<u>Location of branch offices</u>	<u>Number of branch offices</u>
Head office city	_____
Outside head office city -	_____
Head office county	_____
Contiguous counties	_____
Non-contiguous counties	_____
Total	=====

NOTE: The list of "group" banks suspended during 1930 and 1931 was made up by subdividing the list of suspended group and chain banks as between those that belong to groups and those that belong to chains. The list of suspended group and chain banks ^{was} prepared in 1931 under the direction of the Committee on Branch, Group, and Chain Banking. The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.

NOTE: The list of "group" banks suspended during 1930 and 1931 was made up by subdividing the list of suspended group and chain banks as between those that belong to groups and those that belong to chains. The list of suspended group and chain banks ^{was} prepared in 1931 under the direction of the Committee on Branch, Group, and Chain Banking. The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.

NOTE: The list of "group" banks suspended during 1930 and 1931 was made up by subdividing the list of suspended group and chain banks as between those that belong to groups and those that belong to chains. The list of suspended group and chain banks ^{was} prepared in 1931 under the direction of the Committee on Branch, Group, and Chain Banking. The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.

NOTE: The list of "group" banks suspended during 1930 and 1931 was made up by subdividing the list of suspended group and chain banks as between those that belong to groups and those that belong to chains. The list of suspended group and chain banks prepared in 1931 under the direction of the Committee on Branch, Group, and Chain Banking. The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.

*This bank suspended 10-7-31 and reopened 12-24-31
it was not licensed 4-12-33 and was licensed 9-4-34 -
listed twice in Bank Suspensions* *BT*

The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.

NOTE: The list of "group" banks suspended during 1930 and 1931 was made up by subdividing the list of suspended group and chain banks as between those that belong to groups and those that belong to chains. The list of suspended group and chain banks ^{was} prepared in 1931 under the direction of the Committee on Branch, Group, and Chain Banking. The subdivision of the banks as between those belonging to groups and those belonging to chains is necessarily somewhat arbitrary due to the lack of adequate information as to the type of control.

For the period 1932-1935, the list of suspended group banks was determined by checking the list of group banks as of December 31, 1931 against the card record of banks suspended during 1932-1935. Consequently, if any bank became a member of a group in 1932 or later and suspended in 1932-1935, it was omitted in determining the list of suspended group banks.
