Nov. 25, 33 Sat.

Deposited the two brooches given us
by Sophie Smith, in cash box in Nat.
Trust Bank.

Wrote Selie suggesting insurance.

Visited in P.M. look up gold standard
with Ballantine and after some
not isolated change we agreed
upon final draft of Order for
Remittance to him and also an
interview for him to give out.

Bryson was also present.

The draft contained my suggestion
made by cash - see last page
and Sec. 6a - 18 1/2% U.S. in

gold standard, it reflected the
gold bullion standard, it provided
that they are entitled to gold in
a contract and yet it is to
be demanded it, but need not
be taken at once.

All above were discussed by
myself and they had to decide
Ballantine covered me up.

This was the most interesting

document was issued in rather
recommended by my Board and
and believe will be of great
historical importance.

The Secretary - Lincoln - and Bullentin
have accepted it, and I think
Roosevelt will greatly appreciate it.

Mon 26. Sunday

Some days ago Roosevelt objected to
Hullin, the member of the Nat Com
for Nebraska, a place in US circuit
court of appeals. Hullin has just
declined it. There was a shocking
objection! It tried to turn the judiciary
into practical politics.

Finished in New / Hegemen

Mon 27. Sunday

Conference See Woods & Ad

See Woods says I needed inputs:

1. See d) Protons death.

Add other "Cullin" reported as.

Answer

Has clearly wants to head and call
debate currency in business.

2.

Still out 2/10 after 10th.

Long discussion as to this. Bullentin
says nearly as many are merely technical
boundary of gold & that President will
have no legal authority to prevent
a complete reorganizing its obligations under
a gold contract.

But would not, if 2/10 strikes out
the gold will be held not very
gold in its obligation of devalued.
See to did not seem to know.

But only as a matter of policy,
whether the law - the fact that
not say to it - then said they were
obligations in gold. And said the law
will they are obligations in gold.

Point also raised that if gold currency
on the gold & later devalued gold
currency, it would devalue gold
holders of an increase in their
in value of their gold unless they
would have had and they held
the gold.

Finally agreed that Bullentin
should consult with Atty General

as to legal wants involve
 Ballentine fought both individuals regarding,
 See Woods seemed to agree with Ballentine
 but said President R. sent - e/ must go out

Evidently the M. B. D. G. and the D. G.
 campaign have gone into hands of
 one Bell and of See of Mass. and have
 succeeded in truthfully in the ten classes
 of work stated!

Allen sent to call on the ten monthly -
 plan may have been very well
 in reality not to take see of
 money & c. the money has been sent to
 Roosevelt's sundries!

Not been to e/ in taken out Roosevelt
 were direct Woods not to pay
 out gold in that obligation, held
 at home or abroad, and that
 but credit abroad was to
 destroy.

Arthur launched in, then Meyer to meet him
 Woodin. He then asked Arthur to remain over
 and then told her how troubled she
 and her Meyer felt; that he felt the the
 had not been fairly consulted about
 the recent new legislation. She was very
 bitter in Miller & her Miller. She said
 to Miller wanted to be President of the
 Board; that every one knew how people
 being Miller was; that House treated
 and her taken down and Roosevelt's
 substituted; that Miller frequently
 called on her Meyer but at the end
 of long conversation, he could not
 tell what Miller was driving at.

Mr. Woodin called on us at 10:15
 Adams at 5 P.M.

Monday, Tuesday

Arthur received nice long letter
 from Soluble Board on circulation
 subject yesterday Sunday. Mar. 26

Round in P.M. heard Bullentin who presented a new form of the gold rule, claiming 2/3 but leaving power in Sec. 2 to raise price covering legitimate export transactions. But said he would not object to

But said that under new draft the President could not use the gold standard internationally, so by voting to raise price of the new gold standard internationally and, he thought, violated the obligation of domestic contracts payable

But Bullentin yesterday that the President could not prevent a large accumulation of gold to carry out a sterling gold contract. Bullentin then drew up a statement whereby he objected that the Board in asking the change did so in understanding that it did not affect gold in international trade.

Report in PM heard Bullentin who presented a new form of the gold note, eliminating 2) but leaving power in Sec. to issue further covering legitimate of gold transactions. But said he would not object to

then provided an announcement be made that the Gov would not interfere with the gold standard in international trade.

But said that under new draft the President could not see the gold standard internationally by voting to issue legislation; that the terms of the new order did not see off the gold standard internally and, he thought, violated the obligation of domestic contracts payable in gold.

Bullentin said the Sec. Tre. did not object to the plan.

But said understood then as Sec. Tre. told Bullentin yesterday that the President could not prevent a change accumulating gold to carry out a specific gold contract.

But said drew up a statement regarding in effect that the Board in making the change did so in understanding that it did not affect gold in international trade.

The text of the new draft (c) is:

"Red can and bullet released for legitimate transactions (not involving bonding) including gold can and bullet purchased on deposit or held pending action in administrative proceedings. Release is in full and final discharge on a receipted basis. Fund is for central bank in the Bank of International Settlements."

On studying the text back that it leaves the Sec of Treasury free to make decisions for the building and/or extent of gold in any legitimate transaction not involving bonding whether domestic or foreign.

Board after discussion decided to have the original draft altered by Board, striking out (d) and slightly changing the rest.

Goldman reported that Ruggles told him that the House and the Senate no effort to return should be possible unless some arrangement was made with regard to stabilizing the Pound, and added

that some arrangement would be made shortly, evidently implying that the matter was under immediate consideration. Mr. A. J. and Mr. C. G.; that Ruggles said Bullentin was present.

CBS memo letter on Father Board dated Dec. 29.

Ernest & Norton, of 587 5th Ave. N.Y. writes CBS saying he had seen a photograph of an adult long legs in the Ruggles library, and asking how it differed from the Ruggles (Thompson) manuscript. Mr. Norton is a very prominent dealer in rare manuscripts. CBS replied in a long letter (See Sec. Sp.)

Thompson ✓

Board is now going to the Key to Mr. Chase as to stability of Empire 3 million subscription and 6 for 500 on the way to a higher allotment.

Monday. Dec 31

Bob brushed to record death
of gold order, when Bell
said the ally for + sat for the

Berta gave lunch to her + her husband
Abbot - went to her Peter for
seven minutes + her Carey; he came.

Two days ago her husband asked
Berta to lunch today. Berta replied she
was going a lunch + could not come. Her
husband replied she certainly should not
give up her lunch and lay fixed a
date for next week.

was written Sophie Boreel and sent
in a copy of Howell's adventure in
a sketchy way. He called me. Conf.

the library even if the President asked
for it, and that was could borrow

was used better as to advisability of
putting in a resolution asking Mr. Boreel as
if it was considering with the Boreel is
England the question of stabilizing the
British Pound.

Boreel doubted the advisability and
said that while he knew absolutely
nothing about it, it might turn out
that Roosevelt had asked the House to
enter into such negotiations, in connection
with the Cassin Boreel; that he
suspected that something was going
on and that one Boreel was not
being consulted - possibly because
his name was still in it.

The attached gives the genealogy of
Sophie Boreel

Mme. Boreel (nee Sarah Langdon)				
William Dead	Alfred Married Louise d'Ivoy	Sophie Dead	Sarah Dead	Robert Married Miss Brooke
	No children. Alfred is dead Mme. Boreel still living.			Sophie Boreel Father & mother both dead.

It needed 4 or 5 millions to back it
 then & almost all of its good collateral
 was tied by Missouri & N.F.C.

James said the bank was known
 to be rotten for 10 years.

See Woods said he very much
 feared another banking collapse
 for the fact that so many bad
 banks had been opened by the
 State banking system. He said there
 might be an alarm in case of
 State run banks, but if that
 bank were opened, closed &
 would mean more disaster.

He said Newcomb had received
 a telegram from a correspondent
 New Jersey, New York, stating that
 the relief in Newcomb's under
 address was said only some
 banks could be obtained; that
 relying on the fact that bank
 money in the bank, only to have
 it close within a few days!

Sen Hitchcock called on Butler
 who talked with him over a
 supper. Butler wrote out a long letter.
 President Roosevelt had banking order

now. The Sen H said he thought he
 would see Newcomb. He did not
 care to be considered better on
 the Missouri, but would go down
 and look into the situation
 in Nebraska.

We dined w. Sen & Mrs. Cary.
 About 5. Wed.

Chairman Newton of Missouri Atlantic
 came before the and explained that he
 referred to the Newcomb Nat Bank in
 the last and that the bank had
 in his last subsequently asked for by
 many people; that the committee had
 both lists and advised money to
 be sent it.

Newton said the bank was a good
 candidate & should be thoroughly
 examined; that possibly the collateral
 pledged could serve as basis for
 additional loans from the bank and
 the N.F.C.

Newton said he referred to the New
 Nat. of Memphis on list as subject
 for a license, but that Committee did not
 a license & it was observed; as a
 very bad candidate.

Received a very nice, long letter from
Sobhie Borch, dated about 4.33.

about 6. Monday

We attend a concert party at
Luz Andersen
Mr. Ruden about vitamins some of
Berta's reminiscences and writes:-

"Ruden, who breeds in literature his
greatest vitamin, but that some
specimens are only waiting for
reminiscence to take a permanent
place in the ranks in a century
of English letters".

and writes a long letter to Sobhie
Borch.

Berta called on Estelle Carter who
said she had heard in good
authority that her E.W. of W.P. had
would be given either to Miller or
to C.W.

about 7. Tuesday

Raymond Mally, as Sec of state shows
at dinner of Corn Nat Sen club.

C.W. looked over the seed house and found
that Henry Miller in Wash. Post. March
25. 1928 signed an official for
Hawley's nomination and election.

C.W. advised Berta to get Mrs. Harrison
to ask her to join the Corn. Nat Sen
club as a 1000 life member, and
to get authority on club to tell her
Harrison if she succeeded she could
apply for amount towards the
club's debt to her.

about 8. Saturday

Carter then went see Warden in
off. then told Berta he had
watched the conference that we
should have a central group.
C.W. pointed out that the
address was provided for
45 directors and an Ex-Com Com
of 25, and said such a change
in the W.P. would lead to
another volcanic fight with
Banks as the U.S.

was said, however, the centralized authority of the Board could be and would be increased by the plan here, Sec. 2. etc. etc.

The London said the was what he had in mind - to keep Board out in but increase its power, as he did not lose the necessity of being able to call up 12 reserves for whatever of the Board's pleasure.

The London W. Woodin is that he came in during an emergency and of course during an emergency even a dictatorship might result in much good.

The chief cause of trouble - Sec. Woodin had given out with attempt of Murray to override the resolution of the Council as to that of course to be obtained by Murray brought over the Governor, - e.g. culture of 5 in. Black & white etc.

There is surely a good way for clearing the matter in a fundamental way.

Mr. Allen called and said the London was vigorously objecting to being the Sec. of Murray described for Mr. Board.

He also said he had seen a sketch of the new bill presently sent in salary of Board & staff and seemed to think it would be enough.

The Committee of account has voted that the 15% volume absolute can be salaries not paid by Govt and secured in bonds, on ground that the secured expenditure in old currency act was credited for interest and

We dined in Club + then held dinner.

April 9, Sunday

We dined with Helen Trust.

April 10. Monday

Constantine (Lodge) Williams came call on the gold treasury order and incidentally says "The President is a reach!"

Came to Chicago. Wilson's director came before
Board as to credentials in bank.

CRA sent Mr. Roosevelt a copy of
Cunha's (Lodge) Williams letter, with
a short personal note.

April 11. Sunday

Received long letter from Soloviev dated
Sunday, Apr. 9

Sam Sam called. He seemed amazed
that Roosevelt was trying to trust
Muller back in the WHA!

April 12. Wed.

Letter from Com Phillips to two letters
addressed "Cognate".

N.Y. Union announces two letters
inquiries.

The N.Y. Union said yesterday that
Com Rice had been selected as delegate
to Hulland.

Burger told CRA that Chicago Congress
must no candidate for WHA and
demand that Miller be made
President of only for a short time as
a stake at N.Y.; that N.Y. Congress
are strongly opposed to Miller mostly
because of his report on direct
primary in 1929 and more because
of the advocacy of new Section 3
in Michigan then was; that the
statelegislatures in both H.A. and
Senate are greatly opposed to
Miller because of his unbecoming
willingness to use statelegislator; that
then later would Sen Rice be
reversed.

He said then was a rumor that
Walter Stewart was at White
House today; that even though
Stewart would be appointed -
Board & made President; that when
attempt he would be made under
Sec. of Treasury; that then would be
worth to him because he was an
international Congress and member
of a N.Y. reconstructed team.
Burger said Roosevelt might really

about ten in Bond rounded to
made little figures.

Tupper said there was a rumor also
that the Harlan of N.Y. bank might
be trust in Bond as revenue and
steward be authorized to write
about N.Y. ; that there was a
rumor that Harlan was not very
healthy in N.Y. and that the directors
were not very happy with the
Tupper and the stabilization was
also very better in the days.

Tupper thought he should be
consider whether with the new
power given by the trustees the
bank, it could not develop some
means of stabilization of assets.

Attended lunch at West. Club given
by Campy Trust to Board of
Pan Am. Republics. See Harlan
on Phillips it also was the
not shape to Phillips about
the Bank & the N.Y. Trust matter.
He said entirely that the
the matter would probably be
around all right but no doubt

had yet been made. He said he had not
seen the N.Y. Trust matter. He asked if
there could be well received by the
public and also said completely

Apr. 13. Thursday.
not so far so far Bond.

Allen said that he had seen years
ago. wrote articles about the
from gold in Germany in the war, and
tried to raise the German currency
by the 15000, but finally got 5000.

Also looked the records and found
a cable. interested diary in fact
about the war was from Berlin the sea. or
in. Given to the bank or others:-

April 14. Friday
Letter from Under Sec Phillips to the House
addressed "Ergon"

April 15. Sat.
Received salary check for \$25.

Found in the Hegeman

Heard said Buefer was there actually
 See Woodin on temporary under Secretary;
 that he was undoubtedly engaged in
 preparing the plan book.

Wright said there had sent a copy of
 the sub com report in plan book to
 see Woodin but his confidential criticism.
 See W. has not mentioned this to any
 members of Board!

a task in being heard by Board.

The Wilson by through Buefer and
 not been. Through Woodin, were de
 to best to discuss the plan book.
 not back it in immediately that
 Board is so important as not
 to see this. Why does he not consult
 with the Wilson or else!

Mayn curley, declines to accept
 the Political Appointment.

April 16 Sunday

Lunched with the family.

April 17. Monday

See Woodin send the plan book

them in a general way as to the

book, but before finally commencing with
 the sub com he wished to get the
 views of the Board.

Apr 18 Tuesday

Buefer & Merrill said there told
 them the sub com was ready to
 report but could do nothing until
 See Woodin came before them and
 made known the views of the
 Board; that Woodin on April 9
 sent a letter to the Board - Terribly
 misheard by Buefer - utterly
 misinterpreted with the erroneous
 views of Bd as sent to Com.
 See W told me Board then other
 day that he did not really
 know what the letter contained!
 He said he wanted Board to
 advise him what to tell Com.

Apparently the Wilson by through
 Buefer have got in some bad
 work - how bad we can only
 know when we see Woodin
 letter.

not before to have seen doubt
 as to Woodin's ability.

either because he thought it was
that would send the world after
to anything if only he could get
them in the Board!

Sarah Cary cured about 3 PM.
she had a slight faint spell but no
signs. got the money more
down and later drew her time.

Apr 19 cont.

Novell announced that would be
no more of that gold business
for gold now controlled by central
bank; that the dollar abroad
would be left to take care of
itself, at least until Committee
w. devalued money should
return to gold standard.

This takes us absolutely off the
gold standard!

Neither Novell nor Woodin ever
mentioned this to any of the Board!

The House sent the interested
this as a necessary of stabilizing

liquidity.

not only this in a terrible blunder -
that Novell has embarked upon
a course of complete with
Germany - and all know what
happened to Germany.

Commodity & stock prices decidedly
rose in the stock market today
but not believe they will be
saf again, and then the inflation
and demand more and more
inflation - with the most disastrous
results.

Novell has absolutely succeeded
absolutely to the inflation in
relation to the dollar relation
and of sound financial principles!

not asked Miller what he thought
of it but he gave a very careful
answer saying it was that of a
broader policy but did not say
what that policy was.

not asked if it had to do with
the currency committee conference
with H. C. Frank, Harman et al.
Miller said it had more to do

with domestic tobacco

and asked if any more gold orders
would come into U.S. and he said
he thought not;

Mullen said the M. Lytle died at
and stated the vegetation was
much thicker than before.

Having succeeded to the subliminal
and back at home the Novell
may remove the whole M. Lytle
+ put a crowd of subliminal
in it!

Novell's policy is exactly what
Walter L. Lytle has been in N.Y.
He has been ten other days. So
said Gov. L.

and now understand Novell
changes in the gold order which
the Board drew.

What were the reasons for the
change + N.Y. the reason say?

Am 20 Monday

Printed Novell's new gold order
issued the am.

But should say with Green, in various
matters.

See Woods asked Ad to consider a
new bill giving authority to see if
was to borrow 3 billion on M
bonds, trying to check the other not
operation; so the fact the see to
and report to see 3 billion of
legal tender greenbacks; the President
to have report to agree to Gov. Lytle
on development of gold dollar down
to 50% etc etc

The Treasury bill the low would
be managed all report but that
the greenbacks & development claim
would tend to decrease confidence
& the latter would interfere with
all contracts because of uncertainty
Mullen seemed inclined to accept
the bill. He said he thought it
would be in its nature to
the House said the amount needed
all out greenbacks & develop
claim.

There was also a claim recently

and to receive silver bullion into the
100 millions from any bank that is
wary of its debt. Will not to
of credit. Say he is - which I believe
did not seem to worry about.

He also told me that Woodin was
evidently of no account with
Hovevell; that he knew nothing
about these matters.

He also said that the people were
behind Hovevell; that he knew
of one prominent banker and
was not willing to give the name.
He said that the people at Boston

He also said that the sub com was
laughing at Woodin; that they
told Woodin that Mr. H. had
received the letter of apology
for the; that they had voted
him that the sub com would
not report its case until Woodin
came before them & stated his
views & those of Hovevell.

April 21. Friday

Woodin did not meet with I believe as
see Woodin even before May & June. Case
of Senate.

He also said that he knew that as late as
last Monday Hovevell was positively
opposed to all inflation; that later
he had alternative of having a new currency
creating immediate inflation or accepting
a new currency at all in the hands;
that he believed Hovevell thought
the latter was politically expedient;
that he, Miller, was inclined to
agree with him as to this.

He also said he knew that a month
before inauguration Hoover wrote
Hovevell and asked him to give in a
statement that the gold standard
would never be lowered, or work
to that effect; that he did not
know his reply but assumed, of
course, it was negative.

He also said that one man strongly
Hovevell to accept freely inflation
him was one that 23 Democrats
in Senate voted for the free currency.

of silver at 16 to 1 and only 25 voted against it; that a change of 5 votes in Senate would have enabled Farmer to carry dissent vote.

at 3.45 the Ad and Governor went to White House and were presented to Roosevelt, who made a very short address. He looked very tired.

He was very pleasant with Cass calling him "Charles" in a loud voice.

Cass has not heard from Solitude Board since her letter dated about 9. Cass telegraphed her a Tuesday about 12 telling her about the statement in NY Times that her Rice was to be acknowledged, and stating that she was not opposed unless she heard it would come out all right.

Cass also wrote her a letter on Thursday about 13 - a very long letter, which he sent to Hotel Fort Sumner by express delivery, marked "Hold until arrival".

She wrote she would be back in Charleston, returning from Richmond and Savannah, Sunday by night about 6th. Since then, Cass has not heard

a word from her.

This afternoon Cass called up on telephone the room clerk of the Fort Sumner Hotel, who said she left yesterday for Washington in the 1.30 train.

She would land here in Washington at 1.05 this am, but Cass believed she probably stopped on the night at Richmond where she would have arrived at 10 P.M. last night.

She very likely never got Cass letter of about 13, but she got my telegram on the West. Union Tel. Co. said at first she was not in Charleston and tried Richmond and later she wrote she was not there, and still later she wrote the telegram was delivered to her in Charleston.

Cass can not understand the business to write and can only assume that she has ceased to be interested in Cass's letter. I will only wait till.

The Governor gave a dinner to the Meyers at Nat. Club. Jones & Cass present. Miller had another engagement.

The Black acted as toast master.
He called on members one by one.
The Nomin, the Culkin and the Haren.
James said he felt humiliated that
the Degees had obliged to resign because
of Politics. Now what he said we could
infer that Degees resignation was not
voluntary and called on. He said it
was a public scandal that Degees
were not rehabilitated and he said
the Board under present rules
would be a Board as you all
subject to absolute control of
the Adams in House. He said
the Degees resignation was a total
disaster.

The Haren named the Degees. He
said that there was undoubtedly
elements of conflict between the
NY and the Ad and that Degees
had sustained Adams House with
defects and shortcomings.

The Degees made a long address.
He said that at present the great
political questions had come to the
front and he felt it his duty to
withdraw and give Roosevelt an

opportunity to deliver a lecture on
harmony w. the political view.
He made a better address, at least,
a Roosevelt latest order abolishing the
gold standard and liberally in the
question of developing the gold dollar.
He said it was slavery when all
Nations were trying to get together
to use development as a club better
to excite trouble and controversy.
He had no sympathy with our
objection to release our export
trade by cutting into foreign markets
now controlled by other Nations.
He said the real remedy for our
troubles was to settle all our debt
controversy and build across river
on gold standard and to induce them
who had left it to return.
He said it must be based to
leave gold standard while we had
voluntarily left it, which to be
was the worst possible policy.

and believe the H. must have
asked the Black to call a session
and not to call a call for

Remarks. In brief the whole meeting was evidently planned to avoid Hayes, not only the clearly
 two days during the evening, and the rumor was that Roosevelt intended to cancel out the White and the Farm Revenue Board.

Evidently the Hayes is in the even note and will be a severe critic of Roosevelt and his policies.

The NY Times has been a stunner for leading Repub. Senators and Congressmen attacking the cabinet list. It is a strong attack, but they burst the best Republican no cabinet of staff but merely gave names to President. It would be a strong argument against President resigning the House.

No word on Sophie North - it is most mysterious. I can not believe she ever got my letter of April 13.

Mr. Harlan said at dinner that he heard that Roosevelt asked Sen. Cress to postpone his for 2 weeks or he wanted further time to consider branch banks, increased in deposits etc.

~~Without out~~

We went to a garden party at British Ambassador's to meet Mr. & Mrs. Ramsey MacDonald.

We called on George B. McCallister

In evening at 9.30 we went to White House reception in honor of Mrs. Macdonald. After coffee Mrs. Macdonald & Anne Mrs. Roosevelt kissed Bester. When we left President R. said to Bester -

How well Charlie looks considering he has been working 14 hours the day! When we went out President R. and Mrs. R. stood in line and Mrs. R. kissed Bester.

attended musicals at home N at the club. Miss Bloom sang charmingly. Went to Cong. Library - came back there - under leadership of Mr. Stewart. Mr. Stewart sent us the books and we sat with him.

April 24. Monday

Sophie Boud telephoned in her card. Lillian Lohmeyer's house. She arrived last night by train and tried to get in on telephone.

Berta was engaged but had not yet arrived here to call at Mary and take lunch with her.

She came at 10 o'clock and we had a good talk. She said she intended to answer my letter of about 12 which she received, and expected to stay a week or longer at Cleveland and evidently changed her plan and went in a 4 days here going to Arkansas and then to Waukegan.

Carl said Berta had been telling her at not getting my letter because + that he had about come to find that he had worried her with his long letters. She greatly valued that her letters were perfectly delightful, that she was overjoyed to receive them; that she was a poor correspondent but that she was delighted to write him in order to get his letters in reply.

We left home at 10:45 o'clock and later she came up to our suite and we had a long talk. She said she wanted to see the double cherry blossom so she drove her down to see them and every body had got out of Mary while she went to under the trees down.

At 5 P.M. she called in Berta and B gave her a letter to read and at Western.

She came with her husband business money for a week's time.

are not called up in which case
she will ask Crest to get her a

She said she would send out a
postal white card, and would
surely have her photograph
taken, as she had promised.
We drove her back to her hotel
and then called on Ben Jones
Roosevelt who was out.

Mrs. Sulhaster called.

Mrs. Harwood of Savannah called at
Bertha and sent her to Mrs. Roosevelt
telegraphed John Pearce and it was
published in the N. B. Mercury.

We dined in the 4th Ave. New Hotel.

April 26. Wednesday

Subbie Bush told me last Sunday
that people are saying that
the Meyer resigned because he
could not accept Roosevelt's policy.

of saying the gold standard. Crest told
me that was not true as the
Meyer Bush told Board in Mar. 24
that some days before he had
told Roosevelt he desired to be
relieved from membership in Board.
at this time the Fed was imposed
in monetary regulation under the
original order of President de la

inexpedient. No question is saying
the gold standard finally is of
developing the decision and then

he would choose for \$100,000.
He did not say which side he

The evening radio reported him as
saying that he would not vote
on the sub bill, with in connection
the subplate amendment.

The Omaha Herald sent today. Reverend

Bester drove to Colfax house and
with her Reverend to lunch at
Wm. Nat. Ben Club, where she
introduced her R. - a great success.

Her Reverend sent to Bester - I suppose
the Rees are highly over the
situation? A said they have not
yet been asked. Her R said she
could not understand them as she
knew it was all settled. She told
Bester she would find out and let
me know.

She also said she would write
her Howard to write to Herriot
tomorrow night and that she
would write her Parker on her
birthday. A made a memorandum
on this, and thanked her for the
introduction to J. W. Pease.

Last evening A had to send a message

call Mr. Cushman. Bully and ask
him to send the message as he
did not have her telephone number.
Mr. Cushman today thanked her for
the message but said nothing
about giving her telephone number!

Wright said Mr. Meyer was claiming

The gold order of President was

The new case found was that
Mr. Meyer refused because of
certain public law. The above

Mr. Meyer also had a row with
Cushman on Dec 26 as to sending
letter. That Mr. Adams was the one
first loan to him he knew best and
adding that Dec 26 was of Wilson
legislation sent to Mr. Adams.

Mr. Cushman then was the chief
man for Mr. Meyer's message.

Wright said Mr. Meyer was disturbed
with license given to Mr. Adams.
The Mr. Adams was not responsible for this
and did not recommend it. Mr.
Cushman was finally induced to

April 29 Saturday

Lunched at Harvard Club to see President Lowell speak.

Wrote Buxton called. He seemed very much disturbed about circulation.

He said of writing reflects the general line it would put a terrible responsibility on Roosevelt

and so he did not give the substance just what they demanded they would crush him.

He said he felt so the seriousness of the closed banks and would deliver - that he was about willing to involve some taken on the R.F.C. to buy off these demands.

Bertie dined at White House.

Mr Roosevelt gave the dinner to the wives of members of House club who had dinner tonight. The cabinet and conf. + Senators were also there.

April 30. Sunday

Then Ann came a letter from Herbert

Sophie Borch called in and agreed to

 going out but he would be back here
 at dinner tomorrow night and she
 said she would come.

The Vander Veen's were called. He
 called in about 1 hour and asked
 if the President would visit him
 to the White House next time.

May 2. Wed.

May 2. Thursday

Sophie Brul came to Hay Adams at 7.30 and we dined together. Bertie had gone to friends at Wm. Fox Club dinner to Mrs. Perkins, see 10 Feb.

at 10.15 Carl took Sophie to drink around St. Andrew's & we went to the steps to the Lincoln monument.

She said that Mr. Noyes admitted her statement in NY Times as obnoxious and noticed the fact that her name had been abandoned!

Sophie asked many questions as to abandonment of gold standard and Carl gave rather cryptic replies. Carl told her she could tell Mr. Noyes that all was well. She seemed filled up with all the enthusiasm of Russell's policies.

May 3. Thursday

We dined w. Rachel Hall to meet Mr. & Mrs. Victor H. H. H.

Sophie Brul called on Bertie and said she would come tomorrow at 11 am, and would let Carl

know if she could lunch with her tomorrow or Sat. after talking to Madame Van Noyes. She said last night she had some cash sticks of herself taken by Mrs. Schmeckel which she would give Carl and would have some of her when she came to lunch.

May 4. Friday

Sophie Brul called on Bertie on 11.15 to 12 and then both came down to Murray. Carl went over and got out her books and gave them to her. We reviewed in the evening ten postcards and examined them. She said they were all right. We then drove her back to the Legation, she agreed to dine with us Sunday.

We talked over our books and immediately its gold standard in gold bonds held by Congress.

Carl continued explaining a plan, he really agreed with her - thanks and then other side. He told us that British bonds were payable only in sterling, but that sterling

was equivalent to gold in the adjustment
 of gold standard in fall of 1931 &
 Britain; that the value of money in the
 holdings of British Exchange was
 100 million dollars when it was
 at gold standard; that the value
 out its central bank & the
 French had had to share it; that
 the Bank of Netherlands had 12
 million of dollars and had to
 have it made good, but finally
 sent it to B. received some help
 May. in various currencies and then
 she went to Gold.
 She was, however, not amused.

She was very much excited as
 we left and said she could
 have no use for Roosevelt
 but did not object to him.
 She begged Berta to go to Roosevelt
 and demand the release.
 Berta bravely told her what
 later with her Roosevelt.

Berta would have been ill if she

was not there, saying if he was really
 for her to see her then she would
 stay, if not so decided as best.

Her brother would have to see her
 as we knew she felt we are
 not doing all we should in
 the matter.

May 2. Wed.

After drinks we made some casual
 mention of "brother" to Sophie Burt
 who replied very pleasantly that
 "she never had accepted her as a
 brother, but simply as a cousin",
 adding that she already had a
 brother. She later added that "brother"
 really did not mean much of regard
 or affection, but rather of duty, no
 matter how despicable a brother
 might be.

She was extremely puzzled as she
 twice has told me that she
 regarded him and H.H. as her
 brother and sister.

But only she said it somewhat
 in jest as she was heartily

agreeable on the end of the evening.

May 4. Friday

We went to a garden party and
stump planted around at two hours.

May 5. Sat

Two days had previously lived
Horsewell he must leave by today
but then as he said would be
brought him to stay over a day or
two longer.

We attended a reception at Green
Embassy to meet the Schacht,
President of Reichsbank.

In P.M. the Schacht left a card
in me at Henry Adams.

Edith Helen dined with us.

May 6. Sunday

Edith Helen left for Greenville. See

asking if we could see whole story
of the abduction for about an hour
to Harding, to Sabine River. when

to come with me Sunday.

He wished to see only those letters

mentioned "today" - Friday.

Sunday May 6

Harriet News letter came. It was
devoted mostly to description of
Mrs Parker's 90th birthday yesterday
May 5. She also said Mrs. News
had sent her a letter dated
May 3 but mailed May 5 emphatically
her own acknowledgment and
suggesting a letter but too hurried
etc etc.

We can not tell whether this letter
means that we can sleep to
Mrs. News or not! The News are
always cryptic!

We are inclined to think Mrs. News
must have called at State farm
just before writing this letter.

As to dad, the State farm men
or the other + the death.

We hope the means that Harriet
has decided upon and to reach
the acknowledgment. On Mrs. News

could hardly have wanted it without
authority from the State flat!

Sophie Borel came to dinner at 7.30.
We told her and our son Alice and Rose
as the judge never to speak of it to
Mrs. Noyes or any one else, which she
she gave. She knew of no more only
Mrs. Noyes wrote the letter to her Alice.

Carl told her that, in view of what she
said the other night about "Cousin"
and "Brother", we ought to apologize
for saying the word "brother" in one of
our letters. She laughed and said
on the contrary it pleased her very
much. She said "brother" meant
very little to her.

Carl drove her home.

May 7. Sunday

Carl called on Auntie at Wilson
Place and he at once got a card
from Sophie to Wendell's lawyer,
and Carl so delighted her.

Nothing doing at home today.

At 5 P.M. Charles has been

called in and invited us to go to the
Pembler's party on Saturday and to
bring any one we wanted. He said he
would meet us at State in Belknap.

Carl at once called on Sophie
Borel and asked her to go with us.
She wanted to but would not so
know definitely tomorrow morning.

Berta took her at Madame de

Harriet Rice writes that Judge Cook
advised her that Carl & H & H seemed
just in touch with Mrs. Jane Reynolds
and her friends and that she was the
whole story.

Berta at once wrote that in our
opinion she could be useful, under

that we then desired guests.

Mr. Belmont told Berta they thought
Adolph Miller absolutely unfit
for her or Mr. Board.

May 9 Tuesday

Ma Aunt sent me a letter to
Anderson Valley, Pluta for soldier
Burr.

^{Soldier}
Cot called in and said she
would be delighted to go with me to
the Race at Pikesboro, Saturday.

Cot asked me to come in at 5 P.M.
and later, at 5 P.M. she called
and cot gave her the letter
and had a very interesting talk
with her. She talked cot in
her churchyard later to her
brother & sister.

She said she and also her brother
and brother-in-law were

transiently bound to leave early.
He said he had to leave early up the hill
we drive with E. Warren.

May 10 Wed.

Patron announced about the Black

in W.D. and that Roosevelt would
designate him as Gov. Black's say -

My own day 11 - it will only be temporary
not to exceed 2 or 3 months.

Cot met Aunt & Adm. Page & then.

They came to Murray and Aunt came
in to cot's office. Cot told her about the
general w. the Union. He advised cot to
let things run along in town that some
time later would be a revolution. He
said Randolph probably dictated the
letter, that he was a terrible crow for
me to hear and that the way to take
her was to wait quietly. He said he
had had many similar troubles
with his relatives. He said he was
sent over by her in the subject of the
contract with Noy Steward Blake
and that when he went down the
contract had already been signed
and that Randolph rather angrily
said - as you want to see it, here it is!
He seemed devoted to her father and
sister of the high church of cot.
He was bitterly opposed to the gold
hoarding order and said it had destroyed
the credit of the U.S.

He seemed rather friendly about
Roosevelt and his father.

At Grand jury Woodin announced
announcement of the Black.

Lunched in Lee of State to meet Gen. Amb. Schacht, Elmer Almonte etc. Wooden drove me back. He said to Allen get ambulatory about his failure to be designated and added - "But I didn't do it!"

Carl talked with Keller. He was evidently very much troubled. He said he told Wooden that he was ready to resign so that Roosevelt could pick a good man from the Pacific coast.

May 11.

Keller came in and said he heard that the Hoover has been here & that he had threatened Wooden to obtain his designation. Carl said there was nothing in this, but that he believed the H. in comparison with the Stabilization had grasped such threats to leave that Roosevelt could not meet it, although as a fact, he knew nothing about it. Allen said we were short a name within a day or two ago, wanting the chairmanship of one of the Members, saying that

Roosevelt had received him ten times! Allen says that Roosevelt has now settled into the M. Dept. Carl advised us not to discuss & suggest as it would be generally attributed to disaffection. He says finally that Roosevelt did not take him into his confidence.

May 10 Sat

Sophie Rorol telephoned she could not come this P.M.

Carl sent her a letter giving address of Bellvue Straband Hotel.

May 11. Sunday

Carl calls in new Council - O'Connor. His appointment seems to be a purely political one. He is a lawyer with no experience in banking. He indicated was very apologetic.

Comet. Given in at 4 P.M.

We took tea with Mrs. Sundberg. Madame van Ruyter and Sophie Rorol

were there...
we called on Mr & Mrs Floyd Harris.

May 12. Friday

Solomon Borrel came to Mary at 12.30. Berta thought she was to come to Hay Adam. She had the camera but had not time to take a picture of her as she had to be back at lunch at about 1 P.M.

Ad - ex - came authorized ex - came of Glen had come to by 1 letter of last week. The language used broadened the basis of Glen had come to advance 1 letter for needs of Mary.

Two Black called + sent her a letter a certificate as Roosevelt yesterday who seemed pleased at what Ad had done in the past week.

Miller drew about 1000. Poor Miller! He seems to have been hit in the derriere by Roosevelt!

Jack said today the General Butler was defeated by a combination of Mr. A. J. and the state's interests, and that the Butler, barely to get over all that, mounted in place, then ready to volunteer money. He said truly long said it was the holiest day of his life to hear that Black had been made known.

Two Black asked her to call on and advised her in every way - that he should, then on.

At 5.30 Solomon Borrel called. She drove her hand Terry her around the Sunday. She carefully accepted her invitation to dinner, but seemed rather distrustful. She asked if he could take her to the tea Sunday but she said she would rather than. Van Rye would visit on Friday with her. She said he would not cheat of it again, unless she herself chose of it. She said she would take it over with her Van Rye.

She said Van Rye should be

of a letter he had received from her
 but, she added, he did not tell
 me what it was about! I
 believe firmly that Mother
 Van Noy has told her the whole
 story
 Two days ago Van Noy wrote
 me apologizing for not having
 been around. I had later sent
 a card, and saying he soon would
 go to Dr. Hugh Young in Balto and be
 thoroughly examined and he would
 let me know the result. It
 was almost an obsequious
 letter.

Just the day after sent he wrote
 proudly he in New York Sunday
 day next was well and would
 like to see her. She graciously
 replied - He said and let me know
 it advanced so I can surely see you.

She asked me to write her of any
 news came from her and she
 suggested a code word - all right -
 which is to mean that it is

settled firmly although not yet
 announced.

May 13. Sat.

We took Sophie Burt to the races
 of the Maryland jockey club at
 Pimlico, Md. We were greeted by Charles
 E. Mc Lane, the President.

We dined at the club house at
 a table with Mr. Ritchie of Md.
 Mayor Jackson of Balto, Frank
 Riffe & all were present.
 Sophie did some talking and seemed
 to enjoy herself immensely. We reached
 home at about 7.15 P.M.
 During the trip a man to Balto called
 asked Sophie how long since her
 health died. Instantly her eyes filled
 with tears and she said - Let us not
 discuss it, Charles!

May 14. Sunday

Sophie Burt called on me and asked
 if she could come to lunch and
 have her photographs at 12.30.

Sophie Burt takes lunch with me

afterward we crossed over to the Park
and she took several pictures of all
and HPH. When Sub/Hall came along
and Sophie took two pictures of
him, and HPH together.

She drove Sophie home. She said
she would call me tonight but it
she did not, it was settled that
I would wait to call her this morning
at 9:15 am.

She goes to see the Phillips next
Friday, at Washburn. Then. After
I would like to go to Portsmouth N.Y.
and see the Phillips house and
write out a list of things to see.

May 15. Monday
I took Sophie down to the
station. Mr. & Mrs. Van Rye
came down to see us off.

Mr. Van Rye said the school
was that no observation was
necessary, and that he was to
try manage etc.

Sophie told me her brother was
a very attractive fellow and a

very gentleman, always being polite to us beyond
his income; that he had 7 cars and a
automobile etc etc. Evidently he is
very true some other things.

She said if she did not see us this
summer she would surely come to
Wash. to see us before she sailed
in ten days, and she begged me to
let her know in advance if I
expected to be in N.Y.

After she left I called on
Mr. Austin at Rhode and asked him
to send Sophie a bunch of violets.

The club club wrote her that
could that down Sophie at the
club for 7 days & that she could
have a room if she desired.

I wrote Van Rye congratulating
him on his school and thanking
Madame Van Rye for giving her the
news of taking Sophie to the
station and asking her to allow
some time when he can see her
and have a good talk.

I wrote Edith H. H.
Colburn and wrote her
I would like to Colburn soon.

voluntary question to be decided

in which practically had already been
decided by the fact; that as to
future bond series if there was any
probability or even a distinct possibility
of developing ten dollars, ten cents or 6
pennies in gold should be changed
and "dollar" substituted.

But said that while resolved will
substantially unchanged need of
new bonds payable in dollars,
yet did not absolutely so resolve
+ that they should be made clear.

But said that none of such new
bonds will be issued immediately
and would any long term interest
a fact outside a bond series.

But said it desirable for fact to
be ~~in~~ fact as to existing bonds.
Largest said the thought the
interim board would hold that
fact would pay gold in existing
bonds in state of new and
many are forms of money
legal tender.

There is a desire of English bond

center but Wright said it was not
completely completed and by the center

as a new matter. Wright said that
no funds should be transferred in and
consequently C.F. Hall but should be
transferred in through money.

May 25. Tuesday

C.F. came to the West Room - N. Ave.
Lang. Keating, Janches met with
See Woods and the Black
Janes was away at Nashville and
neither Miller nor Ed were
present.

At 1.30 the Black sent the call -
Miller had gone to lunch -
and told them the Center had
voted to pay 25 millions of
but see the week.

Ed said the man was right as
far as it went but he would
like to have brought in.

When he returned - P.H. to General
on the desk a telegram from
which showed that since
the last time they meeting the

the man Miller had declined 45 million.
C.F. said 25 million in but a check
in the Center and in the center. It
will not meet the requirements in
the morning. N.Y. 1st. Miller that
the P.H. Board is hesitating and
reluctant.

The C.F. had a great meeting. Janches
said we have overcome the P.H.
on the right. Miller and Ed had
the "get around" problem and of
Miller said he had been at the
meeting the night before but
been debilitated.

Parker announced that P.H. Shreve has
been appointed a Treasury assistant
Miller is much troubled. He said
in news of the U.S. would
undertake its great obligation to
foreign holders. He said he called
down working the other day who
showed a memorandum of the P.H.
and said he had to meet him under
the table one day to make him
quit.

The Black said Shreve said he
did not like the P.H. Board but

of the world, saying he and CEC
 followed.

CEC at once said yes but I felt
 they should have bought at least
 50 millions and perhaps two.

Allen then showed to some effect
 on CEC and said it would be
 system ridiculous, that if plans
 to build through a vigorous plan
 must follow.

CEC said I should have greatly
 declined in last month and he
 on reserves were 45 million lower;
 that the thing told him that the
 that there were very and could be
 money, money, CEC began to
 imply that better plan was
 operations were not necessary.

Joe Yeg said the Bel of creation of
 Post, W. J. Chicago Plans & Charles
 had all passed resolution already
 & buying silver purchase of
 not see

Joe Black was plainly distressed
 but mildly dependent on the purchase

as a good buying, saying because he personally
 would have been glad to have a larger
 amount bought.

Joe then insisted on buying two hundred
 million in the market and CEC did the
 same.

Then the thought Joe Black a lesson!
 If he had asked Allen & CEC to
 come in - which he did not. He
 would have been different!

Wooden told CEC he agreed with
 him but added that he did not
 want so soon to see the world
 the President wanted to keep purchase!
 Allen asked Joe Black if the
 would relinquished the view of the
 admits and he said he knew no
 more of these views than any other
 member!

The others said the Treasury had
 ordered the banks to buy 25 million
 absolutely false. So far as we know
 it was a regular purchase under
 Board's recent resolution.

Berta received postal from Sophie

Miller is an interested friend of

Gen. Black told me that on Monday
Prof. Shreve told him that President

Gen. Black said he had formerly advised

He thought crazy! It keeps so.

that there were 90 billions of credits,
including Fed funds, in the country
negotiable in gold, while we had only
5 billions and the whole world
only 12 billions, — we did not need
90 billions to pay 90 billions. The
explanation, we have 120 millions of
treasury in U.S. would it require 120 million
treasury with which to buy them?

The Black said he was at White

Hillen said we must admit that
Roosevelt is primarily a true
slaveholder; that he is always
wondered as to new ideas; that
he allows men with deep enough
to break in on to dominate him;
that he has followed the beliefs of
the "true trust" without comprehension
of just where it is taking him;
that the true trust does not see
to themselves with any sense of
sound principle, or even of
National honor; that trouble is
looming ahead; that the true
trust will be surprised at proving
an alibi, and will leave Roosevelt
holding the bag.

CRS received a very long, interesting
letter from Sophie Bernal, dated
Sunday, June 11 from Albany.

CRS wrote Sophie Bernal.

Gov Black said he asked Jim
Jones of the R.F.C. if he could
not give Wendell a job and he
said he could, but after seeing
Wendell he told Gov Black that
he was merely a stock broker
and a politician and was not
fit for any work in the R.F.C.
Gov Black said he told Wendell

who agreed with him heartily. What
will Wendell do now?

Gov Black sent Briggs telegraphed that
he had just talked to Gov Harn
and telephoned from London and that
Gov H. it would be absolutely impos-
sible to anything in the American
conference unless and until some
stabilization agreement is reached,
even temporarily, between U.S. House
and Britain.

June 14. Wed.

CRS wrote Sophie Bernal ~~saying~~
in her photograph on which was
written: "To my cousin Sophie. With love.
Charles Harn."

Washington, June 14, 1933

Mr. Harn, the new minister of
the House called. He said he was
an attorney but would send form.
He also said he was chairman of
the New York Council of Americans,
and that this involved so many

question of nationality but he did not know whether he ought to keep at once or wait awhile!

Novell refused to acknowledge Hayes as expert "dirt farmer" but admitted a political lawyer, chairman of the Gen. State Court! Novell's standards are very low!

What will become of the TH system! It is certainly now soaked in politics! Novell will go down into history as a cooperator with President Harding to turn the system into a check system.

Yesterday morning the subcommittee of Hurler, not even men of Adams, Novell by the efforts to Sir Hatcher and admitted as Hurler then announced to the dirt farmers that the book on the Board of a dirt bar is a political attack and a sharper attack.

Will the dirt farmers stand this?

July 15. Thursday

Mr. Black said see notes had invited him to attend a conference of colonial officers and other administrative heads to consider colonial and other political questions. He said he had been asked but now felt that it would be unwise to attend, in which case and James concerned. Novell then came in and he spoke also.

Novell said yesterday that he had seen the same Novell the other day the - A - sleep in terms of extravagant waste of cash!

Then an Latham severely criticized - N.Y. Her. Tribune - Novell for having made a political attack on McRae! He also condemned the last contest. In See B.

To day Mr. Black read a telegram message from the House the day before, to effect that an exchange statistical agreement might be agreed upon by which Cey. Revenue and

U.S. should establish bonds of about
 100 millions, the U.S. must be
 undertaken by Mbs. N.Y., the
 proceeds to be used in stabilizing
 finance in U.S. and in Europe
 by R.O. of Europe... when bonds are
 below an agreed point we would buy
 and the amount involved would be
 guaranteed by R.O. of Europe but
 of that for our account; when we
 sold bonds to meet money
 need we would assume the
 against gold guaranteed by
 Mbs. N.Y. for account of R.O.
 of Europe but of that
 the Mbs. N.Y. would maintain
 authority then subject to advice
 of M.R.D. and the Admin.
 Goldensleeve said any such stabilizing
 agreement would probably slightly
 raise foreign rates and slightly
 depress domestic rates.
 We are agreed that we should do
 nothing until and unless the
 Admin. authorized the sale
 or at least agreed upon scheme
 as to it.

Mr. Black said the Anglo American Bank
 \$7 million would have 35 million
 or would close its doors; that
 the N.Y. had agreed to loan
 to a Mortgage Co. to be secured by the
 bank so that the loan would not
 appear as a liability of the Bank
 then is the bank which would
 be secured to open!

June 16. Monday

Goldensleeve, at lunch, said he did not
 think much of the stabilizing
 project. He said it would cause
 general rates to reach an equilibrium
 in Europe and U.S., which would
 that prices abroad would rise
 a little and in U.S. would be
 as now they are relatively higher
 than abroad. He thought it would
 be to bind the price level on
 domestic plans would be very absurd
 and the stabilizing, perhaps
 depressing the dollar accordingly.
 He said even a collection in gold
 standard would not or should

not want to stabilize money with all
National Treasury gold.

He explained above idea by saying
that US must buy or sell bonds
for the purpose of holding and the
deal with exchange brokers in buying
or selling, otherwise transactions &
sales of bonds would necessarily
be another.

To get better to sell the bonds must
have a demand in the of money
in a much larger and draw out
& sell drafts in other markets &
a dealer.

Mr. Black said Roosevelt and
Woodward are angry with Sharp
because he has given them no
information as to what he is
doing for time to time.

He believed Roosevelt understood
a paper to above idea.

Goldman said 1/2 of the
money in the market would be
for devaluation and 1/4 for
speculation. The agreement
would be that the government

in speculation.

Mr. NY Times said there had yesterday
been a plan the agreement would be
reached.

Mr. Elms called and said he told
Roosevelt this afternoon when he signed
the plan but that he had made
a terrible mistake in meeting the
Mr. Board completely democratic;
that Roosevelt said he agreed but
that Elms should have come to
him and have said so before they
were made; that he told them he
had not asked his advice.

Mr. Elms said he made a recommendation
showing necessity for currency
at least 2 Revaluation, which
he gave to Woodward who said
he would show it to Roosevelt.
Mr. Elms said he did not believe
Woodward was showing it to Roosevelt.
He said Woodward admitted to him
earlier that his letter to Elms was
Elms but was written for him by
Sharp and that he really knew
nothing of its contents.

He said Sharp was deceived

to woods in morning in forest
in Sec 3 - along descent towards
when he, Beeper knew the M.H.
and immediately observed it
and had observed Beeper who
in the creek had observed it.

Roosevelt signed the Glen Line this

June 23. Friday

Catherine Grant sends with her
children a letter to Ed at 5
P.M. (daylight time)

At our class dinner Herbert Porter
shook very largely of Ed's services.

Ed will send in copy of letter
from Newbury dated June 16 after
explaining how he will accept
him to Holland for one year, saying
he was greatly indebted and

and had to drink several more for
 immediate relief were recommended
 to, and adding - water must be
 settled with 2 weeks
 before telegraphed him asking if he
 had considered accepting 2 years
 as a compromise.

June 24. Sat.

Sent Sophie Board letter to Geo
 Callahan & Noble in Kansas, to Messrs
 Bank Managers at Seattle, Mr. Mayhew
 and Dickinson, of 1st Nat. Bank
 Chicago. Sent short letter

Sent Sophie Board a long letter
 to NY.

Geo Harrison came before Del. He
 is a full & robust & healthy.

The first of the remarks:-

1. Name invited U.S. to attend a
 conference in stabilization near to
 economic conference, the plan, to
 say to best through the problems
2. The U.S. accepted the invitation

thoroughly unblindedly agreeing to try to work
 on some stabilization plan.

3. The many representatives of Messrs.
 HBS & U.S. asked the Central Bank
 to agree on some plan

4. The Central Bank like finally
 agreed upon a plan,

5. The U.S. of Messrs. accepted the
 plan subject to approval of their
 Govts

6. See Hull and Geo Cox interested
 to Conference that the plan was
 available to him Govt. After Volin
 did same.

7. The plan, interested to Conference
 went further than temporary
 stabilization and change of states
 that has various Govts agreed in
 principle to the plan permanently
 to Gold Standard.

8. Sharpe and Lombard would to
 state first that change of world
 beyond their jurisdiction but that
 personally they advised it.

2 Geo Harrison sent in the Gov
 letter that the stabilization plan

at least temporarily, and he is able to
by all the work

16. The first interest to cutting
was when he was embarking
and in the wooden structure
and no substantial plan, as
temporarily, would be acceptable
to me!

He also is a temporary remedy
to U.S.!

He has seen some news
that the U.S. had slashed it
in the bank!

He knows that the result will
be, either,

a) There will be forced on
gold standard and a stabilization
contract in domestic currency
will result, which - the day
we will require to U.S. and
in action

b) The other Nation will join a
block to require bank of U.S.

He also said he did not believe
the U.S. could succeed in
accomplishing much stuff

substantially at hand, and that the very
kind of industry would open being
sold to U.S.

J. W. Pearce died today at Durham.

We dined with her & her sister

June 25 - Sunday

Alma Ruffler dined with us.

June 26 - Monday

See words
Heller said that he received a
letter from J. W. Pearce, indirectly
demanding the abolition of
wardell as Chairman of Board of
Wharfedale San Francisco, necessarily
the removal of Chairman Heller;
the letter also stated that
Roosevelt desired the abolition!
a shock to Heller and a volume
submitted by any job to R.F.P.,
as J. W. Jones told her Heller.
Heller said that Heller was
being brought in for Heller.
Heller said that Heller arrived
from a Saturday was to be

saddling and sleeping, - that the rest
stood humiliated among Watson.
Lucas also said that the head turned
against Healey, saying that he was
not an able man, and that it
was but a question of time before
Roosevelt would know him well.

We called Sunday on Mr & Mrs
Healey. He said a distinguished
Gen. Wolcott, whom he would
not name (either because he
knew it or that Healey
would be afraid to be opposed
within 6 months.

June 27. Tuesday

Wrote Board notes not dated

Jan 25, from New York.

Wrote School Board to
NY and Bertie Jones - etc.

June 29. Thursday

Wrote notes and signatures were sent
to all for signature in triplicate
in bonds to John A. McLean.
Cot suddenly stopped in London

was consulted? not remembered Woodin
statement during the row with
the people - that he desired to be
informed as to why he should
wait so he could leave the
opportunity to vote in it if he
desired.

Healey & Lyall said so far as
the new Woodin had not
been consulted thoroughly, after
due notice of every meeting had
been sent to him.

Cot then called in the Black
in NY who said he had never
mentioned the matter to
Woodin, but Woodin was now
away, ill, and that he would
speak about it to Under the
action tomorrow morning.

An act will take place on
a year for the morning, and all
it means that many should
be informed.

The afternoon James sent to all
members a check for the
"Columbia Bee" to offset that he
threw and stated that he

would not keep an chairman of
Neb. Sta. Com. until the close
of the year; that Mr Farley had
told him that there was no vote
on the matter!

What are we coming to! How could
we be misled by his friends just
at President Harding was!

He dined at Shortliffe hotel with
Gomer and Lee Brady in town &
in Lincoln (?) & one Boone

Two Blacks came back on week
of the last life came in 29
and were at dinner.

He told me in confidence that
Baruch, Woodley and Achler had
called Roosevelt saying he to
accept the state bank of
dinner by the central bank.

June 30. Indes

Mr. Berach, wife of Mr. Berach
called me up to thank me for
a letter I sent to Mr. Berach who
has just been appointed in
to being our representative. She said the

Senator said he never had received a
letter which pleased him so
much.

Sister Paul wrote H. H. letter
dated June 29.

In it she said she would love to
visit the Curry ranch, stamped call
on the note of Tuesday, to which
Nester had added a postscript, and
said she would write him when she
reached Creekster - about Friday or
Sat. of next week.

Her last letter was from Newbent
dated Sunday June 25, so it must
be at least 2 weeks and perhaps
longer before I hear from her again.

Thus to close as if the letters
were closing to be of special interest
to her, especially as she never
acknowledged our letter of Sat.

June 24 sending her letter of introduction
to Bureau of Banks, and a longer
letter Tuesday morning, of same date.

Not told she should know whether

the letters of introduction were reached her and yet did not want to write again, after the statement that she would answer the letter but sent when the machine crashed.

after consulting with Bester, and sent Sophie a very short, rather cold, and inhuman letter, saying as she had received the letter of introduction, adding that she need not trouble to answer the letter, but that if he did not believe her to the contrary, he should assume that the letter reached her safely. She broke this way the letter and he was probably just a Shredy Nether!

When C's letter do not bring a reasonably prompt reply, he knows what to do, - seemingly to cease sending them!

Mr. Black told me that the cable sent Roosevelt yesterday stated that it would be easier to stabilize now than when Roosevelt first turned it down.

Mr. Black said Budget director Bouffard and Achard asked him if he would sign the cable, adding they observed that the Board did not approve it; that he said that it was for the Administration to decide as to the policy and not for him or for the Board and he declined to sign it.

He also said Roosevelt cabled Harris to ask whether the Wilsons could not try alone to stabilize the dollar by buying francs at an 80 cent premium without any agreement with other nations; that Mr. Harris replied he might be willing to try this provided Roosevelt would agree to keep the gold unchanged during the conference.

and both the would explain the

Moons to the rest of the day.
 The Black said one present under
 grew out of the bundle of shrapnel
 to keep the adults informed as to
 what was going on.

July 1. Sat

Received salary check for \$500 - the full
 amount

The Black said he had heard nothing
 from the alleged stabilizer agent.

H & H wrote Sophie Berel - No Colly

Two days ago Berel built an egg
 in the window sill!

The Black told Berel that if
 direction remains, after w. Berel
 to direction should be given when

July 2, Sunday

Sophie Berel sent me a card card
 dated yesterday saying the letters of
 introduction had reached her safely
 and asking for not acknowledgment
 then before.

But then Ben Ruyter called and made
 quite a long visit. He said Dr. Young
 said no certificate would be necessary
 and that he was being treated in
 manner. Madame Ben Ruyter said
 Sophie Berel was planning to
 go to Alaska.

July 3. Monday

C. S. H. sends Sophie Berel two
 letters: 1. A long personal letter.
 2. A number of letters for Moons
 of which when he advised he had
 given letters to Sophie.
 3. A letter of introduction to acty
 The Mr. Key of Moons. Cheers.

C. S. H. in her personal letter asked
 Sophie to send her a next card
 with a check, while away and to
 write as often as she could; also
 to write her at Louis Ruyter
 very hot, they, etc.

The Black had conference to
 the Harn, Rubenstein and C. S. H.

He said Norwell had absolutely
ruined all statistical work
in the ~~country~~ ;

Mr. [unclear] said he had asked
under the action for a statement
as to Norwell's policy in order to
determine wh. to increase, decrease,
or keep stable circulation - but
seen.

He said action was much
wondered & could not state the
President's policy; that he was
all alone, Woods being sick
ill; that Norwell had not
invited him to go to Amsterdam.

Mr. Black said he would try to
see Norwell in action; that he
and the Board would largely
carry out his policy but must
know what it is.

Mr. H. & Gold were brought to
statistical aspect should be
not leaving; that the Bank
had earned a sum every
month in N.Y.; that now one
would be better off than the

would be; that while statisticians
would somewhat delay there
yet the country could stand the
better today than 3 weeks ago

Mr. Black asked Mr. H. if he could
do anything about the stability. He said
yes he could stop the currency from
action but then would tend to
keep up the dollar - which A
Necessarily did not want; as he
could care up in currency then
forcing flight of capital and
creating ten dollar abroad

Mr. H. said he could not stabilize
by C.J. Selby because without fully
the power to sell for the U.S. of money
& fully it to increase the 4 & then
limit - which was tantamount
to an international stability act
which A has indicated.

The only one in Norwell in form
Hawes & one believe that doing
A.

Healy had advised statisticians

but N. has overruled him!
 Wexley is character!

We dined at Cherry Club with
 Mr & Mrs Croyle. Present: Mr. French,
 Ambrose and Helen Kubler - Mr. Fitch,
 Minnie and Helen Van Rye, Mr & Mrs
 Robert Bliss, Mr. Cleveland and
 Mr. Harshbarger.

Carl sat next to Madame Van Rye.
 She talked much about Subler
 Berd. She said Subler was engaged
 to a Dutch man - van Rye, a man
 with name - a widower with a
 young wife; that he was very
 arrogant and ill tempered; that
 Subler scarcely could not stand
 him and finally broke the engagement.
 She said Subler would probably
 go with + her. Likely at Seattle
 and go with her to Alaska; that
 her ship was at Seattle and he
 will live at the hotel here;
 that he was once on Naval
 Attaché at the Hague.

The NY Times severely criticized Roosevelt
 the morning, Monday and that
 usually he declared stabilization
 of currency of kind substantial
 but now relegated it to back
 ground as a minor issue.

July 4. Sunday.

We sat out on Hay Adams roof to
 see the fire works.

July 5. Wed.

Carl sent Subler Berd a Nat. Day
 Magazine containing pictures for
 Nat. Day. - received. From Berlin
 Carl sent Subler a letter for Mr.
 Nester, Sen. 7. saying he would take
 the letter at the dispatch on 3
 days - Sen. 7.

Mr. Sundhoff called.

Heller told Carl Roosevelt had made
 a terrible mistake in throwing
 over stabilization of currency.

Sen. Nester wrote Carl that the
 civil service can't be reformed

that the last employees of McKeen
were not employees and that while
the Naylor would be retained, the N
must resign.

Cox prepared a letter to Naylor
asking that the Naylor be allowed
to obtain a second ruling that
either he or his wife would leave
to resign and adding that if the
other were against Naylor either
he or his wife would resign.

The other Naylor said they preferred
to leave it up to him - the N would
resign.

The N sent a document employees
just after the N. in his last long
asked that there be a
ruling whether he, being a wife
and 2 children to support they
not be retained and Naylor,
having only a wife died.

They did not involve question
whether the N was a first
employee.

The N asked and to building
his reply to Naylor until above

matter was settled, as conclusively the N
might decide it be decided
without reference to the N's status.
Cox said he would send a
letter in a few days.

The Report called and advised
that to leave the N resign and
then Naylor would be say in Aug 1.
He claimed the was not a
woman of the law, and doubted and
that the note attached to Naylor
letter advised the company, and
further, he said that the N
that the law absolutely removed
Naylor a employee from being as to
married employees.

Myself thought the was in error.
Cox told Report he certainly will
not try to waste the law and
finally they both agreed to call
sunday letter to Naylor as above
and Report said he would
inform the Naylor before the
Service Com.

July 6. Thursday

~~Mr. Taylor~~ was told that such severe law had ruled that the men just below him in list after below him, in observing voting was entitled to a higher rating because of being born in war, suffering disability, and being a wife & two children to support, and that was told by would be deposed tomorrow.

did not get out 4.15 P.M. but was called back by a meeting called by Mr. Black.

Mr. Black said he and Asher had had an interview with Roosevelt; that Roosevelt said he wanted commodity prices to rise and also securities but he did not want a run away stock market; that word should be spread around, but not by the Board, that minutes should not be given out who they are deposed. Mr. Black told him the thought the Board would have to stay within the suggestion of that

committee, say to 12 million there was instead of as now 25 million ~~that~~ he did not favor trading and after that; that he said to thoroughly observed the policy; that he told him the Board was in absolute accord with him as to when raised prices; that he suggested that he say this to Price which he had decided.

Some one asked Mr. Black just what Roosevelt's policy was and he simply said - I do not think he has any well defined policy. Apparently R. wants all prices to advance including stock prices and he does not want a runaway stock market.

Mr. Linton, R's secretary asked Mr. Black to sketch of Cowdell, which he did. Mr. B said he told the Cowdell could not be abolished by the Board for following reasons:-

1. No running
2. Statute requires tested banking of business and he has never had any connection with a bank
3. Such a violent abandonment,

even if legal, would destroy the
IM system.

Mr Black said the IM system must
be absolutely kept out of trouble
and that Roosevelt said, "I am
absolutely in accord with that."

We dined w. Mr & Mrs Henry McLean
at Udney Inn.

July 7. Friday

Muriel told me that Thomas, after
being sworn in attended the meeting
of the Board and then went back to
Nebraska where he has been since.

We dined w. Mrs Connally. Sen
Bulkeley was there. He seemed very
drill and stupid and acted as if
drift. He was evidently "bull".

After we left Eleanor Connally called
up Bertie and apologized for Sen
B. saying he had had a very long
day and was tired out!

Filled the tax return for Grand year
1924.

July 8. Saturday

We dined with Mr & Mrs Wood in room
number 10 Bowditch Hotel.

July 10. Sunday

Sophie Beret writes me a long and
very interesting letter, in which she
said her birth day was Nov. 1.
The letter was dated Sat. July 8.

July 11. Tuesday

Ed wrote Sophie Beret a long letter

Sophie sends HPH a post card
with picture of Bellevue place at
Newbury. Dated July 9 and sent from
Canada.

Mr Black read a cable from Sen Hunt
to Arthur who asked Board
where

The cable offered ten gold
standards as an alternative gift,
or rather ten gold better standard.
After discussion Board agreed to

came in Black when Arthur told
the Treasurer's Committee was not
in accord with current conditions
and no one could tell what
future conditions.

But believe in it as reasonable
but agreed it was absolutely out
of line with Roosevelt's present
policy. It was clearly that
forward to achieve the gold
goal, but it clearly seemed to
lead to embroil Roosevelt, etc.
from.

Thomas of Board returned yesterday
He told CEC + HHH who was
introduced to him, that in
discussion of Nebraska State Co.
he had 2 or 3 alternatives to
offer & that the old hands
were following him to Washington
CEC suggested keeping but he
said he could not, as there
were such factional disputes
the State and he would have
to keep in place!

comment on this would seem to be
unnecessary! Haven't told the H
Board!

July 12. Wed.

Two Black said Arthur had told
him that Roosevelt wanted Wilson to
to call upon 20 million of gold for
the U.S. Treasury and the U.S. Treasury
to buy bonds with 27000000
of dollars by changing at Treasury rate
to give Wilson 27 a credit for
27 million dollars, presumably the value
in England of U.S. gold; the Wilson
credit then that Pres. of Chicago
NY has rising above 4.87. The Wilson
will not live by this because of
the 7 million margin.

Two Black said Two Harris said
this could be done but he could
not do it by carrying 50
million for the U.S. Treasury.

The whole Board felt that Roosevelt
was getting scared and was willing to
and would be as stabilization.
The Board agreed not to object to

Many Members do then understand it
was distinctly understood that
Hornwell wanted this on part of
the managed currency policy.
In Black is to see Hornwell
later today.

There is an extraordinary change
policy!

The very same said the Board
had voted the request of Hull
to agree to the resolution having
down the gold standard on the
ultimate goal.

In your dinner at Wm. B. C. Club
Present: Mr. & Mrs. Black - Mr. & Mrs. Ross.
Mr. & Mrs. Crozier - Mr. & Mrs. Page.

July 13, Thursday

The Board approved request of
Hornwell to carry out the
suggestion of a 2.0 million currency
or of gold to the of England in order
to prevent sterling going below
4.86; but the Board would not

decide on the statement in letter of 14
brought to Hornwell that it seemed
if large sums were necessary the
Hornwell would be better currency
or export.

A long cable for Hull was read a
yelled asking Board to remember
its record and to take up question
of ultimate gold standard in connection
with the other related banks.

The Board declined to remember but
said it would at any objection
then connect with other similar
banks any matter connected with
our local policy. (See Serial No.)

July 14, Friday

Dr. Shapiro called. He seemed greatly
disappointed and said he might
have to resign. He said he submitted
to some report to Prime Minister
but he did not think desirable to
dollar to meet a Treasury statement
will be made. He advised to
not to resign.

Huller says he had been offered

amb. to Germany and would not
consider it.

July 13 Thursday

We just dined at Green. Then she

July 14. Friday

Called on Rachel Hall and had
a good talk.

Sent letter account of Berlin family
on app. to Sec. to H. C. C. C.,
Sylvia Berrill, and Rachel Hall.

July 8

Sylvia Berrill in her letter speaks of
being independent Mrs. James Berrill
was the only request made of
her. This is a mistake. She is not
in prison. Call on her later.

Sylvia dated July 11, told her it was
a letter, not a card - her 2 letters

Mother" and Sylvia's reply to. Give the
key to do what he was not supposed
to do!

July 15 Sat

1144 received letter from Harriet Reed

saying Mrs. James Berrill had
invited her to lunch at Hyde
Park to meet Sylvia Berrill but
she wrote she was busy so say
about Holland she could not
go any where!

Later Mrs. Berrill invited us
to alway with Sylvia who lives
in the State of New York on 1st
via Buffalo while Mrs. Berrill
lived with Harriet Reed. Harriet
wrote Sylvia she told her A. had
dreaded she was, that she had
received 200 letters of sympathy,
& she felt now she could not
we go to Holland in a very little
time could she have done this!

We dined w. Mr. & Mrs. Edward Neely
and met Mr. & Mrs. Hyden of Arizona.

July 16. Sunday

We called on Mr & Mrs Jansen (and),
Mr & Mrs Ross (in) and Mr & Mrs Patton.

At Mr Patton, we met Barbara
van Bruegel, wife of the consul
of the Dutch Legation, Baron E. van
Bruegel Dampier, of whom Sophie
Barth has often spoken to me.

We dined w. Mr & Mrs Crozier &
met Dr Yang, a prominentologist
and once Mayor of Shanghai.

July 17. Monday

Wrote Catherine Hunt, of Memphis
Place Vendôme. Paris. France

We dined with Gertrude Hughes. I met
Adam & Mrs Bristol, Mr Hughes and
Chief of Staff, and Mr Jurel,
commandant of Fort Lige.

July 18 Tuesday

Mr Harris said we telephone
we should have to keep ^{selling} ~~buying~~
sterling a little below 4.86
if .86, otherwise trouble and then
we are trying to keep at 4.86.

Mr Biddle moved a kind of war
over my left eye.

We had pleasant call on Mrs and
Adeline Mergel, consuls of Dutch
Legation.

July 19. Wed.

We authorized Mr Harris, by direction
of Roosevelt to keep ^{buying} ~~selling~~ sterling
we having completed all arrangements
with the Bank of England.

He ^{sold} ~~bought~~ sterling amounting to
\$1,300,000 dollars. Sterling bill has
a little over 4.86 to 4.82

There was a decided break in
stock market, probably caused
by rumors over Dutch stock

July
20. Thursday

The Black Market continued
decline in stock market and
in R.R. said Sterling had fallen
from 4.82 to 4.62, with great
fall - stock market.

Trusts before we whether to reverse
and by some sterling.
Board decided No under directed
by Roosevelt.

Mr Black went up to see Arthur,
still sick. He said all the news
of Roosevelt's policy was that he
did not want Sterling to rise
above old parity - 4.86+.

Mr Black tried to get President
but at once remembered.

Finally he saw Roosevelt at 4 PM
and told him Mr Harrison felt
we should reverse and by some
sterling.

Roosevelt told him the advantage
this and said he wanted in
both to buy and sell for him
to him to violent sudden
fluctuation.

Accordingly we so advised Mr
Harrison.

Allen said there was nothing
order to the M. K. to speculate
without disclosing to us what
the ultimate plan was.

Mr Black said neither he nor the
majority knew what Roosevelt's
policy was, and they did not
believe he had any.

Mr Black said he believed in a
currency policy in gold - so did
all the Board.

Allen said even devaluation would be
better than the present speculation
chaos, altho he doubted whether
devaluation would put us in a

cost and devaluation should be
absorbed, if ever, simply to adjust
gold to its lawful value after
which had rise.

Allen said the industrial value
could not be carried out with
a speculation shifting currency;
that economic stability and
financial stability were
absolutely inseparable.

Allen said Roosevelt is dominated
by Paris Economists, and that
even if later Roosevelt would
turn to our Board for help.

Mr Black said Douglas, Butler

as to Budge and suggested that
he, Geo. Black, should be that
in the future entered and asked
if would accept it at any
offer.

He seemed in favor, but Board
was unanimous that he should
not even consider the matter
President, of his own motion,
asked it.

Allen and also said so. Roosevelt
had any suggestion that any Board
was trying to "cut in" he never
would make the suggestion.

The day has been a very hard
one. Everything is in a state
of chaos - Roosevelt has no
policy but is drifting aimlessly.
Saying he would not stabilize
he has now decided to
stabilize and the next day
became confident and now asks
us to buy steadily again, which
we could only yesterday.

July
Feb 20 Monday, Thursday

Roosevelt Conference - When Board came
short most of day discussing new
regulation. Geo. Haven on line
asked that everything be stretched out
on the Treasury draft including
a jump from 20 to 25 to 30 before
allowed a draft of 20 to be made
and absolutely to rise within 6
other matters to be done.

July
Feb 21 Tuesday

Roosevelt Conference continued. Prof. Shreve
outlined and explained necessary
needs - 3 billion for a year
of currency. Roosevelt as to rate -
he thought some where about
3 1/2 % would do. He said it was
too early to set up a currency
to release the long term issues of cash
to increase for and placing
banks, as their obligations were
negotiable only in dollars, whatever
the value of the dollar.
He said that under the dollar,
could be standard it would

seriously injured but crushed and under
 Board's chair as to them. He said
 we did not know present situation
 but felt we should move to daily
 studies
 The Board were unanimous that the
 duties should be made to clear
 its hypothetical clearing up and
 down

The Bureau will forward the Record
 of April 22. 23 as requested by telephone
 vote after 4 p.m. came meeting of
 May 23 authorizing 4 p.m. came to
 purchase up to 1 billion of last
 year, - as to the revised position of
 the authority.

We drove over and dined with
 Rachel Hale.

The French had leaves and say we

 must go to effect that the law
 was not to be called because
 of the long Rev. of M. Bank

July 22. Sat.

Have not heard from Sophie Buel since

 his last letter from Glacier
 Park when she answered Emerson.
 Sunday - at noon.

Will telephone Sophie Buel accordingly
 post card
 will write Sophie Buel a long
 letter to Glacier Park Hotel by
 air mail.

Mr Black told us he bought 25 million of his trees but changed his mind when he saw them quickly the stock market came up then as

Mr Black said Achern told him that Worbury told him that one delegate to Commerce Commission were a ludicrous group - almost like a circus show; that they brotherly awaited Roosevelt arrived but when he arrived he had absolutely no inclination for Roosevelt and nothing to offer to himself! He did bow to a measure of stabilization where Roosevelt presumably reacted on

Mr Black said he was glad not to be in such a cabinet as the sound money men - Achern, ^{Shoup} Langford, & Smith would surely be outwitted by the soft money men - Wallace, Fisher, Hooley etc, while if he held off on Board might have a kind of

vote power over craft act
Mr Black said mostly that he had since the other day in silly or crazy story after they in Europe etc of capital.

Cost told him one needs slowly show that Roosevelt decided to to buy and sell, and he said he would purchase a man and call it.

We gave a dinner at Van der club to Barm & Barmen van Breugel, the Committee of the Dutch Legation

The Black said the 2 weeks loan
in March. & said as starting had
about expired and that Roosevelt
wanted it renewed but two weeks
more. He said Achard would

of the firm said he could do
nothing until Sen's return
where made Thomas angry.
Novell said the worst of the

Mr. Black said that when he visited
Wooden last week he told him he had
called at Norwood in telephone and
had just told him he wanted to

talked of visiting.

Mr. Black said Asher is a little

Cardner came before Board and told
us of American conference. Briefed
down the account was:-

1. Am delegation at the beginning met in
a meeting having an attachment
return to the gold standard
and offered moderate - the
fund and the Party to be fixed
by each Nation.
This was unanimously voted by
full conference.

2. a plan was offered for central
bank cooperation able to return
to gold standard.
Lombard made remarks that
this should be submitted soon
for determination.

3. This was referred to Mr. Board
which determined it as
irreversible, but said it will
always be ready to take up and
consider the other two other
central banks.
Norwood used Board letter as the
determination

4. an agreement to try to stabilize
 exchange with central reserve
 funds using gold value for
 the purpose.
 Roosevelt declined to agree to the
 without even consulting the
 Fed.

5. Another suggestion - central bank
 to use their reserve influence
 - without using the value
 to prevent speculation in the
 market of exchange.
 This was the agreement made
 provided, and then out as to which
 action, Roosevelt at all times
 Roosevelt at Cambridge &
 secret.

Roosevelt learned the news
 reluctantly on July 3 without
 consulting the Fed. The plan
 was a "short silver" market
 against the other National
 growing one deliquescent and all
 the funds.

6. Silver

In Pittman's silver resolution was
 remarkably adopted. It would
 index to market sales of silver and
 other claims, especially U.S. to buy
 into a fairly limited amount.

The Pittman resolution declared for
 the gold standard unequivocally
 with silver to limited amount.

 Norman at Mrs. N.Y. and talked with
 her 1/2 hour; that Norman said he
 could not understand our monetary
 policy, other what it was in what
 the war was, & that there was no
 secret of it.

The Black said to explain it to the
 President better than he knew himself!

The Black said the cause had also
 made another visit to monetary
 policy.

In discussing the monetary policy
 the Black said we should do all we
 could to help the N.A. by buying
 Liberty Bonds; that whether the
 N.A. is to succeed or fail is involved
 in great doubt!

The banking committee advised in favor
 of reform when market conditions,

Found list of New City vacancy in the
C. direction. James said today is
Adm. was fixed when 2 years ago the
Colorado men of kind and property
of New City was added. James said first
they to be settled was whether the
policy was to be secured; that the land
reverted in favor of Colorado in the
assembly. Thomas denied any such
policy but the other members said
it was the policy unless cleared.
The Comd. sd. such policy was a
violation of law - concentrating 2
directors in New City - the was violent
and almost independent. After
explained the Am. cannot clear
any director being released and
so could Adm. in every clear C
direction.

Thomas had returned to see James
revert and finally convinced
took in. James said the best men

would be large.

But as he had assumed the policy would continue, so he had made up his mind to vote for Caldwell, but if the policy were changed he should want to know more about the other candidates.

There was talk about a gentleman agreed that New City would ask only for 2 directors.

He said he had never heard of it but clearly it must have been a bank agreed on that had not then been constituted, and could not bind it.

The Black need had no attendance at the Com. meeting, saying that he was out of town dealing with affairs, except on days when there was a Com. meeting.

The Black called for an inherent vote on the desirability, other things being equal, to allow a New City man.
