Letter for the signature of the Chairman to The Honorable George M. Humphrey, Secretary of the Treasury, Washington, D. C., reading as follows:

For some time the Federal Reserve has been developing information on the influence of corporation pension fund investments on the credit market. In this connection, the Federal Reserve research staff has had the benefit of close consultation and cooperation with the people at the Treasury who are working on this question.

It is our understanding that in the Internal Revenue Service certain data are available which if further processed and analyzed could be very helpful to both the Treasury and the Federal Reserve staffs in these studies. Facilities for this processing are now available in the System, with the assistance and cooperation of the Debt Division of the Treasury's Analysis Staff. It has been proposed in discussion with Mr. Dan Throop Smith that the Treasury might loan the materials to the System for this purpose. We understand that the details of a loan of this kind were outlined in correspondence between Mr. Smith and Mr. T. C. Atkeson of the Internal Revenue Service.

We should very much appreciate it if such a loan could be arranged. The data in question are (a) transcript cards giving detailed information regarding pension plans
submitted by over 7,000 corporations with their 1951 income tax returns, and (b) microfilm prints of about 15,600 special transcript cards prepared by the Internal Revenue Service in its 1951 pension plan study.

Inasmuch as these records contain the name and address of the reporting corporations, it is our understanding that an Executive Order pursuant to Section 55 of the Internal Revenue Code is required for releasing these records. It is also understood that the name, address, and information for individual companies should be treated as confidential.

The source material would be in the custody of Mr. Ralph A. Young, Room 3041, Federal Reserve Building. The materials would be used only by members of the Board's staff and the staff of the Federal Reserve Bank of New York.

Approved unanimously.
