Upon motion, recommendations of the Committee were approved.

Memorandum from Counsel on matter referred to him at the meeting on April 14th, namely, letter dated April 13th from the Chairman of the Federal Reserve Bank of Cleveland, recommending that the Board revoke the authority to exercise general fiduciary powers granted by it to the Old National City Bank at Lima, Ohio, on the ground that a recent examination discloses the bank, which has never qualified for the exercise of such powers, to be in an unsatisfactory condition; Counsel in his memorandum stating reasons why, in his opinion the Board has no legal authority to revoke the fiduciary permit of the bank, but stating that if the bank, pursuant to the authority granted, should undertake to exercise fiduciary powers and should then violate any
provision of law or regulation of the Board regarding the exercise of trust powers, the Board might revoke the authority granted to the bank.

Ordered circulated and referred to the Law Committee.

Memorandum from Counsel on the matter referred to the last Governors' Conference, namely, certain questions raised by the Governor of the Federal Reserve Bank of Cleveland with regard to the Board's ruling upon the eligibility for rediscount of notes of a corporation representing borrowings of funds to be advanced to subsidiaries; Counsel submitting drafts of a letter to the Governor of the Federal Reserve Bank of Cleveland and a circular letter to all Federal Reserve banks stating that pending reconsideration of these questions by the next Governors' Conference and for the guidance of Federal Reserve banks in the meantime, the Board holds that notes of a parent corporation representing borrowings of funds to be advanced to subsidiaries will not be eligible for rediscount at a Federal Reserve bank unless they comply with all the conditions laid down in the Board's circular letter of December 30, 1925 (X-4484) and further, that, accordingly, the notes of a parent corporation, the proceeds of which have been advanced or loaned to its subsidiaries, will not be eligible for rediscount, if the parent corporation also makes advances to other corporations than its own subsidiaries.

Upon motion, the proposed letters were approved.

Draft of letter to the Federal Reserve Agent at Chicago, prepared in accordance with action taken at the meeting on May 7th, ordering that the Federal Reserve Bank of Chicago refrain from any activity at the present time in connection with the political situation in Iowa, which could

Referred to Mr. Miller for preparation of a reply.

Report of Committee on Examinations on the matter referred to it at the meeting on May 5th, namely, memorandum dated May 1st from the Board’s Chief Examiner, setting forth the status with respect to examinations of the several so-called foreign trade banks operating under agreement with the Board; the Committee noting that all such corporations are subjected to examination except the International Banking Corporation of New York City, which has some twenty branches most of which are located in the Far East, but disagreeing with the Chief Examiner in his position that to enter the New York office of this bank would be the weakest sort of a gesture and tend to lessen respect for examinations conducted by the Board. Mr. Herson entered the meeting and discussed the subject of his memorandum with the Board, reading letters exchanged with the Federal Reserve Agent at New York
on the subject.

Following the discussion, Mr. Miller suggested that the Federal Reserve Agent at New York be requested to make suggestions as to what could be done, short of an examination, to put the Board in possession of information with respect to the organization, scope of operations, etc. of the International Banking Corporation and that he be advised that inasmuch as the Corporation is located in his District and his bank handles a large volume of its acceptances, the Board is disposed to feel that the responsibility for its examination is a matter in which his bank must share.

Upon motion, it was voted that the Chief Examiner prepare a letter to the Federal Reserve Agent at New York along the lines of Mr. Miller's suggestion.

Mr. James then reported informally on behalf of the Special Committee appointed on May 1st to investigate the recent run on American and other banks in Havana, and other parts of Cuba, including the assistance rendered by the Federal Reserve Banks of Boston and Atlanta, through their respective Agencies in Havana, in meeting the situation and all circumstances connected with the shipment of currency by the Federal Reserve System to Havana. Mr. James stated that the Committee had under preparation a formal detailed report which would be submitted in due course for the record.

Upon motion, it was voted to grant an extension of six months from May 17th.
