Circular No. 74-204
July 29, 1974

REVISED LIST OF OTC MARGIN STOCKS

To All Banks, Brokers/Dealers, Regulation G-Registrants
and Others Concerned in the Eleventh Federal Reserve District:

The Board of Governors of the Federal Reserve System has issued, effective July 29, 1973, a revised list of OTC margin stocks pursuant to the provisions of Regulations G, T, and U.

This list is published from time to time by the Board as a guide for lenders subject to the margin regulations and the general public. Stocks will be added to the list, or deleted, in the interim between publications as deemed appropriate by the Board.

A copy of the press release and revised list is enclosed. All such lists and changes dated prior to July 29, 1974, should be destroyed.

Yours very truly,

P. E. Coldwell,

President

FEDERAL RESERVE

press release

For immediate release

July 29, 1974

The Board of Governors of the Federal Reserve System today published a revised list of 709 "over-the-counter" (OTC) stocks that are subject to its margin regulations effective at the opening of business, Monday, July 29.

The attached list supersedes the revised OTC margin stock list that was issued on September 4, 1973. Minor revisions were made during the past year to update the list.

Of the 709 OTC stocks on the new revised list, 121 have been added for the first time. Forty-four stocks have been removed from the list because they failed to meet the continued listing requirements, are now listed on a national securities exchange or were acquired by another company.

Margin regulations generally limit the amount of credit a person or firm may obtain to buy or carry securities. Stocks on the OTC margin list are subject to the same margin requirements (presently 50 per cent) as stocks listed on national stock exchanges. This means a person or firm buying a stock on credit must make a down payment equal to at least 50 per cent of the purchase price of the stock and may obtain credit for the remaining 50 per cent.

OTC stocks first became subject to margin requirements on July 8, 1969, pursuant to an Act (P.L. 90-437) adopted by Congress the year before. Prior to that date, only stocks listed on national exchanges were subject

to margin requirements. OTC margin stocks are those determined to have characteristics similar to stocks registered on national exchanges.

Margin requirements on OTC stocks apply only to credit extended on the date the stock becomes an OTC margin stock and thereafter. Credit extended by banks to purchase or carry OTC stocks before they appeared on the list becomes subject on that date to the retention and withdrawal requirements of the Board's margin Regulation U if the credit is collateralized by any stock. Such credit previously extended by lenders subject to Regulation G (which governs securities credit by persons other than banks, brokers, or dealers) becomes subject to retention and withdrawal requirements if collateralized by "margin securities."

It is unlawful for any person to make, or cause to be made, any representation to the effect that the inclusion of a security on such list of OTC margin stocks is evidence that the Board or the Securities and Exchange Commission has in any way passed upon the merits of, or given approval to, such security or any transaction therein. Any statement in an advertisement or other similar communication containing a reference to the Board in connection with such stocks or such list shall constitute such an unlawful representation.

The list is published by the Board for the information of lenders and the general public.

LIST OF OTC MARGIN STOCKS
as of July 29, 1974

This list of "OTC margin stocks" is comprised of stocks traded over the counter (OTC) that have been determined by the Board of Governors of the Federal Reserve System to be subject to margin requirements as of July 29, 1974, pursuant to Sections 207.2(f) of Federal Reserve Regulation G, "Securities Credit by Persons other than Banks, Brokers, or Dealers," 220.2(e) of Regulation T, "Credit by Brokers and Dealers," and 221.3(d) of Regulation U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks."

The list is published from time to time by the Board as a guide for lenders subject to the regulations and the general public. Stocks will be added to the list, or deleted, in the interim between publications as deemed appropriate by the Board. This list supersedes the previous list of OTC margin stocks published as of September 4, 1973, including changes thereto.

CAUTION: It is unlawful for any person to make, or cause to be made, any representation to the effect that the inclusion of a security on such list of OTC margin stocks is evidence that the Board or the Securities and Exchange Commission has in any way passed upon the merits of, or given approval to, such security or any transaction therein. Any statement in an advertisement or other similar communication containing a reference to the Board in connection with such stocks or such list shall constitute such an unlawful representation.

Any inquiry relating to this list or to Regulations G, T, U, or X should be addressed to the nearest Federal Reserve Bank.

(Prepared for Purposes of Regulations G, T, U, and X)
