FEDERAL RESERVE BANK OF CHICAGO

The Following Member Banks Located in the Seventh Federal Reserve District are  
Licensed, According to Advices Received, to Perform the Usual Banking  
Functions Other Than Those Expressly Prohibited by the  
Treasury Department.

Note: For purposes of classification, the Federal Reserve Board has defined  
"licensed banks" as all banks which are permitted to make loans and  
otherwise conduct a normal banking business with respect to new  
deposits, even though they may have agreements with depositors to  
defer the withdrawal of a portion of their old deposits. Banks in  
charge of conservators or other similar State officials, banks which  
are permitted to accept new deposits in trust only, and banks which  
have not been permitted to reopen, are included in the list of  
"unlicensed banks." Banks in receivership or in voluntary liquidation  
are not included in either classification.

## FEDERAL RESERVE BANK OF CHICAGO

The Following Non-Member Banks located in the Seventh Federal Reserve District are  
Licensed, According to Advices Received, to Perform the Usual Banking  
Functions Other Than Those Expressly Prohibited by the  
Treasury Department.

Note: For purposes of classification, the Federal Reserve Board has defined "licensed banks" as all banks which are permitted to make loans and otherwise conduct a normal banking business with respect to new deposits, even though they may have agreements with depositors to defer the withdrawal of a portion of their old deposits. Banks in charge of conservators or other similar State officials, banks which are permitted to accept new deposits in trust only, and banks which have not been permitted to reopen, are included in the list of "unlicensed banks." Banks in receivership or in voluntary liquidation are not included in either classification.

THIS LIST IS NOT INTENDED TO BE USED AS A PAR LIST

FEDERAL RESERVE BANK OF CHICAGO

The Following Member Banks Located in the Seventh Federal Reserve District are  
Licensed, According to Advices Received, to Perform the Usual Banking  
Functions Other Than Those Expressly Prohibited by the  
Treasury Department.

Note: For purposes of classification, the Federal Reserve Board has defined  
"licensed banks" as all banks which are permitted to make loans and  
otherwise conduct a normal banking business with respect to new  
deposits, even though they may have agreements with depositors to  
defer the withdrawal of a portion of their old deposits. Banks in  
charge of conservators or other similar State officials, banks which  
are permitted to accept new deposits in trust only, and banks which  
have not been permitted to reopen, are included in the list of  
"unlicensed banks." Banks in receivership or in voluntary liquidation  
are not included in either classification.

## FEDERAL RESERVE BANK OF CHICAGO

The Following Non-Member Banks Located in the Seventh Federal Reserve District are Licensed, According to Advices Received, to Perform the Usual Banking Functions Other Than Those Expressly Prohibited by the Treasury Department

Note: For purposes of classification, the Federal Reserve Board has defined "licensed banks" as all banks which are permitted to make loans and otherwise conduct a normal banking business with respect to new deposits, even though they may have agreements with depositors to defer the withdrawal of a portion of their old deposits. Banks in charge of conservators or other similar State officials, banks which are permitted to accept new deposits in trust only, and banks which have not been permitted to reopen, are included in the list of "unlicensed banks." Banks in receivership or in voluntary liquidation are not included in either classification.

THIS LIST IS NOT INTENDED TO BE USED AS A PAR LIST
