Sat. Sept. 12.

Mr Rubbin and his partner arrived last evening but left for Paris this afternoon both via
Havre. He lunched a dinner with the Cuban
and went to lunch at the Chester Club to
have dinner. Just before leaving I asked
him for some preserves. He said I tried
different methods and gave me a terracotta.

In the morning, I went to assemble. Returning I drove
out to Cotte d'Oré and left the Germans in
the morning by a Mr. Walter addressing the
Walter Neideich speech, which Harris
sent to me.

We lunched quietly at the Hotel and then
made some calls.

In the evening we went to a dinner given
by Institute Rubini to me. It was a family
dinner, the other dinner being for jaysdall
attached to the late W. of N. staff, to include a
missionary, and Mr. Sandum for Johnn
writer.

Mr Rubini told Berlnt that when he came to
the U.S. in 1917, the jaynsdall crew to
both sea, learning about the secret
apartment and tell the same as to Shantung, and he
believed the report until President Lincoln. He also
said that after he came an Ambassador in
1918, he had a talk with Tansing on the subject of a
very important business to China as a
financial source; that Tansing fully understood this,
but when he was appointed having soldier
and by Mr. Goring and Secretary a friend of
an American; that he went to whom and
shouted the two men to the help with
Tansing, but that Tansing denied any collect
at any such assurance; that he thereupon asked
to be relieved of the trust as Ambassador, as
he held the power again and have any interest
with him; that later the President of China wrote
due emotion fully about the matter and
wrote it to President Lincoln.

This latter was told by Lincoln,
so he told him we held that Tansing as long time
was a very wise man,-subterfuging from violation
and that it had affected the Tansing, as
was shown by his bond, which clearly
showed the delay, that Tansing.

I also told Tansing that I had
and that I thought he was influenced by
John W. Foster. I also told Tansing, which

was told me in November by the President to assume
the job. When called, in 1876, that Foster
had asked an announcement of this business company
should be relieved at the same time, and
that Foster was very indifferent when
until that he refused would not be combined
with; that Foster had asked an announcement
in his Chinese fast.

I told him we wanted to see the Navy
boat at the place of Mr. Sherman and to
said the Tansing would show it to me on
Monday.

SUNDAY, SEPTEMBER 13.

I wrote to Lincoln on telephone and send the two
or tickets to the cathedral which she would
keep at the hotel, but we had the two already
and two tickets.

At 5 P.M. we dined with Edith; she was
alone on his business. Mrs. Johnson
was doing out; he went over the writings
of letters of the Smith and she really
seemed informed. He explained to me
about Hendrik Pragmatics letters to the
about Anna, and she did not seem a
bit disturbed by them. She told me some
remarkable stories about their troubles with servants in wurde. She said she
would probably leave here a next

I called on F. Nelson in the, and made arrears for 3.30. He asked me both to leave the 20th. at 5.

He said me in a memorandum to leave a car in the 20th of Nat. 26th of Belgium. He said if I wished to see him personally he would be glad to arrange a meeting. He said he could not speak in behalf, so I said I would merely leave a card of my courtesy. I drove down and gave my card to a door keeper who asked me to leave a card in the front room. I told him I did not want to trouble him but only to bring my vessel. In a few minutes a gentleman came in - trembling his courtesy, who said the man asked him to say that he was going to an important conference - repeated extremely the courtesy and was met at my door, but would be delayed to see me at any time as I was not in the morning, as I explained that I was leaving early for England. The uncle was very acceptable and said he was in a count with the Relief debt come to Washington.
at 5 P.M. we went to a concert given by *Mr. Do." Monday.

Andrew was very bitter towards the admiral for not giving better terms to France. He said he was ashamed of our country's attitude in demanding frigate, at least of the two annuities. And he added in conversation the admiral to pay out and asked my opinion of it. I told him, without expressing any opinion on the matter, that it would certainly be regarded as a blow in the back of the admiral and that he should not tangle with it without full knowledge that it would be so regarded.

Feb 12. Monday.

Mr. W. A. Curtis in Boston 5 1/2. He said Banks and a number of brokers in Boston and New York had been in his office. The rate was 5 1/2 to 6% but that the Board had told him the rates must be maintained at 6; that such a move was absolutely necessary; that the banks were using the same rate to set money at other exchange houses. He then showed him how to purchase bills to the value of $250,000. He said the rate must be maintained at 6. He said Mr. W. A. Curtis would not maintain at 6. He said Mr. W. A. Curtis was not afraid of the reserve advances and might show a heavy balance in New York.

Feb 13. Tuesday.

In Wash. Missings said the Pile cannot run, de novo, we must proceed with caution and

with that we were to have a conference in New York. In New York, both the main channels were filled, but that the New York channels did not function well. I am satisfied that the S. is dominated by the N. and that the S. is in a position of an old enemy in the U.S. P. and therefore relatively stable. I am inclined to the same view and have an opinion of the stock situation in New York.

In every line there was a call for the Federal Reserve Board to act. He said the Board (federalists of a nature) had been in their hands. Mr. W. A. Curtis told him that I really considered him. He said he felt the U.S. would be more clear of this would count and that he trembled so great he could not understand it.

Mr. W. A. Curtis said they were working hard for the National; that their only fear was that the people would be interested in the Banks would go into the column and the likes less would run for the bank; that they knew nothing about banking and

at Board meeting twc. sheets of the meeting with N.Y. creation yesterday. He said we are opposed to increasing the 2.5% rate at the present time; that they were bringing direct action in the N.Y. banks to cut down short-term loans; that in 65 or the N.Y. banks were concerned their action was successful, and that the huddle was that the greater part of the money keyed in the banks through came from the mutual, mutual loans against N.Y. balances a direct loan; that many of the discount houses it might be well to lower rates, so, said just before the next N.Y. meeting and the a week later Cleveland & Platts; that this would came uncertainty in the next the, might just to decrease the great wave of speculation activity; that it would throw a heavy increased burden on N.Y. last and N.Y. and large part of that was being felt by the other banks.

Mr. James said if rates increased, Atlanta also would want to go up and the independent might shroud over the whole country. Defining the trend of calls, whether the other banks; that their stability, their other banks; that their stability were too high and would soon break down, since, but if such break followed a rate increase, one would see that the N.Y. had raised the barriers again as they said in 1920.

Platts said we would surely be attacked in having a 3/2% rate on the broader of speculation while from 3% carried 4%.

Mr. Stewart addressed the meeting. He said production was slowing increasing, with practically stagnation; that he saw evidence that stock speculation was being fed by N.Y. discounts; that there was absolutely no room for misreading the data on commercial relative, although the M rate was 1% below the summer, almost market rate; that direct action, on N.Y., would mean the situation of it could be obtained; that he was inclined to think that a 3/2% increase in M rate
would not trust in other marked rates.

Mr. said usually an increase under come

case at present would result in an increase of

the marked rates, which all agreed was

not wise, or desirable at present.

Mr. Ulric doubts that general marked rates

would change, it was well or necessary to

maintain rates in commercial paper, reductions

in order to check land and stock market

speculation.

Undoubtedly can. Rather reductions are to bring

of last bidding the stock market. Land, in the

first instance at least, direct action planned

for that to cause them to

obtain needed funds by calling in

speculative loans valued them by reductions

and to clear further loans on the stock

market.

called me Dr. Thurston. He said that situation was

unchanged & that at the meeting Mr. the

Board would again urge an increase; that

the rate at which they were buying bonds in

other market was rather than the demand

rate. I told him we are meeting later

Monday and that feeling - expected it to Platt.

That rate changes could be delayed a

while; that James of Boston meditated

Atlanta and demand an increased. We H

called and said if he at or it would be

meeting at 2 PM & I said I would.
I then called on Mr. Turnbull. He said there was no direct action on the matter, and did not want to make any statement now, except that the higher interest rate should not now be increased. He asked to be called in the morning and he said he would immediately after calling on Mr. Sting, which he was about to do.

Went to Boston, attended stockholders meeting of WBS of Boston and made an address. Attended stockholders meeting at 2:30. End of new rate discussion. The directors stated that all rates should be increased and were not inclined to lower rates or issue of another of concern to the market. Finally the Board should a resolution preserving an opinion, but nearly to high their current charged, and resolution not to be sent to the Board.

End, Dec. 22

Scholar address on Dec. 10 and 10th, in the breakfast room, Congregational church.

End, Dec. 27

Estimate when WBS of Boston should be increased at a rate of 0.5 to 1.0 per cent. Afford much encouragement to reduce the overdraft by selling securities in a clear loan market; loans large sums were being demanded on each in N.Y. at Boston loan; that loan rose 7% and no ended over their concern of the lending banks and not-specific concern from the WBS; that lending to large borrowers as the lending banks would not continue borrow from the WBS; that lending to large borrowers now, increase lead rates as the large banks do, the bond from N.Y., loans at lower rates.

Mr. Sting finally said he thought it would be well for Boston to make a statement in support of Parke & Cleveland; that some increases should be made just before the N.Y. directors meeting and it would have a sobering effect on the
market would bear an increase by N.Y. and
this effect will be continuous until Phil
Cleveland last increased.

A discussion arose over direct action which
Miler said was a term invented by Sec
Pumpingfield. Mr. S. said it could not succeed
unless the Fed felt powerful enough to instill fear
in any firm tampering in Wall St. and that
it should be able to set those securities down,
and institute that it would mean setting
credit code would be destinations. Mr. S. said
that something must be done on those securities
in commodities was tending.

Jensen agreed as to N.Y. Cleveland and
not did Credit Cunningham. It was voted
that two C. for S. and two by moving the
setting of this Board.

\[\text{and, Dec. 14}\]

Mr. S. told Plank & myself that he felt uneasy
the lack of certainty and action of a firm
member of the Board (Halle & James
especially) \& that to members of the Fed
for C. to ask shows to come in and he
felt that their determination was right.

The Fed would be severely critical

He added that he had received instructions
to deplore, denounce etc. (meaning bluster) and
that members felt they should decline them.

\[\text{and, Dec. Nov 6.}\]

Meeting called to consider Boston interest in
rate following our understanding at meeting
we. Then that come last week.

Jensen moved to raise Boston business from this
date where it was voted some time ago.

Suddenly Cunningham read a resolution to effect
that the Fed would address a note of 5% on N.Y. to hear object immediately. In
inquiring he stated we meant to have the Fed
set in their rates at once and at our sufficiently
the resolution was slightly changed to
make it clear.

He tried to explain why the wanted that
but seemed very confused saying N.Y.
was the place to begin measures but he
did not seem very clear as to whether
there meant to my measures.

Miller said an 8% increase at N.Y. He
el owed Cleveland and increase at N.Y. He
decidedly favored this latter and would
vote for Cunningham resolution. He said there was too much credit in the country & that N.Y. would be forced to mortgage. This armed as such an act would just sub election rate and he said No. He also admitted to not that election rate was high enough.

James reminded Curtis that the whole Board at the time met at Buffalo, was in favor of the Bond. Phil. Cleveland, however, disclaimed that all the he admitted he had said nothing to indicate his objection. Curtis said if the N.Y. vote was voted down then he would vote for the Bond. Phil. Cleveland.

Curtis stated Miller believes the N.Y. vote will be lost and is making a gesture!

In vote the N.Y. resolution was defeated. Cunningham & Miller alone voting and Y. Gov. James voted No.

An motion of James the Bond vote was taken off the table and abjured Cunningham alone voting against it. Discussion followed on to what the meeting should become absolute.

James said and we should follow the resolution of the N.Y. which is absolute at close of business today. So C said absolute was absolute at close of year Monday and threatened to change his vote if this were not done.

Finally we decided to get back to N.Y. We were in N.Y. But thought the Bond be present when new vote might be held and finally voted absolute at close or business Monday.

Miller at first objected and made a salient speech intimating that the Bond might be done at had better which started into James.

So C said nothing as to calls for the money. As we had been directed to inform Miller that assumed this had been done.

at N.Y.

So being late we then met later the vote was passed as vote No. See Miller who absolved.

called on Mrs. Chancellor Hall.
called on Delicate Meyer at Chaplain's Hotel at 6 P.M. She made me stay to dinner to meet Richard True Library.

Alony said, Mrs. Meyer was very liberal on the debt settlements that he did make an agreement with Chaplain and the Chancellor in this town, and not agree that she put more time on the House than the note; that the Chancellor made a large bill; that I, Mellen, Stanley & Bischoff were the usual settlement about the Chancellor, but he did not agree.

Morgan Meyer said she knew her husband was engaged to Ed Rubbin; that it was scandalous for Rubbin to go abroad to see her at home and visit her at Paris. I said I was at home only 1 day, and did not visit her at Paris but went straight to Chelmsford to sail train. She said she Rubbin send she was engaged to Rubbin when she met the President and merely wrote Rubbin that she was so engaged; that it was

scandalous for her to leave Rubbin on the

physician; that she and New Stover were going into marriage with Mr. Bethell. Chaplain &

Stover set he could almost bear her letter.

in Branch suggested Conning, who had asked me
in the train, when suddenly Harry White came and
asked to see me; that he was between a
Huddle attack in him and said he had already
sent the word that Wood and Huddle were in
Branch. She said Nancy had no idea that
Wood was engaged; that Nancy had a
real care of Wood.

Monday, Nov 16,

called me to Justice, the boy and asked me to
come over to Coombs, without mentioning
Huddle young. He said Coombs, in the
head of the box, was a man of
great abilities and that a client called
his absolute faith in him.

I wrote him to Wood and he wrote
her a most grateful letter, also Inquiry
words on business of the manager instead.

went up to him, sat with me and said he had
got explained to Leavitt that he would not
break hard to write the letter. He told me formally
there was many things to the contrary and after
writing on in the slate book.

I cautiously referred to Leavitt and said
that at first I knew the house next to that
and went in to explain about objeet in
the absence of a job. In. agent to be to Chicago
in 1919. He said John and Leavitt came to Chicago & the slate book did not

next time & showed him the debate
to this fact following the later case
Leavitt, stating that Leavitt had agreed
to the absente; that Leavitt
was then abroad (1919); that he located
his Leavitt diary of habits, but nothing
rehears in the alleged date of the
later w. Leavitt; that he called Leavitt
who said he had no recollection of any
such talk, but that anyway conditions
had now radically changed.

Long said his letter claimed troubled
him it cold believe he things Leavitt
must have said what Leavitt alleged.
Long also said that Leavitt was in
vain in stating that he was a friend of
his secret trustee abroad in 1919;
that Leavitt knew that Leavitt told
Leavitt of this in May 1919 at a
secret conference at the Colotti House;
that he did not know whether Leavitt
had broken a nut.

But with Long Leavitt had told him
he did know of break and that he had

Randolph called me out about 4 P.M. to say that the ballot had died early in the morning, that they were going toußlengthen the term and that the Senate would be in Session.

I at once wrote a note and handed it to the Plattsburg street cars, it was Randolph last only for a summer.

I then telegraphed Berne at Albany.

Platt moved that it was agreed to renew, which was agreed to.

Platt offered as a substitute a resolution that for a period of time after the Senate as of Nov. 2, but decide an immediate meeting of the war loan commission to consider whether and under what conditions the war loan could be a change in the laws of 1917. The war was voted, all voting for, except Platt.

Platt moved that a substitute of May 1925 be made and amended to meet the war. The Senate then voted unanimously.

Harold Harb wrote me that the vote to be held at 9:30 P.M. was voted.

Meeting W. C. W. Council.

Monday, Dec.
Meeting with W. C. W. Council.
Accord of Board meeting calling for a meeting
read. After vote read 204 was called when
by the E. to check on the resolution & have
said 204 introduced it. E. said it was
a continuance between & Miller & Potts
union, & Miller knowing said at the meeting
that they should be a call of 1st sec.
of at least 100 million, as credit was
more valuable & the board an even of
maturity. He had hoped that the
38 million 1st sec. maturity 30 to
allowed to run off.
A Miller questioned was the slight as to
100 million, & said his slight could be
only 50.
I went in reading whole report
of which showed Miller view as to 100 m.
and the slight as to 50.
If you not wanted said, allowed to check
the Board opinion without losing the
end, & 30's slight was accepted
immediately. Then said it was wise to hold
the 38 million and reduce the 30
on the sale of 50 million with
our little effect now but might have great
effect to sell after 1st of the year when
large liquidation is expected.

Mr. S. said we must face the same squarely.
the demand of 1st & Miller is deflation
will + whenever. He then went over the
evidence of the country, showed that
the stocks chocolate was smaller control.
that stocks were not less from the
1913. We are devil; that banknote was
 Nursery  & Miller fully supported.
He wanted not that European rate
was not low but really were high;
that an index in discount rate could
in the only way to bring about the
deflation 1st Miller wanted, and that
such an increase would be followed
by an increase in European rates; that
it might result in bringing more gold
into the country & further instability
at Britain, and in costly uncertainty. Mr. G.
Mr. S. said our direction were a must
against advance. Rate now, allow of
because in time they might have to
put their info, but it is of any, must
soon go up to 5 1/2, and that our rate and
very much feeling should now be
changed. The other members of the
the Bank Committee agreed with Dr. L.

Dr. S. also pointed out that the Fed had
allowed a month to declare unless
lending rate the highest came without,
and that means the C.C. of Texas. But
the meeting the first $38 million could be
reduced.

and

Board voted to accept plan of Dr. S.

On the board: They both said they should only personally, but I have my doubts.

For C. steep of the latter office of C. W. He drew to Perum.

I told the 1st that we cleared them to see the man that in Perum place instructions which would in substance imply the man's views as to duties of Chairman.

C. Miller asked for check receipt at Perum's request; said he considered as one of the oldest Chairman in the system, that he continued as C. Calhoun had practically submitted.

The statement of Miller & James, really in effect by a request, without any authority from the 1st, is to my mind extraordinary, and I shall treat in the record my protest.

So Rubin and C. to be examined again so to check up the examiner's examination. C. was thing to examine trouble with the gall bladder.

Mr. Platt objected to changing this area,

Mr. E., who was the voice of the R.Y. bankers and voted against, directly told S. to buy 15 to 16 million of the securities, he said, 16 for N.Y. Banks.

Mr. Kemper made no comment on this.

Prior to this meeting there was considerable discussion of whether or not the current discounts would be reduced. It was believed that this was not a matter that would reflect upon the Reserve Bank, but that the Bank should make no reply to it.

After the meeting with Mr. E., Mr. Kemper said that Kollander was acting with Osborn and was trying to embrace the Fed; that he, Kemper, was not familiar with the situation at the time and was very indifferent about it. He said that Kemper was very much interested in the Bank; that Kollander was very much interested in the Bank also and asked Mr. E. when the loan extended, if Mr. E. heard about it before.

Kollander also thanked Kollander in most kind to the Board.

from the Board and told me a little needle
and told for 1 1/2 hours.

Told us that unemployment was still bad
in England. It's a little unadvised; that there
were 1,200,000 out of work; that normally,
however, there always had been 50,000
unemployed; that unemployment was in
only 2% of those who were out of work were not yet
unemployed; that of course about 1200 he mean.

He said they was a grand sale of industrious
merchandize, and felt other good before we are:

1. The successful maintenance of the
gold standard at rates not just 5% when everyone anticipated 7%.
2. The German treaty.
3. The settlement of the New & So. of Ireland
boundary line.

In the latter trade, the coal situation was
bad.

He said France lost its oil; only a little
more the gold standard remained, but that they must fall back.
He did not favor a controlled gold standard, but it was just as much for fear of war, as for the sake of the policy that would be made more flexible. As explained fully the Belgian situation, caused entirely by Belgian banking over the coinage issue by the during the occupation of Belgium.

He did not favor a controlled gold standard, but it was just as much for fear of war, as for the sake of the policy that would be made more flexible.

1926

Went to White House. Mr. C. was very ejected and Mr. C. expressed his immense respect to Senators.

Drummond was told me one day last week at luncheon at the White House that he had the news of the report on the time of any newspaper men, that he, that President Wilson knew more of what the facts were than any other President; that this was only today. He had the car to the ground, hooted what was

wanted and then proceeded to do it; he also told them that he believed that life was getting ready to accept

him. The new evidence of a corner of public opinion was that, that he was about to fight that in order to do it in the view of the war he had laid his money on the very bread.

The White House, Thursday, Dec. 31, 1925,

announced that the Army Board, before which was asked the court, had returned to the

chief judge that the channel of such a court should be altered in order to accommodate future development of cases (in such cases, the hearing and finding by Board).

Leo C. left here that in the morning of the 31st Miller came with his own while Mr. Norman was there and had been called with him. Miller very severely about the necessity of his duties of YGB and that Mr. Norman told them, too. Very much deceived and amazed at what he said. Miller evidently got the few furniture.
I was also told that the Board had written to another letter stating almost exactly the same as the Board over N.Y. stated recently when we considered the ability of the President's first letter. So I said it was needed to be sure that some of the Board had endorsed the information to the President and to believe firmly decided to remove and that several endorsed the President second letter. As this is so I am dejectedly induced.

Jan 5. Tuesday. I wrote to Mr. Allen that I came and to consider all open matters as matters of the week. This was in fact been done since Dec. 31. 1922.

Mr. Marsh wrote in an memorandum to all allowing members because to give their note to Mardon for advances, for 20 to 50 days when secured by eligible.

Vanderbilt (but not by bank banks).

The Board recommended by the President and addressed by the President of the Board to us to get control in our hands.

The Board, it was stated was used but used by the large banks, but only by small banks. The small banks could borrow from their correspondent bankers at 120% of collateral, at this moment their usual source of credit. After Mardon, but they could only hold this particular credit have, and if a note been taken to be secured by it would have been used to come at and mean time they could not get their money in bank if they could. In this if it could be a direct note taken at 120% of eligible back as collateral. In other words, if any one note would be taken back by the other collateral their procedure was better.

Vanderbilt was removed from all amendment.

Some days ago I asked Mr. Brown and the said the men had received the check from the Forest Board dated Dec. 16.25 I called at the forest office and asked if it ever had been sent. The Au. Sec. said it was sent, but it.

On Jan. 20, James Brown Scott wrote me:

"I am glad to know that the Board has received the enclosed check from the forest in regard to the resolution of the Board of Forest which I issued in December of receiving the check in behalf of the forest fire fund. I am,

always sincerely yours

James Brown Scott.

Reading this casually one would assume that the resolution had been duly sent just after its passage — Dec. 16.25 and that the check was only sent after date Jan 20. 1926, acknowledged it, and the Scott sent it on Jan. 19. 1926!

This clearly shows Scott's confusion. Must be within 1000 miles. Must not have been on my table last night.
I believe he never would have left Scotland.

My dearest mother, if I were back on earth I would write to you,

I wanted to send you a Christmas message from the ship, but I could not put it through.

But I did get a Christmas message through; you sent it by cable.

Father and mother, I hate telling you this, and how I love you, how much I have seen. I am not sure when I can come back.

The father, dear, know much there is for which I thank you; much that you gave me while I was there. I have carried with me ever since.

I am smiling again at some things. I think I am just between two worlds and the father. I don't understand what it is.

And I want to thank you for what you have done since I came over.

Our times have just got right, always.

And I want to tell you both - even if I do not get messages to your obituary in words - that I am with you and nothing to you. My dear father, quietly you will know that I am celebrating to you. My love to you, dear mother, New Year - may it bring you gladness, blessing the knowledge that we are still living together, and always. Then in your devoted home, always to you.

Among other things she said:

- "During Thanksgiving week, I feel like all the doors and Anna were trying to get a message to you. I left it but could not get it down in words, after I am sure Anna was near and several times, trying to send you something about Thanksgiving. I was too much occupied to get it. 

- Later when I was quiet, I got a message in my mind from some," said, "Love to my parents." Scattered, and just got the same, so I sent my cable, then not right when fact and I went.
at all, I laid down quietly and saw Alva come into the room and sit down by me, immediately giving me the message we sent you. She wanted to see you a week later and we would try but we got our travel应用 to you.....

I knew Alva came that night.

May 10. Last.

As 8 P.M., by request, we went into the backyard room to attend a service by the Ballantyne. There were several B.C. H.H. into the backyard, the Romney and his friends.

We entered the ballroom in a modest hall, to the sound of undulating music, and view of brilliant lights.

We sat down in a circle, to the sound of dimmest music, the 5. 8. 12. 8. 12. the walls, to an electric lamp which was under our control. Next by him was a gramophone, all lights were extinguished and the stands and gramophone which played a selection by Beethoven very low music.

We lit our cigarettes and began to chat.

In the center of the circle was a large, circular, candle, which belonged to him, and to his yard, but his yard had no candle, a lamp which played some music in the darkness. The was soldable & he H told us away with them.

After a short time a voice almost through the rafters came, saying: Good evening, people! We were told that

was the voice of Mr. Brand, a Scotchman, who lived in the Co. Then Dr. Brand's fullest address to them in a low voice. He asked for silence, among other things, which instrument it was. He led us to the yard and the flood - a thermometer. When we walked around we could not see them.

Then a blackboard, on which was placed the yard and the yard asked him to take some Annas for us and tell each other.

Shortly after we said some things and wanted to talk to us.

The flood seemed to come and no one was and a very thin, sound voice said the Annas. Then back to some conversation in the yard, so that we could not understand it, we told the three we loved God, and were prepared to enter the world. She said she was to find us on the land of the Indian to find a lunch with us. God said she always felt she was near us and with us and that that feeling was in her. She said she knew best about it.

Mr. Brand then said any one could find each other. He said to be there.
and I let him off. He had don't you remember the hugest run to drive the cows of teams, to which she said yes. Bette went hungry to James Robert but the record was not mentioned. Then were almost all the said men, saying she was tired and was not.

When some one - or think to Bernet, said James is tired and wishes to check to you. Then James began to check in a low voice - Bernet shushed the recognized the voice, I did not. He asked me to send his love to the west and to his love to the west and en was well. He asked him of any one from 1865 had just were actually and to send Farrell (mention to be kind).

He to Farrell said - How do you determine do you know me? James said yes and she do know! (By James' words and being mentioned to others is not as strange as it may at first seem.)

Then a young girl called Henry shotgun for a moment in two.

Then another beloved, poisonous, very loud, loud - Bernet asked them to bring me the shotgun, and he wanted me.

Then Bernet said James was there again, and soon they began to check through the hundred on a slightly stronger, and that very weak voice, letting me know that she was to find in France with me.

Bernet asked two of the underlined line reading her every night at 6. Old and she said she did and thought she was with me every night now at 6.

Both of the did not tell and continued her to write. No, her child at 186. She said she did and that she tried to answer her.

She then said to her happening, "Father said talking to me at all! I of believed that I had great difficulty in every tree, and asked her if she had any respect to me, or if she wanted me to carry out. She wished me at once and we could not work out a word.

A, asked her if she wanted both the write again - and she said something with this word "enables" in it.

She then said she was tired and send good report.

Each time after this story she gave a new

The Board was contemplating whether the new terminus could be used in the state of change operations.

The letter was the Board declined

Cott said the Board was obligated to a letter to the Council, asking it advised on to what extent the Board could continue in respect to excessive use of the credit ultimately used from the call loan market, but that in the event the letter was not sent, as in 86 it was stated that the Board in any manner attempt to the development of a procedure which would involve all other eliminations the source of the credit facilities, that that seemed to signify that the Board determined that it would bar any further use of the credit facilities for a commercial bank, which had been interested in the call loan market and

perhaps even that it would, Cott said that there was very serious question of law; that in fact, the Board was not solely commercial lender, but could loan a credit to the telephone, that unless a debtor was created against any bond over the bond must reach others in the MTs against any bond loan, that it might be held that a MTs could redeem the any letter not to terminate unless for any reason it was a debtor, that if it reduced the source would become different subject to the bank to heavy services, and that the question should be carefully considered what caused the Board and by way of effect as to a withdrawal to express content with each call loan obligations, but that had in this form it might be considered as a determination of the Board, in advance of the Council's consideration, to notify dealing the call loan market through the source of refusing discounts, Cott had suggested changes in 86 and Cunningham suggested letting out

"The use of Federal Reserve Credit for speculative or unprofitable purposes is prohibited by Executive Resolution of the Act. It is clear, therefore, that no bank has a tender stake in an applicant for Reserves beyond accommodation, which is subordinating credit for speculative uses. Mar. 25. Wednesday. Ordinary business

Two strong letters of D. Y. Hunter; and the bank was not willing to continue the war for Mekk - 102 million; that there were a number of business and the country; that eu, such heavy burdennings there will be a tendency to build beginnings of European lines; that Blaken in European control land; that he felt change of a considerable nation in line. Ms. Mellett: that we ought to begin a way, structure to lend money, must; that the money was very tough, by adverse lines, industries burdennings for Mekk, and then just growth of ability of burdennings ended to conclusion; that reducing and ratio could really help them carry their term in Mekk, and not make them too much; that it was the amount (of all) of 50 million that Blaken should be given in case of emergency to save the country, by burying the war. And also not to exceed 50 million of burdennings in
addition to reimbursement of ten dollars to members.

The matter was discussed at length & Mr. Mott, naturally objected. 

Finally Mr. Barnes that laterI suggest a committee to:

"To develop the money market
conditions any need for doing so. In amount of $200m, in the sense of the
change in the limit amount in reserve to $200m, that no transactions should
occur after 6 p.m. without committee

Mr. Mott then indulged into account, seems to
consider this
"A moment of the

have a genuine business.

Cecil also thought and to declare that the Bank
wrote to five men and authority to declare
his 15 decisions and, on our account, to
Go million.

Cecil agreed to be declared that the work for
the general accomplished only after the Bank,
union was rejected.

But then wanted to ask his master to come
in. He then returned to bring the two
and left the meeting.

See Helen came on the morning. We see, read
announcer of yesterday meeting to the cloth and
came back. We see, then asked same to explain
yesterday's action. Cecil has briefly explained
on to the thing and the 15 other wars.

In the morning, Cecil said, I had been stated
at yesterday meeting by one member (many
shells) that he never could warrant to delegate
authority to the Board to issue a demand
amount of money in the market. Declared
and not able to think.

Cecil said the Bank is asked to put delegates
to come to only three cases — first, the
Bank now probably would declare in some
decade every endeavor shall, as thing
might be different in obtaining a
promise that we must put some
delegates to the Board — on general in the
field.

Cecil said to himself that money could
go into this when issued as a matter of
right, subject only to general rejection
of the Bank and that the Bank had been
understood to send any such resolution.

Cecil added that he bound on the
Mr. Lee had frequently given such directions to the Bank, that only 3 months after or since 6 December to replace the loan of 15 million of dollars, in which it was assumed to have been made in a very emergency, would result in an interesting study, etc., if we were taken now.

Cunningham said he did not object to delegating authority to the Bank generally but that he thought no general emergency existed warranting it.

Platt held the same view.

Lee had recently said the matter depended on Mr. J. and the fiver, and advised no emergency existed so warranting it. He did not consider the statements of the fiver stated yesterday that he would never agree to any delegation of authority to substitute any amount of money on the note, as it knew £2,000,000 was sent out that he had to agree among the Bank, etc., in 3 months or so.

Mr. Lee said the Bank had not been called upon to make the whole trouble in N. Y. and that the Bank's current bankers were loaded with new issues of securities, etc., that not it was placed.

Lee stated who the messenger was (Mr. Horn) but Lee had declined to just the source of his information.

Lee said that the Bank must be instructed by Mr. Horn from a source who had declined to reveal.

Lee said that there was undoubtedly a rumor in the Bank, that new and old very near whether it was well not existing means; that it held the feeling of distinctly looking towards more liquid with be of great advantage at this present time.

James B. received the letters of yesterday, which were received.

Muller were very much disturbed at.

Mon 29th. S.h.

At a meeting in the hotel restaurant, Muller brought up a resolution in subject of raising of certain letter limits. The resolution was proposed before the council on Dec. 20, 1923, a day or two later, objected to by Connubil, who said the original resolution of Mar. 24, 1923, must not be revised as the demand of the other limit limits, but that the council was object to amending it. Council accordingly introduced the following:

"Whereas on Dec. 25th the following resolution was introduced:

That in the event of the failure of the other limit limits,

Connubil, by vote of the Council, in order to be held in session on Dec. 25th. Muller also called and

Muller said that the council had decided to reduce the limit limits of the Reserve to central bank money balances. Muller also called the Resolution of the Reserve in April 1923, which did not limit to regulate the limit limits, and it is continued to believe the case in even when the said (see p. 131) that the Reserve had never issued a Regulation on other limit limit balances.

Muller's panel said if there were any doubt of this matter, we should go to
,... empire, etc., until quietly put to rest.

Mr. Butler set the stage for the event by asking whether or not the course of events and conditions would be the same as in the past. He said that Mr. Wilson had told him that the course of events would be similar to the past, and that Mr. Wilson had indicated that the situation would be similar to the past, and that the situation would be similar to the past.

Mr. Wilson, however, indicated that the situation would be somewhat different from the past.

Mr. Butler also said that he had visited a school containing what he thought would be important issues, but that the discussion was not very important to the school's authority, and that the discussion developed that Mr. Wilson's was absolutely wrong; that Rebecca was not willing; that the local distribution was at the school, and that Mr. Wilson, however, that all of the "room service" of the falling out of that "mischief".

He also added that he knew of the course taken by him afterwards that he did not agree with Mr. Wilson, but that he had voted the same. He said that he had a way of summarizing discreet within the time.

Sir Maurice has called. He said that the State had met in a council.

He had been concerned that the word could be an important consideration of the State, but that the present was the least known to move, and that the word must be quoted accurately; that later he would be glad to answer questions on the same understanding.

Dear Mr. H.

I saw the President yesterday and had a pleasant interview with him.

He first said that the bill was out way, "how is your health." I replied that I had no reason to believe that your health was at all unbalanced, and that I had seen you only a day or so before, any improvement that your health was not

and wished it and, I suggested, to the best that you had in hand have been, even a large degree of retirement the result because of the domestic situation which had threatened you. I also told him that had, there was very serious that you should be admitted, at all. He pressed on the eas and said, "is the center from our view?", exhibiting a decidedly serious interest.

I told him that they certainly were, because I had a conversation with him about you only a few days before.

this morning I suggested to him that he had better be, the President just as soon as possible, and he said that he would.

Received letter from Mrs. in text as follows:

"Dear Mr. Wilson,

I am anxious to bring to your attention a matter of great importance that concerns the future of our country. I have been closely following the events in Europe and feel that we must take action immediately to prevent a war. The situation is critical, and I urge you to act decisively to ensure peace and prosperity for all.

Sincerely yours,
