# Welcome!

Artistic expression has been a concern of every society from the Stone Age to the present; an essential ingredient of the "good" life.

Employees of the Federal Reserve Bank of Philadelphia and other Philadelphia-area banks are sharing with us the "good" life by exhibiting their artistic expressions in paintings, songs, and in crafts. More than mere recreation, these activities show the force of free creative effort in the machine age.

We are pleased to welcome guests and members of this Bank to our nineteenth annual Art Exhibit. We hope you enjoy it.
