

FEDERAL RESERVE BANK OF DALLAS
DALLAS 13, TEXAS

Dallas, Texas, October 27, 1948

To the Registrant Addressed and Others Concerned:

Our records indicate that you filed a registration statement under the old Regulation W which expired November 1, 1947, but that you apparently have not yet filed such a statement in response to the requirements of the new Regulation W which became effective September 20, 1948. It will be recalled from our circular of September 25, 1948, that persons engaged in business subject to the Regulation are required to file a registration statement not later than November 19, 1948. While some time still remains within which to comply with this requirement, we are, nevertheless, taking the liberty of again bringing the matter to your attention.

Accordingly, an additional set of registration statement forms is enclosed. (The duplicate may be retained in your files.) It will be observed that the form includes instructions on the reverse side in regard to reporting "instalment receivables owned" against Item II.

Registrants should file their registration statements with the Federal Reserve Bank of Dallas or the branch (El Paso, Houston, or San Antonio) which serves the territory in which the registrant is located.

Yours very truly,

R. R. GILBERT

President
