LIST OF OTC MARKET MAKERS

To All Banks and Others Concerned
in the Eleventh Federal Reserve District:

Enclosed is a copy of the list of OTC market makers published as of September 16, 1969. The list comprises firms that have filed Form X-17A-12(1) with the Securities and Exchange Commission, in order to qualify as OTC market makers under section 221.3(w) of Regulation U, and the OTC margin stocks in respect of which each has qualified.

The present list includes the initial list published as of July 18, 1969, and the two supplements issued as of August 8 and August 22, 1969, as well as additional notifications filed with the Securities and Exchange Commission by broker-dealers following issuance of the August 22 supplement and ending September 16.

Additional copies of the present list will be furnished upon request.

Yours very truly,

P. E. Coldwell
President

Enclosure (1)
LIST OF OTC MARKET MAKERS

as of September 16, 1969

(Prepared for use by banks in connection with extensions of credit pursuant to section 221.3(w) of Regulation U)

This list of "OTC market makers" comprises firms that have filed Form X-17A-12(1), the "Notification by OTC market makers in OTC margin securities," with the Securities and Exchange Commission, and the OTC margin stocks in respect of which each such firm had filed such form as of the above date. This list supersedes the initial list published as of July 18, 1969, as well as the two supplements to the list issued as of August 8 and August 22, 1969.

Part I of this list represents notifications filed through September 10, 1969, in which the broker-dealer commenced making a market in an OTC margin security. Part II represents notifications filed through September 16, 1969, in which the broker-dealer ceased making a market in an OTC margin security since filing the commencement notification. An addendum follows Part II and represents notifications filed between September 11 and 16, inclusive, in which the broker-dealer commenced making a market, such notifications having been received following the compilation of the data contained in Part I.

In determining whether a broker-dealer has filed Form X-17A-12(1) in respect of OTC margin stock being pledged as collateral to secure credit extended pursuant to section 221.3(w) (but for this purpose only), a bank may rely on the most recent issue of the list of OTC market makers in combination with any supplements thereto. A bank extending such credit must also obtain from the broker-dealer a properly executed Form F.R. U-2, and must accept such form in good faith, as defined in sections 221.3(a) and 221.3(w) of Regulation U.

Copies of issues of the list and of supplements may be obtained from the Federal Reserve Bank of the district in which the head office of the bank extending such credit is situated.
### Part I

The following broker-dealers had commenced making a market in the following securities as of August 8, 1969, except as otherwise indicated.
