March 11, 1994

Notice 94-30

TO: The Chief Executive Officer of each member bank and others concerned in the Eleventh Federal Reserve District

SUBJECT

Federal Financial Institutions Examination Council Census Data Available for Purchase

DETAILS

The Federal Financial Institutions Examination Council (FFIEC) is making available for purchase the census data that it will use to prepare Home Mortgage Disclosure Act (HMDA) reports for calendar year 1994. These census data are used to categorize census tracts into low- or moderate-income, middle-income, and upper-income neighborhoods on the HMDA disclosure statements and aggregate reports.

The census data, drawn from the 1990 decennial Census of Population and Housing of the Bureau of the Census, pertain to census tracts within the metropolitan statistical areas (MSAs) established by the Office of Management and Budget (OMB) in June 1993. Because of OMB's deletion or addition of geographic areas to these MSAs, estimated median family income for roughly 100 MSAs has changed. For example, some tracts previously categorized as low or moderate income may now be middle income.

The FFIEC uses other income figures, which the Department of Housing and Urban Development (HUD) updates annually, to group loans and applications based on the income of borrowers and applicants relative to median family income for their MSA. HUD estimates for 1994 are not yet ready, but are expected by the second quarter.

The 1994 census data file (minus the HUD figures), listed as Item #104 on the order form, can be purchased on magnetic tape for \$250. To avoid paying twice, purchasers may defer obtaining the data file until a complete file is available, or they may request (on the same order form) a hard-copy listing of HUD's income estimates, which the FFIEC will provide at no cost once those figures are available. To order the hard-copy listing, please refer to Item #004 on the order form.
