Further consideration was given to the report to be made by the Board in response to the request received from the Chairman of the Banking and Currency Committee of the Senate on the Mead bill (S. 2343) and to the question whether the Board should recommend the adoption of the plan outlined in the memorandum prepared in the Board’s offices under date of April 6, 1939, for the creation of a permanent agency to provide funds for small business enterprises unable to obtain adequate financial assistance from other sources.

At the conclusion of the discussion, the staff was requested to revise the draft of report in accordance with suggestions made during the discussion, it being understood that the revision would be considered at the meeting of the Board on June 2. It was also understood that Chairman Eccles would call the Chairman of the Senate Banking and Currency Committee on the telephone and advise him that the report was
being prepared and would be submitted to the Committee not later than Monday of next week.

At this point Messrs. Goldenweiser, Smead, Dreibelbis, Vest and Boothe left the meeting and the action stated with respect to each of the matters hereinafter referred to was then taken by the Board:

Memorandum dated May 18, 1939, from Mr. Smead, Chief of the Division of Bank Operations, submitting a letter dated May 15 from Mr. Rounds, Vice President of the Federal Reserve Bank of New York, which requested approval by the Board of changes in the personnel classification
Plan of the bank to provide for the creation of the new positions of "Senior Clerk" in the Return Items and Government Check Division, Return Items Section of the Check Department, and "Senior Clerk" in the Examining Division of the Bank Examination Department, for the discontinuance of the position of "Chief Investigator" in the Investigation Section of the Service Department and for the transfer of the position "Investigator" in the Investigation Section of the Service Department to the Personnel Section of the Personnel Department, for an increase in the maximum annual salary for the position of "Dentist" in the Medical Division from $450 to $900, and for a minor change in the description of work for the present position of Senior Clerk in the Return Items and Government Check Division, Return Items Section of the Check Department. Letter to Mr. Evans, Vice President of the Federal Reserve Bank of Dallas, reading as follows:

"This is in reply to your letter of May 17 regarding the question of adequacy of the capital structure of the Southern Arizona Bank and Trust Company, Tucson, Arizona. You refer to the fact that in submitting the memorandum on Form 212 regarding the examination of the bank as of March 24, 1939, you expressed the opinion, which was concurred in by President Gilbert, that the bank's capital structure is adequate at this time for the reasons set forth by the examiner on pages E-1 and
"E-2 of the report of examination. In your letter of May 17, however, you state that the capital position is well within the borders of what might be termed the twilight zone between adequacy and inadequacy, and that before acquainting the trust company with your conclusion 'that, under all the circumstances, the situation does not yet constitute a violation of the membership condition regarding capital ratio', you would like to have an expression of the Board's own views on the case.

"The capital account as shown by the books is admittedly low, and it is felt that, as stated by your examiner on page 2(1) of his report of examination, continued consideration should be given to the adequacy of the capital account in relation to the bank's liabilities and with respect to the condition of membership regarding the maintenance of an adequate capital ratio. The examiner's comments with respect to the question on pages E-1 and E-2 of the confidential section of the report have been read with interest, and it is believed that the conclusion expressed on page E-2 represents a reasonable position. Accordingly, it is felt that no requirement need be made at this time under the condition of membership for an increase in capital, but that you could properly request the management of the bank to give continuing attention to the building up of the capital account and to devote the major part of the bank's net profits to that purpose.

"It has been noted from the examiner's comments on page E-2 that, because of the high rate of taxation on the bank's capital account, the management desires to keep the account at a low figure. The question of taxation, however, does not enter into the determination of the adequacy of a bank's capital account and a high rate of taxation does not justify a capital account which would be considered inadequate if the tax rate were lower."

Approved unanimously.

Telegram to Mr. Shortt, Assistant Federal Reserve Agent at the Federal Reserve Bank of San Francisco, stating that, subject to the conditions set forth in the telegram, the Board of Governors of the Federal
