

FEDERAL RESERVE BANK  
OF DALLAS

Dallas Texas, June 10, 1963

**To the Bank Addressed:**

As mentioned in our circular letter of March 6, 1963, this bank has on order high-speed equipment for the electronic processing of checks, which is scheduled to be installed during October of this year.

To assist in the testing of our sorting programs, it would be very helpful to us at this time if we had specimen checks drawn on each bank located in our territory. Therefore, it would be appreciated if you will send us ten or fifteen blank checks from your check stock which have been pre-printed with your MICR transit number. If you desire, these checks may be stamped "canceled" or "void"; however, *please do not perforate them*. It is suggested that the blank checks be enclosed with your next cash letter remittance.

Your participation in the MICR Program is sincerely appreciated.

Yours very truly,

Watrous H. Irons

President
