Regulations Relating to Licensing the Purchase and Export of Gold

To the Bank Addressed:

For your information, we quote below regulations issued by the Treasury Department on April 29, 1933, relating to licensing the purchase and export of gold. Forms for filing applications in connection with the regulations will be furnished upon request.

ARTICLE I MISCELLANEOUS PROVISIONS

Sec. 1. Authority for Regulations. In pursuance of the provisions of section 5(b) of the Act of October 6, 1917, as amended by section 2 of the Act of March 9, 1933, and the Executive Orders of the President dated March 10, 1933, April 5, 1933, and April 20, 1933, these regulations are prescribed.

Sec. 2. Definitions. For the purposes of these regulations, the term "person" means an individual, partnership, association or corporation; and the term "United States" means the continental United States, including Alaska.

Sec. 3. Licenses Non-Transferable. Licenses or permits issued or granted under these regulations shall not be transferred.

Sec. 4. Scope. These regulations shall be operative within the United States as defined, unless otherwise indicated.

Sec. 5. Penalties. Whoever willfully violates any provision of these regulations or of any license issued hereunder may be fined not more than \$10,000, or, if a natural person, may be imprisoned for not more than ten years, or both; and any officer, director or agent of any corporation who knowingly participates in any such violation may be punished by a like fine, imprisonment, or both.

ARTICLE II PURCHASE OF GOLD FOR USE IN INDUSTRY, PROFESSION OR ART

Sec. 1. Eligible Applicants. Any person having a legitimate and customary use for gold in industry, profession or art (including research and scientific work), or any person customarily supplying gold to others for such use (hereinafter called a "dealer"), may file with a Federal reserve bank an application to purchase such quantity of gold as may be required for legitimate and customary use within a reasonable time.

Sec. 2. Applications. Such application shall be filed in duplicate, executed under oath and verified before an officer duly authorized to administer oaths, and shall contain (a) the name and address of the applicant, (b) the industry, profession or art or business in which the applicant is engaged, (c) the amount of gold usually required for use in the applicant's business for a period of 90 days, (d) the amount of gold used or sold during the preceding calendar year, (e) the amount and a description of all gold on hand at the date of the application, (f) the amount of gold applied for, (g) a statement that the applicant will use such gold as he may be permitted to purchase only for the legitimate and customary requirements of industry, profession or art, or for sale exclusively in industry, profession, or art, and (h) a statement that no other application is pending.

Sec. 3. Purchase of Gold. Upon receipt of the application and after making such investigation of the case as it may deem advisable, the Federal reserve bank, if satisfied that the gold is necessary for the legitimate and customary requirements of the applicant's business, industry, profession or art, within a reasonable time, may permit the applicant to purchase such quantity of gold (not in excess of the amount applied for) as may be necessary for such use upon payment therefor of an equivalent amount of coin or currency coined or issued under the laws of the United States. The applicant shall keep an exact record of the disposition of such gold, and, in the case of a dealer furnishing gold for use in industry, profession or art, such dealer shall keep a record which shall show the amounts and dates of sales and the names and addresses of the purchasers. Such records shall be available for examination by a representative of the Treasury Department for at least one year after the date of the disposition of the gold. The gold so purchased shall be used or disposed of only in accordance with this Article and the Executive Order of April 5, 1933. Dealers withdrawing gold under this Article shall require of the persons who purchase gold from them an affidavit that the gold so purchased will be used exclusively in the industry, profession, or art in which such purchasers are engaged.

Sec. 4. Prior Regulation Revoked. Emergency Banking Regulation No. 25, issued March 13, 1933, is hereby revoked.

ARTICLE III EXPORT OF GOLD COIN OR GOLD BULLION

Sec. 1. License Required. No gold coin, gold bullion or gold certificates shall be exported from the United States or any place subject to the jurisdiction thereof, or earmarked for foreign account unless a license therefor shall first have been obtained from the Secretary of the Treasury in accordance with this Article or Article IV of these regulations. Licenses may be issued, in the discretion of the Secretary, authorizing the export of gold coin and gold bullion:

- (a) earmarked or held in trust for a recognized foreign government or foreign central bank or the Bank for International Settlements;
- (b) imported for reexport;*
- (c) actually required for the fulfilment of any contract calling for payment or delivery of gold coin or bullion, entered into prior to April 20, 1933, by an applicant who in obedience to the Executive Order of April 5, 1933, has delivered gold coin, gold bullion or gold certificates in accordance with such order; or
- (d) with the approval of the President, for transactions which he may deem necessary to promote the public interest.

***NOTE:** Export of gold by refiners importing gold-bearing materials is covered by Article IV of these regulations.

Sec. 2. Application for Licenses. Application for license under Section 1 to export from the United States or any place subject to the jurisdiction thereof any gold coin or gold bullion shall be made to the Secretary of the Treasury. Each such application shall be executed in duplicate under oath and verified before an officer duly authorized to administer oaths, and shall state in detail (a) the name and address of the applicant, (b) the name and address of the owner of the gold to be exported, (c) the amount and a description of gold coin or gold bullion and the location thereof, (d) the port from which export will be made, (e) the name and address of the consignee, and (f) the nature of the transaction and the facts making necessary the export. In the case of an application for a license under section 1(c) of this Article, the application, in addition to the above, shall state in detail, (1) the amount respectively of the gold coin, gold bullion or gold certificates delivered in obedience to the Executive Order of April 5, 1933, and the date and place of such delivery, and (2) the amount of gold coin or gold bullion actually required for the fulfilment of the contract. A certified copy of the contract or obligation shall accompany the application.

Sec. 3. Filing of Application. The application shall be filed with a Federal reserve bank, and such bank, after making such investigation of the case as it may deem necessary, shall transmit the original of such application to the Secretary of the Treasury, together with (a) such supplemental information as it may deem appropriate and (b) a recommendation as to whether the license should be granted or denied. A copy of the application shall be retained by the Federal reserve bank for its records.

Sec. 4. Issuance of License. If the Secretary of the Treasury in his discretion determines to grant a license upon an application filed under Sec. 3, he will authorize the Federal reserve bank through which the application was transmitted to issue on his behalf a license to export a specified amount of gold coin or gold bullion, and such bank shall thereupon issue such license to the applicant. If the license applied for is not granted, the bank through which the application was transmitted will be advised and such bank shall thereupon so notify the applicant.

Sec. 5. License. Each license for the export of gold coin or bullion shall be numbered serially and shall bear (a) the date of issue, (b) the name and address of the licensee, (c) the name and address of the consignee, (d) the amount and description of the gold licensed, (e) the port of export, and (f) a statement "This license shall expire 15 days from date of issue".

Sec. 6. Notification of Issuance of License. At the time the license is issued, the issuing Federal reserve bank shall transmit a copy thereof to the Collector of Customs at the port of export designated thereon. No Collector of Customs shall permit the export of any gold coin or bullion under this Article except upon surrender of a license to export, a copy of which has been received by him from the Federal reserve bank issuing such license.

Sec. 7. Expiration of License. All licenses to export gold coin or bullion issued under this Article shall expire fifteen days after date of issue and any person holding a license who fails to export gold coin or bullion in accordance with the terms of the license shall forthwith deliver such gold coin or bullion to a Federal reserve bank.

ARTICLE IV IMPORT FOR SMELTING AND/OR REFINING AND EXPORT

Sec. 1. Notation Upon Entry. Upon the formal entry into the United States of gold-bearing ores, or any other gold-bearing materials imported into the United States for smelting and/or

refining under an agreement providing for the export of gold bullion, the importer shall notify the Collector of Customs at the port where the gold-bearing ore or material is formally entered that the importation is made under such agreement. The Collector shall make a notation on the entry to this effect and forward a copy of the entry to the United States Assay Office at New York, New York, or to the United States Mint at San Francisco, California, whichever is designated by the importer.

Sec. 2. Sampling and Assaying. Promptly upon the receipt of each importation of gold-bearing ore or material at the plant where it is first to be treated, it shall be weighed, sampled and assayed for gold content. A reserve commercial sample shall be retained at such plant for at least one year from the date the importation was received by the plant unless the assay is sooner verified by the Treasury Department.

Sec. 3 Plant Records. The importer shall cause an exact record, covering each importation, to be kept at the plant of first treatment. The record shall show the gross wet weight of the importation, the weight of containers, if any, the net wet weight, the percentage and weight of moisture, the net dry weight, the gold content shown by the settlement assay, and the amount of gold bullion required to be exported under the agreement. An attested copy of such record shall be filed promptly with the Assay Office or the Mint, whichever has been designated to receive a copy of the entry.

Sec. 4. Application for Export License. Not later than fifteen days from the date of entry, the importer shall file an application with the Assay Office or the Mint, whichever has been designated to receive a copy of the entry, for a license to export gold bullion not in excess of the amount shown by the Settlement Sheet covering the importation. Such application shall be filed in duplicate, executed under oath and verified before an officer duly authorized to administer oaths, and shall show (a) the name and address of the applicant, (b) the port at which the importation was formally entered, (c) the entry number, (d) the date of entry, (e) the plant at which the importation was first treated, (f) the gross wet weight, (g) the weight of the containers, if any, (h) the net wet weight, (i) the percentage and weight of moisture, (j) the net dry weight, (k) the gold content, (l) the amount of gold bullion required to be exported under the agreement, and (m) the name and address of the proposed consignee of the exportation. The application shall be accompanied by two duly attested copies of the Settlement Sheet.

Sec. 5. Issuance of Serial Numbered Certificate. If the Superintendent of the Assay Office or of the Mint is satisfied as to the accuracy of the data shown on such application, he shall issue to the importer a dated Serial Numbered Certificate which shall show the amount of gold specified by the application and the amount specified by the Settlement Sheet. The Director of the Mint shall prescribe the form of such certificate.

Sec. 6. Issuance of Export License. Upon delivery to the Assay Office or the Mint, within 120 days from the date it was issued, of the Serial Numbered Certificate the Superintendent of the Assay Office or Mint shall issue to the importer a license to export gold bullion in the amount applied for but not in excess of the amount specified by the Settlement Sheet as shown on such certificate.

Sec. 7. Licenses. Each license for the export of gold bullion under this Article shall be numbered serially and shall bear (a) the date of issue, (b) the name and address of the licensee, (c) the name and address of the consignee, (d) the amount and description of the gold licensed, (e) the port of export, and (f) a statement "This license shall expire 15 days from date of issue".

Sec. 8. Notification of Issuance of License. At the time the license is issued, the issuing assay office or mint shall transmit a copy thereof to the Collector of Customs at the port of export designated thereon. No Collector of Customs shall permit the export of any gold bullion under this article except upon surrender of a license to export, a copy of which has been received by him from the assay office or mint issuing the license.

Sec. 9. Expiration of License. All licenses to export gold bullion issued under this article shall expire 15 days after date of issue and any person holding a license who fails to export the gold bullion in accordance with the terms of the license shall forthwith deliver such bullion to a Federal reserve bank.

ARTICLE V ACQUISITION OR RETENTION OF GOLD COIN, GOLD BULLION OR GOLD CERTIFICATES FOR PROPER TRANSACTIONS NOT INVOLVING HOARDING

Sec. 1. Licenses for Proper Transactions and for Purposes not Covered in Preceding Articles. Any person showing the need for gold coin or gold bullion for a proper transaction not involving hoarding or for gold coin or gold bullion for a purpose specified in the Executive Order of April 5, 1933, and not covered by the foregoing Articles of these Regulations, may make application to the Secretary of the Treasury for a license to purchase, or if such coin or bullion is already in his possession, to retain such coin or bullion, in amounts as may be reasonably necessary for such

proper transaction or purpose. Applications shall be filed with any Federal reserve bank. The application shall be filed in duplicate, executed under oath and verified before an officer duly authorized to administer oaths and shall contain (a) the name and address of the applicant, (b) the amount of gold coin or gold bullion desired to be purchased or retained, (c) the amount and description of the gold coin or bullion on hand, if any, at the date of the application, (d) the proper transaction or purpose to which the gold coin or gold bullion will be devoted and the facts making necessary its purchase or retention, (e) such other facts as will enable the Secretary of the Treasury to determine whether the transaction is proper, and (f) a statement that the applicant will use such gold coin or gold bullion as he may be permitted to purchase or retain only for the transaction or purpose set forth in the application. In the case of an applicant for a license who has delivered in obedience to the Executive Order of April 5, 1933, gold coin, gold bullion or gold certificates, the application, in addition to the above, shall state in detail (1) the amount of gold coin, gold bullion or gold certificates delivered in obedience to the Executive Order of April 5, 1933, (2) the date of such delivery, and (3) the bank at which delivered.

Sec. 2. Disposition of Applications. On the receipt of any such application, the Federal reserve bank shall make such investigation of the case as it may deem advisable and shall transmit to the Secretary of the Treasury the original of such application, together with (a) any supplemental information it may deem appropriate and (b) a recommendation whether a license should be granted or denied. The Federal reserve bank shall retain a copy of the application for its records.

Sec. 3. Granting or Denial of the License. Upon receipt of the original application and the recommendation of the Federal reserve bank transmitting it, the Secretary of the Treasury will grant or deny the license. A license will be granted on application for the retention or acquisition of gold coin or bullion made by any person showing the need for such gold coin or bullion in accordance with the provisions of section 8 of the Executive Order of April 5, 1933, in cases where such person has gold coin, gold bullion or gold certificates in his possession, or in obedience to said Executive Order, has delivered such coin, bullion or certificates. A license so granted shall be for an amount of gold coin or bullion not exceeding the amount of such coin, bullion or certificates held or delivered. When the issuance of a license is approved by the Secretary of the Treasury the Federal reserve bank through which application was made, will issue a license to the applicant. If denied, the Federal reserve bank will be so advised and shall immediately notify the applicant. The decision of the Secretary of the Treasury shall be final. The Federal reserve bank shall note upon the retained copy of the application whether or not a license has been granted, and, if granted, the date of the license and the amount of the gold coin or gold bullion covered thereby.

Sec. 4. Acquisition of Gold. Upon presentation of a license for the acquisition of gold coin or bullion to a Federal reserve bank, such bank shall deliver to the licensee the amount of gold coin or gold bullion authorized in such license upon payment therefor in an equivalent amount of any form of coin or currency coined or issued under the laws of the United States.

Sec. 5. Reports Required on the Disposition of Gold Coin or Bullion. Any person holding a license for the retention or acquisition of gold coin or bullion issued under this Article, who shall at any time dispose of such gold coin or bullion in accordance with the terms of the license or otherwise, shall immediately file a written report in duplicate with the Federal reserve bank through which the license was issued. Such report shall be executed under oath and verified before an officer duly authorized to administer oaths and shall contain (a) the names and addresses of the person or persons to whom such gold coin or bullion was delivered, (b) the amounts thereof and whether gold coin or gold bullion and (c) the reason for such delivery. On the receipt of any such report, the Federal reserve bank receiving it shall immediately transmit the original to the Secretary of the Treasury in Washington and shall retain a copy for its records. Upon the transfer of any gold coin or bullion by a person licensed to retain or acquire the same, such licensee shall advise the transferee of the provisions of the Executive Order of April 5, 1933, and of the penalties for its violation, and such transferee shall deliver such gold coin or bullion so received to a Federal reserve bank or branch or agent thereof or any member bank of the Federal Reserve System in accordance with the Executive Order of April 5, 1933, and shall be subject to the penalties of said Executive Order for any violation thereof.

These regulations may be supplemented, modified or revoked at any time.

W. H. WOODIN
Secretary of the Treasury.

Yours very truly,

Governor.

**FEDERAL RESERVE BANK
OF DALLAS**

470.01 (11)

Dallas, Texas, March 31, 1933.

**Regulations Issued by the Secretary of the Treasury under the President's
Proclamation Declaring a Bank Holiday—Continued**

To the Bank Addressed:

Supplementing our Circulars of March 18, 21, 23 and 29, on the above subject, I quote the following regulations received from the Secretary of the Treasury:

Regulation 31.

"Any banking institution which is a member of the Federal Reserve System and is not licensed to perform usual banking functions, but which is duly authorized to engage in the business of acting as Trustee, Executor, Administrator, Registrar of Stocks and Bonds, Transfer Agent, Guardian of Estates, Assignee, Receiver, Committee of Estates of Lunatics, or in any other fiduciary capacity, may transact such business in the normal and usual manner and may make payments on account of the principal or income of trust or other fiduciary funds to the persons entitled thereto; provided, that, except to the extent permitted by other emergency banking regulations, no such banking institution shall withdraw or pay out any trust or other fiduciary funds on deposit with any other department of such banking institution or make any other payment in connection with any trust or other fiduciary funds which would operate to discharge, as a whole or in part, any indebtedness, as distinguished from any trust or other fiduciary duty, of such banking institution.

This regulation supersedes emergency banking regulation number 13 of March 7, 1933, which is hereby revoked."

Regulation 32.

"Any state bank which is a member of the Federal Reserve System, and is not licensed by the Secretary of the Treasury to perform usual banking functions, may permit withdrawals of deposits which are lawfully secured by collateral; provided, that such withdrawals are (A) permissible under applicable law, (B) Duly authorized by the Board of Directors of such bank, upon such terms with respect to the release of collateral as will fully protect all depositors and other creditors against the creation of any preferences, and (C) Approved by the appropriate state authority having supervision of such bank.

Any such bank is authorized to carry on such usual banking functions as may be essential to allow the withdrawals permitted by this regulation, subject to the provisions and restrictions above set forth and except as otherwise prohibited."

Very truly yours.

B. McJinney

Governor.

**FEDERAL RESERVE BANK
OF DALLAS**

470.01 (11)

Dallas, Texas, March 30, 1933

To the Member Bank Addressed:

Until further advised, all cash items drawn on unlicensed banks (including those for which a conservator has been appointed) will be handled by Federal reserve banks in the usual manner under the terms of Federal Reserve Board's Regulation "J" and check collection circular No. 10, Series of 1930, issued pursuant thereto by the Federal Reserve Bank of Dallas, except that outgoing cash letters to unlicensed member and non-member banks will contain the additional protest instructions:

"If any item of less than \$500 is returned for the sole reason 'Drawn against restricted account,' do not protest unless the word 'Protest' is stamped or written on the face thereof."

Therefore, should you desire any items of less than \$500 drawn on an unlicensed member or non-member bank to be protested when returned solely for the reason "Drawn against restricted account," please stamp or write on the face of the item the word "Protest," accompanied by the usual A. B. A. designation of your bank.

This circular supersedes our general letter of March 24, 1933, and amends our check collection circular No. 10, series of 1930.

Yours very truly,

A handwritten signature in dark ink, appearing to read "B. McJinney". The signature is fluid and cursive, with a large, sweeping "B" and a long, trailing flourish at the end.

To the Bank Addressed:

The President has today issued the following executive order:

"Whenever the appropriate authority having immediate supervision of any banking institution located in any state or place subject to the jurisdiction of the United States, which is a member of the Federal Reserve System and which has not been licensed by the Secretary of the Treasury to resume its usual banking functions, shall deem it necessary or advisable in order to conserve the assets of such banking institution for the benefit of the depositors or other creditors, such authority may, in accordance with the provisions of the applicable laws of such state or place, appoint such appropriate official as may be authorized under such laws to conserve the assets of such banking institution pending further disposition of its business as provided by such laws.

This order shall not authorize any such member bank to re-open for performance of usual and normal functions until it shall have received a license from the Secretary of the Treasury as provided in executive order of March 10, 1933."

Yours very truly,

**Regulations Issued by the Secretary of the Treasury under the
President's Proclamation Declaring a Bank Holiday**

To The Bank Addressed:

For your information, we are quoting below certain regulations issued by the Secretary of the Treasury under authority conferred upon him by the proclamation of the President of the United States declaring bank holiday:

"Banking institutions which have not yet been permitted to reopen for normal and usual functions are still permitted to continue to carry on the limited activities specified by regulations 1 to 19."

NUMBERED REGULATIONS

1 Authorizing Federal Reserve Banks to make change, etc.

"Secretary of Treasury has authorized all Federal Reserve Banks and all other banking institutions to make change by the exchange of currency and/or coin of various denominations for an exactly equal amount of currency and/or coin of other denominations, but no gold or gold certificates shall be paid out in making change."

2 Granting access to safety deposit boxes, etc.

"All banking institutions may allow their customers free access to the safety deposit boxes and safes rented to such customers."

3 Authorizing return of cash, checks and other items received after last closing hours and not entered.

"All banking institutions may, upon request, return intact and without restrictions all cash, checks and other items delivered for deposit or collection which were received after the last closing of business hours and have not been entered on books of such banking institution."

4 Cashing Treasurer's checks.

"All banking institutions may continue, in accordance with usual practice, to cash checks drawn on the Treasurer of the United States, provided that no gold or gold certificates shall be paid out."

5 Accepting payment on obligations.

"Any banking institution may accept payments in cash or any other form acceptable to it on account or in settlement of obligations payable at or to such institution."

Interpretation No. 4.

"Regulation number 5, dated March 6, 1933, is not to be interpreted as permitting any banking institution to accept payment of any obligation not solely owned by it in any form which is not authorized by the person entitled to the proceeds."

6 Permitting certain activities in connection with food or feed products.

"Any banking institution may handle and collect drafts or other documents in connection with the shipment, transportation or delivery of food or feed products, may pay out or permit the withdrawal of such amounts of currency as shall be necessary in the judgment of such banking institution in connection with such shipment, transportation or delivery of food or feed products and may perform such other banking functions as may be essential to the shipment, transportation or delivery of food or feed products, provided, however, that no banking institution shall pay out or permit the withdrawal of any gold or gold certificates."

Interpretation No. 1-D

"The term 'food or feed products' in Regulation 6 under the President's proclamation promulgated March 6 may be interpreted to include live stock on the way to slaughter."

7 Authorizing special trust accounts, etc.

"Deposits heretofore received by any banking institution pursuant to agreement or legislative authority providing for segregation and for repayment without restriction may be paid on demand. Any banking institution which was lawfully engaged in the business of receiving deposits prior to March 6, 1933, may create special trust accounts for the receipt of new deposits which shall be subject to withdrawal on demand without any restriction or limitation and shall be kept separately in cash or on deposit in Federal Reserve Banks or invested in obligations of the United States. Federal Reserve Banks may open special accounts on their books for their member banks and temporarily for non-member banks and may receive in such special accounts the proceeds of new deposits received by such banking institutions. In making deposits with the Federal Reserve Bank pursuant to this regulation the depositing banks shall in the case of each deposit indicate to the Federal Reserve Bank by symbol or otherwise that the funds so deposited represent new deposits made under this regulation. Upon receipt of such deposits such Federal Reserve Bank shall credit the same in the special account of the depositing bank herein provided for and shall hold the same solely for repayment to such bank. Federal Reserve Banks shall permit the withdrawal of any part or all of such new deposits by the depositing bank without restriction, provided that the depositing bank shall in such order or request for withdrawal indicate to the Federal Reserve Bank by symbol or otherwise that such withdrawal is to be made from such special account; provided, however, that no banking institutions shall pay out or permit the withdrawal of any gold or gold certificates."

NOTE: "The permission granted in Regulation number 7 that deposits heretofore received by any banking institution pursuant to agreement or legislative authority providing for segregation and repayment without restriction may be paid on demand, includes any bank in which any such deposits have been redeposited by or on behalf of the receiving bank in accordance with such agreement or legislative authority."

"Comptroller of Currency advises that notwithstanding appointment of Conservator for National Bank under Bank Conservation Act, deposits received by such bank prior to appointment of Conservator in Special Trust Accounts created under the provisions of Regulation number 7 of the Secretary of the Treasury, issued March 6, 1933, may be withdrawn upon demand without restriction or limitation to the full extent of the amount of cash, Federal Reserve Bank balances and proceeds of United States obligations in which such deposits have been kept separate or invested in accordance with the provisions of said Regulation number 7."

8 Authorizing completion of settlements on certain checks.

"Where settlement for checks charged by drawee institutions to the drawers' accounts on its books on or before March 4, 1933, is incomplete, settlement may be completed where such settlement does not involve the payment of money or currency."

9 Authorizing certain deliveries from safekeeping.

"Any banking institution may deliver to the person entitled thereto properly identified documents and securities held by such institution for safekeeping."

10 Authorizing certain activities by National or State banking institutions.

"Any national or state banking institution may exercise its usual banking functions to such extent as its situation shall permit and as shall be absolutely necessary to meet the needs of its community for food, medicine, other necessities of life, for the relief of distress, for the payment of usual salaries and wages, for necessary current expenditures for the purpose of maintaining employment, and for other similar essential purposes; provided, however, that (1) every precaution shall be taken to prevent hoarding or the unnecessary withdrawal of currency; (2) no state banking institution shall engage in any transaction under this regulation which is in violation of state or federal law or of any regulation issued thereunder; (3) no national banking association shall engage in any transaction under this section which is in violation of any federal law or of any order or regulation issued by the Comptroller of the Currency; and (4) no gold or gold certificates shall be paid out. Each banking institution and its directors and officers will be held strictly accountable for faithful compliance with the spirit and purpose as well as the letter of this regulation."

Interpretation No. 2

"Regulation number 10 of March 7, under the President's proclamation of March 6, is held to authorize payments on account of pensions, workmen's compensation, disability insurance, relief and unemployment."

Interpretation No. 5

"Regulation number 10 issued under the President's proclamation is interpreted to authorize payments for fertilizer and for vegetable and agricultural seeds for spring planting, where such payments are absolutely necessary and where the seed and/or fertilizer are for immediate use."

Interpretation No. 7

"Release of funds for purchase of cotton where absolutely necessary to maintain operation is interpreted as 'Necessary current expenditures for the purpose of maintaining employment and for other similar essential purposes' as used in Regulation 10."

Interpretation No. 9

"Regulation number 10 issued under the President's proclamation is interpreted to authorize payments for nursery stock where such payments are absolutely necessary to prevent destruction of stock in transit on March 6, 1933, or prepared for and awaiting shipment on March 6, 1933, under bona fide commitments."

11 Authorizing deposits to secure advances to foreign branches.

"Any bank having branch in a foreign country may deposit collateral in the United States to secure advances to such branch in a foreign country provided such transaction does not involve any transfer of credit from the United States to a foreign country and any bank having branch in an insular possession of United States may deposit United States Government securities or other collateral for a similar purpose when under President's proclamation advances of local currency in the insular possession may lawfully be made."

12 Re-issuance of certificates against sound assets.

"Clearing house associations and other associations organized to provide an adequately secured medium of temporary exchange, are hereby permitted to issue certificates against sound assets of banking institutions, such certificates to be deliverable by each institution to its creditors and depositors on a pro rata basis, provided, however, that no such certificates shall be issued before Friday, March 10, 1933, without the consent of the Secretary of the Treasury addressed to the clearing house or other association proposing to issue such certificates, and further provided that this permission may be revoked in the event that a national plan to meet the existing emergency is proposed by the Secretary of the Treasury if in his opinion the success of such plan would be inconsistent with the operation of the certificate plan."

Interpretation No. 11

"Regulation number 12 is not to be construed as permitting a banking institution, open for normal and usual functions under license of the Secretary of the Treasury, to require depositors to accept clearing house certificates or other evidences of claims against assets for all or any part of any withdrawal requested."

13 Authorizing continuance trust activities.

"Any banking institution lawfully engaged in the business of acting as trustee, executor, administrator, registrar of stocks and bonds, transfer agent, guardian of estates, assignee, receiver, committee of estates of lunatics, or in any other fiduciary capacity may continue to transact such business in the normal and usual manner; provided that in the conduct of said business, except as may be permitted by other regulations of the Secretary of the Treasury, such banking institutions shall not pay out or permit the withdrawal of coin or currency nor withdraw any trust or fiduciary funds on deposit with any other department of the bank."

14 Authorizing continuance Fiscal Agency Operations Federal Reserve Banks.

P. D. transactions."

15 Re-deposit of segregated funds.

"The permission granted in Regulation number 7 that deposits heretofore received by any banking institution pursuant to agreement or legislative authority providing for segregation and repayment without restriction may be paid on demand, includes any bank in which any such deposits have been redeposited by or on behalf of the receiving bank in accordance with such agreement or legislative authority."

16 Payment for March 6 Treasury Bills.

OMITTED.

17 Authority to pay checks issued prior to March 6, 1933, with owner's consent.

"Any banking institution may, when the owners consent thereto, pay checks issued prior to March 6, 1933, and received in due course of business by the drawee banking institution, by charging the amounts thereof to the accounts of the drawers and crediting such amounts to the accounts of such owners on the books of the drawee banking institution."

18 Authorizing banking institutions to subscribe and pay for any U. S. Government obligations.

"All banking institutions are hereby authorized to subscribe and pay for any United States Government obligations which may be offered for subscription and sale by the Secretary of the Treasury. Federal Reserve Banks may carry on such functions as may be necessary to facilitate such transactions as are authorized by this regulation. All Federal Reserve Banks are authorized to redeem matured obligations of the United States and to cash matured coupons provided no gold or gold certificates shall be paid out."

19 Permitting substitution for or release of collateral except as otherwise prohibited by law.

"Except as otherwise prohibited by law, banking institutions may exercise their normal and usual functions in permitting substitution for or release of collateral held by them provided other collateral or cash of equal or greater value is received in exchange therefor."

20 Permitting Federal Reserve Banks and Branches to open March 13, 1933.

OMITTED.

21 Resumption of usual and normal functions March 13, 1933, by banking institutions not members of Federal Reserve System or under State supervision.

"Banking institutions which are not members of the Federal Reserve System or organized under the laws of the United States and which are not under the immediate supervision of any state authority may, on and after March 13, 1933, carry on their normal and usual functions except as otherwise prohibited and except that no such institution shall pay out any gold coin, gold bullion or gold certificates, unless authorized by the Secretary of the Treasury, nor allow withdrawals of any currency for hoarding, nor engage in any transactions in foreign exchange except such as may be undertaken for legitimate and normal business requirements, for reasonable traveling and other personal requirements and for fulfillment of contracts entered into prior to March 6, 1933."

22 Resumption of usual and normal functions March 13, 1933, by Federal Land Banks; Federal Intermediate Credit Banks; Federal Home Loan Banks, corporations organized under Section 25 (A) of Federal Reserve Act., R.A.C.C. and R.F.C.
OMITTED.

23 Withdrawal of currency for purpose of hoarding.

"No banking institution shall permit any withdrawal by any person when such institution acting in good faith shall deem that the withdrawal is intended for hoarding. Any banking institution before permitting the withdrawal of large or unusual amounts of currency may require from the person requesting such withdrawal, a full statement under oath of the purpose for which the currency is requested."

NOTE: "The first duty of the banks reopening under license of the Secretary of the Treasury for the performance of their usual functions is to see that the primary needs of the people for funds for the necessities of life and for normal business undertakings are met. Accordingly, withdrawals for hoarding have been prohibited. The Secretary of the Treasury suggests that until more normal conditions have been established transfers of funds by banks or their customers be limited to necessary purposes."

24 Authority to cash official drafts drawn upon the Secretary of State.

"All banking institutions may cash official drafts drawn upon the Secretary of State for payment of salaries, traveling and other contingent expenses but not for personal account, and remit the amounts thereof to the banks from which the drafts are received, provided that no gold or gold certificates shall be paid out."

25 Delivery of gold required for legitimate and customary uses in trade, profession or art.

"Pending the determination by the Treasury Department of a suitable procedure for licensing the delivery of gold for use in trade, profession or art, Federal Reserve Banks are hereby authorized to deliver, upon request therefor, gold in amounts deemed by such bank to be reasonably required for legitimate and customary uses in trade, profession or art, provided such request is accompanied by affidavit of the person requesting such gold, stating the amount of unmanufactured gold on hand and the facts making it necessary to obtain such gold for the purpose of maintaining employment. All banks licensed to open for usual and normal functions are permitted to carry out any transaction necessary to complete the delivery of any gold authorized by any Federal Reserve Bank to be delivered in accordance with such request." Released to press as regulation 25. Secretary has also issued public statement directing that requests for delivery of gold for use in trade, profession or art to be submitted to Federal Reserve Bank of the district, accompanied by affidavit referred to in regulation, and stating that accurate records must be kept of disposition of all gold which may be released.

26 Issuance of drafts transferring credits within the U. S., and to foreign countries for domestic and foreign patent, trademark and design application fees, etc.

"All banking institutions may issue drafts transferring credits from any place in the United States to any other place in the United States and from any place in the United States to any place in a foreign country in connection with payments for domestic and foreign patent, trademark and design application fees, and in payment for domestic and foreign patent and trademark taxes and renewals. No gold or gold certificates shall be paid out, withdrawn or exported under this regulation."

"Regulation No. 12 is not to be construed as permitting a banking institution, open for normal and usual functions under license of the Secretary of the Treasury, to require depositors to accept clearing house certificates or other evidences of claims against assets for all or any part of any withdrawal requested." Designated as interpretation 11.

'No regulations have been issued restricting export or other transactions in silver, except for limitations affecting withdrawal by depositors for hoarding and restrictions on banks not permitted to reopen'."

"Comptroller of Currency advises that notwithstanding appointment of Conservator for National Bank under Bank Conservation Act, deposits received by such bank prior to appointment of Conservator in Special Trust Accounts created under the provisions of Regulation No. 7 of the Secretary of the Treasury, issued March 6, 1933, may be withdrawn upon demand without restriction or limitation to the full extent of the amount of cash, Federal Reserve Bank balances and proceeds of United States obligations in which such deposits have been kept separate or invested in accordance with the provisions of said Regulation No. 7."

"The permission granted in regulation number 7 that deposits heretofore received by any banking institution pursuant to agreement or legislative authority providing for segregation and repayment without restriction may be paid on demand, includes any bank in which any such deposits have been redeposited by or on behalf of the receiving bank in accordance with such agreement or legislative authority."

"Banking institutions which are not members of the Federal Reserve System or organized under the laws of the United States and which are not under the immediate supervision of any State authority may, on and after March 13, 1933, carry on their normal and usual functions except as otherwise prohibited and except that no such institution shall pay out any gold coin, gold bullion or gold certificates, unless authorized by the Secretary of the Treasury, nor allow withdrawals of any currency for hoarding, nor engage in any transactions in foreign exchange except such as may be undertaken for legitimate and normal business requirements, for reasonable traveling and other personal requirements and for fulfillment of contracts entered into prior to March 6, 1933."

To the Bank Addressed:

Supplementing our circulars of March 6, 7, 8, 9, 10, 11, 13 and 14, 1933, there are quoted below for your information, certain additional regulations issued by the Secretary of the Treasury under authority conferred upon him by proclamation of the President of the United States declaring bank holiday:

"Responding to inquiries today as to what facilities are available for enabling state banks which are not members of the Federal Reserve System to obtain currency to meet their needs, Secretary of the Treasury Woodin called attention to the statement of the President, in his radio talk on March 12, that these banks can and will receive assistance from member banks and from the Reconstruction Finance Corporation. The Secretary pointed out that Federal Reserve Banks are authorized to make advances to individuals, partnerships and corporations, on their promissory notes, for periods not exceeding 90 days, secured by direct obligations of the United States, and non-member banks may avail themselves of this privilege. The Federal Reserve Banks also are authorized, he stated, to rediscount for member banks, with their endorsement, eligible and acceptable paper acquired from and bearing the signature or endorsement of non-member banks; and to make advances to member banks secured by other paper acquired from non-member banks.

The Secretary said that he understands that it is the purpose and desire of the Reconstruction Finance Corporation and the Federal Reserve Banks to be as helpful as possible in meeting the needs of the present situation."

"In response to many inquiries as to the significance of the appointment of conservators to banks of high repute I wish to say that there is no deduction to be made that such banks are necessarily in difficulties. There are a lot of complications, some of them concerning affiliate enterprises which make it impractical for banks to open to the full extent. It is for the purpose of insuring that the banks will be put in apple-pie order, pending reorganization or other necessary processes that conservators in many cases are named.

Moreover, this method makes it possible that the bank so circumstanced will be able to continue to render service, as for example, the receiving of deposits to be segregated and kept in cash or invested in Government bonds and such like securities. It also enables the conservator to set aside and make available for withdrawal by depositors payment to other creditors on a ratable basis such amounts as in his opinion it is safe to use for this purpose."

"The term mortgage loan companies as used in interpretation No. 3, is interpreted to include all corporations whose principal business consists of the investment in, sale and purchase of real estate mortgages and mortgage certificates guaranteed by such corporations." Designated as interpretation 10.

"Passing upon applications of member banks to reopen for normal banking functions has taxed the personnel of the Treasury and of the Office of the Comptroller of the Currency. While every possible effort has been made to act upon all applications, delay in some cases has been found to be inevitable, in some cases, also, steps are being taken which as soon as completed will make it possible for reopening to be licensed. I, therefore, wish to direct especial attention to the statement of the President in his radio address of last Sunday: 'Let me make it clear to you that if your bank does not open the first day you are by no means justified in believing that it will not open. A bank that opens on one of the subsequent days is in exactly the same status as the bank that opens tomorrow.'

Additional licenses will be issued from time to time and the public should understand that banks hereafter licensed to be opened for normal functions are to be regarded in same way as if it had been possible to issue the license by today."

**FEDERAL RESERVE BANK
OF DALLAS**

470.01(11)

Dallas, Texas, March 14, 1933.

To the Bank Addressed:

Supplementing our circulars of March 6, 7, 8, 9, 10, 11 and 13, 1933, there are quoted below for your information, certain additional regulations issued by the Secretary of the Treasury under authority conferred upon him by proclamation of the President of the United States declaring bank holiday:

"Banking institutions which have not yet been permitted to reopen for normal and usual functions are still permitted to continue to carry on the limited activities specified by regulations 1 to 19."

"Pending the determination by the Treasury Department of a suitable procedure for licensing the delivery of gold for use in trade, profession or art, Federal Reserve Banks are hereby authorized to deliver, upon request therefor, gold in amounts deemed by such bank to be reasonably required for legitimate and customary uses in trade, profession or art, provided such request is accompanied by affidavit of the person requesting such gold, stating the amount of unmanufactured gold on hand and the facts making it necessary to obtain such gold for the purpose of maintaining employment. All banks licensed to open for usual and normal functions are permitted to carry out any transaction necessary to complete the delivery of any gold authorized by any Federal Reserve Bank to be delivered in accordance with such request." Released to press as regulation 25. Secretary has also issued public statement directing that requests for delivery of gold for use in trade, profession or art to be submitted to Federal Reserve Bank of the district, accompanied by affidavit referred to in regulation, and stating that accurate records must be kept of disposition of all gold which may be released."

"All banking institutions may issue drafts transferring credits from any place in the United States to any other place in the United States and from any place in the United States to any place in a foreign country in connection with payments for domestic and foreign patent, trademark and design application fees, and in payment for domestic and foreign patent and trademark taxes and renewals. No gold or gold certificates shall be paid out, withdrawn or exported under this regulation." Released to press as Regulation 26.

"Regulation No. 10 issued under the President's proclamation is interpreted to authorize payments for nursery stock where such payments are absolutely necessary to prevent destruction of stock in transit on March 6, 1933, or prepared for and awaiting shipment on March 6, 1933, under bona fide commitments." Designated Interpretation 9.

Yours very truly,

Governor.

Dallas, Texas, March 13, 1933.

To the Bank Addressed:

Supplementing our circulars of March 6, 7, 8, 9, 10 and 11, 1933, there are quoted below for your information, certain additional regulations issued by the Secretary of the Treasury under authority conferred upon him by proclamation of the President of the United States declaring bank holiday:

"Except as otherwise prohibited by law, banking institutions may exercise their normal and usual functions in permitting substitution for or release of collateral held by them provided other collateral or cash of equal or greater value is received in exchange therefor." Released to the press as Regulation 19.

"The first duty of the banks reopening under license of the Secretary of the Treasury for the performance of their usual functions is to see that the primary needs of the people for funds for the necessities of life and for normal business undertakings are met. Accordingly, withdrawals for hoarding have been prohibited. The Secretary of the Treasury suggests that until more normal conditions have been established transfers of funds by banks or their customers be limited to necessary purposes."

"All banking institutions may cash official drafts drawn upon the Secretary of State for payment of salaries, traveling and other contingent expenses but not for personal account, and remit the amounts thereof to the banks from which the drafts are received, provided that no gold or gold certificates shall be paid out." Released to press as regulation 24.

"No Banking institution shall permit any withdrawal by any person when such institution acting in good faith shall deem that the withdrawal is intended for hoarding. Any banking institution before permitting the withdrawal of large or unusual amounts of currency may require from the person requesting such withdrawal, a full statement under oath of the purpose for which the currency is requested." Released to press as regulation 23.

Dallas, Texas, March 10, 1933.

To the Bank Addressed:

Following statement by the Secretary of the Treasury released to the press this afternoon:

"Under the terms of the act of March 9, 1933, immediate action has been taken by the President and the Secretary of the Treasury which will make possible the resumption of banking operations in substantial volume at a very early date. Pending such resumption the vital needs of communities must be met. Attention of all banking institutions is called to Regulation 10, which is still in force and which as amended provides for co-operation between banks in different communities and reads as follows: 'Any National or State banking institution may exercise its usual banking functions to such extent as its situation shall permit and as shall be absolutely necessary to meet the needs of its community for food, medicine, other necessity of life, for the relief of distress, for the payment of usual salaries and wages, for necessary current expenditures for the purpose of maintaining employment, and for other similar essential purposes. Banking institutions may carry out such transactions as may be necessary to aid banking institutions in other communities to meet the necessities set forth above. Provided, however, that (1) every precaution shall be taken to prevent hoarding or the unnecessary withdrawal of currency; (2) no State banking institution shall engage in any transaction under this regulation which is in violation of State or Federal law or of any regulation issued thereunder; (3) no National banking association shall engage in any transaction under this section which is in violation of any Federal law or of any order or regulation issued by the Comptroller of the Currency; and (4) no gold or gold certificates shall be paid out. Each banking institution and its directors and officers will be held strictly accountable for faithful compliance with the spirit and purpose as well as the letter of this regulation. Federal Reserve Banks may carry on such functions as may be necessary to facilitate transactions authorized by this regulation.

"In order to enable member banks of the Federal Reserve System to meet the needs of their respective communities to the extent authorized by this regulation Federal Reserve Banks may make advances to such member banks under the conditions set forth in section 10 (B) of the Federal Reserve Act as amended by the Act of March 9, 1933, and in accordance with authority granted by the Federal Reserve Board.

"In addition, in order to enable individuals, partnerships and corporations to meet their immediate payroll requirements, Federal Reserve Banks may make temporary advances to such individuals, partnerships and corporations on their Promissory Notes secured by direct obligations of the United States in accordance with authority granted by the Federal Reserve Board."

To the Bank Addressed:

The following executive order signed by President of the United States this afternoon:

"By virtue of the authority vested in me by Section 5 (b) of the act of October 6, 1917 (40 Stat. L 411), as amended by the act of March 9, 1933, and by Section 4 of the said act of March 9, 1933, and by virtue of all other authority vested in me, I hereby issue the following executive order:

"The Secretary of the Treasury is authorized and empowered under such regulations as he may prescribe to permit any member bank of the Federal Reserve system and any other banking institution organized under the laws of the United States, to perform any or all of their usual banking functions, except as otherwise prohibited.

"The appropriate authority having immediate supervision of banking institutions in each state or any place subject to the jurisdiction of the United States is authorized and empowered under such regulations as such authority may prescribe to permit any banking institution in such state or place, other than banking institutions covered by the foregoing paragraph to perform any or all of their usual banking functions, except otherwise prohibited.

"All banks which are members of the Federal Reserve System desiring to reopen for the performance of all usual and normal banking functions except as otherwise prohibited shall apply for a license therefor to the Secretary of the Treasury. Such application shall be filed immediately through the Federal Reserve Banks. The Federal Reserve Bank shall then transmit such applications to the Secretary of the Treasury. Licenses will be issued by the Federal Reserve Bank upon approval of the Secretary of the Treasury. The Federal Reserve Banks are hereby designated as agents of the Secretary of the Treasury for the receiving of applications and the issuance of licenses in his behalf and upon his instructions.

"Until further order, no individual, partnership, association or corporation, including any banking institution, shall export or otherwise remove or permit to be withdrawn from the United States or any place subject to the jurisdiction thereof, any gold coin, gold bullion, or gold certificates, except in accordance with regulations prescribed by or under license issued by the Secretary of the Treasury.

"No permission to any banking institution to perform any banking functions shall authorize such institution to pay out any gold coin, gold bullion or gold certificates except as authorized by the Secretary of the Treasury, nor to allow withdrawal of any currency for hoarding, nor to engage in any transaction in foreign exchange except such as may be undertaken for legitimate and normal business requirements, for reasonable traveling and other personal requirements, and for the fulfillment of contracts entered into prior to March 6, 1933.

"Every Federal Reserve Bank is authorized and instructed to keep itself currently informed as to transactions in foreign exchange entered into or consummated within its district and shall report to the Secretary of the Treasury all transactions in foreign exchange which are prohibited.

March 9, 1933

To the Bank Addressed:

Secretary of Treasury has issued the following press release:

"The President has today urged the immediate enactment of legislation dealing with the existing banking situation. It appears that prompt action will make banking facilities and an adequate supply of currency available. Notwithstanding the expected early opening of banks, the Secretary of the Treasury interposes no objection to the issuance of Clearing House certificates or other evidences of claims against assets of banking institutions, in communities where local conditions made such action necessary. The regulation issued by the Secretary March 7, 1933 remains effective, granting permission to Clearing House Associations and other associations organized to provide an adequately secured medium of temporary exchange to issue certificates against sound assets of banking institutions, such certificates to be deliverable by each institution to its creditors and depositors on a pro rata basis."

"In order to effectively carry out provision of new law, holiday extended over tomorrow. Proclamation later tonight."

Yours very truly,
