Mr. Emil Fitger  
Editor, Affarsvarlden  
Postfack 257  
Stockholm, Sweden

Dear Mr. Fitger:

We are informed by the R. C. A. Communications, Inc. that you have assured that company of your willingness to accept our weekly message on a "collect" basis - that is, without prepayment of charges - if it is sent through that organization. The company states that you will not be inconvenienced by this change in method, since the charges will merely be added to the monthly bills for radiograms you have been receiving regularly from other agencies in Washington. This change will relieve our office of the work of billing these messages and will make the method of payment less complicated.

We shall begin to send the messages by radiogram today and trust that the new arrangement will meet your approval.

Very truly yours,

E. A. Goldenweiser  
Director of Research and Statistics

MJE

*See 8/8/33*

June 22, 1931

Mr. Parry

Weekly Cablegram to Sweden.

Miss Ellis

Complaint has been made by Mr. Hanford and Mr. Foulk about the way in which the weekly cablegram to "Affarsvarlden" is sent. According to the present method the Board prepays the message and is later reimbursed by "Affarsvarlden". This method involves a somewhat lengthy process of book-keeping. Having the cablegrams sent "collect" would eliminate this work at the Board's office. R.C.A. Communications, Inc. would merely add the charges for our messages to the bill it regularly sends "Affarsvarlden" for messages sent from the Bureau of Mines and from the American Railway Association.

Mr. Guthrie, District Manager of R.C.A. Communications, Inc., at Mr. Foulk's request, asked "Affarsvarlden" if it would accept messages from us sent by radiogram on the "collect" basis. "Affarsvarlden" said it would.

Mr. Hanford says that the messages should never have been sent prepaid or at Government rates. As Mr. Hanford's memorandum of June 18 indicates, he is in favor of having the messages sent directly from this office to R.C.A. Communications, Inc., instead of going through the Treasury Building Telegraph Office.

As a result of our conversation this morning, I am having the message sent by radiogram today and will continue to do so in the future, unless there are objections.

I have prepared drafts of <sup>see</sup> letters to "Affarsvarlden" and to Mr. Guthrie for your criticism. The memorandum from Mr. Hanford and the letter from Mr. Guthrie are also attached. <sup>6/22/31</sup>  
<sub>see 6/18/31</sub>

Mr. F. P. Guthrie, District Manager  
R. G. A. Communications, Inc.  
1112 Connecticut Avenue  
Washington, D. C.

Dear Mr. Guthrie:

Thank you for your letter of June 18 informing us of the completion of arrangements for sending our weekly message to "Affarsvarlden - Stockholm" on a "collect" basis by radiogram.

The message will be ready every Monday at four o'clock. We shall be grateful if you will have a messenger call for it regularly at room 400 of the Otis Building at that hour.

Very truly yours,

E. A. Goldenweiser  
Director of Research and Statistics

June 18, 1931.

Mr. E. A. Goldenweiser,  
Division of Research and Statistics,  
Federal Reserve Board,  
Otis Building,  
Washington, D. C.

My dear Mr. Goldweiser:-

All arrangements have now been perfected for the weekly message which you send to "Affarsvarlden - Stockholm," to be handled on a "collect" basis by radio.

I have discussed this with Mr. Hanford, the Chief Clerk of the Federal Reserve Board, and Mr. Kidwell, of the Treasury Telegraph Office, who advise me that there is no reason at all why these messages have to go through the Treasury Telegraph Office, since under the "collect" arrangement the Treasury will not be involved in the billing or accounting in any manner.

The billing and accounting will be unusually simple for us, since the Bureau of Mines and the American Railway Association have been sending weekly messages on a "collect" basis to this address for a year or more past. All that it will be necessary for us to do will be to add a few items on to the bill.

When the messages are ready to send, if you will have some one telephone DECATUR 2600, we will send one of our uniformed messengers for them at once.

Very truly yours,

District Manager.

FPG/S

CC: Miss Margaret Ellis,  
Federal Reserve Board,  
Washington.

Dear Miss Ellis:-

I am enclosing a pad of our blanks, and will be glad to furnish additional blanks whenever they are needed.

Very truly yours,

FPG/S

REC'D  
APR 27 1944  
244.201

*Mr. Parry  
Miss Cooper*

Dear Sir:

Of your letter of Jan. 16th I have been informed of the changes which have taken place in the statement of the condition of weekly reporting member banks.

At the same time I should like to make some other alterations in the cable which you have the great kindness to send us each week. I should be very much obliged to you for changing the list of items as follows:

Loans on securities	7264
All other loans	9102
Investments - total	5926
Net demand deposits	13608
Time deposits	6896
<u>New York: loans on securities to brokers</u>	
<u>and dealers: for own account</u>	1163
<u>""""": for account of out-of-town banks</u>	1794

The figures given refer to Jan. 9, 1929. We get the figure of the total loans on securities to brokers and dealers in New York from other sources as well as the weekly statement of the Federal Reserve Board.

Very truly yours,

*Emil Fitger*

Emil Fitger, Editor of Affärsvärlden.

Mr. E.A. Goldenweiser,  
Director of Research and Statistics  
The Federal Reserve Board,  
Washington.

Dear Sir:

In future we will be unable to include in our weekly cable to you separate figures showing loans secured by United States Government obligations and loans secured by stocks and bonds, for the reason that these items are no longer published separately by the Federal Reserve Board. We will, however, give total loans on securities, which is the sum of the two items mentioned above. Following is the list of items which will be cabled to you each week, and the order in which they will appear. This order was used in our cable of January 15, 1929.

- Loans on securities
- All other loans
- United States Government securities
- Other bonds, stocks and securities
- Reserve balances with Federal reserve bks.
- Net demand deposits
- Time deposits
- Total borrowings from Federal reserve bks.
- Loans to brokers and dealers

Very truly yours,

E. A. Goldenweiser

Gentlemen:

I have to acknowledge receipt with thanks of your favor of Oct. 15, contents of which I have carefully noted. I shall certainly ask the Swedish telegraph office to repeat any cables that arrive in a mutilated form.

During the last weeks your cable has arrived on Tuesday morning and as far as I can see has been delivered here in the correct form.

May I take the liberty to say that I recently had the honour of meeting at Stockholm Vice-President Broderick of the National Bank of Commerce. I understand that Vice-President Broderick has taken an active part in organizing the banking statistics of U.S.A. He explained to me the meaning and the importance of each separate figure in the statistics we receive, and this has further increased the editorial use we can make of your cables.

I am, Gentlemen,

Very truly yours

Dear Sir:

In reply to your letter of October 1 regarding the weekly cable, we beg to inform you that we have taken up the matter with the cable office here and that their copies of cables sent are correct i.e. total borrowings from Federal reserve banks was 404 - investment in U. S. government securities was 2542. The trouble must be in your receiving office and the best way to handle that would be to ask them to repeat the cables in question to you. We have taken up the matter of sending the cable in figures, rather than in letters, with the same office and they inform us that the cost of transmitting these figures would be twice as much and the danger of error or omission just as great.

The delay in sending the cables to you promptly was due to an oversight in this office, but they have been put on our regular cable list now and will be sent to you regularly on Monday in the future.

We are sending you by mail the weekly statement of reporting member banks to confirm our cable.

Very truly yours,

E. A. Goldenweiser,  
Acting Director,  
Division of Research and Statistics.

The Federal Reserve Board,  
Division of Research & Statistics,  
Washington.

Gentlemen:

You have been kind enough some time ago to offer your very valuable assistance should we want to enlarge those cable reports we have for some years been receiving from you. I now take the liberty to propose the following.

I see from the Chronicle that since May you are issuing the weekly return for the Member Banks each Monday, covering the week ending Wednesday before. As these statements, if published on Monday, would be available in time for our going to press, I should very much like to include a regular statement of these very important figures in my paper.

Using the same schedule as before and taking the figures for the week ending July 21 (from page 550 of the Chronicle No. 3188) I make for mutual guidance the following specimen telegram:

Only the following items of the weekly return will be necessary:

Loans and discounts:

Secured by U.S. Government obligations	\$	146	mill.
" " stocks and bonds		5458	"
All other loans and discounts		8379	"

Investments:

U.S. Government Securities		2516	"
Other bonds, stocks and securities		3148	"
Reserve balances with F.R. Banks		1635	"
Net demand deposits		12921	"
Time deposits		5689	"
Total borrowings from F.R. Banks		280	"
Loans to brokers and dealers		2621	"

A telegram containing the above might run:

adfedehhcg jbearcadha fceabjbaef hjbhkbrba

May I further take the liberty to propose that your previous statements of different index numbers of the F.R.B. may be included in these weekly telegrams as soon as anyone of them is ready. At the same time I would like to ask you to exclude the

- 2 -

indexes for agriculture, lumber, paper and textiles but add your index of Building contracts awarded ( stated to be 164 for May last on page 480 of F.R. Bulletin for July ). To facilitate matters it might be convenient to give everyone of these indexes a separate letter, indicating which of them it means and to save cable costs.

- l. Bureau of Labor Statistics Price Index for all commodities.
- m. Index of production in basic industries
- n. " for bituminous coal
- o. " " crude petroleum
- p. " " iron
- r. " " copper
- s. " " total manufacture
- t. " " building contracts awarded
- u. Revenue freight loaded in 1,000 cars
- v. Panama Canal traffic.

There is no need to state the date or the month to which the figures refer as we shall be able to understand without.

If the last named arrangement would incur extra trouble you will of course continue sending these index numbers as before, without mixing up with the statement for the Member banks. The last named statement would be very important and I would be very much obliged if you could begin to send a telegram about this every Monday at your early convenience.

I am, Gentlemen,

Yours very truly,

*W. H. H. H.*

Dear Sir:

The Federal Reserve Board has discontinued the compilation of its wholesale price index for the United States, the last figure computed being that of December 1925. If you wish us to cable the Bureau of Labor Statistics wholesale price index, please let us know. The other monthly cable, covering items of production, etc., will continue to go forth as usual.

Very truly yours,

E. A. Goldenweiser,  
Assistant Director,  
Division of Research and Statistics.
