Money market review. Mr. Bernard reviewed money market developments, including in his comments reference to the recent announcement of the Treasury-Federal Reserve study of the Government securities market and to prospective effects of the prime rate increase announced by some banks yesterday. This review was followed by a general discussion of bank credit availability and interest rate developments, during which Governor Maisel requested that the staff prepare a memorandum on the viability of the 4 per cent maximum rate on savings...
deposits in the light of current circumstances. Mr. Koch commented on the chart attached to a distributed table on bank reserve utilization, noting that it had been prepared in response to a recent suggestion by Governor Maisel. (Other distributed material included tables affording perspective on the money market and the capital market.) Mr. Gemmill then discussed trends in the London gold market and foreign exchange rates, with emphasis on the pound sterling, and presented an analysis of recent developments affecting the U.S. balance of payments position.

All members of the staff except Messrs. Sherman, Kenyon, Solomon (Adviser), Fauver, Brill, and Solomon (Examinations) then withdrew and Messrs. Hackley, General Counsel, Leavitt, Assistant Director, Division of Examinations, and Egertson, Supervisory Review Examiner in that Division, entered the room.

Discount rates. The establishment without change by the Federal Reserve Banks of Cleveland, Richmond, Chicago, St. Louis, Minneapolis, Kansas City, and Dallas on March 10, 1966, of the rates on discounts and advances in their existing schedules was approved unanimously, with the understanding that appropriate advice would be sent to those Banks.

Branch application (Item No. 1). Unanimous approval was given to a letter to Ronan State Bank, Ronan, Montana, approving the establishment of a branch (drive-in facility) approximately 600 feet from the bank's head office. A copy of the letter is attached as Item No. 1.

Report on competitive factors. There had been distributed a draft of report to the Federal Deposit Insurance Corporation on the
competitive factors involved in the proposed merger of State Bank of Kenmore, Kenmore, New York, into Bank of Buffalo, Buffalo, New York. The proposed conclusion was to the effect that while the merger would eliminate the competition existing between the two banks, they occupied relatively minor positions in the highly competitive Buffalo area and the merger should have little effect on the competitive situation in that area.

In discussion it was noted that the city of Buffalo was presently served by only five commercial banks, including one very small bank. It was also noted that the service areas of the two banks proposing to merge appeared to overlap. These factors, among others, suggested avoiding reference to the banking situation in Buffalo as highly competitive and avoiding indication that the proposed merger would have little effect on the competitive situation. It was pointed out that the merger would have the effect of eliminating the home office protection feature in the village of Kenmore; on the other hand, a number of offices of the three largest Buffalo commercial banks were already located within close range of the location of the Kenmore bank. At the conclusion of the discussion unanimous approval was given to the transmittal of a competitive factor report with a conclusion reading as follows:

The proposed merger of State Bank of Kenmore into Bank of Buffalo, a subsidiary of Empire Shares Corporation, New York, New York, a registered bank holding company, would eliminate the competition now existing between them.
While effectuation of the proposal would terminate "home office protection" in Kenmore and thus open the community to branches of other banks, it would replace the only Kenmore-headquartered bank by a branch of one of the five commercial banks in nearby Buffalo.

In view of certain questions that had been raised, it was understood that the Division of Examinations would furnish the Board members for their information certain additional data on the respective sizes of banks operating in the Buffalo area and on office locations. Governor Brimmer observed in this regard that the general format of the competitive factor report might deserve reconsideration, in light of the fact that several points discussed by the Board in connection with the report just approved did not seem to be covered fully, and it was agreed that the format would be reviewed.

All members of the staff except Messrs. Sherman and Solomon (Adviser) then withdrew from the meeting.

At the Board's invitation, Mr. Solomon commented informally on the Working Party 3 and Group of Ten meetings held this week in Paris.

Reference was made to receipt of a copy of a letter written by the Comptroller of the Currency under date of March 10, 1966, indicating preliminary approval, subject to certain conditions, of an application to establish a new national bank in San Francisco, California, such application having been submitted by a group of persons associated with savings and loan institutions that were substantial depositors in the San Francisco National Bank, now in receivership. It was understood that the information contained in the Comptroller's letter would be analyzed by the staff.
The meeting then adjourned.

Secretary's Notes: Under date of March 8, 1966, a letter was sent to former Governor Balderston over the signature of Chairman Martin indicating that the Board had authorized presentation to him of the desk chair that he had used while serving on the Board, to which would be affixed the brass name plate from his Board Room chair.

Governor Shepardson today approved on behalf of the Board the following items:

Letter to the Federal Reserve Bank of Cleveland (attached Item No. 2) approving the designation of ten employees as special assistant examiners.

Memorandum from Mr. Young, Senior Adviser to the Board and Director, Division of International Finance, dated March 10, 1966, recommending the reestablishment of an economist position in the Europe and British Commonwealth Section of the Division of International Finance.

Memorandum from the Division of Research and Statistics dated March 11, 1966, recommending that the term of the arrangement under which Charles A. Yager is on loan to the Organization for Economic Cooperation and Development in Paris, France, be extended to August 31, 1966, and that the Controller be authorized to continue making certain agreed upon monthly payments into Mr. Yager's account for that period of time.

Board of Directors,
Ronan State Bank,
Ronan, Montana.

Gentlemen:

The Board of Governors of the Federal Reserve System approves the establishment by Ronan State Bank, Ronan, Montana, of a branch (drive-in facility) to be located approximately 600 feet from Ronan State Bank's head office, provided the branch is established within six months from the date of this letter.

Very truly yours,

(Signed) Karl E. Bakke

Karl E. Bakke,
Assistant Secretary.

(The letter to the Reserve Bank stated that the Board also had approved a six-month extension of the period allowed to establish the branch; and that if an extension should be requested, the procedure prescribed in the Board's letter of November 9, 1962 (S-1846), should be followed.)
Mr. Harry W. Huning, Vice President
Federal Reserve Bank of Cleveland,
Cleveland, Ohio. 44101
