximately \$570 million in 84 community development financial institutions, which included approximately \$363 million exchanged by 28 financial institutions from the Capital Purchase Program. There are currently 72 institutions remaining in the program. Treasury has not taken any specific action to date to wind down the CDCI, however some institutions have repaid Treasury's investments. Any disposition decisions regarding the CDCI will be made in the future.

• On August 30, First M&F Corporation repurchased all of its outstanding CDCI investment from Treasury for a total of \$30.0 million plus accrued and unpaid dividends.

CLOSED PROGRAMS

ASSET GUARANTEE PROGRAM

The Asset Guarantee Program (AGP) was established in late 2008. Conducted jointly by Treasury, the Federal Reserve, and the FDIC, the AGP was used in conjunction with other forms of emergency assistance provided under TARP. Like the Targeted Investment Program (TIP) described below, the AGP was designed for financial institutions whose failure could harm the financial system, and it reduced the potential for "spillover" into the broader financial system and economy.

Two institutions were given assistance under the AGP – Bank of America and Citigroup. They were selected because of the large number of illiquid assets that both of them held at the time of the financial crisis. Their failures would likely have had a severe impact on the broader financial system. The AGP helped these institutions maintain the confidence of depositors and other funding sources, while continuing to meet the credit needs of households and businesses. In May 2009, before the AGP transaction was finalized, Bank of America decided to terminate negotiations, and in September 2009, the government and Bank of America entered into an agreement under which Bank of America agreed to pay a termination fee to the government. The fee compensated the government for the value that Bank of America had received from the announcement of the government's willingness to guarantee and share losses on the pool of assets from and after the date of the term sheet. No TARP funds were spent and as a result, this fee was a net gain to the taxpayer. The AGP is now closed and resulted in a positive return to taxpayers of more than \$4.1 billion.

CAPITAL ASSISTANCE PROGRAM

In 2009, Treasury worked with federal banking regulators to develop a comprehensive "stress test" known as the Supervisory Capital Assessment Program (SCAP). The purpose of the SCAP was to determine the health of the nation's 19 largest bank holding companies. This forward-looking stress test provided unprecedented levels of transparency and helped to restore confidence in the banking system. In conjunction with the SCAP, Treasury announced that it would provide capital under TARP through the Capital Assistance Program (CAP) to those institutions that needed additional capital but were unable to raise it through private sources. The CAP was offered to all banks and qualifying financial institutions, not solely to those banks that had been subject to the SCAP.

Only one TARP institution, Ally Financial (formerly GMAC), required additional funds under TARP to meet its SCAP requirements but received them through the Automotive Industry Financing Program, not the CAP. The CAP closed on November 9, 2009 without making any investments and did not incur any losses to taxpayers. Following the release of the stress test results, banks were able to raise hundreds of billions of dollars in private capital.

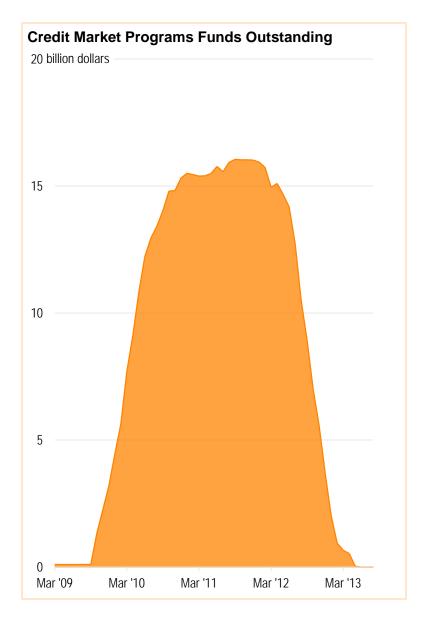

TARGETED INVESTMENT PROGRAM

Treasury established the Targeted Investment Program (TIP) in December 2008 to prevent a loss of confidence in certain financial institutions during the crisis, which could have resulted in significant financial market disruptions. This could have threatened the financial strength of similarly situated financial institutions and undermined the overall economy. Under the program, Treasury invested \$20 billion in Bank of America and another \$20 billion in Citigroup. These investments were made in addition to those that these banks received under the CPP. Similar to the CPP, Treasury invested in preferred stock, and received warrants to purchase common stock in each institution under the terms of the TIP.

In December 2009, both Bank of America and Citigroup repaid their TIP investments in full. Treasury received \$3 billion in dividends under the program. Treasury also received warrants from each bank, which provided taxpayers with \$1.4 billion in additional gains on their TIP investments. The program is now closed and resulted in a positive return of more than \$4.4 billion for taxpayers.

CREDIT MARKET PROGRAMS

During the financial crisis, the secondary credit markets that support credit to consumers and businesses were all but frozen. This meant that it was extremely difficult for consumers and businesses to get loans including auto loans, credit cards, student loans, and other types of financing. Three programs were launched under TARP to jumpstart these crucial markets: the Public-Private Investment Program (PPIP), the SBA 7(a) Securities Purchase Program, and the Term Asset-Backed Securities Loan Facility (TALF). Although the specific goals and implementation methods of each program differed, the overall goal of these three programs was the same—to restart the flow of credit to meet the critical needs of small businesses and consumers.

PUBLIC-PRIVATE INVESTMENT PROGRAM

PPIP was designed to help restart the market for non-agency residential mortgage-backed securities (RMBS) and commercial mortgage-backed securities (CMBS), thereby allowing banks and other financial institutions to re-deploy capital and extend new credit to households and businesses.

In June 2013 the last fund with a remaining Treasury investment under PPIP repaid the final outstanding equity owed to Treasury. As of August 31, 2013, Treasury has fully recovered its original investment of \$18.6 billion in PPIP, plus a net positive return of more than \$3.8 billion through interest, and proceeds in excess of original equity capital, including warrant proceeds. Remaining payments will provide the taxpayers with an additional positive return on their investment.

TERM ASSET-BACKED SECURITIES LOAN FACILITY

The Term Asset-Backed Securities Loan Facility (TALF) is a joint Federal Reserve – Treasury program that was designed to restart the asset-backed securities markets that provide credit to consumers and small businesses. Under this program, the FRBNY lent funds to investors in various types of asset-backed securities. By supporting the markets for such securities, TALF helped support the economy by increasing credit availability to American households and businesses.

Treasury originally committed \$20 billion in TARP funds to cover potential losses on TALF loans. In January 2013, Treasury and the Federal Reserve determined that Treasury's commitment of TARP funds to provide credit protection was no longer necessary. Given that Treasury's investment has been repaid in full with interest, each additional dollar Treasury collects through TALF going forward represents an additional gain for taxpayers. As of August 31, 2013, Treasury has collected more than \$495 million in contingent interest proceeds and other gains from the program above the initial \$100 million investment. The final TALF loan is scheduled to mature on March 30, 2015. All loans remain well collateralized and current in payments of principal and interest. Treasury and the FRBNY do not expect any cost to taxpayers from TALF.

CLOSED PROGRAM

SBA 7(A) SECURITIES PURCHASE PROGRAM

Treasury launched the SBA 7(a) Program as part of the Obama Administration's efforts to help small businesses in the wake of the financial crisis. This program was aimed at helping the secondary market for small business loans recover and free up credit for small businesses. From March through September of 2010, Treasury made open market purchases from participating pool assemblers of SBA 7(a) securities, which finance a wide range of small business needs, including working capital, machinery, equipment, furniture, and fixtures. Through its purchases, Treasury injected much needed liquidity into this market to help restart the flow of credit, enabling pool assemblers to purchase additional small business loans from loan originators.

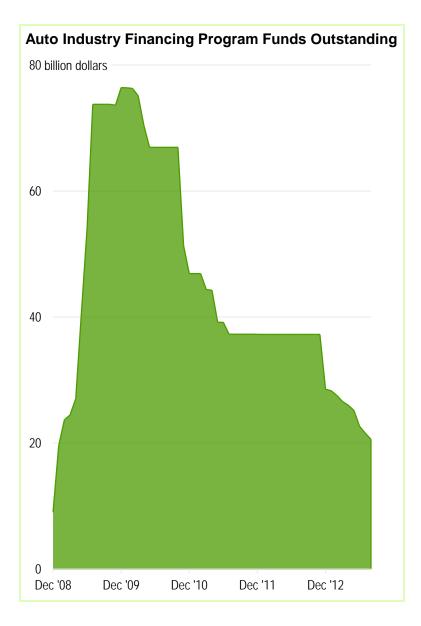

The SBA 7(a) Program is now closed. Treasury collected a total of \$376 million through the program. These cash collections exceeded Treasury's original investment amount by \$9 million.

AUTOMOTIVE INDUSTRY FINANCING PROGRAM

The Automotive Industry Financing Program (AIFP) was launched in December 2008 to prevent the uncontrolled liquidation of Chrysler and General Motors (GM) and the collapse of the U.S. auto industry, because the potential for such a disruption at that time posed a significant risk to financial market stability and threatened the overall economy.

Recognizing that both GM and Chrysler were on the verge of collapse, the Bush Administration extended temporary loans to both companies and their financing entities in December 2008. President Obama agreed to provide additional funding under TARP, but only on the condition that all stakeholders involved made substantial sacrifices. Treasury also provided TARP loans to ensure that auto suppliers would be compensated for their parts and services that had already been purchased by the auto companies before the crisis hit.

Some experts have estimated that as many as one million American jobs were saved as a result of the government's actions. Today the auto industry is continuing to rebound. GM and Chrysler are more competitive and viable companies supporting thousands of middle class jobs and Treasury is exiting its remaining investments in auto companies under TARP.

GENERAL MOTORS

Under AIFP, Treasury invested a total of \$51.0 billion to help stabilize and restructure GM. In November 2010, GM completed an initial public offering, which yielded \$13.5 billion in net proceeds for Treasury and reduced its stake in GM to 500.1 million remaining shares of GM common stock.

In December 2012, as part of its continuing efforts to wind down TARP, Treasury announced its intent to fully exit its remaining investment in GM within the following 12-15 months, subject to market conditions. As part of that announcement, GM agreed to purchase 200 million shares of GM common stock from Treasury at \$27.50 per share – a transaction that closed on December 21, 2012. In January 2013, the U.S. Department of the Treasury began the process of selling its shares into the market. On April 11, 2013, Treasury completed its first pre-arranged trading plan for the sale of its GM common stock. Under this plan, Treasury sold 58.4 million shares of GM common stock for total gross proceeds of approximately \$1.6 billion. In addition, in June 2013, Treasury sold 30 million additional shares of General Motors Company (GM) common stock at \$34.41 per share, in an underwritten public offering in conjunction with GM's inclusion in the S&P 500 index. The aggregate proceeds from the sale were approximately \$1.03 billion.

In August, Treasury continued its sale of GM common stock, pursuant to its second pre-arranged written trading plan initiated in May 2013. For more information, see Treasury's press release: http://www.treasury.gov/press-center/press-releases/Pages/jl1926.aspx.

During August, Treasury received total net proceeds of approximately \$811.1 million from the sales of GM common stock. As of August 31, Treasury has recovered approximately \$35.4 billion to fits investment in GM through repayments, sales of stock, dividends, interest, and other income.

CHRYSLER

In total, Treasury committed \$12.5 billion to Chrysler under TARP. After determining that Chrysler could achieve viability by partnering with the international car company Fiat, Chrysler filed for bankruptcy protection in April of 2009 as part of a planned restructuring.

Chrysler emerged from bankruptcy in June 2009 as a newly formed entity, Chrysler Group LLC (New Chrysler). In May 2011, Chrysler repaid its outstanding TARP loans six years ahead of schedule. More than \$11.2 billion of the \$12.5 billion committed to Chrysler has been returned to taxpayers through principal repayments, interest, and cancelled commitments. Treasury has exited its investment in New Chrysler and is unlikely to fully recover the difference of \$1.3 billion owed by Old Chrysler.

Additional details on the number of GM shares and average price per share that Treasury sold under its pre-arranged written trading plan will be disclosed upon the completion of each pre-arranged trading plan and provided in the Monthly Report to Congress that is issued subsequent to the sale.

This amount includes the total amount that Treasury has recovered, including the investment in GM and loans for the Supplier and Warranty Programs.

ALLY

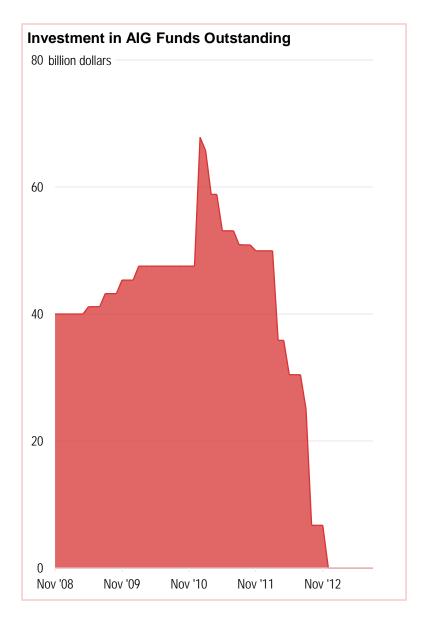

As part of the government's assistance to the automotive industry, Treasury also invested a total of \$16.3 billion of TARP funds in Ally Financial (formerly GMAC).

In August 2013, Ally Financial announced a series of transactions that is expected to result in Ally repaying Treasury approximately \$6 billion. This marks a major step forward in Treasury's eventual exit from Ally. Ally entered into private placement agreements with investors of Ally common stock for an aggregate price of \$1 billion. In addition, Ally also entered into agreements with Treasury to repurchase all of the outstanding Mandatorily Convertible Preferred stock (MCP) and the termination of Treasury's Share Adjustment Right (SAR). The agreements require the funding of the private placement to take place no later than November 30, 2013, and require approval of the Federal Reserve, the repurchase of the MCP and the elimination of the SAR. Upon completion of these transactions Treasury's remaining investment would be reduced to an approximate 66 percent common equity stake in the company.

INVESTMENT IN AMERICAN INTERNATIONAL GROUP, INC.

By September of 2008, AIG had grown to become the largest insurance company in the world. At its peak, it had more than \$1 trillion in assets and provided conventional insurance to 75 million individual and corporate customers in more than 130 countries. In the atmosphere of fear and panic in September of 2008, the sudden collapse of AIG could have dramatically accelerated and intensified the severity of the financial crisis.

Therefore the Federal Reserve and Treasury acted to prevent AIG's failure and the devastating consequences it would have likely had for American businesses and families. Some of the support for AIG came from TARP. The rest came from the Federal Reserve. And all of it has been recovered – plus nearly \$23 billion in positive returns for the taxpayer.

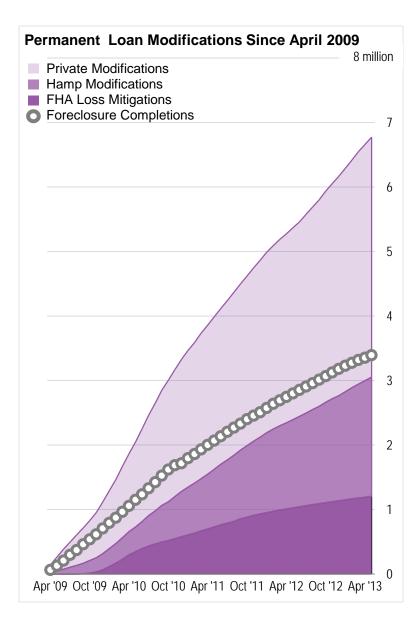

HOUSING PROGRAMS

In the beginning of 2009, the U.S. economy was facing the fallout from a housing bubble that by some measures had doubled home prices in a period of six years. By the time the Obama Administration took office in January 2009, home prices had fallen for 30 straight months. Home values had fallen by nearly one-third. Fannie Mae and Freddie Mac had been in conservatorship for four months, and American families were struggling to stay in their homes.

In February 2009, President Obama announced a number of steps to strengthen the housing market and help struggling homeowners avoid foreclosure. As part of this broad response to the housing crisis, Treasury, under TARP, established two central programs, Making Home Affordable (MHA) and the Hardest Hit Fund (HHF).

Making Home Affordable provides mortgage relief to homeowners to prevent avoidable foreclosures. This includes the Home Affordable Modification Program (HAMP), which permanently reduces mortgage payments to affordable levels for qualifying borrowers. MHA has since been expanded to include a number of other specialized programs. The application deadline for MHA is December 2015.

The Hardest Hit Fund was created to provide targeted aid to families in states hit hardest by the economic and housing market downturn. The participating states were chosen either because they are struggling with unemployment rates at or above the national average, or home prices have declined by more than 20 percent since the housing market downturn.

MAKING HOME AFFORDABLE

On September 13, the U.S. Department of the Treasury plans to release the Making Home Affordable Program Performance Report for the period ending July 2013. The report will be available on the following page: http://www.treasury.gov/initiatives/financial-stability/reports/Pages/Making-Home-Affordable-Program-Performance-Report.aspx.

HIGHLIGHTS

- Since the start of the program, more than 1.7 million homeowner assistance actions have been taken under MHA.
- Almost 1.4 million homeowners have received a permanent first lien modification through MHA since the start of the program, including more than 1.2 million through the Home Affordable Modification Program (HAMP). Approximately 13,000 new MHA first lien modifications have been reported since the June report.
- To date, homeowners in HAMP permanent modifications have saved an estimated \$21.6 billion in monthly mortgage payments. Homeowners in active first lien permanent modifications are currently saving a median of \$547 per month more than one-third of their median before-modification payment.
- Homeowners currently in HAMP permanent modifications with some form of principal reduction have been granted an estimated \$11.1 billion in principal reduction. Of all non-GSE loans eligible for principal reduction entering HAMP in July, 73 percent included a principal reduction feature.

2MP AND HAFA PROGRAM RESULTS

- The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify eligible second lien mortgages serviced by a participating servicer. To date, more than 115,000 homeowners in a permanent first lien modification under HAMP have received assistance through 2MP.
- More than 194,000 homeowners have exited their homes through a short sale or deed-in-lieu of foreclosure with assistance from the Home Affordable Foreclosure Alternatives Program (HAFA), which provides \$3,000 for relocation assistance after a homeowner exits the home.

SERVICER ASSESSMENTS

Included in the MHA Program Performance Report for the period ending July 2013 will be detailed assessments for the largest mortgage servicers participating in the MHA Program with results from the second quarter of 2013. In addition to providing greater transparency about servicer performance in the program, the Servicer Assessments – first introduced in June 2011 and published quarterly – are intended to set a new industry benchmark for disclosure of servicer efforts to assist struggling homeowners, while prompting them to correct identified deficiencies.

HARDEST HIT FUND

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

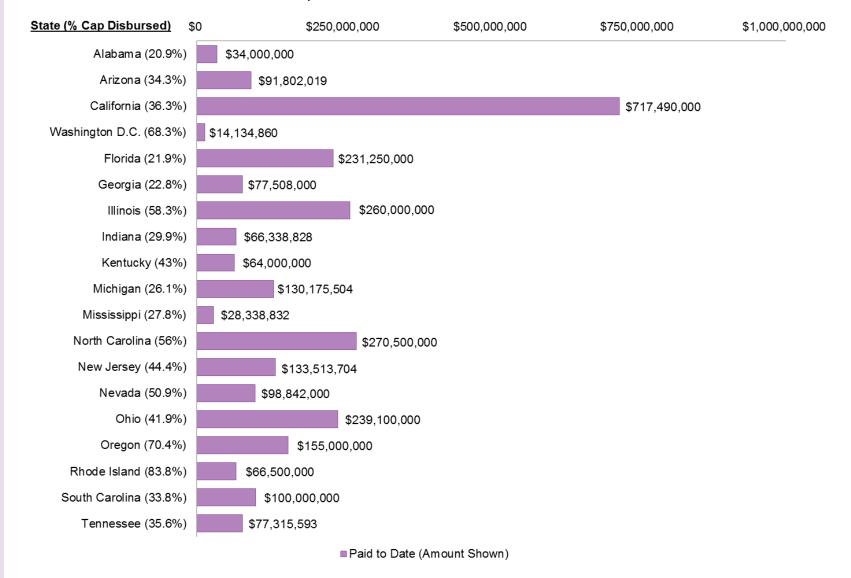

- There are now 65 active programs across the 19 HFAs. Approximately 67 percent of total program funds are targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of
 housing counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and
 hiring underwriters and other staff to review and approve applications.
- Treasury is working to identify best practices, share lessons learned, and provide additional assistance and oversight to HFAs. In August, Treasury continued to participate in bi-weekly conference calls with the 19 HFAs and the large servicers participating in the Hardest Hit Fund to discuss best practices in reaching the target population, ways to expand program eligibility, issues around the wind down of assistance programs and promising new program models that can effectively utilize Hardest Hit Funds.
- In August, Treasury approved program changes for Illinois, Nevada, North Carolina, Ohio, and Oregon, including three new HHF programs. North Carolina expanded their current unemployment assistance program to provide assistance for military veterans, the elderly and the disabled, and introduced a new Principal Reduction Recast program to assist underwater homeowners. Nevada introduced the Home Retention Program, a note-purchase program that partners with Home Means NV, Inc. to provide principal reduction for eligible loans to facilitate a permanent modification. Oregon geographically expanded their Rebuilding American Homeownership program beyond Multnomah County, and Illinois made minor changes to their programs to clarify program guidelines.
- On August 26, 2013, Michigan publicly launched its Blight Elimination Program, which will provide \$100 million to five jurisdictions in Michigan hard hit with vacant and blighted properties (Detroit, Flint, Saginaw, Grand Rapids and Pontiac). The Under Secretary for Domestic Finance, Mary Miller, spoke at a launch event held in Detroit. Treasury also approved Ohio's Neighborhood Initiative Program on August 28th, a blight elimination program which will provide up to \$25,000 for the demolition, greening, and maintenance of blighted properties to stabilize local housing markets and prevent avoidable foreclosures.
- Three HFAs drew a total of \$66 million in August; over the life of the program, the 18 states and the District of Columbia have drawn a total of \$2.86 billion. Each HFA draws down funds as they are needed. (See Hardest Hit Fund as of August 31, 2013 chart) HFAs have until December 31, 2017 to expend funds, and must have no more than five percent of their allocation on hand before they can draw down additional funds.

HARDEST HIT FUND AS OF AUGUST 31, 2013

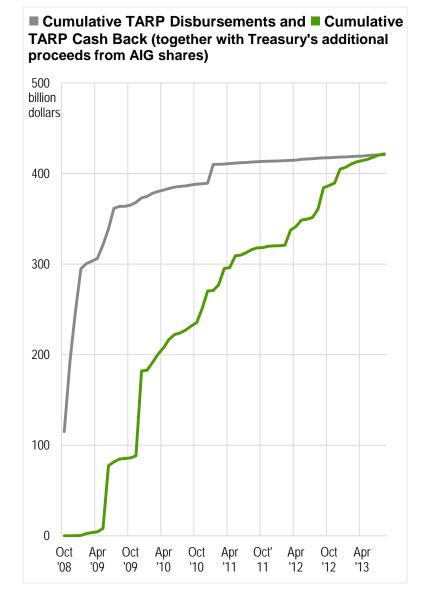

LIFETIME COSTS

Although the true cost of the financial crisis will always be measured in the jobs that were lost, the businesses that were closed, and the college educations or retirements that were deferred, five years after TARP was created, there is a clearer sense of its ultimate fiscal impact.

When Congress created TARP, it authorized up to \$700 billion for it. However, to date a total of \$420.9 billion has been disbursed under TARP. As of August 31, 2013, cumulative collections under TARP, together with Treasury's additional proceeds from the sale of non-TARP shares of AIG¹², have exceeded total disbursements by \$0.9 billion¹³.

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost. To see how Treasury has invested and recovered TARP funds over time please visit the interactive TARP Tracker at: http://www.treasury.gov/initiatives/financial-stability/reports/Pages/TARP-Tracker.aspx.

¹² For more information, see note 10 to the Daily TARP Update.

Treasury is continuing to disburse funds related to its housing programs, and continuing to recoup its outstanding investments. For the latest lifetime cost estimates, please see the chart on page 23: Treasury Estimates of the Impact of TARP Programs and AIG Investments on the Federal Budget.

The Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

This chart utilizes the methodology that OFS has consistently used to estimate lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future. It also includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Footnotes

¹ Lifetime cost information is as of July 31, 2013 with adjustments in AIFP for the pending Ally repurchase. Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of July 31, 2013. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in the aggregate value of the shares outstanding as of July 31, 2013, compared to the aggregate value of shares outstanding as of August 31, 2013, including the net proceeds from shares sold in August, 2013.

Outstanding Investment		07/31/2013 Market Value														1/2013 et Value	rease se) in Cost
			In	billions													
GM Common Stock	\$	4.91	\$	4.69	\$ 0.22												

Note: The share price for GM was \$35.87 for the period ending 07/31/2013 and \$34.08 for the period ending 08/31/2013.

² The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.

³ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.

- ⁴ The Estimated Lifetime Cost assumes that the Federal Reserve approves Ally's Comprehensive Capital Analysis and Review (CCAR) resubmission based upon a \$1 billion capital raise at which time Ally will repurchase \$5.9 billion in mandatorily convertible stock from OFS by November 30, 2013.
- ⁵ In March 2013, Treasury extended the letter of credit facility to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount from \$8 billion to \$1 billion. Treasury believes this lower amount will be sufficient to accommodate any increased usage that could result through the close of the program. The figures in this line include administrative expenses associated with the letter of credit facility.
- As discussed in note 10 to the Daily TARP Update, Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares on the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares was deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis was \$28.73 per share. TARP estimates include financing costs (borrowing) from the time of initial investment through the close of the program.

Footnotes

¹ This row represents the portion of CPP repayments that were received from refinancing to the Small Business Lending Fund (SBLF), which is not a TARP program. The law creating the SBLF provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments. This amount is included in total repayments and therefore, this column is not used to calculate the "Outstanding" amount.

² This column represents non-cash exchanges out of CPP into CDCI. A total of 28 CPP banks, representing \$355.7 million, converted from CPP to CDCI. The total amount exchanged into CDCI, with converted warrants, was \$363.3 million.

³ Excludes outstanding investments in institutions that have entered into bankruptcy or receivership.

⁴ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.

⁵ Amount of "Warrants Sold" reflects net cash receipts.

⁶ "Other Income (Expenses)" includes gains on sales, investment income, fees collected, and disposition expenses.

⁷ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which OFS provides in its monthly 105(a) report to Congress.

⁸ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.

⁹ Allocation of PPIP Equity receipts between repayments and income are subject to reclassification.

¹⁰Treasury's investment in AIG common shares consisted of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury managed the TARP shares and non-TARP shares together, and disposed of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the "Write-offs & Realized Losses" column shows a loss based on Treasury's cost basis of \$43.53 in the TARP shares alone. The non-TARP shares are shown at the bottom of the page after the TARP Total under "Additional AIG Common Shares Held by Treasury." A gain in the "Other Income (Expenses)" column is shown for the non-TARP shares because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per share. With the sale of all remaining shares in December 2012, Treasury has recovered a total of \$72.84 billion (including proceeds from the sale of the non-TARP shares), compared to total TARP disbursements of \$67.84 billion.

¹¹Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the prices at which Treasury has sold common shares in GM's initial public offering and subsequent sales and the Treasury's cost basis (\$43.52 per common share) for such shares. Treasury intends to continue to dispose of its GM shares in an orderly fashion, subject to market conditions.

¹²Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. In March 2013, Treasury extended the L/C to provide coverage for loans refinanced throughout the eligibility period, which had been extended to December 2014, but reduced the amount to \$1 billion. The obligation related to the FHA Short Refinance Program was reduced accordingly from \$8 billion to \$1 billion.

INITIAL COMMITMENT AMOUNT \$ 30,000,000,000 FINAL COMMITMENT AMOUNT \$ 21,856,403,574 TOTAL DISTRIBUTIONS 5 TOTAL CAPITAL REPAYMENT AMOUNT \$ 18,625,147,938

1/ The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.
2/ The loan may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.

3/ Adjusted to show Treasury's maximum obligations to a fund.

4 On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.

5/ Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury), to the fund's Limited Partnership Agreement.

6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCW fund will remain a part of Treasury's total maximum S-PPIP investment amount.

A diguised to show Treasury's final capital commitment (membership interest) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.

8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.

9/ Cumulative capital drawn at end of the Investment Period.

10/ The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.

11/Distribution represents a gain on funded capital and is subject to revision pending any additional fundings of the outstanding commitment.

12/On 08/23/2012, AllianceBernstein agreed to de-obligate its unused debt commitment. The Final Investment Amount represents the cumulative capital drawn as of the de-obligation.

13/ On, 6/5/2013, Invesco Mortgage Recovery Master Fund L.P. made a distribution to Treasury size a Limited Partner. The adjusted distribution was made 18 months after the Final Distribution on 9/28/2012. 14/ On 7/8/2013, Invesco Mortgage Recovery Master Fund L.P. made a distribution to Treasury arising from the Settlement Agreement between Jefferies LLC and Invesco Advisers, Inc. dated as of 3/20/2013.

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the mortgages refinanced under the FHA Short Refinance program during the eligibility period. After that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury could incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.

2/ On March 4, 2013, the U.S. Department of the Treasury and Citibank, N.A. entered into Amendment No. 1 to the L/C Facility Agreement, which reduced the maximum amount of the L/C from \$8 billion to \$1 billion; extends by two years the period of time Treasury has to increase the L/C to cover new loans that are entered into the program; and modified the fee structure paid to Citibank, N.A. Based on this new fee structure and the lower L/C, Treasury expects that the fees incurred for the availability and usage of the L/C will not exceed \$25 million.

¹This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement. All data present in this report reflects what is provided by servicers participating in the survey, and cannot be separately reviewed or validated by Treasury.

Beginning in August 2012, this report reflects a change in reporting requirements of the Monthly Servicer Survey; servicers report all HAMP modification requests received and their outcome, including multiple requests made on a loan. Prior to August 2012, servicers counted only one request per loan. As a result of this change, prior months' reporting contained data compiled under the different methodology. This update is reflected in this report on a going forward basis.

From time to time, a servicer's current month's cumulative results may not equal that servicer's prior month's cumulative results and current month's activity; this is due to corrections or updates made to prior reporting methodology. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

² "Requests Received" is the total number of HAMP mortgage modification requests received, as reported by servicers to Monthly Servicer Survey question: "Number of requests received for a HAMP modification". Cumulative Requests Received include all HAMP mortgage modification requests received since implementation of Supplemental Directive 10-02, effective June 1, 2010, and any requests that were approved and sent a Trial Offer prior to implementation of this program guidance.

³ "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the borrower by the servicer, calculated as the sum of Requests Approved and Requests Denied, defined below. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

⁴ "Requests Approved" is the total number of HAMP mortgage modification requests approved and Trial Offers sent to the borrowers, as reported by servicers to Monthly Servicer Survey question: "Number of requests Approved and Sent a HAMP Trial Offer". Note that all Requests Approved do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment. Cumulative Requests Approved include all HAMP mortgage modification requests approved and Trial Offers sent since program inception, or March 2009.

⁵ "Requests Denied" is the total number of HAMP mortgage modification requests denied and communicated to the borrower by the servicer in accordance with program guidance, as reported by servicers to Monthly Servicer Survey question: "Number of requests Denied for a HAMP Trial". Cumulative Requests Denied include all HAMP mortgage modification requests denied and communicated to the borrower by the servicer since implementation of Supplemental Directive 10-02, effective June 1, 2010. Figures include HAMP mortgage modification requests evaluated and denied due to insufficient documentation.

⁶ Bank of America, NA includes BAC Home Loans Servicing, LP.

⁷ Formerly National City Bank.

⁸ Includes servicers that are no longer actively participating in the survey process or whose Servicer Participation Agreement has been terminated. These servicers no longer submit a survey, and their results only reflect previous periods when the survey questions were not as extensive as current surveys (e.g. #Requests Denied was not a component of earlier surveys).
