

FEDERAL RESERVE BANK OF DALLAS

FISCAL AGENT OF THE UNITED STATES

Dallas, Texas, December 2, 1963

**To All Issuing Agents of United States Savings Bonds
In the Eleventh Federal Reserve District:**

Recently some "old" design United States Savings Bonds have been issued by issuing agents, indicating that some agents still have a few of these bonds in stock.

The "old" design bonds have an original maturity of eight years and eleven months while the bonds now being supplied to issuing agents have a maturity of seven years and nine months. Bonds of the two designs can be readily distinguished by the term of maturity which is printed on the face of the bonds immediately below the words "The United States of America."

It is requested that you examine your entire stock of unissued bonds and return to us any bonds showing a maturity of eight years and eleven months. Such bonds may possibly be found in the larger denominations which are ordinarily issued with less frequency than the lower denomination bonds.

The bonds should be returned *uncancelled* with a transmittal Form PD 3252. If you do not hold any of the bonds, no response to this letter is necessary.
