Dear Sir, I had advised you that under the first order of the Ex. Court, the proportion of your advancement in specie was \$500 in aid of the Licking Co. Branch, and that by arrangement it was to be paid to the Board of Control, and that amt. of Licking Bank notes was directed to be sealed up and delivered to your Branch in payment. Your President was here some days ago and I endeavored to explain the matter to him. I also wrote, if more convenient the amt. might be remitted in a sight ch. on N. York. I fear my letter may have been mis-carried, and that Mr. W. Cundy may have forgotten to explain the matter. I am very desirous to close the business, and make you all equal sufferers in proportion to circulation as have been my directions. Will you please either forward the \$500 in specie or an E. ch. as may best suit your convenience?

Dear Sir, I have received yours of the 14th and was not a little surprised that you had inferred from what we had said or done, that we doubted your veracity or ability. Allow me, my dear Sir, to assure you it never entered into my mind to question, in the slightest degree, either, not the facts, but some misunderstanding of them, has given rise to the difficulty. We have endeavoured to establish, in the investigation of titles offered as security for Safety Fund, some general rules. One is an abstract of title, and the opinion of the agent that the title is good and free from incumbrances. This opinion we highly value in all cases, but never in any case deem it conclusive, unless clearly justified by the abstract. - If we relied wholly upon the opinion of counsel, you will at once perceive, that an abstract would be wholly useless. Now we actually reject this opinion in more than 3/4 of the cases presented, believing the facts detailed in the abstract do not warrant it. We have generally found the opinions right, and that the difficulty, either grew out of omissions in the abstract, or in the statement of some facts, not clearly explained or perhaps not rightly apprehended by us. - But to the case which I presume led to your communication, what communication was made to your Branch, by the Secty or how it was by the officers explained to you, I am not able to say, but I feel quite confident that Mr. J. certified the recorded facts, and lest some mistake may have happened, I copy them from the record, and I think it will be difficult for any one to infer from them, that the Ex. Comt. entertained doubts of your truth and honor. - "Rops Co Br. Application of James S. Worthington, for a loan of \$3000. "It is noticed by the order of sale, that a mortgage is to be given to secure deferred payments. Now is this?" And this question from which I am sure you could not justly infer any thing of personal character, was again, not having been answered, repeated, in precisely the same words: you then stated how it was, and your word removed the difficulty, and the loan was granted. Now my dear Sir, taking all these matters into consideration, I hope you will be entirely satisfied that we had them, as I assure you we now have, the fullest confidence in your integrity and ability.

Dear Sir, I am in receipt of yours of the 15th. By the 24th Sec of our Bank Law, the property &c. of an insolvent Branch, which appears to be one which shall refuse the payment of its notes, becomes vested in the Board of Control, and altho' the State Bank of Ohio, should be in some respects, viewed as a mere trustee, there appears no restriction to its control of the property. It has therefore, it would seem to me a perfect control, to do with the property as it seems to them best answerable, no doubt to those immediately or remotely interested for negligence, or abuse of a gross character. As corporations can only act by officers and agents, I suppose ^{in this sense} the receiver is the proper one, under the supervision and probable control of the Board, to attend to all the business. I should not entertain a doubt, but what the indemnity of Mr. Buel as security for the Branch might be changed as you and he may agree. It is undoubtedly right that Mr. B. should be secured, and I would venture to say that no delinquency whatever could happen to him, in case it should be found for the interest of the Licking Co Br. to substitute those transferred to him for others, which under present circumstances could be better spared, and secure him as well. I cannot doubt but Mr. B. will act with liberality in the matter. The condition of the claims to which you refer will be found on the opposite side.

Dear Sir. I am in receipt of your letter of the 11th. I have received orders to collect the Safety Fund of the Licking Co. Branch without delay. One object is, if possible, to prevent the necessity for further advancements by the Branches to redeem the Licking Co. notes, and unless these debts are promptly paid, I do not see how we can well avoid that unpleasant necessity. The notes are pressed home upon the redeeming Branch, much faster than we could wish. Several debtors of this class have paid and promised to pay very soon a part of the amt. and when this shall be faithfully done, I have assumed the responsibility of granting some short time for the residue. I shall be happy as far as possible, without being faithless to others, to grant a like indulgence to you and in law, further than this I should not feel at liberty to go. It would pain me to cause you, or any of yours, distress, and I hope Mr. Rhoads will find some person who will be willing to advance this sum for him, and give him time, upon a small additional interest to that which he is now paying, or perhaps, upon the like terms. Dear Sir, Hearing found leisure to examine your Safety Fund a/c I find you have now \$25,500 loaned on bond and mort. which with \$2,000 pd. by Mr. Minans makes the full amt. \$27,500. An error had crept into my books by my predecessor having charged you with the bond and mort of D. Keamer at the time it was sued upon, and I again at the proper time, when it was paid. This gave \$1,000 too much uninvested.

The amt. of S. Fund by which you have credit on my books is \$27,680 being \$180 more than the proper amt. This arose as follows on the 1st day of January 1849, according to my books you had \$25,680 loaned. On the 11th April you loaned to J. W. Moorick and others \$2,000 making \$27,680 and on the 30th of June following you have a credit of \$180 left to cover this excep. Will you please authorize me to charge up this excep. if it corresponds with your books?

The Messrs. Draper, Welsh & Co. Engravers, employed by the State Bank of Ohio, have performed that work to the entire satisfaction of the Ext. Comt. Some of the notes furnished unfortunately from some defect, of which we are not competent judges, became easily obliterated and it was necessary to withdraw them from circulation. This difficulty has been adjusted to our entire satisfaction, and in a way honorable to that firm, who are still continued with undiminished confidence, in the employ of the State Bank of Ohio.

N. L. Wilson Esq.

June 29th. 1852.

Dear Sir, Our Ex. Comt. met on yesterday and adjourned today. Mr. Draper was present. He came here under a total mistake with regard to his power under his contract and the instructions which he had received. In the course of conversation with him he remarked that he suspected from the beginning that the paper furnished was defective and expressed regret that his House had not had the power to select the paper. I was a little surprised at these remarks and turning to the contract showed him that part which vested in them full authority at discretion to refuse to receive paper not deemed of the best quality. Mr. D. confessed that he did not recollect that important part. This placed Mr. D. in an attitude which he had not anticipated and indeed in rather an awkward one. He then stated that he would have rejected the calendared paper had he not been directed by me to use it and that it was procured by our direction. I told him he was greatly mistaken here in. I then turned to my note merely asking him the question whether what was called "calendering" would not render the paper more durable and easier to write upon - and the only letter he claimed as controlling him in the matter - which was an answer to their excusing the delay in not forwarding the notes in which they said that the calendared paper caused them labor and took much longer to dry and that they had lost several thousand sheets. In this communication was not a word that there was any deficiency in the paper or other difficulty about it. Assuming as I did, and nobody could judge any other difficulty existed, that it caused more trouble to print and dry, I answered that the calendared paper appeared smoother and was much easier to write upon and I thought would be more durable and encouraging than as I had often before done when they complained

of encountering difficulties. When these various letters were exhibited Mr. D. at once confessed he was mistaken. Indeed he could not do otherwise. The truth of the matter is that those gentlemen did not take due precaution to see that their work was perfect. If the paper calendered or uncalendered was defective they should have known it and either at once as they had a right to do declined receiving it or notified us of the fact. They have been greatly to blame but not intentionally to blame. Every member of the Court present deemed them legally liable for all the injury that has followed. They believed they should have known that the paper was defective but that they did not. That a very little precaution - a very little attention to their contract would have led to the discovery of the defects, whatever they were and would have saved them and us loss and discredit. To make a long story short we settled with them upon terms to Mr. D. entirely satisfactory. They deducted \$1200 from their bill and we paid the residue - I have been thus explicit for two reasons - one was that you are a member of our Court, and we entitled to know the facts and settlement and another was that we had some slight reason to suppose that you had not fully made yourself acquainted with the correspondence between this office and the Messrs. Draper Uhlsh & Co. and that you were under such erroneous impressions, to some extent, as those gentlemen appear to have been. We entertain the hope that with these explanations and facts what we have done will meet your approbation. I am very respectfully

July 3, 1852

Dear Sir. We find from experience that the Sicking Co Branch notes come in for redemption, rather faster than was anticipated. The Ex Branch has already redeemed a little upwards of \$10000. The amt placed with the Ex Branch including advances by Branches, Safety fund on hand and paid in, since it suspended is a little short of \$30000. We entertained the hope, that what might be made from the payments and collected from the Safety Fund, would render it unnecessary, for a further call upon the Branches. You will please either deposit with the Ex Branch or forward to J. Darnley Esq any amt you may collect from the agents of that Branch, which will be applied to the redemption of the notes. Under my furlough, I leave here for the north on Monday, a letter will reach me at Newport, R.I. The members of the Est. Court which recently met confirmed the views substantially, which I expected to you as to the mode of your business. In contested cases, especially those requiring great labor, we take it for granted, you would expect a prudent counsel, and in such cases we suppose you will be satisfied with Mr Hunter, if otherwise please advise us very truly yrs

Dear Sir, Yours of the 16th was rec^d by this morning's mail. You are right in the presumption that Mr. Jewett has been appointed Receiver of the Sicking Co. Branch, and that the Exchange Branch has been appointed or selected as the redeeming Branch. Notice was published in the "Ohio State Journal" and "Newark Weekly Times" about the 10th of June that the notes of said Branch would be redeemed at the Exchange Branch, since which time all have been redeemed that have been presented, and of course will continue to be. I know not

from what paper you cut the slip sent me, but perhaps nothing more would be required than to say to him and also to Mr. Dye that such is the fact, and they would doubtless say so in their columns. By the way, is it not possible Mr. Dye rec^d just such an answer from Mr. Dwyer as he wished? I do not feel authorized to make any official publication, and perhaps a word from you would answer as well.

July 28. 1852

Dear Sir Your favor of the 25th inst. is recd I will try to explain unofficially the manner of keeping accounts in the mutilated note department.

First. On the third Monday of each month, we ascertain the amount returned by any Branch, in the past month, on other Branches, from which we deduct the amount returned upon it, and forward cks on debtor Branches for this balance.

Second. We credit each Branch the amount that may have been returned upon it during the past month, and if it should have returned any of the notes of the Licking Co Br. this amt is also credited to the Branch returning them. The notes so credited, are held here until such time as the agent of the Br. appears, and are delivered to him, preparatory to burning, or other disposition of them, and for whom we require a voucher which closes the account.

Third. The "Unidentified Notes" returned by any Branch, are placed to its credit in another ac. and are held until the meeting of the Board, when they are examined by a committee, and what cannot be identified, funds are provided for their payment, ^{by the Board}

I notice that our accounts will not now agree, and will point out the difference.

Dear Sir, After an absence of one month, I returned
yesterday. Your letter of the 30th is present. I concur with you entirely in
the perfect propriety of carrying out the orders of the Board. With a view of re-
ceiving the advice of the Ex. Comt. and for the transaction of other im-
portant business I have requested the members to meet on Thursday next
week at 9 o'clock A.M. at which time I shall not fail to lay your
communication before them. It has ever been my course to carry into effect
the orders of the Board. This should be the course of all as all are interest-
ed. A relaxation would furnish a precedent which might endanger the
whole system. I should resort with extreme reluctance to coercion, and
only as a dernier measure - but if nothing else would procure obedience
to the orders of the Board I most assuredly would not hesitate as one
of the committee to take the necessary steps to effect the object.

Dear Sir, I have your letter of the 5th. No notes of the branches are redeemed at this office, except those which have become obliterated, and in that way lost the evidence of identity. Dear Sir, Yours of the 3rd is present. The publication in the Detector had its origin in error, or something worse. The redemption of the Leeking Co. Branch notes was instantly provided for, on its suspension, and the notices given that they would be redeemed at the Exchange Branch in this city, where they have always been redeemed from that time - our presses and their conductors, are not always correct. If you will refer to the copy of the order of the Board, relative to the reduction of circulation, you will see that no power is given to the Pres. or Ext. Com. to modify it. If you will turn to Art 6 Sec 2 of our By-Laws, you will also see that the Ext Com. cannot alter or amend any rule, or order of the Board.

Dear Sir, I have rec^d your favor at Newport. I did not stop at Buffalo as you required for several reasons - the cholera was there, and on enquiring I found it exceedingly probable the gentlemen were out of town, and lastly, I could not well detain a day, and meet my engagements at home. I thought it probable too, your object could be accomplished by writing. We have an Ext Com. on Thursday next, and should no disappointment take place, I will then have the pleasure of submitting to them your enquiries, as to your power of compromising debts. I was in hopes you might be in funds before that, to aid in the redemption of the Leeking County Branch issues, unless you succeed in making some collections, I fear we shall be compelled, notwithstanding what is received of the Safety Fund, to make an additional requisition upon the Branches, to meet their returns; I wish to avoid this, if possible. Aug 10, 1852

Dear Sir, Yours of the 7th to Mr. Clancy is before me. It seems proper that a closing Branch, should report its condition, the same as others, at least until its circulation is reduced to the amount specified in Art 10, Sec 4 of the by-laws, and the security given as thereby required. In your case no danger at all would be apprehended, I presume, should you be left to close your business without the trouble of reporting your condition, but it might be otherwise with some others. Without having any particular instructions either from the Board of Control or Ext. Com. it would occur to me, as being proper that those Branches which are withdrawing, should continue their reports, as usual, the labour in your case will not be great as you are so near a final close. As we are anxious, however, without further delay to make up and publish our monthly abstract, we will make the return from the brief one furnished by your Branch. I am &c. S. Swan

 Dear Sir. The copy of the resolutions of your stockholders, passed on
 the 30th day of June last was received in my absence, I have also received your favor
 of the 10th instant by Mr. A. Beebe, the notes enclosed received, were counted, and found
 reported to have been returned under said resolutions. The order for the extinguishment
 of your stock, in pursuance to said resolution was not made on account of the want of a
 quorum of the Ext. Comt. We have called another meeting of the Ext. Comt. to be held on
 Monday the 23rd at which time should we succeed in obtaining a quorum, these
 resolutions will be laid before them, and I think there can be no doubt, but whether
 order will be made granting the extinguishment of the stock, agreeably to the wishes of
 those interested in your Branch. Upon the extinguishment, I think the denominations
 must be reduced so as to have in circulation no more than 10 per cent. of ones, upon
 the amt authorized by the remainder of the capital, and not exceeding 10 percent
 of the denominations of 2 + 3 or 5 in lieu of them, so that not more than 50 percent shall
 be under 10\$. See Sec. 52 p 22 of Bank Law. The clk. says your notes returned are

A. J. Jewett Esq. Cas &c Aug. 13 1852
 Dear Sir. I have recd your favor of the 11th. Owing to the absence
 of Mr. Otis and Mr. Hubbard, and professional engagements of Mr. Odlin, only one member of
 the Ext. Comt. Mr. Wilson, attended at the time appointed for the meeting. I have made
 an other effort to obtain a quorum, again requesting the attendance of members, on Monday
 week the 23rd day of this month, at 9 o'clock AM. I fear we shall be again disappointed but
 hope not. Without of course wishing any weight given to my views, and having no right
 officially, to interfere with, much less control the action of the Receiver, I am happy to say,
 I concur with you generally, in the policy indicated by your letter. If you have obtained
 all the books belonging to the Licking Co Branch, I think you will find a record of
 discounts, carefully kept. I ascertained when at Newark, that the course of business was
 about thus - Bills were sent to Smith, for discount, he generally took off, one or more per
 cent per month, and then procured the same to be discounted in the Branch, by the
 discount committee, composed of himself and Dr. Brady, Smith, without endorsing them,
 undertaking verbally, to see them paid. With few exceptions, the Branch only received
 the legal discount, and never, as such, any more - but in some instances made, I fear,
 exorbitant charges for collection. The Piqua Branch, not only had notice, that the Licking
 Co. Branch "contemplated insolvency", at the time they took collateral security, but was
 distinctly informed, that Smith's endorsed drafts, officially, would not be paid, by the
 Licking Co. Branch. The time drafts of the Branch to the Piqua Branch, it was thought
 should be paid. It appears to me, you had better write the Cashier of that Branch,
 that unless the collaterals, over the amount to pay the drafts drawn by the Licking Co. Br.
 are surrendered immediately the whole arrangement will be contested, under the Bank
 Law, which forbids transfers of evidences of debt, in contemplation of insolvency, Sec. 65. I
 would make the suggestion, because I think that Branch, is doing wrong to attempt to
 apply those collaterals in discharge of Smith's drafts, when both their Pres and Cash, well
 knew it was our intention that the latter were not to be paid, and I presume the
 intention of the Directors of the Licking Co. Br. that they should be limited to those drafts, in
 times, legitimately drawn by the Branch. These suggestions are made, only as such.
 With regard to your powers of compromising, I will submit your doubts, and Mr. Odlin's
 to the Ext. Comt. as soon as one can be convened, should I succeed, and be so informed I
 will advise you. I am &c G. Swan

 Dear Sir. Your favor to Mr. Secy. Sarney, of the 14th inst. is

 195 threes 135 fours 1260
 49 tens 4 twenties 570
 4 fifties 200 — \$3401 1/2

The amount rec^d by him, from the Mutilated note department was \$1401 1/2 this
 sum deducted from the aggregate, above, would leave \$2000, which I suppose was
 the amount in the package referred to, as having been delivered by Mr. Kingsbury,

Dear Sir. I addressed to you to Troy, where your late favor advised me you would be, a letter notifying you that we had failed in obtaining a quorum of the members of the Ext Comt, and that we had appointed a meeting to be held on Monday next, that is the 23rd day of the present month at 9 o'clock A.M. I also requested you to advise me, if you could not attend. The same request was made to the other members. Mr. Wilson will attend. Mr. Hubbard is absent. I know not where, and I have been advised by a partner of Mr. Cui that he is absent, and will not return before the 1st of next month. Now without your presence we shall fail again of a quorum; pray do come if possible, but if you cannot, let me know at once, that I may advise Mr. H. that it will be useless for him to attend. I am &c. G. Swan.

J. R. Crawford Esq. Cas

Aug. 17, 1852

Dear Sir. Your favor of the 15th to Mr. Secy January is received, I have examined and compared the inclosed account, with the accounts kept in the Mutilated Note department, and as I understand it, you should not have credited the \$322. May 27 striking off that item, the debit to the Secy would be \$4, which would agree with our balance to your credit in that department viz \$3 in Seeking Co Notes & \$1 unidentifed. I suppose you have hitherto deducted the notes redeemed here from your notes in circulation; please bear in mind that these accounts are kept separate here from the regular account for notes for circulation; it may not be proper for me to advise, but without assuming to direct, I will make the following suggestion, as being in my opinion the best mode of keeping the account to wit: You charge the Secy the mutilated notes you may send here on other Branches, and the Cks drawn upon you by him for your notes redeemed here, and credit all cks rec^d from him in payment for notes sent here by you for and when your notes are returned to the agent here and counted preparatory to burning credit the amt so rec^d in this way, if correctly kept, our accounts must at all times agree, you can treat the ac^t the same as any other debt due your Br.

Mr. Wilson was here last week, and received all your notes then on hand and burned them, he received \$113, that had come in since the settlement in July, which will be included in the settlement of the mutilated notes for the present month.

Your "circulation account" with the Board is as follows at this date viz

\$ 18,206.00 of 1 ^s	\$ 59,560.410
5,932.00 2 ^s	29,240.00 20 ^s
12,720.00 3 ^s	14,000.00 50 ^s
58,990.00 5 ^s	
	\$ 198,648.50

the amount of the last burning Aug 12 was \$ 1,352. Truly yours W.W.

Aug. 20. 1852

Dear Sir. Please find pt. inclosed, in discharge of your bill rendered Aug 18. 1852. We are inclined to believe your bill forwarded in June miscaned, as we have nothing of the kind on our files, nor does any one recollect of having seen such an one. I have also rec^d the copy of your paper. We have felt, or I have, a little anxious about this small matter, owing to a letter of the late Cashier to a broker, which was published, since the insolvency of the Sicking Co Branch, in substance stating, that no provisions had been made for the redemption of the notes, of that most unfortunate Branch & very much regret that I have caused you so much trouble, for so small recompense, but I trust you will excuse me under the circumstances. I am & c. S. Swan

J. R. Dunn Esq. Cas

Aug 20. 1852

Dear Sir. I am in rec^t of your favor of the 18th. On the 12th Aug Messrs Beebe & W. Skilton returned notes burnt of the Lorain Branch \$470, namely,

262	1 ^s	=	262
49	2 ^s		98
15	3 ^s		45
3	5 ^s		15
3	10 ^s		30
1	20 ^s		20
			\$470.*

I most assuredly should have written you had there been any discrepancy, between your memorandum, and the notes counted and burnt, either in amt. or denominations, the report of the above date, of notes counted and burnt being special, as directed, in conformity to the resolutions of your stock holders, was by the same members of the Board was as you were advised, namely,

623	1 ^s	=	623
249	2 ^s		598
225	3 ^s		675
494	5 ^s		2470
300	10 ^s		3000
487	20 ^s		9740
224	50 ^s		11200
			\$28306

On the 18th of May 1852 A. Beebe & A. Kurling, members of the Board reported that they had counted and burnt of the notes of the Lorain Branch \$7107, as follows:

1584	1 ^s	=	1584
411	2 ^s		822
277	3 ^s		831
490	5 ^s		2450
117	10 ^s		1170
10	20 ^s		200
1	50 ^s		50
			\$7107

At the close of my letter to you of the 12th I said "The Clerk says your notes returned were or are correct that is \$22,694, prior to those now returned by Mr. Beebe." Now it appears to me, this statement together with your agents memorandum, and your own, might have put in an entry in your books without further detail, from this office, but I confess I am always pleased with the caution and care of officers of Banks. Will you please reply to my private letter of the 12th
I am & c. S. Swan

* Mr. Beebe rec^d from me mutilated notes, redeemed here, on your Branch \$466 - \$28, of this amt. had been rec^d between the July settlement, and August, just rendered. There was \$1. of some other Br handed to him - if this was turned \$465
" " \$5 in notes of your Br identified at May session 1852 handed to him and burnt with the above.

making the sum as stated, brought \$470. I also handed him \$32 notes, on Sicking Co Branch returned by you in May. You now have cr. in the Mutilated note depart^t. Balance of your notes redeemed here \$61. Unidentified notes returned by you \$65.

Aug 20. 1852

Dear Sir. Your two bundles of sealed notes, as well as your telegraph dispatch of yesterday have been received, and the notes placed with Mr. Wing who now acts as Secy. We have no means of burning these notes at present, as no member of the Board is here, the next meeting of the Est Comt on Monday, and if we should be so fortunate as to have one, or if any two members of the Board shall be present together, I shall do my best to have your mutilated and defective paper burnt, so that you can obtain your circulation thus reduced, and so soon as it can be done, I will advise you.

Aug 21. 1852

Dear Sir. Yours of the 19th to Mr. Secretary Sawyer, who is now absent, is before me. We consider all notes remaining at the Board of Control, as properly constituted, a part of the amt. required by the order of the last B of C, to be withheld from circulation. As our abstract will show, the denominations are no longer required to be reported, but the aggregate only. Mr. Wing's memorandum shows that your Branch has in this office mutilated \$1529, of which are unidentified \$13, therefore remains as a part of the amt. required to be withdrawn from circulation \$1529. The monthly returns would appear to furnish a basis for the information which has reached you that "some of the Branches are not complying with the order of the B of C at last report." The principal excuse furnished is that the amt. of their notes are not to be had. To enforce these orders of the Board no means were capably given and I am delaying action until I can be aided by the order of the Est Comt, a meeting of which is appointed for Monday next.

H. Dwight Williams Esq. Cas Aug 21 1852
 Dear Sir. Your favor of the 19th is received. I counted the package of notes, referred to, twice, the labels were not preserved. I have not been in the practice of keeping them, it might perhaps, be well to do so. I am sorry we do not agree in this instance, packages sent by the Branches, sometimes held over, and sometimes fall short. You may have been correct in yours, and I in error, the difference is between us, and I shall be happy if no worse mistakes than this shall occur, if I am mistaken in this, of which I am by no means certain.

 Dear Sir - I return the mortgage, of F. W. Seymour, for record, his application for a loan of Safety Fund, from your Branch, having been allowed. Truly yrs W.W.

T. P. Handy Esq. Cas Aug 21 1852
 Dear Sir. Your package of mutilated notes (\$2700.) on various Branches is received, and is as follows viz:
 Identified notes to your Cr. \$2664
 Unidentified " do 18
 And will be for settlement 20th Sept. \$2682
 I return you herein, your own notes \$8. Mismatched do \$9. - \$17
 Being short of your count \$1. - In the above package there was \$23. in notes of the Licking County Branch, these you are aware cannot be paid for through this office.
 Truly yrs W.W.

H. Dwight Williams Esq. Cas Aug 23 1852
 Dear Sir. When I wrote to you, Saturday last, it did not occur to me, that the package of notes referred to, had not been distributed into the ~~sub~~ boxes. This morning, I counted it again, and it agreed with my report to you of the 16th inst. I have not distributed it, and will not, until you are satisfied that I am correct, and that with you is the error.
 Truly yours W.W.

 Dear Sir. The resolutions of your stockholders, with respect to the reduction of your stock, were submitted to the Ext. Comt. and I copy as much of the record, as I deem necessary for your satisfaction.

"At a meeting of the Ext. Comt. held Aug 23 1852. present P. Odell, A. S. Wilson and S. Swan, Pres.
 The resolutions and proceedings of the stockholders of the Loram Branch at Cypria, passed June 30 1852, to reduce the stock of said Branch to \$75,000, in pursuance &c. The Executive Committee hereby consent to the reduction of the stock of the Loram Branch according to the provisions and terms mentioned in said act, and the resolutions of the stockholders, provided however, that said Branch shall be held liable to contribute its several proportions of all losses now incurred, according to its capital as it stood before said reduction of stock."

A. S. Jewett Esq. Receiver & C. Aug 23 1852
 Dear Sir. I submitted the question of the powers of the Receiver of an involunt Branch, to compromise with debtors &c of the Branch. The Comt. the members of which had but little time for deliberation, and none for the examination of authorities, appeared to be of opinion, that they had no power to act in the matter, - but were inclined to think that the power existed with the Receiver, but as none of us had any confidence in this hasty conclusion we deemed it best either to leave you to act, as you thought best, but if you entertained doubts of such your authority, to take the advice of counsel, below you have a copy of their resolution.

To the Member of the Board of Control of the Summit Branch Aug 23 1852
 Dear Sir. As required by resolution passed at the last session of the B. of Control, the Executive Committee has appointed you and the member of the Summit Co Branch to examine and report the condition of the Branches composing the Suit district, namely Farmers & Shalala, Commercial and Merchants, Cleveland, Summit Co. Akron, Union, Portage Co and Loram. The resolution requires your particular attention to the paper discounted by the Branches with a view to its character and soundness. You will please forward your reports, so that they may reach this office at least three days prior to the next semi-annual meeting of the Board.

Dear Sir Your favor of the 26th with package (\$840) mutilated notes on various
Branches is received by Express, as follows to wit:

Identified notes to your Cr	\$152
Unidentified " do	2
and will be for settlement on 20 th Sept.	
\$ 840	

67 of the Identified notes are on the Licking Co Br. these notes cannot be paid for through this
office, but will remain to your Cr. subject to your order, the same as your now mutilated notes returned
here.

The affidavit of Mr. Barnes in relation to the six \$50 notes on the Licking Br. is perhaps not sufficiently
explicit; it does not state how they were lost and the probable reason why they came to be in the
condition they are in; it may be well for you to obtain another one of them stating the facts
more fully, to be used in case the Br. should demur at receiving them

I have rec^d your two favors of the 30th. In your domestic application you
have, my dear Sir, my most sincere sympathy.
I very much regret that it is not convenient for you to perform the duties
in conformity to the resolutions of the Board at last session and I am
not without hope you will reconsider the matter and still accept the
appointment. No other will be made until subsequent term shall
be allowed to hear from you again. I take in no unfriendly spirit
your surcease, which to be sure is a little personal, in your answer
to the Resolutions of the Ex. Comt. Without the least ill-will feelings
or enmity, I may be permitted to remark that censure implies
or implies, if it precedes enquiry and a sentence of fact

is generally considered a violation of the principles of ethics. The members of the Board of Portsmouth and Muskegon Branches examine those of the 3rd District

B. W. Price Esq

Sept 2 1852

Dear Sir On my return from the East, I learned from Mr. Janney Esq. that you had written with a view to procure a release of part of your land, mortgaged to the State Bank of Ohio for Safety Fund of the Licking Co Branch in payment of part of the debt and that you offered in addition to the part left ~~additional~~ collateral security. And I was also informed by him that he had written to you, stating that such things had been deemed without the power of the Ex. Comt. and had not been admitted in our practice. Until Mr. Wray returned the other day I had deemed the information given by Mr. Janney satisfactory. Mr. W. informs me that you desire further information on the subject, which it affords me pleasure to give, and I very much regret that you had not at once had fully explained to you the difficulty of complying with your request. As a general rule we have no other way of obtaining evidence of the value of lands offered as security for Safety Fund, but by an agent employed for the purpose, who appraises them and we can only allow half the value, deducting improvements; early, therefore, the Ex. Comt. adopted the rule that a part of the land could not be released on payment of part of the debt, because we could not ascertain the value, except by the way of an agent, and that a rule different from the one established would lead to great difficulty and expense, therefore in such cases the whole debt was required to be discharged, and a new application made going through the same formalities as originally required. This rule was found to be absolutely necessary, from the great number of applications similar to yours. I should not feel at liberty to change this rule without a special order of the Executive Committee. Your case is certainly a peculiar one, because as things are, you cannot take the course which has been usual, that is, you cannot pay in the money and loan a part again upon a part of the land originally mortgaged. I hope the explanation will be a sufficient excuse for my declining the arrangement which you desire, altho I should be glad to accommodate you, if in my power. This fund belongs to the State Bank, and I think no arrangement could be made to change the security without an express order of those in whom it is, that is, the Board of Control, or perhaps the Ex. Comt. see ch. 22 of the Bank law.

I am very respectfully yours S. Swan

W. Spencer Esq Cas

Sept 3 1852

Dear Sir I have yours of the 31st past. From present indications it seems probable that the two orders of the Board, at last session will be suspended by a large majority. The Branches find difficulty in procuring two members of the Board to count and burn their mutilated notes. The resident members Messrs Hubbard and Thomas are both absent, and have been the greater part of the ^{past} summer, it is uncertain when either will return. Without your defaced paper should be returned by your member and some arrangement with another member to be present, there appears to me to be no chance to have it counted and burnt.

Sept 3 1852

John H. Ebbert Esq Cas

Dear Sir Your favor of the 1st inst is recd Mr. Janney is absent. By referring to his letter to you of 25th Feb. last it appears that he explained to you how the matter then stood, and that there was then in your favor \$3 on "Circulation etc". Since which time the account is as follows:

Dr	Cr
March 19. 1852 \$ 1151.	March 19. 1852 1151.
April 16. " 1160.	Apr 16 " 1157.
May 18. " 1500.	May 18 " 1508.
Balance due from " 8.	Bal as stated 25 th Feb. " 3.
3819.	\$ 3819.

In other words you are charged with "Notes in Circulation" \$204,492. With the letter of Mr J. referred to, and the above statement, I hope you will be able to right your account, if a discrepancy exists.

The mutilated notes on Branches redeemed here, are exhibited to the Branches, in a separate department, and remain until the Agent of the Br. appears, and receives and counts them, preparatory to burning, and for which we take his voucher, and close the account. I stated to you, the amount of your mutilated notes redeemed here, in my letter to you of 28th Aug. as \$1502. that sum is the aggregate, up to 16th Aug. as follows, viz:

1852 April 19	By Mut ^d notes returned by various Brs in yr Br	\$ 48.
" " 20	do " " do	47.
" May 10	do " " do	51.

J. C. Tallman, Esq. all B of C. Sept. 4. 1852
Dear Sir. I rec^d yours of the 31st. We hardly deem the reasons assigned by you for declining the duties asked by the Ext Comt sufficient. With a view to the thorough examination of the Branches, we selected those whose experience in business, we supposed would best qualify them to perform the duties. We had no doubt but the absence of these officers from their respective Branches, would subject them and those employed to more or less inconvenience, but we entertained the hope that this would be

cheerfully submitted to, rather than to have such an important object defeated, or but imperfectly accomplished. We therefore think upon a further view of all the circumstances, you will be led to reconsider the matter, and still undertake what has been suggested. I shall therefore not consider your refusal absolute, until I further hear from you, which I hope will be soon, and that I shall have the pleasure to learn that there is no necessity for appointing some one in your place. I am respectfully yours S. Swan

John Spencer Esq. Esq. Cas. Sept. 4. 1852
Dear Sir. Your favor of the 3rd inst. to Mr Secy Swaney, was delivered by Mr. Mordie. At the meeting of the Ext Comt. held the 23rd August past, they passed an order directing the officers of the Board to withhold circulation from the Branches, who had not complied with the orders of the Board, at last session, disacting a withdrawal of circulation &c until it was ascertained whether a majority of the Board were in favor of the rescision of those orders. The members of the Board, or the Branches, have not yet all been heard from, and as a consequence the order is still in force, but the indications are, that they will be rescinded, and that we can in the course of next week, furnish you the amount of circulation, to which your Branch may be entitled. Samuel P. Officer Esq. Cas.

Sept. 8. 1852

Dear Sir. The rule recommended to the Br. by the Board in the redemption of half notes is, that whenever one is presented with satisfactory evidence of the destruction of the other half, and a bond of indemnity against its presentation, the whole note ought to be redeemed, and the rule here has been not to burn half notes without such evidence. Some of the Br. though, redeem half notes when presented, that is at half the amt. of the whole note, which I venture to suggest would be better in all cases.

Upon my return home, after an absence of four weeks, I found the application of James K. Johnston, for a loan of \$ Fund, from your Br. had been overlooked. I had received it the day before I left, and put it where I always place those ready for examination, and it was overlooked; it will be acted upon on Saturday next - Truly yours J.H.F. I perceive your statement is not sworn to

Sept. 9. 1852

Dear Sir. I am in receipt of your letter of the 8th. I have no power to exercise the discretion, you have supposed. My orders are to collect the Safety Fund of the unfortunate Licking Co. Branch, without delay; the innocent Branches have already been compelled to make large advances for the redemption of the notes of that Branch, owing to circumstances which must be well known to the citizens of your County, and to diminish these burdens, those who superintended their interest felt themselves justified to make collections as fast as possible, entertaining the hope that they would be aided by those particularly who had dealt with another corporation. All

such borrowers received early notice of this order, and there has already, with a view of preventing sacrifice on their part, been a good deal of forbearance. In your particular case we feel justified in waiting a few weeks longer, and cannot but hope, now that money is unusually abundant, that you can meet the amt. without further sacrifice. I am truly yours S. Swan

Dear Sir. We have \$4 & \$10 of your Branch, and let them should prove defective, which we think they will not, we have a bond for you 1000-5.5.5.5. + 1000-10.0.10.10. Is it not true that your Branch had paid up its stock? It appears to me your Directors should either require full payment of stock, or notify a meeting of Stockholders to reduce the amt. under the 7th Sec of the act passed March 23 1852. No member of the Board is here to burn, or assist in burning mutilated paper. I am &c S. Swan

H. J. Sewell, Esq. Receiver &c.

Sept. 13, 1852

Dear Sir I am in receipt of yours of the 4th postmailed 7th. The suspension of the orders of the Board relative to the withdrawal of circulation, and the increase of the specie bars, produced a rush for notes which for several days past has prevented me from transacting any other business. Your letter would have been otherwise answered sooner. Our Bank Law most certainly could not have contemplated that any thing more than general directions to the receiver, and the Board itself having omitted these, my private judgment is that you are left entirely to your own discretion nor have I the slightest doubt, but that your acts will meet the approbation of the Board. I wish to remind you of a fact, which appears to me will put an end to the defence by debtors, on the ground of usury: understood from the officers of the Seckung Co Branch and this information was confirmed by the Journal of the discounting committee that the Bank, except in one instance never took usury, and this merely constitutional in the shape of a charge for collection, which was more than the custom of Newark would justify. I have reason for believing that a large proportion of the discounted paper came thro' Smiths office, that he took from 12 to 24 percent and then the bills were presented to the Branch by him, and there discounted. Many of the borrowers are no doubt uninformed of this proceed, and likely enough may believe that the Branch has taken the discount. The only danger is that Smiths broker may be deemed Smith the Branch, and altho' this is certainly not so, yet it may be found upon and possibly judiciously. I happened to see Mr. Hunter, to whom I also imparted this information, which appeared to him to put the affairs of the Branch in less jeopardy than he supposed. I entirely approve of your plan to adjust matters as far as possible without litigation. — Neither the Board nor the Ext. Court could give other instructions, that I can see, than for the receiver to do the best he can and I am sure they have confidence that he will do it — I am &c

Sept 13, 1852

Dear Sir Mr. Williams left on Saturday, and yours of the 10th came on yesterday. As there is no member of the Board here at present, the only chance to procure circulation would be, to so arrange, that two members should be present. The key says your balance on books is only \$8 for circulation

Sept 13, 1852

Dear Sir. We cannot release a part of the land mortgaged for safety fund. This will be obvious, upon examination of the law, and regarding its object. The Ext. Court at the beginning established a rule, that the whole amount must be paid, and then the borrower could make an application to suit his interest

Dear Sir. I found, after Mr. Whiting had left, on Saturday last, that I was in error as to the amt. of your notes redeemed here up to the 16th August past. It was but \$1470, instead of \$1500 rec^d by him. I deemed it best to advise you, as you might get a wrong impression from my oversight: it of course makes no difference, as the account can be made right hereafter.

Sept. 15th 1852.

Dear Sir, Yours of the 14th is rec^d.

The discrepancy in our calculations arises from the fact of your having estimated your capital stock at \$100,000 whilst I rated it at the amt. reported by you in your statement for the 6th inst. \$100,500. For the latter amt. I forwarded you the proper amt. of circulation. Your Branch was authorized to reduce its circulation to \$100,000 but from your statement, it appears not yet to have done so, and in accordance with Mr. Kirling's request I sent you the full amt. of your circulation. If this was wrong, any part of it that you may choose to return will be placed to your credit.

Yours truly

J.F.J.

P.S. The President has just called my attention to the fact that you have some of the notes of the old Bank of Genia yet in circulation, which of course should have been deducted from the amt. forwarded to you, but which escaped the attention of both of us at the time, as well as Mr. Kirling I suppose. That amt. which I then had no means of knowing but which you now state to be \$5,110. you will please seal up of the new notes sent by Mr. Kirling and forward to this office by the first suitable opportunity.

H. Colby Esq. Cas.

 Dear Sir. Last evening I first received notice of your letter of the 30. to Mr. Janney and learned that it had remained unanswered. As both of the members of the Board of the Branches here are still absent, it is next to impossible to have the mutilated paper returned to this office counted and burnt. Members who come here usually count the paper of their Branches and decline counting and burning others. If you could make an arrangement with some neighboring Branch and come yourself you then can be certain of obtaining your notes for circulation but not otherwise. Oct. 2. 1852

Dear Sir, I am in rec^t. of yours of the 30th Jan immediately on receiving the letter of Messrs. Griswold & Paine a copy of which was enclosed to you in my last. I requested the Secretary to prepare the evidence of the acceptance of the Branches of the first four sections of the act of Feb. 24. 1848 with a view to forward the same as soon as your views could be obtained. I have sent it to them today. It is the general belief of lawyers that the acceptance of this act by the Banks is a perfect answer to the plea of usury interposed by debtors and that on principle, notwithstanding its subsequent repeal, such is my own opinion which to be sure I consider worth nothing. What course our Judges will

take with charters; whether they will view them as all enlightened judges have heretofore in the light of an executed contract or as subject to modification or repeal by subsequent legislation it is not easy to predict. It is however fair to presume they will rather follow legal precedent than to take as a guide public opinion. Nor is it at all certain if they should prefer the latter, that the decision would be against the Banks. I hope what we have done will meet with your approbation especially as it assumes no right way to advise must left dictate. I am truly yours G. Swan

Messrs. Griswold & Paine. Oct. 2. 1852.

Gentlemen. I have rec'd your favor of the 25th a copy of which I immediately communicated to H. J. Jewett Esq. the Receiver of the Licking Co. Branch. Permit me to say that I could hardly deem it necessary to engage assistant counsel with a firm so experienced as yours but as I have no control in this matter I of course decline the responsibility of advising. As a dernier resort we have all supposed that one of our Branches could avoid the effect of usury under the act of Feb. 24. 1848 Sec. 4. and for that purpose is enclosed the evidence of the acceptance of the first four sections of the act in accordance with its own provisions. True, this fourth section has been repealed - but we suppose this repeal is a mere nullity. It surely is if our courts regard precedents and adhere to them. Should any additional evidence be needed to establish the evidence of acceptance you will please advise the Secy, who will immediately forward it. If you think it safer as some have you can give notice to the defendants and take the Secretary's deposition. I am truly yours G. Swan

C. Kinney Esq. Cas. Oct. 2. 1852

Dear Sir. I find I was in error in giving you \$32 for your notes identified at May session past. it should have been \$10 only. I will explain: the other \$32 identified on your Br. at that session, which were labelled and marked by the Com. you had returned \$10 of unidentified notes up to that time, and this amount was retained for you, but put in the same envelope, without changing the mark, and by which I was deceived without counting it. The other \$22. was appropriated to pay other Brs. returning unidentified notes at that session. Please return me \$22. of mutilated notes on some of the Brs. so that I can make my account good with the Mt Pleasant Br. for the notes I gave you. I trust you will pardon me for troubling you in this way, but in this case I had no other alternative, and regretting exceedingly that I should have made a mistake of the kind - I am truly yours W. W.

On counting the notes in the envelope this morning there was but \$10 and it is the amt it should be.

* Jas Eby Esq. Cas. Dear Sir. It appears from our books that your Br. has uninvested for more than 90 days the sum of \$700. of Safety Fund. In order to complete the entire amount required by law, and in conformity to the orders of the Board, should no offer be made of bonds and mortgages we must require the amount to be invested in stocks. We hope your Board will attend to the matter. We should dislike extremely to withdraw the amount - but should we be compelled so to do we shall not fail to consult your wishes, with respect to the kind of stock which is within discretion. Dear Sir, The notes ordered for your Branch have not yet come. It was deemed best by the Executive Comt. to leave Examiners of the Branches to their own discretion without any particular instructions. It is expected that a most searching and thorough examination will be made. The selection of Examiners was made with a view to have this done and in a manner to suit themselves.

I am truly yours G. Swan

Dear Sir, You have by Mr. Loume all the circulation to which your Branch is entitled by our books. You have with the Secy, a package not yet counted or burnt and also some which has been redeemed with clerk. The most certain way to obtain the balance would be to come over yourself. Mr. Hubbard is now at home and can assist you in counting and burning.

Dear Sir, Your favor of the 6th enclosing p. 22. to correct error is recd. There is to your audit p. 19. for unidentified notes returned by you & now in the office. If I understand you letter, you make the amount due you p. 20. hence there would be a difference of \$1. between us, from a hasty examination of the books I cannot tell how the difference is not knowing how you have kept your accounts, but will if desired by you, send a statement of your accounts, from the beginning, with the mutilated note deposited by which you would doubtless be able to reconcile it.

Sent On the 3rd of Sept we requested you to forward for the Wayne Co. Branch, 1000 sheets, 5, 5, 5, 5. and 1000 sheets of 10, 10, 10, 10. - From the delay we are induced to think the order must have been overlooked; that Branch is in want of their circulation. Have the goodness to forward these and also 1000-1, 1, 3, 3. ordered on the 9th Sept for Probler Co Branch - 1000-5, 5, 5, 5. for Delaware Co Branch and 1000-10, 10, 10, 10. for Potomack Branch, the two latter a few letters of the 1st present. - I think our paper is still very defective, some sheets are very hard and thick, some very thin and spongy, and all apparently of rather coarse texture. It is altogether probable that our Branches will need in all this year not less than 40,000 sheets of all denominations, it seems it of importance that the very best kind of paper should be selected; this is important not only for your own reputation, but for the Branches. I feel quite sure our Board would concur with me in this, and regard as little comparative consequence and reasonable additional expense, the have been badly treated by our paper-makers.

John H. Ebbott Esq. Cas. Oct. 22. 1852.

Dear Sir, I did not assist in counting the package of your notes containing the half of a three, and suppose the other half must have been overlooked. I have no doubt, but with a statement from you that the other half of the note was included, it would be burnt and placed to your credit, but that would leave you with still a half note of your own, and Miami Co. You had perhaps therefore better put your two halves together, and get short of the Miami as you can.

Yours truly, J.F.J.

A. D. Hubbard Esq. Cas. Oct. 22. 1852.

Dear Sir, I have recd yours of the 19. I very much doubt whether an injunction is the proper remedy. The Judges of the Supreme Court on the Circuit in this county, determined last year that it would not unless the collector was avowed to be insolvent.

I have heard of only one Branch, Portsmouth, which intends to pay the tax without forced after a legal contest. Neither the Ex. Court, nor the Board of Control has agreed upon any form of proceedings. Each Branch will of course do what they think best, no doubt after legal advice. I am very truly yours, G. Swan

H. J. Joice Esq. Rec. & Oct. 22. 1852.

Dear Sir, I have recd. your favor of yesterday. I had no doubt as I repeatedly suggested that many of the bills discounted by the Licking Co. Branch had first been discounted by A. J. Smith - but so far as I could ascertain no more in general was taken by the Branch than the legal amt. I have some how ascertained that these Cleveland bills were an exception - that is, that the Branch itself had taken not only the usual discount but had reserved, say, one per cent for collection. But I really know nothing about the mode of doing business by Mr. Smith. I am disposed to think, from what I learn indirectly, that Mr. Smith is inclined to lend his aid where it is likely most to profit him. For the honor of human nature I hope he will, as he has intimated to you, "swear to the truth."

It is now too late to appoint an agent for examining Branches in your place. I hope notwithstanding the pressure of business you will be able to perform that very necessary duty. I am a G. Swan

Wm. Johnson Esq. Cas. Oct. 23. 1852.

Dear Sir I send herewith a statement of your accounts with the mutilated Note department.

at 1. Exhibits the amt of your notes returned by other Branches, the amt returned to you, and the balance on hand, up to 15th inst inclusive

at 2. Shows that you are charged with the notes returned on your Br. the Cks in payment for balances due you for notes of other Brs returned by you; and are credited with Cks upon you for notes returned by other Brs on you, also for the identified notes returned by you on other Branches; this a/c is balanced at each return.

Up to, and including the return of 24 May, you had returned, in all, of unidentified notes \$74. - At the May session of the Board \$10 was identified on your Branch, and Judge Swan sent you his Ok say June 7 on Exchange Branch for \$10, this balanced the unidentified notes up to that date; the \$10 identified on you is in the office, and of course belongs to you. Since that time you have Cr. for unidentified notes returned by you \$57. The balance then, in this department would be as follows: -

Your own notes	47.95
Licking Co	4
Identified at May session on you	10
Unidentified notes returned since	57
	<u>\$118.95</u>

Bear in mind that this is a separate department from your account for notes for circulation in the office, and with the explanations and accounts forwarded. I think you will have no difficulty in making your account right, if a discrepancy should exist. No opportunity has yet offered to get your notes counted and burnt. Truly yours, W.H.

Oct. 25 1852

Dear Sir. I have rec^d your letter of the 21st. As was the general understanding amongst the representatives of the Branches, that they would not pay the tax imposed by the law of last winter without a judicial decision in favor of its constitutionality; thus far it appeared their course was intended to be uniform. One Branch, Portsmouth, I have been informed will submit to the law as the tax will not be more than under the provisions of the charter. The Board left each Branch, in this particular, to its own decision. The members appeared to think that in case the decision of courts, should sustain the law that all must close business. So far as I am informed, all the other Branches will refuse to pay the tax.

Dear Sir. The mot. of H. Seale has been rec^d. By reference to my letter of the 16th you will perceive that the following defect exists in the abstract:

1st. Does not appear that the contents of the deed were made known to Mrs. Peare. As it is possible this is an error of Agent, the mot. was returned for record, with the request that the Agent should certify that the contents of the deed were made known to Mrs. Peare. Will you please forward such certificate?

Faithfully truly
J. H.

Dear Sir. Your Br. has credit by mutilated notes, this day counted and burnt by W. B. Hubbard and Wm. Thomas Esq. amounting to \$663.75 for which new notes are ready. The package last forwarded by you was short \$1. and the enclosed three ones were contained in it. You will please observe the order of the Board, which requires mutilated notes returned to this office to be put up in packages of not over one hundred bills each, and the different denominations separated. I will also suggest that it would facilitate their examination, by hands not "experts", to have them all "right side up."

Yours truly

Dear Sir. By direction of the President, I write to say to you that the directions of the Board were, to collect the Safety Fund of the Licking Co. Branch immediately, and he has no authority to give any time whatever. The Board has no desire to put costs upon any of the loans, but I am instructed to urge upon you the payment of your loan as speedily as possible. We need the money to redeem the notes of the Branch.

 Dear Sir, Immediately after the Licking Co.
 Branch closed, we attempted to notify all those indebted to it for
 loans of Safety Fund, that such loans must be paid as soon as
 practicable, but owing to transfer of property, and removals, we
 failed in some instances. We have heard nothing from Mr.
 Powell until today through yourself and Mr. Greenwood. We
 wish these loans paid as soon as practicable. We need the
 proceeds to redeem the notes of the Branch. If you hold the
 property, we would be pleased to hear from you as soon as
 possible.

 Dear Sir, Rec^d by last evenings mail, your letter of the 30th past. I very deeply
 regret the causes which have prevented you from immediately proceeding upon the duties assigned you
 by the Cent. Comt. The time to make the returns to this office is so near, that I see no hopes of filling
 your place, with any probability of having the examinations of the district assigned you and all of it made.
 We hope that your family may be in a situation to leave, so that you can examine a part if not all

 Dear Sir, Yours of the 3rd was rec^d this morning, with contents \$122.⁵⁰
 being the mt. due on your loan of \$3500 Safety Fund from the Licking Co Br. up to the 1st inst.
 I am directed by the Pres. to say that the instructions of the Board were to collect these loans
 immediately, and we have no discussion in the matter. The money is very much needed to
 redeem the notes of the Branch, and any deficiency that may occur will of course fall upon
 the other Branches. We hope you will try to meet the payment of your bond as soon as practicable
 we would be very glad to give the time you ask, and had we the power would at once do so, &
 few weeks would make no material difference, but we earnestly hope you will be able to pay it
 off soon.
 Yours very truly

Geo. B. Wright Esq.

Dear Sir We are well aware of the unpleasant position in which the persons some of them at least, holding the Safety Fund of the Licking Co Branch have been placed by the closing of that institution and have been much gratified with the promptness with which they have met their payments. We would have been very glad indeed, to have extended leniency to many of them, who really needed and deserved it, but as you will at once see, we could not do so without throwing the burthen on some one else. The notes of the Branch have been, and will continue to be returned, and if the assets of the Branch fail to redeem them, the other Branches must do so. Hence the Board ordered the immediate collection of these loans, which order we have no power even if we thought proper, to suspend, or change. We are cutely satisfied with your statements relative to Mr Moore, and would gladly extend to him any accommodation, was it in our power, which I hope you will at once see, it is not. Can he not get some friend to take the mortgage?

Yours truly J.H.J.

Nov 5 1852

Saml P. Officer Esq. Cas.

Dear Sir - No application will be received for a loan of Safety Fund if the property offered is clear of all incumbrances, therefore before an increase of a loan can be effected, the former loan must be paid off, and a new application filed: this rule the committee have always adhered to, having found it necessary.

Loans of S. Fund will not be allowed, unless the amt. has been certified by the Branch to the credit of the Board of Control, if so, you would have, or might have a larger amt. loan than is authorized by law, which would be usurious, because at a higher rate, than your other discounts

C. E. Howie Esq. Cas
 Dear Sir. Your favor of the 2^d inst. is recd. I enclose herewith, Notes on
 Sicking Co Branch, recd. in your package of \$1600. acknowledged. 1st inst. \$29
 The process of receiving notes of a Branch, on other Branches, is as follows, viz. we take the
 package apart, count and take a list of the amount upon each Branch, then place them in a pile
 crosswise, as the Branches occur, alphabetically, and place them in the vault, each package, by itself
 until the accounts are made up, and rendered, then they are distributed into boxes, one being provided
 for each Branch.
 At the meeting of the Board, there were some five or six of the Branches, out of the way of easy
 communication with Columbus, amongst whom the Harmon was one, who wanted all the circulation
 they could obtain while here, and we selected what we conveniently could out of the several piles,
 after the amount was taken, and put in their boxes, and then they were taken and burnt, at which
 time the four notes in question, were discovered, by the Agent, - out of \$1350. ret. on Harmon, at
 the settlement of the 15th Nov. they recd. \$1132. and in which amount was included the amt ret.
 by you at that time, which was more than one third of the sum recd. by them.
 During the receipt of the Board, there was recd. some \$5300 on that Branch and no counterfeit was
 found in it, and the fact of receiving a similar one from you induces me to believe that they
 must have come from you, and I told those who counted and burnt the money, and who detected them,
 that my belief was that they must have come from your Br. - I have little doubt, therefore,
 that they were recd. in your package, but as I said before, I cannot positively say that they
 were so recd. I thought best to give the reasons why I thought so, and I have enclosed the four
 notes, counterfeit, and if you think they are strong enough, for you to redeem them, you will please send
 something else that will answer better, or return them, the case is submitted and is for you to decide. W.H.

Geo. S. Coe Esq. Dec 7th 1852
 Cashier N. Y.
 Dear Sir. The Board of Control, at its late session,
 adopted a series of resolutions, providing for the redemption of the mutilated
 notes of the Branches at this office; and for that purpose each Branch is
 required to pay over to me, in sight draft on New York, at par, an amount
 equal to one half of one per centum, upon the circulation to which it is ante-
 dated, to be placed to his (my) credit with Geo. S. Coe, Cashier, in New York
 City, upon interest. In accordance with this arrangement, I inclose sundry
 drafts which you will please place to my credit, at your usual rate of
 interest, which I am informed is four per cent viz:

Dec. 9. 1852.

Dear Sir, I am in receipt of your favor of the 6th. Unfortunately I am deprived of the discussions pending Resolutions before the Board which might enable me to ascertain their exact object and meaning. I have no possible means of judging what was intended by the 9th Resolution to which you refer except from the language used and reference to the first Resolution under the head of "Time Drafts" &c. I am rather inclined to think that the phrase "liabilities of any of their debtors" &c refers to principal debtors. The other Resolution appears to be very explicit and to limit the liability to both principal and surety in any form. I hope to have an executive committee soon and will endeavor to ascertain their interpretation of the Resolution which from the tenor of your letter I perceive you deem doubtful. I am &c

 acknowledged on the 15th Nov. and credited to your Branch on the settlement of the 15th Nov.
 belonged to the Hop Co Branch. I am not aware that I had any directions in relation thereto,
 at the time, and took it for granted, that it belonged to your Branch. In this case then, your Br.

 Dear Sir. Yours of the 15th is rec'd. I had no idea that you
 had any thing to report under the resolutions passed at the late session, and all
 I wanted, was for you to say so.
 The resolutions relative to the return of "mutilated notes" make no distinction
 between Licking Co. and other Branches. I believe the practice in the Clearing
 Office is to present the mutilated Licking Co. notes returned, to the Exchange
 Bn. for redemption or exchange for other notes, and place the others to the credit
 of the Bn. returning them. Yours truly

C. E. Source Esq. Dec. 18, 1852
 Dear Sir I have your favor of the 13th. We have frequent propositions from
 these base men to deliver counterfeit plates for a reward. We have learned from experience
 that these are seldom or never made, until all the impressions are taken which can be
 used by them. We have of course no doubt of the correctness of the officers of police the
 Board has I think very properly declined rewards in such cases. I am very truly yr. Servant

Dear Sir, I have this day forwarded to you by
 Geo. Johnson Esq. 173 fives - \$868. being the amt. to your credit
 in the Clearing Office, less \$3. I cannot give you circulation for
 your own notes returned by yourself, until they are burnt, and
 for want of time to count the small notes on hand, I could not
 send you 10.

I would call your attention to the resolution requiring the
 Brs. to pay over to this office 1/2 per cent on their circulation.
 You understand the reason for its adoption, the reason why this
 office must insist upon its observance is, that it is an order of
 the Board. Yours truly

Dear Sir, I inclose your bond and most the
 latter duly released, your check on Br. Br. Columbus for \$9528⁵²
 having been rec^d.

According to my calculation the interest amounts to \$31²²
 being 3²² more than yours. The difference arises from the
 fact of your having made your payments of interest, as you
 suppose, on the 8th of May and Nov. whilst the bond makes
 it payable on the 1st Mon days. The rest given for the
 last payment of int. was given in accordance with the
 bond. If you think you owe the Bank the difference in
 our calculations, you may remit it to me at your convenience

Dec. 27, 1852

Dear Sir, Yours of the 24th to Mr. Jamoy is before me. The rule No. 1 appears to embrace all the Branches, and as yours is still one and not exempt I cannot but think it would be perfectly right for you to make the advance. The rule too would appear in terms equally to apply to all Branches whether they do or do not take new notes. Whether the rule ought to apply to your Branch is a question which should have been made and determined by the Board. Your intelligent Board will at once see that whether your Branch ought or ought not to have been embraced in the general rule cannot be determined by any body except the Board of Control. As we expect to receive 4 per cent on the deposit and the amount required of your Branch under the order is small, I hope you will use your good offices with your directors to reconsider the matter and I shall be greatly disappointed if they do not think it proper to alter their opinions. If any injustice shall have been inadvertently done to your Branch, there is not a doubt but the error will be cheerfully corrected by the next Board of Control. I am very truly yours

Wm. M. Willman Esq
 Dear Sir. I am in recd. of your favor of the 11th so far as it know the Bank of America
 intend to contest the payment of the tax, imposed by the law of last winter, so forcibly resist.
 however, officers whose duty it is to collect the tax, for which they have the color of law, would, in my
 opinion, not only be extremely bad policy, but most decidedly wrong. The law is supposed to give a
 remedy for all wrongs, and if the tax is unconstitutional, as I most sincerely believe it is, the Bank
 have a plain remedy, by action of trespass against the officer, and if he is irresponsible, that fact
 can be averred in a petition, and this would give a Court of Chancery jurisdiction, and authorize
 the allowance of an injunction. I repeat that all good citizens, and especially officers of Banks
 should carefully abstain from acts of violence. Those who are protected by law, should not violate
 law. I concur with you, in opinion that under the present circumstances Banks should
 provide for the worst that may happen, either from unthoughtless legislation, or the danger
 of a sudden reaction in business, or from a too extended credit. I am truly your

 Dear Sir. In your monthly statement for Dec you have omitted to
 set forth what appears to be required by the resolutions of the last Board, under the head
 of "misc drafts" &c. You will notice that the statement and specifications are to be
 made under oath. Altho it is now too late, to furnish an abstract to the Branches for
 the past month, yet it is very desirable that these facts, which appear to have been done
 so important to the Board, should be on file for general inspection. You will therefore please
 forward the information, and not omit it in your future monthly reports, under your oath.
 You have also, put in pencil, "No loans exceeding 40 per cent." This item would be more satisfactory
 if in the language of the Resolution No 9, you will notice the phraseology to be "liability
 of any of their debtors &c. You will see what duty is required of the Pres. on non-compliance
 with the resolutions

Dear Sir We notice from your monthly statement for December that the liability of several of your debtors exceed fifty per cent of your capital. I merely refer you to the 9th resolution passed at Nov. session, for what is required in such cases, presuming your Branch will of course comply with its provisions. Your Branch has also omitted to report what is required by Resolution 112, under the head of "Time drafts" &c. I call your attention to the omission, presuming that it was a mere oversight. It is now too late to expect a certificate in time to send out with the abstracts of December, but you will please report as required, to be filed for the satisfaction of the other Branches, and not omit reporting in future. You will see what duty is required of the President, by the 4th Resolution, under the last mentioned head. I am &c. G Swan

Jan 13 1853

Dear Sir, We suppose it within the meaning of the 11-2 Resolution under the head of "Time drafts" &c. that each Branch should report monthly, whether it is indebted or liable for any amount except what is specified in Sec 56 of our charter, and if liable, then to report according to the several specifications. We suppose when there is no indebtedness or liability beyond the amt. specified in Sec 56, it will answer the purpose, to state on general terms. We hope in your future monthly report, you will make such general statement, if each shall be the fact, but if not, that you will specify as required by said resolutions. I am truly yours. G Swan

You will please forward certificates as required by these resolutions that they may be filed and in future you will be careful to return with your future monthly statements as required. Dear Sir, I have your favor of the 18th with out having an opportunity to ascertain what was intended by the resolutions and specifications under the head of "Time Drafts" except from the language used I have been inclined to think the object was something more specific than merely negative. It is probable that a statement under oath that the liabilities of a Branch were not more or greater or other than those created by Sec 56 of the charter would be sufficient to attain the object. Should a state of facts exist as above indicated, I see no necessity for detail or specification - but should the liabilities be other or greater than those excepted in that sect 56 then it appears it was the intention that all should be set out. I am aware that we encounter much inconvenience from being compelled to legislate generally to provide perhaps for some individual cases of irregularity, but under our system I know not how this could with propriety be avoided. Jan. 25 1853

Dear Sir, I have recd yours of the 23^d covering the proposition of Messrs Jewett & Reed. The copy of the resolution enclosed will show you that the power of compromising is not confided to the Pres't, and I regret to say that it will be impossible to convene an Ex. Comt. as soon as an answer is required. Two of the Members, I have reason to believe are absent at Toledo, and Mr. Holton is probably in Philadelphia, but if not, he probably could not attend. Assuming the facts, as stated by Messrs Jewett & Reed, to be true, I am clearly of opinion that the bells are not a set-off. I refer you to Sec. 25 & 26 of the Bank Law. In the case of the Licking Co Branch, if we admit such claims, the loss must be fatally disastrous, if claims of the Licking Co Branch are tainted with usury then I have no hesitation in saying that you ought at once, if the debtors will do it, account to them

and deduct from the amount all that has been illegally taken from them, whether in the shape of discounts or exchange; this would be perfectly just, nor should any one be censured for asking it, this is so obviously right. I cannot for a moment believe that such compromise would meet the approbation of the Ex. Comt and the Board, and indeed all honest men. I would say to all the debtors "show me that you have paid usury in any shape, and I will make the deduction".

Have the goodness to name such counsel as you think it would be advisable to employ, and I will submit the proposition to the Ex. Comt. and I would venture further to say to you, I have no doubt they would sanction such an engagement by you. I concur with you entirely that such is the state of feelings - I might say the deplorably low state of public morals, that I think it quite unsafe to place too much reliance upon the ordinary rules of law.

Before long, it may be well for you to make us a visit, with a view of adjusting accounts. The other Branches have made, you know, advances for the redemption of the Licking Co. Note, and all the Safety Fund of that Branch except \$500 due from W. H. Pitzer has been collected, and applied for the same purpose, this fund is not yet exhausted, but probably soon will be. In the meantime a large amount of the redeemed notes are with the Exchange Branch, which should be withdrawn and destroyed; the amount collected of the apts. by W. Jewett is at his credit, and by my direction an amount was paid into that Branch by one of the debtors which was also placed to the receiver's credit. I am very truly yr. Servant

Jan. 26 1853

Dear Sir, Your letter of the 22^d is before me. I learn that there are three cases pending in the Court in Bank under the Law. Two of these, the Trust Co. and the Mech. and Trades Branch are plaintiffs - the Piqua Branch is defendant. It is probable that some one of these is in a shape to obtain a decision upon the merits. The result is in my opinion doubtful. If our moral atmosphere was entirely pure I should entertain no doubt, I could point to a precedent where an uninformed public opinion had more to do with a decision than either law or justice. Similar circumstances are likely to produce similar results. It is our duty to do all in our power to protect our rights and in case of failure to quietly submit. I should most deeply regret any violent resistance to the execution of the laws. This would be madness - and would tend to increase and confusion & therefore approve of the course of your Branch - which suffered the officer without any resistance & levy. It not only was right, but in my opinion politic. Altho' I think the General Assembly are pursuing a very unjustifiable course towards the Banks, yet I hope those who administer their affairs will act with perfect justice towards all and especially that they will not be provoked to violence or a breach of the peace.

I am informed that Dr. Blip who is not only leech but as you know interested with much discretion, is tempted into law speculations - a dangerous thing for one who is a trustee in more aspects than one.

I have no intimations that he is improperly using the funds of the Branch - nor that it is probable he may do so. But under such circumstances it is just to infer that his private business may divert too much of his attention from his public duties. From circumstances like these I was requested to call the attention of the committee to the subject and I believe it will be for our interest to have an examination into that unfortunate Branch as soon as possible. I am &

W. Spencer Esq. Cash.
 Dear Sir, I have recd. your telegraph despatch of Saturday and shall not fail to advise you of all acts passed which may be directed against Banks. There are several bills pending which together may be taken as a system very hostile to these institutions - one to enforce the collection of taxes not inappropriately called the "crow-bar" one to prohibit the circulation of notes under five dollars and to create a kind of sub-treasury - that is, requiring the revenues of the state and its disbursements to be in specie. I am not aware that these several measures have been agreed upon in caucus nor can I discover whether they will meet the approbation of the Legislature. I am inclined to think that they will all carry or fail - probably carry.

Jan 31, 1853

I learn with deep regret that some of our Branches resist the officers by trick or force. I deem such course equally wrong and impolitic. We should depend for protection upon the laws of our country, nor should we offer the slightest resistance to their execution. I think it would be best, if practicable, to get the consent of county treasurers to resort to the proceeding indicated by Sec. 51 of the Tax Law of last winter - but if not either to obtain an injunction or suffer them to try and resort to the action of trespass. I have ventured thus much altho my opinion has not been asked for and it is far from my wish that it should be followed by those who differ from me.

I am truly yours P. Swan

D. H. Sherwood, Esq. Receiver & C.
 Dear Sir. I placed before the Ex. Comt your communication of
 the 23^d part, and the statement and proposition of Messrs Sewell & Reed, and the Comt. concurred
 with me in opinion that it is totally inadmissible to yield priority to any class of credits, however
 meritorious, as the whole assets of the Branch might be thus absorbed. As to the principles of
 compromise, they authorized me to say that they fully agreed with my views as expressed in my
 last, that in all cases where illegal interest or whatever shape it had been taken by the Branch
 should be deducted. It seems altogether impossible to lay down any specific rules, and
 therefore I see no other way than to submit propositions in other cases to the Committee, according
 to the resolutions of the Board, a copy of which has been sent you. So soon as the residue of
 Mr. Wilson's debt (Safety Fund) shall be paid, which I hope will be before long, I will let
 you know, so that we can have a settlement & procure the Licking Co notes already return-
 ed and have them burnt. From the Safety Fund collected, the advancement by these
 Branches, and a small amount of assets rec^d, there have been already advanced \$32,226,
 and we have deposited from the same funds with the Exchange Branch, applicable to the
 redemption of those notes, as they may be returned \$12,812. Mr. Sewell deposited to his credit
 as Receiver a sum which I believe has not been transferred, or directed to be applied to,
 to the redemption of Licking Co Notes. Indeed nothing has been applied to that object, except
 what has passed thro' this office. I am truly yours, S. Swan

Feb 11 1853

Dear Sir, H. S. Mayo Esq delivered a package of notes on other Brs, for your Cr, marked \$2000. You have, no doubt, rec'd this, viz the return of Feb 7th as to the package of \$2500 sent on the 4th inst. Latterly we have not been in the practice of acknowledging the reception of the pkgs until the return is made. If you prefer it otherwise, please say so.

W. H.

John C. Tallman Esq Cas

Feb 11 1853

Dear Sir, Yours of 9th inst by Mr. Kelly is received. You have Cr. in the Books of the Secy for Mut notes burnt today \$4019 as follows

1328	1	\$1328	183	5	915
207	2	414	34	10	340
334	3	1002	1	20	20
					\$4019

\$483. ret'd by you and \$5536. from Clearing office = \$4019.

You are charged on the Secy Books for new circulation sent by Mr. Kelly viz
1461 1 = \$1461 561 3 = \$1683 175 5 = \$875 = \$4019

I should not have had your notes burnt, if I had opened your letter before they were pre-paid, but they were carefully examined, and I say it is O. K. I could not have sent your circulation for the amt. sent by you without its being burnt. I hope with this explanation you will be satisfied, as I do not wish to exceed instructions in any case. The amt from Clearing office balances my a/c with 4 Branch up to & including return of 7th inst, for your notes ret'd by other Branches, except \$8. unidentified ret'd by you. Mr. Quincy is not yet able to be in the office.

Sincerely Yrs W. H.

 Dear Sir, The safes have been recd. with the bill
 of lading specifying the amt. of freight from Boston to this place
 \$887⁰⁰/₁₀₀ but the amt. charged was 52.12 + 47.52 = \$99⁶⁴/₁₀₀. They were not
 delivered at the same time and when the last bill was presented
 I declined payment until a drayman was sent to take it back
 to the station. This was the very time when hands were present to take
 them in. Believing it might avoid great trouble and perhaps loss
 I paid the freight charged for you. It probably would have been better
 for you to have paid at Boston but of this I am not certain. It was
 a little extra from the agreement for us to pay this freight. I regret
 the circumstance which has given us some trouble and may perhaps
 give you more before you can procure an enforcement of your contract.
 There is something wrong with these corporations. I am Sir W.W.

I have yours from Buffalo of the 19th. The safes one
after the other came. I think without material injury. They are in our vault.
The locks came some time before. The bill of lading forwarded from
Boston showed a stipulation for freight which was not recognized here and
an additional charge was made of between \$12 and \$13. The freight was
not paid in advance either upon the locks or the safes. There was no alter-
native but to pay a suffer the safes or one of them to be taken to the
station and sold. I very reluctantly paid the additional charge.

With regard to the redemption of notes, the Branches are entirely independent
of this office except those notes which have lost identity by the obliteration
of the ink with which the name of the Branch was inserted. We have established
the rule that when half notes are presented and sufficient evidence is pro-
duced that the other half has been casually destroyed they are to be
redeemed as whole ones on giving a satisfactory indemnity.

St. Sheenwood Esq. Dear Sir

March 2, 1853

Dear Sir, I am in rec't. of your favor of the 25th inst. I cannot but hope your office will furnish the loans as asked by the two debtors of the Licking Co. Branch. I should think you would do well if your office would assume the payment of these debts, Wright and Mason at 6 per cent you would do well even if you released the interest on Masons. Should your office decline these loans as I should hardly think you would under the above propositions I hope you will succeed in finding some person who would be willing to do it. I deem the matter of importance to our interest but personally I would not make the advance if I had the means which I have not. No funds are at my disposal either of the Board or of the Licking Co. Branch. The funds arising out of the Safety Fund of the Licking Co. Branch have all been deposited with the Ex. Branch for the redemption of the notes so that officially I have no control of them or any assets of that Branch.

With regard to sending an attorney to take the deposition of Smith I can only remark that if you and the counsel of the Bank think it best I have no doubt such arrangement will meet the sanction of the Board. As a general principle these matters ought to be strictly and carefully attended to.

Your remark the Ex. Court would only authorize me to discount the usury - It was not my understanding and I think not that of the Court, that in your compromises you should be limited to the discount of the usury. I think these will cases arise which would make such limitation very impolitic. The meaning of the Ex. Court, was I am sure only that when debtors should claim that they had been compelled to pay usury and on that account would decline payment unless the deduction should be made, that where such facts existed the error or extortion should be at once deducted.

I repeat that I think it was far from the intention to limit your power of compromising to all other cases. To be sure we thought the principle extremely inadvisable that Smith's checks to himself as Cashier or any outstanding drafts of the Bank should in any body's hands directly or indirectly obtain a priority or come in equally with the assets, which we deemed first of all applicable to the redemption of the notes. My present situation renders it extremely inconvenient for me to leave home even for a single day. I am truly yours G. Swan

March 31, 1853

Dear Sir, I inclose the bond and mort. of Mr S. Pranger, the latter duly released.
 The rule recommended by the Board relative to half notes is to redeem the whole note, provided evidence is furnished that the other half has been destroyed, and the bank is indemnified against its presentation, but not to redeem half notes. You can use your own discretion. Many of the Branches redeem half notes at half the full amt.

Your package, marked 1384 is recd. Yours truly J.F.F.

April 3rd. 1853

Dear Sir, I am in receipt of your favor of the 25th past. By our By Laws we have a regular semi-annual meeting on the 3rd. Monday of next month when an opportunity will offer to consider what is best to be done under the legislation of the State and the decision of our courts. The call of a special meeting could not afford a much earlier opportunity to consider and decide these important matters. It is not easy to give a reliable opinion of the course which it may be best to pursue under the present circumstances. The contest between the few interested in Banks and the combined power of the legislative and judicial departments of the State if not the executive, is clearly a very unequal one and especially so should there be sustained by a majority of the people which I am led greatly to fear. Of this however other who mingle more with the people are better judges than I am I have never permitted myself seriously to doubt but what the S. Court of the U. S. would decide in favor of the banks. but even then a course of legislation might follow more injurious to their interest than any yet resorted to. If the Legislature is determined to destroy our Banks, it is my belief that disregarding the constitution and good policy, they will carry out their determination in defiance of the judiciary. This view may or may not be correct. Nobody can possibly predict what amount of ignorance and prejudice may be brought into the next Legislature. There is likely to be as much or more than we had in the last. It is not for me to judge for others but for my single self I would prefer to withdraw from this unequal contest unless our rules should be selected from a better class. I am &c G. Swan

April 18. 1853.

Dear Sir, I have yours of the 16th. I would very willingly excuse you from assisting in the examination of the Logan and Athens Branches but I fear if you should decline, these Branches would not be examined at all. You may recollect that they and some others have, owing to a failure of those appointed agents, have not been examined for more than a year, or about a year. Unless extremely inconvenient for you, I do hope you will make the necessary investigation of these Branches. If however you cannot perform the duty let me know immediately, and I will try to obtain the services of some other member of the Board. I am &c G. Swan

April 26 1853 To the member of the People of the W. Pleasant Branch. Dear Sir, You are requested with Mr. A. Daugherty to examine the Athens and Logan Branches. It is expected this will be thoroughly done, and that you will especially ascertain as far as possible the security of discounts and the punctuality of payments. I am & G. Swan

J. P. Kim Esq. Dear Sir, Yours of the 23rd. was recd. this morning. I learned at the Auditor's office, that blank quarterly returns had been sent to all the Branches a few days since. I hope they have reached you by this time. Yours truly J.H.H.

C. H. Rockwell Esq. Dear Sir, I discover that I have made an error in my remittance of the 23rd inst. viz. I charged you \$709. It was for \$724. That should be \$10, which would show place to your debit. Am I right? Truly yours J.H.H.

Neon H. Williams Memb. Dear Sir, You have been appointed one of the court, with N. H. Wilson Esq. member from Meadville Branch to examine the Books & if this office. The Resolution requires this court to meet three days prior to the semi-annual meeting of the Board next month. I am & G. Swan

D. C. Conner Esq. Dear Sir, The Safety Fund of your Br. has credits by payts. as follows: G. B. Goddard \$500 D. Adams 200 \$700 Gen. Goddard's note is for \$1000. If the balance has been paid will you please certify former payments. Yours truly J.H.H.

John C. Tallman Esq. Dear Sir, I enclose Bond and note of L. A. Griffin, the latter duly released. Yours truly J.H.H.

J. C. Ramsey Esq. Dear Sir, I find I was in error in stating that your package overran \$9. in settlement for notes of other Brs to 25th inst. I accounted for \$1989 instead of \$1980 as you stated, and as it should have been, the mistake occurred, by my counting a \$1 note, altered to a \$10 on the Com Br Cleo, as \$10, being much pressed for time I did not discover it, until I came to distribute the notes today. Please send me \$9. in something that will answer to make my eye good with Com Br Cleveland. I am sorry for the oversight, but have no other remedy but to call upon you in this way. Truly yours J.H.H.

Table with columns for names, amounts, and locations. Includes entries for B. Waring Esq., A. C. Foose Esq., J. H. Colby, C. H. Conwell, E. S. Comstock, Jas. B. Scott, Jas. P. Young, Wm. Jos. P. Young Esq. Dear Sir, In making up my eye for this days settlement I omitted your return, and did not notice the omission until I had got my returns about completed. You will find enclosed Ch. no. 279 for \$4.12 being the amt. that would be in your favor, and I will make the entry of your return and note. Truly yours J.H.H.

D. J. Andrews.
 Dear Sir, The agents appointed by the Ex. Com. to
 examine those Branches which had not been looked into the last
 year have all been notified. I have received no information
 that any one, except Mr. Jewett, had found it inconvenient to
 perform the duty. From information recently received I have reason
 to think Mr. Wilson is either now at home or will be in a very
 few days. I take well your suggestion and shall this day take
 leave to draw the attention of the Cashier of the Mech. & Trades
 Branch to the Resolution to which you refer and its inadvertent viola-
 tion at the last dividend day. I am truly yours
 G. Swan

April 29, 1853.

C. E. Noone Esq. Dear Sir,
 Dear Sir, Allow me to call the attention
 of your Board of Directors through you to the 16th Resolution passed
 by the Board of Control at Nov. session 1850, a printed copy of
 which has been furnished to all the Branches. This resolution was
 overlooked by your Board when your last dividend was declared
 and of course inadvertently violated. I am well aware that your
 Board would not knowingly violate the orders of the Board
 and deem it only necessary to call their attention to the subject.
 I am truly yours
 G. Swan

Mr. A. Daugherty Esq. Dear Sir, I am in recd. of yours of the 28th
 I have not heard from the members of Mt. Pleasant Branch, since he was
 notified of his appointment with you to examine the Athens & Logan Branches
 and as I deem it important that Branches should be examined and as but a
 little time remains and to call an Ex. Com. appears impossible as
 to supply the vacancy. I have taken leave to request Mr. Curtis of
 Mt. Vernon to assist you unless you should notify him that his pres-
 ence would not be necessary which may be done in case the members
 from Mt. Pleasant can promptly enter upon the business. I am

May 6. 1853

Dear Sir. Several considerations induce me to request that you will be at this place during the session of the B. of C. The semi annual meeting is on the 8th day of the present month (the 11th), thus far the redemption of the Licking Co Branch notes has been exclusively made by the contribution of the other Branches and from the safety fund of that Branch, with the exception of a very small amount of assets currently received as by report of H. A. Otes. The notes redeemed are still on hand in the Exchange Branch, and having properly passed through the Receiver's hands, should come into this office and be destroyed, it would also, no doubt, be satisfactory to those interested to ascertain by a personal interview the proper of the collections of the debts of the Branch &c. I hope therefore you will find it convenient to be present at the next meeting of the Board, and would suggest Wednesday as the day, which would be most likely to accommodate the members. This will be on the 18th inst. I am &c G. Swan

J. Gardiner Esq. May 19 1853
 Dear Sir, You have been appointed by the Ext Com. which held a session last evening after the adjournment of the Board, Agent to examine the Trust Co Branch. Before this examination should take place, we suppose it best to give the Branch time to adjust their accounts, so that the real condition might be ascertained and reported by you; with a view to this, of course, without advising that a re-examination would be desired. I have enclosed to Mr. Curtis Pres. the resolutions of the Board accompanied with such kind remarks, as I thought the occasion required, and as would be most likely to effect the object.
 J. W. C. Swan

H. B. Curtis Esq. Pres May 19 1853
 Dear Sir, Please find enclosed resolutions passed at the session of the Board which adjourned last evening. They were predicated on the report of the examining Agent. It was a matter of general regret that you were not present to make those explanations which were called for by the occasion. From your known prudence and care, I cannot but believe the looseness in the accounts of the Branch, must have been unknown to you, unless the Agent had been mistaken, it would seem the Books of your Branch are in a state, which must very soon lead to confusion perhaps very great. We are wholly at a loss to know why it is so, as we have had reason to have the utmost confidence in Mr. Ramsey. Whatever my dear sir, may have led to this state of things, and I need not remind you, that the state of the accounts of your Branch have before met the disapprobation of Agents. I beg you will have the evil, a great one in banks, speedily corrected. It would gratify me personally should this be done, before a further examination should be desired.
 I am truly yours J. Swan

Sents. Your beautiful specimen of a ten dollar bank note, has been received, and was exhibited to the members of the Board, who admired the simplicity and elegance, both of the design and execution; they could not but thank you for the liberal offer you made, but inasmuch as no attempt has been made to counterfeit the ten dollar plate executed by your house for them, and as a great number of different plates is apt to create confusion, and give indeed, a better opportunity to counterfeiters to intrude upon the public, the Board declined at present your liberal offer. The specimen will be retained for exhibition of your ingenuity, or returned should you desire it. I am &c G. Swan

June 10 - 1853

Dear Sir, You say your books show but \$250 - S. Fund uninvited, whilst mine show \$450 - The difference occurred in this way no doubt. In the statement of the ad you sent you had two payts not on my books, B. D. Downey May 10, 1853 \$800 and "Wm. D. Devereux" Mar. 31 \$200. You also sent a cert. of dep. of payts. by Wm. D. Devereux May 31, 1853 for \$200, both of which I entered as payments by Devereux. Was that right or was the cert. intended to cover the same \$200 as the entry in the ad? Yours truly J.F.F.

Dear Sir, Enclosed please find the copy of a note which has been long in the Exchange Branch. I only found out that it was there a short time ago. I understand from

Mr. Reed the endorser that he negotiated it with A. J. Smith at a discount and I presume Smith placed it with the Branch and obtained the money. His name however does not appear on the note. I saw Thurston who declines paying without suit. I proposed without authority to have Thurston sued here, but I could not obtain the note. Perhaps you had better send for it and have it placed with the atty. for collection. I think it would be better to have suit brought in this county.

Since enclosing some resolutions I have not had the pleasure of hearing from you. I am &c

June 25, 1853.

Dear Sir, We notice your Return for May your Branch is deficient in specie under the Resolution of the Board in the sum of \$13,680.00. Your own notes on hand \$12,283 is somewhat less than this deficiency by which it appears if the amount had been reduced by redemption a small reserve must have taken place. I may add as some intimation that at the date of your report you had in the Clearing Department of this office \$1449. I shall be happy to learn on your report for this month or sooner that your Branch has the required per centum of specie upon notes in circulation on hand.

I am &

G. Swan

W. Johnson Esq. Dear Sir,

June 25, 1853.

We notice in your statement for May your Branch is deficient in specie as required by the Resolution of the Board in the sum of \$6,128.00. I may mention by the way of intimation that your Branch had at the date of your Report at the Clearing Department of this office \$2,910. It is probable that the deficit was occasioned by a call for the redemption of notes immediately preceding the date of your Report.

I shall be happy to learn that your Branch has the required amount at or prior to your next report.

I am &

G. Swan

Chas G. Swan Esq. Dear Sir,

June 25, 1853.

We notice in your report for May the Dayton Branch is deficient in specie under the Resolution of the Board in the sum of \$3,357.00. This may have been occasioned by a call for redemption of notes immediately preceding the date of your return.

I shall be happy to learn that the requisite amount is on hand before or when you next report.

I am &

G. Swan

Note. You had a small amt. at the clearing house on the 6th 1852.

G. S.

Morgan L. Neville Esq. Cash.

June 25, 1853

We notice by your monthly statement that the Ex. Branch is deficient in the basis for your circulation \$10,798⁶²/₁₀₀. Neither the Ex. Com. or the Board has recognized as a compliance with the 55 Section of the Bank Law deposits with brokers or other individuals or firms. The resolutions of both stand approved to such recognition. It is presumed that this principle might have been overlooked by the present officers. I shall be happy if your next statement shall exhibit a compliance with the law as it was understood from the commencement of our banking or very soon after. I am &c G. Swan

A. O. Hubbard Esq.

June 25, 1853.

Dear Sir, We notice by your statement for May the Farmers Branch at Ashabula is deficient in a small amount in specie as required by the Resolution of the Board \$532⁷⁶/₁₀₀. Although your circulation may be taken as diminished \$1,610 the amount of your notes in the Clearing department of this office at the date of your report yet a deficiency will still be observable of about \$310⁷⁶/₁₀₀. This is indeed a very inconsiderable sum and it is not referred to for the danger but on account of the principle. I shall be happy to see it made up by your next report. I am &c G. Swan

H. Colby Esq. Cash.

June 25 - 1853.

Dear Sir, We notice as per your statement for May the Farmers Branch at Mansfield is deficient in specie required by the Resolution of the Board \$6,454⁵⁰/₁₀₀ and that according to the interpretation of the 55 Sec. of the Bank Law by the Ex. Com. & the Board you are deficient in the basis for your returned circulation \$8,153⁷⁶/₁₀₀. However solvent brokers may be we have never recognized them as "Banks of established credit" and we fear our courts would give a like construction to this section. I hope you will within the term specified provide yourselves with a legal basis according to the views of the Board. No doubt this state of things has been produced by accident or inadvertence. I am &c G. Swan

J. T. Claypoole Esq. Cash.

June 25 - 1853.

Dear Sir, We notice by your last monthly statement that the M. R. Valley Branch is deficient in a basis for its circulation \$6,874⁶⁴/₁₀₀. You no doubt are aware of the fact that the Ex. Com. and the Board have resolved, that brokers, individuals, or firms are not legal depositories to furnish a basis of circulation according to their construction of Sec. 55 of the Bank Law. I shall be happy if your next statement shall exhibit a conformity to the law as interpreted. I am &c G. Swan

Jease P. Fairbank Esq. Cash.

June 25, 1853.

Dear Sir, We notice from your statement for May the Merchants Branch is deficient in specie under the Resolution of the Board in the sum of \$9,023⁶⁵/₁₀₀. No doubt this deficiency has been produced by a return of notes for redemption so immediately preceding the date of your report that it could not with convenience be brought up to the requisite figure. I shall be happy to learn that it has been procured and on hand either when you next report, or prior. I am, &c. G. Swan

J. Burns Esq. Cash.

June 25, 1853.

Dear Sir, We notice by your return for May that the Mt. Pleasant Branch is deficient in its basis of circulation \$7,560⁸⁶/₁₀₀. You are aware, no doubt that the Ex. Com. and Board have both resolved that brokers individuals and firms are not legal depositories under the 55 Sec. of the Bank Law. I shall be happy if your next statement shall exhibit a conformity to the law as thus construed. I am &c G. Swan

D. C. Coover Esq. Cash.

June 25, 1853

Dear Sir, We notice by your last report that the Muskingum Branch is deficient in basis for its circulation \$16,250³⁰/₁₀₀. You might not be aware that both the Ex. Com. and Board have resolved that brokers individuals & cis are not legal depositories under the 55 Sec. of our Bank Law. I shall be happy if your next statement shall exhibit a conformity to the law as thus interpreted. I am &c G. Swan

J. Gardner Esq. Cash.

June 25, 1853

Dear Sir, We notice from your statement that the Norwalk Branch is deficient in specie under the Resolution of the Board \$2,333⁹⁷/₁₀₀. Your circulation diminished by the amt. of your notes at the date in the clearing office \$2,845 will still leave your specie deficient. The sum is indeed inconsiderable and it is not referred to on account of any danger but the principle involved. I shall be happy to see it made up in your next report. I am &c G. Swan

A. L. Nye Esq. Cash.

June 25, 1853

Dear Sir, We notice by your monthly statement for May the Rep. B. Branch is deficient in specie as required by the Resolution of the Board in the sum of \$12,757⁵⁷/₁₀₀. At the date of your report your Branch had notes in this office in the clearing department \$2,412 which of course should be deducted from the amt. you returned for circulation. According to the construction put upon the 55 Sec. of our Bank Law by the Board, as well as the Ex. Com. shortly after the commencement of our banking deposits with brokers or individuals would not be taken as a compliance with the section referred to.

and consequently taking into the account the amt. with us your basis is deficient also in the sum of \$7,220⁰⁰/₁₀₀. I shall be happy if both be made up by your next statement or before.

I have every reason to believe Messrs. Parson & Co. are abundantly responsible - but the Resolution, both of the Ex. Com. and Board stands opposed to receiving deposits with such persons as a compliance with the law. I am & P. Swan

A. Trader Esq. Cash.

June 25. 1853.

Dear Sir, We notice by your monthly report for May that the Xenia Branch is deficient in its legal basis for its circulation in the sum of \$223⁰⁰/₁₀₀. The amt. of deficiency is of no importance other than to keep strictly within the law. You are no doubt aware that deposits with brokers, individuals or firms have been considered both by the Ex. Com. & Board as not being a legal basis for circulation according to their interpretation of the 5th sec. of the Bank Law. I shall be happy if your next statement exhibits a compliance with law as thus construed. I am & P. Swan

Geo. T. Cline Esq.

June 27. 1853.

Dear Sir, You have a one dollar note in lieu of the one in yours of the 22^d. Notes of the kind should be returned for redemption to the office that issues them. None are payable at this office. I am & P. Swan

June 27th. 1853.

Dear Sir, The application of Wm Sloan for a loan of \$500 I find from your Pr. has been allowed by the Ex. Com. but you have but \$250 uninvested. Will you permit it to lie until a payment is made, or will he take the amt. now uninvested? Yours truly JJJ

June 30. 1853.

Dear Sir, I have yours of the 29th. We did not intend to express any doubt with regard to the responsibility of your individual co-partners nor is there any prohibition within certain limits to our depositing with individuals. All we intended was to remind you of the resolutions of the Board which, as just as was intimated, I could recommend nothing contrary to those in practice. Right or wrong, I think the Branches for their own safety should submit to the regulations of the Board. The prohibition I am sure has saved hundreds of thousands of dollars to the Branches. If the time has come to relax it, the application should be to the Board. I am & P. Swan

H. J. Jenett Esq. Cash.

June 30. 1853.

Dear Sir, I have yours of the 28th. We did not intend to express any distrust in your depositors but simply to remind you of the existing resolutions of the Ex. Com. and the Board. You are no doubt aware that within certain limits deposits with brokers or individuals are admissible - but according to the construction of the law by the Board such are not receivable as a basis for circulation. We have reminded several other Branches besides yours of the resolutions above referred to. I am & P. Swan

July 6th, 1853.

Dear Sir, You will perceive by reference to the resolution adopted at the last meeting of the Board, that the assessment for the benefit of the Licking Co. Pr. was "one quarter of one per cent on the amount of circulation to which each (Branch) is entitled, and not the amount of notes in circulation; hence your assessment, as in the first one for the same Pr. was \$500 - Yours truly J.F.F.

July 8th. 1853

Dear Sir Yours of the 6th was recd. yesterday. There were but two members of the Board here today, the Pres. being at Newport. Mr. Otis in Comm. and Mr. Odlin in your City sick. Mr. Andrews and Wilson were here alone, and of course could do nothing. I suppose no further effort will be made to get a meeting of the until after the Pres. returns, say the middle of August. Yours truly J. H. C.

John Gardner Esq

July 8th. 1853

Dear Sir At the request of Messrs. Wilson and Andrews members of the Ex. Com. who are now here, and in the absence of the President, I would call your attention to the letter of the Pres. dated May 19 relative to an examination of the Hope B Branch. The committee with the examination made, and the report returned here as soon after the expiration of the time allowed (the 18th inst.) as will be convenient to you. Yours truly J. H. C.

W. Colby Esq Cas

July 9th. 1853

Dear Sir Yours of the 5th. was recd. in due time, and handed to Cashier Neville, who has I presume notified you of the correction on his books.

We keep no memorandum of the denominations of notes returned to the Clearing Office. You have the denominations of the whole amount, and of the amt. sent here by yourself - the difference between the two will be what you wish.

I have ordered new notes as requested. Yours truly J. H. C.

John A. Birney Esq

July 9th. 1853

Since writing my note of the 5th. relative to deposit with John Parnum & Co. I have seen H. L. Wilson who reminded me of a note from the Bank of Pennsylvania he had forwarded to this office endorsing the character of said firm as "Bankers", which had escaped my recollection. This, he says, was satisfactory to the President, and I have no doubt of the fact, for, although I cannot find his approval by letter, yet in communicating the letter of the Cashier of the Bk. of Penn. Mr. Wilson says he should again "resume our (their) business relations with them unless otherwise directed", and they have since received no directions upon the subject from this office. I suppose the Pres. has forgotten this part of the correspondence. Respectfully J. H. C.

Dear Sir, Yours of the 18th with copy of your a/c was recd. just as Mr. Wing was starting East. I have been unable get to discover the error, but will examine it further upon Mr. Wing's return. It is somewhat difficult to trace the accounts from the fact of your having two together. There would be less liability to error, and if one was committed, it could be more readily detected if you would keep two accounts, one against me, to which you should charge your own notes sent me, and credit new notes recd. from me; the other with the Clearing Office, to which charge notes on other Prs. forwarded by you, and checks on F. Co. in payment of your notes redeemed in Clearing Office, and credit chks. on Rockwell, and your notes recd. from Clearing Office. As your a/c now is, your own notes sent here by yourself, are mixed with those recd. by you from the Clearing Office before they get on my books, and it is therefore difficult to trace the a/c.  Dear Sir, I am in recd. of your favor of the 8th. It would have been answered before but I only returned to this place on Saturday. I am sensible of your valuable services in detecting out these infamous counterfeiters and bringing them to justice. I have contributed from my private means several sums, perhaps individually my share. The Branches have not intrusted me with funds to aid in the meritorious work of prosecuting these villains. I am sorry they have not as assumedly I should have applied to you who so well deserve it. What I can do in the way of soliciting something to indemnify you for the money expended as well as for your labor, you may rest assured shall be done.

 Dear Sir, I received your letter of the 28th. just just as I was about leaving Newport and supposed I might probably consult with those who have the direction of matters of the kind mentioned in yours. You are no doubt aware that this business is entrusted by law to the Receiver under the direction of the Board of Control Sec. 27 and under that of the Ex. Court, when the Board is not in session - By Law Art. 6 Sec. 2. From these references you will see that the President has no power to act. I have no hesitation to say, however, that from your statement, the Sinking Co. Branch has an honest right - as well as a legal one to the preference over the R. R. Co. and I might suggest without intending any improper invasions against our judiciary that an impartial trial may be expected between corporations. As soon as I can procure

the Ex. Court. to be assembled I will lay before them your communication and in the mean time would recommend the necessary steps to be taken to place the facts before the court. I am truly yr. C. Swan

 Aug. 9, 1853.
 Gentlemen, I have recd. your letter of the 5th. I regret to learn that the claim in your hands proves of such a desperate character that in your judgment an offer of 10 per cent. as a compromise should be accepted by those interested. You are of course aware that the President of the Board has no power to compromise claims of insolvent Branches. This rests with the receiver under the direction of the Board (Sec. 27 of the Bank Law.) and constructively by Sec. 14 and positively by Art. 6 Sec. 2 of the By Laws, when the Board is not in session under the direction of the Ex. Committee. I hope therefore you will hold over the proposition of Mr. Smith & al. until the terms indicated in your letter can be submitted to them. I will procure a quorum of the court, as soon as practicable and advise you of the result. I am & C. Swan

 Dear Sir, From facts mentioned in my two last letters and others since, it is very necessary to have a meeting of the Ex. Court. You will therefore please attend at this office on Thursday, the 25th of this present month at 10 of the clock A. M. To prevent the inconvenience of meeting without a quorum I beg you to let me know whether you can be present at that time and if you can I will advise you if others cannot so that a useless journey may be avoided.

Aug 16. 1853

Dear Sir I have rec^d a letter from Dr Andrews in which he states that he will meet with us on Thursday week without some unexpected detour. I therefore am glad to say that your being present we shall have a quorum. Mr Odlin has not been heard from, and it is quite uncertain whether he or Mr Otis will be with us. I write now particularly to advise you that Mr King notified me last night that he would leave us on the 1st September. His engagement is under a better salary to the Central Road, residence at Zanesville, we shall therefore at our meeting be obliged to find another. I think we ought to procure a competent clerk for a much smaller salary say for \$1000. but I submit these things without recommendation or comment to the members of the Board. I give you and Dr A. this early information that you may find, if practicable, a suitable person to fill the office

I am &c G Swan

Aug 16. 1853

Dear Sir I was glad to learn that you could be present at the time appointed for the meeting of the Ex^t Com^t. Thursday next week. I saw Mr Wilson who informed me he would come and thus without some accident we will have a quorum without Mr Otis or Odlin. I have not heard from Odlin and it is not probable that Mr Otis will be present. We have a good deal of important business to transact and I should be glad if we could be all together. Last evening Mr King notified me of his intention to leave us, he is offered a better salary by the Central Road \$1500 the first year & \$2000 after. I have advised Mr Wilson of his intention, and have requested him as I now do you to look out for some person to fill the office, he will leave about the 1st September. I think a competent clerk ought to be had for \$1000 salary, but I need meddle with such matters

I am truly yours G Swan

Dear Sir I succeeded yesterday in getting another member of the Board to assist in burning your notes, and I today forward you the amt. by Express \$4640. with mem. of notes burnt and blank rest.

You have no threes nor fives, and but few ones left. Shall I order 1000 sheets each of 1.1.1.1 - 1.1.3.3 and 5.5.5.5 from the engravers for you?

Yours truly Jff

John R. Burn Esq, Cashier

Aug 17. 1853

Dear Sir Yours of the 13 was recd. yesterday. I was unable to procure the information requested until this morning. It has been ascertained that the notes were not stolen from the Auditor's office, and the most rational supposition is, that they were

stolen from the engraver. Messrs. Woodie and Esby will publish a statement tomorrow relative to the matter. In addition to the Banks you name, the First City at Cleveland has forged notes in circulation. All the signatures are forged. I do not know what denominations were stolen, but have heard none but 5's and 10's. Strenuous efforts are now being made to forest out the mystery, and we must all hope they may be successful

Yours truly Jff

P.S. At the time of writing the above I did not reflect that the sheets of the notes of the State Bank Banks, have all the denominations on them - 1. 3. 5. 10 - hence all the denominations are in circulation - of course. I have learned since that there are six banks suffering, as at Cinclerville I believe.

Gentlemen Information has reached me from the Attorney General of this State that a combination of villains has been formed to procure from the genuine paper and plates of the State Bank of Ohio impressions to be put in circulation with counterfeit signatures. This is rendered more probable by recent disclosures that the Engravers office at Cincinnati has undoubtedly been used for a similar purpose. It is now ascertained that about \$200,000 of the genuine paper and plates have been procured and probably nearly all put in circulation of what is called the Independent System. I am happy to say that no suspicion attaches to any of the members of this highly respectable firm - but it is pretty certain that some of their hands have been bribed by or are in combination with a gang of counterfeiters. More than a year ago I had an intimation of what was contemplated but from a source entitled to but little credit. I however communicated the information to Mr. Jones who supposed such a thing was impossible. It now appears he was mistaken. I hope you will be strictly on your guard and look to the entire security of the plates &c. from being used by those in your employ for such ruinous purposes.

 Dear Sir, I send herewith a slip from the O. S. Journal giving about all the information to the fraudulent State Stock notes, in possession of this office.
 You have no 3's in the office. Shall I order 1000 sheets 1.1.3.3 from the engraver for you? Yours truly J.H.E.

Chas. Lombard Esq.
 Dear Sir, I have yours of the 19th. Enclosed are the fragments of notes amounting to \$16 left at this office by Mr. Miller, some time ago, who was informed at the time that they did not come within the description of those redeemed by the Board from a general fund. He however left them and the Board declined ordering them redeemed from this office. The Board gratuitously redeems those notes issued by the Branches, which by the obliteration of filling up and signatures, have lost their identity and no others. They leave the unfortunate owners of those partially or wholly destroyed to their remedy against the Branches which issued them; the Branches are liable to the same extent that individuals would be under similar circumstances. The Board believe there is no legal or moral obligation upon them to order the redemption of lost, destroyed, or so far destroyed notes, that it cannot be ascertained from the face, the Branch which issued them; it is a corporation clothed with specified powers, without capital, or other pecuniary resources except what is drawn from the Branches, for specified objects, amongst which are not the redemption of notes, payments of notes, unidentified notes, or indeed the notes of the Branches, under any circumstances whatever except where there might be involuency. I regret, my dear sir, your misfortune, and my inability to aid, except by referring you to the Branches. — I am respectfully, G. Swan

From the enclosed, a copy of a resolution of the Ex. Court, you will be informed of the nature of the professional services wished of you and I shall be happy to learn from you whether such retainer is compatible with your engagements and satisfactory. It is presumed that the case of the Piqua Branch will be first before the S. Court of the U. States, and

that the question will be fairly presented as to test the constitutionality of the laws of this state imposing a tax upon Banks different from that specified in the charter. Mr. Vinton has been furnished with a copy also. I am & G. Swan

Gentlemen, Enclosed is a copy of a Resolution recently passed by the Ex. Court, and I beg the favor of your immediate reply. Since it has been ascertained that the plates of some of the Independent Banks of the State and also bank paper have been used by a gang of villains and lately intimated that a similar attempt would be made to use those of the State Bank of Ohio, those interested in our system have felt considerable anxiety, which has led to the enquiries embodied in the Resolution. The respectable House at Cincinnati supposed they had amply provided against the improper use of the plates, but recent developments show they were mistaken and that their confidence in some of their hands was misplaced. I am happy to say the members of this firm are above suspicion. I am & G. Swan

Gentlemen, Late developments have demonstrated the danger to Banks in having their plates worn with the most vigilant engravers. I refer of course to the surreptitious use of those belonging to the Independent Banks of this State in the office of Messrs. Rowden Wright & Hatch of Cincinnati. As the plates of the State Bank of Ohio in your possession are not intended for further use the Ex. Court has directed me to forward you a copy of the resolution to have them defaced by you as therein mentioned and transmitted to this office by Express. I am & G. Swan

Dear Sir, You with the member of the
Board of the Farmer's Branch Ashutula have been appointed agents
to examine the Branches in the First District. It appears desirable
that these examinations should not a very long time precede the
semi-annual meetings of the Board but it is very important that
they should be made and the reports forwarded so as to reach this
office at least five days prior to the meeting. This is particularly
necessary in order to prevent delay in the report of the Comt. who
are to act upon them. It is expected your examinations will be searching
and thorough. I am & G. Swan

Dear Sir, You with the mem-
ber of the Pop & Branch have been appointed to examine the Branches
in the Fourth District. We suppose it not necessary for you to make any
examination of the Licking &. It is desirable that these examinations
generally should not long precede the semi-annual meetings of the

Board - but all should be made long enough before, to report to this office
at least five days before the session - but inasmuch as there is something which
would appear to require an early examination of one of the Branches in your
District, namely, the Knoc &. I am directed to request you immediately to do
so and return your report to this office. I would direct your attention particu-
larly to the manner in which the accounts of that Branch are kept and to
their state when the examination shall take place. In all cases it is ex-
pected your examinations will be searching and thorough. I am & G. Swan

Dear Sir, Please find enclosed a copy of a resolu-
tion of the Ex. Comt. passed on yesterday. On transmitting to this office
the notes of your Branch as required by the Resolution, should you
wish any portion retained, you will please to assort them and direct what you
wish to be burnt. We notice that you return in your monthly statement
"uncurrent \$931." Such was the return for April last. The examining
Agent reported upwards of \$16,000 uncurrent notes in your Branch
in May last. We should be happy for an explanation of this appa-
rent discrepancy between your return and the report.

While I take pleasure in assuring you that no distrust exists
to my knowledge as to the solvency of your Branch or the integrity
of its officers, the requirement above is in conformity with the uniform
usage of the Board of Control. The reduction of circulation appears to
be the voluntary action of the Branch even beyond the requisition of
the Comt. And should the reason be sought for what is required
by the resolution it will be found in your returns which show -

- 1. A suspended debt of 28,403.17
 - 2. Stock purchased and taken for debt 3,000.
 - 3. Assuming the Agents report correct, uncurrent notes, say 16,000.

Sept. 5. 1853.

Dear Sir, I have your letter of the 31. The transfer of stock to the amount mentioned in your letter \$56,300 is directly against the resolution of the Board passed May session 1852. I copy that part of the resolution which shows this "And in all cases when transfers (of stock) are proposed in a Branch to an amount equal to one half the capital stock or when the Board of Directors will be changed the Branch is directed to suspend such transfer until the approbation of the Ex. Comt. can be had." There is no resolution of the Board directly prohibiting those who have the control of a Branch from doing the business of Brokers - but the Ex. Comt. in two instances, that of the Toledo and Merchant's Branch, deemed such a course improper and this view of the subject appeared to meet the approbation of the Board of Control. And I find in a resolution passed November session 1850 in the Leaking Co. Branch that the Cashier was requested to disconnect himself from the business of private banking it being the opinion of this Board that such connection without any improper design, may ultimately prove injurious to the interests of the Bank and its associates. I refer to these resolutions because from the tenor of your letter and the proceedings of your Board they appear to have been overlooked. I notice in the Resolutions of your Board that a change of Directors is contemplated on a transfer of stock. In 1849 there was a by law unanimously passed requiring a majority of the Directors of a Branch to be residents of the county. Altho' probably not intended this amongst others was repealed by Art. 14 Sect. 2 of the present By Laws. I merely refer to this for your consideration as I feel confident that principle was not intended to be annulled altho' it is, by the sweeping clause above referred to, most certainly repealed. I shall make an effort to obtain a quorum of the Ex. Comt and will notify you of the time of meeting as soon as possible.

Sept. 7, 1853.

Dear Sir, I have recd. a resolution of the Board of Directors of the Prob. & Branch stating that a majority of the stock holders had agreed to sell and transfer their stock to J. H. Harshman and Valentine Winters of Dayton and asking the approval and consent of the Ex. Comt. to the sale and transfer. I am informed by the Pres. that \$56,300 of the stock has already been transferred and he wishes the approval of what has been done and the consent of the Ex. Comt. to transfer the balance. Now if you think it best to have an Ex. Comt. under the circumstances and can or cannot attend please advise me and when I get an answer from the members I will let you know the result. I appoint Friday the 21st. of the present month for our meeting at 10 A.M.

J. W. Lord Esq, Sept. 21, 1853.

Dear Sir, I have yours of the 16 covering what is apparently a one dollar note which is inclosed in this. I very much regret that you have been put to the trouble of further correspondence on account of my failing to be sufficiently explicit. I presumed from your position you were intimately acquainted with our organization and the rules established by the Board of Control. The Board of Control is only required by law to provide for the redemption of the notes of an insolvent Branch. But by a voluntary regulation they receive such notes of all the Branches which have lost or supposed to have lost their identity by the obliteration or fading out of the ink with which they have been filled up and these are submitted to a committee appointed by the Board

in session and such as cannot be identified under the above circumstances are redeemed from a fund provided by contribution of the Branches when the amount is thus ascertained. Experts in such matters pronounced the right hand part of the note in question an issue of one of the Branches at Chillicothe and the left hand part not readily traceable to any one. When two halves or parts of notes which may be of different Branches are attached we call them "mismatched" and hence the phrase used to characterize this in my last. When small sums of ragged or torn notes on the Branches are forwarded to this office as they sometimes are from distant parts of the country and there is no difficulty about their identification, we as individuals, not officially for in the latter capacity we have nothing to do with them, we take pleasure in remitting better ones. We prefer therefore that these parts of two notes or possibly an entire note should be forwarded to the Branches at Chillicothe for redemption, or if you desire it may be sent back to this office and it will take the course usual in such cases, that is submitted to the committee as a note claimed to be unidentified with the Branch which may have issued it. In the course of your business however we presume you will receive others that cannot be identified as the issue of a particular Branch and we shall take pleasure in submitting this or any other you may wish and giving them the usual directions. I have been thus explicit not so much, of course, on account of this note, as that you may be fully advised of our mode of doing business.

I am very truly yours,
G. Swan

T. M. Jackson Esqr. Cash

Sept. 28. 1853

Dear Sir, Your letter of July 6. and the bond accompanying it were unfortunately mislaid by the Secretary and forgotten and I knew nothing of either until yesterday and consequently the Ex. Comt. did not act upon them as you might be led to infer from their resolutions a copy of which was transmitted to you. Upon examining this bond it will at once be seen that its conditions do not provide for one important matter namely for losses which have accrued where no act of insolvency, properly speaking, has been committed. A portion of the resolution had direct reference to the loss sustained by the Toledo Branch which is probably not covered by the only phrase noticed in the bond "loss incurred by failure and insolvency" and therefore the condition is not strictly in accordance with what the resolution requires. The resolution also, you will see, requires a specific penalty. With regard to the Toledo Branch, you will see the resolution provides the alternative of a deposit of your proportion of the loss on a bond with a penalty and specified condition. Should your Board or stockholders elect the first which they may do we have no certain data in this office by which the amount can be accurately ascertained at any particular time. The bond is therefore returned as not conforming to what is required by the resolution in order to authorize me to accept it. I regret extremely the accident which prevented it from being considered by the Ex. Comt. at their late session and shall be happy if the whole matter can be postponed until the next meeting of the Board of Council. But if preferred I will most cheerfully comply with the resolutions on my part as soon as they shall be substantially complied with by your Branch. A meeting of the Ex. Comt. before the next Board is not expected.

I am very respectfully yours
J. Swan

Oct. 3rd. 1853.

Dear Sir, Yours of the 29th was recd. in due time. Upon an examination of the books and letters in this office I find the statement to you in mine of the 23rd is correct. There was no "deficiency" in your S. Fund Apr. 14, 1848 as stated in the letter of the Pres. of that date, but there was an uninvested balance of \$85,140. In accordance with the instructions of Mr. Little, Mr. Billet received \$100 out of \$318 due you, as per Mr. T's letter of July 26th, but in accordance with Mr. Pradley's instructions under date of July 24th. 1849, Mr. G. paid him \$418 instead of \$318, which rectified the act, the \$100 retained July 1848, never having been invested, nor passed to your credit. Your account of S. Fund uninvested should be \$85,340 less than it is, which will make it agree with the books in this office. Yours truly J.F.F.

J. R. Crawford Esq. Cashier.

Oct. 12th. 1853.

Dear Sir, Yours of the 8th. is recd with inclosure, a ten dollar note, which I herewith return. He would, of course, allow you another for it, for it makes no difference to us whether the two halves are properly matched or not, so that they are both on your Branch, nor neither does it to you, for they make but ten dollars, and you have just one ten dollar bill left in circulation.

I have no authority, nor right, and perhaps should not volunteer my advice relative to the redemption of your notes, but I hope you will pardon me for suggesting that the question of the redemption of your notes, or part of a note, does not, or should not depend upon this office. It is simply a question of right between you and the holder of the note. We cannot give you circulation for a half note, because it would disarrange the proportion of your denominations, but if you redeem the half of a ten dollar note, the result is that you will have five dollars less circulation than you are entitled to until you redeem another half of the same denomination.

But on the other hand, if you redeem the half of a note, the probability is, you will never see the other half, and even if you do you have lost nothing, but if you do not, an innocent holder has lost. Without discussing the legal liability, it appears to me, equity would require the redemption of all half notes, in which opinion most of the Branches concur. It would certainly be better for the Branches not to incur the odium of refusing to redeem half notes, especially, when they lose nothing by such redemption. Yours truly J.F.F.

Dear Sir, The State Bank of Ohio was on yesterday served with process from your county in chancery on the petition of Linthe Jewell. The subpoena does not disclose the foundation or object of the suit. It is probable however that it is filed by some creditor of one of the debtors of the State Bank for Safety Fund. Will you have the goodness to procure and forward me a copy of the petition that no right may be lost by our neglect. Yours truly J.F.F.

 Farmer's Branch at Mansfield Oct. 17, 1853.

Dear Sir, You are appointed
 with the Member of the Manetta Branch to examine the Branches com-
 posing the third district. You will please make up and forward your
 reports so that they can reach this office at least five days prior to
 the next session of the Board. It is expected your examinations will be
 searching and thorough and that you will give particular attention
 to the state of the discounts. &c I am & G. Swan

John Helgou Esq. Oct. 21st 1853.

Dear Sir, I have received your letter of the 17th
 with two bonds. As this business has been so long unavoidably delayed
 and as the Board of Control will so soon convene, the 21st prox. and as I
 can see no possible injury or inconvenience either to your Branch or the
 State Bank. I should prefer the matter should remain until the Board meets.
 At that time could be adjusted the proportion of loss to your Branch on
 account of the Toledo Branch which might do away the necessity of your
 bond on that account. The longer this should be delayed the more dif-
 ficulty then unavoidably would be of ascertaining the precise amt. Hence,
 if agreeable to you I should prefer letting matters remain until you or some
 agent of your Branch can meet with the Board and mutually agree
 how much your Branch shall pay and thus close at once what may
 subsequently give rise to greater difficulties and even litigation. Should
 however this not meet your approbation, I will give these bonds early
 attention. I am & G. Swan

Dear Sir

Oct 28 1853

I have yours of the 25th. The 7th District is composed of the Fifth Co. Foresters Association, Merch + Trades, Farmers Ropley and Service and the members of the Board of the Foresters Ropley and the Suffolk Branch were appointed Agents to examine this District at a meeting of the Ex. Comt Sept 28th 1853. Such is the record. I cannot account for the slander amongst us to which you refer. It may have arisen from some change which successively took place in some of the neighboring districts.

I am truly G. Servant

Geo. Harrison Esq.

Oct. 29, 1853.

Dear Sir, I have your favor of the 25th. The Board of Control have made no provision for cases such as your affidavit discloses. The rules of the Board extend only to such notes as may have lost the means of identification with the Branch issuing them "by the obliteration or fading out of the ink with which they have been filled up." Yours appears to be the destruction of a note without proof that it was issued by any branch of the State Bank of Ohio, or if otherwise that no evidence exists of the Branch really issuing it. I know of no remedy for such a misfortune. The case is not peculiar to differ in principle from the destruction of a private or individual note without being able to prove who was the promisor. The fragment of the note is enclosed. I am yours truly

J. Goodwin Esq Cashier

Sir

I have yours to Mr. Loring of the 7th Mr. Loring is confined with fever & wishes your attorney to procure a copy of the application of the Trust Co for an injunction to the Circuit Court of the U States. A copy of the application and grant would furnish neither precedent nor aid to your attorney but a copy of the Bill presently might be very advantageous and a copy would probably cost \$35. Having been consulted before the bill was filed and knowing the ground of the application it is my opinion they would not be of much use in the particular case of the Branches - I have not seen the bill but I was told it was to embrace three grounds one of which I suggested namely

- 1st That the tax laws was contrary to the principle of the U States
- 2nd That they were contrary to the law
- 3rd In order to give a plausible ground for entertaining jurisdiction it is in the bill that the funds are in trust and are liable to be lost and unpaid collected and that some interested are citizens of states other than Ohio.

I would by no means have your attorney to rely upon these as the grounds or only points made in the bill - If a copy is wished we will procure one - which would be very satisfactory. I should think, without very much of any more expense you can cause your attorney to come here and learn all about it -

I am Sir, J. Swan

Dear Sir, I am in receipt of your favor of the 1st. covering Report &c. I regret to see you feel sensibly the order of the Board to which you refer. Perhaps if your Branch had been the only one deficient in means on one occasion, the order would not have been made. You fell into the category with others by the unhappy accident of being unusually low in means at the examination.

Allow me to assure you that we have the utmost confidence in the security of your Branch and the prudence and ability with which its affairs are managed. The order was, in my opinion, absolutely necessary to correct a practice in some of the Branches, disclosed by the examining Agents, of suffering, at times, the specie and currency to become so reduced that an unexpected and large amount presented for either would produce the utmost embarrassment and possibly might lead to fatal consequences. I make this explanation because I think it due to you as prudent and safe Banker. I feel quite confident that if you were in the possession of all the facts you would concur with me in opinion that the order was necessary for the security of our system. To prevent the appearance of Paroviteum some Branches were embraced within the principles of the order, which otherwise no doubt might have been excluded. I am &c J.S.W.

Dec. 5. 1853

Dear Sir I am in recd of your favor of the 1st with enclosure, you ok. to my order on the Mechs. & Traders Branch for \$37,100 amt. of office expenses to Nov. 1

I think the care and vigilance of your Board highly commendable and I very deeply regret that the Com. as well as ourselves were mistaken with regard to the quality of the circulation last received by you and we acknowledge our fault in not being more explicit as to that recently ordered. Permit me to remark by way of apology which I trust will be satisfactory, that the circulating notes last handed you were subjected to the usual and best known test, namely, India rubber, and so far as we could judge was not defective. I hardly need however inform you that only a few sheets were tried in that way. The paper, as well as the work more recently furnished by our engravers have been generally satisfactory. We consider both equal if not superior to any thing of the kind within our knowledge. We ought to have informed you while here that 2000 sheets 1000-10.10.10 and 1000-10.10.10 had been as ordered received for your Branch the cost of which was \$97- as mentioned in my last letter. I had not time to sign these notes, being only received Nov. 3. I feel quite sure your goodness will pardon the omission when you consider the press of business upon the office immediately preceding the meetings of the Board. Still had I known your other paper was defective and that you needed circulation I most assuredly would have prepared some of the new notes if it had deprived me of my ordinary rest. We must strive to do better in future which I promise

we will, if pardoned this time. Allow me to express my sincere regret at your disappointment and the vexation unintentionally caused you. The amt. due for circulation \$97. I trust will be remitted that our accounts for the 6 mos. ending Nov. 1. may be closed.
I am very truly yours,
G. Swan

J. P. Seaton Esq. Cashier.

Dec 5 - 1853

Dear Sir, I have recd. yours of the 2d. with enclosures, memorandum explanatory of your reports &c.

It caused me deep regret that you felt hurt at the recent proceedings of the Board and I hope the explanation I shall take pleasure in making will be satisfactory. In the first place the copy of the resolution enclosed to you was forwarded to no other Branch and was therefore rather confidential. Several other Branches however received the like intimation as it regarded their deficiencies. The report was made by the comt. appointed to examine and report upon the report of the examining agents. At the time it was made you were unfortunately absent on business required by the Board otherwise no doubt your explanations might have been satisfactory. I take pleasure in doing the officers of your Branch the justice to say that they have from the beginning submitted cheerfully and promptly to all the orders and rules prescribed by the Board and I can fully understand the mistake which led to your order in the premises. The Board and Executive Committee have not recognized individual depositors of Eastern funds as a basis for circulation and your want of a knowledge of this fact has led to the unpleasant circumstances to which you refer. This regulation has been general without regard to the ability or inability of the depositors. It has been applied without inquiry or discrimination to all. It was early found absolutely necessary for the security of the system. Depositors with individual bankers in New York &c. have merely been considered as debts and not a basis for circulation. Applying these principles to your reports as the comt. did you will find they show a deficiency of the recognized equivalent of coin as specified in the charter and as ordered by the Board. By Art. 8 Sec. 13 of the By Laws you will see that it is left discretionary with the Board or Ex. Comt. in such cases and this discretion has uniformly by both been exercised as above indicated. This general rule has in my opinion saved the Branches from very great loss and I feel quite sure you will perfectly concur with us in judgment. I cannot but flatter myself that this explanation will be satisfactory. However desirous I might be to relax the order of the Board under present circumstances you will see by reference to Art. 6 Sec. 2 of the By Laws that no such authority vests with the Ex. Comt. No other inconvenience can happen to your Branch in consequence of this

order than to diminish your deposits in the hands of private bankers and increase them with banks in the East. I am truly yours
G. Swan

Dear Sir,

Dec. 5. 1853.

Enclosed is a specimen of some \$12000 of counterfeit notes lately obtained of two villains near Newport Kentucky and the gentleman who made the arrest procured also the plate from which this impression was taken. The counterfeit paper signed and unsigned is with the proceeding with at Newport Ky. The prisoners are both in jail at Newport. S. B. Hayman Deputy Marshall of this District and G. W. Williams are the gentlemen who made the arrest and in whose possession the counterfeit plate now is. The Banks of this state have contributed to aid in the detection and prosecution of counterfeiters and I hope your Board will do the same. The plate will be left at this office and subject to your use.

 Dear Sir, Yours of the 8th to Mr. Jamney is before me. I cannot find any power vested in the President or other officers of the Board to sell stocks deposited as Safety Fund for the purpose of letting in in lieu thereof bonds and mortgages. All the power vested will be found Art. 5 Sec. 9 and this does not extend to the substitution of bonds and mortgages for stocks as you will see clearly expressed. Nothing to my knowledge has since been done by the Board to change this provision. The last session a resolution was passed to return to the Branches having stocks as Safety Fund the difference for which they were taken which was for 6 per cents 10 per cent. My opinion therefore is and I think yours cannot be different that we have no authority to do as you request. I am Sir C. Swan

C. E. Fillmore Esqr
Dear Sir, I have recd yours of the 9th with the
half note incrim returned. The rule adopted by the Board of Control
for the redemption of notes wholly or in part destroyed is that the Branch
issuing the same shall redeem them in full if an indemnity shall be
tendered. This I suppose is the legal obligation of the Branch. Some of the
Branches I learn redeem half notes at half their nominal value. There
is no rule of the Board which prohibits this - nor is there any legal ob-
ligation that I know of which requires it. Our experts in these matters
concur with you that this half note is the issue of the Norwalk
Branch and I suppose that Branch bound by law as well as the
rules of the Board of Control to redeem the whole on a sufficient
tender of indemnity and upon proof that the other part has been
accidentally destroyed. I am truly yours

Dec. 15 - 1853

Dear Sir, I am in receipt of your favor of the 12th I have to regret that my explanations are not satisfactory. I am convinced the fault is mine in not having been more full and explicit. Perhaps I presumed too much upon your knowledge and recollection of facts and circumstances. For the defective paper Messrs. Draper Webb & C. made a deduction of \$12000 which amount was satisfactory to those empowered by the Board to make the settlement. Since this adjustment no complaint of defective paper or of imperfect execution of their work has reached this office. It has been a rule to settle all accounts on the first day of the month previous to the semi-annual sessions of the Board. Their account for paper and notes was forwarded to Nov. 1 and contained a charge for paper &c against the Farmer's Branch at Ripley for 2000 sheets namely 1000-1.1.1.1 and 1000-10.10.10.10. This account was submitted to the Board, and referred to a select committee who reported its allowance and their report was confirmed. If the charge against your Branch was objectionable, it seems to me the fact should have been made known to the Board before they made an appropriation to pay it. If this was overlooked by the member representing the Branch, it does appear to me that no sufficient objection now lies to paying it. I may well admit that your Branch has not been well treated by that C. I may well admit that upon this ground the item charged to your Branch ought not to have been paid under the circumstances - but still as no objection was offered and the account was ordered to be paid and has been paid it seems to me the money ought to be refunded. I flatter myself that when all these circumstances are duly considered by your Board they will not hesitate to pay the amt. as forwarded. I will cheerfully furnish any further explanations in my power and beg that you will not take into consideration the fact that in order to comply with the order of the D. of C. I made the little advance from my own funds to close the account with the Engstroms. I have no power to compel the amt. to be refunded & if I had most assuredly I should never enforce it.

I am very truly yours

G. Swan

James Newson Dear Sir,

Dec. 16, 1853.

Yours of the 12th is recd. I am aware that the Branches of the State Bank, as well as other banks, do sometimes aid in the detection and prosecution of counterfeiters, and the "Board of Control" has done so, but they found themselves assailed by a set of Kenanish police officers, worse if possible than the counterfeiters themselves, who would bring old worn-out counterfeit plates, and offer to sell them to the Board, and by various other devices, attempt to swindle, that they finally passed a resolution, refusing to make any further appropriation for

such objects. If you could choose to refund the amt. advanced by this office, it will be thankfully recd. if not, no censure will be cast upon it. Yours truly Jff

J. B. Scott Esq. Cashier, Dec. 19, 1853

Dear Sir, I have recd. your letter of the 14th and very deeply regret that the explanations I made were not satisfactory. I will add such others as seem to me probable. I notice you are under a mistake with regard to the source of the order of which you complain. The Executive Comt. had nothing to do with it. I may also add that altho the report of the committee preceded your arrival in town the records show you were received as a member of the Board before the report was acted upon in that body. Unfortunately, your attention was not directed to it or no doubt your explanations would have been such as to have prevented your Branch from being included with several others in that order. If injustice has been done to your Branch which it would be indelicate for me to say, allow me to assure you that it must have been entirely unintentional. The gentlemen composing the comt. are incapable of such business. They are like others, liable to error. They may have misjudged, but that they would act with partiality is wholly inadmissible. Now it is certainly true that the Branch to which you refer had been much oftener deficient in the required amount of specie and Eastern deposits than yours. Judging however from the reports of the examining agents it happened that at the time of the examination that Branch appeared within the rules and yours not. This accident operated probably against you and in their favor. I only mention this as possible from those reports. Believing as I do that your Branch was, to say the least, been as often within the rules as your neighbors which have escaped censure on this occasion, I can easily excuse your suspicions that you have not been treated with impartiality, altho I am positively certain that no such thing was intended.

I hope you may think no more of the matter than that a little mistake was made, which can do your Branch no other injury than the little trouble of continuing the weekly reports. I am very truly yr

We also note a large deposit in the hands of J. Pernum & Co. It seems to be the views of the Board as heretofore expressed that deposits with individuals is not a basis for circulation. As a general rule it is probably safer to have this understood, thus much without entertaining the smallest doubts of the entire responsibility of the gentlemen with whom your funds are entrusted.  cient to cover the actual but certainly not the consequential loss

 of both that no attempt has yet been made which has come to
 our knowledge to counterfeit these notes. We hope that the
 mechanics and labor employed upon them will protect us from
 this great evil. We shall take care that neither your Branch

Dear Sir, I am in recd. of your favor of the 26th
and regret to say you have detected an error both of Mr. Jarney
and myself nor can I say your conclusions after both are corrected
are quite right. Mr. Jarney's was in the circulation - mine in the
specie. My eye in running along the line rested on the report of specie
of another Branch, which undoubtedly was less in amt. than yours as
stated in your letter. Still after correcting your conclusion and
our blunders your Branch was not quite within the rule as we
understand. The Board has frequently determined that deposits
with individuals in N. York &c is not a safe basis for circulation
under the provisions of the charter. They have adopted the general
rule without inquiring as to the responsibility of which it would
seem impossible for them to rightly judge. After correcting our
blunders the matter will stand thus: You have circulation
189,021 3 per cent. on which - 56,706³⁰

Specie 46,078.07 which and is more than 20 per cent. by	8,273.87
& deposits 41,866 ²⁷ which added to specie makes	58,944.34
30 per cent. in circulation as above	56,706.30
Deficit in & deposits	18,761.96

I think I can say now we are correct. In order to make
all right you only have to transfer an amount from your private
deposits to some bank in one of the cities named in our charter.

Dec. 31st 1853

Dear Sir, I have examined your statement of you
self with this office, and am unable to ascertain where the error is. You
have two accounts combined. First, the acct with the Clearing Office, which
includes all the notes sent here by the various Branches for settlement,
and secondly my acct as Secretary which includes your own notes after they
are counted and burnt, and the new notes issued in lieu of them. Your own
notes sent here by yourself do not go on my books until they are counted
and burnt, and then they are included with the amt. in the Clearing
Office.

I find what I suppose to be three errors in your acct. with the Clearing
Office, one of two dollars Feb 10, 1853 \$283 instead of \$281 and Nov
1852 \$3845 instead of \$3844 and Oct 19th 1853 \$3688 instead of
\$3664. You also have a credit of \$1246 new notes Nov. 30, 1852.
You recd. no such amt. at that or any previous time. These
errors will not account for the discrepancy. It must be in your
acct of your own circulation prior to the date of your acct. For the
purpose of enabling you to search it out, I inclose a copy of my
circulation acct.

Dec. 30, 1853

Dear Sir, I have yours of the 26th. Your Branch
appears to be abundantly supplied with specie and its equivalent, in
deed far more than the charter or orders of the Board requires. You
will see however by the 1st Resolution, passed at the last session
that a Branch whose monthly report shows a deficiency either of coin
or its equivalent must report weekly until the next session of the
Board. The reason for this is not obvious - but it being the order of the
Board no power left than those who who passed the resolution can
abrogate it. I am truly yours

Dec. 30, 1853

Dear Sir, I am in recd. of yours of the 27th - No
change was made other than those found in the resolutions of last
session. 20 per cent. of coin in circulation I understand is still required
and enough to make up the 30 per cent. in some Bank in New York &c.
My understanding was and is that deposits with an individual or
individuals in those cities are not deemed a compliance with the
55 Sec. of the Bank law. So far as I know not the least misgiving
is entertained of your private depositors in Philadelphia. Certainly
I entertain no doubts of their perfect responsibility - but there may be
others in whom could not be reposed the same confidence and the

Board or Ex. Comt. have no sufficient data to judge of the ability of those private individuals whom Branches may select to be entrusted with their funds. If I am mistaken in the general views of the Board, I shall be happy to have the mistake corrected or if the question is an open one I will call together the members of the Ex. Comt. and ask their advice and order upon the subject. In making out your weekly reports, have the goodness to designate the persons or corporations in New York &c. with whom your Eastern deposits are. To ascertain the responsibility of Brokers and private Bankers is utterly impossible and to make a discrimination might be unjust.

Dear Sir, I understand the rule to be not to treat deposits in New York &c. as equivalent to specie under Sec. 55 of the Bank Law. We treat at present all alike deeming it impossible to determine what "Bankers are of established credit and what not. As several of the Branches have elected to make their deposits with individuals we have supposed an investigation which might result unfavorably to some would be of injurious consequences and at best be very unsatisfactory. I have written to Mr. Wilson upon this subject and may find it necessary to call an Ex. Comt. to ascertain their views. I am &c.

S. P. Officer Esqr. Cash.

Dec. 30. 1853.

Dear Sir, I have your weekly report of the 21st. In future you will please report with whom your Eastern funds are placed in New York &c. It is understood that deposits with individuals, whether Bankers or not will not be received as an equivalent of coin under the 55 Sec. of the Bank Law. It would be impossible to ascertain generally who are or who are not "Bankers of established credit" and

should an investigation lead to the rejection of some selected by the Branches as not coming within the terms expressed in the law it might work a serious injury. I am &c. G. Swan

Jona. Beum Esqr. Cash.

Dec. 31. 1853.

Dear Sir, I am in recd. of your letter of the 26th. You will do me the justice to admit it is not always an easy matter to ascertain precisely in all cases the intentions of the Board of Control. We have some times to resort to implication and do the best we can. The principle has never to my knowledge been recognized by an expressed opinion of the Board that each Branch may select its depositors, Brokers, private Bankers or others, and claim such deposits as a basis for circulation under Sec. 55. of the Bank Law. The contrary has been repeatedly affirmed and maintained. Thus appears to me to be no alternative but to admit each Branch to exercise uncontrolled its selection of depositors or refuse to recognize such depositors altogether. If the first had been allowed at the beginning, I am certain our whole system would have long ago been a mere wreck. In most instances it is utterly impossible for the Board or Ex. Comt. to ascertain facts with sufficient certainty to judge of the responsibility of brokers or other individuals at a distance. It is not for me however to make rules and regulations for the Board. I do not wish to go further than respectfully ask a compliance with those expressly adopted or which may be inferred by implication. I am free to acknowledge that I consider funds in the hands of J. Parum & Co. your depositors quite as safe as they would be in any Bank except your own but you may see, from the reports that several of the Branches have large amounts with private individuals whom to decide were not "Bankers of established credit" would not only produce excitement but quite as much astonishment as a like decision would concerning Messrs. J. Parum & Co. As such feelings as these I have supposed some respect is to be made - perhaps some sacrifice submitted to - or how many amongst the Branches will be utterly destroyed. And besides the difficulty of ascertaining who are "Bankers of established credit" and who not - I ought to have said the impossibility of its combination might prove exceedingly injurious to the credit of those excluded from the confidence reposed in them by particular Branches. I had supposed the power conferred by the Pay Laws was only over those depositors which had been exclusively recognized as such from the beginning.

It is not at all strange that a numerous body like our Board each member of which too is more or less subject to another body should entertain different views of policy. On this account I attach no blame to any person whatever. Our system has not suffered much from the centrifugal force, you will allow. I shall call a meeting of the Ex. Comt. who will no doubt settle the difficulty. It was not my intention to ask your Branch to withdraw any part of your assets deposited with Messrs. Parum & Co. but to place with

some bank in New York &c. a sufficient amount which with your coin would make 30 p. ct. on your circulation. The necessary amount is so inconsiderable that I take it for granted your refusal arises from a respect to what you believe is principle. I have no complaint to make of this course. I am vested with no coercive power and if I were I should hesitate to resort to them in case a member of the Board should differ with me in a matter in which it is fair to presume he is better informed than myself. I may have mistaken the necessity of the Board - but as to the propriety and policy of the thing I am not mistaken. I am with respect yours &c. E. Swan

Dear Sir, I have not been favored with your weekly report since Dec. 16. 1853. You will note by the Resolutions passed at last session that a Branch office in default is required to make weekly reports until the next session of the Board. The reason for this is not quite obvious - but that such is required by the 1st Resolution is certain. Please to note in your future weekly reports with whom your deposits are. I am truly yours E.  Dear Sir, I recd. yours of the 31st. past by last mail. The want of unity in the views of the Branches will prevent me on their behalf from making any application to the Legislature. Some have not answered my circular - some object to such application and several require such conditions that it would be altogether impossible to frame a memorial such as would present their several views and be consistent. The Branches are the judges of their own policy - I mean the best judges. I am truly yours

A. L. Wilson Esq. M. of the Ex. Court.
 Dear Sir, I think there is a necessity for a meeting of the Ex. Court, and I have appointed one to be held at this office on Friday the 30. day of February at 10 A. M. I have deferred this meeting longer than I should have done but for the matter suggested in the accompanying private note. This meeting is called for the purpose of settling some difficulties under the last clause of 55 Sec. of the Bank Law and Sec. 13 Art 8 of the Org. Law. If the Branches are the sole judges of the responsibility of these private depositories and deposits made with such as a basis for circulation as secured by the fundamental law, as some contend I wish it so declared in explicit terms - or if as others insist these depositories shall be considered as sufficient until the Board or Ex. Court shall "deem them irresponsible and not of established credit" I wish that also to be decided - or if the question is an open one it appears to me quite necessary that it should be taken into consideration and the result made known to the Branches. We certainly must either reject all private depositories or as often as a new one appears inquire into his means and decide whether he is responsible or not and whether he is of established credit or not. This latter duty is obviously one of much difficulty and of great delicacy. If however it is required

of the Ex. Court we must do the best we can.
 It is not improbable that by the time above indicated for the meeting of the Ex. Court, the course of legislation against the Banks may be developed and may be such as to require prompt action by the Board. I am truly yours

 Dear Sir I am in recd. of your letter of the 10th. I certainly feel much indebted to you for a compliance with what I supposed on the whole was the intention of the last Board. I had no right however to ask it upon the kind grounds upon which you have placed it. Finding that not only yourself but some other members of the Board differ with me as to private depositors, I have concluded to let all rest until the Ex. Court shall meet and determine what should be done. Altho the Board and the Ex. Court, in the recep. have assumed the control in the selection of depositors by the Branches, I am by no means certain but what that is vested in each by the Fundamental Law. The case originally presented was a strong one and the Ex. Court assumed the right to control the selection. If they had not done so, I do assure you the whole system would have been a complete failure. I shall advise you of the decision of the Ex. Court upon these and some other important matters which will be presented for their consideration immediately after their adjournment.

N. S. Wilson Esq. M. of the B. of C. v. Jan 14, 1854.

Dear Sir, I am in receipt of your favor the last of the 10th present. I soon discovered that several of the Branches claimed the right to select their private depositories under the 55 Sec. of the Bank Law and doubting myself as I always have done the power of our central over their selection, as soon as I could determine upon the matter in my private note to you, I called a meeting of the Ex. Comt. I hope both these notes have reached you. As those Branches were not requested to reduce their depositories with private persons beyond what was necessary to furnish a basis for circulation it was supposed no great injury could result.

The amt. asked to be transferred was very inconsiderable except in one or two instances. There appeared to be no other way than either to permit all to enjoy the rights in use. There appeared to me a necessity for a decision and a discrimination without evidence would have looked rather unvidious. I hope to have the pleasure of seeing you at the time fixed for the meeting of the Ex. Comt. Feb. 3d. I will not trouble you with further explanations but may be permitted to add that nothing short of omnipotent power appears sufficient to preserve harmony between the opposing forces of the Board and the Branches. The laws which regulate us are certainly human and not very consistent and perfect at that. It is evident that the Branches are very frequently changing their depositories & if the Board or Ex. Comt. are to make inquiries into their responsibility and credit worthiness as often as this takes place, it is evident that one or the other should be constantly in session and it would also be necessary to establish some system of evidence and its ascertainment before a decision could be made. But as I hope to have the pleasure of seeing you at our next meeting I will not trouble you with further explanation and for the time my apology may be found in the little subacid manifested in your last letter, a thing to which I am not unaccustomed and to which I do not permit myself to take the smallest exception.

As the Ex. Comt. will soon meet I thought it best not to appoint an agent to examine the Branch to which your first letter refers. I feel not a little uneasy that our Branches permit their time drafts to be put into market at the ruinous rates - indeed at all, and I hope, in case it shall be impossible for you to attend with the other members of the Ex. Comt. you will furnish us with the names of such Branches and unseal all such information and advice as you deem useful

to be known. As you have a large personal interest at stake I hope the suggestion in my private note will furnish an additional motive for you to be present at the appointed meeting. I am very truly yours

Dear Sir, I have your favor of the 18th present and to meet your convenience and the more certainly to obtain a quorum of the Court, I have postponed the meeting until Thursday February 9th next at 4 of the clock P. M.

From present appearances I am inclined to the opinion that the members of the present General Assembly entertain less hostility to Banks than their predecessors, the term "impolitic" in the Governor's message is quite significant of the kind of proceedings he would recommend in case the decision of the S. Court of the U. S. should be adverse to the State. He has you know mingled for several years with those who acknowledge no power paramount to our state legislature. Should any thing transpire of interest to us and shall not be publicly made known this the newspapers, I shall immediately advise you and the other members of the Court. I am truly yours G. Swan

 Dear Sir, Some difference of opinion appearing to exist with regard to the construction of the latter clause of Sec. 55 of the Bank Law &c. in order to settle the matter I have requested the Ex. Com. to meet on the 9th prox. I will advise you of the doings of the Com. as soon as ascertained. I am &c. G. Swan

B. M. Phillips Esq. Cash. Jan. 23, 1854.
 Dear Sir, With regard to the amt. of specie and Exchange East. I am not aware that the last Board made further requisition necessary. Our understanding is that the resolution of the Board requiring 20 p. ct. to be kept in specie in the vault of each Branch is in force and that consequently 10 p. ct. in addition as an Eastern basis is all that is necessary. Your last monthly return shows a deficiency in specie of a very small amt. \$722⁰⁰. The deficiency of a dollar would equally make it my duty to request your Branch to make weekly returns of its specie, E. Funds and circulation until the next meeting of the Board as you will see by reference to the 1st. resolution passed at Nov. session nor does the requirement as I understand cease even when the deficiency is made up. If I am therefore correct in my calculation you will please make weekly statements as required by the resolution to which I have referred. I am &c. G. Swan

B. Pomeroy Esq. Cash. Jan. 23, 1854.
 I am happy to see that from your weekly return Jan. 9, 1854. that you have the requisite amt. of basis of both coin and E. deposits. Since that we have not been favored with any weekly return of your Branch's specie deficiency in either appear by the 1st. Resolution of the Board at Nov. session to subject the delinquent Branch to weekly returns from the date of the deficiency until the next meeting of the Board, and that altho the deficiency shall be immediately supplied.  Dear Sir, We notice by your last monthly report that your coin is a little deficient \$1,213²². Your daily statements are not required but there is no objection if more convenient for you. However, we wish weekly statements according to the 1st. Resolution. Nor do we understand that the statements are to be verified by affidavit. You will please therefore

furnish weekly statements until the next meeting of the Board. We are happy to see by your last to Jan. 14 that your basis are full. I am &c. G. Swan

 Dear Sir, Mr. Jarney informs me that the amt. of your circulation forwarded is as you state \$3,046. Some difference of opinion exists with regard to the proper construction of the latter clause of the 55 Sec. of the Bank Law which has caused me to call a meeting of the Ex. Com. the 9 of next month at 4 P. M. of which you have been notified. In the mean time we shall treat deposits with individual bankers in New York &c. as a compliance with the law until otherwise directed by the Ex. Com. You will be duly advised of what they may do. J. C. Young Esq. Cash. Jan. 23, 1854
 Dear Sir, - We have not been favored with your weekly statements of coin, E. deposits & circulation since Dec. 26 past. As you then had a basis and large surplus we presume you have come to the conclusion, a natural one enough, in the absence of a resolution of a different import, that it is unnecessary to report until a deficiency of basis again occurs. My reference to the 1st. Resolution of last session you will however see that a single deficiency either of coin or E. deposits makes it necessary for the Branch to continue to report weekly until the next session of the Board and whether the requirement has or has not a sufficient reason for it, and certainly it is not very obvious. I know you will cheerfully comply with it. I am &c. G. Swan

J. B. Scott Esq. Cash. Jan. 23, 1854
 Dear Sir, Considerable discrepancy of opinion amongst the members of the Board appearing as to the construction of the latter clause of Sec. 55. of the Bank Law and some difference of opinion with regard to the practice under it. I have concluded to assume for the present the right prima facie of the Branches to select their own depositors and to treat all such deposits as complying with the law until the Ex. Com. can be consulted upon the subject. A meeting for this and other purposes is called on the 9th day of next month and as soon as their resolutions are made I will immediately communicate them to you and the other Branches. I am truly yr. G. Swan

 Dear Sir, As requested by Mr. Williams, in his
 letter of the 19th. I enclose a copy of the account in the Clearing
 Office with your Branch since Nov. 15, 1852. Up to that time, our
 accounts agree exactly, according to the copy furnished by you, &
 sent you a copy of your "circulation" account from my books.
 I hope you may be able to ascertain the error, but if not, or if I have
 not sent you all you want advise me. I have not sent the account
 of your original circulation, because you have had that right.

Dear Sir, I have yours of the 30th past. I took your monthly report to ascertain whether your Branch was within the rules and orders of the Board. We here always considered money returned to this office as out of circulation and the deposits with us for the purpose of redemption as virtually the same as if made in the East - indeed it is immediately put there. Your explanation appears to me sufficient to excuse you at present from reporting weekly.

Feb. 4. 1854

Dear Sir, I am in receipt of yours of the 20. I extremely regret on your acct. I made any different arrangement with regard to the time first appointed for the meeting. I was however surprised to learn you had not received my letter advising you of the postponement. It was addressed to you at Manilla where I presumed you might probably be. I think a meeting on Monday would be so improbable that it will be hardly worth while to make the effort. Even now without your attendance on the day appointed no more than a bare quorum at most may be expected. Should it be out of your power to attend, I hope you will favor us with your views upon the principal object which induced me to ask the advice

and instruction of the Ex. Comt. Upon the subject matter of the private note I had no doubt communications between the members would have been freely made and entire unanimity secured. It was with this view the time was enlarged as well as to obtain a fuller meeting. I shall be happy for myself and I have no doubt such are the feelings of all the members that in case it is out of your power to attend you will favor us with your views upon all subjects that you deem of interest to us. Still I entertain the hope you will find it convenient to be with us.

The letter enclosed with this was inadvertently opened but the address being seen of course I did not look at its contents.

I am very truly, Yours

Feb. 6. 1854

Dear Sir, I am not able to answer your inquiry definitely - but so far as I am informed the Branches will furnish the information required. There appears to be no visitatorial power reserved by the charters except as it respects this office &c. nor do I suppose the General Assembly would claim to enforce the right as to the Branches. If called upon here we should undoubtedly be bound to admit visitors from that body or to furnish as well as we could the information required of the Branches. Unfortunately this information was sought of the Auditor of State who made out and submitted a very exaggerated statement of the profits of banking. I might remark that this statement was a literal compliance with the requirement of the Legislature. Should the Branches fail to give the information sought, the same injury to the Banks might again be inflicted by the present Auditor. Each Branch has an undoubted right to refuse to furnish the particulars sought but I doubt whether such would be good policy, the inference drawn from the refusal might be more injurious than the facts themselves.

Dear Sir, I notice that each of the weekly statements of the Summit Co. Branch under date Jan'y. 16. 23 & 30 show a small deficiency of S. Fund or specie. The last Resolutions of the Board make it my duty to ask you to cease discounting, paying out your notes or in any manner increasing your liabilities until the required ratio of coin and equivalent is restored. I hope you will find it convenient to do this before the time arrives for a further request. The deficiencies are so trifling in amount that I should not have noticed them if any discretion had been given me. I am truly yrs

Dear Sir, I recd. yours of the 8th only last evening. If my advice had been worth the transmission, it was too late to make it available. If consulted in time I should have advised an application for an injunction to the Judge of the Circuit Court of the U. States and which has been granted in all cases. I understand, when a non-resident's stock is of a value to give jurisdiction. That is when the injury to such stockholder would amount to \$500 and upwards. I have approved of this proceeding as it would create a delay until the question upon the constitutionality of the tax law should be decided by the S. C. of the U. States. If force has been applied to your coffers to make the tax levied upon the Toledo Bank perhaps trespass would lie. You will, of course consult counsel and do the best you can under the unfortunate circumstances.

Dear Sir, Under the directions of the Board of Control the Ex. Court employed Messrs. Vinton & Staunberry to attend to the causes in the S. C. of the United States in the Bank causes taken up by error. I believe both of these gentlemen are now at Washington. It is understood that each Branch will employ its own counsel and that the two gentlemen above named will only have special charge of those causes removed to the S. C. of the U. States by error. No doubt, on request, either of those gentlemen will cheerfully give their views to any atty. you may select to attend to the interest of your Branch. No satisfactory opinion can possibly be formed as to the course of further legislation, since the strange opinion of our Supreme Court in the case of the Ex. Branch against Home's Co. so far as I can learn, the members of the Legislature do not know what to do. Should the S. C. of the U. S. decide that the law taxing Banks contrary to their charters is unconstitutional which I do not permit myself to doubt will be the case, I think they will for the present let it alone. Feb. 22. 1854

Dear Sir, I notice from your last monthly report the Chillicothe Branch is deficient in C. deposits \$3,648⁰⁰ since which we have not been furnished with your weekly statement as required by the resolutions passed Nov. session last. Please furnish weekly statements from the date of the deficiency and according to the same resolutions weekly until the next session of the Board. You will see by those resolutions that from the time of such deficiency until the next meeting of the Board there is no power to dispense with such reports. I am & S. Swan

D.P. Evans, Cashier

Feb. 23rd. 1854

Dear Sir, I was very much surprised upon reading yours to S. Swan Cash. of the 20th. You may perhaps remember that the Cash. has nothing to do with giving out the circulation now. It having been placed under my control, and against the charge of withholding any from you. I must be permitted to protest. The facts are that Mr. Board called for it a little sooner than I had anticipated, and as he supposed he had not time to wait till I put it up. I therefore suggested to him that I had just recd. some fines, which you would no doubt prefer, and which would be signed in a few days, and if you would send me an order I would forward them by Express to the care of any person you might name in Cincinnati, from whence I supposed you could get them daily. I have heard nothing from you since. If you will send an order, with the necessary instructions it will be attended to at once. Yours truly J.P.P.

Mr. Johnson Esq. Cash.

Feb. 27. 1854.

Dear Sir, The amt. of your coin deficit was so very inconsiderable that I hesitated whether I would ask you in consequence to furnish weekly statements as the first Resolution passed at last session requires. In the first instance this is all that is required, namely "to make weekly returns" &c. until the next meeting. You will see by the 2d. and 3d. resolutions the consequence of a continuance of the deficiency. Several Branches now make weekly reports as might have been anticipated and two have come under the disability mentioned in the 2d. resolution - none yet under the third. If within the times specified the required amount is made up of course we begin again from that date and so on. Mr. Gardner and some of the other depositors of the assets of the Leeds Bank have had occasion to complain of the operation of these Resolutions and indeed all the Branches which have accidentally become deficient are a little excited because compelled from the accident however soon all was made right to report until the Board meets. I am not in possession of the reasons for this requirement. Now all the inconvenience you can yet be subjected to, is the trouble of

1. sending the amt. of your circulation
2. your C. deposits and
3. your specie weekly - until the meeting of the Board.

I should regret extremely, that this mere peccadillo of your Branch should lead to a change in the arrangement with the Toledo Branch which I deem the very best that circumstances would admit. I hope such will not be the case - but what, my dear Sir, can I do? Certainly, if any discretion had been confided to me I should not have noticed the deficiency in your Branch and others of about the same kind.

I hope the explanation will be satisfactory.

I am truly yours
G. Swan

Dear Sir, I am in recd. of yours of the 2nd. You are right. The error arose from a misunderstanding between Mr. Jarmey and myself of the existing rule. You know we at first supposed that the resolutions of the Board did not authorize private deposits to be taken as a basis for circulation. Several members of the Board were of a different opinion which led to the suspension of the rule as we construed it which was made known to those Branches which concurred with the members to which I have referred. I did not sufficiently explain these matters to Mr. J. who reported the deficiencies as they would have existed under the first construction. I am &

March 9. 1854

Yours of the 7th has been recd. with the \$100 which is inclosed. We believe with you the plate is genuine and certainly my signature in the signature upon its face of Mr. Evans appears to have been inserted by some person, probably after the note got into circulation without it. With regard to the filling up we are doubtful.

It is not an unusual occurrence for notes to be put in circulation by accident without the signature of one of the officers and sometimes, but very rarely, without members or the name of the Branch. When a cashier signs and undertakes the insertion of all these by a single piece a whole sheet that is four notes, may pass out untouched and unnoticed by him. Under the circumstances we decline receiving the note altho if it had been forwarded to this office without having

been questioned at the Branch it would probably have been taken without much hesitation. And should the fact be that the members and the insertion of the Branch were made and recognized as having been made by Mr. Evans or under his authority, I should suppose there would be no hesitation in redeeming it, although his signature is not genuine. You will pardon us for not voluntarily taking upon ourselves the position in which you now stand with Mr. Evans. If you think the views here expressed would aid you with Mr. E. you are at liberty to use them.

 Dear Sir, We see by your last monthly report that you have placed your notes in circulation at \$203,152 that is \$3152 more than the charter authorizes on the capital of your Branch. We presume this arises out of the manner of keeping your accounts, and not crediting to your circulation the amt returned, and at your credit in this office, and if this indeed I have no doubt as your credit here ^{now} appears to be \$6006. We have no right to dictate to you how you ought to keep your accounts but we should be glad for the sake of the appearance as well as the fact that they should appear with the proper deduction as nearly as can be of the circulation returned to this office.

A. L. Wilson Esqr. M. of the Ex. Court.

April 7 - 1854.

Dear Sir, I have delayed writing to you until this late period with the hope that I could furnish you with something definite as to measures concerning the banks and currency, but there we all still pending. I think the new tax law will conform to the constitution as recently interpreted by our Supreme Court and that consequently the stock, money on hand and discounts will be brought into the tax list. The rate will be diminished nearly one half but still the tax will carry away too much of the profits to justify a continuance of the business unless we shall be relieved by a decision of the Supreme Court in our favor. We hope this may be made known before the adjournment of the General Assembly - but still it is believed by many that it will not change the policy at all. Some of our democratic friends are of opinion that it will be acquiesced in and the law changed so as to conform to it. I have serious doubts whether such will be the case and I fear at best the banks will be left to battle over again with the officers of government to protect their corporate rights.

A bill is also pending to repeal that part of our charter which authorizes the issues of notes of a less denomination than \$5. I think it probable it will not pass. You have no doubt seen the proposal for a sub-treasury. This I think will be adopted. Another is pending to prohibit the circulation of foreign notes of a less denomination than \$10. This will pass provided the members think such a measure will embarrass business men and banks but not otherwise. It is perhaps useless to trouble ourselves about measures on which we can exercise no control - and I will therefore drop the subject. Our prospects are indeed gloomy enough.

My principal object in addressing you is to obtain your views upon other matters which are still under our control if

we can agree upon and adopt prompt and energetic measures for the purpose. Our state is becoming flooded with the issues of the new Indiana banks, some of which it is feared have been got up without capital and possibly with fraudulent purposes. These banks are taking from us our Eastern exchange and specie and substituting their own notes in their place. I have also learned, not without deep regret, that some gentlemen interested in our banks and who have a controlling power, are engaging in these speculations, with honest views no doubt. But, as it appears to me, without duly reflecting upon the probable consequences. I have conversed with one or two members of the Ex. Court, who concur with me in opinion, in view of all the circumstances, that something must be done and speedily to correct the evil and prevent what may turn out to be a public calamity. To prevent probable loss to the banks and the public it has been suggested that the issues of these doubtful banks, if received at all, ought to be transmitted to some central point, then assorted and returned for redemption in specie. If possible to discriminate between those of good and those of bad intentions, it would be right to exclude the former from such an operation - but this it is not possible to do. Of course, if this course should be approved of an agent would have to be employed for the purpose.

My object is to obtain your views upon this subject which I deem of great importance and one which should employ the members of the next Board a sufficient time to digest the measures which appear necessary to prevent embarrassment and loss. Will you favor me with your opinions? I must confess I tremble at the probable result of this kind of banking and am very much at a loss to know what course it is best for us to pursue.

I am truly yours

Dear Sir, A summons has been left at this office by which it appears the State Bank of Ohio is implicated with A. J. Smith & yourself &c. at the suit of Smith & Chapman. Will you do me the favor to procure and forward a copy of the bill that I may have it answered on the part of the State Bank. Altho' Mr. Young wrote me he would be here yet he has not come and consequently I have received no information touching the R. Road bonds deposited with that Branch and I should be happy to have from you some further information upon the subject. Were the bonds a part of the assets of the Licking Co. Bank? If so by whom were they deposited with the Piqua Branch and for what purpose? I inferred from your letter they were not part of the assets of the Licking Co. Branch and if not I am at a loss to know why they should have been placed with Mr. Young to secure drafts. I should be happy also to be informed if you have recd any further payments of the debts of the Licking County Bank. We are

indebted to the redeeming Branch in a considerable amount and I should be very glad if we could put that, the Ex. Branch, in funds without a further requisition upon the Branches.

Dr. Brady was here a short time since and informed me that some book belonging to the Licking County Br. had been taken away by Mr. Elliott as it understood him. Is this more recent a fact? I am very truly yours

A. S. Hunter Esq. Atty.

Dear Sir

Enclosed please find a copy of a petition filed in the Com. Pleas Licking Co in which it is believed the State Bank has a direct interest. It and before the transfer of the R. R. Bonds or Certificates to the Piqua Branch that branch held the same drafts of A. J. Smith drawn to his order as Cashier and endorsed by him to the Piqua Branch. The Licking Co Branch then contemplating withdrawal was specially directed not to pay or secure such drafts to the sign but it seems the Directors of the Licking Co Branch having possession of these bonds transferred or pledged them to secure these drafts. These facts were not made known to the Board and these bonds were not returned as part of the assets of the Licking Co Branch when it committed an actual withdrawal. Now as we get to know in whose hands they were placed by A. J. Smith as for what purpose altho you will see that it is charged in the petition that they were collected to his bills due the Branch. That at the time of the transfer to the Piqua Branch of these funds said long before the Licking Co Branch contemplated an act of withdrawal then can not be the least doubt and we therefore suppose that under the 65th Sec of the Bank Law the transfer to the Piqua Branch is void. Will you please take the necessary steps to protect the rights of the State Bank
I am truly yours

 Dear Sir, I have yours of the 22d. with enclosed
 your ch. & J. Moodie Esq. Cash. to my official order No. 14575 for \$351.00
 blank funds amt. of expenses of the Chillicothe Branch for the 6 mrs ending
 May 1. as per my advice. The Board prescribed no particular mode for the
 transmission of the Licking Co. notes and I therefore infer that the
 Branches can elect their own mode for. I take it for granted the notes were
 to be sent at the risk of each Branch. I might hesitate to give so rigid a
 construction to the order that a few days longer accounted for by circum-
 stances should subject any branch to the alternative and especially one
 which had retained the Licking Co. notes in good faith as I have no
 doubt your's has. I am

 Dear Sir, I have yours of the 22d. We think
 it nearly but not quite impossible that other than Licking Co. notes
 to the amt. of \$200 were sealed with the \$500 to your Branch. The error
 however originating is not very material. Without serious loss or incon-
 venience all can be made right. As things are it will be right for
 you to forward the Licking Co. \$300 you have held and still hold
 and the other \$200 may be forwarded either in specie or an Eastern
 ch. which will be exchanged for an equal amt. of Licking Co. notes
 with the Exchange, the redeeming Branch and the whole \$500 sealed
 as directed of which you will be duly advised. I am

 Dear Sir, Enclosed is a \$2. note in lieu of two
 defaced ones by yours of the 20. No redemption of notes are made
 in this office. The face of each note of the State Bank of Ohio shows
 the place of redemption and when the identity becomes destroyed in
 any other manner than the effacing of the ink in the filling up
 like the notes of all banks, they go lost to the holder. Yours could
 be identified with some difficulty and should have been for-
 warded for redemption to the Branches from which they issued.

 covering your ch. to the Ohio L. S. & Trust Co. New York for amt. prom. de. decided
 for the expenses of your Branch for the 6 mos. ending May 1.

May 27, 1854

We notice that the amt. \$324³¹ has created a suspicion that an error
 has been committed in the computation. The slightest intimation of the
 kind leads to an examination and explanation. There has been no error
 committed in the apportionment. When the amt. startled you a little, it
 probably did not occur to you that each Branch now paid for its circulation
 ordered and that yours was the largest part of the expenses. The items
 making up the entire amt. are these:

Notes for circulation +	242.50
" unidentified	21.20
Office expenses	61.61
	<u>\$324.31</u>

We trust this explanation will be satisfactory. It is my fault that
 the items were not exhibited in my last, they were omitted under a
 presumption that you would understand at a glance why the amt. was so
 large, or what is left excusable on my part to get rid of a little later.

Dear Sir, Some time in April I received the inclosed fragment of a ten dollar note from P. Odlin of Dayton, with the statement that it was burnt in your possession. I readily identified it as belonging to the Wayne & Branch at Wooten, and forwarded it for redemption, but the Cashier to my great surprise returned it with the statement, that he did not deny its identity, but thought "It would be proper to have some guaranteed evidence as to how the bill became burnt, and whether the backing because is really destroyed. If you can furnish any better evidence than the fragment itself, will you please do so. It would perhaps be better for you to make affidavit as to the facts, attaching the fragment thereto, and upon its return to me I will try to have it redeemed."

June 1. 1854

Dear Sir, Yours of the 29th was recd. last evening. I understood distinctly from the Auditor of State, Mr. Morgan, that no return was expected from any of the Branches. The Trust Co. suit was a test the constitutionality of the tax law. Their case differed materially from ours. The exact point was this - some years ago the General Assembly proposed a specific tax on all Banks which would surrender their corporate right to issue small notes of a less denomination than \$5. The Trust Co. filed their relinquishment. As a bank of issue their right expired several years ago and the state from that expiration insisted that the consideration upon which the right of general taxation had been temporarily relinquished had from that time failed. This was the only question as I suppose and they was decided against the Co. I am & Sir

H. C. Noyes Esq. Secy.

June 1. 1854

Dear Sir, I have yours of the 30th past. You will see by Sec. 7 of the Bank Law that the place of location is a part of the corporate name and a bank was granted by the name of the "Peeble County Branch at Eaton". It is my opinion therefore that no change of place even in the same county would be legal. I am & S. Swan

June 1. 1854

Gentlemen, I return the half of a dollar note enclosed in yours of the 30th ult. This is not a redeeming office unless the notes of the Branches have lost identity by reason of the filling up having been offered and in that case they are submitted to a committee of the Board appointed by the Board while in session. With regard to half notes the Board have directed the Branches to pay the amt. as if the whole note were presented upon satisfactory proof that the missing half has been destroyed. This I believe is the law not only applicable to banks but all notes. This half note is undoubtedly part of a one dollar one issued by the Lead River Valley Branch and according to what I understand is the law of the case as well as the direction of the Board that Branch should redeem it as a one dollar note upon proof of the destruction of the missing part. In a conversation I had this morning with the Secy of State I learn the following facts which I give you in his own language as nearly as possible: "The State officers will not recede. Where banks have violated their charters, they will be prosecuted. The warfare will continue to the end of their charters." I have little doubt this is the result of a cabinet council composed of the Governor, the Judges and some of them, the Auditor and Atty. General and perhaps some outside advisers. This however is merely conjecture. The officers of each Branch must judge for themselves what it is but I do ^{I am} J. Swan

E. Hermes, Esqr. Cash.
 June 12, 1854

Dear Sir, I am in receipt of your favor of the 8th
 you will notice by the 72 Sec. of the Bank Law a Branch can withdraw
 its capital and close its business "with the consent and under the direction
 of the Board of Control". The general directions of the Board are embraced in
 Art. 21 of the By-laws. There are by
 Sec. 1. In order of its stockholders or a majority of them at a meeting
 called for that purpose.
 Sec. 2. From the time "such copy shall be filed" that is a copy of
 the order of the stockholders or a majority of them the capital

shall be deemed to be reduced & no more notes shall be issued.

Sec. 7. Retates & return of Safety Fund

Sec. 4 do do

Now the copy of the resolution of your Board wholly fails to comply with the regulations prescribed by the Org. laws. It forbids

- 1. The Director from making further discounts and directs how renewals shall be made.
- 2. Order the director to proceed to pay off the depositors and other liabilities.
- 3. Orders them to pay the stockholders.

You cannot but see that this resolution is no compliance with the Org. laws. It does not appear that any meeting of the stockholders was called for the particular purpose &c. The Board however strange it may appear acted upon this proceeding as if the Org. laws had been strictly complied with.

At Nov. session the Board resolved that the letter of Mr. Kinnis and the resolution of the Board to which I have referred, "be taken and considered as a legal application to withdraw." Together they certainly constituted "no legal application to withdraw" unless the resolution of the Board can be taken as a repeal of the Art X I to which I have referred. But in order to give it that effect it should appear to have been adopted by a two-thirds vote Art XIV. Strictly speaking I carried but consider the whole proceedings from the beginning to the end as a mere nullity - but I should be extremely loth to treat them as such after the Board had so deliberately treated them as formal and legal.

With a view to obtain the opinions of the Ex. Comt. I will call a meeting in a few days if other business does not bring together a quorum. I am & L. Swan

Dear Sir, Your ad from Jan. 5, 1854 has been recd, and examined. Your entries of notes recd, in the Clearing Office are correct. I have no account of your notes sent here by yourself, until they are counted and burnt. You had burnt on the 15th May \$8760 - of which \$5306 was recd in the Clearing Office, leaving \$3454 sent by yourself instead of \$2966 as your ad shows. This accounts for \$488 of the difference leaving \$386 unexplained, which must have been standing longer than you suppose. Yours truly J. J.

Dear Sir, I am in receipt of yours of the 16th.
So far as I am able to judge of the feelings of the Auditor of
State by his expressions they are by no means friendly to the Banks
and my impression are that he feels like disregarding the opin-
ion announced by the Supreme Court of the U. S. in the case
of the Piqua Branch. This is however conjectural mainly. I have
but slender means of ascertaining what will be done but I am
rather inclined to believe we will have the contest in the State courts,
exactly as before.

I regret I am without data for giving you the information you
seek. Time can only develop what is the intentions of the executive
officers of state. My hope is they will let us alone. I am clearly of

opinion it is their duty to do so. I am & I Swan

Dear Sir, The Executive Committee has agreed to the arrangement entered into with the Med. & Traders Branch on the 17th. instant. with the condition that the cashier or other officer of that Branch entrusted with the business report every second Monday to the Secretary of the Board of Control.

1. The amount of deposits of the various Branches on hand and with whom and where deposited.
2. The amount of foreign paper remitted by each Branch to the time.
3. The amount of such paper redeemed in specie, Eastern Exchange or currency and on what terms.

It appeared to the Ex. Comt. that such information would be satisfactory to the Branches and I trust your Board will have no hesitation in granting their wishes. I shall be happy to hear from them at their earliest convenience. I am & I Swan

you notice must have arisen from your package of \$367- being
short either by miscount or mismatched notes. I have no means
now of ascertaining which, but have no doubt Mr. Gillet under-
stood it at the time. You had but \$1529 bank at the time,
which would account for but \$357, recd. from you.

J. P. Buckingham Esq. Newark O.

July 19, 1854

Dear Sir, Your letter of the 17th, post marked
to 18th was recd. last evening. I called this morning at the
Board of Control office, to refer to the report & papers of W.
A. Otis & myself, consequent upon our transactions at Newark as
the agents or special committee of the Bd. of Control, at the time
and, in reference to the matter alluded to. Mr. Justice & myself
& the parties. I promise, that I was in exceedingly bad health when
I went over to Newark, and consequently my recollection of things
that transpired when there, is not in many things in detail as
distinct as would have been under ordinary circumstances, & very
probably not as reliable in all things or in general, as Mr. Otis -
especially, as there was a mass of behindhand correspondence
& entries of cashiership, which had to be done up at once the most
of which I did in person, or assisted by the new Cash. For further
and general information, therefore, I wish you to address Mr. Otis,
because I distinctly recollect that the amt. of A. J. Smith's note

of \$112,294 per my minutes, was a distinct transaction by Smith, that a part of that amount of settled & acknowledged indebtedness of his to the Bank - whether this amount was made up, by his own or third debts, for which he had got the money from Bank, for the whole or part thereof, and received checks & bills of his, on himself as Cash, lying in the vault & by him counted as cash, I cannot distinctly recollect. But I am strongly in the belief, that he took up, or recd, at the time the note & mortgage was perfected the evidences & assets that made the same. It appears to me that some of the sum, was made up, of paper & checks lying loose in the vault, & not on the Books. [I found a list of this kind of 10 items amounting to \$10,916.82] The note was a liquidated & absolute debt & for which he recd. in had recd. value.

Mr. Wilder is right about his (Smith's) receiving notes and handing them back again. The transaction was simple, & is easily explained. At first the list, as selected of doubtful paper rediscounted in Bank for his benefit, was to be paid for absolutely, by his stock, & perhaps his note to cover what the stock would not - and the notes & bills were or handed him afterwards, and on more mature reflection, it was deemed more correct & more satisfactory to all parties including A. J. S. (who then was confident he could go on a business) to let the Bills and notes remain, as the property of the Bank, & his stock transferred to remain as collateral - with a covenant contract of Smith's to be further secured so far as it would go, by the mortgage value over and above the note of \$17,239, and it was so arranged - The Bills & notes were handed back, and paper now sent marked A is a copy of one of the duplicates showing the responsibility of Smith & the nature of the transaction.

The list you have given footing 21,000 may have been the very papers taken by him & paid for in the two items \$21,000 - The entries 23, instead of date of note, I recollect nothing about in detail. But there was so much to do as before alluded to that they perhaps could not be entered before. Mr. Otis might have a distinct recollection of these things. So possibly Mr. Rhymer, the then new Cash.

I need not, but do, assure you that no threats were ever used; held out, or intimated by me, nor in my belief by Mr. Otis, & Mr. Smith, during the transactions alluded to in your letter - nor was there any thing said or done, in the way or with the view of "compounding" any offense or criminality of Mr. Smith's.

Yours very respectfully

W. D. Hubbard

Note. The list of stockholders, made at by us showed A. J. Smith to be owner of 312 shares \$31,200

But I think Hunters \$1,000 ✓
 Lecher \$5,000 - Smith had these notes for payable in stock.

Note! It is quite possible, that the whole amt. was paid in notes for Bills in the Bank, & that these delinquencies in vault were to be paid in cash in some other way - But I do not recollect. If you have occasion to write or see Mr. Otis, please furnish him with a copy of this letter.

J. Kilgour Esq. Aug. 23, 1854

Dear Sir, Not finding Mr. James here as requested on the envelope I opened your letter to him of the 21st. In view of the legal inhibition upon the circulation of small foreign notes after the 1st of Oct. I impressed upon the members of the Board at May session as a measure demanded for the public convenience and in my opinion for their own interest the issue of all the small notes authorized by their charter. All I conversed with appeared to concur with me in opinion and I believe are preparing that kind of circulation as fast as possible. Ever since my return and indeed before I have been constantly employed in preparing small notes for circulation. Public confidence in the Indiana Banks has been so much shaken that I doubt very much whether they can be made to circulate freely for some time amongst the people.

I am very truly yours E. Swan

Dear Sir, The Ex. Court. has made no modification of the original laws with the Mechanics & Trades Branch

The prohibitory law to which you refer is not before me - but according to my recollection its spirit if not its letter would be violated by passing foreign notes of a less denomination than \$10. with an understanding that they should be circulated out of the state. Perhaps it would be advisable for you to consult your counsel. It should seem exceedingly dangerous for any corporate body to attempt an evasion of this law as well by direct as indirect means. If I counsel I feel the greatest confidence it will be equally detrimental to the people and the Branches of the state. I am truly yours Edward

Oct 7 1854

Dear Sir, I am in recd. of your favor of the 4th enclosed with your monthly return which I regret to see falls considerably below the requisitions of the Board. These circumstances impose the duty upon your Branch to make weekly statements to this office until the deficiency is made up. Until the reception of your letter I had no means of accounting for the neglect on your part, after a former deficiency, to make weekly returns. By reference to the Resolutions of the Board you will see that the contingencies which often happen, as in your case, to create the deficiency of specie and Eastern exchange are not to be taken into consideration further than to allow, as it was supposed, a sufficient time to procure the necessary supplies. I notice your very great reduction of liabilities during the past year, a wise measure, it seems to me, and one which it might have been well for other Branches to have taken in view of what some or later must inevitably take place, that is commercial difficulties as well as others, arising from all sorts of speculations. But the unusual pressure upon the Banks of this state has, as I think mainly been owing to the influx of Western paper - the treating of it as of par value with ours, when, assuming it equally safe, the difference was at least one or perhaps nearer three per cent. discount. This kind of paper has not come amongst us in a regular course of business but has been forced here and being thus depreciated upon the principles of a well known law that the worst currency that will pass at all will displace all of a higher value was rapidly banishing our own currency from circulation and unless a check was put to these indefinite issues generally based on no capital, our whole issues would be permanently vaulted or the Banks ruined.

So soon as this warfare commenced upon our Banks I was my decided opinion that they should have commenced quietly winding up. Now however I yet had occasion to alter my first impressions. True at this time the public mind is directed to other channels - but this affair but a temporary respite to the Banks. The national prejudices against capital and thrift are not dead - but sleep. The rulers of the state will wake up they and by with renovated energy and the consequences may be fatal to our Banks.

The Judges of our Supreme Court and the officers of state are determined again to have the question carried to the U. States Courts under the pretext that the late decision was under a law differing in principle from the present one. They also talk of the constitutional provision as being more obligatory upon the court than a law of the general Assembly. These views deemed at least singular will necessarily put the Banks again to injunctions &c. Some of the officers of State will undoubtedly here leave to retire as soon as the term for which they were elected is out - but judging from the part they may and probably will be succeeded by others with similar views. However

wrought & hope for the best and can form a more correct opinion of what may be expected after next Tuesday. I am truly your friend

Oct. 18. 1854

Wm. H. Sullivan, Cashier
 Dear Sir, Yours of the 17th has been received.
 Some of the questions propounded are difficult to answer in a
 satisfactory manner - others appear easy enough. I enclose you a
 pamphlet containing the original act of incorporation with several
 supplementary acts - the By-Laws &c. You are aware that two spee-
 cimens, the Franklin & Mechanics and Traders, availed themselves of the

Oct. 18. 1854

law in the first district as Branches. The Franklin took only \$169,000 capital the Merch. & Trades at first \$100,000 but the latter without consummation notified the Board that they wished to augment their stock to 400,000 that is to take of the unappropriated amt. allowed to the District an additional \$300,000. The necessary steps to make a final appropriation of this additional sum have not been taken and therefore consider the amt. as in effect unappropriated. The amt. of capital taken by the independent banks I do not know.

I have supposed the Franklin no longer a Branch under the organic law altho a corporation for the purpose of closing its business. It appears to me its situation is unalagous to banks whose charters may expire.

You will find in Sec. 72 all the provisions I know of in the charters for Branches voluntarily withdrawing. The Board has provided in Art. 10 of their By Laws how their "consent" and what "directions" shall govern Branches which make known their wish to close business. The stockholders have complied with these several requisitions and as I believe the Franklin Branch is no longer a holder of any stock allowed the District. It is my opinion they cannot undo what has been done. They remain a corporate body only to close their business. Their stock, it would seem to me, has vested to the map and stands precisely as if it never had been used at all and those interested in that Branch have lost all privileges as a bank except those necessary to close business. I speak from first impressions and this certainly should not be taken as a guide for you or their action and can in no sense bind the Board of Control. Legally, I should think that no power conferred by the charter could be resumed or taken away either by law or the provisions of the new constitution. I look upon bank charters as a contract and as far as executed beyond the control of legislation without the consent of corporations. Such however is not the doctrine of our highest court but clearly recognized as law by the courts of the United States which ought to be paramount whether it is or considered by state authorities or not. But one of the powers granted to the Board of Control was the creation of Branches subject to the restrictions in the charter and it has occurred to me that it might be argued with plausibility at least that inasmuch as this part of the contract remained executory at the formation and adoption of the new constitution, the convention like the legislators might have the right to repeal or abrogate that portion as unexecuted. It must however be admitted that to the Board of Control was intrusted the power of carrying out the provisions of law for the creation of corporations for banking and that this can be done without any act of the Legislature as required by Art. XIII of the new constitution. Still it may be a question whether

by strong implication the provisions in that act do not repeal all powers to create a bank unless submitted to the people. All these questions and others which might be suggested should be submitted to some experienced lawyer before any association should put themselves to the trouble and expense of subscribing for stock and providing capital as required. Before the Board of Control can be required to consider these matters associations for banking must comply with the requisitions specified in Sec. 72 and an agent must be appointed as required by Sec. 10. After these preliminaries the Board must of course ascertain their powers and decide accordingly. The Governor must also before he issues his proclamation as provided in Sec. 11 decide the same questions in favor of the applicants. Without this no corporation can be created under the charter. I wish these merely to be taken as suggestions - not as opinions to be at all relied upon. I have no time to give them the consideration they merit. I do not consider this letter as confidential nor as explaining any thing of an official character. I am &c. S. Swan

A. Dooling Esqr M. B. of C.

Dear Sir, The Ex. Court did the best they could to ensure a full examination of the Branches deemed at this time peculiarly necessary. Altho I may take a little more time for me to make the examination of a Branch than two or more, it was thought best in nearly every instance not to divide the responsibility. To attempt to procure some one in your place would probably be a failure. I hope therefore you will proceed to make the examinations to which you are appointed. I believe all or nearly all the agents would gladly be excused from performing this troublesome duty. I am &c. S. Swan

Dear Sir, I have recd. yours of yesterday. The Ex. Court. prescribed no particular mode of examination but they expect all will be thoroughly done and that officers will be examined on oath touching any matter which needs explanation. It is vastly important to ascertain the responsibility of borrowers - the mode of keeping accounts &c. Indeed it is expected that the agents will make a searching examination so as to be enabled to present in their report an exact statement of the condition of the Branch examined. It would be impossible to furnish rules applicable to all cases. I am Sir, G. Swan

Oct. 26, 1854

Dear Sir, Yours of the 24th is present. Neither the Ex. Court nor the Ex. Court. directed interrogatories to be put by the examining agents. I presume under an impression that they could not be made applicable to all cases and might rather tend to embarrass than assist the agents in their inquiries. It is expected that every Branch will be thoroughly examined and a full report made of its condition and that with this view the agents will examine the officers under oath if he thinks necessary. I need not inform you that the security of a bank depends upon the ability and punctuality of its borrowers. It is therefore deemed highly important to ascertain as far as practicable both of these. You are quite as well aware as I am what kind of an examination ought to be made to be satisfactory. I am Sir, G. Swan

W. A. Otis, Esqr. No. 14. 1854
 Dear Sir, I am in receipt of yours of the 13th
 and of one from Dr. Anderson of the same date. I have presented
 both letters to the officers of the Branch and Exchange who answer
 at this moment they cannot furnish aid and I believe them.
 There has been a good deal of excitement on account of the failure
 of the City Bank, and the doubts of the Clinton. The latter has
 made an arrangement which they suppose will restore confidence
 their money will be received by the Trust Co. and other large money
 dealers to day in Cincinnati. Owing to publications in our demo-
 cratic paper there has been some run upon the Branch, but con-
 fidence is gradually restoring. There is not upon either bank a
 preference at the counter.
 I should think a failure of a Branch at this time a very
 serious calamity. If all should remain from the difficulty will
 soon be over. Indeed the Banks here inform me that their re-
 demptions the last week, notwithstanding the great excitement

were less than in any former week for some time past. I can hardly enter-
 tain a doubt but what the Board will generously indemnify those who
 aid each other in the present crisis. The officers think in a few days they can
 be in means to aid a weak associate. This communication is as well for
 Dr. A. whom I presume is present or for yourself. I shall expect to see you
 both here in a day or two. I am a

W. A. Otis, Esqr. No. 14. 1854
 Dear Sir, I deem it of the utmost importance to
 the credit - I might almost say to the safety of our system that no
 Branch should be permitted to stop either on issues or deposits for either
 would be equally fatal. From the Drs. representations a small amount
 of currency would be sufficient to meet the demands of depositors
 with that on hand. I learn the Branch has \$10,000 in currency with a
 deposits of \$5,000. Without some extraordinary excitement the amt. on
 hand would be adequate to meet the demands, but as a measure of
 prudence it would be well to have say an addition of \$5,000.
 You above may furnish this, under the circumstances and in
 case of top will surely not be refused an indemnity from the
 other Branches. Is there a doubt but what such a profferance
 in such an emergency would be cheerfully furnished pro
 rata. I am a

 distinct understanding that the amount is to save the return

 is hoped that not a large portion will be needed for the purpose.

Dear Sir, I have your favor of the 11th. Before receiving your letter I was not aware of your having \$249 in any amount of Licking Co. Branch notes other than \$500 deposited in this office. Branches which have recd. those notes except the redeeming Branch have been in the habit of giving them a careful circulation as all others.

Nov. 15. 1854

Dear Sir, We are advised that a requisition of one half per cent on the Branches, one half in coin and one half in currency is immediately necessary to sustain the Akron Branch through the present crisis. We have by order of the Ex. Com. drawn on you for that amt. \$1000 in favor of the com. Br. Leland. Perhaps \$500 in your own notes might be well.

I am & I do so.

Messrs. Atwood Simley & Co.

Nov. 16. 1854

Dear Sir, Yours of the 14th is recd. Mr. Atwood will remember a conversation I had with him upon the subject to which it relates. At that time, and since, I did not suppose your house was correctly reported to this office as "acceptors". But after having called the special attention of the Cashiers of the various Branches to it, and after having furnished them with printed blanks containing instructions to note the fact of acceptance was "waived", I did not feel at liberty to doubt the correctness of a certified statement that you were acceptors. I regret to have placed you in an improper position but must insist that your censures should fall upon your correspondents, and not upon this office. In order that you may not strike in the dark, and with a hope that you may feel disposed to correct the evil by addressing them, I give the names of the offending parties. They are Cashiers, Sherman, Powers, Simby, Fallman, Gardner, Ebbert and Cowen.

I hope you will afford him every facility in your power to perform his duties.

C.P. Wolcott Esq.

Nov. 16. 1854

Dear Sir, Mr. Hull will hand you a letter which we of course expect you will show to Mr. McMillen. Should Mr. Mc in consequence force us deposits or should depositors make extraordinary calls through panic we think you had better stop on deposits at once and if you keep up redemptions in that case for a few days we think that would be desirable.

I am & I do so.

C.P. Wolcott Esq.

Nov. 16. 1854

Dear Sir, Upon full consultation of the Executive Committee we have unanimously come to the conclusion that unless Mr. McMillen will immediately resign and you will accept the presidency that no further aid will be afforded to the Akron Branch - but should there take place which we most ardently desire then we have decided S.P. Handy Esq. Cash. to furnish you as President with an amount in specie and currency to keep the Branch in credit until further advice.

I am & I do so.

Dear Sir, The Ex. Com. have held a consultation upon the subject of aid to the Akron and have unanimously come to the conclusion that unless Mr. McMillen resigns and Mr. Wolcott will take the office of President that no further aid be afforded.  I am in recd. of your favor of yesterday. Your Bank is a common sufferer with several of our Branches in misplaced confidence. I regret extremely that any person or corporation should suffer in consequence a loss from the failure of a Branch but I do not see any remedy for you more than others. The funds must take the course decreed by law and the distribution be made agreeably to its mandates. Without more loss upon the assets than I anticipate the depositors who come in next after the redemption of the notes will not be great losers, perhaps not losers at all, unless the Indiana notes on hand suffer great depreciation.

Dear Sir, Your favor of the 24th inst. enclosing the application of John S. Ankney for a loan of Safety Fund is received. In view of the probability that the Ex. Court may deem it expedient to direct that the Branches be reimbursed from the Safety Fund for their contributions in aid of failing Branches, it is deemed unexpedient to make any further investments of this fund at present. To make an investment with a prospect of an early call for its collection would only cause unnecessary expense and trouble. The application will be retained on file for the present.

Your order to the Secretary to procure any additional bills you may want is necessary before they will be obtained from the Engravers. The rule now requiring each Branch to pay for its own notes. Before issuing any new circulation from this office, I would suggest that it would be proper to submit a full & detailed statement of the condition of the Bank authenticated in the usual way to be submitted to the Executive Court. For their order & relation to the matter. Very respectfully, J. Andrews

A. O. Perry Esqr. Receiver N. & S. Bank Ant. Nov. 27. 1852

Dear Sir, Your favor of the 25th inst. is received. As early a day as practicable, it is desirable that a full and accurate schedule of all the assets of the N. & S. Bank be returned to this office. If controversies arise in regard to any portion of the assets, we expect you to look carefully to the interests of the Bank and maintain whatever legal or equitable rights belong to her.

It is to be hoped that Mr. Everett, the Agency Clerk, may succeed in balancing his accounts. If this department was under his care and control, would it not be proper that he should make good any deficiency in the fund?

It is very desirable that the large amount of funds in the Agency department should be converted into available means with as little loss and delay as possible. The Board of Control, at its late session, appointed a committee consisting of Messrs. Curtis, Acher & Purdy

of Dayton and Purdy of Mansfield to confer with you on this subject. Their attention will be called to the matter immediately. In the mean time I would suggest that you obtain such offers as you can in Cash. For the whole or any part thereof in Cash. It is doubtful whether it is advisable, or would be proper to place it in the hands of any other party, to be disposed of on commission. At all events this course is not recommended at the present time.

The Xenia Branch having been designated as the place of redemption of the notes of the N. & S. Bank, you will deposit in that Branch whatever cash funds you now have on hand or may hereafter realize from the assets, taking duplicate receipts therefor and forwarding me to this office. Very respectfully, J. Andrews

A. P. Curtis Esqr.

Nov. 27. 1852

Dear Sir, As you are chairman of the Committee appointed by the Board of Control to look after the interests of the Branches, in connection with the Agency Department of the N. & S. Bank of Cin. I take the liberty of suggesting the importance of immediate attention to this subject. Whatever questions may arise as to the disposition of the fund, there can be no doubt but that its speedy conversion into Cash is for the interest of all parties, as there is a certain loss of interest, and a risk of greater depreciation in the fund in its present form.

Mr. Perry has been advised of the appointment of the Committee, and as propositions are now submitted to him for its purchase, which he will postpone until the Court confer with him, it is important that the matter receive your immediate attention.

Very respectfully, J. Andrews
Messrs. Curtis, Acher & Purdy
as the Committee.

Nov. 28th. 1854

Dear Sir, We telegraphed you this morning to go immediately to Toledo, and act with Mr. Waite who has been appointed Receiver of the bond Bank of Toledo. If Mr. Waite is not willing to accept the appointment, you will urge upon him the absolute necessity of his consenting to act as Receiver at least until another appointment is made, in order to have the assets of the Bank in the legal possession and custody of some one. If Mr. Waite accepts the appointment, you will take from him a Bond with satisfactory security in the pecal sum of ten thousand dollars & forward it to this office. You will then proceed with Mr. Waite, and such assistance as you can get, and make out a complete schedule of all the assets of the Bank, & forward it to this office. This must be done preliminary to our ordering an assessment upon the Branches, in order that we may know what assessment to make. In making out the schedule, you

will designate, as well as you can, such papers as may be expected to be met at maturity, such as is ultimately good & such as is doubtful or bad.

It is impossible to anticipate every thing that may arise - but you are appointed a committee on behalf of the Branches to look after and take care of their interests, and you will do any thing in your power to effect that object. Do not leave Toledo until you see every thing safely delivered into the hands of the Receiver, and if there is any doubt, advise us here. Write immediately & advise how you find matters. John Bacon Esq.

Nov. 29 - 1854

Dear Sir, Presuming that you are now at Toledo, as a committee appointed by the Ex. Court. to hand over the assets of the Commercial Bank of Toledo to the Receiver, I now advise you that the Ex. Court have appointed S. Mc. Young Esq. with Mr. Waite as Receiver. The assets may be delivered over to them jointly, or in the absence of either of them, to the one who is present. They are required now to give a joint bond, in the penal sum of twenty thousand dollars, instead of a separate one for ten thousand dollars from Mr. Waite, as advised in my letter of yesterday. But if the gentlemen are not both at Toledo it is not necessary to delay the placing the assets in the hands of them, until the bond is finally executed, as it is very important that the property should be in the legal possession and custody of someone. The bond can be executed hereafter, as soon as either of them accepts and takes possession, you will telegraph me to that effect, and then proceed with them to make out a schedule of the assets, of every kind and description and forward it to this office. In this you can receive aid from the books of the Bank. I directed your letter yesterday to the care of Mr. Waite. Very respectfully, J. Andrews

Now this sum exceeds one half the entire capital of the Bank, and consequently, if the Directors own the whole capital, their liabilities are greater than allowed by the 23d. Sec. of the charter.

You will please call their attention to this subject immediately, and require a reduction of their liabilities within the authorized limits.

We hope to have the co-operation of every one connected with the State Bank of Ohio in enforcing a strict conformity to the charter, in every particular, as our system has suffered of itself from disregard of its requirements by some parties.

Very respectfully, J. Andrews

Dear Sir, In your report of the 6th inst. the liabilities of your Directors are stated to be as Principals \$10,279.26
as Endorsers 11,832.26
Total \$22,111.52

Does not this seem exceed the amount authorized by the 23d section of the charter? If so you will please require its immediate reduction within the proper limits. We hope we may

Sents. Yours of the 25th was recd. yesterday morning, but I have not till this moment had leisure to reply. Mr. Powers is entirely mistaken. In his last report, he reported you as acceptors for \$23,750 and did not note "acceptance waived" as his report now before me shows. I have not heard from Mr. Powers on the subject, but hope he will be more careful in future.

You will have learned before this that Akron Br. is closed, and an excess has followed suit. I do not know what their condition is, but believe Mr. Miller and Johnson have both been making raids which is at present, not a very good banking business.

Yours truly

J.A.

R. Powers, Cashier,

Nov. 29th, 1854

Dear Sir, I recd. by yesterday's mail a letter from Mr. Dem. G. N. Y. covering what purports to be a copy of a letter recd. from you, in which you state that in your last report to this office you had not reported that firm as acceptors, but had marked the paper drawn on them "acceptance waived", and add that you do "not see how Mr. Jarney overlooked the statement as to report you acceptors to any paper held by us."

The following is extracted from your last report now before me: "G. Anthony, Springfield, O. Horro, J. Judy, H. G. Andrews Union & Del. Co. on Stoddard Dunlevy & Co. New York 20/29 August 23,750." Other acceptors we noted "acceptance waived", hence I felt justified in supposing this was not, although I had good reason to believe that house did not accept any paper. In order to secure correctness in the returns of acceptors, I inserted the proper direction in the printed blanks, but they have been overlooked in several instances, and upon Messrs. A. D. & Co. addressing me upon the subject, in order to set myself right, and if possible, to correct the evil complained of, I gave them the names of the offending parties.

Your letter to me on the subject must have miscarried, as I have not recd. it. Yours truly

Dear Sir, Yours of Nov. 20th to P. Loan Br. is recd. with one dollar enclosed, which I return to you. It is made up of pieces of several notes, and of two separate plates. It cannot be redeemed because of either of the notes from which the two left hand pieces were taken was presented, they would be paid ^{in full}, and of course these pieces should not be.

Dear Sir, Yours of the 24th, inclosing letter from Messrs. A. D. & Co. & you is recd. I have tried ever since coming into this office to get Cashiers to report their lists of acceptors correctly, and to secure it, had printed at the head of the column, the necessary directions, but that too failed, and now Messrs. Dear Sir, Will you please send me through the aid of Mr. Loushan, the P. O. address of the borrowers of the Safety Fund of the Mechanics & Trades Branch? Yours truly

J.A.

P. Odlin Esq. Pres.

Nov. 30, 1854

Dear Sir, Yours of the 25th is received. I am instructed by the Pres. to say that the uniform practice of this office has been to refuse all applications for a release of any part of the premises mortgaged for the security of safety fund loans. Mr. Garrison's proposition is therefore declined. In view of the probability that the Gen. Court may direct the collection of a part of the Safety fund of each Branch in order to remunerate them for contributions for redeeming the notes of failing Branches, it is desirable at this time to encourage payments of safety fund loans.

I herewith inclose the mortgage of J. M. Griswold, as requested for collection.

We all regret the failure of Branches and sincerely hope that no more may occur, as there would not had their managers been governed by the rules & orders of the Board of Control and the requirements of our Charter. We believe that efficient Receivers have been appointed in each case, and that by prompt and decided action a very large amount of assets have already been secured, in the case of Akron & Canal Falls, which would have been squandered & lost, in any attempt to sustain them by the other Branches.

Very respectfully

J. Andrews

Dear Sir, Your favor of the 28th inst. is received. I regret that you held any of the drafts of the Bank & hope that your opinion is good. Yours truly J. J.

A. J. Perry Esq.

Nov 30 1854

Your favor of the 25th inst. is received by letter to you of the 27th inst. has informed you as to the intention to be made of any funds which are or might come into your hands from the assets of the Mt. Pleasant Branch. Deposits in the Lorain Branch must be made in coin or Eastern Exchange as such funds are given available for redeeming the notes of the failing Branch. The cost of converting currency into coin or Exchange must of course be chargeable to the fund. You will consult the views and wishes of the Lorain Branch as to which kind of funds to procure.

In examining the list of items called cash delivered to you I would suggest the following disposition to be made of them or part of them: 1st \$2,510.50 Office notes - should be sent to the Secy of this office J. J. Jennings & charged to this office. 2nd \$1,000 of funds deposited in various banks to be returned for redemption 3rd \$250 of Ohio State Bank of the kind to this office - 4th All Bankable funds to be converted into coin or East Exchange & deposited with Lorain Branch. 5th The residue of whatever character that has any market value to be sold to the best advantage and the proceeds to be deposited as above directed.

The Executive Committee have considered the question you ask what to do with the Agency matter and after viewing it on all its aspects have adopted an order a copy of which is herewith enclosed as their recommendation to you, at the basis of settlement with depositors of the Agency. The Court regard this as the most equitable and proper disposition that can be made of the fund. If it meets your convenience I would suggest that you immediately prepare a bond such as you would require the post-

to execute - have it and the basis of settlement both pointed and forward copies of each to each of the Depositors - The bond of the corporation with the individual Director of each would doubtless afford you ample protection.

The only parties who can object to the disposition of the funds are - 1st The Branches of the State Bank of Ohio who by claiming it as being on deposit with the Bank might ask its appropriation for the purpose of recovering its notes. But as the Depositors embrace a majority of the Branches this course aside from all other questions is out of the question. The fact of the arrangement being made at the suggestion of the Ex Court would also preclude this claim being set up. 2nd The other creditors might claim it - but at their demand would only require a small percentage of the funds to be returned to pay them off. There would be but little risk to you in paying it over under bond of indemnity as suggested.

It is very desirable for every reason to have this matter disposed of as soon as possible. Send to the Secy of the Ex Court your special attention.

As the Mt. Pleasant Branch has a deposit of \$227,380 you should pay this in their own notes.

We wish you to dispense with the services of all clerks not necessary for the transaction of the business of the office of which you are to judge but perhaps you had better retain the clerk of the Agency until this matter is disposed of. Very Respectfully J. Andrews

Alfred Kelly Esqr.

Dec. 1, 1834

Dear Sir, I am in receipt of your favor of the 29th ult. I had a free and full conversation with the Secy of State yesterday on the subject to which your letter refers.

The Secy unfortunately had a deposit of about \$10,000 in the Com. Br. Toledo at the time of its failure. The prospect of losing this has soured him. He entertained a strong disposition to issue a circular, ordering the County Treas^r not to receive the notes of the suspended Branches, he seemed to entertain no thought of extending it to any others. I endeavored to show him the imprudence of such a step, pointed to the fact that the notes of the Lick were redeemed promptly at the Exch^g Bank - showed him that over \$30,000 of it was bought at our last meeting and that but about \$20,000 of it is now in circulation; that the notes of the M. & T. Com. are now redeemed at the same Branch; that those of Akron and Com. Br. Toledo would be provided for as soon as schedules of their assets are received. That in an honest effort on our part to protect the public against loss, and a determination to devote ourselves and the means of the State Bank to that purpose it would be unfortunate if any action of the officers of State should embarrass us.

Mr. B. said he would see me again on the subject but has not as yet. I am very decidedly of the opinion that unless some other troubles come upon us, nothing will be done by the Secy and hope that the Public mind will soon be quieted.

I consulted Judge Swan as to the expediency of some semi-official publication as you suggest, but he thinks the effect

would not be beneficial. Every thing is very quiet here, and with a prospect of an early reduction in the rates of East. Exchange at least, may we not expect a gradual improvement?

It has become a question of grave consideration whether, under the existing receipts for large expenditures for redeeming the notes of failing Branches it may not be expedient for a time at least, to suspend the order for creating a specie fund at this office. Some of the Branches would certainly be very much weakened by it at present. Please give us your views on the subject, and if you and Mr. Otis can confer, we will regard your views as given in committee as you suggested, we appointed Wash & Young both Receivers the law being clear on the subject. Mr. Bacon is now there and will receive their bond and deliver over the assets. Yours respectfully J. Andrews

P.S. I have seen the Secy since writing the above, and am satisfied he has no present intention of issuing any circular, he feels very sore however about his deposit in the Com. Br. Toledo, and thinks we ought to secure it to the state in some way, if we wish to prevent a great noise on the part of the holders. He will feel it his duty to place the claim in the hands of the Atty. Genl.

Dec. 1, 1834

E. Krimes Esqr. Cashier

Dear Sir, Your favor of the 29th ult. is received.

I have not the least idea but that you are acting in perfect good faith in reviving your Bank, and the only reason for suggesting that you submit a statement of your condition, when you apply for new circulation was that this office might feel fully warranted in delivering the circulation. Your statement of Monday next will no doubt be satisfactory.

As the statement I gave you shows the amt. and denomⁿ now on hand, you had better ascertain exactly what denominations & the proportions of each you wish to order and send the Secy a specific order for what you want.

The failure of the Com. Br. Toledo was in consequence of the same kind of recklessness on the part of Johnson which Mr. Miller practiced. You know they were educated in the same (Lick) school, they have always been suspected, but it was hoped that Johnson had extricated himself from that influence. But it was not so. We are now free, I hope & believe, from dishonest banks, and if assume you, if the remainder of our Banks weather the storm successfully, our system is better and safer than ever.

Mr. A. Kelly was sent by the Ex. Com. to Toledo before the failure, and succeeded in obtaining a conveyance of all Johnson's private property, estimated by J. at \$125,000, to the Bank. If any confidence whatever can be placed in his bills, or in those of Akron we ought to realize enough to save the Branches from loss - although they will have to advance for present redemptions.

Yours respectfully J. Andrews

P. S. Messrs. Gilmore & Brotherton continue to return notes of the Branches. If you can do any thing to stop this for 30 days - it would be very desirable. In that time I hope every thing will be quieted down.

C. P. Walcott Esqr. Receiver Dec. 1. 1854

Dear Sir, Your favor of 28th ult. is received. We approve entirely the prompt steps taken by you to recover the bills receivable of the Akron Bank, & stop the payment of those illegally in the hands of Reid, and to recover back the large amt. misapplied to the payment of Mr. Miller's private debts.

You will be careful to see that when it is necessary to hold parties on bills not yet at maturity, they are placed for collection in time for that purpose. For this purpose I would suggest that you place all bills not yet at maturity, in the Leavelle Bank of Toledo, for collection. This will relieve you of all care and responsibility on that subject.

Aside from the general principles of law governing such cases, with which you are familiar, I beg leave to refer you to the 6 & 4. to sec. of the charter of the State Bank of Ohio which makes "all evidences of debt" held by the Branches, a liability only for specified purposes.

Doubtless you will often find it necessary to act on your own judgment in reference to many questions that may arise, but having entire confidence that, in every case that may arise you will be governed by a desire to protect and secure the interests of those for whom you act, you will meet with no other than a favorable construction of your actions, from this office. I have said to those associated with me, that whatever prompt, exp. energy, skill and a sincere desire to protect our interests can do, may be relied upon. Very truly &c J. Andrews

John Fardina Esqr. Cashier Dec. 7. 1854

Dear Sir, Please inform me if there would be any objections on the part of your Bank & its being designated as the place of redeeming the notes of one of the Toledo Banks. The circulation of the Leavelle is about \$260,000 - that of the Bank of Toledo about \$105,000. What effect has the suspension produced upon you? Very respectfully J. Andrews

E. Courstoun Esqr. Cashier Dec. 7. 1854

Dear Sir - Please inform me if there is any objection on the part of your Bank & its being designated as the place of redemption of the notes of the Akron Branch, of course coin & Exchange would be furnished for that purpose. Yours respectfully J. Andrews

A. C. Post Esqr. Cashier Dec. 1. 1854

Dear Sir, It will become necessary for the Com. in a short time to designate places for redeeming the notes of Akron and two Toledo Branches. Summit County Branch would be the most convenient place for redeeming for Akron, and the Leavelle Bank for Toledo.

The circulation of the Leavelle Toledo is about \$260,000, that of the Bank of Toledo about \$105,000. Please inform me if your Bank may, with your consent, be designated as the place of redemption for either. Of course coin and Cash Exchange will be provided for the purpose.

Very respectfully J. Andrews

J. P. Handy Esqr. Cashier Dec. 1. 1854

Dear Sir, It will be necessary in a short time, to designate a place for redeeming the notes of the failing Branches. They will probably designate Summit County Branch, for redeeming Akron. I would be glad to know from you if your Branch would consent to be designated for redeeming the notes of near both the Toledo Banks.

Of course you would not be expected to advance any of your own funds for the purpose. The Circulation of the Leavelle Toledo is about \$260,000 - that of the Bank of Toledo about \$105,000. Please advise me at your earliest convenience. J. Andrews

As the object was temporary and the Akron Branch to prevent its failure perhaps the additional advance may be deferred until it shall become necessary to provide for the redemption of the notes of that insolvent Branch. A good deal of solicitude is felt here for your Branch particularly on account of its deposits and we hope you will all use the utmost endeavors to place it out of all danger. No violation or sacrifice should be spared for this purpose. Dr. A. will return in a few days when you will hear further on this subject. I am &c J. Andrews

 Dear Sir I have yours of Dec 1. The Akron
 Branch's assets are now beyond its control and its affairs in

 fate of all others. The assets are first applied to the redemption

 of that Bank have perpetrated extensive frauds which leave its
 affairs in a confused state. You may gain further information

Dec. 6 - 1854

Dear Sir, I am in receipt of your letter of the 5th. I am not prepared, nor have I authority, to decide the Ex. Court, not being in session. We shall probably meet again about Saturday when your communication will be submitted to them. You will notice that the Resolutions of the Ex. Court, forwarded to you were merely recommendatory. Upon referring to the Resolutions of the Board it appears to me the distribution of these Agency funds were entrusted by the Board of Control to the Court. Messrs Purdy, Schay, & Curtis, I am clearly of opinion that you should take security as recommended and Mr. Curtis present concurs with me. It seems to me also that the Receiver should take the bonds to himself as such from those Banks interested. If however you think proper the bond can be taken in the name of the Board of Control. We are desirous of

possible of keeping these assets from the Court. It appears to me when collections have actually been made by the Merch & Grocers Branch and the amounts credited to the payer at the time of actual unclosure, they must come in for claims as depositor only. Dr. Andrew who is entrusted with all the active business of this Office is now absent and will return in a few days. I am S. Swan

Messrs. Mason & Estep. Dec. 7. 1852. Gentlemen, I have your letter of the 5th. Mr. Johnson gave no such notice to the Board, as that mentioned in your letter. If such an important trust existed it will no doubt be found where it should be looked for if recd. Your letter contains the first and only intimation verbal or written that Mr. Johnson had any lands conveyed as discharge of his indebtedness to the Am. Branch at Toledo held in trust for the benefit of the Canal Bank or any person whatever. ad am & Jff

Upon receiving the proper certificate, I will forward your notes. Yours truly Jff

Jos. G. Young, Cashier. Dec. 7. 1852. Dear Sir, Yours of the 4th is recd. and request attended to yesterday. You have no bond for \$526.00. You have two for \$628.00 and I have one for \$1100. the difference between which would make your Safety Fund just \$20,000. Two of the Bonds being for exp. would require a transfer in New York. If this is correct and the change would suit you, I will endeavor to procure upon the return of Dr. Andrews. Yours truly Jff

John W. Ethel, Cashier. Dec. 7. 1852. Dear Sir, You can remit amt. of expenses in chks. on Cleveland. If you have nothing more the Ex. Pr. has remitted bal. due you. If you remit the 1 1/2 per cent com. as you suggest, that will do. Yours truly Jff

D.P. Evans, Cashier. Dec. 8th. 1852. Dear Sir, Yours of the 6th is recd. with inclosure chks. on Lef. Bk. Com. \$442. I would suggest to your Board that if your Branch has elected to pay the tax under the law of 1852 (see res. May 1853) it is not bound to pay any portion of the fee of Messrs. Stawberry and Dinton, but if you have refused, or intend to refuse to submit to that law, and intend to litigate, your refusal to bear your portion of the expense of setting that law aside, or testing its validity, would doubtless be complained of by the other Branches. Dec. 9. 1854

Dear Sir. I have your favor of the 7th I concur with you generally with respect to the powers and duties of a Receiver, under our Bank Law still from the organization of the different corporations and the powers and duties of executive officers. It must be evident that a large discretion must be exercised by the Receiver of an insolvent Branch. Without such discretion it appears to me it would be utterly impossible ever to settle with the B. of C. the debtors, depositors and stockholders. Such was the view of the Board and of the Ex. Com. in the case of the Receiver of the Lukens Co. insolvent Branch. In cases involving legal questions it is of course expected so far as deemed by the Receiver that the advice of counsel will be taken. Several days ago the chairman of the committee was advised that the bonds offered as security for the Indiana notes & should be presented for the approbation of the Ex. Com. The Board was not withheld from you the exercise of your discretion but for the exact reason assigned by you namely that the members of the Com. might in general have a better knowledge of the facts

utility of the names offered. As Dr. Anderson who is now associated with the business of this office is absent I beg you to consider the above my private views and those heretofore entertained by the Board & Ex. Comt. as I have understood them. Your letter will be placed before the acting president who will submit it to the Ex. Comt. when next in session and inform you of the result. I am truly yours

Dec. 13 - 1854

Dear Sir, After an absence of a few days I find on my return your letter of the 6th inst. to the Secretary, declining to pay the proportion of Expense a paper on your Bank, further fees of Attorneys in litigating the war question. The letter of the Secy. of the 8th in reply, will direct your attention to the resolutions of the Board of Control on this subject. From these you will perceive that unless your Bank "elects to pay the tax under the law of 1852" you are equally bound with the others to defray your proportion of the costs of testing the constitutionality of the tax laws of 1851 & 1852.

You say "we expect to pay our own atty. to defend us this year without any aid from the B. of C." I presume that every other Branch will do the same. That is, each one employs and pays its own attorney, without aid (pecuniary) from the Board of Control, but no attorney, I presume, will pretend that, in conducting this suit, he will not avail himself of the advantage of having the very questions on which he expects to succeed already decided in his favor by the Supreme Court of the United States. So far then from your Bank or any other, which intends to litigate this question having received no advantage whatever from their services" (the attorney employed by the Board) you and every other Branch has received the great advantage of having had the question decided by the highest legal tribunal of the country, the Court of last appeal. If this decision had been adverse to the Bank, neither yours nor any other Branch would probably incur the expense of taking the same question before the same Court. Under these circumstances I think if you will again call the attention of your Board to this subject, they will not hesitate to pay your Banks proportion of these charges, especially when informed that it is the only action that has as yet, declined to pay. We are co-partners and we can not expect to share the advantages, without participating in the

burdens of the concern, and such I believe would not be your wish even if you could. Very respectfully, J. Andrews

Messrs Young & Wate, Receivers & Gentlemen, As the Ex. Court is desirous of being able to form some estimate of what may be reasonably expected from the assets of the Coml. Bank of Toledo, as available for the redemption of its circulation within the next sixty days, in order to fix the amount of the apportionment on the Branches, you will please furnish immediately the best estimate you can make for this purpose. We also wish, as soon as practicable, a full schedule of all the property and assets of every description belonging to the Bank. As far as you realize funds, and as to all you have on hand, you will at once convert them into light Exchange on New York, in order that it may be at once applied when called for to the redemption of the circulation. Decr 15 - 1854

Dr. Sir. Your favor of the 13th inst. with the amt. as stated is recd. Before making an agreement on the Branches for redeeming the notes of the Akron Br. we wish according to an order of the Board of Control, to equalize among them the amt. of advances in aid of the Bank. I will write immediately to those Branches which are in default, to forward the same to your Bank, and as soon as received you will advise this office.

The check sent from this office for \$10,000 - St. Exchange being entrusted as a temporary loan, you will please return to the Secty. and charge the fund. As you have but \$7,475.50 belonging to the fund in coin, you may either charge the prem. on the balance to the fund, or I will direct the receiver to pay over in coin the difference.

He stated that he had deposited with you the funds on hand at the time of the suspension, a part of which was in coin, enough I think to make you whole on the return of the \$10,000. I have written to the Receiver for his account, and as soon as this is received, can draw on him in your favor, if this is preferred. I concur with your views as to the expediency of delaying the agreement for a time but that time must not be too long, lest the public mind becomes restless and dissatisfied.

We advanced \$20,000 from the Secty's fund to the Clerks Br. to redeem the notes of the M. & S. Bank, but the Receiver having collected and paid to the Clerks Br. over \$15,000, the \$20,000 has been paid to this office, and there can hardly be doubt but the collections will be sufficient to take up the circ^l without aid from the Branches.

The returns for this month generally look well. I think you are quite fortunate in having received the notes of the Com. Treas for your loan of coin. I do not see how to arrange it through the Akron Journal. J. Andrew B. P.

A. P. Perry Esq. Receiver of the Mechanics & Trades Bank. Decr. 15 - 1854

Sir. Dear Sir. I return you Bond for the purpose of having the individual signers attach their seals to the same. You will therefore please attend to this & return the Bond immediately.

I inquired of your Cash. if your Branch had adopted a seal for its use; he said not, but that you had a seal which was used by the Bank. Perhaps it would be of use if you would make an impression in wax of the seal ordinarily used by the Bank, where the waxen seal now is on the Bond. Yours J. Andrew B. P.

Decr. 15 - 1854

Dear Sir. By a resolution of the Board of Control, the advances made by the Branches to the Akron Br. prior to its suspension are to be equalized among them (see order of B. of C. last meeting) This we wish done before making an agreement for redeeming the circ^l of the Akron Bank.

Your Bank advanced \$687⁰⁰ in coin, and to equalize your advances with the others you owe same amt. (\$687⁰⁰) in currency. This you will please forward immediately to the Com. Treas. of Cleveland, and advise this office.

We are aware that you claim that the Brk of Akron was not your debt, but that is no objection to this requisition. Yours J. Andrew B. P.

P.S. No agreement will be necessary for the M. & S. Bank.

Same to A. W. Phillips advanced \$500 in curr. over \$500 coin \$500 - coin over \$500 curr.

Same to H. S. Meays first paragraph. Your Branch has made no advance for this purpose, and in order to equalize you with the others, you will please forward immediately to the Com.  Dear Sir. A meeting of the Executive Committee of the Board of Control will be held at this office on Friday next the 22d inst. at 4 O'clock P.M. Your attendance is particularly requested, as several matters of importance require attention, such as an agreement for redeeming the notes of the Branches that have failed, designating places for redeeming, and other important duties.
 This month's returns show a reduction of over \$300,000 in circ. with a slight increase in com & equivalent, and a small increase in deposits. The Miami Co. Branch has returned \$13,000 of her circulation.

C. Quincy Esq. Director

You are requested to make an examination of the Marietta Branch at your earliest convenience, and report to this office. The examination of the Branches heretofore has been conducted in a loose and unsatisfactory manner, you are requested to make this a thorough and strict affair. I wish to direct your attention particularly to the following points of inquiry: Reliance upon the accuracy of the accounts particularly whether the general account of 'Depositor's' correspondents with the appropriate

of individual balances... whether the schedule represents bills which are the bona fide property of the Bank; the evidence of their being transmitted to the other Banks; whether any portion of them are hypothecated, pledged, redemotted, or whether any other party than the Bank has any control over said bills, or the proceeds thereof. Ascertain when each account with other Banks has been settled, and whether the balances agreed on such settlements. Have a list of the bills receivable made out, and attach marginal remarks as to the character of each whether well secured, and how secured, whether they will be paid at maturity, and any other general remarks necessary to elucidate their character. For this purpose consult the Directors, as well as the Cashier, Ascertain whether the Director hold regular meetings whether the paper discounted is acted on by them, or by a discount committee, or by the Cashier alone. You will not confine your enquiries to the above subjects but extend them to any others which you may deem proper to present a full reliable and satisfactory expere of the affairs and conditions of the Bank.

Yours respectfully
J. Andrews U. P.

J. W. Tallman Esq. Cashier Dec. 21, 1854

A. W. Sherman Clerk Dec. 21, 1854

Yours of the 18th inst. is received. My Agent is asking for your list of contributions received by the Akron Bank is to have this account adjusted, before directing the Receiver to pay me what is now in hands, or may hereafter collect, in order to keep the accounts separate and distinct. I wish you to have the account fully appear in the books of the Bank. Your list of what you received from the Commercial Bank of Cleveland agrees with theirs in the first named five items, amounting to in coin \$10,000.00 and in currency \$ 300.00 \$10,300.00

The other item "currency \$500" is not charged to the Bank of Akron by the Court Clerk. It was furnished by the Court Bank of Toledo and you will please so enter it on your

books. The \$5000 coin returned to the bond held in 23d. Nov. 29
presume was deposited to the br. of the Receiver. It should be trans-
ferred to the ac of the fund advanced by the Branches. The Coult
Clid. has two entries Nov 23^d Recd. Akron notes \$4,423.00

Dec 5. Recd. Akron notes 4,171.00
which I presume did not pass through the Akron Bank, and
which they should not charge to this fund, but hold for redemption
by the Redeeming Branch as soon as designated. This will make
no difference in the result to the Coult Bank of Cleve. as they
have funds to cover these notes. The only difference will be
that they will have that much more to pay over to the redeeming
Branch from this advanced fund, but will of course at the
same time present the bills for redemption. Even this may
not be necessary if your account can be made to correspond
with theirs.

I suggest that you take your ac as you now have it, and
go to the Coult Clid. and there adjust the two so as to have
them correspond, and forward the same thus adjusted, to this
office as soon as you can attend to it. This letter will
explain to Mr. Handy my object. Yours & J. Andrew V.P.

J. P. Handy Esqr. Cashr.

Dec. 21. 1854

Dear Sir, I have instructed Mr. Eberman
to call on you, that you may so adjust your ac and that
of the Akron Bank, with reference to the "fund advanced by
the Branches in aid of that Bank" that they may correspond.
My letter to him will more fully explain the discrepancies
which I have requested him to submit to you.

You will understand the object of having the two correspond
for the records of this office would otherwise show discrepancies
which might give rise to confusion and might not be readily un-
derstood hereafter.

Thus they credit your Bank with the \$5,000 currency ad-
vanced by the bond held not changed in your ac. You charge
them \$4,423.00 Akron notes recd and \$4,171.00 "do" which they
have no account of.

The result will of course be precisely the same, but I think it
important, that your ac of the "fund advanced by the Branches
to the Akron Bank" and theirs, should correspond in every
particular, and that the adjusted ac should then be
immediately sent to this office. You will please report any
errata made to you by Branches, on this ac since
your last. Yours & J. Andrew V.P.

Dec 21. 1854

Dear Sir, I return your bond that the
individual signers may attach their seals.

The circumstances of the securities, being entirely unknown to
either the Post, or myself, it would be more satisfactory, if you would
add another responsible name, and attach your affidavit (written
on the back of the bond) to the effect that the parties are known to you,
and that you believe them to be worth double the amount of the pen-
alty named.

This has been required in all similar cases. On the return of the
bond thus perfected, the certificate will be immediately sent to the
Receiver and the funds will be subject to your order without further
notice. Yours & J. Andrew V.P.

Dear Sir, Your bond is defective in the fol-
lowing particulars

1. The names of the parties are omitted in the body of the bond.
2. The seal of the Bank (a stamp, or wax or wafer seal) is omitted, also seals by the individuals
3. Your affidavit on the back of the bond that the signers are known to you, and are worth double the amt of the penal sum.

I am sorry to give you this trouble and delay, it is the fault
of the parties who furnished the bonds - but have no discretion
in the matter.

On returning it here, with these defects supplied, the certifi-
cate will be sent direct to the Receiver, and the funds will be
subject to your order without further notice. Yours & J. Andrew V.P.

To the Kentucky Trust Co. Bank at Louisville Dec. 22. 1854
 A Bond has been recd. at this office, offered as security, under the arrangement for withdrawing the deposits with the Agency, Department of the Mechs. & Traders Bank of Cin.

- The bond is not satisfactory for the following reasons:
- 1st. It should be executed by the officers of the corporation under the authority of the Directors, and the seal of the corporation should be attached.
 - 2d. The individual signers should attach their seals.
 - 3d. When the individuals are entirely unknown to this office as in the present case, the oath of the Pres. or Cashier of the Co. entered on the back of the bond, to the effect that he is acquainted with the parties, and their pecuniary circumstances; and that they (or each of them) are worth double the amt. of the penal sum of the bond is required. The Cert. of the Receiver that it is satisfactory would be sufficient.
- I return the bond to be perfected. J. Andrew V.P.

A. Liggett Esq.
 Director of the Farmers Bank of Ripley
 Dear Sir, Your
 favor of the 18th inst. is recd. The history of the resolutions re-
 ferred to is correctly stated by you. The only point in issue is
 this, "have you elected to pay the taxes assessed on your
 Bank under the tax law of 1852". If you have, you are
 exempted by the resolution, if not you are as much bound to
 pay as the others - for the decision is for the benefit of all
 who resist the law. I hope your Bank will see the propriety
 of paying this small assessment upon it, as the amount
 levied upon the Branches for expenses, is to meet a specific sum
 previously audited by the Board of Control, and the withhold-
 ing of its portion by any Branch puts this office in the disa-
 greable position of not being able to pay bills which have
 passed the Board. This is of course no reason why your
 Bank or any other should pay that which it ought not
 to, but on reflection I hope your Board will consider
 that the decision of this great question by the Supreme
 Court of the U.S. is worth at least \$250 to your stock-
 holders & that they will not consider it as money thrown
 away.
 Yours &c

 we hope you will do all in your power to expedite collections.

P.S. In converting your funds you will, of course give the pref-
 erence to the redeeming Bank, on equal terms.

A. D. Hubbard, Esq. Cashier
 Dear Sir, Your favor of 19th inst. is recd.
 and has been submitted to the Ex. Comt. The following is an
 extract from their proceedings viz: The letter of the Cashier of the
 Farmers Bank of Ashkubala signing as a reason for not con-
 tributing their assessment in currency, as a part of their advance
 to the Akron Bank that said Akron Bank was indebted to them
 being submitted it was

Ordered that said indebtedness is not a
 sufficient reason for not making said contribution, and that
 it is the opinion of the Comt. that said contribution is required
 under the order of the Board of Control to equalize said con-
 tributions among the Branches.

Your situation does not probably differ from that of a
 depositor and many (too many unfortunately) of our Branches
 can claim that the Akron Branch was in their debt.

Dear Sir, I am sorry we cannot understand each other about your list of debts. You doubtless think me fastidious, perhaps "old maidish," but if you will make out me list of dep. debtors for me. I feel confident you would fully appreciate the reasonableness of my request, which I would not make however, if compliance with it would cost you any additional labor.

I do not care whether the sheets are "stitched" or pinned, or fastened together at all provided they are written upon properly. In making up the list I must necessarily spread out from six to a dozen lists before me at once. I find it most convenient to so arrange them as to leave only the names visible, and then if one letter be for instance, so not finished at the bottom of the page, but is continued on your side, on the opposite side of the same sheet, I must take up all on top of it, and turn it over, whereas if the sheets were put together "like a book" in the simplest possible manner, this trouble would be avoided, as a very simple experiment will demonstrate to you. I hope this explanation will be satisfactory, but to prevent all misapprehension, I enclose two sheets put together as they should be. I repeat, I do not care about their being fastened together, provided they are written on in this way.

Are the parties reported by you as "acceptors" all actually liable to you as such, or are many of them merely nominal? Of the latter will you please omit them in your list, as they are of no use, and add to the labor of your office as well as my own. I do not want the names of any acceptors not actually liable to the bank. Yours truly J. J.

Dear Sir, I inclose mem. of sales of stock by the Treas of State last week, at what I believe to be usual rates here. What price the Ex. Com. will put upon those for sale here I do not yet know, but will on Wednesday next. They are due in 1860-63 and 70. Yours truly Jff

Dear Sir, At the request of P. Swan and, in the absence of Dr. Andrews, I would say to you that Mr. Brewster Secy of State, complains very heavily of you for refusing to receive the notes of the suspended independent banks. He urges, as a reason why you should receive them, the fact that they are received at par at the State Treas. in payment of all dues to the State, and of demands would as a matter of favor, be exchanged. He appears much excited on the subject and threatens retaliation. Yours truly Jff

Receiver

Dear Sir, I have your favor of the 30th ult. I do not understand what books you refer to as "in our possession" containing the Profit & Loss account of the N. Y. Bank. We have none of the Books of the Bank in our possession. We have memoranda of the assets & the report of the Com. & examine me on but nothing more. Please explain more fully.

I fully concur with your views as to renewals. Whenever the debt is at all doubtful, & the security can be strengthened by extending the time, it should be done. It is good policy however to make the extensions for as short a time as you can, and obtain a reduction at each removal even it should be made each time. Your "form" was not received, but I have no doubt it is all right. Yours J. Andrews V. P.

P. S. The Receiver of the Com. Bank of Toledo have referred to me the question as to the disposition to be made of its deposit with the Agency \$5998. Of course it is not expected that the Receivers will execute their Bond. As this fund belongs to the Branches, the best disposition that can be made of it is for you to convert it, as soon as you can, into par funds, (East of Exchange) and transmit the same to the Secretary of this office, he will receipt to you for the same and this receipt will be recognized as binding on all the Branches. The Secy. will transmit the amt. to the Redeeming Pr. of the Com. Toledo and thus the Branches will have the benefit of it. Yours J. Andrews V. P.

Mr. R. White Receiver

Your favors of the 27th, 29th and 30th ult were received in my absence from the office for a few days, and hence have not been soon replied to. The notice required by the 25th sec. of the charter is being given by this office, not by the Receivers, and will be attended to as soon as the Redeeming Branches are funds which will be in a few days.

Mr. Perry has been instructed as to the proper disposition to be made of the deposit in the Agency, belonging to the Coml Bank of Toledo, without the execution of the bond sent to you. You need take no further action in regard to it.

I will be glad to hear the result of the attachment of the funds in the hands of the Am Ex Bk. as soon as determined. I can see no objection to your exchanging other currency for the notes of the Coml. Toledo, or of furnishing exchange therefor at 1 to 1 1/2 per cent. But of course notes so redeemed are to be sealed up & sent to this office by Express. I see no objections either to your advancing funds to redeem the notes of the Bank of Toledo

Dear Sir, Yours of the 31st is recd. I forwarded you a copy of the resolutions passed at the last meeting of the Board in due time, and if I did not send a statement, it was because yours was forwarded too late, as to which I do not now remember. I forward another copy of the resolutions, and statement.

As you will see by the resolutions, the Bn were recommended to meet here on the Wednesday after the second Monday of each month, to buy paper, and at the same time effect the exchange of which you write. Yours truly J.P.H.

Dear Sir, In your list of bills Recd. for 1st Inst. you have one bill thus "Bank of Toledo W. A. Hall & Co. \$500000". Please explain whether this is a bill of the Bank of Toledo or of the Commercial Bank of Toledo. I am not aware of the former Bank having issued any time bills, and of course wish to know the facts. Dear Sir, In your statement for the 1st Inst. the liabilities of your stockholders are stated to be \$40,470. As I understand the provisions of Sec. 23, they may be liable 1st 1/2 stock paid - \$31,500.00
2d. on bona fide bills of Ex. - an additional amt. to make in capital 15,750.00
\$47,250.00

Unless therefore all the \$40,470.00 over the sum of \$31,500.00 consists of liabilities on bona fide bills of Exchange drawn in this state and payable out of this state, they are in

violation of the charter. If so, you will please have them immediately reduced within limits. These things sometimes occur incidentally, but should not be overlooked, as regard it as of the utmost importance that our Branches should in no particular transcend their charter.

I am pleased to observe that your Bank is well fortified & prepared for any emergency. Yours & J. Andrew O.P.

Gentlemen, Your letter of the 1st Inst. is recd. and will be laid before the Ex. Comt. at its next meeting on the 10th Inst.

My own opinion is, that the Directors who have been elected and qualified, may now immediately proceed to fill any vacancies in the Board, and that in so doing they may select persons who are, or are not residents of Kentucky, as to them may appear expedient & proper. Very respectfully, J. Andrew O.P.

Sir Your letter of the 29th ult addressed to the Pres. of the State Bank of Ohio was received today. I regret very much that any one, and especially a lady should lose by the failure of the M. & S. Bank of Cin. But this office has no power to direct the application of the assets of the failing Branch in any other manner than the law directs. By the charter of the State Bank of Ohio, the assets of a failing Branch are first applied to taking up its circulation, then to meet other liabilities. The officers of the Board of Control are mere Executive officers without any discretion in such cases as you mention.

The Board of Control, which represents the interests of all the Branches, meets but twice a year, viz. on the third Monday of May of November. The Executive Committee meets more frequently, and is expected to hold a meeting next week. I will submit your letter to the Comt. at its first meeting, and if they feel that they have no power to relieve the unfortunate depositor, I will submit you to the Board of Control at its first meeting.

Judge Swan is not now attending to the duties of the office, & hence does not reply to your letter. Yours J. Andrew & P.

Dear Sir. By your report for the 1st. inst.

the amt. of your com is	\$41,519.96
Your circulation is \$256,000 @ 17 1/2 p. c. there is	43,520.00
Deficiency	\$ 1,700.04
Your com & Eastern Exch. together	\$ 64,722.72
30 p. c. on your com is	76,800.00
Deficiency	\$ 12,077.28

When this deficiency appears in a monthly statement the order of the Board of Control require that a weekly statement of these three items shall be made to this office until the deficiency shall be made up.

You will therefore be expected to report on the Monday of each week the amounts of com - Eastern Exch & circulation until the required proportions are made good.

Very respectfully J. Andrew & P.

Ed. Coustoch, Esq. Cash.

Jan. 5th 1855

Dear Sir, In looking over the list of your bills returned for the 1st inst. I observe two bills of \$3,000 each, which have but one name (J. L. Miller) to them. The bills may be perfectly good, for all I know, but the order of our Board of C. require "at least two respectable names" on every bill or note discounted. We are all liable to fall into error as to the responsibility of any names, but the rule is a good one & I think should be observed in all cases. The general aspect of your bills books very well, especially in being well diffused, and generally in small sums. You have some bad paper, but fortunately not enough to trouble you seriously. With caution, prudence & strict regard to safety, rather than profit, the State Bank of Ohio will soon emerge from the cloud that threatened to obscure her, and will realize all that her best friends have ever claimed for her. Let there be your guides.

Yours J. Andrew & P.

Jan. 6. 1855

Dear Sir, Your two favors of 4th inst. are recd. I have submitted the form of your note to Judge Swan who approves of it. As one connected with this office has ever seen the book & think your refer. Mr. Parde is entirely mistaken if he said it was here. I have seen and examined all the papers reports.

brought a suit here, and it was not among them.
 I dissent from your opinion as to the right, and certainly as to the expediency of retaining from the deposit of the Com. Treas. in the Agent, what that Bank is indebted to the M. & F. Bank. Does not this fund, as any other part of the assets of the Com. Bank of Toledo, by its act of involving under the State Bank of Ohio, to be used for in redeeming the notes of the Bank? If applied to the debt due the M. & F. Bank, and this last named Bank should have assets more than sufficient to take up its own circulation, would not the practical effect be to give the benefit of the fund to the "other creditors" of the M. & F. whereas it may all be needed to redeem the notes of the Com. Treas.? By your disposing of it, and taking the Secretary receipt for so much paid over for the use of the C. Bank of Toledo, you will hold all the Branches to indemnify you. I think this is the proper course to be pursued.

In regard to the lease, it appears to me that it would be for the mutual interest of the parties, the lessee as well as the Bank, to perfect the arrangement you suggest, provided it can be made to include and cancel all claims for rent now due.

However you are so much better qualified to judge of this whole matter, being familiar with the value of the lease, the responsibility of the parties & that I wish you to exercise your own judgment and discretion in regard to the whole matter, assuring you that whatever is done by you will be approved of.

A. M. Bartholomew of Cin. has written in regard to what he considers a very hard case, that of a lady who made a deposit two days before the suspension of the Bank of \$1500 and recd. certificate to 1912. I do not think we have any power to order it paid, but if you know the parties I would be pleased to hear any explanation in regard to them which may be submitted to the Ex. Com. or Board of Control.

Your respectfully, J. Andrews D.P.
