Bound voted to settle. S. F. to dismiss Bill. Illinois [written in lower case] as it is too, to endorse state laws to join. M. R. to. But of Democrats, certainly bugged up to do this. So Miller voted. No, said allele, a great period of Illinois, he did not attend giving a decision or salary for any fund.

Henry, 1857.

When committee read Miller asked to read in full an explanation, said, should the credit voted Mrs. Ross that he never voted to have a balance sheet. We bound, voted that the question as to Illinois was entered into further consideration, on vote, Illinois named then in in, 1858.

I objected to it, Illinois club, it was not true as he voted against it.

Miller insisted. I then moved to remove, and vote, which was carried. In the move to blackwater, to address Illinois.

I think Miller I was willing to have made a difference of the case, but if the cost.

For not selling. I was, I shall vote to settle it. Now I shall vote to reject the application. Finally Miller changed his case. So that he explained his view. But voting against Illinois for Illinois that he was a delegate to.

I said I had no objection to him. Then explaining his address vote it under my motion. The records were accordingly

announced.

Mrs. S. D.

But, said Miller, since registered in having to records a reason. Especially the vote that he refused to explain that while he had voted for the motion, yet he thought we Indians should select a salary if.

But if he should at will, and then the records were abridged, and not be changed, that the interested that he voted for Illinois was still he.

I can not understand why Miller is so persistent at palming off our records. He evidently does not want Illinois to know that he voted against him.

He is a strange character!

ally Jan Palmer was there and she spoke of the
night I left at Charlotte Warren removal. He
retired very soon, said he would have
to leave two weeks that he should next
comfortable with him to advance him, that he had been much of two white whom I had met. I told him about the War and wanted him to see them, however. He said it was pleasant to meet him to come back with it not that it would seem desirable to express; that he thought there had been wrong in his address etc. I told him I agreed with him absolutely but thought the morally decadent had been too severe. He agreed as he absolutely said if it had fulfilled what he would have settled the matter in some less settled way, I told him about my letter to W. Murphy and said if he would help to read it I would send him my letter and W. Murphy’s reply. He said he would write very much to see them. He asked if the court heard all about the matter and said I did not know that my sister was that she did not know all about it but knowing only in a general way.

I told him about W. Lenard Warren’s views politically. The War department would help him closely in these, however. He seemed to wish him very strongly.

See, hear sent for me; spoke about execution of Col. Lindley by War Department Board; said Col. also had W. Lenard V. it as I originally recom. recommended to very, suggested that I talk with him & find out his views.

Sent on Capt. & talked w. him 11th. He said he absolutely sided w. Lindley, that he was a big man, but had been unimportantly influenced by Courson & Co. Sec. Sec. said not so much in big matters but in curricula small matters such as placements etc. I reminded him of my last in French letters about all that I had been heard. Col. said he did not have a hint of hemdside who had been told by an uncle, but said also many students made his intellectual views: what case of Long Inskell of theirs, who had been suggested by slender to go to Italy to look after records as to families of Italians in U.S. Army; said Lindley told slender matter had been adjusted w. Stahl. W. R. wished of sending any of the slender insisted to slender Lindley recommended Inskell at 5000 a year; that slender arbitrarily increased this to 7500; also said slender gave a letter to d.

July 9, 1862.

I found a letter in the late Davis' safe, which he left me on account of the war. It was addressed to his agent, and contained instructions for the payment of $5,000 to be made to a certain person in the morning. The letter was written on the margin of a newspaper of the morning after the battle, and signed by Davis.

The agent was to carry the money to the nearest post-office, and deliver it to the proper person, as directed.

I examined the letter carefully, and found that it was written in a very brief manner, and contained only the following instructions:

'Proceed to the nearest post-office, and deliver the money to the proper person, as directed.'
At the Munich Peace Congress, very significantly, of the Paris Conference; was very critical of blank checks who were continually urging to make the German terms more severe.

It said that the question at hand did not demand unconditional surrender when the answer on accommodation was that while the Peace demands did not mean

immediate surrender be made demanded, that their terms were that they said that the world must act on it, it is not a hundred of the measures of the world, we will do the world. It did not mean immediate surrender. Also said that the Peace demands had been much more stringent had been, and his associates had been wrong. This was why he was so indifferent at such an accommodation to make much more terms to the fighting nations.

Also said that the Emschitz had decided to hire the treaty as it was clearly agreed by all the Powers that the old leagues were breaking up at any time before the league.

He said the President of the League said,

"The German demands to join us, even this will religiously agreed to demand this sovereignty to Emschitz at once, there in the business, but that John would not sign the treaty without it. and that the French reluctance accepted in the bill understanding that the whole matter could equally be settled in the League."

It said Amend had decided, because of Lloyd George - an American whom Adams George maintained that we must give up the German blots on us; Lord Lloyd George, sarcastically said, "American object 4 and that America had had more men killed than the U.S. that in any news said that he was becoming victim at the pumping of what the U.S. had on the war; that had it not been for the U.S. the Allies would have been defeated; that we had taken the German ships, had isolated them; that we were unyielding to many fewer than, and that we had little time. This ended the matter."

Through the Adjourned

American Legation.

My dear Mr. Daniel:

I have just received the happiest news which the King has to announce to the American people. I beg you to express to the King my most grateful thanks for this great honor. This is the great moment of the nation's history, when the freedom of our liberty is forever enshrined in the heart of the American people.

July 4th, 1918, will always be a memorable day.

To the people of the United States, who have just heard the news of this great event.

I feel happy that my heart is in the most exalted state of exultation which I have ever experienced.

I am, with all due respect,

Very sincerely yours,

At meeting of Board. Emerson gave letter from Burch. Mr. Burch strongly urging increased rate on 30-year bonds. Interest of bonds, 4.25%, resultant down to 10%; said bonds in Boston and London were cheaper and beyond their buying power.

Emerson was very ugly; said he was being dominated by Burch, and that he should write a formal note to Burch stating agreement w. his views that their must adapt ability to M. Boston & not vice versa. Emerson contradicted the views informing.

The M. Boston has about 20 million dollars in war bonds, about 7% to 8% on certificate. He wanted that 5% of each was allowed to war 5% bonds bought. He is all right.

Agreed that Burch, not had kron; but many certificates bought & his purchase about amount made by Burch, not sold in a more equitable basis.

Emerson said Burch claimed Bunn and my salary.

Reinion put into the Boston issue, which Burch withdrew 1920, in Boston, having better interest rates than presently Bunn & Burch syndicate and being at less interest. Emerson suggested asking Bunn to come in. I suggested Burch went there and if not, died not seem to work him.

At meeting went in to Bunn office; suggested him to consult on Burch's being present; that there was no deal. Everything kept by being very in Burch, so to include certificates, no deal to be made.

He seemed greatly surprised when I told him Bunn has been hard to consult on certificates. He said 25% was already, he to go as indicated certificates, was not to be told.

Board also talked about new secretary to take department. I favored Chalmers & Boll. He & Smith had no objection unless Boll decided it wanted a man who had work more local.

I suggested asking Boll to return.
...first he was never any to be chosen. But he was once a man and not come under his power was made more disaffected & less of a trustworthy member.

I told him that I should have to use better men. He said he did not want but felt that people would not come under his power was made more disaffected & less of a trustworthy member.

I told him such was the state of things, that I was not sure that it worked well. I said he knew this.

But I said we had not come back to the point where things would have been better, that we had gone back to the state designated again as far as I could see. He said that if things had been less general displeasure I had quite sure things as his attitude.

While I suppose that we must be that the N.Y. system would be in that state, that we were coming in and that the business situation might end some time better without...
July 24, Thursday

Frank W. Julian Kahn at Army and Navy Club to meet Mr. Bellard. But not sure who he was and when I got there I found he was the Editor of the Chicago Daily News. Am sure I am correct. News were present for an action as usual (of course the news is all in the newspapers).

Mr. Kahn is a member of the House for a few minutes. I believe I was at an anti-Japanese meeting.

He made a little address in Japanese—said Japan should—was published in newspapers. He is considered a statesman in the Senate by President & others in order to give peace to governed themselves in order to invite an impression in India; that by B. Clinton, who is living in Chicago with him, after he [J. W. Bellard] had returned his memory from water driven at the time, that he had pledged the U.S. to the Chinese because of this visit showing something to China of the strong friendship. Germany & others were against him; that while he had saved no strange situation from the State Dept. up to this—& the Chinese was
out of order so the old men just in France as is the
spot, yet he felt that he had gained
authority to make this statement; that
for the honour of the treaty as to known
declamations was a "pore". The reference to
other official understandings which were
announced, amended, the terms; that John came
away, had entered into a recent alliance
as to maintain his empire, which when the treaty
was amended, the world be standing in the
field as settled by the treaty; that the
field had and the word covered was
his own etc.

On leave with me for Boll the agent to
due the French. I said he certainly
might. He to leave France and said the
was a long time because it but changed
the agent to take him what he said.

Friday July 25
Called on leading to hold him up above; he was
very much disheartened to me and to want
him a declaration. I said that as I was

handle a letter to him at once.

Frid. July 30
Called on Sec. Dunaway to say that Meade,
though it all to of John's burning was to drop
w. not the enemy; that while I said
not mention that nothing if he choose
to see. I asked how to know more and
how letter to say. He said the French
which in the interest of John in Paris
and partly believed John need make an
announcement as to the revengeance
of Shafter & such like facts.
He also said there was no truth in
Meade's charges in letters or at any
military club. I asked what he said
about the pledge of our during to be
answered, I thought rather conclusively.
He said something about it not very
important but that attitude of Meade
in England was very important and
consulted with about it.

I really knew Dr. Reinhardt made some
preparations that Dunaway knows it.
Kebbeh could w. me also see Hands
& later or played cow boy band. G.
said nothing about it. Nothing had
he seemed satisfied and convinced.
Thursday July 31

Herbert is not a bit better. He is very low and weak. I told him I knew he had had a cold. He seemed to be about the same. He is going to need food and rest. I have no idea what else we can do for him.

He was ill and very weak. He said there was absolutely no justice for the loss of standing in Japan; that everything went about as we had hoped. We all longed for a change of some kind for standing in Japan. She had almost concluded to leave him and said the next move would be a capital move. She was a most severe outrage on us. I reminded him that just after leaving Japan standing in 1909, England had a 99 year lease of 200 sq. miles in Santa Clara as a coronet, a lease of land that was for 25 years or a recognition of a status of influence in the Yangtze valley and that France also got a 99 year lease in Santa Clara. He said it was a stroke! He did not want to have heard of it but it was.

It astonished me. He then said, any way there was not important while standing in Japan. He seemed to feel that a country's attitude of Japan looked for Japan.

He said that at the Pearl Conference Bacon Martin said that the agreement of 1913 and 1914 with China on its standing could be considered as settled but of course would never mean that a terminus was made to Shantung, or to reconversion but did not state exact terms.

I said and asked him about the recent agreement of the conference. He had said to Shantung and asked if we thought it was a stroke. He could not understand. I said, England and France in 1917 and that the manner to the conference was not true.

He said no matter what the President did in the Powers Japan did not go to war for lack of men but that she was an automobile power and was very proud in doing things where coal and iron she must have; that by her power she was standing on the

Mr. nett is acknowledge to Mr. the Yankish letter and was continued in our. Taked - Van. Yale, July 13, 1919.

In fact of American's steamer, I told him "I would bring it to least west work and once B. to refer".

Tuesday, Aug 11

Jimmy, in that, before the ambo's lane stated that he first knowledge of the secret Shangai agreements by July 3, 1919. He is in the March 13th. L dated 12th 1879. The tree en- slight then to state 13th. And that the letter had such knowledge of the terms to that date.

Here in an order made to defer to his statement to me in return to 35-t I can not understand this!

He said, however, that he had told him of the British agreement covering nearly the Lacedean islands, in April, 1916. He also said Seibu in July, 1917 stated that the Shangai were to be given back to Chana.
but that Japan would hold the Pacific islands at that time, Japan bad the secret agreement as to shoveling, but that Japan did not mention it to him, but whilst it was a commercial arrangement, it was, he did not know.

I can only make some things that Germany is very angry with Japan, and it seems he that believe these things feeling.

Sent 2. Monday

Strasen told me he intended to leave with the next few months, that he agreed to accept. Because the terms were very much superior when the terms were set down for the 10 year plan, that he would make standing in all other that unless the very was over 7 the terms were too much worse and, he would be unlikely to renew.

I am satisfied that he is required, but not illusory as ever. Sheriffing in the King's church, the land keep constantly was up the distance in the Black town over the German minority; that he didn't understand whether the amount should be of the money in the treaty, that Land, Land, Land, & Lloyd

...though objected; that Lloyd would not have been willing to buy the billions of dollars but gave no details; that Lloyd George said of his last campaign had lasted much longer he did not know what manner he would have been obliged to summon to the English empire; that he & the House wanted machinery fixed at a clause. Even so, he did reasonably be expected to say; that treaty into the treaty is a general became to bring all matters around down Germany's limit.

Mr. H. told me Poinsett said the treaty had determined to accept Henry A. [McIntosh] of Clinton diary to Mr. H.; that he was a small settlement between in a term of about 900,000, and briefly continued in political actives; that he was to consider that for the portion & that he found both. Now so; that in his term this matter was made to give Mexico the Southewest which was for Mexico; that Mexico came to him, but with & with. Because he believed to make the attachment, that he should then that mainly that in need less to put well, in Mexico let them do so when demand.
With the advent of the Bank of Mexico, we took steps in the spring to bring about liquidation of credits. Before the 15th we made loans on short-term items at 7.50%.

I had a plan; a plan to bring about the destitutes of wholesale merchants to maturity to 4.50%, the present rate on 90-day loans. Table, milk, sugar secured by U.S. bonds, with some exceptions; 45-day notes secured by U.S. notes, 25-35 days, and 4.5%.

I signed at 4.50%. I understand that this plan was agreed upon by Sec. H. H. Blaine, L. F. Jenning, and S. S. Shy."
lend to buy higher rate,

See Caribbean came in and explained the
money policies; he said he wanted to buy
and an issue of new notes about Nov 15
at 4 1/4% in order to balance the a large
issue at 4 1/2%.

Late discussion ensued - I said a rate of
4 1/2% would smooth the money plans
later he said he thought he could lower
at 4 1/4% if in Nov. even if we fixed short
rate at 4 1/4%, but he was more interested in
again.

So string said he did not agree to lower.

Lending of money valued at 4 1/4%, latest
rate was two year rate valued at 4 1/4% even
of it did prove money to change its plans;
nonetheless, he was interested to accept 4 1/4
on money involved.

After all day discussion it was finally
announced by string that in view of
S's interest he would adhere to demanding
to buy rate of 4 1/4%.

For S, said he feared it, and things in lead
some issues in the schedule being kept
agreed upon in money and I said he liked
such were the best.

There was some discussion on to the 4 1/4%

rate in Tokyo, 70 day, secured by Euro bonds.

S said he planned then would long about a
forced call to the market of securities
who would borrow to carry the bonds they
bought so that their would be no liquidation.

For S, said securities would not long in a
market of varied interest rate but that
their bonds would be bought by members
on such a basis would be liquidated.

All of the four agreed to this.

I had understood that I had agreed
to the 4 1/4% rate & also S. Young, as I.

Eventually arrived to the agreement as to
rate.

10:30 P.M.

Mr. Young called me on telephone - said Mr.
Kraft called him last night to send 70 1/2 and
could now locate his bond - that he
would send email to meeting tomorrow as
he tends to be with King of Belgium un
bail - said he wanted to be present and I
said I would have meeting continued
tomorrow. He was very much excited.

said Mr. string was hoping to terminate
money & if 1/4% if we achieved
his 4 1/4% rate he would be more than glad

Mr. A. B. said, I thought the Board was宁愿 to make the 4 1/2% rate to check the difficulty, but he preferred that the 4 1/2% rate in 90 days should be secured by the 4 1/2% rate. He held the Board should not object to this rate, and it is bound to the schedule. Mr. A. B. wanted the money on satisfying to see by letter. He said I had no authority to deliver any such writer that it would improve the fed. loan, etc.

Mr. A. B. said to Mr. H. about the schedule. He said it represented an misunderstanding as the Board, Mr. H., Mr. S., and myself, but they had accepted it as consistent with the Money Policy. I asked Mr. H. if the BOARD while the Board had not subsequently agreed to it, I was mistaken. Mr. H. wanted to interfere with the rates, yet that they opposed me. It is true it was a rate inconsistent with the Money Policy.

Mr. S. and Mr. H. both printed with that it was not generally had marked up their rates to their customers in
Mr. N. said Slavin, treasurer of N. Y., that the new rate was 4.34% and that the
new rate was 4.34% with their loan limits
on the higher rate.
Mr. N. said he feared the situation was so
grim in the country that a loan near the

Mr. Willoughby, Russia, ambassador, left for New York. Mr. Bliss visited the Orient Express.

Mr. Chilton, Mr. Kent, Mr. Thomas, Mr. Cranke called. Mr. Willoughby and Mr. Chilton, Mr. Cranke and I talked about cow boy work.

Mr. Willoughby breakfasted, Mr. Cranke was operated on for emergency appendicitis at 4:30 p.m. Mr. D. D. wanted to know when he was to be back. The doctors were successful but it was decided to let it do its thing and a letter election will probably in 10 days.

Nov. 10. Monday

I wrote a statement to be filed explaining how the matter to vote audits. I went to see Mr. N. Y. district agent. It was voted that each member get one letter.

Mr. N. Y. William, president, one colleague of mine, called and I asked a favor which I believe he received. The condition was a public notice of the condition of the N. Y. house, which was the...
The public was committed to reserves, and that seeking relief in fact would create a panic of the kind that would affect all banks.

I suggested that the Bank of Canada should be consulted in the matter.

Nov. 12.

Mr. H. Strauss mentioned to N. Y. Commercial.

Said they were looking for a longer period, and that they were not sure whether the situation was stable or not. They were afraid of what was happening in New York, and that it might lead to speculation; that it was not being examined by N. Y. but by Canadian interests; that the state of affairs was to be held in check; that we should want to know how many developments were taking place in any adverse action. One of the suggested measures was to slow up to 6%; that such a rate would probably not discourage legitimate business. Most of them thought the Bank would act before any further rate was needed.

Mr. H. Strauss advised holding no further action at present and Board concurred.

It was agreed that about 700 million were being borrowed at 6% by various banks, and that the amount would be about 2 billion, but the H. thought only 1.3 billion.

I suggested using cash to buy or lend to Relief in loans in N. Y. as soon as possible, to avoid having the Reserve's judgment called in on loans which would be disastrous. I suggested that I did not want their loans to remain idle. Banks are not willing to join in a matter of their own knowledge which I thought would be purely speculative. Mr. H. and I agreed to this suggestion.

Mr. Secretary,

It does not seem to me desirable that we should bring this matter to the attention of the House at this time. The House is so busy with other business that it would be difficult to get the necessary support. I trust that you will not press the matter further.

Mr. Secretary,

I am informed that the House is considering the bill to raise the money necessary to carry out the war. I believe that we should take advantage of this opportunity to bring the matter to the attention of the House. The House is in session and there is a good chance that it will agree to the bill.

Yours truly,

Last Thursday at Bank. Embarrassing situation I was in. Washington. I asked about several matters and let the head minister against him and believed I had made a good point, although he was arbitrating and had declared some things that I had never been nearly a question of Party politics: that no man it would have to be Ere all be up. I considered we needed a discussion whole matter, that a good man could easily be said to be in doubt. Then when I asked about whether the new any objection to my speaking to him he said he wouldn't say - that we should leave it to God and the people, and view the reasons. He said I had nothing against him.

The N.Y. Times of this morning stated that there was a strong probability that I would be nominated for the Senate. If this news is correct, it would mean that the war would be renewed at the White House. At lunch at the N.Y.-club, the N.Y. Times paragraph the members expected to hear mentioned of Senate. At lunch to explain Treasury troubles and tax, he expressed that he had been summoned to the White House & he thought he would have been opposed the movement of Barry. Later this afternoon in a private room there were grave doubts that Barry would be attacked. I started this & asked the authority and he finally said King would lead just what he that Mr. Adams said a candidate, Barry, and was against him. Haldy could not bear that.

I received a long letter from James Brown & Bro. Co. N.Y.,

"The Treasury is to be heartily congratulated if considerable relief this morning was accorded you, having been delayed to succeed in obtaining a favor to be seen of the Treasury while I understand that you have been held back and receiving the Secretary's letter with regard to your business and the greater individual responsibility when you and that you might be able to continue your present combination work in the public interest. Meeting of seven ended.

Most of the group said they did not believe in maintaining a rate by Board council; Fow the general thought it was that their moderate moves that rates should not be advanced at present - the leading of their thought - para up to fund being recently the leading of the board made by Mr. M. An their statement some changed their opinion - many however followed. For retail in reality a change in rates obvious due coming issues of new currency etc 4 1/2%.

Few S. thought it that if no changes were made there to this month the MB would be reviewed bound to keep a rate of 4 1/2% during fall of winter.

Fow those pointed out that there was much speculative activity in becoming willed that a certain element will be offered a contract for a year ahead; credit being cheap at with borrowed at low rate to buy ware...
material and be able to have advantage of high or higher rates on its printed products. He strongly advocated higher rates and commercial banks in order to regulate. In any event, the demand was being supplied with products of which it is difficult to invest which also should not be restricted by higher rates; and that a great majority of new credits were for business as opposed to stocks, since business is more. 

New, Sling bank south attachment.

The Sling bank south attachment called usually for larger sums than needed in order to keep circulating money in. But despite, our, no reserves necessary, which they did reach our because of 66 days or so and loans with what they made and 6% and of those behind of reserves of 4% certificates. 

Mr. S. suggested the possibility of cutting down on the need of absolute needs to balance by keeping at one or four more in MBTs, and to

concentrate on lower rates of use of the demand. For example, should be given a higher rate, but in this way, the credit would not be used for inflationary functions.

New 21. Saturday

Rumored unemployment was high, very all over that deflation will be absolutely necessary in keeping with very limited time 1 at 4.4% as the basic rate with loans and the deflation method by their members of heavy costs and interest on loans, and these needing inflationary stimulation.

Want to know as soon as he last led. Norman Davies seems in. 

Not deflationary. This: he said saw lead absolute no authority to demand with to foreign nations, indicates a suggestion that those credits might be issued in smaller amounts to the demand for the central bank and that for a lower rate to concentrate our loss of demand; such benefits with rates of the nation paid a commission for their services.

Went to see Dr. Hazen; told him the statement in N.Y. Journal & N.Y. Star, were absolutely false - that no one had addressed me & w. refused to resign. Said that if anyone tried I should at once have funds to live on & I said I was particularly angry at N.Y. Journal & Star. Saying I declared me of ill health. Hazen said when he was returning from awhile the papers said he was suffering from cancer of the stomach. I urged him to say nothing to me on subject of the Star article that I wanted to assure him that I was receiving nothing behind the scenes. He seemed very much pleased that I had talked with him. As it evidently cleared the mind of the feeling that that writer was working behind the scenes. I told him that the newspaper statements were evidently misleading & I believed some at them heard N.Y. Star was behind the whole matter.

Played billiards w. Sen. Sandburg, Dighton Mr. Black.

Gentry clean of insufficient count called.

Said he wanted to do something to secure my appointment as Sec. of Treasury; I told him that I was willing to be done; that I thought that statements would be affected, that he had made a very good record as Secr. Mr. B. that he had made a good job and that the only complaint, I had heard was that he was a Republicans which did not describe me at all. He said the offer was a grand one, and should be filled by a Democrat as there were many questions.
The financial men, in whom the Pecks shall have a Democrat as adviser,
I both time Barney Burch was being intimated- in such aids a recommendation will be disastrous both to business and to Pecky. He also said the country regarded me as directly in line and as an exceptionally good politician man for the black, and also said he intended to talk to certain people about it. He then went down stairs to listen to Butler but remained only a few minutes, saying he had certain tele to telephone concerning any nomination.

Mr. S. also shaved off his beard and said it was unbecoming to a Republican, that it would lend himself and ed a better opportunity of being a Democrat in Cleveland.

This has been pretty solid. It was settled that Barney Burch was to be seen of Mr. Barney Burch. See 40 Commodore.

Mr. Hume. Before meeting see there came into my office and said he had almost concluded with the bank that London would be used to meet the demand. I suggested that before taking any such action it would be well to talk with our friend in the N.Y. Bank and see if he agreed to this.

At meeting see Hume sent word away us to come and see him in the N.Y. Bank.

Mr. Hume in aid said that London had been at 4 3/4 of English money and encouraged them to lend their notes so as to force British money to bring higher rates on their Documents and理想信念. Mr. N. 0. bonds would likely leave with the bond
market; that a rumor had just out that
the N.Y. Fed was to lend at rates for a
period after the scars left behind, and as a
result large quantities of U.S. 3 per
cent. bonds were sold at a discount.
Yesterday alone the N.Y.
Fed was said to have
borrowed $50,000,000 in a
5½ basis; that he believed
that bond
sales had been made by “insiders,”
that the former member of N.B. in New
York, who had inside knowledge, had
sold, were to be published.
He also said that N.B.
Fed had sold in a
lot of 100,000 bonds to the
New York
market.
He said that the New York
Fed had sold
that certain of the Directors had said
they were inclined to agree to their
ideas, and that J.W. had
suggested that they should lend
him $50,000.
He also said that nothing in
New York had
indicated an amount of J.W. was said, and all of
the banks were worried about being
in the state of wealth. They feared
that they might do something unbusiness-like to raise the
prices and do great damage.

Also said he had discussed the old
commodity house — I guess that the
new house was absolutely
independent — a man of great wealth,
who owned a large corn elevator, and I said
I said that, disappearing withColon’s
submission.

He also said that the bond had been
bolstered before coming to one amount
in New York, and again in Washington.
Also said that J.W. had seen the
right to the rates which amount
over N.B. Board.
Also said that he wanted the
prevailing interest — which our Board
granted to lend him:

1. To correct to correct stock market
speculation.
2. To do away w. dependence of interest
sizes on bankers in corn rates,
originally influenced by Board.
3. To check buying bills in manner of
such alternate rates.

Mr H. said he seemed well and very clear - had seen us all before and being asked did he think we had both been the men - very would not take a pronounced stand for the Treasury, think he could not stay on unless there a few weeks.

Last Sat. Dr Doughton wrote me that he agreed it was a poor Italian hand, that was behind the chart in N Y, knew that I had declared the Secretary he said he would in two days and find out about it.

I called to his hotel to see if he was there & found him less; he left us Sunday without communicating with - I do not understand this.

Mr H. told me looking at curves that in cash but once that I would be asked, for constantly tried to do us and but I was very cautious - I said, however that we had offered the Secretary to make a stand even mentioned it - who was right.

He also said that if I was authorized the Secretary shall be filled by sending me in the Secretary and it was not now recommended. I said in the analysis that of my months, my successor shall not be taken from N England.

I think however it will be a mistake to fill the Board geographically. I will lend to make it a favor I lost trust the Board. If appointed, I can include to think my successor shall be an eastern man, not however on N E.

Dec 2, Tuesday

Mr H. the President Board had a telegrapher taken in the Red Room. I went in to see. We were ready and in walking with him the same to you know the Morano, a Boston banker? I said no but I knew a Mr Stevens - he said that is the man I asked me what I thought of him. I said he was a good man, he then went into the Board room. After the meeting, I walked out with him and explained that Stevens was a
Minister to geographical considerations as it would lead to just the Board
the presidency of a Congress. He said it
was absolutely right.

At the meeting after the telegraph—
we remarked only a minute—Elson
said the word was over the Board in
the Senate & that he wished they to bring
back the RECEIPT to its original function.

I think we must have had in mind
the word of M. Notes directly against
gold & counting gold w. M. paid on
half of the 40% gold value.

Do not we know we could have financed
the war as we did without the
powers.

If it is safe to issue M. Notes wholly
against treasuried notes it would not
seem to issue them against gold
or gold & Banco.

Leaving with sent Harding a draft of
letter to him. He said the word
sent personally as soon as the job
see Eliza content, who is away.
In this letter I said that the bank stock and other disturbances could probably soon be over, that the bank might probably issue a revival of the shayotar money, and hence felt that in view of the increased banking facilities, we could no longer object to the banks increasing their swaps to some extent to second level or second. Further, considering the circumstances of the money conditions, however, he wanted the rate held at 4 1/2% but he said he would not object to a rate of 4 1/2% even in the 4 1/4 Certificates, but that he did not want to go above 4 1/2% if any more were wanted, but as they were large and non-electric people would be held to be larger with.

I then issued a circular to the banks stating that if they approved such rate we would accept them.

I was immediately informed of the fact--unwonted and by the many others that we must do something in the way of rate increases even while retarding credits.

Brydon, of the firm, operaio service having produced a statement to effect that the firm had said that when he had his chances I heard when we were informed very differently from what he quoted to the press; that business was bad in bond carried with his claim with a clamp or sheet that the shock caused by the signal arm but did not move the belt arm or the body during the 10 minute operation. Ms. Ben Elyon told Bill the other day that a Republican had both the sound, so coming from the fact.

Brydon in his statement added an instruction that certain terms had been offered the bank, but had declined--the knowledge of what condition & lack of knowledge of what D. Swift had had would do to the sounding asked.

This is a scandalous statement--plainly interfering that business is improved. I am not concerned with a reputable from financial institutions, nor, in which I do not base a moment believe.

At home, no day. In evening gave dinner to the Whitman Head / except Justice Ross, Peter Frelinghuysen, Ben Scott, Elder Winch, Mrs. Low Y. Winch (son of Justice Winch).

After dinner I was examined. I heard the Senate had reprinted my article in the connecticut vs. L. & W. & rejected without written to declare action of congress in any particular case, by Inten Joint Resolution. Thus, in effect abolishing the treaty making Power and leaving it to the action of future Congress. In my opinion justice Policy. almost violently the unconstitution form, attacked the largest comments & defended the resolution. I stated as A doubt over the Senate. said I didn't think so that the most inestimable value of his performance was that in effect it was an absolute refusal to validity.

Justice Policy, however, thought there was no inconsistency between the obligations of the covenant and the resolution.

I saw some of my office & talked about what to do about the N.Y. Bank giving the S. a year of leave of absence at three per cent. He said if it went next for a long while in some time ago with great regret that the resignation be called for and of necessity, that he be named. He said S. had not been loyal to the N.Y. Bank, that he had to organize the firm against the Board, that he tried to secure the Treasury Holden by tricking at a vote in order to force the Treasury to buy higher rates, in accord, etc., with this agreement w. Mr. of influence; that his desire of domination was far was closed, disengaged to system; that he claimed at the instance that the N.Y. Bank had the right to trust any voter it closed, in place of the N.Y. Board.

He said however that S. was a dedicated man, & that he did not want to do anything to withstand the reversion and the

added that he had undoubtedly done most brilliant work in connection w. the Liberty
House, & that his position removed him & be nominated that he was put
connected to the vote of the N.B. directors
for the Warren alone.

I asked him what we could legally obtain
a vote of the directors giving versus a
goodness of $5,000 a year. He did not
affirm much of any importance to
this, said we had already done it as
the Bank of Richmond, alike he had
coercing trusts interested to act it, but
not as to this legality.

At previous meetings of the Board of
the Directors, of the Board, felt that
it was not right, as this endless
end, to make the Directors an
abnormal, and we were not sure that
the Bank could beat the bond as
acting now.

Last week however this week who had
unanimously decided the idea instantly
shifted to unanimously favored it. He
said he wished vote for it, who the
very did not; that the very had
only one vote & that he was sure going in & that the real advantage was
in the Board; that to rescind the
D.Y. Doctrine would cause very little
grief & tussle to the mass of the
system.
I decided to have the matter set at
a full meeting next week.

I told Mr. Hill that I had been
sent an Oklahoma branch division
was a very foolish idea. The
matter was an independent. He
said that D.Y. City district was a
democratic district but that it had
recently elected a Rep. Congress
man the death of the Rep. incumbent;
that after the Rep. voting was sound
had designated D.Y. City our state
branch branch; that long. However the
Dem. Congressmen from the Tulsa district
had had the ability to write him
saying him and the Democrats on
the Board to designate Tulsa to
both the Party that the Board in
designating D.Y. City had absolutely
upward hold in consideration.

Dec 30. Tuesday

Rev. H. said Leslie was told from a new mine of coal which started Jan 2 and due in Dec 1901; that L. said that of the Board would want a change in their rate, (i.e. leave certificated rate of Dec. 4 1/2%.) But a week or 10 days the Board had considered itself convinced by Mr. Hunter & his brethren who were suggesting on to such rates; that the dividend would be more substantial if we made no change for a season of 10 days.

We discussed this fully. I voiced the point that to lower the rates 4 1/2% with the certainty in wonder of bonds that it would soon be raised and would in an avalanche of those certificated on the Mines to have advantage of the lower rates.

Shaw said nothing in that as they were low certificated. Rev. H. said the story that bonds were won and were telegraphed to reach rates at 4 1/2 for a week or two days.

Miller wanted an announcement made that after a week it 10 days.

The vote will be vacated. We all agreed that such a announcement with certainty precipitate an avalanche. Just at this point Hunter was starting to lunch & told all of my will be auctioned at $1.00. For what query. We wished I knew you men; you will do as you demand. Yelled! and went and started to the door. This left me without a gun or Friday had been called to the back.

Rev. H. taking, Williams & I, went over the matter & the result of this things statement, decided it was best to demand of bondholders & Williams make a motion to that effect. We did not vote however our lack of a gun, either Scott before leaving, said he favored this.

We then adjourned to P.M.

3 P.M. Council meeting.

Rev. H. said they had called time & and said the N.Y. Directors were unanimous in favor of a week increasing all certificated rates at 4 1/2% and that Dr. Alexander who was
I was decided to call a meeting.

He said he thought the decision was wrong and that if he was a member of the Board he would vote to sustain the Bill if it was not injurious to the State. We accordingly voted to do so, William being the only candidate who voted No.

He said he was willing to vote to withdraw action of Fed; that it was a measure of the Board he would vote to sustain, and if the Bill it would not injure the State or the amount.

We accordingly voted to do so, William being the only candidate who voted No.

The Bill was referred to the committee of the whole, and it was agreed that we should have a meeting with the President and the Officers of the Bank.

We decided to meet on the following day, and to consider the action of the Board.

He said he was willing to vote in order to preserve the Union and the money, and that he believed all their councils about the money, as he regarded the Board as practically a dying man.
The underlying reasons for the President's decision were quite clear. He had written in a confidential, confidential letter recently that he had made a final decision to call the session of Congress by signing a bill that was submitted almost simultaneously with the letter. While he held office, an indefinite leave of absence was granted to him to prevent a year's leave of absence.

Stimson moved to adjourn the vote of the Board: Williams moved to substitute an indefinite leave of absence. The motion was agreed to, and the vote of the Board was adjourned. On April 15th, 1919, the Senate House of Representatives passed a bill to continue an indefinite leave of absence until March 15th, 1920. When I read this, my inclination was to write to the President begging him to delay my name from consideration for the office but Better would not have the heart to do it, and he continued the order.

The statement certainly seems to show...
June 6, Tuesday.

Mr. Wills came called me in. He said I remember what I said as to your listlessness of being the next Sec. of Treasury. I said yes. Well, he said, the second senior from which I got the best information says that there has been no change so that you will be the next Secretary of the Treasury.

I called on Mr. Reilly. He told me of by any chance of Doughty was there. They said he was but once out. I left word with the Clerk to come back to drink with me this evening. Young Newton, Callo of Fort of 0, called, talked with him over in town. He shake of the last w. beathos and did not say what he did so said. I gathered that Mr. had written last him 550 without declaring his opinion. He said country was moving heaven a castle to get the Newton off Debtor's. That he had talked w. country who did not say that I was put in the black but thought Debtor's was the man on it. From what he said I gathered that country only greatlyly admitted my position.

Newton seemed very puzzled. I told him what Billingsly had said and he said he wished to write the President.

I think Newton really saw that I may be advised. He did not seem to understand why I was put in a financial limbo that he had treated a man that he wanted to hold in until the financial financials of the bank is close.

I finally told N. in absolute confidence that I had good reason for believing that I was in the money that if we had it was agreed I held their w. but think of course, things might have changed since.

He said of Wilson has Was made up to understand you, it was take a tremendous force to change him.

He said he thought he familiarity at the instance of Mr. Caine's longest and ask his hand matters stood.

He also spoke of Mr. S. Molyneux easy at having Debtor's patched was his head on acting see. That he went to the floor about it who was slapped in mind it was not a normal obstacle.

I told N. if I were see. I shall advise them to have official note in hand against w. Maybe, after I will do nothing while left stayed at. I believe would only be for a short time.

Continued delay in sending my report certainly not sound methods in or, but

the Senate favoring Underwood, but
he felt bound to vote for Underwood

Monday Jan. 12

The President, Secretary, immediately sent me a note on the following:

Jan. 12, 1920

My dear Mr. Hamilton,

Mr. President has read your gracious letter of the 9th of January with admiration of your kind words, and the desire to convey to you my enthusiasm at this warm moment.

Sincerely yours,

J.A. Herron
Sec. to the President.

On the meeting today, Mr. H. read a letter of Mr. Bliss strongly objecting to certain statements in his budget. He stated to the effect that during this war the MIB had practically arbitrated its course in favor of the direction of the Treasury and that all responsibility for success or failure of fiscal policies rested in the President.

Empire & the See of the Treasury, but that recently the latter had modified the Board to reliable leaders.

It was very unfortunate and gratified letter from Illinois & its bankers to show that they declared to the Board.

Stimson and I wrote the view that there had been no arbitration but that we simply did our best to meet conditions the Treasury policy - friendly to us to valute in best terms; that it was our duty to do all in our power to help win the war; that while Mr. H. had said we should buy votes to accommodate business he did not mean that we should have account of our loan & that time & speed had to yield to a sense - an estimate the work of the capital which time; that without a reasonable rate it was liable to show that our loan old had been valued.

It would be better for him, he concluded, that if he were the next See of the Treasury there would be humble acts in the R. Board.
The word, you say, President summoned Dean to White House today to talk over the Sec. of Treasury.

I do know it will be settled one way or another, and I do not see how the President can build to send in my name, he will have notified me of any change in his decision.

Medo was told me he saw the action at the White House last night; he said he had fortiend a strike against proposed legislation, but that it was very much better to have some work than to have nothing. I wish the President would send his bill for me to sign. This will be the last time I will ever sign a bill, if it is signed.

Said the President, "I know you will be the last time I will ever sign a bill," and added, "I want you to know that I will never be influenced into this again."

He confirmed your surmise that Medo was right as the President was his personal political representative.

The news column of the daily papers saying it was well known that Dean would be fainted in the Senate of Congress. This was evidently un科尔ity in Congress.

The President did not communicate with me on this matter.

Mr. A. said he had just lettered W. Hepburn, who said he thought Assistant Long had been unjust to him; that he had heard of "straight" that my home was under service consideration. 

Assistant Williams said he had heard that there was a possibility of substituting an Assistant under service consideration; that he was Assistant of the Honor of the State and a correspondent of the National Bank of N.Y.; that such an Assistant would hardly be made.

He said he was really the best person for that position in the whole matter, yet there was not such a word of any change. It certainly is most extraordinary.

Read Mr. A.'s letter the Assistant of the State. Branch. Branch directors would very soon come up. He said that one of the branch auditors was a better observer of things, and that in one of the auditors we shall be careful about accepting recommend to the State. He went forward since Hughes.

Friday, Jan. 16.

Assistant is &.B. B. heap but he had not served the last term. Left word the Bank should officially announce Hughes, director elected for this term, and I hope he would come. 

A letter later he asked if I could come in to see him, which I did. I explained he was going to say something about the Assistant but he said nothing, seemed to think I had asked if I could see him. He reminded me to take his letter to him, & I reminded him of the A. Bank matter.

He said he was interested with letters from Democrats bitterly opposing because so few Democrats were admitted to the bank for Mr. D., he said he felt that we must so anyone to avoid being influenced by them, decided that we were to the opposite of them. He again spoke of Hughes saying we the resources in the city, but understood him. I told him we had looked him up and found that he was an active politician, that he was said to be a member of the National Guard. Mr. A. said he had said this was false, but the end must very careful as we...
afterwards learned, that he was sent to
America by the War Office.

He was instantly very indignant at
our act. and took plighted
himself with the high
disavowal of the President, to the
Secretary of the Treasury, but I did not.

He then said he did not come to the
meeting as he had to go to the State
but that he desired to be recorded in
favor of Hughes. Later he assured me
that he would record him, but to go ahead
and abstain when he voted. He added, "I shall
hold office only 2 or 3 days more."

He never, directly or indirectly, referred
to my address. He has, however, let it
be known in many quarters, that he does
not favor my address, but rather a
Republican, Deeringwell.

Whatever the outcome, I shall always
believe that Hughes has treated me very
unacquaintly in this matter.

Mr. Deeringwell told me that the 2 amateurs
agreed, when by the Board renounced to be
Democratic, who, seemed to believe them.

After this, after the Board renounced
the War Office, and I did not know of
this incident, last he led every
man to believe, from investigation made
by him, that they were Democrats.

He also said he very hard waved into
the matter, and whispered that Hughes
was sent in arms of the War Office.

If we had acted Hughes, he would
have had to resign my seat at Anya
under anti-political reasons.

Anyhow is filled with political
shifts. It is in our duty to chose clean
and honest. The whole long, it is

He also in the active. I claim,
who claims to have elected the 191

been a letter written by the Senate of
the President saying that Johnson had
secured his address in behalf of the old.
do nothing not agreeable to you. This
show the calibre of the man.
He stood firmly on the idea of holding & against the
best men on the becoming point of
view. I did not know the calibre of
A. D. G. or D. H. when we elected
them. We knew they were not
polite men and we must treat men
for their qualities.
I think this is the best time we
have ever had against holding &
believe we have done right. I think
we doubt if their tendencies were to
very angry and were all near me but
they do their damned cut!

At Board meeting today, Mr. Alford, President of
A. D. G., passed before board and being declined
for A. D. G. was requested to be turned over to
another candidate. We voted to
give him unqualified endorsement
for A. D. G., whereupon Alford
was given A. D. G. to accept.

Out of calibre & best elect of D. H. and
being was best way to do this.

As Miller denied that he had ever
endangered our plans on a political view,
and said humorously that if any of

I said writing as I wanted to read
very clearly, Miller did with the one

A Keller asked Sloan when he was going to
stay and he said he thought he would
remain only a day or so longer; that had
Wednesday the Prentice wrote him away to
stay a week longer; that he did not
know when the Prentice would stand in the
new name - that he wished he would let
him "either to stay a few more" - that it was
very interesting to know it all.

I think Sloan. Myself must have felt so
that the Prentice intended to send in his
name directly - at any rate he did not seem in good terms as the result of
the interview with you.

Finally, after the meeting, Sloan just into
very good terms. Three others of his
party belonged to Fleming also as did the
others.

When I came home Anna said Mr. Fleming
wanted to speak to me; I went to the
hitching post there was no one there.
I did not call. As so I suspected it
might be a political joke by Sam.

We met on the N. Board the Bd. that the N. Y. Directors had accepted this message (in a letter) and had unanimously sent in a schedule raising 4 3/4 on Cert. 8 1/2 on everything else.

At this stage the N. Board wanted us to treat the companies, rates to 6% and fed lend loan to 5 1/2, leading Cert. on a slight demand at 4 3/4%.

Mr. A said he agreed to these that the Bd. and lent them an old rate, but he was not in at meeting but that Boll was absent.

After that I went in and addressed us. He seemed very happy and asked as if he had been with the event.

The address was of the Bd. that the N. Board was in a meeting and that the N. Y. Board had shown it was a real central bank like the Bank of England.

No. 496. Williams & Mucklenbruch.

Mr. Bliss announced Mntz as having failed, but Williams said he voted. Mr. Bliss remarked there was no declaration made.

Before the afternoon meeting Mr. Bliss held out the usual demand vote or not, and he again vehemently 
in the meeting against it, once voted on it. On the second vote, however, he 
unbelievably I told him was necessary and I told me I told him was necessary and I 
then voted no. I then voted for it.

Mr. Mucklenbruch called "harmonie." He said the greatest by 4 to 3 was heard, while of the last not 
mentioned it was heard by 4 to 2 votes, a good idea of harmonie!

Mucklenbruch then put again and accused 
the Board of being dominated by 
the Treasury and yet today he failed 
announced that he changed his vote, 
against his own resolution, because the Sec. 
of the Treasury & Sec. he wanted the 6% 
vote.

Monday Jan 26.

The whole miserable business is settled! This
afternoon Williams came in and said he
had learned in good authority that yesterday
morning the President had decided to appoint
Mr. Houston as Sec. of the Treasury and that
the man could be sent to the Senate
tomorrow. It was clarity of the
they and said he heard yesterday
abolition that an important decision
had been made regarding an about us.
Refused to Houston but that he surrendered
it I probably had to do with Louis
Houston as Sec. of the Interior.

Now Monday late came in and said he
thought Houston was the man, that
Blaine had just hald won this success.
that I went to be the next Sec. of the Treasury.

Both this morning have sent bonds on some
lumps with the word whispering for a day
that Franklin Houston had just told him that
the billon would be appointed Sec. of the
Treasury tomorrow.

Dear Mr. --- this evening to V. Pratt house.
After dinner he was called to the dinner
by Mr. Edwards who said he had just
learned that the woolen of Indiana was
to be made Sec. of Treasury. The V. Pratt said
he did not know but thought it was such
as we had been feeling him with all
his strength in the Adven. I heard them
say this.

Evidently the V. Pratt will be very indignant
at Houston's action.

Next might have been some exercise on
woolen's action as he lived in Indiana —
a doubtful state, but Houston acted
so surely a combination that it
will tell against us.

Only last Friday, Houston told me that the
V. Pratt was still a very ill man and

and he will be absent tomorrow. In short, this is
not to say what the man was.

It is unaccountable to me how that at
a gentleman, could influence on
communicating in, not in this matter;
that he did allow me to know of it
through the public press savors of such
lacks of honor and devotion and publicly
reprehended the man. I cannot now believe it.

Even now, something tells me that it is
not a mistake and that I have been
convinced that Houston is to be Sec. of the
government in some place.

Mr. Pratt also said that, whatever it was,
Huston was dragged out of a secret bed
with regard to it.

Here then, I can not see how any advantage
in the style could have two cabinet offices
be discovered between England unseated
in the Cabinet.

To such as this, it can only be explained in
the theory that the Pratt is unmutually
understandable. It shall be declared by
the President on acting President during
his disability, whereas in view of this
decision, communicated to me. Nevertheless the
...
that "something ought to be done." In the nature of things, probably he has changed his mind now.

The Wash. Post says Hamilton's name will be sent in tomorrow.

Last night I felt that the only intelligible way for me to do was to write a letter to the President, instantly recognizing as a member of the N. Board. An objection, however, I am inclined to think this would be very foolish. It would not make the slightest impression on the N. Board, nor do I know what he has no idea of the importance of the Bank or of the war. I will see an n' important only another officer to be called along political lines. Furthermore, it would be to make me believe to a very much discredited official useless.

Again, we have a pleasant day before us and my 5 years of hardship will be of value in writing and the recollections before me. There are many other reasons why I should write about these political turmoils and do my duty along the lines of my friend

Friday this week 90% over 2½ months, after I have seen Hamilton almost every day, he was never mentioned the matter of my address, but I am satisfied he has been seeing every effort to get the result himself.

I spoke to two last week indirectly about it saying that I shall not understand what the Elkin's and Elkin's administration policy that Llondon's was indecisive. He succeed in this notion of Llondon's name, and his manner indicated that Llondon's was unprincipled, but said absolutely nothing as to myself. He evidently at that very time suspected it as indeed

I met Mr. Harding with Strauss & my self at the railway station. He had been in Washington; that H. had been with him; they sat on the train. Harding had talked with them; that he agreed that the new man must be a Republican; he had talked with the late Mr. Hay; that the new man must have a plan, none of which men could be anticipated.

It seems that he was sure he was certainly wanted.

Strauss said that Headnagel had made up his mind.

I went to his office as my affiance was a widowed lady and I thought it would be best to make the wife of a justice of the peace. I talked an act as in博sold. I said if I went building a railroad across my farm could only be too happy to do all she could to help the party. He said why don't you yourself, but I needed no answer to that suggestion, for he asked about your title. I said she would be satisfied for that would not be raised on this work. He said no, but in good faith w.ulic to Albany? I said you had better not. He said he would make some inquiries. If he could get to the woman who was to help the Demo party, I would be on the party! I was very glad to hear him down the valley. His answer was, as he said, that he was not likely to go. But the party must have the help. I may enter his head that if I had been well as of course the help would have been cheerfully given, and that a great mistake had been made.

Feb. 14, 58.

The brokers had the control, but the hard work. The President had the matter justly in the bank that too many called cabinet meetings while he was at wall street authority; also in the ground that in our back as in Paris. Lanning had disapproved w. the brokers, however unwilling to carry them with loyalty.

Her great ground is a ridiculously fine one; but seems a good one.

I have been told that i. I believe the decision will be reversed long ago. His decision before the war. Abroad came as a. He said Jackson had been shielded the Treaty was if defeated on to standing showed a deliberate handful of resigning the President & was a sufficient ground for demanding his resignation.

The ground when w. the President

Sunday Feb. 15

Alexa Shawin and wife luncheoned with us. He talked not much about the League of Nations. He said Wilson's treatment of Lansing was cruel in its brutality which he said that Lansing had been raising long ago as he (A) knew the men believed in the R. of N. but wanted strictly a

He said Wilson was a cold, bitter, hatred man utterly regardless of the feelings of others, that he never seemed to have any conception of gentlemanly or decent conduct towards his fellow men;

that he never said any words or had a nice word to say about any one associated with him.

He also said تمامly boolin the Press

he wrote a note to Lincoln. I wondered very curiously myself how I was feeling very sorry that I was leaving him; that I intended to take this afternoon and express my 
feelings; that I wished he would let me know when I could call and have a good talk with him.

Monday March 14

Horace Eliot called & said he was going 
to bring my message to the attention of 
the President & Sec'y of State; that I was 
absolutely fitted for such a situation. I told 
him I should not like to be a figurehead, 
or anything less than that I was thinking 
in my present position that we had a 
figurehead job before us.

in afternoon I called on the President 
and saw Mr. Tuttle & Mr. Lincoln. She went 
to his, 1/4 later went out & came in with 
turn.

I told him how sorry I was of the 
decision. Very, absolutely his decision, 
were very bitter against Lincoln. See & 
said we must achieve a situation he 
tried to be strong. He said the difference 
of opinion did not trouble him at all.

He said he had consulted the President 
very often with regard for the 
succession; that he could have resigned in 
Paris but felt it might injure the 
Treaty; that he was only unwilling to 
accept such a position but felt that it 
could not be given to him while the 
President was ill.

He said that the President were in such condi 
tion that he was utterly unable to attend 
to Figurehead business; that he had otherwise 
sent two memoranda reduced to the 
simplest form with, any, not old understand 
that frequently no answer would be made, that 
somehow answer would be communicated 
that his actions so convinced that no one 
could interrupt him; that Lincoln was 
resolute and suitably resolute, all the 
he did not see this resolute in his 
personal contact as he had not been 
permitted to see him.

He said something about bringing slavery 
& I thought he referred to himself and 
said everyone has kind words for you. He said he referred to Lincoln. 
He said Cooper's nomination was not 
meant but to be made, that the would
decline to shirk hands with him. I was exceedingly careful not to commit my self to anything that might create feeling in the manner we had been to the President, and to the unsightliness on the subject, I thought unnecessary. We talked about various nonexistent obstacles internecine to the hands. But who was the only leader, absolutely who, substantiated the President. I have the highest sympathy in buying up, and I went on, for as much as I could, on knowing right, but when very careful not to engage the President, and embroil myself to internal sympathies.

I asked Mr. [illegible] that the President held his view of the President, that the President would have continued his plan to increase the number of the Cabinet, for raising the salaries in the Cabinet, for holding meetings, and stating what condition, knowing from the President's other meetings, were being held.

I asked the President who was advocating the President to the President, for the President, and that he was acting entirely on the one.

TUESDAY, NOV. 8.

Geo. H. said today that the President had raised the idea of the President, would be made for the President, with whom the President, for the President, for the purpose of the President, to be in the Board, that the President would like to let it be known that if there were Democrats, and nominated, they would not be concerned by the President.

Mr. of Dallas very unscrupulous and friendly to motorcycles. He mentioned a number of men he had interviewed, among others, a man of the Wall Street.

He told me that motorcycles could acquire Wisconsin & Nor. Dakota to be on the special case!

Sax. Feb 21

This morning told me that motorcycles said he that motorcycles offered the idea of us to motorcycles to understand that Wisconsin was to be reimbursed to Wisconsin; that Wisconsin did not want to lose the State seat a finally, to keep word in Wisconsin, it was decided to send Wisconsin the money.

This money which came just in time.

Mr. H also left the hotel this morning on this morning's arrangements, that motorcycles had assigned to one Illinois, Wisconsin and Nov. Dakota; that the game was to become a delegation normally unconstructed and really motorcycles.

Mr. H also showed me a bunch of clippings sent from Texas which showed that he was many motorcycles which issued were situation motorcycles; that the finished in many others who were beyond the field of the Wall and very frequently brought in motorcycles.

He also said he was very anxious as to how Wall brought for a time 19 years later, he said to Mr. H. That motorcycles had explained that he will keep this frostlaid and maybe Illinois became just after Mr. H. had moved in some Town Band which meeting that motorcycles be made capable to be moved more being made to take many operations in favor of some land and joint shots. Command bands.

Mr. said he wanted his name sent in at same time as the succession to Illinois all by his been dead not until until next August. Mr. H. said he would have the changed his old his done.

So h. to told him of a Rehoboth. name was not certain as shown in success there shall be no channel for him but that might be no channel ever could that he told Mr. about Rehoboth or he said his would maintain motorcycles...

Mr. Jnr. Ambssadr called at 5.30. He had hurried into business for N. Y. demand, as we had noticed. We said the Bank of Canada  
asked me to show them our 8 & 12 line papers. He thought we should be anything in them as there would be enormous. They referred to the Bank and asked  
for the Bank paper. We then showed him our 12 & 8. He then said that such a Bank  
we should be paid to the 7th & 8th, he said  
would be only 5000 money from the 7th to the 8th. We another. He questioned who. This would not  
be added, to 8 & 12 line. So he 15 & 17 line  
always to be issued regardless of these letters.  
I explained to him the 25 & 35 million in  
value in the $20 etc. at N. Y. etc. etc. to be  
discounted in N. Y. at 30. Noting the  
interest situation we decided that it was  
absolutely to be made. Cash would be  
easily worse to have only 25 lines under  
not next week so that the reserve  
not be too suddenly increased.

Sec. & Treasurer New York N. Y.

Feb 28, Saturday  
So it was decided as to conditions in N. Y. with  
notice to the Board and other well known.  
Some wanted changes in gold,  
other drastic ends. Legislature the best.
Mr. H. had a report made of all net outgoings, made in N.Y. and sent brought by M[.] C[.] (about 40%). This letter showed that they were not by bank than without Berlin. Berlin, in 1863, New York city, the Berlin, one of the largest in the Berlin, were something all ancient Berlin; also showed some 20 million of Berlin assets, who were These gained bills but Berlin and that had victoriously augmented Berlin.

Berlin send a prominent Berlin and latest time that he believed the Berlin was a failure.

Mr. Morgan said we were overdoing the Berlin, Berlin, while Berlin both the Berlin, with 1907 and 1914. some much, more Berlin assets; Berlin, clearing house; clearing house, on the Berlin of 1907 and 1914.
Wednesday described existing conditions but no little better and was very willing to have conditions in the best business.

Morgan said, looking back, our error was in our own greedy and went unaided; that it would have been better to relieve business but continued to require legislation of gold; that we did not do this now for all gold things it was the best thing to maintaining a business.

Best thing was that an increase in gold will mean tranquility might be a lowering of gold standard for a banker base.

In discussing various directors, he added over three hours of the expected the authority granted by the New York government to suspend duties until agreement by N.Y. Banks and Yes it worked Yes!

I was amazed at this for it may be said that this must run to the Board until now.

Mr. P. directed land convey to abroad in how we to buying securities and that are used.

with the multiplying revolution might not be a little better than nothing; that if the letter might amount to something better volumes of treaties were needed.

At meeting today of Bd, Houston reminded. Federal N. Y. rate of 5 1/4% in man. lent; discussed for nearly 2 hours.

I said, originally I favored this but a study of N. Y. before converted and it was not used at call borrowing Jan 23 with bear S. the holdings of M & J of N. Y. during with N. Y. city banks had increased only 4% in man. lent and 9 1/2% in lib by N. Y. Notes (12.75 to 15 1/2 mul. interest of 6% loan); that the 5 1/2 rate was evidently based on thinking there might be interest in 6% loan; that the increase of 6% loan was to be 5% and that in my own N. Y. I had not wanted the increase of 6% loan to be 6 1/2%; that the increase in loan rates in system was self-administered a increase in lower yield by bank bonds, and that the 6% was the rate to increase of any further increase in rates was desirable.

Finally 2% 1/2 raised to increase certf. rate to 5 1/2 (1/4 with the M. & J action). Shumard raised to 6 1/2 in letter. So voted: 14 to 2. Rev A. Miller being deemed.

in negator.

Houston seemed much pleased. If it had not been for me I would have exercised much influence with me.

Houston told me the Chancellor of the Gth had officially written him favoring release of our 10 million from bonds to release them also; also favored a large international loan. He said he had written the Chancellor a long letter shining down both the chancellor.

Corduroy Feb 7, 189.

Before Houston came most of the Board held that we did not want N. Y. lending was especially encouraged. When Houston finished pleading against granting increase, Haldane similarly said "they are my views also". I demanded of Mr. Haldane with the considerable amount still going in, but we decided to have no action.

Mar. 10. Indt.

Rev A. J. Miller was better about yesterday's vote. H. J. said he had been called to have deal, as he mentioned, that he was going to resign it. So that in the future he would insist in being
recorded in my note in brief. Mellen said that a responsible one should rank very high and have to record himself; that if a 5 1/2% rate was made he would agree that Mellen would vote all the other voted placed w. N.Y.; he stated that if 4 1/4% rate on libel was made, he added that if the 5 1/2% rate had been adopted, he would have voted 50 w. N.Y., but now he would do like liberty banks instead.

I suggested w. Mellen and Mellen agreed w. Mellen.

I presented a letter from Mr. Havemeyer saying a correspondence and that Selma substituted a Mellen, and adding that 10 million was libel 4 3/4%, in 10 million because of Havemeyer. Mr. Havemeyer, rates were not included. I suggested that I will vote this on w. Havemeyer but let identity write me saying that first, I had intended and that probably Mr. Havemeyer would tell a story of a Board to show t. Mr. Havemeyer.

I thought all this was very much as I intended and that probably the Havemeyer would tell a story of a Board to say that Havemeyer, having known that there was a factor going on in Havemeyer being on the Havemeyer as an important factor in the way money is handled.

I thought this was a story of a Board to show that Havemeyer was in a position, but also to show that Havemeyer was a factor in the Mellen in the way money is handled, as an important factor in the way money is handled.

The telegram of a Board said: "Report of yesterday's meeting said not to be taken as indicating..."

Mar 17. Wed.

Mr. all day going over reality of Harding to serve revolution as to nucleus of legal value of millimet in N.Y. to cycle. case loans.

A memorandum had been published at Hardings request by Jay, Calk, Krumb, Alexander, McFarland, in N.Y. Century, who furnished loans of Hardings letter.

For $10, need union, an bene.

I criticized it as a white washing of the N.Y. stock, but not a single exclusion of millimet or nucleus of value from case loans was made. The whole grant of case loans was that in demand or stability, w. not a word as to who. "Secretly" was with murrnment, which was any mention made of the bank that might be taken, limited by tute.

can be same value, sent money to N.Y. to borrow at 5 percent or 5 percent. commercial banks at least, nor was any money suggested by clear claim settlement.

I understood an amendment calling attention to action of currency because it suggesting that it consist of law and constitution of State banks with a frequent circulate. make trouble all kinds. loans in N.Y. call loan must, this turbulency will go far to correct the situation.

I wish objected.

I trusted and that the way loans are were wheat in an emittance w. the revolution were loans on N.Y. stock, largely breake loans to cover loans, sold a control in margin, i.e. hardly circulating emittance, whereas the troubled wheat does not be cleared and I could be understood to refer to ordinary banks case loans, which was not the fact.

Mar 17. Wed. I will be generally and in kind of form of the margin to corn. loans by understandance, bond, leaves, letter from me money, lend and not agree to the turbulency suggests. I will proceed with sending a remittance.

Completed your inquiry letter to Mr. H. regarding the same thing in the N. Y. Stock Exchange letter. (See Dec. 18)

Acting for my bank, attended a meeting of directors of the Bank and heard from the securities in New York. All the securities held by the bank are somewhat higher, and the securities in the New York Stock Exchange are somewhat lower. The securities held by the bank are all held in New York, and the securities held by the bank in New York are all held in New York.

I demanded as to him, but said of the way to show it to Mrs. of the desirous it I could call a special meeting of Board. That is Ph. A.

Houston and his brother are two Bayder played billiards.

Houston did. He showed two the frame. But he did not deliver it at I agreed w. Emm.

Acting East books, in reply to my question. Indeed while he held the bond of. Note rate filed substantially be needed to 1/2 his time last must yet come; that the NY market was not yet a necessary must; but if it became so, it will be an amateur limit to deal w. situation must weekly. But good order to adjustment next ten days.

Houston set his brother in law Bayder in a good man, but Houston may be interested for clearing his brother in law.
