January 28, 2003

Notice 03-04

TO: The Chief Executive Officer of each financial institution and others concerned in the Eleventh Federal Reserve District

SUBJECT

Amendment to Regulation K
(International Banking Operations)

DETAILS

The Board of Governors of the Federal Reserve System has amended its regulations relating to international lending by simplifying the discussion concerning the accounting for fees on international loans to make the regulation consistent with generally accepted accounting principles (GAAP). The final rule becomes effective February 10, 2003.

ATTACHMENT

A copy of the Board’s notice as it appears on pages 1158–61, Vol. 68, No. 6 of the Federal Register dated January 9, 2003, is attached.

FEDERAL RESERVE SYSTEM

12 CFR Part 211

Regulation K; Docket No. R–1114

International Banking Operations;
International Lending Supervision

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) is amending its regulations relating to international lending by simplifying the discussion concerning the accounting for fees on international loans to make the regulation consistent with generally accepted accounting principles (GAAP).

FOR FURTHER INFORMATION CONTACT: Michael G. Martinson, Associate Director (202/452–3640), Division of Banking Supervision and Regulation; or Ann Mishack, Assistant General Counsel (202/452–3788), or Melinda Milenkovich, Counsel (202/452–3274), Legal Division, Board of Governors of the Federal Reserve System, 20th & Street, NW, Washington, DC 20551. For users of Telecommunications Device for the Deaf (‘‘TDD’’) only, contact 202/263–4869.

SUPPLEMENTARY INFORMATION: The International Lending Supervision Act of 1983 (ILSA), 12 U.S.C. 3901, et seq., requires each federal banking agency to evaluate the foreign country exposure and transfer risk of banking institutions within its jurisdiction for use in examination and supervision of such institutions. To implement ILSA, the federal banking agencies, through the Interagency Country Exposure Review Committee (ICERC), assess and categorize countries on the basis of conditions that may lead to increased transfer risk. Transfer risk may arise due to the possibility that an asset of a banking institution cannot be serviced in the currency of payment because of a lack of, or restrictions on, the availability of foreign exchange in the country of the obligor. Section 905(a) of ILSA directs each federal banking agency to require banking institutions within its jurisdiction to establish and maintain a special reserve whenever the agency determines that the quality of an institution’s assets has been impaired by a protracted inability of public or private borrowers in a foreign country to make payments on their external indebtedness, or no definite prospects exist for the orderly restoration of debt service. 12 U.S.C. 3904(a). In keeping with the requirements of ILSA, on February 13, 1984, the Board, the Federal Deposit Insurance Corporation, and the Office of the Comptroller of the Currency (collectively, the federal banking agencies) issued a joint notice of final rulemaking requiring banking institutions to establish special reserves, the allocated transfer risk reserve (ATRR), against the risks presented in certain international assets. (49 FR 5594).

ILSA also requires the federal banking agencies to promulgate regulations for accounting for fees charged by banking institutions in connection with international loans. Section 906(a) of ILSA (12 U.S.C. 3905(a)) deals specifically with the restructuring of international loans to avoid excessive debt service burden on debtor countries. This section requires banking institutions, in connection with the restructuring of an international loan, to amortize any fee exceeding the administrative cost of the restructuring over the effective life of the loan. Section 906(b) of ILSA (12 U.S.C. 3905(b)) deals with all international loans and requires the federal banking agencies to promulgate regulations for accounting for agency, commitment, management and other fees in connection with such loans to assure that the appropriate portion of such fees is accrued in income over the effective life of each such loan.

When ILSA was enacted in 1983 and the regulation on accounting for international loan fees was promulgated on March 29, 1984, Congress and the federal banking agencies considered that the application of the broad fee accounting principles for banks contained in GAAP were insufficient to accomplish adequate uniformity in accounting principles in this area. Accordingly, the Board’s regulation provided a separate accounting treatment for each type of fee charged by banking institutions in connection with their international lending. Since that time, the Financial Accounting Standards Board (FASB) has revised the GAAP rules for fee accounting for international loans in a manner that accommodates the specific requirements of section 906 of ILSA. In order to reduce the regulatory burden on banking institutions, and simplify its regulations, the Board proposed to eliminate from Subpart D the requirements as to the particular accounting method to be followed in accounting for fees on international loans and require instead that institutions follow GAAP in accounting for such fees.

No public comments were received concerning the Board’s proposal and it is being adopted as proposed. In the event that the FASB changes the GAAP rules on fee accounting for international loans, the Board will reexamine its regulation in light of ILSA to assess the need for a revision to the regulation.

Regulatory Flexibility Act

The Board has reviewed the final rule in accordance with the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). This final rule revises accounting mechanisms for fees associated with international loans and harmonizes their treatment with accounting principles set forth in other regulations. Both the underlying regulation and the final rule primarily affect financial institutions engaged in significant international loan transactions, and the overall impact of the final rule will be to reduce regulatory burden. Accordingly, pursuant to 5 U.S.C.
605(b), the Board hereby certifies that the final rule will not have a significant economic impact on a substantial number of small business entities.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506; 5 CFR 1320 Appendix A.1), the Board reviewed the final rule under the authority delegated to the Board by the Office of Management and Budget. The collections of information associated with this rulemaking are found in 12 CFR 211.43 and 211.44. This information is required to evidence compliance with the requirements of Regulation K and the International Lending Supervision Act. The respondents/recordkeepers are for-profit financial institutions, including small businesses.

The Federal Reserve may not conduct or sponsor, and an organization is not required to respond to, this information collection unless it displays a currently valid OMB control number. The information on the allocated transfer risk reserve requested in section 211.43 and 211.44. This information is required to evidence compliance with the requirements of Regulation K and the International Lending Supervision Act. The respondents/recordkeepers are for-profit financial institutions, including small businesses.

...
shall determine jointly, based on the standards set forth in paragraph (b)(2) of this section, the following:

(i) Which international assets subject to transfer risk warrant establishment of an ATRR;

(ii) The amount of the ATRR for the specified assets; and

(iii) Whether an ATRR established for specified assets may be reduced.

(2) Standards for requiring ATRR—(i) Evaluation of assets. The Federal banking agencies shall apply the following criteria in determining whether an ATRR is required for particular international assets:

(A) Whether the quality of a banking institution’s assets has been impaired by a protracted inability of public or private obligors in a foreign country to make payments on their external indebtedness as indicated by such factors, among others, as whether:

(1) Obligors have failed to make full interest payments on external indebtedness; or

(2) Such obligors have failed to comply with the terms of any restructured indebtedness; or

(3) A foreign country has failed to comply with any International Monetary Fund or other suitable adjustment program; or

(B) Whether no definite prospects exist for the orderly restoration of debt service.

(ii) Determination of amount of ATRR. (A) In determining the amount of the ATRR, the Federal banking agencies shall consider:

(1) The length of time the quality of the asset has been impaired;

(2) Recent actions taken to restore debt service capability;

(3) Prospects for restored asset quality; and

(4) Such other factors as the Federal banking agencies may consider relevant to the quality of the asset.

(B) The initial year’s provision for the ATRR shall be ten percent of the principal amount of each specified international asset, or such greater or lesser percentage determined by the Federal banking agencies. Additional provision, if any, for the ATRR in subsequent years shall be fifteen percent of the principal amount of each specified international asset, or such greater or lesser percentage determined by the Federal banking agencies.

(3) Board notification. Based on the joint agency determinations under paragraph (b)(1) of this section, the Board shall notify each banking institution holding assets subject to an ATRR—

(i) Of the amount of the ATRR to be established by the institution for specified international assets; and

(ii) That an ATRR established for specified assets may be reduced.

(3) Accounting treatment of ATRR—(1) Charge to current income. A banking institution shall establish an ATRR by a charge to current income and the amounts so charged shall not be included in the banking institution’s capital or surplus.

(2) Separate accounting. A banking institution shall account for an ATRR separately from the Allowance for Loan and Lease Losses, and shall deduct the ATRR from “gross loans and leases” to arrive at “net loans and leases.” The ATRR must be established for each asset subject to the ATRR in the percentage amount specified.

(3) Consolidation. A banking institution shall establish an ATRR, as required, on a consolidated basis. For banks, consolidation should be in accordance with the procedures and tests of significance set forth in the instructions for preparation of Consolidated Reports of Condition and Income (FFIEC 031 and 041). For bank holding companies, the consolidation shall be in accordance with the principles set forth in the “Instructions to Consolidated Financial Statements for Bank Holding Companies” (Form F.R. Y–9C). Edge and Agreement corporations engaged in banking shall report in accordance with instructions for preparation of the Report of Condition for Edge and Agreement Corporations (Form F.R. 2886b).

(4) Alternative accounting treatment. A banking institution need not establish an ATRR if it writes down in the period in which the ATRR is required, or has written down in prior periods, the value of the specified international assets in the requisite amount for each such asset. For purposes of this paragraph, international assets may be written down by a charge to the Allowance for Loan and Lease Losses or a reduction in the principal amount of the asset by application of interest payments or other collections on the asset; provided, that only those international assets that may be charged to the Allowance for Loan and Lease Losses pursuant to generally accepted accounting principles may be written down by a charge to the Allowance for Loan and Lease Losses. However, the Allowance for Loan and Lease Losses must be replenished in such amount necessary to restore it to a level which adequately provides for the estimated losses inherent in the banking institution’s loan portfolio.

(5) Reduction of ATRR. A banking institution may reduce an ATRR when notified by the Board or, at any time, by writing down such amount of the international asset for which the ATRR was established.

§ 211.44 Reporting and disclosure of international assets.

(a) Requirements. (1) Pursuant to section 907(a) of the International Lending Supervision Act of 1983 (Title IX, Pub. L. 98–181, 97 Stat. 1153) (ILSA), a banking institution shall submit to the Board, at least quarterly, information regarding the amounts and composition of its holdings of international assets.

(2) Pursuant to section 907(b) of ILSA, a banking institution shall submit to the Board information regarding concentrations in its holdings of international assets that are material in relation to total assets and to capital of the institution, such information to be made publicly available by the Board on request.

(b) Procedures. The format, content and reporting and filing dates of the reports required under paragraph (a) of this section shall be determined jointly by the Federal banking agencies. The requirements to be prescribed by the Federal banking agencies may include changes to existing reporting forms (such as the Country Exposure Report, form FFIEC No. 009) or such other requirements as the Federal banking agencies deem appropriate. The Federal banking agencies also may determine to exempt from the requirements of paragraph (a) of this section banking institutions that, in the Federal banking agencies’ judgment, have de minimis holdings of international assets.

(c) Reservation of authority. Nothing contained in this rule shall preclude the Board from requiring from a banking institution such additional or more frequent information on the institution’s holding of international assets as the Board may consider necessary.

§ 211.45 Accounting for fees on international loans.

(a) Restrictions on fees for restructured international loans. No banking institution shall charge, in connection with the restructuring of an international loan, any fee exceeding the administrative cost of the restructuring unless it amortizes the amount of the fee exceeding the administrative cost over the effective life of the loan.

(b) Accounting treatment. Subject to paragraph (a) of this section, banking institutions shall account for fees on international loans in accordance with generally accepted accounting principles.
