

FEDERAL RESERVE BANK OF DALLAS

DALLAS, TEXAS 75222

Circular No. 71-31
February 9, 1971

To the Member Bank Addressed:

As a result of a recent amendment to Regulation M, "Foreign Activities of National Banks", revised work sheets AC-238X, AC-239X, AC-240X and AC-241X concerning certain Euro-Dollar transactions, have been prepared. The attached revised work sheets include the amendment to Regulation M which became effective January 15, 1971 concerning the purchase of Export-Import Bank obligations by foreign branches.

Form AC-238X has been revised to provide an additional column entitled Export-Import Bank Obligations. Forms AC-239X, AC-240X and AC-241X have been revised to appropriately identify the various columns as revised on Form AC-238X. In addition, column five on Form AC-239X has been changed to indicate the low computation period since January 20, 1971 rather than the low computation period since December 23, 1970, as indicated on the current form.

The Form AC-238X should be completed and forwarded to the appropriate Federal Reserve office in the usual manner at the end of each computation period. The other attached revised forms are for your internal use.

In the event that there is any difficulty in the utilization of these revised forms, please contact the Accounting Department at the Head Office or appropriate Branch.

Yours very truly,

P. E. Coldwell

President
