Oct 1. 1933. Sunday.

at Mt. Lumber with Mrs. Wood.
and Mrs. Staughton there.

Oct 2. Tuesday.

dined w. Mr. Blase.

Oct 1. B Globe has article by Miss Hemenway
saying that it is understood that
Roosevelt is ready to give CEC a
business mission to get him with the
M.M. and give him release to a
New Course, but that CEC does
not want to spend his declining
years abroad.

Thus is the best CEC has heard
of this.

Oct 4. Wed.

CEC sends interesting letter to
Sobell Borah from San Francisco, dated
Friday Sept 29.

CEC writes Sobell.

Byron Winter called. He is now at
La Guardia's campaign headquarters in
entire on stage.

He said he had could have
easily defeated the Lanning
candidate but declined to run
and that La Guardia was the

Oct 5.

mentioned; that La Guardia would surely win but suddenly he has become a candidate & that this will split the orthodox vote and elect Taft; that Vincent Astor is the business of the race, and it is generally supposed that Roosevelt owns him. Natche said this was just a bluff and that he - Taft - in Taft's way was to be the one of N.Y., and is greatly injuring Roosevelt. Edw. Collins Daily indicated that Hennessy article also referred to.

Oct 5. Thursday

Dr Miller said it was being whispered around that President & Mrs. A were real very close together but that each had separate lives and that this explained the A's frequent absence on work.

He also said that Taft was said to

- be using the Nationalists to build up a personal machine on himself in New York and not President to succeed Roosevelt.

Oct 6. 7

Oct 6. Friday

11:45 under she talked with Mrs. Curry who was going up to Grand to Longing. She said she had talked with someone to have been on Social and would love to have her.

Oct 7. Saturday

Edith Helen called up and said she had wired Bertie who she would go to N.Y. on Monday. Edw. asked her to lunch or dine with her tomorrow and she said she would let her know tonight. She really did not seem to want to.

Norman Brown Bob said today that N.R.A. was not succeeding.

He also said Secretary of War City said two new directors should not be a New City man.

Dr. P.H. Thomas and her wife called. He said he was still there in the Democrat camp of N.Y.!

Edith Helen called up in evening and gave many excuses for not coming to lunch or dinner. She said

Oct 3.

be angry with me. I would like to see
letter from summer, whether or where
she answered, except a letter to Dexter.

Received letter from Prof. Oswald, 9 Marlton
Road, Reading, England stating that
he had had another photograph made
of H.H.'s loose sheet, and then sent
it, together with the photograph of
the original letter - known to family,
furnished by Marguerite Hickey, to
Mr McBurnie, Sheriff, Clerk of Court,
Dumfries, for deposit in the Burns
House, with the original 2nd loose
sheet owned by that body.

Dated Sept 26. 1933.

Oct 8. Sunday

wrote Schlie, long hand about
Van Ruyter business to answer my
letter of Aug 20 until Aug 30.

called on Mrs Patton
she said Madame Van Ruyter
second son was very ill with
intestinal trouble in Paris;
that they will go to her when

Van Ruyter died; that she was now in
Paris with her and would be there
late in October.

Have been thinking over Henny's
article in Sunday News of Oct 1.
Am inclined to think some persons
may have been trapped in Newcomb
by Trulliman who went to job
combined w. some business copy with
cut & killer because of Sec 3 of
Election Law.

There is of course ground for the
feeling that N.Y. ought to have a
representative in M.A.S., after it
now has Sec. of Treasury, its
Chairman.

Newcomb had 3 commitments to
make and, when Rev. Bleser gets
through he can still attract
a N.Y. man. He could have so
done instead of a Kentucky
Thomas of N.Y. who was visited
a dirt farmer near a bridge and
who still in the room of N.Y. St.
Center!

I can not believe Newcomb, intimate

as he, his children, and family has
 been with me would yield to such
 pressure. Now can I believe that the
 place would ever consent to this.
 It is hard to have to live with
 such a sword of Damocles hanging
 over one's head, but could what way
 even if we starved it would not be
 as bad as the loss of Anna. I have
 faith, deep religious faith, that we
 will turn out well.

Net wrote me the other day the
 Boston Planning Bd had approved
 buying the other land and that the
 council would probably approve
 it Wednesday - tomorrow

He also wrote that he had had an
 interview with Philip Allen, a
 director of Urban Bank and was
 over the case. He was enthusiastic about it
 and arranged an interview with
 Frank, President of B + S + M who
 was also enthusiastic. I suppose
 would bring an incorporation
 business to Boston; that Allen had
 arranged an interview with
 Dick Goodenough.

Net sent two letters to Boston.

Boston telephoned them and that Ann + Ann
 von Arnim wrote that they received
 word in Oct 1st on a west. end,
 but that he was very busy and that
 Hendon von Ruyter was to be in Wash.
 the last of this month.

Edith Helm called me to say good bye.

Oct 9. Monday

NY room shows that Jennings,
 collector of Post of NY is investigating
 the New Cambridge Co. charges!

Oct 10. Tuesday

Received long letter from Solahid, she says
 she can get back in time to go with.

Next address - The Baltimore - An angle

wrote New York on to Prof. Brown who sent
 the last year the photostatic copy of Bureau
 books, prepared by George Fisher. He delivered
 it to Mr. McDevine, Sheriff, clerk of court, James
 but deposit in Bureau House.

Oct 10th we meet with Stevens.

Mr. Harris said that there was no
 room in central banking, police

Oct 10

to continue when market purchases, but there was a great deal of feeling whether it could not be greatly detrimental to hold it such operation.

Mr. Black was Embellisher for continued operation of 35 million or perhaps 50 million here week. He said if we did not we would give a tremendous incentive to violate under Thomas amendments.

He said the first round check its 3 1/2 billion of money for production work; take care of debtors in house about since Jan 1. 33; Thomas worry control for use camps nearby it

all and all of Board's sentiment. Kelley to Mr. Hoover said the director named people not to participate in further purchase of that size unless requested by Roosevelt under Thomas amendments.

Mr. Black said he did not believe deviators would raise there.

Finally Mr. N.Y. asked advised of Fed. for purchase of the

Oct 10

advising buddy as a very reasonable price, saying he personally liked the decision and that he a new buddy with about \$20000, which would take its trusting arrangements, add to its director room and bonds should be extended present practice. He said it was not absolutely necessary at present time, but could be in near future.

The Fed discussed it and voted:

- Aye. Mr. Miller Thomas
- No. Mr. Black, from Szymanski.
- Rest on the vote.

Wood & Embellisher were called a wooden asked for more time. Embellisher said if he had to vote now he would vote Aye but he would not object to reasonable postponement.

The other members of Board Tuesday Oct. 10 at 3 P.M.

Mr. Hoover was recalled and at end incidentally said the Fed felt the Fed had no authority and that the Fed should do so only by consent.

Wright was called on and said

Oct 10

There was no substance in Miller's
 giving such authority to the
 James the reserve to vote. Miller
 and Richmond that Ad had no
 authority. This was denied. Cass
 would not vote as he thought we
 should not give up an authority we
 had exercised for many years and
 our general supervising power.
 Miller was not but came in and
 objected to the substitute -
 was moved to reconsider which
 was denied.
 To day the matter came up again.
 Cass said he was ready to
 withhold but felt we had
 authority.

The Black part is letter of
 Geo Harding charging the authority.
 Cass offered a vote that the
 Ad had exercised the authority
 under its general power of
 supervising but did not decide
 it for some days and asked
 that the vote be extended.
 Miller said altho he had voted
 aye yet the question of power

Oct 10

exercised by Geo. Harris was so understood
 that he should change his vote and
 moved on a substitute for Miller's
 motion that Ad discontinue the
 substitute.

Passed.
 aye Geo Black, Miller, Symmes, etc.
 June
 No. Cass, Combs, etc. No.

16 Geo Harris had not raised the
 legal point Cass believed the substitute
 was now the authorized substitute,
 as Geo Harris had said that Cass
 would vote aye.
 Miller change of vote ended the
 matter.

An order obtained before Ad and
 explained new banking, authorized
 to be organized it would be N.F.C.
 would subscribe capital in numbered
 stock, and the bank to be made
 of closed banks into the 5% program.
 all the reserves paid to work
 in any way in holding to value the
 assets. The Miller and Richmond or
 demand debentures of N.F.C.

Oct 11. 12

In the evening Mr. Mueller, staying at
Hay Adams, came up at my supper
with the Council Mr. Thomas and
stayed 1 3/4 hours, mostly in general
conversations.

Oct 11. Wed.

Call writes Schrie to Sen. Apple.

Oct 12. Thursday

Winn met Board. Voted, subject
to Board approval that the authority
given to C. C. Carter - about 22 30 to
purchase up to \$1 million Govt Secs
be continued and withdrawn for the
unneeded part of the authority.

Mr. Hoover has presented a realistic
study on credit that in contrast
Bank proposals no doubt are
less realistic in view of
depression, but that have better

objectives, so far as banking and
credit matters are concerned and
depend on bank resources when
the early adoption of a broader
program, designed to strengthen
confidence and to increase the

Oct 12

flow of credit, both short term and
long term, into areas which need
for a well balanced and enduring
program." (see Sec. 10.)

They did not say what the
broader program should be.

It was agreed that the should be
held absolutely confidential, except
that the Board could show it
to the Sec of Treasury and the President.

It was also agreed that it
would be under them and
stimulate the demand for credit.
It is really a stab at Roosevelt.

Miller is sick with a cold and
has cancelled his S. Mem. talk

Miller sent his other day to Bureau
an amended outline which I
did not make comments, but
learn

Call called on her + Mr. Thomas of WPA
Thomas said he had been meeting

low for 40 years. This means he need
be well along in the 60's. He said he
was still very busy working at the
same business and also very busy
with his work on them in the
Dun. St. Louis!

Colton Helm arrived at Hill last
Tuesday Oct. 10,

Oct 13. Friday

Call called up to see how Stella was
and to see her of condition of last.
He. Mr. & Mrs.

Helm said he had a long talk w/
Roosevelt; that he thought Helm
suffered of a public stock of
retains return to a good student
was somewhat radical.

Helm said Roosevelt talked a
good deal in many matters
and that he would like call
about it on Monday. (He said
nothing to rescue call below B
helped of her).

He said see Mrs. Helm to see
announced today that it will
sell M.C. 50 million of bonds

stock and reduce its common stock to
25 million. Using 25 million
surplus, reserves, Treasuries etc
but. It means a change of
over 100 million. This is as even
subject to approval of Council &
M.H.

Arnold and Beard told me much
of interest.

This is the best chance we have
by see of money!

He could give a national credit
in year and a half ago.

He had also granted it read through.

Could not go to Hill. Use week.

Oct 12 Thursday

Helm said letter of Beard to aty has
been lost by Murray but that he
kept address of Secy interest in
letter should be drawn up and should
be sent to Attorney General!

Oct 14

Oct 14. Sat.

Met Strauss at Corner Club after lunch. He said the preferred new Bonds had been given up and that all relief for debentures in closed houses had been left to the R.F.C., and he seemed very disappointed with this.

He said he had been called upon for a review showing how to increase prices and he asked Goldswain to give him one. He was bitterly opposed to inflation of prices through issue of money.

Did not Goldswain at lunch and suggested amendment to what I had written to buy callable notes direct without intermediation of a H. bank.

Goldswain said he would agree to this but doubted whether they would.

Was with Camp this at Coburn the Bond later, just another suggestion - that instead of issuing money they may buy callable notes

Oct 14 -

discovered by H. bank without the involvement of a H. bank. The object would be that Bonds would sink then new notes in place and then Bonds would have only good value.

This would do away with fear on part of Bonds because of having to reduce value discovered and the new would tend to make Bonds less liberal.

Also want an amendment showing that direct loan law of 1932 to say indirect or secured.

Law Commission suggested this long ago and did advise me to consider it at the Executive Conference, but nothing came of it.

Oct 15. Sunday

Called on Mrs Newlands and Palmer von Neuzel. Note out.

Called on Bester this am.

She said the Maritime Bank of N.S. had unanimously approved the development of

Oct 15. 16

The Cape Harbor, as a great improvement and of greater value to Port of Boston; that he was filled with excitement and joy over it.

Mr & Mrs Hamerwell were out with Bertie at last.

Oct 16. Monday

A. announced a new decree in N.Y.C. to buy some assets of bank closed since Jan. 30 - up to 50%.

Merwin of N.Y.C. June of N.Y.C. comes of James Smith & Embertall.

Miller said at his lunch in Newark he talked a great deal about Treasury from N.Y. - apparently in confidence and he seemed very sure about N.Y. He chose also rather suspiciously about people who are crowding him in behalf of sound money.

Not asked if he seemed satisfied with the Board and Merwin said he never sleeps at the Board.

Miller said while talking last week

Oct 16
17

was up in the air, talking over Miller. Miller said he evidently considered himself a man of destiny and all got impression that his sense of power had gone to his head.

Oct 17. Tuesday

Henry Brewer came and sat with Mr and Mrs. Bradstreet with him.

Mr. Black came in afternoon and said he was with Roosevelt Sunday - the Express; that he was the only man; that he talked over 1 1/2 hours with the President; that he asked him to promise that so there was any criticism of the Board, he would give him a chance to answer it; that the Board was unanimous in loyalty carrying out every policy of A.; that he asked to see Black if any criticism; that he discussed other matters policy & said it had done much good in staying debt; that there were some objections among the Wharves; that he said he never goes with the sense of the whole. He said he shot of currency embarras

Oct 22. Sunday

Sarah Cary went to Mt. Needy
to spend Sunday.

Called up Rachel Hale and found
she had leased the house to
Mrs Isabella Perryway and was to
spend the winter in N.Y. with them.

Oct 23 Monday

Nellie Fairbairn called up.

Oct 23

Roosevelt in his last report came out squarely
for a managed currency. He said direct
- action must wait until prices come
down, and to make the rate the first
authority to R.F.C. to buy gold out at
prices fixed by Treasury + President; also
to buy and sell gold abroad. He said that
when prices are measured then the gold
content of dollars will be manipulated
so that Treasury never as the
dollars will be undervalued on a
permanent.

Two Black. told Bob this after that
he heard Sec. saw that R. had
determined on this; that he attended
a meeting of the Advisory Advisory
Comm Sec. very; that they prepared
a report suggesting that the U.S.
do this, - buy + sell gold, exchange it
and that Congress underwrite the
low cost loan; that he and Sec.
Harrison, at the time, declared to
sign the report; that the other
signed it, but to no avail.

Miller said R's action was a deliberate
attempt not to stabilize but to
lower the value of the dollar,

Oct 23.

which would cause undue concern and
inherent confidence and trust being
indulgent recovery.

Mission said to have talked with Skraggs
and that he - Skraggs - remaining

In Mass. read a memo of Goldmann

of the mentioned gold transactions,
which were decidedly advised and
much worse than anticipated development.

N. never consulted the Board as to
removal currency radio address.
Miss said Prof. Warren and Board
"put it over".

Oct 23. Monday

He + Mrs. Henry Brewer dined with
Miss.

Oct 24. Tuesday

The Press generally interpreted N's
radio message as a turning to inflation
and every one sound money ideas.
The NY Times was very critical.
The NY Times thought it obscure
as to its real meaning.

In Mass. said there is no legal
authority in N. F. C. to buy gold
or any thing else; that the only way
is possible to get an opinion that
it has the authority; that Roosevelt

Oct 24

John ordered R. D. Thompson to buy
the gold, but Adams says it could be
refused. Mr B says Mr. Adams could
buy the gold and at once sell it to
the Commodities which bought the
price.

Mr B shows in contentment of Mr. Adams
who, he said wants to know if
could all gold held by Adams &
cannot get getting the market be
devaluated.

Adams is to write R. Adams can read
and should not be done.

Mr B says Woodin is a sick man
and wants to resign but R would
let him; that Woodin was amiable
but not an able man; that he
now is a man before hand.

He said Adams a contentment for
Shoup; that he has seen him
only once since he became Treasury
adviser and that said he did not
want to see him again!

 a prominent N.H. character and
 a powerful man.

But then called out Hutter and
 said that while he had no

Oct 27. Friday

Met Group Hutter in Berlin. He told
 me again of the numerous instances
 of the law passed by the Maritime
 Council of Ch. of Com. a week or so days
 ago. He said the resolution was
 introduced by Charles Stewart of the
 Council and seconded by another
 S.S. Mr.

He also told me of his talk with
 Brown who said the solution was
 granted - an object to see kind to
 her. Later Geo called her up and
 explained that of the 12-mills
 first involved the state owned
 5-mills (4-mills of, with head line)
 the Geo Co. 4-mills and the
 N.H. Comm. must pay 3-mills.

He gratefully said he was glad
 to know these facts.

Oct 26. Monday

Arrived in N.H.

Just letter from Sallie Brown
 dated Los Angeles, Monday Oct 26.

Geo. Blair reported that he attended

a conference yesterday as to what
 I think, attended by ^{Mr. Hiram} Asher, Bremer,
 Prof. Loren, ^{Mr. Hiram} Mumpston, etc etc; that
 the President informed the staff by
 and decided to have the R.F.C.
 buy gold abroad and wanted the
 staff to work out the mechanics
 of the object; that he asked the
 Mr. A. G. to buy bonds of R.F.C.
 to furnish money for the members;

The Fed yesterday overruled Wright's

it would regard substantive notes
given to R & C by absorbing banks
as substantive and not as a loan.

The act of June 15 provided that
the R & C could buy registered stock
in banks Nat. or State. It further
provided that where the State
law did not provide for registered
stock, or imposed a double
liability in it - debbing on law as
to Nat. banks - the banks could
give substantive notes.

The Fed unanimously ruled that
it would consider the act of June 15 as
as providing that substantive
notes shall be regarded as substantive
funds, a general conclusion by
Congress.

The Harris came before Board
in quest of having 2 additional
Sec. reviews.

Able, a just before the meeting,
he told me that the Board
secretary would describe a
R.F.C.; that in Philadelphia certain
people got very shrewd and liberal
views, by returning the laws been
of course the law, discussed,
in Wash.; that the review was
over Philadelphia that this was the
surest way to get such shrewd
and liberal views.

He also said an able man - I
forgot his name - had been
that in the lowest part of
at request of Tubby the day.

Sam; that he had declined to recommend
a return on which was not entitled
to relief; whereupon Ruby sent to
him - you are not! better than at

One of the things, I had heard
mentioned I do not remember
which.

Will told N. was to see Geo. Black,
where he died.

Geo B. said that did not see him
him; that then K. & C. had a
very able atty - well atty of

to NY in morning.

Sophie had engaged a very good room
for me.

Sophie left a note saying she was
leaving with Kate and her husband
about 4.

at 4 she returned and we went down
and were together from 4 to about
6 having tea together.

at 7.45 we drove out to Dr
Butter and had dinner with the
Wardens of Carnegie Trust.

Dec 11. Monday

Called up Sophie and we agreed to
meet about 3 P.M.

Went to Carnegie meeting and in
the Grouped Branch of Carnegie
for Sophie.

attended Carnegie meeting and
then lunched at Century Club.

Drove back to New West hotel
and sat w. Sophie from about
3.30 P.M. until 4.45. When I

left 5.20 train for Wash DC.

Sophie gave me a Christmas present

for Becke, need to be observed until election
 It was a bowl for Santa Vija, Santa
 for cup with ashes. Beasted and
 very pretty.
 was told Sabine that whether she
 loved it or not, Becke and I
 looked in her as a sister rather
 than as a enemy. She seemed really
 pleased and even asked her if
 she surrendered with absolute
 respect. She said she "surrendered"
 not with hostile surrender but
 with positive pleasure.

Dec 11. Sunday
 Herman has left stack of

and wrote Sabine Becke and
 used as a Christmas present a
 sack full of tea just as she
 was drunk yesterday. She said
 she will do this.

Sydney told me that he

Dec 12. Tuesday
 Mr. Lucas, organized at St Johns called
 in evening. He asked me to make no
 radical changes until the next
 conf. in. At first I agreed to this
 thinking he referred to Colton Smith.
 Then he said Colton Smith had been
 here 2 weeks & that he referred to
 the Hermann Becke. I then told
 him I would have to talk to
 Mr. C. B. Smith. What he was
 wanted was to continue simply
 the Walter.

I told him my views on money and
 said I wanted to give the conf. what
 what it wanted, but that if its
 tastes were too hard to gradually
 change them... I was confident
 only in the report of the conf. to
 say amen and not come at
 some further; also to simplify
 the tea.

I told the sermon changed to

He asked if he could continue upon

other expenses notwithstanding
I said I don't know what authority
I have, but if I have any I
certainly shall not object.

I asked for some names of ladies
to put in an advisory committee.

He told me about the names of
Dr. Johnson - that they were not
shared by Mrs. Johnson; that they
were not likely to be together; that
some years ago a niece of Dr.
Johnson came over & that he was
much attached to her; that later
another niece came over & he
was much attached to her & was
much with her, she being the
only one; that Mrs. J. was evidently
jealous & shared their views.

He said Dr. J. was before in
Mpls carried some ladies with
a woman, and frequently she
would put her arms around

Jan 15. Friday

was made some gold time table
of train from N.Y. to Wash. and to
Wash. direct to Balt. Station.

At 4.30 Mr Black called a special
meeting. He said yesterday he conferred
w. Roosevelt, Huntington, Cullery
Ems. A rumor was read referred
by a Mr Holdsworth or some such
name which the ally the said
thruout his views, as to the
method of obtaining the gold
in gold held by the Fed. or
devaluation of the dollar.

The Mem. claimed that the gold
could obtain via the Fed. gold
by the Treasury or by a Treasury
order, and under Treasury of

Money to maintain the
currency under another act.
In order to get the gold it
was suggested that a Treasury
agent with an attorney visit
all branches and branches
having gold at the same
time as the Fed. obtain stamp

Jan 15. 22

If change had closed, and decided
that the Federal surrender to the
Fed all gold wherever situated
to which the bank had legal or
equitable title, the Fed. ^{being} a
meritless that he held it on the
Fed and that after this was
done Roosevelt could issue an
order devaluing the dollar under
the Thomas Amendment; that all this
could be done before afternoon and
morning of the next day; that
in this way litigation might be
avoided at least until the Fed
got the gold or the report to it.

Mr Black said he told R. that
he doubted constitutionality of
Thomas Amendment; that now legal
should be had Treasury that if at
any future time the dollar should
be restored, the Fed. could return
to the bank the gold it had
notified on the day; also
that the Fed. should agree to
announce the Fed. by 29

He wanted out kind of devalued were done away with other voluntarily or by law or holding the Treasury accounts reconstructed, ten collected as the Treasury would be worked out and the Treasury destroyed.

Legal and then then could not legally be worked out, but ally his sent it could.

He then also pointed that the money would give the banks gold certificates but the gold turned in redeemable in gold dollars but of the new value but it said the Sec of Treasury need not necessarily value the gold certificates in gold - meaning of course that he might value any lawful money.

Ev Black indicated that of the particular plan was adopted he might help.

Allen said the Board was held on as if the legal report expected it could no matter all agreed the first week.

Dec 15 33

might be justified in getting ten weeks but may possibly described that the plan was legal.

Allen said a legal way could be to see if Treasury to cur in the Treasury to increase the gold certificate bond in the Treasury to 100% and then could settle on ten banks about 3 billion of the gold - M.N. outstanding being about 3 billion; that ten banks held about 3 8/10 billion of gold in all; that ten money 500 million be left in the banks with ten accrued profit

Ev Black did not object to the first getting ten weeks, but felt the proper way was for the Treasury to keep the gold, giving the first credit for the amount of the debt, then, of course requiring legislation, in which other circumstances indicated above else be given the Treasury.

Support was made to get them on New York Base. Allen felt that could be no more and could appear under the contemplated legal proceedings to hold the Treasury, where need of the old authorities, but

Entered in an exchange for gold certificates
wh. Treasury is not bound to redeem
in gold, the plan again authorized
acted by Congress

The Board felt that if Treasury has
sufficient gold to keep the gold then
in rolling the Fed can do to
oppose it.

Ad felt it could not however
advise the Fed to purchase the
gold in return for gold certificates
not redeem. in gold.

Board meeting made about with
Newton Baker for Treasury and
and also decided to call a Press
Conference, as suggested by N. at
earliest practicable date - say Sat.
of the week.

Ad voted to let Alty be in control
consider his plan as our course
and w. the Treasury.

Dec 21: Thursday

Ad met with Newton & Baker.
He said that he would probably
authorize the grant to Roosevelt the
power to devalue the dollar.

He also thought the only absolute
safe way for the Fed would be to
have an act of Congress authorize
us to use of method for devalue.

He was inclined to think that
Congress could not take over the
gold in exch. for gold certificates
except under protest.

He also thought Sec of Treasury
could order the Fed to take
in their gold.

It was felt that the Treasury claims
will be readily able to the Fed
ultimately will acquire or devalue
all the surplus under existing
law

He finally went out with Wright
to write an opinion.

In afternoon Board passed a
Budget and fixed column for

Dec 22. Friday

Board met with Treasurer. The work
from week ahead as could not read
next in line.

Mr. Black gave a concise statement
of the bank's status to sell.

He said the present request in amount
of \$100,000 and Treasury is:

Wishes voluntarily to agree to deliver
to Treasury as held subject to its order

as then gold wherever situated;
to receive in return gold certificates

which can not now be redeemed
in gold, and which the Treasury

wishes to agree will can be
so redeemed.

Mr. B read the rules of the Act.

" " read Newton's Budget
plan, which was that the War

could not lawfully voluntarily
take more than gold, but advised

them to do so taking the added
gold certificates as some time

being a benefit.

After long discussion the Board
asked Board members for their

views so they could release

Dec 22, 33

bully to their desires, which Rowlett
agreed they could do.

The Board however expressed the feeling
otherwise.

1. Request of President, in connection
of devaluation, and copies of Sec of
Treasury under Sec 11 of Act of 1933
to be obtained in custody.
2. Belief of Board members that
all requests for devaluation should
go to Govt and not to Mr. Hoover.
3. New belief that ^{proper} Treasury copy
to have copies sent.
4. A voluntary buying over of the
gold would be illegal, according
to Board opinion.
5. If no compulsory action, the Board
should then over the gold or
lend it for Govt in return for
accepted gold certificates, but a
request should be filed Treasury
on these points.

The members also reached about
the same conclusion except that
on 6 2 they received copies of
requests to meet all requests
Board liabilities.

Dec 22, 33

very discussion, was pointed out that
Bureau advised in that Sub. C was
probably valid, the Treasury
amendment; that Sec of Treas. had
right to pass on the gold under
Sec 11 of Act.

The above was read in the meeting
of the Board but was given to Board
at its meeting with ten yesterday.
A copy of the report, prepared by
Bureau, was read, but all agreed it
was too formal and almost obvious
in carrying the proposed action of
Rowlett illegal, and that Mr. Hoover
submitted to avoid Bureau to do.

Question was raised - is a Mr. Hoover
above instructions, which really
were Board requests.

was pointed out and would
agreed that every dollar of gold
was in the joint custody of
the Board and Mr. Hoover, under
Sec 16 of Act.

This question not decided.

Board agreed to have meeting of
the Board next week the

Dec 22. 33

and is troubled as what Roosevelt really has in mind. There are several possibilities:

1. Cull in gold in order to devalue & obtain credit.
2. Use credit to meet these debts.
3. Cull in gold without actually any devalue so that many can have all the gold.

and is now rather of belief that 3 is correct.

Mr. Harman said he heard that if the people were up some morning and found that all gold was taken from the banks and nothing but irredeemable certificates

would be in its place, there would be a terrible run of currency which would culminate in a banking panic.

It is suggested that such a message be sent direct to President.

Mr. Black suggested it be

sent to Board which would then forward it to President.

In Black the Carl he will talk with Harpeth and try to work on Caper.

Carl sent about on Dec 16th the President had power to devalue and the modeled power to call on gold in contemplation of devaluation, and that the law should limit on gold would refer to Warbats.

Mr. Blair said at first they desired him would be any pretext for disapproval; but if there were any pretext the money was not entitled to it.

He said they asked as to his father's ability; that Mr. B. said he was a good man; that they said yes but that did not answer the question; that they said his father was a telegraph operator, when his brother died; that his father had been some years ago that if he ran for President he would put 2 million dollars into the campaign; that they finally said under these circumstances, what can I do, really how can I benefit his father.

He thought they however were more the benefit of his late father's to Adams.

Jan 16. Tuesday

An evening was carefully the working bank line, it appears that it has given the Sec of Treasury power to buy and sell in other markets as he may see fit, including Green Can. Notes and Gov. Bond funds.

In other words it makes the Sec of Treasury the most powerful central bank in the world.

While it does not have any in other market powers, the Sec of Treas at any time could exercise his own other market powers - but never broad the way.

The whole growth of monetary currency and credit is taken away from us and given to the Sec of Treasury; a total abdication. It turns banking into total politics. Under the law the Admin can have entire power and will have to assume responsibility.

Under what Admin could dare to nation speculate. Power politics would control it.

Jan 16

The form of the currency has been combined its attack to the dollar features - sooner or later they will decrease the real purchasing power of money in Sec of Treasury.

The Black gave out a very good reference who will be in tomorrow papers. (See Post)

Mullen sent me some Remond's yesterday, that he likes and has bought and almost shared - while I gave him a Gembeid in my interest yesterday!

Board met with Evers. Description and Buller came in and explained his immediate financial program which was accepted by all.

Buller spoke on a resolution loan but Buller said to limit just now would interfere with money program and direct funds now being used for family purchase.

The Everson should stay away and to find his program by Wyatt and Stobb. The financial one was: - truth in a franchise but in place of today the gold: limit power to the Treasury on an emergency of 2 year; vesting his power in a Board; the Sec. to be appointed by President; limit use of

stabilized bond solely to meet the international exchange value of the dollar etc.

Mr. Bless said Board had already taken note that the gold should remain in ^{the Treasury} subject only to the franchise tax, and asked if Evers would be willing to allow all the gold to be loaned over as a loan for carrying to get the other amendments. The general opinion seemed No, and Evers said we should present all our amendments without any allusion at Congress.

Mr. Bless thought we should give the credit - agreed to reserve - mainly by the Everson - to them. Evers objected to this & said they should be given to Mary - that otherwise we should lose the all by truth and Board in the open conflict w. the Treasury. The amendments were finally referred to Mr. Evers to get their details. - sites. This will be decided Sunday.

was called in Sobbia who said
Madame von Breyfel was going to the
train with her this morning - on
the 11.30 B&O train.

She asked what to be sent and at
last knew a few days in advance
before we came to NY. She seemed
very grateful to me for the little
we could do for her.

At 11.30 we both said to each other

Jan 30

that, perhaps, we may never see her
again. We are both devoted to her
as a sister, and she has been a great
shut in our lives. We trust that
fate may be kind to us and that
some time, somewhere, we may see
her again.

Edw. Black told Ed that he had lunch
w. Marjullin, who said there was
nothing in the news but her in
Hemstey Cem and that we could
dash it for our friends.

He also said he was in New York
at 3.30 PM and saw her sign the
Gold book. That R. asked her opinion
on when to devalute and he said
to run and going to devalute it is
better to do it now; that R. is
to decide this tomorrow.

He said he asked R. if he would
write her a letter explaining the
situation of what the Board and
System had done along lines of
cooperation with her and he said
he would and asked Ed to see
Ed. Harren to prepare a draft.

Ev B. asked evs to make a rough draft of letter.

Ev B. said Maryetta was going to manage the Stabilized bond thro Ev. Harris. Ev B. told her he wanted to have experts with her at the hearing but he said he did not want them.

Ev B. said all good held by Mrs would be carried by her on account of the hearing; that it was not yet settled wh. the Mrs should give hearing a Govt credit or at least have Govt cert.

He mentioned the bonds as if the act were later bond which the Mrs might want some rights in accepty, said certainly not redeemable in gold.

He said the bond of the Govt cert was being changed so as to provide for redemption not a full but in manner provided by existing law.

Ev. Hunt. came down to testify on same for Mrs. clan.

He said he declined to read a lesson on Bk of America; that Woods from White House in presence of Roosevelt begged him to; that Roosevelt said he would not consent unless

Erw called consented; that finally he told Woods he would consent provided Woods would agree to put a conservator in the bank at once in spite of any trouble; that Woods agreed to this and finally he reluctantly recommended the lesson.

He said the bank was not sound at the time and he told them so; that it was not sound now and that it was absolutely indispensable for it to remain sound as it did seem days ago.

Woods, he said, should have put in a conservator but did not.

All believe rightly that our Ad is really operating the way bank, all believe the best judgment of the Director should be accepted, unless there is strong evidence justifying refusal.

The new power of adjustment should not be used to require increase of a bank... 10 dollar in but only 6 or 30 many other salaries should be reduced by one percent.

The new power of adjustment on Ad rejected:

1. Present practice in many cases grossly inadequate.
2. New practice proposed by many are even worse.
3. Ad stubbornly held views across street.
4. Ad should get authority from Conf. to trans. but not credit body of its own.
