Station K, Dallas, Texas 75222

Circular No. 84-130  
December 31, 1984

**TO:** All depository institutions in the Eleventh Federal Reserve District

**ATTENTION:** Operations Officer

**SUBJECT:** Modifications to Bulletin 16 reflecting lower lease fees for personal computers

**SUMMARY:** The Federal Reserve Bank of Dallas is updating Bulletin 16 -- Dedicated Line and Dial-Up Access to the RESPONSE Network. The changes, which become effective February 1, 1985, reflect a reduction in the monthly charge for personal computers leased to depository institutions. In addition, the Dallas Fed also is announcing the immediate availability of IBM Personal Computer Model XTs for use with the RESPONSE network.

**DETAILS:** The Federal Reserve Bank of Dallas is pleased to announce decreases in the monthly lease fee for personal computers. The revisions to Bulletin 16, Supplement A, Table 1, indicate the new lease fees of \$98 per month for institutions connected with the RESPONSE network through an IBM Personal Computer and \$153 per month for institutions connected with the network through an IBM Personal Computer Model XT. Previously, these fees were \$120 and \$220 respectively. Prices for optional upgrades have not been revised. The reduced fees will be automatically assessed as of February 1, 1985.

Personal computer configurations 1 and 2 are readily available as an initial or second link to the RESPONSE network or as a replacement of a currently leased standard IBM Personal Computer (configuration 1) with an IBM Personal Computer Model XT (configuration 2). To place an order for either of these models please send a letter to:
