1923?

October 1. Heard
at Merchant Bank.
considered banking trustee or
Industrial Trust Co. Prev. a
money band from St. Louis
and recently in L.A.
Was examined gave where it was
a deposit regarding trust.
Never thought it a trust
regarding no trust and that
the trustee was obsoleteness.
Went over it for a couple
of hours with several copies
of bills, was very cut costs.
They were about a hundred.
Considered also another of
advice rendered in Jay
Peer Trust Co. but it was
no longer rendered as other
Co. being a business of and
a bank but a successor
business, to handle in other
with the trust Co.
In very thought was very
wrong as the others. But
Supreme ruled it was not
a bank.

Last 4

Received letter from Leo Hand
claiming the Nols up to last

George Hank called me in telephon

this work was just leaving the

when he would be free. Asked him what
he wanted to talk about and
he was very vague and only
mentioned coal business.

Pritchard met me & I tried to
write his asking him to send
to me the two notes, prob
short of West Coal Co., the
insurance policy, a few insurance
policy of which she and her
son Campbell and other took.
Received for work. Tolka Bank

said he wanted a man over
Tolka St house for 5000 but by the
and sum by Nov. 1, 1920.
Same also he and George Lewis

Oct 14. Sunday
Arrived by car to Indicate a
delegate to convention of Pan Am.
Secretary Institute of Geography
and History.

at 18. Judy

Committee discussed with us: John Staud Sygmegot told friends of us in Chicago that it was settled we were to be reappointed to the Board.

Arrived at Mayaguez to meet Pan American United of Mayaguez and Luytay. CCS was seated native Guatemala and Stephen Amstutz.

Found that we were to conduct a Pan American Management only trust. The Committee saw Board had already voted in regular. CCS claimed this. Went over under Monday.

Act 21. Monday

In driving over road where the cars passed and that the money that its stable and too much more could be the road. He said we must always "cooperate" a money,

morning. was thinking that we must always believe Harvey's policies.

Act 22. wed.

Harvey arranged a Cali best Conference. In Cali spent whole day with the French came in and said that the sellers at first agreed to price but we should have the chairman of the Mbo & fees on directors meetings, but in view of CCS being and the Bank Act of 1933 just issued a chairman of watch credit policies of the M. Com., and was to CCS fully. His son President & a Mbo, held a meeting attended by the shareholders elected to, the place where reached conclusion that, moreover as we do not obtain the two we shall have same one at Bank to represent us.

To avoid emboldening

whither Davis & Tugay would not
make a good cleavage. C. H. was
said to be inclined, but he felt he
could not accept it, even if
otherwise he wanted to, only
Carr was then said to be
Carr suggested Carr be sent back
in the Mo. or a few days; but
Carr was a good moderate buck
& did not want to go, so they
no end up to him.

Carr before T. and never being
consulted has as his unbent
greatest of trouble, under these
determined that the star wants
to be on his Board.

The abstention of Board from a
close debate at Phila was
strongly urged by Carr & Jones
and N.Y. the rebels.

The Carr & J. greatest measure of
success having a central bank,
not credit to mining and a
better alliance in the shape
of being the representative of

which state.

Gen. Davis came in and said
that the delegates were all
conservative, and the Republicans
and that it was therefore not
a bad idea to trust such
fresh blood, reluctantly resigned
his seat into that body.

He thought, however, that the
abstinent just at this time,
before the December election,
was a necessity and for
the Rebels a chance to
show it was a majority
about inspired by Gen. Lee
and Gen. Carr to take every
the December election.

He said the Gen. Lee's
which Lee's statement was
a good one and that the
Rebel candidate was a
cross.

Carr had Gen. Davis to his
meeting about sending
Candidate in Phila - but no
resolution, distinctly a minority
and a slogan and then a
tie subject; but very

names and was informed not to
him; that one had declined
and the other did not say.
Strenuously advocated & supported:
that the name of Stein was
not suggested; that a completely
new & less like him on
National and currency
should be chosen;
believed his other name
refined new blends with
credentials; that Stein may
have tried extreme views
differing from him on the decline
but less he thought his other
was in the whole a good man.

Who was reported Stein
name last was 5 days
he stated his medical views,
but said he was a decided
crusader who tried at least
to restrain the Gobank.

Congress was not won by those
who said - do you not
know what was proposed
you, or heard - hundred
vote, and the information

rumors.

Congressmen there were to be very
angry. Congress did not know
that Stein has called
them. It was next on the
second Tuesday by Hennick.
Hennick named greatest
Stein leaving before Senate
came and was celebrated.

Feb 24. Monday

Jacob Grindel came to C.R.

Feb 25. Monday

Rumors very strong.

He met at 2:00
Cronkhite gave full account &
Boyle agrees, showing it was
strenuously resisted and offering
views that a general name
should be given in case could
not be named to propose
it suggested and would
be considered were not
concluded until.

The entire Board of Directors
were in favorable with
the suggestion
a great victory for C.R.
The whole subject favored

industry credit which were made
by clause inserted by Comptroller.
Such a course would have been
when the entire Country
problem of inflation and well
have led to civil war between
Compt. & the Board
tends to curb Hutton by orders
and law to ban that clause

Act 26. Stat.

Ames bill day Oct 26. 1890

Had conference; Hutton was,
Panhys as
desired to remain with them
to be ready Monday to trans.
Ames Co.

In addition to credits as to
the Natl. Bank, we agreed to
add credits that the Hutton
Co. must keep its subscribers
in sound business credit
and maintain a reasonable
ratio of capital to deposit.
So far as the trustees
Natl. Bus. act concerned

is now comparable to subservient.
We agreed to segregate all other
Peter trying to do w Natl Bus
and to limit this business w
comptroller as to whether the
Compt. remembers, but if
any special trouble arises as
to present credit we shall
use judgment of Compt. a
non-American case.

as to Hutton Co. of State as
bus we agreed that the
was not bound to get a
banned extension of others
as we do on Comptroller, but
to leave it to Hutton where
only it is to know which
to be less are dangerous
State Senate rules and which
State Senate has any object
to greatly tax them.
We found there was a State
Ames Co. called Bus. of
America held by Hutton
Co. Panhys had said as
Natl Bus was involved.

We feel however that the cost
to Foley are substan^{tially} to
an amount which would cover
the costs.

We also agreed to try in a court
that Foley Co. should agree that
its subdivision should meet
a reasonable rule of conduct
similar.

While the abilities to see to
our best beat as to what is
a correct money going
Complaints view. whereas it
has not been to have a
Nat bank to ridiculous
conduct

CBS our area to start
conduct to conduct a hearing
and get the correct opinion
we agreed to have no case
proceeding as, involving the
bank a hearing
CBS firms will be filing
acts & end down fees
as final date for conduct
by complaint who they could

to file, but CBS send us more
leg our best
time said it was absolutely
necessary for the banks to
have our decision before
Jun. - the date to decide or
arrests.

Wyzell said he wished it
underlined that he was
not in accord with Foley
or Bond.

CBS agreed in sympathy with
the changed the Foley should
be.

Wyzell said he thinks Bond
should number very much
it cleared up, notwithstanding
judges vs Complainants.

Wyzell said he was not being
substituted w. Complainant. Unless a
BD in answer to our letter.

but it seemed to me to be
highly restricted.

So BD was to follow Wyzell
advice it would have to
have one to clear out and

management of every Nat'l as
envisaged by a Treaty.

This would place him in
irreconcilable frn. to la Confed.
unjustly Sept. & lead to civil
war w. the Confederates.

Cm^s Collier very credits a
to a Nat'l govt. to cubans
by Compromises on Bd. Comms
junctio.

Our Bd. can grant or refuse
a permit and a proper
quint as to present cuba
as la de o., it has been
to refuse a permit. but
a neutral stand be
taken as Compromises as la
stipulated in the
legass sent Bd. as only
duty of its men to Confed.
who must be devolved
to duty.

Cm^s said Congress give
Conf. no claim contro
over Nat'l govt. and that
is not facilitated to la

front, it is up to the Presid.
for Congress to act.
We have delegates mostly to
the Confederates as to original
govern & grants a neutral
we have Study taken in
conference, and decided to
express great.

The quint of both confederates
can not be imposed by
Bd as such when Confed.
affiliates to us.

When Bd. can grant a neutral
it can only impose confederate
subsequent to the Confed.
so we certainly not be
subject of Congress to declare
Confed. so far as claims
junctio over Nat'l govt.

We can refuse a neutral &
are our volk, but we
can grant a neutral. confederate
subsequent must be done
by Confed.

Being that Bd. has no
to impose a neutral, when
granted, as regards Confed.

To Bd and Borelms Argus
about as to trading, it was
to a member of the Merchants
& Co. of St Louis, who says
give an order and who will
put it into effect at, Bremen.

Names said to have Synamex
say Roosevelt began the war
West and the Germans & less the
less could be negotiated and more
war charmed!

Say names certainly being
out this.

South Africa with C.R.

Dec 28. Monday

Mr Glen called me and asked
for an ex. about why Stein had
been allowed clear & direct
at Potsd. He said he was a
scoundrel and a liar and it
was a disgrace to him to give
this kind of history about it.
He said it was an excellent
plot of C.R., and asked if

it C.R. had not suggested it.
C.R. lived in the world long
ago his records and Mr. Glen
now only has circumstances
saying there was no connection
submitted to the war a man
but for the place declared to
- to Glen - extreme view.

was told C.R. who probably
said Glen a copy of
Memorandum about a Stein
dated to Crown Germany

C.R. recent doubt is the
to Glen and Stein as the
names were (C.R. thinks he
connected with C.R.) and
Glen suggesting where copy
memorandum is.

C.R. showed to Glen who
obtained it; also to Glen
who said it was O.K.

center. Leaden letter was turned
down by Rock River Co. and
was sent to, at Glendale, Oregon
to Colters of Wash Port.

Cubism was demanded very
firmly. Press; cleaners, bakers,
clayton, Paulson, Kugel? & co.
We finally agreed on a firm 6%
submitted to Bd and the return
to Glendale as we can demand in
a hearing.

No new credit was given
as dividends in excess of 6% to the
Bo of America should be clearly
too heavy down the road and not

that we agreed to show them
to creditable.

In P.D. recommendation of fees
had been abhorred, able by
discussions we agreed to issue a
very firm under the Glens
Standard credits and it was
agreed and as to that determined.

The general credits of oblong

Board went over Report P.
Huddy Committee. City made
several suggestions which were
accepted.

Clayton will cross him the Act
was not submitted with
recommendations as to its currency,
only general submitted by
members of Board; that he
wanted him suspended by
Committee unless Bd could con-
cur in it or reject; that the
Act was objected to completely as
to accurate returns etc &
suspensions as it will delay
too long a hearing a Committee in case

He also said he always
wants the Shako to go

any kind of reports &

Under date of Dec 28 Mrs Hins
wrote and on her dollar
account apparently we owe
her estate 154.32.72.

Nov 2. ^{Sus} C.R.S. wrote Grange in D.C.
See letter on file.

C.R.S. met with Rogers, Clapp,
People, Pardee - Langford and
complaints.

We finally agreed on conditions
for remittance of my account.
We allowed 2 years in which to
charge off debts etc.

The real difficulty came in
a condition that his 20.88
more recent debts in my
published statement - via long
volume receipts - were to
be deducted up to balance, 2
copies of an item to be furnished
to the Mayor's office.

Clapp said he would object
to this.

C.R.S. said he did not think

his condition born as it allowed
removals on 1st to 1st all his
statements and balance current
clear it had a right to my \$
but that we did not object.
but that we did not object.
was dealt with. Congress included
to give me any such power was
all agreed that while such a
condition might be desirable if
it was not vital.

It was made that the condition

for two more years.

In conclusion agreed to be
made but all demands for

Some objection made at first
to deduct 2 years in which
to charge off debts. It was
clarified that in fact owing to a
condition that the condition
was made the condition
irrelevant.

Montgomery seems to accept it.

Montgomery was substituting a new
letter for Wm. H. Gwinne and had not
received its return. However, he would
not at first send it to me.
to Bn of Congress
and finally agreed to do so.

The Reps made a long speech
in the election, so as they
received the Assembly and
decided a majority in House,
very heavily, Stanley, has
however called out an adjourn
the House Post would arrive
considerable difficulties arises in
transferring. See materials
they could not try very
much for it, but as they
have come down last &
he scarcely.

Mr. Grinnell wrote me a
letter last night asking me
for funds to go into the
Club. and signed it "Yours sincerely"
Received later from South Bend
dated Oct 26.

Nov 7. Monday

Cros signed returns to Board
as to permanent voting record.
Montgomery told Cros that
Rev E. favored a change in the
conditions as to public statements
which seemed to him very good.

The statement recommended by Cros
is clear and explicit and
crosses over Rev E. so that goes
to try to accommodate it.
Rev Robert Brewster died.
HPPH arrives on along.

Nov 8. Tuesday

Bd met at 5 P.M. and took
up voting returns. Cros explained
the record to.
At first Rev Clegg tried to get
but we were going too far
ultimately as to change other
we had a long discussion
but finally the letter to
Grinnell was abandoned
with very slight number of
changes.

Montgomery seems to accept it.
They are substituting a bill
into the House which will not
require its House chamber
until it has passed its way
to the Senate
and finally agrees to it.

The Reps made a try in
in the election, so as they
removed the Assembly and
elect a Mayor in place.
Very hardly, Sunday, the
House called up an amendment
to the Statehood Bill which
the House had voted against
earlier declining action on
itself. The resolution
was carried over by way of
motion for adj., but was found
to have been laid &
not properly.

An Erskine wrote me a
letter last week thirty in
by himself this with the House
Club, and signed at your suggestion
Received later from South Bend
dated Oct 26.

Nov 7. Thursdays
CRS signed recdte to House
as to permanent voting rights.
Smith later told CRS that
Gov E. favored a change in the
conditions as to public school students
which seemed to him very good.

The statement recommended by Gov
is clear and explicit and
crosses over Gov E. in most soys
to try to accommodate it.
Gov Robert Bowles died.
HPP H arrives on along.

Nov 8. Friday
Bd met at 5 P.M. and took
up voting rights. CRS of course
had recdte.
At first Gov Clegg took stand
that we were going too far
especially as to change other
law and a long discussion
but finally the bill to
Erskine was abandoned
with very slight numberless
changes.

There was much discussion &
glossing ready to write statement.
Cox said i am in a difficult
position statement which deserves
the public, and a trouble
arose that in view of the
fact. would amount to
say we cannot print money
it because we did not
have the right?

Gov Castle has said - he
is trying it in his day as
it was contemplated.
Agreed to send Standard
conditions to the Treasury
Committee. saying the
conditions; a treasury bill
given under Treasury above
is such a thing as demand
was demand and the money
nobody demand in doing
all abbreviations below his
name Bd said in that case
we should give him a
permit.

Bd sent note of \$45 P.M.

New G. Sec.

Everyone congratulated me on my
presentable to the Valley record
case yesterday. Cox said it
was too clearcut, able himself
to cross examine.

Only this was Bd had a big
discussion about necessary
new requirement. He telephoned
and the other followed it.
Cox said it was like a shot
under fire said, in a clear
calm the Castle record &
conditions; greatly was which
he should begin to him send
now, whereasesterday he
paraphrased demands and
saying in the chart, - a
word until the Committee
actually struck the shot!
Gov C was delighted with
his speech, said it
represented the views

graphically, and several times
questioned it. ^{not. good}
we agreed we should make the
Proprietary - like a Board
of Trade - what the terms
were.

The next day two reports
that Seebe and the Mayor
whole agreed in principle,
except on several other
acts which were to be
modified. The main point was
that the Budget was not
ready, and a delegat
immediate was chosen and
that as far as the Board may
be or might be reorganized!
This was really left over us
Board had to went.

The Mayor in effect has
become the Central Bank
of the US!

so we went to recessus
never again with the
Mayor at hand by
two Board the

subordinates, (N.Y.C. have been
completely), and by the
Secularized Board and the
completely regular ex
members.

The Finance Committee created by
Secularized Board and the new
Finance Board members
can be removed "for cause"
but practically must be
means a Central bank with
the M.N.B. a mere alibi
to the treasury!

Cullinan Grant wrote Beck
more date of Nov 4 that
she lunched with Mrs. Cor
inne Cressell, wife of a Bank
treasury man, and that at the
lunch the Circuit Judge as a
lith to Colorado so some
americas golden as well as
was one, and of a claim
granted by the Comptroller
He said that after a long
to the King the money
which gave a loan to

In Presidency of the res (not in President) and later explained that he did this at the request of the Army supplies who said they could not and would not drop a cent to Hubble & Remond! She said that among them French who became by Teresa say the were not the difference between her and Anderson.

In short but a fine example of treatment bitterness!

Nov 13. Mrd
Some days ago Mrs Hause wrote me saying she owed 154.00.
claiming we owed 154.00.
Crossed off our books entry of 154.00 representing gifts to H.S.J. were not claimed by her in H.S.J. as over payments of trucks. See letter

Sent Mrs Hause an analysis of the expense acct. About 1/2 of the total know were gifts to H.S.J. Cross sent reply to George to add to book it over.

Nov 14

Cross wrote to George Hause so called account:

Nov 16 Sat

Mr Hause Jr arrives cross's letter and gave account of what was 1917 but does not cover cross's gift wh. in continuity his account with H.S.J., neither is it shown that George has overpaid him. Presented to the Post to H.S.J. by 21000, he had not charged us H.S.J. as payment over probably they stem the same claim against cross.

Nov 18 Monday

Cross went to Inv C.

He & dad not seen to appear but believe the same Post

arrive best towards Roosevelt
Cass advised him to see N at once
and explain situation to him.

We drove into Denver and to
meet Reginald Marshall of Brit.
It was 17 hours with him about him
from Dallas & he was very
sympathetic, saying it was a
shame that this land should
be undeveloped.

Cass talked with him about his
views probably. He did not
seem to know much about
it and said he thought it
was all cleaned up.

Cass suggested that Fred may
in him and explain it.

He said he would be glad to
see Ned at any time and
would call him Secretary
him and send - "when Ned
has time or an interview
see to it that you let him
in at once."

The Anna Barnes Committee at the
convention at New Orleans last week
elected Adam of Salt Lake City 2nd
Vice President. Bennett of Salt Lake
City an associate of the Cables was
nominated for the office by him.
Couch and Adams were nominated
by the Cables and Bennett withdrew
Adams, struck down the current
alter in the Cables or before the
Cables and sent the cables their
way at the first and refused to
buy any more bonds.

Adams also struck his name as
opposed to Francis Murphy.
While the Committee did not
choose Adams because of
urgency the fact, alluding to
new deal etc yet to the
President at once addressed as if
there were no sympathy with
them.

This leaves the committee in the
abhorrent attitude of refusing
the sentiment: we need an
immediate amount of cash

views, we could have been commercially, we went less than the First and were wages it.

No people that will stand them up adequately but himself. Mr. Bond could see the reason to have direct to radios as reliable route, this could directly w. the Ad Council; the bombing director might turn the members for doing this in which case Congress did take over the TV bank slots, without the officers and enter into a general committee w. Mr. Bond.

Chicago could undoubtedly have the needed expertise.

Mr. Gossell said they ought to be budgets now, we may receive the \$ billion to go ahead under the House. Am I right?

The Anne Bunker Annex showed him obviously this from Adem's views but they did not.

Benton called on Mr. Hennepin at 11 AM, drove him and his son down the, gave him a lesson as Gen. Club and finally when he to the Army Bureau at 3 PM.

Mr. Bunker said he could not tell him otherwise the defendant had admitted who it was allowed by Anne Bunker Annex. He said he had delivered his address at the beginning and then been fully withdrawn.

He said he was obliged to conclude and that no man who had behaved like him. does apparently on what he did.

President Roosevelt sent Best a

Miles had been told at least
the other day at the March
Confab, some time back by
said he reason in NY was
that Roosevelt intends to retain
a clean sweep of the M.P.B.
Alfred Hungate had no
the same a different info
Miles said that Roosevelt
had no addm. among his
policy as to whom the new
was written by the C.I.C. Clerk
Heckathorn; that Mr. Reed is
to him given goes up to the
President; that it is remembered
abbreviated.

Miles also said Best wrote
off "Railroad sheep ground"

Culbertson drug the confab.

Miles seemed quite alone.
-unwise as to what R would
do as to our Board.

Dec 25 Wed. Christmas Day

Boyer called and gave in a

He said in confidence it has

We dined in evening with the
Farnseys the clowns.

Dec 27 Friday

Miles said the Shantz told
him that Roosevelt said to him
that few now in any office
must be made owing to new
political influences!

Dec 28 Sat.

We drove off may with the leader
of slate team at the dinner.
Grangton.

No word from Roosevelt as to

ability on our Board. In short of
the assurance given me by
Mr. Mills last July & the very
impracticability of obtaining
may be doubted.

In the first place Roosevelt does
not understand the vital
importance of the DM system.

He looks upon it as simply
a name on the traditional
game. In example, his refusal
to support traps, his desire
that no other justice would
act in San Francisco, his desire of
a place on the Board of
San Francisco, at demand of
other banks, his desire
recapitulation at the convention; his
habit of bypassing through
the Polish Parliament of
Argentina; his ability to have
chartered his first bank in
Nebraska.

It is also clear that his action
is to be seen in harmony

with what ever was
done in most respects.
He has been advised by Mr.
& Mrs. Tracy that his best course
will be to remain neutral
in the whole Bonsu, but fully
ready to meet him offensively.
So far as CBB is concerned
I do not believe one old
friendship will have been
sacrificed except, now the
records of the Bank and Bank
would be well better off.
No one seriously considers whether
men by the recent vote
to elect this could obtain
such an office, or to members
such and obtain very often
what may meet him yet.
If R. Nixon dares to comes
to recognize that to elect
this could be to anger the
old Cleveland and Custer
business and disrupt us in

Reverend seems unwilling, refusing
to cross rebellion and beat the
slaves against him. Cross could
show that R, saying he was
against a central bank, was
made the reason a riot was
started back through his
Northern friends and the violence
disturbed by every village of
industriousness in the N.Y.S.
blame the Northern men to
blame for "causing".

When came R via tele
no one knows but Cross was
but apparently submitted to
R without him.

See D.O. stands
Catholic Southern writer, thinks
no for his attack on 12. a very
gratifying letter

Since we want him to President!
The silence seems ominous
but I can not believe he

would do it nor for the Board without
some resistance

Wrote him on his a long time
ago. am. It was very pleasant
and cordial but said mostly about
affairs. Sometimes I think you will
dare not know what R will
do, and yet it seems he need
not. If he knew & can not
be satisfied, often his return
to me like friend last July.

It seems to me that as a
gentleman he would feel bound
at least to hedge as to what
he said, but had a word for
some few him!

Very I wanted the reader of
and found him in March 25. 1828

He did not mention any who

he said nothing due to Board

that we were now ready

No other news on the slate.
Under See Coddedge reported
today, also on See Roberts a
woman.

Clegg, Minto, Coddedge may go
back to 1st Nat bank or Amer

nothing about it.

Cross thought more flag
that he was to meet Pratt

Minto could give no reason
for Coddedge's report. He
said, however, with a twinkle
of his eye, "perhaps it is
strange battle to cross the

Jan 19. Sunday

The blow has fallen!

The American Press announced the

"Authentic sources said the

The other news - Braden,

the Jewell Nat Bank, Atlanta, John
H. McRee, club man whom
to the N.Y.C., will be received
Dexter, Harvard Professor, and
a former recently appointed
welcome recently to rest assured.

This is evidently a lame Board
and Cedar will be
persecuted!

The announcement was not
overdue but is clearly
current as Justice gave a

Jan 21. Monday

Woke up at 4:30 & I asked
one to consider a suggestion he wanted
to make. He said Roosevelt would
to drop several members but the
only course was to put an age limit
of say 65 years; that this would
necessarily exclude me. He intimated

than ever often more than all
which prompted him but as
was the only very sensible
way to accomplish what he
wanted.

He said Glen had made every
suggestion to R. Treadwell's
an age limit of 65 years

This advised cross by Glen
in '78 and went to the open
for the Senate!

He said that R. had the required
veto of me and that it had
been reported to the last &
was then voted over in the
Senate and that it was
absolutely constitutional and
I voted with the Senate

He finally said the Board
he glad to make the streets

curved; that the roads
began as also but very
narrow and that my
judges are to keep out body
rolling and body resistance
volume to the new Board

The C.R. opened in the end
and the lead never given

through such formulation; that the
law record at made the best
with anyone; that of course it
had the right not to have
the law that he could not have
the legal does that it must
obtained in would be a fine man

Dear Charlie:

I have been much torn over the trouble to his new Board whereby because you and Bertie and the others are both very, very old and normal funds of course I have wanted to reach board you but I need greatly bulle

too good rule unless applicable to Commissioner and especially to Grace Judson Bodine, and Burton I have written him I regret come to the conclusion that - apparently the new Board I can not find anybody as over 60 years old.

This is extremely hard on me because of our old friendship and also because of the splendid service that you have given these many years. I hope much that you will be able to return me an advisory capacity to the new Board and also that you and Bertie will come to see us on some day very soon. I feel sure that you will make stand my problem and my wish that my decease could have been otherwise as far as you

Jan 26, Sat.

Dear Mrs. & friends, We were so
united Roosevelt at Hyde Park
in 1916 and see some was
also there; but some told
me R said that if he could get
\$250 he would carry on
easily: but fine cause to
give this which he did.

Sympathetic and like an old
it was obviously settled that
Cros was to speak two men
and the Secretary and he was
any little he cared to have
and that he could be asked
to attend all meetings of
the new Board. - He sends
invitations to today.

some gloves and packages a
short note for R or his P was
sent, but not to expect to
be sent, in any way.

Last night Colgate Hotel doors
were open and we had the
usual story. She was most
sympathetic.

Yesterdays Park luncheon will
be recognizable to many as
Roosevelt. After lunch she
sat with him R for 20
minutes, and of course never
mentioning our trouble.

Jan 25. Sunday

At our interview Roosevelt
said he did not expect to
be missed or to die by
Miller & Cros until about

3 weeks ago ^{as}
Mr. Comode with John Coughlin
went to Wash. and return
w. R., after where John C said
he should tell him confidentially
of his plan!
Cros is satisfied that it was
John Coughlin who made up
Roosevelt's mind to him
as to this!

last evening he at Santa
Barbara made a ~~attempt~~ attempt
in the Palace of Roosevelt
at his hotel ^{leaves} ~~leaves~~
driven at his play place.
Cros is ^{curiously} curiously
on duty ^{as to many}
with the M.P.'s. He
first made also was to
have been to command
in ground told up to him
to remain in front the
office as an address was
be published.

In view, however, what Roosevelt
said - that age was merely a
stunt to get off from Board
of Trade to get off from Board
of Trade and prophet June as
books, and the statement of
Roosevelt himself attacking
Mormon, and R's statement
in his letter to cross that
he wanted to absent him,
that he had done something
worse than this, Cros feels
that Roosevelt wants to see
him in the Board by going to
a different date, so as to
get around him now off
and he had had done.
Cros feels him as a new
critical him in country as
the Board, and this will
be a time when he comes
by us greater and greater to
the Board, and the bulls to
shame curiously come
in suggest as to the funds.
Cros feels No less deliberately

wanted him at once and I
willing to sacrifice ~~cross~~ and
rise to meet anyone in
any little who got them
work in the Board or tables
show, and also went
there full surprise
there, however, in this.
However, he has made good and
is fit to return in the Board.
Cross wonders what the
telephones & press may
say about the New Deal
names to D.N. system.—
However, overhauled;
Experimenting around
now!
Cross is slow, easy to be
concluded but may by
his duty to run in odds
to meet other independence
to the New Deal which can
be destroyed by any friend
the former to return for
"cure" in itself not
worth while.

The modernizing trend of Roosevelt
left to cross was bid in obedience
to the general rule which applies
to communism and especially to
great judicial bodies like com-
mittee of "not anybody
over 60 years old."

He then sees a rule-cross
believe this is not - only he
did the work of color he
had been here at 69 on a
12 year old, and there - on
65 to an 10 year old!
Age is clearly a factor!

In P.D. the C.R.C. came to call
and he would advise the new
Board to give me a retainer
of \$12000 per year. He sent
Sammells and his No. Dept.
had C.R.C. discuss it & was a
annual retainer of \$12000.
He said also I could have
a Strategist ~~adviser~~ to
my offices, who who not
used by me could do other
work; and this I could
have all the time at my
time I wanted, but understanding
very well I should be
called Street around
ready to be called into
an all question of law and
general policy.

I said I would consider

it.

In the AM I saw Monroe who
said it was almost impossible
to get men over him now & he
wouldn't let us come to him
to draw up several forms.
I told him he had I would
be greatly to go to the Street

I told him to go & and said
if I accepted his terms I
would be glad to meet him

He said I could see him
and do this at the next or
the Bd if it is decided not too
favorably in his suggestion.

C.R.C. called me down later
and said he would even

Received note from Mr. Peters

curing. Come down also work.

January 28. Wed.

Murphy came in. C.R.S. had in
turn finally had the conditions
made both ends meet so a
salary of 12000, but if necessary
15000 he would accept.
I send her through the cables
to arrange. He send two cables
one to see her and get her
agreement of the arrangement.
C.R.S. finally said the county
agreed to accept either 12 or
15000 as fixed by Cedars
Plan.

I send Senator Walsh my
concerns over his letter;
that he was seriously
considered but this was
much preferred over Mr.
Senatorial and that the
new Senator slipped to
carrying, which I think
not very logical.

I send her draft of new

Budley last night; like the
plan was fine and she
very angry at C.R.S. and me.
since afterwards a few cables:
~~the~~ Dr. Berne West was the
and said her tree told her
that she would never speak
to President or his Advisor
again. I went a long way to
to talk her way; she should
have to consider the budget.

On Bd. about it. And be
the new budget took at
3 P.M.

C.R.S. is to be moved into the
Sheridan briefly however
away the funds to the Co.
accord to the new Board.
But he wants me to carry
new greater and better
the very much.

Jan 30. Monday

Arrived at 11 am and recorded
the contract for the M. G. Co.
to the J. D. Co., Inc. "Lands
beside". The bid was a little
over 3½ million. Probably he
was mighty to the Bd.

Gymnos. called in and says
Brodeur was to be made Vice
Chairman. He said Gov C says Brodeur
who said he did not care
who was made Vice Chairman
who was made Vice Chairman
that Gov C suggested that
he see Glen as his running
mate. He agreed and Gov C saw
Glen who said Brodeur
should be appointed and he
also made suggestion in the
two respective letters.

Glen evidently considers
Brodeur as an old line
banker and rather conservative.

To be in the Bd and be stalled
as to other bank operations.
for 5 hours and Brodeur
to agree; old object as
nothing.

This from Brodeur was to
a hand line with Glen.

After it was evidently on
and mostly Gov C never says
a word about any subject
in even good order.

May 20 Monday
to Romeo after long talk
gave me a long lecture
then I was cutting down.
- Promised me it did
not give me quite as
much vision as my
naked left eye, but

Dr. Rivers seemed satisfied
He told me to wear it
4 or 5 hrs a day to
get used to it.
We at once got the new
scrubbed faced. They
say one bin lime costs
\$1.24 for a good beam
which he advised
strongly advised.

~~At 9~~ I just left home
and 5 R. H. and Ovens
my naked left eye
can easily see a
little bird and I
was very id a number
to the right eye.

May 21. Wed.

Called up to Dr. Rivers

who said I could buy
a green shade every
left eye when they
had new glass to make
the right eye work.
Mr. Obrien - Murphy
Co. said my eyes were
strength at the stages
beyond any doubt &
I would get money
soon ultimately.

Cathleen Hanley and Mr.
Henningsen wrote that
the women's school dinner
was attended by 900;
that the speakers
included Mrs. Dennis

all wanted me to be there.
My new glasses gave
me sight but not
quite as much as the
natural sight of my
right eye which does
most of the work.
Thus the seeing in
my right eye is
improving. Even
now as all I found I
could read things
by looking at the book
from back distance.
Many thanks
for M.P.D. We mean

the gun could stand ^{not} always.
He said he had ^{not} always
an arm that Clegg
would trust though
all right, but it would
take time. It said to work his eyes
eye all the time and
to cover up the left

eye as much as possible
Clegg had only a minor
attack. And turned up
and slept ~~very~~ ^{well} well
a tree.

May 24 ²³ Sat

Clegg sees some movement
in his right eye. He can

 Last week Monday &

 he had no objection
 to what I proposed.

Dr Simkin gave me a ray both all over, a ray both in head and back and a cyst in my back

Mr. Kellie our Secretary, & Dr Wilson carried by appointment. She asked me to tell her of I knew of any secretarial work not necessarily with a doctor. She has been with Dr Wilson over 16 years and often knew less than she said her knowledge suggested. She planned for Kellie street and celebly in the

highest terms I gathered
that she had never
cross him and was
angry by the
airline.

She said Dr. Cushing was
at first greatly dis-
-trayed because Dr.
Macrae had let my
eye go on for so long
and was somewhat
worried as to the outcome
after his preliminary bleed.
He told me it was a
risk - that if we had
so large a bleed it would be
success. She said he
considered my bleeding
ultimately very safe
and was delighted with
the result as at running
his double. She said when
femal orifices were
unplugged, that the result
called sheath worse than

but we "would be rebound".
I am grateful to Dr. Justice
for advising me not to
have Blaauw operate.
She said Justice had seen
all to never able to say
to Cushing and did very
little operating.

The seat blood was only a
minute spent in my
airline which had greatly
improved and the feet certain
it would disappear very soon
