

**FEDERAL RESERVE BANK
OF DALLAS**

Dallas, Texas, June 15, 1950

**To All Banks in the Eleventh
Federal Reserve District:**

There is transmitted herewith a pamphlet listing stocks registered on national securities exchanges as of January 31, 1950. This list is furnished for your bank's convenience in applying the provisions of Regulation U, "Loans by Banks for the Purpose of Purchasing or Carrying Stocks Registered on a National Securities Exchange." This list supersedes the one dated January 31, 1948.

It will be our pleasure to be of assistance in connection with questions which may arise in regard to the provisions of this regulation.

Yours very truly,

R. R. GILBERT

President

List of Stocks Registered
on
National Securities Exchanges

As of January 31, 1950

(PREPARED FOR PURPOSES OF REGULATION U)

BOARD OF GOVERNORS
OF THE FEDERAL RESERVE SYSTEM

WASHINGTON

February 1950

Foreword

The purpose of this list is to facilitate compliance by banks with the provisions of Regulation U of the Board of Governors of the Federal Reserve System, entitled "Loans by banks for the purpose of purchasing or carrying stocks registered on a national securities exchange."

Regulation U applies to all banks in the United States, including both members and non-members of the Federal Reserve System. Any inquiry relating to the regulation should be addressed to the Federal Reserve Bank of the district in which the inquiry arises.

Sections 3(c) and 3(l) of Regulation U provide as follows:

"(c) In determining whether or not a security is a 'stock registered on a national securities exchange,' a bank may rely upon any reasonably current record of stocks so registered that is published or specified in a publication of the Board of Governors of the Federal Reserve System."

"(l) The term 'stock' includes any security commonly known as a stock, any voting trust certificate or other instrument representing such a security, and any warrant or right to subscribe to or purchase such a security."

A security admitted to unlisted trading privileges on a national securities exchange in accordance with the provisions of the Securities Exchange Act of 1934 is considered, as provided by section 12(f) of that Act, a "security registered on a national securities exchange." Certain other securities, however, which are listed on an exchange but which are exempted from registration, either by the Act or temporarily by the Securities and Exchange Commission, are not "securities registered on a national securities exchange" within the meaning of the Act.

This list includes such stocks as were "registered on national securities exchanges" as of January 31, 1950. Additions and changes in this list will be indicated in supplementary lists which will be issued quarterly during the rest of 1950, in May, August and November.

Acknowledgement is made to the Securities and Exchange Commission for assistance in preparation of this list. A bank may rely upon the list in determining, for the purposes of Regulation U, whether or not a security is a "stock registered on a national securities exchange," but the Board of Governors of the Federal Reserve System does not otherwise assume any responsibility for the list.

Explanatory Notes

Each registered stock is followed by abbreviations of the names of national securities exchanges on which it is listed or is admitted to unlisted trading privileges, as follows:

BSE—Boston Stock Exchange	NYS—New York Stock Exchange
CBT—Chicago Board of Trade	PBS—Philadelphia-Baltimore Stock Exchange
CIN—Cincinnati Stock Exchange	PIT—Pittsburgh Stock Exchange
DSE—Detroit Stock Exchange	SLS—Salt Lake Stock Exchange
LAS—Los Angeles Stock Exchange	SFM—San Francisco Mining Exchange
MSE—Midwest Stock Exchange	SFS—San Francisco Stock Exchange
NOS—New Orleans Stock Exchange	STS—Standard Stock Exchange, Spokane
NYC—New York Curb Exchange	WSE—Washington Stock Exchange

In cases in which a registered stock is not listed on an exchange but is admitted to unlisted trading privileges thereon, the abbreviation of the name of the exchange is followed by an asterisk (*).

Where the name of an issuer is not followed by the designation of any particular issue of its stock, it is the common or capital stock of the issuer that is traded on the exchange or exchanges indicated.
