Enclosure (1)

Supplement No. 1 as of October 24, 1969

to Updated List of OTC Market Makers

Published as of September 16, 1969

(Prepared for use by banks in connection with extensions
of credit pursuant to section 221.3(w) of Regulation U)

This supplement to the list of "OTC market makers" comprises firms that have filed Form X-17A-12(1), the "Notification of OTC market makers in OTC margin securities," with the Securities and Exchange Commission, and the OTC margin stocks in respect of which each such firm had filed such form, from September 16 when a complete revision of the initial list was published through October 24, 1969.

Part I of this supplement represents notifications in which the broker-dealer commenced making a market in an OTC margin security. Part II represents notifications in which the broker-dealer ceased making a market in an OTC margin security. Corrections to the September 16 list are shown at the end of this supplement.

In determining whether a broker-dealer has filed Form X-17A-12(1) in respect of OTC margin stock being pledged as collateral to secure credit extended pursuant to section 221.3(w) (but for this purpose only), a bank may rely on the most recent issue of the list of OTC market makers in combination with the supplements thereto. A bank extending such credit must also obtain from the broker-dealer a properly executed Form F.R. U-2, and must accept such form in good faith, as defined in sections 221.3(a) and 221.3(w) of Regulation U.

Copies of issues of the list and of supplements may be obtained from the Federal Reserve Bank of the district in which the head office of the bank extending such credit is situated.
