

FEDERAL RESERVE BANK OF DALLAS

DALLAS, TEXAS 75222

Circular No. 72-91  
May 16, 1972

To All Banks in the Eleventh Federal Reserve District:

A Regional Check Processing Center will be established in the late summer of 1972 at the Federal Reserve Bank of Dallas. This Center will be known as the North Texas Regional Check Processing Center and will serve banks in the North Texas area. All banks to be served which currently use the routing symbol 1113 have been assigned the new routing symbol 1119, and will begin using the new symbol as checks are reordered.

Checks bearing the new routing symbol 1119 should be commingled with other Dallas country items until the new Regional Check Processing Center begins operations. A complete list of participating banks to be served will be furnished at a later date. When a definite implementation date for beginning the Center's operations has been determined, we will advise you accordingly.

If you have any questions regarding this matter, please contact any of the officers supervising the checks function at the Dallas head office.

Yours very truly,

P. E. Coldwell,

President
