July 3. Layton told me that Mr. Bayard had written him from New York and asked about the situation in Europe. He had wired to say that he was in favor of not getting involved in European affairs.

Nov 19th, Saturday
Arrived at office at 8:30. Harding sent a message that Davidson of Walling also war in the same and he wanted me to come in later. I found a meeting in progress and eventually had tea in progress for some time.

Later I learned Davidson had written to Layton two days before, but no result had been given me. Williams was not present.

Davidson said he asked me ruling to declare the Bank was ready to lend them money, but also to proceed and hold it by Berl. East of 100 million by the N.B. was under the same. He believed there was a good investment for some time. He thought they would certainly be hard to manage.

Long discussion. Davidson said that and had been going for a long time. Amended 10 million dollars per month to be withdrawn by U.S. arranged to have only 10 million dollars per month. The 500 million in gold to be withdrawn. Seemed no knowledge of what was going on. Seemed a good deal of thought when considering the matter that perhaps better to have a recess of trade than to stand with our B.N. securities which...
though signed a few, may yet have to be refunded with 30 or 40 year bonds. said one evening in 1870 through the 6th of Xmas, would have been. N. would also. Harding said if he meant that one wants to see what they had been used in the same and much more said by the fact that the currency was being shown in a bank.

8. said meant only that in long run may wear beck in all values. said thought own would not last much longer. said Ulke years told him original 81% wanted only 50 million was own 11% blauen been agreed to take this at 2% and require loan at 1%.

saw this latter purchase 500 million was needed admitted bank would take when no longer hundred for own loss to invest of was lasted longer than he expected but we were far from any such limit now.

for adjusted for bank 1. Harding finally was unhappy to say to him that the 8th had no indication of it. For saying anything as to their notes for investment purposes by individuals or very lest they were good, but it would not know

such investments to any material extent by one blueness because it might have to work a word of caution in this respect. Harding later mentioned he had seen Lawrence who said no recent celebration was sanctioned by the. I said he had been to Europe 0.13 again.

Hawke wanted Harding to warn him on to any prospect in which might be issued as to investors but this was refused.

Harding early in week had a business to. He explained who said he wanted Bond and who was vigorous for either to junk, of exchange this 8th of Aug. but 8th asked me to take any action I pleased in the matter; also said he felt this would so very slow in investing on unsecured 8th. Notes we may have unsecured.

New 11th

Tuesday, advance Council interested in our question.

Mr. G. called and asked of housekeeping how

we are. He was so thankful on the activity we might have before established a breach.

Board went over 3rd Harding recommendation in order to make a new statement and give it out.

New 21st Wednesday, Mr. Harding Board reviewed a letter re: interest to make a new statement and give it out.

New 24th Meeting Board. decided to send each Federal

An apiece to the Board in order to get in front of
definite ideas. Council advised to that Board to allow

the Board to bring an investment in long-term
debt securities, to purchase British B. notes -

also letters of Credit, to sell.

Mr. Harding referred to article in the New

York Times announcing considerable offer of
such Deb. Notes. Mr. H. called and

Davidson - N. Y. He was not lost being announced.

Mr. H. said he had read the Times - second Board

suggestion when Davidson had said ask us for a further interview that

we needed to be further interviewed about

our plan for investment in the

war.
Board had letter to F. G. Curtis into stake.

Mr. Moody said had letter on security and said very important to hear 5 minutes late.

I visited our foreign credit committee, secured, however, did not seem singular that he could answer them. No word was received from him during the day and late in afternoon Board wrote to send this letter.

After this statement telegraphed that he had been announced having money that the 4th. Note would not be a limited one and not unlimited as stated by N.Y. paper.

Indicating he asked loaned, list of foreign securities held by N.E. firm, as a view to raising this rate to 2.75.

Nov. 25. 50.

It was early in morning we wrote our letter or within a statement for securities in the British ally lines of foreign letters. Wrote first, commencing a draft sub., to my mind were offensive to Alien. It was complained of the forcefulness of these letters, (hence, the Russian loans) as fast and misleading and said down rules as to what parts this office foreign would state in the future. It also advocated that consolidation in purifying the British displaced Notes would cause any efforts to back off, but said that as to certain exports ( commodities, I
Mr. H suggested an additional statement that would have explained the decision to hold the interest rate constant. He proposed a statement to the effect that the Federal Reserve Board would continue to maintain a constant rate of interest. The President agreed, and the statement was made in the minutes of the meeting.

On Tuesday, the Federal Reserve Board met. Mr. H. addressed the meeting and presented a memorandum on the current economic situation. He stated that the economy was in a state of uncertainty, with the possibility of a recession. He recommended that the Federal Reserve Board maintain a constant rate of interest to provide stability.

The minutes of the meeting were signed by the President and the Chairman.

The following is a detailed account of the minutes:

It seems clear that this would explain the reference to a
different foreign policy in the latter.

I feel that the reference in our statement to
private motives was erroneous, however my
colleagues could not see this, and they
strongly insisted on it so that the first wanted
such a statement made.

we noted that 10 W.telegram received after the
a telegram late in the afternoon merely
stating that we had received a statement
for luncheon meeting earlier. This was due
to some blunder that seems I asked Harding to
his line, knowing of such a statement was to be
issued. While we felt we were under no
obligation to communicate with him yet on
the basis of the statement, we felt it was
necessary to follow up earlier.

Next day we had not heard from the
party, while considering that Friedman came
to use voluntarily and held in his them.

He said that he knew Harrison & Blake had to own nothing as about half of them had not a cent. The Board at that time was apparently anxious to get a treaty by Oct. France was in getting a treaty by Oct. France was in getting a treaty by Oct. Germany had not told in several times the Board to France, and no word had been received. He said he showed cable last week that the N.Y. Board learned to warning publicly as an actual loan being made. Said alone with Justice McReynolds. Had a long talk. He seemed very distressed of the President's and to have made many legal objections that two sons in law sayers had recently made statements to object to this bill. He had no legal objections but a desire to prevent an absurd legal principle, or words to that effect. He eventually found this same our section. He also referred Sut. Of senators were unwilling to be too radical - that function of Sut. If ever most sensible to declare that a man had killed the bear, but after shot made a broken order. He was quite bitter about Brandeis. Said the decision that Court made underscored that who live a man in fact - the whole destructed law.

I examined the blood in the middle & on least the bullet was late - the bullet somewhat destructed the bullet and was

sightly of Brandeis' objecting; that it had strengthened instead of weakening the case; that dues campaign it was said the whole object to Brandeis was because the Court likely encouraged it - that it was removed that the thing justice had said that no Jew could understand the common law, so it was removed.

The chief of Brandeis' news but I cannot tell whether it will be a conservative judge to what he heard, as one of the strong members of the Court. He said he was glad to hear this, as it made him feel better.

See Houston told me of above statement as Justice Rehnau but I did not like judge back of them.

He also said that a man was not a success in arguing case before Supreme Court - he was not clear and judge would not accept the man was from the argument.

 Also said the N.Y. Agent, he had an opinion was demonstrated, that he had known that he decided at that amount of 124,000 it was no more now.

 Said he believed all the former N.Y. Officers would then been shown that the Pitt was known to let the 124,000 known S. (in N. Y.)

 Later I say, right and my death they could agree on would be more pleasing to him.

 Later Pitt & badly they were agreed on the 124,000 other words.
As the second step had been practically finished;
that Henry was by all odds the ablest man
in the Board; that his objection was to
the present method; that Henry was
as bitter toward Biddle as towards
Henry; and Biddle came out strongly
with the official line; that the
banks had no confidence in him; that
he absolutely dominated the house.
I said, I believed we should carefully
consider who, then, should not be in a change
in policy in all the things; forces of the
banks; that, unless to aloud it, Henry
would be a great victory for Biddle; but
we did not believe who could not be
dominated by Biddle; that the states
should be maintained until a clear
signal could be decided who.
I said to my mind that the question was a
puzzle:
1. Henry was dean bankard worst of
Henry.
2. He is the ablest man in the Board.
3. He is the only man most dominated
by Biddle.
4. While the attitude in the meeting
will have been considered as a
probability of his original stand, a very
important one was now confirmed.
I added that Biddle in the Bill would
have circumstances; would be the
new light on the. the matter was
presented.
Biddle said of Biddle Biddle in H. I. had
been the Biddle be well not want
to maintain him even of the head
due bankard could I that Henry was
the Banks of New city.
I said that if we but some was as
unanimous; that if we were ready to
renew salary and ask Biddle to
remain Avilla than the whole great
work could be continued.
He said that the men were those now when
he agreed it ought to be' simply considered
in the policy that who lead no certainty
to renew bullpen.
I said a word to the Biddle and
pointed out, that we sought and we
would then not Henry to resign his
as we believed it desirable.
He was better out of Biddle who had
been it. He was then counsel and exchanged
for them. when the Board matter
was interesting worth.
He also sent greater before considering
The circuit of Henry's enemies is about the fact that Henry was fit. After all, some kings were not kings. I agree the
was sometimes to the greatest, but because
that he was in his letter to Henry
about it, certainly. Even if the good
hours of the circuit.

Henry also had Henry's duty, and admitted
that the circuit could not have been
bad, was a terrible letter from Henry
speaking and that a censure in writing.
Henry knew a censure was also admiring
Henry as well but this Agency in 1000.

Henry then asked what about were there?
I said he might be why not.

The circuit could not be anything, and
that he must not do this. He was not
without words, that is in any case I believed
Henry had persuaded them to believe
in the circuit agreed.

Finally I said I suspected that Henry's
brother was at the bottom of it.
It is evident that there are discrepancies in the transcription. Here is a possible interpretation:

203 Thursday

In speaking to Mr. H. today, I asked him about the decision on the Reserve Bank. It was not clear what he meant. Henderson felt that we should consider it as a great success for the Reserve. Mr. H. asked me to send a letter to the city, the only letter I had. He asked me to send a letter to Mr. H. to the city, merely for the sake of getting me. Mr. H. said Sen. Smith had ordered me to consolidate the Atlanta & more N.B.I. The letter of the Fed Res Board was very belligerent: that it would not be signed until the letter came from the Department. Mr. H. said that there would be a combination of interested groups who would defeat any cutting down. He said that was the only reason for including Boston, and that the other members were glad to include Boston in order to get a good start. If Boston were to have it, the decision would have to be made. I was not sure what the decision would be. Mr. H. asked me to send a letter to the Reserve, on the condition that the Reserve Board, on the decision, etc.

I had always suspected that was Mr. H.'s intention and that he wanted Mr. H. to be.

Mr. H. received a very bitter letter from the Reserve.

In 1878 the British wanted Board to

he had the thought satisfied him that
they were not wise. I saw they could do
nothing further together. I explained to him that
Board was really responsible for condition
and I pointed out that Board suggested
a new bill that no member of Board

this enthusiastic, in board also said he had written the Board that

He told me to assume a very friendly attitude towards Mr. Butter, which in fact, wish, as he raised it, understand the letter, Dely, of the Dutch people, I said I would later come by that.

I spoke of the change in feeling towards him of Senators, and said I should be careful about any such changes until.

N.Y. At that time, that I wanted him to sit in a presidential capacity in view of the many suggestions of his name as a presidential candidate. He said he had no such ambitions, but such a thought would disturb him.

He said confidentially he had made up his mind not to remain in the cabinet but I wanted him to go slow in this. He said the people would not misunderstand and voting he said would be changed to presidential ambitions.

I asked him to rejoin me, and I asked him to join me; he said he could not but urged me to do so, to be sure to be sure; that he knew the assembly was not to let him know he had believed in the Brown Bros. no change in the business affairs of the British house. He said, saying strong lines had been written a saying many bitter things about the
Mr. Morgan. He thought the idea that under such circumstances, setting was the most reasonable and justifiable. He thought very sincerely of a change directly after that he had made. Mr. M. said he was going to send the note to the bank. I said I had an order to that effect.

Mr. Morgan. I was very anxious that the note should be drawn. I said I had an order to send the note to the bank. Mr. M. said he had a note to draw it which he would show me; he supposed that I should get the note which would precede it to New York.

The Congress of 1851, Britain's attitude towards war, had ceased. When Britain offered mediation, the United States and Britain knew this; that Britain instructed its ministry to withdraw if Britain offered mediation and that Britain knew that a cessation would be a British revolution, which the British ministry knew to be true.

Said that when Garibaldi went to England in 1861, he assured great legislators that British ministry arranged an intervention, and that Secretary出入境 by the queen to push him away, that large letters could be written to the North when it was feared a revolution might break out. He gave me the whole lettering of the Russian Japanese Secret Treaty. Said that Japan wanted peace and that Russia wanted an Austrian revolution; that Japan asked Roosevelt to intervene, he declined unless Roosevelt issued two letters, one directly and that both were in existence.

Roosevelt then approached Russia, declared and said an original of...
Hague Conference he could not decline to discuss the Peace: that Russia was sure
Russia would ultimately win (which he said was certain) but said would never
agree to end if any treaty came to an
unadvised or unwise treaty; but in the
understanding would like it. Upon negotiation that he was helped in this
view by letters sent by Janus to the
approaches in Berlin saying they would
never consent to Peace if read a continued

Prime Minister said the President knew.
I must point out that there was a request made some time ago to withdraw my name from the list of nominees for the position of Secretary of the Treasury, which I agreed to. Since that time, I have been informed that this request has been accepted and that my name will not be placed on the list for consideration by the Board of Governors of the Federal Reserve System.

Regarding the matter of the nomination of a member of the Board of Governors, I would like to express my views on the matter. I believe that the nomination process should be transparent and that the nominees should be evaluated on the basis of their qualifications, experience, and other relevant factors.

I also believe that the nominations should be made on the basis of merit and should not be influenced by political considerations. I urge the Board of Governors to consider these points when making their decisions on nominations.

I would like to reiterate my commitment to serving the Federal Reserve System and to contributing to its success. I am confident that the Board of Governors will make the right decisions in this matter.

Thank you for your attention to this matter.

I was not aware that any urgent and immediate change was required as it was understood there was no real need of such a change at present. I said the wording had improved but could not agree at any time of need. Notes were made, it would not be suggested for Board merely not to object. It would be [unreadable] to go public, and at least say if it did not object.

I said the Member said that a decision was to be made and some were to believe that this would be delayed in Canada, suggesting to the Board all were interested, management, etc. The Board was given another consideration to the matter and that provisionally it could be covered out.

I. 15. Thursday.

I am not aware, said last night about the Board being [unreadable] and finally 2 PM. He declared he was going have a discussion. I thought that what had happened had been all right. I said there could be a major element in that matter which might be [unreadable] in saying that there was a need of caution at least 250,000 in fact any tender demanded that interest should be 3% or less that we had.

I thought that as soon as I was aware and I thought about some elements involved. The matter was to be wrapped up along some such lines as that but that I should not want to bring the British that gave any such indication or advance.

I said that the proposal was for 3% by European action so that we did not know when the
Mr. Hunt of the Bank of England is coming to this country on Monday to see the Bank and State banks on investments, as many banks of which are now holding the Government, and the Bank of England, and the other banks are somewhat invested in them. They are now considered under the Government for the full volume of only a few days, but we may not have deemed it wise to issue such a warning at all in such a case, even that the new schemes involved many of our obligations. It was agreed to announce that we were proceeding on a distinct scheme to a gold limit of £400,000. Yet since it had been deemed to demand that change to the gold standard, the bill for bills in 2 years by taking the interest.

14th Monday

14th Monday, see us and give us only to get some important as to to the Bank, decided to consider your always as good advice. Mr. Hunt and colleagues have said that the Bank of England will be we are going to spend and keep money sound maintenance, unless money as and in such a limit, Brunei to ask them about their friends.

Mr. Hunt and not to mention that we are not right. I said, I cannot commit myself until we go into the whole.
Mr. Busey did not want to invest in their latest loan as they held their reserves liquid, also said he and Mr. Ford, because about 1/3 of the money being an investment, I asked if $1 million was, and he said that $1 million in new loan so far as respects individual investors, that was another matter who might or might not want out of the business in the loan. Then not to feel 20% plus always as III or to not want to invest, he wished to reserve before final due payment.

We, it agreed with me as to Busey investments, and I gathered on what he said that what it's wanted was not my recommendation as to Busey investments.

I did not go a fair price for, to get not every cent would just have, as I did not wish to be committed by any statement that they may have made or might make, but wished to keep...

Feb. 10, 1861.

W. H. said late this P.M. he had a long talk w.
Mr. H. saying that Morgan was asked
to lend 250 million of gold now.
Note.-just like old yest. Note also that
Mr. H. was very relieved, asking for
250 million he will agree to lend 20%
interest after a week.-w. the Feb. 10.

W. H. must have heard something
that day and he was reluctant to
proceed but that Morgan was
prepared to lend him new
notes until requirements 50% paid
in 15 days at 5% and then
20% payable 90 days hence.

Found in New York hotel register.

Feb. 11, 1861.

W. H. wanted us to take up debt planning
as to Selma. W. H. said Morgan was
asked to sell out and short them 200,000 notes
recently like old ones. W. H. objected to a 2
year bond w. resist to their repayment by
accepting lower rate of interest; that
he wanted not to violate itself and
give out an additional loan to banks
and reduce; that 200,000 had to be paid.
End. Note could not be paid; that
Bank. W. H. had overruled Morgan and
decided that must now stand for
2 years int. as a statement returning
sum and. W. H. furnished the
advisement of this decision at least as
to a rapid maturity of 2 years- every
day almost secure.

W. J. Read your letter & was sorry

Feb 23. Monday.

Barclay called. Had general talk, feared that prices might rise, some banks added not to an immediate panic. I explained our position as to renewed access. The bank held that banks could go sick. Bankers seem more anxious to know that our demand held that we did not legally prevent a rise in fees which, however, may occur.

Although we might lend and use any reasonable way, he said the volume and a new situation into this market is for new dealings that this was right; he said moreover that it was not good banking and should not be treated as a normal outcome.

He also said our opening up fund after N.O. was interchangeably good for the country but needing a system of such access was not.

Feb 24. Saturday.

Robert Green called. Said he had been acted by interests in N.Y. to go to London as a bond dealer and would, are about a deal of war against Germany said that the obligations of Germany were largely American, that these would not be sold the money he had should sell them cheaper.

Mr. B. Miller, with 1st粱... 

He said 1st British loan of 3% was very firmly subscribed, that it was needed as 4% was already offered in 3 1/4 the Bank of England was pressed by the Bank to underwrite the loan and in fact had to lend 3% of it.

Mr. Miller on the necessity of raising the market rate so that 4% would not have to invest in indigestible securities.

He thought it wise to provide on loan at special rates to Bn to meet the money wished by subscribers to the lenders of funds. 

Mr. Miller then said he had tried to draw on the long-term banks.

He explained 1stly by 1st loan, as to discounting financial bills, he had drawn on a rule of practice that Bn would not discount such Bills although he said if it was not always easy to discount them from long bills.

I gathered from what he said...

In the evening, nobody knew what was going on. Many people thought that Roosevelt was about to be executed. However, it was actually a false alarm. Roosevelt was taken to the hospital, and the details were kept secret to avoid panic.

He asked that the matter be now officially presented. I suggested a letter to Stake. He thought this was better than a full court martial and court of inquiry. But the idea, thought he would be better off to negotiate this Stake Board case on a personal basis rather than a judicial one.

As a matter of fact, I didn't think it could be settled by a formal letter. It was late in the evening when the members of the Board and the other officials arrived. Having been called in, the Board decided to discuss the matter.

The letter was written and sent to the Board. It was read and discussed. It was decided to proceed with the matter.

See 23, meeting with Allen and McGee. The Agency matter was still under discussion. He said the matter of this Agency was still under consideration. He said he would write a letter to Stake.

He asked how the matter was now officially presented. I suggested a letter to Stake. He thought this was better than a full court martial and court of inquiry. But the idea, thought he would be better off to negotiate this Stake Board case on a personal basis rather than a judicial one.

[Inaudible sound of status of matter] I was very indignant - said we should have N.Y. branch to which B.O. or some agent. Mr. Martin Landis, some time ago, said to him that in any medical demand made on N.Y. by some of others like other banks, etc., that we would not demand such consideration. Had I visited Landis with such consideration.

I sent him a letter to Mr. Dana. I heard that Mr. Dana had been here for a short time and I told him that I knew all about his mark. I heard that every bank had been called by Bond in the former, finally when all matters refused to suit me, I told him that I knew all about it and he refused to have a hand at me. I do not believe he knew all about it and every bank had been called by Bond in the former, finally when all matters refused to suit me.

Mr. Bond himself had called.

I was very indignant that I was left out and I was to have a day's work. I went to see him. He asked me to see another man who was better than a lot of agents and turned me over. It was a general declaration of mutual understandings, Mr. Bond of N.Y. &.

Dear Sir: 

I regret to tell you when you were at the house Christmas day that your Majesty sent the house for a special gift, 

a creams and your Assess a second day as a Christmas present. The articles are of little intrinsic value and I assumed there is no objection to their receiving them. I am looking forward to some very warm weather when you can use them and not even travel in addition to their cooperation.

Curtis, Sec. of N. Banks, wrote on Monday that N. Banks was not agreeable to adding 50.0 m. dollars to that of London, as he felt that it meant it was a loan to China. I told him I thought that was one of the best things China had done. We all agreed that the question of war indemnity in loan was a matter for state dept. to determine.

At gold meeting something Strauss said made me think he had advanced Steel and that the Fed was adverse to loan to Japan, and I stated that I wished to raise the issue and asked that if anything were said to the Sec. he should be told that I disagreed from others in the gold council. Warburg & I had a running conversation and finally Strauss said he would later make a note with Warburg that afternoon at 4:30. Warburg said I could come at that time.

At 4:30 I went to Warburg's office and asked if Strauss was coming. W. said he did not know but that there was no necessity of my coming in at the chief. I waited in my office until 5:40 and then learning from Warburg I went home from lunch to Selma, Conn.

He also agreed to have Johnson made counselor. I told him I would have to select an assistant, that Williams had a man whom he thought a good man for assistant. He said this was all right and added that I should feel free to do whatever I thought best; that it was not wise to consult him as to details. I told him to bring who said the very thing to be consulted, whatever he might say.

I then saw Williams who agreed to join in what was above an understanding that chairman would work if and when it was found necessary, to have a say who did just as he liked to the work. Called up Jones who received it with gladly without an upset.

I said the Williams or the Board ought to be present about it. Martin heard by word before.

It was said that he had stated it about him

in the draft of letter to Martin giving the

consent of the authority based on the

letter to Balling. In his letter to Balling

with his lead, I was able to the Board; that Williams positively declined to allow his name to

be used as authority in the letter. Martin said we ought not to let the Board know that.

I saw the manuscript in the

office yesterday; that he sent a copy of the

letter to the Board to go to the Board and

that it was hold all still about Balling and that he was necessarily

still in Martin's record until.

But he said Williams was right and that

the Board should not be told.

Sumner was speaking to him all about Democrats. He said he was an ass.

Sumner said farmers were what labor done and been offered Delaware place in the 80's.

Sumner also said working would be asked to be admitted to Delaware 2 years sooner than he did not have the first term of 10 years.

July 12.

Waller told me it was the free labor party. I went to the House and found Mr. Chaffee. Sumner, standing beside me in the House in his shirt sleeves.

I returned then to the House and said we were responsible for voting him this salary of $8 per month; that our members voted $5 and our chief, $75. I said if $8 and we lost, he was a liberal salary. I said if he lost we would lose him. Sumner objected; said hello did not like the new, they as much as said that other $1.50. The office of each member was his own to determine.

July 16.

Saw Mr. Waller in the Assembly room. He said members I went into Waller's office this morning and bound the Chaffee, Sumner, in the shirt sleeves, smoking a cigar and washing a plate. Also said that I

I am really sorry we were not notified by this means of great alacrity & having much on the system. The trouble with him is that he is an intriguer as shown by his effort to cut down the Reserves on the 12th & the plot to send me on the Curey List. This cunning, however, will not succeed, though he has a chance. I believe myself he and above recent friendly still.

At 1 P.M. Missed Dr. Roads hence to work as they & Vasy had invited us to their house. Miss Roads, Miss D. & Miss Vasy & myself left above recent friendly still.

We are evidently being disappointed by his not being satisfied in what he had confided by condoles that the Reserve had been of much use. The Reserve had been still often no objections that were sufficient. Reed & consulting had had the smaller measures. He was very little at this. Tonin and instructed he would get

Williams browsed troubled steadily. 

Subsidiaries were inspecting the last time the whole city banks. The bank had a serious rate of interest, and then he decided that it was clear, but the rule to execute a 50% reduction rather than let their money do its[2/4] allegorical deeds. 

The banks said they did not make the rule, and that if P. B. would agree to take their notes and not offer them until after 1865, then they could be perfectly satisfied. The[2/4] interest rate must have taken higher. 

Finally, said another, some collateral strengthen the banks could withstand the whole city banks. But he said not even partially. The banks said they did not think the interest of the[7/4]s could be closed, but the banks were not able to say that. He said the banks did not think the interest of the banks could be closed, but the banks were not able to say that. 

Finally, we adjourned until 11 a.m. when banks wrote us a letter to which we replied.

We stood pursuant and cited not common, as not interest at current time but 4% of 4%. But did not safe after but been away through many rates of interest. He took then that if P. B. worked to rule that new assets would to eligible they could come back & renew their subscription. 

I have only heard of a few that had paid earlier in a future whatever the P. B. did might rule. 

Subsidiaries was very indignant that very short to mean in that Williams not through how said he felt sure they had not been fairly informed by Williams. 

It is another instance of the company represented by some behind banks of the associates. The whole town etc. they were insured by the B. E.'s short rate effected as hot hours. Before we left each to the few days away on a 2 centers line "terminating terminals." He was done nothing about P. B. whatever he was utterly reflecting his duties in the matter. 

Read in 1868 the other morning I succeeded him as inspector of the B. M. Res. Rel. in frame broad mentioned to him & some to be. But in any opinion he could be a good man.

End of Meeting

Williams mentioned to me that they all
request a small addition of 1000 to 5000 a day at PM Bank; 
Meeting of New Board; 
I moved that we renew telegrams so that new credit will be eligible at PM Bank. Healy & Miller voted no & mover was lost. 
Dan said regarding them access to their records, in PM Bank would require certainty & take longer, than previous them old board did. 
Mr. said we ought to have obtained the access & I explained that we felt best to accept the said that it cannot regain

Last week the Com. & Bond issued a notice warning
in part: the bondholders on the rise of many
additional repurchase shares. For my part, I received
from them the suggestion to a conference with the
Bond & the Bank. The Com. & the Bank, Mr. 
both suggested that it was intended to
release a memorandum from one of their
representatives. It seems referred to the circular
that I received the next day which quickly
announced a conference in a few days.

Washington was visited by
Barnes & others on a trip they announced
that the bond was off. While I knew that
the Com. & Bond needed to be balanced now, we
also were to be visited by several other visitors
and could not be considered to be completed
a day or two later when called a conference
Of which Mr. & other members of the Com.
attended. Barnes, Washington, & others were present. It was agreed that the
bond stock was in clear hand in Barnes
to support it would be further all around
visitors.

I explained the arrangements & said it
was necessary for us to be holding at
bonnies, barnes & stocks while
Barnes was releasing sharing goodly of.
I then asked who, they then got it was true

To release all kinds.

They all thought we ought to continue & the bond
and to draw a bill going on the house we needed
it & we would, he was to be expected to recover. It thought
it must be important for me to continue. I read
the bond bill we ought to be considered with
the bond bill. He was the chairman. He said
he really tried for the bond bill. He
suggested that one bill in a joint maintenance shall
not be issued until as an appointment. I
advised the afterward calling a conference of
barnes to later on the conference to be
thought of very advisable. I think I would
be done.

I then called Mr. Green & said at any moment
I would bring up matters of a conference. He
said that the day before a telegram had
been sent calling a conference for directly
Nov. 15. I was arranged at that time
in that that Green called the bond without
any authority from the bond board - a most
amazing presentation of powers.

I then asked Green & others - both had gone
away to draw a bill. Later, in Friday Nov.
15. Green that rat a letter and a bill
in us. The present bond was deferred but
the act of barnes was made chairman - a
graduals staff at me which I shall not
wrest.

He said the racks & barnes called me at my
home & said he had just discovered
that it was had sent to the bankers a
notice that some contracts of buildings would have been renewed if other events indicating that the lid was off. I waited some time to see Banks & to observe activity of other until it was too late, when he tried to sell it but could not. He was very much distressed.

Monday 10/16, I saw them. We had the big hotel killed one term. I think members wanted time & needed it. I saw if that if not done they would wind up.

I saw July at 2.30. I read there was nothing in the statement on the way about interfering. I think that the statement that the action of the money is intended to encourage others to undertake without delay the fulfillment of the many and various undertakings because needs of the country.

He seemed anxious & I suggested that he have a conference with the Board & let the Board know about what we wanted to do under the circumstances. He pointed at times & said this was just what he meant & could not leave well. I say so.

He said he was tired & that he was ready to quit. I think it was published that he would have

By the following my advice & head conference w. Bank. I read it to them. I read them & asked them clearly. He asked how long they held property & they said about June 1/7. He strongly urged them to be on time there was every indication that by June it would probably be wound up. It was in June.

On the 1st we had a conference of banks of best known & trusted. They all strongly urged our going in and Banks pledged instead of deposited lenses. At last 10 or 11 we all felt we could probably be wound up but that action of the conference had great weight w. them & he really thought we could put them into 20% without new legislation.

The next day we learned that Banks had late night & by no further instruction would be surrounded by the Board. This was another blow on us. Then came the worse had. Not told us it could no longer advise us on to capital reduction. I had at request of Bob written & at that the Board should delegate to the

After this, Green & Flower insisted on making a letter to Mandel advising one named, among others.

I then had another conference with him.

I told him that it was the usual plan, unless of course it would be easy to remove all responsibility & could be done to best advantage. If we believed it would be good, but that I would not, and so full sure the others members could not action it. The President wanted it & even the President to instruct us.

The meeting was adjourned.

We arrived at our usual arrangements to agree in view that the Report was good, and, therefore, the meeting lead to an ad hoc meeting. Gradually becoming more liberal in our decisions, until the President decided to amend some rules.

I held another meeting on my own initiative. I had Flower & Green present. Then, we reviewed N.J. and before going back on some points of the Report, advising them to amend some changes. Our coming was only to long, also to recommend new legislation creating a Bank of New York.

We decided that it was summer to do this. At this time, we presented the suggestions, in view of the Board's request. It voted that for 3 weeks we shall make no second time. Left for us to work under new arrangement being more liberal.

Almost at 4 o'clock, the President was called on. He explained...

However, I think it would be better to state the facts of the case, as I was aware that members of the Board would be particularly interested in the matter. Therefore, I propose to state the facts as I know them.

I suggested that we all or anyone else be called to no particular order of business, that the Board be informed of the facts, and that the Board be informed of the facts, and that it be ascertained what the Board's wishes were. It was understood that the Board's wishes were to be ascertained as soon as possible.

sentiment had great importance in the resolv-

was not my job" and sent his time.
I am glad to know my matter has an 
advantage. I am satisfied with the 
way in communicating with the President. I 
tried to settle, I never tried and never will 
such any object; that was one of my 
principles. I lamented and settled my 
account. He said it was completely 
closed, and that I was the only man 
left to understand the work.
I said that the President will remain 
with Williams or Stan.
Williams has been very quiet lately; re 
questing nothing about the old removals 
or even. I am satisfied that he gave two 
letters expressing his desire about 
Williams' even if he were again 
referred to on the outside of any other 
letter. The President let me know that 
the matter is now to be taken up.
I had never thought to be near anything so near as to send my best wishes, especially considering that when I was first elected to the House I should have had to send my best wishes. I now apply to this House, but nevertheless I am very reluctant that I was substantially not considered at all, just as if I were entirely unsuitable for the Senate and President.

Since then I have got pretty close to the Senate, and I feel that I have been by not taking some man from New York, a man from the North, advanced the Republican Party on a generation - a man - I believe in the good North. From now on the Republican Party cannot be the rule and I have the best chance at the next election will go out of harm's way as a generation. In the whole I ought to be glad I am not as it.

From now on I shall elevate my wife's building and the 3rd Reid on it without it is well known the advocate to write the many words to save in the near present or past or can. I opened the first draft as a summary of reading & decision to write the note system, but I want to write the greatest leader.

We went in very much and now I valued my judgment in all matters - and this is my second.

William called me in the evening and said that now were agreed when and would go in tomorrow.

I am of the opinion that we should make no arrangement to accept [illegible] sum, but let it be so stipulated that if we are wrong in this, the President must take the bill and lose it. Lunched w. Mr. Harding. He intimated that he was thinking of going.

A share of a new creation of the party, says, an attempt was made to intimate and discourage him, but not yet succeed. He says that small boys were not firmly with him. He also said the Republicans must try to abolish the Constitution. I think most of the Democrats have tried. I don't believe we can be alarmed of Mr. Wilson's ability to handle Congress, under the small mind of Mr. Wilson except of much see of Treasury. It would require very many limbs of the Congress already on Board if I could bring awake his attention to a man who had time enough to consider who he is. He had not the A.M. Bryan notion called. He said he was satisfied that Mr. Brown & the friends wanted a fight in the senate of ice or snow, a man who could dominate Congress, and that he had not yet to be shown. There was the last man. He said he told that I could object as intelligently and as powerfully as them. I don't think than will be a fight at all. It was not the Democratic house in Congress. The President had taken one of the last subcommittee out of Congress in anything than & it will weaken our Democratic critic.
Mr. Hoar then said the Board ought to ask Congress to vote the present scale of 6 or 7 thousand dollars to each member to assist in paying for every member's expenses during the 2 years of his service on the Board.

I at once stated I should not join in any such action that it would create a bivouac in Congress. That any such action would seem to the Board would be unfair to the member with the best services. He set the best men away would be to have some, Congress members introduce a bill and then have the effect of imposing its demands. He said the service of the members should not be included in the resolution, but that it were a wise one to favor as to the des of陕西, French and others. I consent to the5
Any such move in our favor would be ridiculous!

Mr. Hoar said: in a letter the other day, we must know the exact facts about the matter. Finally it was agreed to have a special meeting tomorrow at which I would be present, I come to settle the matter.

President says the war!

James said very authority in carrying this way that the Blue Party had been in decline. Southern Party; that the North Priest was useless; that George Clark, Reuben Platt, had done all in their power to protect against near a year; that the Senate felt that the Whigs would subdivide the war was better than the Republicans; that there opposed with their Florida vote the idea.

He also said that in the last long campaign. Bullitt and Jaramoto wanted to break in the West that the people said they did not want them, that the west in favor of them to open their month, and that their engagements had to be cancelled.

I told James that no friend of mine, with any knowledge in content had become me for this or any other reason. He seemed very indifferent at this whole situation.

He attended morning—said Elias could not come but agreed by a letter that salary of man of N. Y. house should be paid at $1,000 and other salaries throughout system adjusted accordingly. He stated that he himself and his to state them to Board.

Board finally voted to pay the salary at $2,000—this was unanimous.

We them went outside to discuss them to deal by having anything for their own about 1,000 or $1,000 them (the Bunker said 1,000).

By Room, asking very concessions seeds.

saying, among other things, that he was the most brilliant Sec. of State (see) this country was ever heard. He in a blustering said: you mean Sec. of Treasury but Sec. R.

who is quite dead did not hear it.

He, that said for about 15 minutes he never once mentioned that last dead, who had done so much for me, for the 7th New Bk. No dead nor any one any way to the other who not outside them. Hence a professional child would attend.
...was maintaining the name of the President.

The Red Cross Board then met again and voted on the world-wide schedule of salaries, which, by the Senate's recommendation, was reduced to $15,000 instead of $30,000 as recommended by the N.Y. Committee. It being voted on a committee that when acting as for the Red Cross Council $30,000. It was suggested this committee.

During the meeting, I received a letter from Mr. E. saying he did not want a transfer in any way. I went in and talked with the committee, who asked me to come back to come right over to see him. Later both held out the Red Cross formally opposed it to live on because of the Red Cross. But when they said they wanted to live it they would live on the Red Cross.

Late in the PM I called Blanck in to dinner. He had another engagement. He was very cordial. But this love to Berita he said I could be surprised when I found out what effect he was going to have in the Red Cross and Berita, and that the Red Cross could live in Berita.

It was just a couple around to me to be the entrances, mentioned out of...
I reminded him that Mr. Aldo at this meeting said, and so promptly that Jay's salary should be as high as any deputy. I said that he should have 7000. Mr. Williams denied this but Mr. M. confirmed my recollection. I also understood the story to say that Mr. Aldo concurred in this. He said that Mr. Aldo went on to say that the N.Y. office was paying $5000 on String and $500 on Williams. I know the story said Aldo favored the $5000, but I am not sure that Mr. Aldo said that Mr. Aldo said that hearing Jay's salary at 7000. Mr. Aldo himself, however, said specifically favor it as stated above.

The morning went. Mr. Aldo then spoke, then with a warning that the Allie had unanimously agreed that the health of N. Y. and N. Y. of the chief plans should be broken by this. The Allie had been agreed upon and that it was not clear to write their two questions; the Post said that this is the next point of the debate on our Senate.

Of course, this shows that the Allie have made a combination against Wilson. Cried in by the Senate Republicans. Note is only not worth to write that Wilson should at once say that if permanency were not to be considered by the
Conference to will withdraw the allegations. I saw it and it has become publicly in British Conference. That the U.S. did not become a country until nearly involved in the America of neutrality of America; that the U.S. is not interested in the present boundary and tendencies to withdraw until the American remains of the question of the Peace of the lands in which the U.S. is interested. My opinion that British would generously apply the allies to which I would confirm the Reports of the Senate, vote, & believe, are substantially in the West against union. Secret department in getting in the British work. I believe the Senate, Reports should be asked directly at any have communicated to the allies in this question.

I can see a great moral here which many young men coming elections for my House that the Party.

Last week. Brown of Col. He came over to Washington & called on Lincroft. He did not then call on Col. Col. Lincroft very vigorous line. He was soon out of sight of Col. Col. Lincroft left to congress. A black was kept for one signature & I signed it as Chairman and

sent it to Boro. Boro & I went and met with unknown Brown did not send it to Williams who was in his office but said it direct to Speaker of House. On hearing this I prepared a letter to Speaker saying that all names (except Brown) be added as regular. Williams said it wrong to be sent to Brown prior to obtain his authority to add the signature. I submitted more to the meeting of Council that Brown lend lend writing to do with removing the report on the head absolutely neglected this duties and that of them were any more delay the Public Business will prevent the whole without any other signature. He said insisted that it should be sent to Brown and this was done. Brown never acknowledged was the recipient of the letter, nor do we as I know, did he ever acknowledge letter of Boro suggesting that he should write. As a result the whole were turned by Public Business, only 3 signatures. Williams must humor himself for this.

Last Friday evening we just a dinner to him. After dinner, again rheumatism. After dinner he told Hiram that he went to the President to urge him to cut some slack in the Peace Line; that the Peace.
I noticed that the bill was due on the 10th of the month and I announced that it would be my business after Jan., to send a letter asking him to allow me to know of the time any objections I had that interview w. him. He agreed to delay the bill, and I said - when I heard that the bill would have a bill as on a Note Blue St. by Conn. we would consider it in any way new doing in until Congress decided the matter. He agreed with me that there would be no element of selling such a bill before Congress at the decision. he has also said so many times ago.

I also told him about Brown of the Ck. he has come to and the remark was many months ago about bill charged. and said it had got around. I heard an attack on congress. I told him East had declined to accept the bill. and he said he was very glad because he was a Republican! Mr. then asked me to look into joshua B. Eastman saying he might be useful in stead. Conn. Conn. He was for years of the public insurance league. I told him I thought he was a very good man but could not do him any more carefully.
A new note of Sen. Knope's attack on the
sentimental league of nations in the Peace
Treaty which was made this way, I have
read it in the morning since in my way
to custom. I was at home on the Senate-
floor in the Senate and started the lecture against lucifer in
announcing, if the Senate in late that
they were unanimously opposed to
leaving the treaty; anything leading
through a league of nations a mission of
the day. I added that, if this were true
I feared, the peace would go directly to
the Allies that the Senate delegates would
not withdraw from the conference and
join hands.

Actually then, became very excited and
said that it just the President's plan.
No one, let's put him away in this
very matter. He said to me - you know
more about molecular psychology that
idea and he asked me if the best
was a way of accomplishing this if claims
made it possible. He said, I explained
to him the necessity of leaving the whole
world made before and then at this
psychological point to start.

I will lend yesterday, Monday. Mr. Jones
said that Senate was rather interested on

I now to note against a league of Nation-
so as far the Senators all seemed to want
to do and I expressed the opinion that the
real lesson for any such change of policy
was that they felt the publicity already
from their views and accomplished
their object in letting the Allies know
that they assumed that whatsoever that
in the event did not occur any desired
offence would be the Allies apparently
along the lines already had for delay
the whole arbitration of the treaty of
the peace of the world. We agreed with me entirely
as to this.

I then said, could not have demonstrated
something in detail, just knew and budget
and reflexes only if they treated with
naturally written letters to some of the different places of the Allies
money known their claims. He had
thought thus a good idea.

He said the President was bound to come
at that event, if the threat to draw
the truth would largely substantiate
at the Republicans and some Senators
in the Senate will be changed with
the nonexistence of meeting at the
Peace of the world and that this
would make the Republican Party,
I said of their skill to resume the
President will hear a great deal more which we must be ready to inform about. 

I am sure in my mind that the President desired a Memorandum, but that would amount to being a draft.

It then told me that he was arranging to have the President send us a letter - that he had written in May, very little that I could and reported to him very particular letter. I said - things are at a very low level in Boston and nothing shall be done. I added that the President had received another extremely urgent request from him to which I acceded some two or three times already, I told him to the President to select the amendment by any one of them, although he did not say this, I for the draft some in my mind that it was the President wanted to do something to arrange the draft. I say that he was a selected President. The suggested amendment of his was not some kind of arrangement, but some kind of to him this week.

Finally, in my mind, the most well, nothing else. I have been told

throughout whether he does not intend to in. The whole measure background were very much a surprise to me in regard to the great and not be serious by the President by the President and assistance.

Friday, May 19.

I then asked the judge Brander and told him I had been asked confidentially as to judge 18, in the newspapers, that I had said that in my opinion he was a very fine fellow man, and I asked judge 18.

I was asked. I said yes, in every way. He is one of the finest, most capable friends in the House. I told him I was glad the case of my opinion, wrote along the lines of mine, and

ended a very sorrow note from Williams complaining because there was a draft. House could not be sent to Congress with only 3 signatures. Said be had just discovered this and had been told, he had been told he had been told.

Correct it. I brought it and at the meeting that was. I wrote, I signed it and sent it over with instructions to send it to Congress in that day. The House was late in P.S., that the 7 boys added their signatures and gave it to Deeds instructing him to obtain volumes.
signature and send it to Brown as I instructed him. They added that they reliabled the letter at the Money Office but it was not there and could not be found until it was sent to Brown.

Later I called up Calhoun who confirmed what Brown had said except that he said that while Brown called me the clerk of the Money Office in Brown's absence. But he did not call me the Office at the Office.

This should have been dealt with and was a request to be angry.

That the mistake was not entirely my own, he made entirely to the Constabulary.

I the very next day after leaving of the opinion declared a letter to the Secretary of the Treasury saying that all members of the Board should be induced to send a letter to Brown. In the meantime I had written to Brown in a letter to Brown before sending the letter.

Brown in fact did not answer the letter to him. He ordered me to send the letter to Brown yesterday and we have had a letter.

4:30 PM

See. Calhoun came on and said he knew nothing about it. I said that we ought to continue our business and not disorder. I explained matters finally to Calhoun.
made this announcement? I explained
we did not have to make an announce-
ment, that we were to do that.
I then told him our embarrassment was
unavoidably & urgent for that was
5% & 1% of the coins were in bank
money to us, that we discriminated
against but our moment was voluntary
submitting to us while the Y went
ahead & not claiming any attention to
us. I also told him we opened &
declared阵地 attacked in Congress on every
coin because in time of mischief I
resolved, I asked that we were not
paid salary & that my friends are seeing
the in the Stacks of the Treasury to hold
a desk & I am not to be excused into
what I shall. I said I can do anything about it
if it is on the President. I said the
President can read us but the action
members are willing to keep it up &
then I went on further call.
Mr. Calhoun said he was suffering
on Mr. Van Buren hardly thin & asked if
I would hold use the two hour
announcement until tomorrow to give

Then a channel to them does it ever, I said of
sure we would be glad to do that &
left then.
Now then! He was ill, could not think, &
know nothing about it, constantly not
knowing what to say as between
Debtor-creditor killing one way and I
the other.
An act other hand Debtor-creditor has not
the leverage to regulate bond exchanges,
as I begged him to the letting authority
Mr. Calhoun was killing on, during this,
he has not the leverage to use long
to enact a blank by law, and yet he
has the assurance to demand that
are blank, shown of all money, desired
by every debt of the East, should
physician to continue to be lever &
were remarkable the Money good!
If it most extraordinary

Annually went onistant money to grant on
left time, come in Thursday, without waiting
to them from me 8 before my letter did

In my hand have reached this! It is no
character!
I was asked to come into see Mr. Jeannayt in a personal matter. He told me the President of the RH group was going to join the group of commercial bankers with Mr. Jeannayt. He said it was a personal matter and that some other banks were going to join the group and that the RH had dealt with it before. Mr. Jeannayt objected to any part of it. So I went to see Mr. Jeannayt. It turned out that we had had business to handle in Illinois. Finally after long discussions another meeting was called to handle it.

No word from Glass. He told Glass.
Glas called me and asked me to see him again. Said we were to be away for a week. I was going to be away, so we must go away etc. Accordingly I wrote him asking what his conclusions were.
Glass later sent me a letter stating that he had changed his mind about coming.

I am afraid there is a physical condition. So nothing lasting etc. can be said about it.

Then we met to see what could be done with the matter and to hand
he said yes, but I told him, we were going to resign, the very last of the afternoon, so as by being a President we can now yawn产值, sensible, sensible. Selden in about twelve, he to go to resign. He resigned to the newspaper interview.

I also want News to go, I had several salary checks by Brown & that I did not want to give them to him. Allan, he was my law entitled to them as the President had paid when I asked the office. Keeling me to distribute the office & of U.S. stuck away. Wylly had said, I ought to give them to him.

See Allan meet McAdoo brought Brown into this office shall him assistant and substitute him as a splendid scholar, bachelor etc.

Dec 23. Monday

To Hrs: Engagement of case. See lawyer. See Pats

Brown, of course, was not present. Brown went visiting without notice. Also Berg who spoke of Brown last of duty and said he was a shocker. See Pats, said that when he would have
laid to hear our terms continued to abbemiate
the bullet of items & 200 statements, namely,
as to the regularity of the Barons' statements
relating to additional without notice to a
consultation w. C. A. & C. as terms and by
advisedly accepted our conclusion. He
added that he intended to ask legislative
for Congress & asked me to prepare a
draft of statement to be issued by lui
at the same time as issued our
statement.

Debt & debt been published and sent me
the draft of statement. He suggested that
It stated that all previous decision
of Court were correct and remain
in force. He stated that we had
undertaken many conditions as to timely
with stock on clearing day of Court
and that our future to suspend
additional would be treated on the last
of June, as otherwise grain
imported could be done as certain,
away consequences would be looking within
additional conclusion why had not
advised to all debts or ahead without
any restrictions; that what I am doing,
not of course, inability to fraudulent
or whatever deceptive schemes, the

extent when we could not alleviate them all,
of course, if they went ahead we had no
power to stop.

Finally debt & credit agreed to my meeting
as to that conclusion but to arrange to
your power to Stowe who were to remain
in control and to Chairman of court
for an end to any such conclusion
when they deemed it just and equitable.

Late in M. J. I received on my hand
our draft today, I could not sign. We
now could do so if instructed him to
build another with similar terms with
the draft of the above to Williams & to the
Secretary of War. I said it cannot be
determined to publish it until very
had seen it. He said they called him on
Wednesday. The told him about it. I
waited him at such time to telephone him to
say nothing about it, which we published
at first.

Dec. 24.

Meeting of C. J. & L. & C. Williams, Drury & I.
prevented. We connected announcement of
request of me to Mr. Lee's arrangement.

To rise into his office and be read it
and authorized me to publish matter as
a statement of this & that, husband
by our will, it to be released on
Thursday.
he said was pressed by an immediate answer of the Belgian central bank to borrow over 50 million in U.S. He thought of new loans were not to be made by 20th to Mexico as he did not believe the idea of blackening the bonds in U.S. but he did not want to announce today if I said he suspected to want world as we know better what盛世 is doing was leaving that I would like World Bank of the workable amount. He said he agreed with it would work.

Also said that he lent was leaving the question from cold to cold, he was a Democrat. I pressed them with our Congressmen that did not help them as the question remain in cold, in words. I thought he did not get a better man. He said matters went very much wrong now in World Bank.

He asked me to send over Emma for book. So I went to my room and telephoned in. Asked if she had gotten over Emma and that he took the phone. She was back to desk earlier! Emma also said she voted for Wilson in 1912 and that in 1916 she voted for Hughes. He was surrounded everywhere. He said he did not like Senator Hughes and refused to act in the talk. Party and that if he knew what the news would be he would have voted for others.

I later see him & he asked me to ask them to come with me to see him whereas I did.

Later I wrote Eleanor sending him a copy of the book. Dr. Cline also has his own announcement.

2.6 Thursday

I was told that he did not receive any offer a tax to the Sec. of Treasury in charge of even before hands. Etc.

N.Y. Times printed this. His statement yesterday that he was leaving a speech in all active places. Called into my manager who said he will investigate. There was given word was prepared. I release Thursday afternoon. The above Press manager said hands did not hear yet statement form as it went at 4 p.m. Christmas afternoon.

He only often copy not wanted as he wanted was one. I put him prepared to read this was original. It was returned by see them.
Dec 27, Friday

Andrew Pettis, Mayor of Boston, sent Col. Lamborn two very entertaining letters about his intention of releasing Petronel of Kentucky from Such a county jail to send him back to a more favorable destination to him. Mr. Lamborn had never heard of this Petronel until Pettis told him of its address in Oct. 18. He promptly said we come here to work and command in this matter. We thought it was advisable to call Andrew down to rewrite him a letter characterizing this letter as discourteous and prominent on an isolated language that his statement that we first knew of this Petronel in Dec 18 was a very dreadful mistake. We decided in view of his statements to write one letter & so wrote Col. Lamborn.

Andrew was clearly playing Politics, if we had not called him down, he would have boasted of his election of our time. What he actually wanted was to kill this Petronel who was our own. When the responsibility really on us which is the least thing he would want. Personally, I believe that some one...
From sent over copies of 2 letters sent to me recent by column to the Curr., Louis.

2. Letter, or rather copy, dated Dec 10 to Curr.

Letter to Brown, of course. Brown letter of saying will communicate resignation to President. Failed Brown in highest terms.

You have been too kind to me, and have done your part here a true patriot. You have loved to write with the earnestness of sincere admiring and unfeignedly laboured. Considering that last summer he also agreed to call in Brown for leg influence because of the utter neglect of duty consideration abroad any Washington, and considering Brown's statement to me in the same sense that he also had not called the same cable. Has come to receive control of the telegraph line, Curr. in Kentucky. I am informed that Letterer ear wrote such a letter as in present very statements. It was felt that

Dec. 27, Friday

Andrew Celtic, Mayor of Boston, sent Curr. some letters very important letters about to Curr. delivering Petition of the Petition of the Curr. County jail to speak 1500 words for an important addition to this jail. He said he had never heard of this petition until Kelly had told him of its address to Dec 18. In partial incidentally said our Curr. had been "told something" in this matter. He thought it was advisable to call Andrew down to write them a letter characterizing this letter as disgraceful and saying not even possible language that this statement that his part never of this Curr. nor to his petition Kelly was under, as very favorable of the Boston Curr. in very words that Celtic had told him the petition filed by Kellyer might not be in a grant. We decided on view of the statements to write our деление x so wrote him x Kellyer.

Andrew was clearly playing politics, if we think not called him down, but called me as much of his concern of our concern, what he earnestly wanted was to hear these petition such view x our action. Where the pettiness, directly in view which as the best thing we were concerned. Personally, I believe that some one
Mr. Brown called me up in a cab, Lee Wallis.

I explained that the concern was not in the market for

Mr. Brown, I remember, told me that he

was arranging for the purchase of the financial

Panama and that he brought his friends interested

up to the office. He knew I introduced them to us. I

remember also that he brought three friends

to see us. In the room they had an interview. Brown

told me this himself.

On the 19 Sunday

Dr. Langham called me up telephonically

why he could not come to see me; he spoke

of his cable in order almost my appointment as

see, or Treasury, said he heard some time

ago matters were all settled for him. I

said if it had been offered I would have

accepted it. He said that matters were not

all right yet, many things,

many happenings in office. I said that I

thought my relations with White House

were very pleasant, and he said that

is so. Usually are a high esteem of

you; it will come out all right. He

said he wanted to leave a copy with me

about legislative Saturday I was interested

in had made no impression to let me,

which he did not specifically mention.

He said, there was no doubt that

he was acclimatized to him, and I thought

in a very friendly manner.
Jan. 1. New Year’s day. We.

I write briefly about Brown of Co.

Signed your letter to Walter

House. He said he would be in town at 2.

Rush to be released on or near 30th, the date Brown requested in his letter to me. I said the council

would allow to him.

Jan. 2, added some 200 telegrams from Brown

saying he was released on or near 30th and asking that all accrued salary checks he sent.

He was paid unusually to be sure the date

of release was near 30th. Wrote Brown sending back salary checks

writs called. He agreed with other

banks had lent heavily on bonds at inflated

rates. He said that at

our request he had not suggested 50% and that he would give

the matter some time before he would agree to the

idea.

If he placed the blame on us, we gave in.

He said "It was our fault. But if it requested we would

send up a man to examine it, and asked then

to make draft of letter.

He said "It was involved in a scandal in which an official but this I believe was not

involved. We should be released. I asked him at once to tell See. Baker

He said he had told him, that Mr. Bond

felt very strongly and personally

to me for it by telegraphs and

informed me of special situations, that

Brown looked to Have more than to Bank

while. The N.Y. bank who considered doing

a central but under control of other banks

agreed with us that the Board had handled all their fiscal matters, and

informed me of special situations, that Board can not

possibly do its work unless matters are given over to it. He said next few

must appeal to the magnes; if not

they will be wanted in later, must be

found & soon varied at some later.

He said he was satisfied with matters and

was in bad condition; that the Board tried to do so many things he had to learn

all details to subordinate who were
not big enough men to handle them.
He said Rev. Busby was pulled up
w. nobleman. also said there must
have through cleaning out a mess.
It will be held responsible for condi-
tion.

They told me that the President would be
seriously unseated in determining who is
not to replenish legislature in Congress.
Said he assassinated in past times but
also realized the consequences. He said
Reubens would protect the nominating
and undoubtedly throw it over to
next session. I advised him to have
law changed and force Congress make
Board within the under 70 yrs.
He feared decision of God might come
delay. I pointed out that no more
delay re. them now when aflame
of all. had to be secured. He feared
merely well put humiliated but I
said he could be a member of
Board if no reason to put him forward.
He then asked if Colee would do as
the President said. I would come
to late w. President & the said to do so.

April Thursday
I told him that the President was not altogether satisfied w.
their action. Nearing expiration in the other
will and that looking back suggested by
cable that8 Reubin is not over to W.
the Nanny & not Board. It did not
like this; he said the Board might not
to be represented at all as it had no
control over foreign exchange as they did
and better that to supply it delegating
from the President; that of Reubin to go
he should be given better of abnorm
by our Board in order to restrain the
head of the Board.

I agreed fully & said if he wished the
Board he might bend it in some
way with right thought. He agreed to policy.
In it said it could be abroad
to have both represented by each who
had served 2 terms & know
better of its traditions so violence.
Mr. Fisher very despondent about next loan; said there were almost 3 billions of bonds now carried by banks and there must be placed as well as next loan. He also said he shou[d]d remove from any future subscriptions & lend his cash into profitable investments to keep the banks from making new calls as every member felt borrowing still be discouraged for public bond issues; I thought this a selfish, highly unpatriotic statement.

Jan 14.
Furnished me with some of the details of the
insiders' secrets.

M. and I called on Capt. H. and the
middle level of the Market and talked and I repeated
my views. We also had a good deal of business at the
Board today, and was actually acting.

Jan 15. Wed.
Shaw left me at Board meeting that the President had called asking him to come over to Paris to address the business on some Branches. He said the board said that the President said that there was only five left in Board he would only a short absence would be necessary.

Having both me Shaw's shuck of it to the
same days ago and then admitted that he had known of it for 10 days but had never mentioned it; he was very indignant & said it was a job put onto him shrewdly. That Shaw was crazy to go & be relieved of the way he was. We both agreed that it was a great amount to let Shaw leave the Board at this critical time.

Darst told me that he had not been well
for some time; that he could not sleep & feared he was in the point of a nervous breakdown; that he had intended going off for a 3 weeks rest but that Shaw going would prevent this. I urged him to go & said I would do the other work gladly.

I thought it was his duty to go to Shaw.
and insist that the vacancy in the Senate be filled at once. He said he had strongly recommended Charles Eaton of Chicago for the seat, but Eaton was not much in favor of it; that Eaton seemed to think that the
of Indiana would stand it; he said that was a good bumper, and
was a Democrat & that that would cause trouble in the Senate. He also said he thought Eaton would have been elected for Congress of
were in black of wellen; that the President said there had been trouble in the case, and that there had been trouble in some of the things he had done in Congress & that Eaton had said it was not at all sure the President went back in the name. Eaton said wellen with great use the name William in Congress. I then said the bill was ready to change the law to
put the Council directly under the 7th
in the case of the day of hearing; that this was done in draft by Sarat. On then by 4th. Here the Council, under the day of hear
as President of the Senate, and that Eaton
in the Council which said it was his

intention of the Senate to make the Senate, responsible directly to Mr. B. This was changed back by Senate. (See my letter as to this in below.)
I then went in & told Eaton about it in his
mentioned & said some one must be sent in at once for vacantbecause he agreed & we said he had opposed it to the body of the Senate. I then, after
being a resident of N.Y., he was not eligible. He then suggested the of Indiana would. I wanted out that he was a Democrat & that; that he was a Democrat & said that although
a Democrat would make the few
the President would not make the
President a subject of political controversy. who would seriously engage its influence. Eaton agreed & not absolutely and the asked about Charles Eaton. I said I knew him but slightly and thought he would be a good man & wanted that we heard make a good record abroad.

Then said he would call the President.
In reading the circular letter I found me dated June 13 the Board of Chicago. So hardy stating among other things that the N.B.D. had recommended to consider a National charter for banks to do a foreign business. That he did not believe a Government bank should establish branches in foreign countries to do a general banking business; that it should not succeed in foreign countries to do a large way on the scale of profit; that N.B. Banks should not be competitive of private banks. I was suspicious of this letter since it impersonal that N.B. Banks are best Banks. I originally thought they were not.

Hardy and his idea in need was. However, I believe N.B. Banks would establish for this very function of conducting a national business when we are in the public interest.

Sec. Hays announced that he would recommend to the Sec. Board meeting today the question of interest of discount rates.
order to bring about liquidation was brought up. Mr. Miller favored cutting into the stock issue when the rate on 15 day bills, 3½ per cent, was lower declared by 50 basis points from the present rate of 4⅝ per cent (in all but 3 basis points) to 4⅝ per cent. The Board rate of interest, I said in general principles, was thought that no further discount would have to be done but it would have to be any discount which might be advanced against the gold. Mr. Hall said he was told him to say that he would not be present at the meeting but that he currently believed that the Board would not advance rate because such action would gravely prejudice the rate of interest; that it would not. Rate varied, yielding of rate on 15 day notes, was 2⅞ per cent and the rate in next week and some; the Board would have the greatest difficulty in raising money because now at the 7⅛ rate on 15 day notes and 3½ per cent. I believe that interest is 3½ per cent.

Dr. Livsey and others said they absolutely agree in this; that merely rate had declined to the working interests of slightly more than Reserve Bank rates, rate hesitation.

F ifter. I suggested that we place see than statement in our records and that if any one wished to move to interest rates, he cannot do so. I estimated that I should feel obliged to sustain the money market rate at least, the next week as it was cut off this way.

Dr. Negy of N.Y. I'm just called. He said we thought it was wise because to take of an absolutely free gold market.

Walking home the President said he had found that the President had become developed with the Secretary because he entered so much of that his measure was formed; and the bank was formed of Secretary's new natural ideas on the back.

Jan 12.

Dr. Connor called. Said he saw suddenly after he had resigned announced the urgent my money. Now the first thing had found the matter was well settled for him; that he has the needs today about financial needs was one customary that he had plenty of money; that he merely thought this a good time to get out in view of the President's anxious. I gathered that he
thought that Mr. Aden's selection of Glass was in order to get Imperial votes on turning for President. Mr. E. thought Mr. would succeed in a strong candidate for the purpose, but wished to this right, as he felt that without a very brilliant men, he would not be a safe man for President.

Mr. E also said it was tested that Redfield would resign. That the lead would help smaller men in alarmity. Still both wanted to see and as his successor.

Mr. Harrison held Berlin the other day that he George Meyer was given a passport to go to France in giving his word that she would go to Paris which Mr. Kimmel to do immediately on his arrival in France!

Mr. Harrison announced that F. W. Loomis of Morgan Bank is to go to Sweden to advise in buying securities in France. These laws been all over the world along with Mache in our advice, considering that he represents the most end. What with friends (Redlins), Bitens (Ansel) and now Loomis, I give our advice.

Jan. 20 Monday

Judge Scudder called. Said that U.S. Attorney Smith for W. Buchanan had gone abroad to Paris to act as Correspondent of the U.S. Embassy; also that he knew that Roosevelt had picked out four men to be sent abroad nonmally as newspaper correspondents but really to understand the influence of the President in Paris. P. felt certain that Buchanan was there for the same purpose.

I firmly believe that the Evening News and Standard publishers are trying to defeat a League of Nations & that work. Buchanan, both of us are doing their duty for.

At the meeting there shown me a copy of a cable from Sen. Austin's secretary to Mr. S. as follows:

To Nathan Musker, Washington

An urgent letter from the Secretary of State, namely:

[Sign] A. Biddle

[Sign] W. Biddle

The clerk in Sen. Austin's Secretary's room brought Biddle and Biddle's Austin is strong along with Musker.

Sec. Elan clothed in at my room. said Sec Harding wanted to be relieved of the work of the War Dept. & had resigned in wild rasper; that he would make himself the managing director in Hardings place and he offered me a trenton as member. I told him I felt much work would have to be did in the matter at once. He went to Washington & found, Slack clinics & that I planned to could not help in my work much, but that I would consider it and let him know.

You said matter of abstract to vacating a M. & I still considered that he would like to have John Farewell of Chicago added, but planned he would not take it.

I fear the President does not favor Banks under Sec J. did not say so.

He said he did not at all favor Indiana leaving the Board and going abroad at this time; that he wished Sec. & old
Mr. and Mrs. Ewing met us in town. Mrs. Ewing wanted us to drive down to the President's farm, but he escaped on not. He sent his wife to meet us, and we went to the farm to see him. He was very happy and we all enjoyed the visit.

He mentioned that he had just finished writing a letter to Mr. Ewing, in which he expressed his appreciation for the visit. He said he had no idea how much had been accomplished since their last visit. He mentioned that he had received a copy of the report of the committee on agriculture and had found it very interesting.

He also mentioned that he had received a letter from a friend in the South, who had expressed his concern about the situation in the country. He assured me that he was doing all he could to help.

He told me that he was planning to travel to the South in the near future to meet with some of the leading figures in the area. He said that he was looking forward to seeing what progress had been made since his last visit.

He mentioned that he was very glad to have had the opportunity to meet with us and that he hoped we would all continue to support the work of the committee.

He reminded me of the importance of the work we had undertaken and that it was essential to continue to work hard at this important task.

Jun 3. morning

Confined with J. A. and some D. Y. bankers over proposed Belgian credit of 50 million to run to Belgian banks. The situation from 02 agreement based...
The rate at 1% higher than the Montagu rate on Boston securities, i.e. 4 1/2%.

Mr. Pye explained that they fixed this rate in relation to the Woolse because the Board in their April 26, 1898 Bulletin said that interest should be dock so that rates should not be fixed for long terms through revolving credits.

I thought the rate on Boston securities was a steadier rate but he pointed out that the only steadiness was in rate for other market securities of Boston. Boston.

I asked why I thought there was not always that the declining banks would have an all blind accession to Montreal due to the action from the lower 5% rates, but he said no.

I then said that of course it was understood that even if the Board believed the eligibility of their assets it would not in any way withdraw us, then discussion of the Montagu to date these as not and in many cases they would. He said then was clearly understood, we then tried to induce him to put rate at 1% above Montagu instead of 1%. They said if we were ever taken in N.Y., this might happen to be done and that N.Y. would only have 19 1/2 million because of the limited assets, hence and that the banks of the country generally would want 1% increase.

Finally we heard the short of the Shan, he suggested and as the Bulletin that it was vital to bust them through at all.

We voted that C.S.C. and should ask the banks that we would make that treat with some relief in August at Montagu, but that these were sold in some to send the demand as to whom, or not they would take them and to what amount.

The total cost to the Belgium bank was about 1%; we thought this rather high but felt it could not be use without keeping the rate.

Some bank revealed not same twice ago that he suggested was attributed to.
I sent him to see some town across the river. He sent his son to see it.

He said that he would like to see the town of Batavia, but that he preferred his own town. He said that he would like to see the town.

He said that he was interested in the town.

I asked him if he would like to see the town.

He said that he would like to see the town.

Mr. Jennet at Board meeting said he did not
consider in the League of Nations, at least he said
it was unconstitutional, & later he said anyway...it should not be sent them

Mr. Jones was out of it. He said he considered it unsound, and sensible. I said if we did not yet a
League of Nations we would see once a
League of International Unionism which would dominate the world.

We then asked me in confidence what I
thought of Lewis, Sheeler or Nettel. I
said he was an able man and one of
character & personally very agreeable to
me & I favored the assessment because it
was decided not to assess a refund.

that I had in a memorandum for
if Miller was to be in Washington.
be it called 

Miller is so stingy, I believe the word cheap
to fill in a memorandum from the Government.
I am slowly but steadily reaching the
conclusion that Miller does not ask
in 1892. I should see him several
that when underfortunates
wanted to get rid of him but I had
never asked him again.

Miller announced that he was going to
Camden, So. Ca. for a few days; he did not ask us if we would be convinced
for me to have him so soon, and he gave my name to young. Later I discovered that
the Lambes were also young, which explains
the matter. Miller seems to have no sense
of obligation or duty attached to his

Branches in Australia, W. Africa, Canada, Bermuda, Jamaica, etc. They were all in
progress, but this helped in the Bank
necessarily dominates him. He said
this Bank had an amount nearly equal
to that estimated (15 million) first in the
Russia. We wanted to have the Bank not at all, that these
stocks were trebled and valued at twice cost.
Mr. W. H. Jones told me he was thinking of
abandoning his branching in the West and
asked my opinion. I rather favored it. I said I was told that he was a great
statesman. Mr. Harvey told me he was
intended to resign from the board (I
believe because he was not too well). I felt
that he was such a good man and
also a Republican, that we could not lib
him. Jones said he had offered the
position to 1000, Harney, Parler, Moody,
and I often Republican until he had declined.
He said he offered it to Sterling who also
declined. (Sterling has just been appointed
under Mr. Ashurst at the head of the
salary of 2500 per year). He said he
also offered it to several Democrats who
at that time declined and now were倾向
reconsidering.

Jones said he really felt business would be
asked to resign and he was going to
work in the East, but he was very
indignant at this going of men for better
positions. Jones was one of the
Democrats that Jones had
asked to resign, and he had
asked me to resign, but I
would not. I had cabled to
him, and he had cabled to
me, but we never reached
the point.
Mr. II. I called upon Senator and suggested
for a check on Senator's view of the effect of Section
Clause. He said he thought it would be an
advisable step to the Nation's, and that he
would pass to the Nation's, which
I do not like.

Later the Senator told me of the views on the
Clause. He entertained the view that it was not
necessary to quote along the line; he said when he talked to the
Senator he said that it was inadvisable, I knew too,
Senator who was a Senator! He also said the
Senator was still decided to give
Senator for the Nation, but he finally
conceded him, he would not do it, and
that Senator called for reconsideration of the
other Nation, including Senator.

Mar 20, Thursday. Senator told me. Senator did not seem on his
accord on those issues, including those.

Mar 21, Friday:

Senator and Senator were very close on the
Senator. Senator did not go back very far; did
not until until 3.50 P.M.

Mar 22, Saturday:

Senator continued the conference.
Senator did not appear to be in a good position
At Washington in the English, as in the American.

Mar 27, 1923.

Mr. Steedman asked the Senator to discuss with me, Sen.
Phillips Kellogg and Mr. Steedman also. Sen. Steedman
said the House statements that Kellogg refused
to consider any amendments to the League of Nation
Plan were absolutely false; that he, said of
the White House dinners, at which he was
present, that while he did not claim the
suggested amendments were necessary, he did not
object at all to their consideration by the
Conference. Their amendments, the Senator declared, the right to withdraw, in the case
of Sen. H. said that when we amend the
Senator, he would be offered a similar
name of other Nations and that
the draft in its present form represented
a compromise acceptable to the Nation,
but that he would be glad to secure the
passage of the amendments, unnecessary as he
thought them to be; that he, the Senator
to withdraw. Senator said he was the
only member who assumed that there
would be no withdrawal, that the other
Nations are named such a right and
thought the present draft gave it to them. Sen. H. said he thought the Draft
would arrange to have their amendments through
some other Nation. Sen. Kellogg
said he thought the present draft clearly did not amount any Nation withdrawing.

Reid, Senator, thought so. Knox made a very poor argument against the treaty.

Sen. H. said I was right in my belief that the treaty of Nantes had not delayed the treaty and that the delay was caused by product to agree upon the boundary lines, indemnity, etc.
