Press Release

For immediate release

April 9, 1984

The Federal Financial Institutions Examination Council today announced that the December 1983 Uniform Bank Performance Report (UBPR) is now available for sale to the public. This quarterly report is designed for use by bank examiners, financial analysts and bank managers, and permits both summary and in-depth analysis of a commercial bank's financial performance and trends.

During 1983, the following information was added to the UBPR and is included in the December 1983 edition:

- loans to executive officers and shareholders;
- "brokered deposits" (deposits acquired from brokers or dealers);
- past due, nonaccrual and renegotiated loans and lease financing receivables;
- selected data on each bank's commitments and contingencies;
- a revised capital presentation to differentiate between primary and secondary capital;
- an analysis of repricing opportunities for selected balance sheet categories;
- a revised deposit presentation that gives information on Super NOW and Money Market Deposit Accounts.

To provide for industry wide analysis and comparisons, both the UBPR Peer Group Report (includes data for all UBPR peer groups) and the UBPR State Average Report (includes data for all states and U.S. Trust Territories) contain an additional grouping combining all insured commercial banks.

Copies of individual bank UBPRs may be obtained for \$25 per report, with quantity discounts available. UBPR User's Guides may be obtained for \$2.50 each. December 1983 Peer Group Reports and State Average Reports are also available. Detailed instructions for ordering UBPRs and ancillary reports are attached.

Each insured commercial bank will automatically receive a free copy of its own report.
