

- SECURITY AREA MAP - Jackson, Michigan.

The City proper is three miles square; all areas outside the three mile square are beyond the city limits -- only improvements are electricity and some paving.

Jackson's lots are not uniform; originally platted at 66' x 132'. Many builders have bought two adjoining lots, and re-subdivided for three houses, making 47' lots.

The Michigan Central Railway, running east and west thru the center of town, is used as a boundary between the various security sections. All subsections of the same color carry the same sectional marking until separated by another color, or by the Michigan Central Railway.

"A" -- This is the preferred residential section of the City. Practically all of the growth and construction of the better type home has been concentrated here in the past 15 years.

Average price range: \$6,000.00 to \$15,000.00; a few up to \$40,000.00. Homes in the higher bracket are concentrated more in the southerly part of "A" section. Entirely single family residences. Highly restricted. Frame construction predominates, very small percentage are of brick veneer. 100% American.

"B" This area, almost exclusively occupied by the native-born white-collar class, is very desirable; properties are substantially constructed, tho somewhat obsolete. The trend is to convert many of them into incomes and apartments, with the exception of the "B" section lying west of Brown Street which is beyond the city limits. This particular area is devoted to comparable frame bungalows of the older type.

Frame construction predominates thruout the entire area with an occasional brick veneer apartment building. Single family constructions generally prevail, except that
