For principal and interest see new worksheet

Any green pencil entries paid as given in Reports of Bank Commission 1932 and later years Amount

From individual claims register (Cases with no payments from guaranty fund) - cases with payments from fund equal from other worksheet. In green - over

Note: All deposits were paid thru successor bank

not included in other worksheet

Total from both assets and guaranty fund 93,743,589

Reopened June 18, 1923

This 2010 from S.F. paid 6/17/27, but must be included with balance of 244,763.53 marked paid 12/20/27.

Guaranty fund certificates - in green - from Report in Supreme Court Case
 See other worksheet, and note 2. Figure for Abilene also given in
 Commissioner's Report for 1911-12 p. 3 (see excerpt in binder)

Guaranty fund certificates - for People State Bank Salina - not available
 from any source. ~~Estimated at \$53,100. Total deposits same as for the other
 banks in the state. But this was not made for all
 deposits were paid thru the successor bank - See Commissioner's
 Report for 1911-12. Therefore the figure for total deposits at date of
 failure is taken as equivalent to total guaranty fund certificates issued.~~

Re: Kansas State Bank Salina, Guaranty fund certificates issued
 estimated from amount and percent of dividends paid by fund (no interest
 paid in this case)

Re The Abilene State Bank.

The information on deposits of this bank at date of failure is -

conflicting +
 State report p. 1910 shows deposits of \$1,012,289 as of Aug 15 - (3 weeks prior to failure)
 State report p. 1912, p. 3 (see excerpt) shows certificates issued of \$46,809.75 - stating that this
 was the amount owed to depositors. However, this might have excluded most of the
 time deposits because of the limitation of insurance coverage to those with not over 3% interest
 and not over \$100 per person in savings deposits.

This number should be 5541.11

This new worksheet was made out for only the first two pages of the list of failed guaranteed banks; as this includes get the banks for which payments were made from the fund. For the others the same items from record books by claimants - prepared, receiver's certificates, and guaranty fund certificates (in some cases now were entered on the worksheets made out last year.

Receiver's certificates (common claims) include non-guaranteed obligations of the following sorts: unpaid expenses, cashier's checks, some C.O.'s (presumably carrying more interest than on guaranteed)

Take city and other banks

Endura. The expense item was ~~deducted~~ deducted from each account & received next given.

Leavenworth - Second dividend not totalled but amount can be computed from ten 1/11438%

Essex. - Apparently the "temporary receiver certificates" receive only the first 3.4% dividend.

Washington - apparently only first 1.06% on the "temporary receiver certificates".

Re Salina. New bank was opened by Dept. Guaranty fund certificates issued (or the equivalent thereof) estimated from amount and percent payment from fund from Dept. records (see other sheet). Receiver's certificates estimated, less difference of estimated fund certificates and total deposits. Receiver's certificates not paid estimated from percent dividend paid. (see other worksheet)

Re Abilene & receiver's certificates & loss on them estimated by same method as for Salina.

Homeport - Same method gives no balance for receiver's certificates

Guaranty certificates issued account

Date/Julian	Receiver's certificate not paid (all banks)	Preferred Claims	Receiver's certificates (Common Claims)	Deposits		Paid by guaranty fund		Total	Not paid either by fund or receiver		
				Total	Paid by receiver to amount	Principal	Interest

Total full years 2,435,378.55
 2,781,050.24
 355,632.21
 156,307.77
 340,001.44

Note for tables. Most of the discrepancy is obviously an interest error in the Cunningham case (see page 1), so assume interest paid equals amount
 Total 355,632.21 plus 5670.25 discrepancy = 361,302.46
 which, with principal of 2435378.55 makes total of 2,796,681.01

Note for totals. Figure to be used for fund.
 Total shown here as actually paid to banks for principal and interest
 Allowance for expenses of court case - deducted from some payments due
 This compares with total warrants drawn on fund to June 30, 1934, as given in Treasurer's State reports

Cummingham - Farmers State Bank - includes \$123,128.32 deposits undergoing litigation in which no dividend was paid by receiver.

Warden City - Peoples State Bank Total given in claims book only for total guaranty certificates issued. ~~and paid~~ Principal paid from guaranty fund extended at 20% of such certificates - with balance paid (difference from total in other worksheet) assumed to be interest.

1912

1) Report states that receiver ^{should have} had sufficient funds to pay depositors' claims without ^{the} necessity of making payment from guaranty fund, but 1914 report gives amount of payment by guaranty fund as \$28,701.76.

2) From Report of Commissioner S. C. Bloss, "In the Supreme Court of the State of Kansas - No. 27536, pp. 45-72 incl. Figures in green from Federal Reserve schedules, covering dividends paid from ^{collateral} secured claims and ^{or} general claims and ^{or} secured claims, where such claims were apparently deposits. Receiver still held large cash balance at time of the Bloss report - so additional dividends were presumably paid by bank at a later time.

3) Figures in green from Federal Reserve schedules, covering payments from guaranty fund. Orange indicates deposits paid by guaranty fund (in full except for 2 banks) 31 banks. See blue pencil note below.
4) Figures in green from Federal Reserve schedules, covering payments from guaranty fund. Difference between total claims and total payments receivable certificates (computed separately from data obtained in 1956 from records in office of Bank Commissioner).
5) Figures in green from Federal Reserve schedules - difference between total claims and total payments receivable certificates (computed separately from data obtained in 1956 from records in office of Bank Commissioner).
6) Total liability \$1,152,068.15 paid in full, records unavailable.

7) From Federal Reserve schedules, includes secured claims where such claims were apparently deposits.
8) Figures in red pencil are loss estimates from Form 5-30. For the most part these are based on data given in the Biennial Report of the Bank Commissioner, 1932, pp. 12-20. In this report data are given for banks paying final dividends from July 1, 1929 to September 1, 1932, but date of completion of liquidation is not given. In some cases figures are taken from similar data in later reports. Apparent loss on claims not met by guaranty. However this is one of the banks with guaranteed deposits paid in full. Losses will doubtless on claims for which receivers certificates (and not guaranty fund certificates) were issued. Date checked with Banking Dept. record, Dec. 5, 1955. If different, shown in blue pencil.

9) Add'l. List checked at Banking Department, Dec. 5, 1955 by EW. List is the same except as follows:
Additional in Banking Dept. List: Garden City: Peoples State Bank } Dept. list correct, FDIC an inference from incomplete data re method of payment for these two banks.
Not in " " " " Salina: Peoples State Bank

↓ Guaranteed banks purchased stock @ \$4.00 per share, large
depositors bought stock with 40% of deposit and received 60% in cash.
Stock so purchased resulted in losses of varying amounts. Loss to
guaranteed banks reported by Bank Commission [letter] at \$1,500,000.

~~Trillium 557 - (1926)~~

* Trillium - Kansas State Bank Failed 4/14/27

* McDonald - 236 (1928)
Froms Bank Bank? McDonald Failed 3/2/28

* These two banks are not in membership list prepared at the Bank Commission office as ever having been admitted to the fund.

Since ~~the~~ ~~there~~ no guaranty full cert, all shown it is probable that both were not members. However, check

with list in Bank Commission's report (to be provided from Flacy of Congress) as of Aug. 31, 1926, as old no sheet indicates they were in that list.

Note: Both omitted from present table for members & failed guaranteed banks.

Also there is doubt about following two banks
Burlington - Burlington State Bank Failed 4/7/27

Withdrew per Mrs. Carter - but records show guaranty fund certificates outstanding (and also retained large receivers certificates)

McCaughan - Bank of McCaughan Failed 9/29/27
Membership records do not show withdrawal - but liquidated

records show no guaranty fund certificates
outstanding ~~at~~

Note: ~~Both~~ ^{might} of these ~~are~~ ^{be} also omitted
from revised Table. This is in accord
with the banks shown as guaranteed in
the summary record in the Comptroller's
Office examined in Dec. 1955. However,
memberships record of Bank of Wisconsin
did not show any withdrawal pursuant
suspension - so this was counted as
guaranteed, with the amount of guaranty
fund certificates ascribed to the Burlington
Bank, which is reasonable in the light of the
size of the banks. And the Burlington
Bank was not included
