## Press Release

For immediate release

October 11, 1983

The Federal Financial Institutions Examination Council today announced that the June 1983 Uniform Bank Performance Report (UBPR) is now on sale to the public. This quarterly report is designed for use by bank examiners, financial analysts and bank managers, and permits both summary and in-depth analysis of a commercial bank's financial performance and trends.

The June 1983 UBPR presents to the public for the first time information on past due, nonaccrual and renegotiated loans and lease financing receivables. This report also presents revised balance sheet formats, including a new bank capital presentation, and a revised deposit presentation that gives information on Super NOW and Money Market Deposit Accounts.

The June report also includes for the first time selected data on banks' commitments and contingencies and information on repricing opportunities for selected balance sheet categories for banks having at least \$300 million in assets. Data on repricing opportunities for smaller banks will be included at a later date.

Copies of individual bank UBPRs may be obtained for \$25 per report, with quantity discounts available. UBPR User's Guides may be obtained for \$2.50 each. June 1983 peer group reports and state average reports are also available. Detailed instructions for ordering UBPRs and ancillary reports are attached.

Each insured commercial bank will automatically receive a free copy of its own report.
