Letter to Mr. Sproul, President of the Federal Reserve Bank of New York, reading as follows:

"There are enclosed copies of letters received by the Board from The Chase National Bank and Central Hanover Bank and Trust Company, both dated June 23, 1948, raising the question whether the operation of a private wire service involves a payment of interest on deposits within the meaning of section 19 of the Federal Reserve Act and of the Board's Regulations.

"It will be appreciated if your Bank will take this matter up with the banks mentioned for the purpose of discussing the various aspects of the question. Please advise us of the results of your discussions and of any further developments in this connection.

"We have advised both The Chase National Bank and the Central Hanover Bank and Trust Company that we are referring their inquiry to you and copies of the Board's letters to those banks are enclosed for your information."

Approved unanimously.

Letter to the Presidents of all Federal Reserve Banks reading as follows:
"The Board of Governors has amended its Regulation L with respect to interlocking bank directors by adding at the end of section 3 thereof the following new paragraph:

'(f) Any director, officer, or employee of a member bank of the Federal Reserve System may be at the same time a director, officer, or employee of not more than one bank which is principally engaged in international or foreign banking and which does not receive deposits or make loans in the United States except as may be incidental to its international or foreign business.'

"This amendment, which was adopted today and is effective immediately, is similar in general effect to an exception which is already contained in the law and the regulation except that under the amendment an agreement with the Board pursuant to section 25 of the Federal Reserve Act is not required."

Approved unanimously, together with a letter to Mr. Claflin, President, French American Banking Corporation, New York, New York, for transmission through the Federal Reserve Bank of New York, reading as follows:

"In its letter of February 19, 1948, the Board postponed formal action with respect to terminating the agreement executed by your Corporation under section 25 of the Federal Reserve Act pending further consideration of the matter.

"Since no member bank of the Federal Reserve System is a stockholder in your Corporation, no legal basis exists for the continuation of the agreement by your Corporation under section 25 of the Federal Reserve Act. This is to advise you, therefore, that the Board considers as terminated and cancelled, the agreement between the French American Banking Corporation and the Board as executed on June 25, 1919, and as subsequently modified and amended."
Telegram to the Presidents of all Federal Reserve Banks

reading as follows:

"In accordance with understanding reached at recent meeting of Presidents and Board, Board has given further consideration to desirability of more rapid increase in capital accounts of Reserve Banks and has discussed reasons that have been advanced for and against an amendment to existing arrangement under which 90 per cent of net earnings are paid to Treasury. Board is of opinion that under all the circumstances, it would be preferable to continue present 90 per cent arrangement and at end of year to add such amounts as may be agreed upon to existing reserves for contingencies. For the present, the Board proposes that $10 million (prorated among Federal Reserve Banks on basis of earnings before dividends) be deducted from earnings for second quarter before application of 90 per cent of net earnings to determine amount payable to Treasury. This contemplates that approximately $30 million would be added to contingent reserves during 1948, but that the procedure would be fully discussed at next meeting of Presidents and Board."

Approved unanimously.

Letter to Mr. Young, President of the Federal Reserve Bank of Chicago, reading as follows:

"In view of the considerations outlined in your letter of May 27, 1948, and with the understanding that the labor and material are expected to be in reasonably plentiful supply, the Board will interpose no objection to your Bank's undertaking the completion of the airconditioning of the head office building. "It is understood that the estimated cost of the project is $275,000, excluding a few small items such as architect's fee, performance bond, etc. Recently one of the Federal Reserve Banks, which had originally intended to obtain a performance bond covering a comparatively small construction project, decided, after
"looking into the matter further, that since a reputable contractor had been retained to do the work it would be unnecessary to obtain a performance bond."

Approved unanimously.

Letter to the Joint Property Accounting Staff, c/o Bureau of the Budget, Room 462, Old State Department Building, Washington 25, D. C., reading as follows:

"Receipt is acknowledged of your memorandum of June 18, 1948, transmitting a copy of your report entitled, 'A Federal Inventory Control System'.

"We appreciate receiving a copy of this comprehensive report. It has been reviewed by members of the Board's staff concerned with the Board's procedures in this field and the information and recommendations contained therein will be valuable in studies of the Board's procedures. However, since the Board is a relatively small agency, it is believed that its experience with these matters is not typical of Government departments and establishments generally, and since the Board's expenses are not paid from appropriated moneys, but instead are paid from funds derived from assessments levied upon the Federal Reserve Banks, it would not appear that the proposed program would be applicable to the Board.

"In the circumstances, we do not feel that we should undertake to comment upon the recommendations contained in the report."

Approved unanimously.

Letter to Mr. G. L. Bach, Commission on Organization of the Executive Branch of the Government, Room 2260, Federal Reserve Building, reading as follows:

"In accordance with your request of June 2, 1948, there is attached a memorandum of the information requested in items 1, 2 and 3 of your letter with respect
"to members of the Board to the extent that the information is available in our records.

"Organization charts, including a brief statement of the duties of each of the divisions of the Board's organization, were handed to you a few days ago. A memorandum of the salary expense of the Board for 1947 broken down by divisions and as to salaries between professional and other personnel is attached, together with a list of interdepartmental and interagency committees on which the Board is currently represented.

"If the Board can be of further assistance in the study which you are making please do not hesitate to call on us."

Approved unanimously.

Memorandum dated July 1, 1948, from Mr. Hooff, Assistant Counsel, recommending that there be published in the law department of the Federal Reserve Bulletin the recent amendment to section 3 of Regulation L, together with an introductory statement in the form attached to the memorandum on the following subject, Interlocking Bank Directorates, Amendment to Regulation L.

Approved unanimously.

Memorandum dated June 30, 1948, from Mr. Bethea, Director of the Division of Administrative Services, recommending, for the reasons stated in the memorandum, that a "code warning signal" be attached to the dictaphone equipment for recording telephone conversations located in the Secretary's Office, and
7/1/48

further recommending that the expense involved in installation of the signal be charged to the appropriate account in the current year's budget.
