SUBJECT

Availability of the March 2001 Uniform Bank Performance Reports

DETAILS

The Federal Financial Institutions Examination Council (FFIEC) has announced that the March 2001 Uniform Bank Performance Report (UBPR) is available for distribution and sale to the public. For the most part, the formats for the commercial banks and the Federal Deposit Insurance Corporation-insured savings banks (FDIC-ISB) are identical; however, the FDIC-ISB have unique UBPR peer groupings.

The quarterly UBPR is designed for use by bank examiners, financial analysts, and bank managers. The report permits both summary and in-depth analysis of financial performance and trends for commercial banks as well as FDIC-ISB. Computer tapes of the UBPR data are available for the March 2001 edition.

In addition, the March 2001 versions of the UBPR Peer Group Ratio Distribution Report and the UBPR State Average Ratio Distribution Report are available. These reports provide users with a complete ratio distribution ranging from the 1st through the 99th percentile for all UBPR ratio values. The ratio values are presented for each UBPR group, using the same definitions used in the UBPR.

General Information

The Uniform Bank Performance Report (UBPR) is an analytical tool created for bank supervisory purposes. In a concise format, it shows the impact of management decisions and economic conditions on a bank's performance and balance-sheet composition and is produced for each insured commercial bank and FDIC insured savings bank (Insured Bank) in the United States. The UBPR is computer-generated from the FDIC data base, contains several years worth of data, and the data is presented in ratio, percentage, and dollar formats.

Average Report

(approximately 310 pages) Contains ten pages of ratio averages for each UBPR Peer Group as well as national averages. This report follows the same format as the bank report and presents five periods of data.

Distribution Report

(approximately 390 pages) Contains ten data values ranging from the 1st through the 99th percentiles for each ratio for the current reporting period only.

State Average Data

Consists of the State Average Report and the State Average Distribution Report. These reports contain Summary Ratio data (in the same format as Page I of the Bank Report) for the nation and each individual state. Commercial and FDIC insured savings banks data are not commingled.

- **Average Report**—(approximately 75 pages) this report follows the same format as the bank report and presents five periods of data.
- **Distribution Report**—(approximately 300 pages) contains ten data values ranging from the 1st through the 99th percentiles for each ratio for the current reporting period only.

User’s Guide for the UBPR

(approximately 100 pages) Documents the Bank Report. The User’s Guide includes:

- **General and technical UBPR information**
- **A sample of each UBPR page** and a description of each line item
- **A worksheet for calculating tax-equiva-
lency adjustment.**

Public Disclosure Tapes

Data printed on the Bank Report hard copies are available on tape in bulk format for all banks, peer groups and state averages. These tapes may be of use to requestors who wish to select or analyze data for large numbers of banks or peer groups. A typical UBPR edition would include a maximum of 17 tapes: eight unique tapes for bank data, eight unique tapes for bank rank data, and one tape for peer group and state average data.
