## INSTRUCTIONS TO STENOGRAPHERS

### LETTERS

#### 1. Letterheads

Three types of letterheads are used for correspondence, as follows:

BANK LETTERHEAD - For use in connection with bank operations and other general correspondence. This letterhead should be used for "Fiscal" activities for which no special Fiscal letterhead is provided.

BRANCH LETTERHEAD - All routine letters to branches should be written on branch letterhead, Form LH-1 or LH-1A. (Credit reports should be written on Form CR 1 as outlined on page 4.)

FISCAL LETTERHEAD - Two styles of Fiscal letterhead are used; i. e., Fiscal Agent of the United States and Fiscal Agent of the Reconstruction Finance Corporation.

If the stenographer is uncertain as to the type of letterhead to be used, the dictator should be consulted.

TISSUE COPIES - Tissue copies corresponding to the Bank, Fiscal Agent of the Reconstruction Finance Corporation and Branch letterheads, are provided for forwarding copies of letters to other than the addressee. The Branch letterhead tissues are Forms LH-1B and LH-1C.

#### 2. Salutation and Closing

The salutation "Dear Sir" or "Dear Sirs" and the complimentary closing "Yours very truly" should be used, with the exception of letters to the Board of Governors of the Federal Reserve System or officials of the Treasury Department, in which case "Sir" or "Sirs" and "Yours respectfully" should be used. (This does not apply to letters to be signed by executive officers, which should bear the salutation "Dear Sirs" and the closing "Yours very truly".)

Letters addressed to the Board should be in the following form:

Board of Governors of the  
Federal Reserve System,  
Washington, D. C.

Punctuation marks should be used in all addresses.

Letters to branches on Form LH-1 or LH-1A should bear no salutation or complimentary closing. The title of the person who is to sign the letter should be typed a sufficient number of spaces below the end of the letter.

Letters written to branches on Form LH-1 or LH-1A should not be marked for the attention of any particular individual, but addressed to the branch only.

INSTRUCTIONS TO STENOGRAPHERS

LETTERS (Cont'd)

3. Date

The date on Bank and Fiscal Agent letterheads should be placed in the center of the page, just below the printed heading. A space is provided for the date on the branch letterhead. The month should not be abbreviated.

Branch letterheads have printed "Subject" and "Reference" captions. The "Subject" may be omitted from brief or routine letters.

4. Identical Letters Addressed to All Branches

Letters directed to more than two branches, where there is no change in the text, should be hectographed.

5. Initials of Dictator and Stenographer

The initials of the dictator and the stenographer should appear in the lower left corner of carbon copies only (not tissue copies) of all letters. This may be accomplished by inserting a small slip of paper over the space on the letterhead or tissue copy where the initials would otherwise appear.

6. Spacing

It is preferable that letters be single spaced.

7. Enclosures

Where enclosures should accompany letters, the words "Enclosure" or "Enclosures" should be typed in the lower left corner of the letters.

8. Air Mail

Letters to be sent air mail should have "AIR MAIL" typed in the upper right corner, one and one-half inches from the top.

9. Registered Mail

Letters to be sent registered mail should have "REGISTERED MAIL" typed two spaces above the address.

10. Envelopes

Envelopes need be addressed and attached only to letters directed to commercial banks in other Federal Reserve districts and to individuals, corporations, etc.; other letters are enclosed by the Mail and Messenger Department in envelopes prepared in advance. Envelopes should also be addressed for routine advices directed to individuals and corporations.

INSTRUCTIONS TO STENOGRAPHERS

TELEGRAMS

1. Telegram Forms

Two forms of telegraph blanks are used, as follows:

- Mis. 16 - for all open messages;
- Mis. 15 - for coded messages.

Extra copies of fiscal agency reimbursable leased wire telegrams should be made on Form Mis. 16E.

Inasmuch as those departments coding messages are familiar with the preparation thereof, stenographers should consult with the originator of the message in case of doubt as to the method of preparation.

2. Addressing Telegrams

Interdistrict telegrams over system wires should bear the name of the office only as addressee, i.e., "Dallas", "Houston", except those between officials which should be addressed personally.

Intra-district telegrams over branch wires should bear the name of the branch only as addressee.

Telegrams to the Board should be addressed "Board, Washington" and telegrams to officials of the Treasury Department or the Board should be addressed to the official, using the surname only, followed by the word "Washington".

All system wires on Reconstruction Finance Corporation business, sent to the Corporation at Washington, should be addressed to the corporation, or to an individual, without indicating such individual's title.

For example - "Reconstruction Finance Corporation, Washington." or "Mulligan, Washington?"

All system wires on Corporation business, sent to other loan agencies of this District, should be addressed to the Manager or Acting Manager of the agency, followed by the letters "R.F.C."

The address on a commercial telegram should be complete, for example: "Federal Reserve Bank of Chicago, Chicago, Illinois."

3. Identical Telegrams Addressed to Two or More Branches

Identical telegrams directed to two or more branches should be prepared on one set of telegraph blank forms, and the names of the branches to which the message is directed should be listed, in alphabetical order, in the space provided for the name of the addressee.

4. Text of Telegrams

All messages should be as short as possible and all words not necessary for clarity, such as "the," and "of," should be omitted.

INSTRUCTIONS TO STENOGRAPHERS

TELEGRAMS (Cont'd)

It is preferable that the subject matter be double spaced.

Telegrams should be free from erasure or interlineation of any nature.

Use punctuation marks in all groups of figures representing amounts; otherwise only when it is desired that punctuation marks be transmitted. Do not use words "stop", "period", "quote", etc.

Whenever numerals are used in a telegram which is to be sent over the system wires, designate by figures rather than by words.

Figures rather than words should be used in commercial wires, except in instances where the message is of a confidential nature and code is used.

5. Name of Dictator

The name of the dictator should be shown in the lower left corner on the original and all copies of messages.

Discount and Credit Department Stenographers Only

CREDIT REPORTS

Form CR 1 (Credit Reports) should be used in lieu of the usual branch letterheads (Forms LH-1 or LH-1A) in those instances when correspondence with branches contains only credit information relating to a specific account or borrower.

The name of the city in which the branch addressed is situated should be inserted immediately following "MAIL TO" and the form should be dated in the space provided. The "Name of the Individual, Partnership, or Corporation" whose account is referred to in the context should be entered over that caption and the name and address of the bank interested in the paper for discount, collateral or as an industrial loan should be entered over the caption "Name of Bank or Financing Institution". The amount of the note should be shown in the space provided.

Letters prepared on this form should bear no salutation or complimentary closing and the title of the officer who is to sign should be typed as the titles have not been printed on the form.

The carbon copy to be retained in our file should be made on Form CR 1.

NOTE: Further instructions covering the preparation and handling of correspondence and telegrams, including signatures on outgoing telegrams, designating class of commercial telegrams, Pronto telegrams, and word count of both system wires and commercial wires and the use of confirmations, are contained in the Manual of Miscellaneous Instructions, and the Transfer and Telegraph Manual, Subject Caption "Preparation of Telegrams".

HEAD OFFICE

Revised November 18, 1940

SUBJECT: Working Hours, Attendance, and Punctuality

Working Hours

The regular starting time for the bank's work is 8:30 a. m., except where other hours are designated to suit the convenience of the department, in which cases employees will be notified.

Employees are expected to take one hour for luncheon between 11:00 a. m. and 2:00 p. m. on week days and a 30-minute luncheon period after 11:00 a. m. on Saturdays.

Lunch periods are set to suit the convenience of the various departments and activities, and employees will be assigned their lunch periods by their department heads.

No employee shall work more than 40 hours in any work week unless specifically authorized by an officer of the bank. Employees required to work after 7:00 p. m. on any day will be given a supper money allowance of \$1.00, except when overtime is paid, in which case a payment will be made for the accumulated supper money allowance or the earned overtime, whichever is greater.

Employees finding it necessary to return to the bank after 6:00 p. m. are required to obtain passes for presentation to the guard at the Sacramento Street door, in order to gain admission to the building. These passes may be signed by any officer, the Chief Examiner, or the Chief of the Division of Research. Requests for passes should be made as soon as it is definitely known that late work is necessary. Admittance to the building will be through the Sacramento Street entrance.

Attendance

Whenever absence is necessary, the Chief Clerk's Office should be notified as soon as possible by telephone, or by other means if a telephone is not available, and the reason for absence given in full. The head of the department concerned will be notified by the Chief Clerk's Office.

Punctuality

Employees should register the time they arrive in the morning, the time they leave for and return from luncheon (including Saturdays), the time they leave in the evening, and the time of arrival and departure if required to return for night work. When arriving, the time should be recorded after going to the locker room while en route to the department for work. When leaving the time should be recorded while en route from the department to the locker room.

The time recordings of employees should reflect only actual working hours, and should exclude such time as that spent on the premises in connection with club activities or for the employees' own convenience.

Revised November 18, 1940

- 2 -

The following are general instructions for operating the time recorders:

1. Time cards for each employee will be placed in the racks in alphabetical arrangement.
2. Cards should be placed in the "In" racks when employees are on duty and in the "Out" racks when off duty.
3. In recording time, the card should be placed in the receiver of the time recorder, with the name of the employee at the top, and the face of the card (side on which the time is to be recorded) turned away from the employee.
4. The pointer over the glass on the "In" and "Out" indicator of the time recorder should point to the proper space before the lever is pressed down.
5. If a mistake is made in recording time, such as a record in the wrong space or on the wrong card, the department head or the Chief Clerk's Office should be consulted. Employees should not make changes, erasures, or corrections on any card.
6. Each employee must record his own time only. No employee is authorized to register the time of another.
7. Employees tardy for reasons beyond their control, or for reasons considered excusable, may present their time cards to their department heads for initial. Under such circumstances, the records will show the tardiness as excusable.
8. Whenever it is necessary for an employee to leave the bank on personal business during working hours, the time of leaving and the time of return should be recorded in the "Night" spaces of the regular time cards.

Employees whose regular duties take them in and out of the bank during business hours need not record the time of leaving or returning.

Each department head will be expected to observe the punctuality of members of his department and to keep posted on the punctuality records as shown by the current time cards.

SUBJECT: Smoking in the Banking Quarters

Excepting in the rest rooms and on the sun porch off the third floor, smoking is not permitted in the office between the hours of 8:30 A.M. and 4:00 P. M. On Saturday, smoking is not permitted between the hours of 8:30 A.M. and 12:30 P.M.

Because of the fire risk involved, smoking is prohibited at all times in any part of the pent house, and in the paper-sorting room.

In the interest of safety, cleanliness, and neatness, the cooperation of the members of the staff is requested to the end that matches, cigarette stubs, and cigar stubs will be placed in the receptacles provided for that purpose, instead of being thrown on the floor.

HEAD OFFICE

December 23, 1941

Subject: Use of Telephones

In all telephone conversations, speak quietly in a pleasant conversational voice directly into the transmitter, bearing in mind that both favorable and unfavorable opinions are often formed from such conversations.

Telephone calls through the bank's exchange and intercommunicating telephone calls should be answered promptly. The person answering should preface his name with the name of his department, for example: "Transit Department, 'Roe' speaking". This will result in a saving of time by the elimination of unnecessary conversation and by ready identification of the person answering the call.

If the information requested cannot be given immediately, the inquirer must not be kept waiting. Inform the inquirer he will be called as soon as the information is obtained. Do not fail to call as promised, giving the information, or explaining why it cannot be obtained.

Inter-Department Telephone Calls

The intercommunicating telephone should be used in all cases for calls within the bank.

If a telephone is out of order or needs repairs, notify the Chief Engineer.

Local Outside Telephone Calls

In placing a local outside call, when the receiver is lifted from the hook our bank operator will make a connection with one of the trunk lines of the Telephone Company. When a humming or buzzing sound is heard, indicating that the connection has been made, "dial" the number desired.

Long-Distance Telephone Calls

Place all long-distance telephone calls through the bank's operator. It is necessary to attract the attention of the bank's operator so that she will not treat the call as local. This should be done by moving the receiver hook slowly up and down. Inform the bank's operator of the name, telephone number, and city desired, the extension number of the person placing the call, and, if it be a business call, to what expense unit the call is chargeable; then hold the line until the connection has been completed. If there will be a delay in completing the connection, our operator will inform the caller and request him to hang up until the connection is made.

Whenever it is necessary to place a long-distance call between the hours of 5:05 P.M. and 8:15 A.M., week days, or after 1:30 P.M. Saturdays, fill out and sign Form Mis. M-4 (long distance telephone memorandum). If the call is on bank business, show the name of the person called, the telephone number

December 23, 1941.

Long-Distance Telephone Calls (Cont'd)

and city, and the expense unit to which it is chargeable. Form Mis. M-4 should be approved by a department head or an officer and sent promptly to the bank's telephone operator. If the call is personal, show the telephone number and city called, indicate that the call is "personal", sign the memorandum, and send it to the bank's telephone operator.

It is important that Form Mis. M-4 be filled out for both bank and personal calls, as failure to do so causes considerable unnecessary work in checking telephone charges.

Personal Telephone Calls

Under present conditions our telephone facilities are overburdened, which delays important rush business. Accordingly, employees are requested not to use the bank telephones for personal messages during the present emergency.

Public Pay Station in Rear Lobby

While telephoning on personal affairs should be avoided during business hours in so far as possible, employees may use the public telephone at the rear entrance lobby when necessary.

That instrument will require the payment of toll at the time of making the call. It is not connected with our switch board, and, being a public telephone, the number is not listed in the telephone directory.

Employees should not arrange to have incoming calls placed over the public telephone line.

Transferring Telephone Calls

When a telephone call is received which should have been directed to another department, the employee receiving the call should communicate by intercommunicating telephone with the person (or department) for whom the call is intended, who in turn should request the telephone operator to transfer the call to his telephone.

SUBJECT: Use of Office Supplies

Conservation of Supplies

Economical habits in the use of supplies purchased by the bank have always been desirable. Under present conditions, careful use, to avoid waste, is essential. Some items, such as rubber bands, can no longer be purchased. Items such as lead seals, pins, clips, carbon paper, and rubber stamps, are becoming increasingly difficult to obtain, and may also be impossible to purchase in the future.

Consequently, each employee is requested to retain for further use, wherever possible, pins, clips, rubber bands, and other items which may be reused. Carbon paper should not be discarded until its usefulness as a duplicating medium is no longer satisfactory. Care should be exercised in using proper sizes of carbon paper for the material being typed. As soon as string tying machines, which have been ordered, are received, all packages leaving the bank should be tied with string, instead of rubber bands, to conserve our limited supply of the latter.

Pencil lengtheners are available through the supply department to permit the continued use of pencil stubs. Erasers should be conserved as much as possible.

Disposition of Waste

Receptacles have been placed on all floors in which all carbon paper unfit for further use, and all shavings from pencil sharpeners, must be deposited, instead of being deposited in the ordinary waste-paper baskets.

All ordinary waste paper to be disposed of must be thoroughly torn (not merely crumpled up) and deposited in the regular waste-paper baskets.

The use of waste baskets should be confined to the disposition of clean waste paper. Each day's accumulation of waste paper is hand sorted, to discover material placed therein in error, and the cooperation of employees is requested to the end that the work of sorting such paper will not be too difficult and unsanitary.

SUBJECT: Medical Service

Dr. John H. Mansfeldt is retained by the Bank as its official physician. His office is located on the third floor, and office hours are from 8:45 A.M. to 10:45 A.M. daily, except Saturday.

All new employees entering the service of the Bank will be required to be examined by the Bank's physician before being placed permanently on the staff, and all employees will be re-examined annually.

Members of the staff desiring to consult with the doctor may do so during the doctor's Bank office hours, at the expense of the Bank. Special services other than those which can be rendered on the Bank's premises will be at the employees' expense, unless otherwise specifically arranged by the Bank.

This medical service is being maintained to assure the employees of this Bank that they will not be exposed unnecessarily to contagious diseases, to avoid having employees at work who should be at home under proper care, to avoid undue alarm among employees as to their physical condition, and to avoid having employees absent unnecessarily from their duties.

Employees who participate in athletic activities representing the Bank or the Bank Club do so at their own risk, and, since such participation is entirely voluntary on the part of employees, neither the Bank nor the Club has any liability in case of an accident. Nevertheless, in the event of an accident resulting in an injury to an employee, the Bank is willing to meet the expense of first-aid treatment and to permit consultation with the Bank doctor, without charge, to a reasonable extent. All other medical expense must be borne by the employee.

Members of the staff should notify the Chief Clerk's Department promptly of any change in their address or telephone number.

Reporting Injuries

Complete information concerning any injury received by an employee on the Bank's premises, or while serving the Bank, should be reported to the Chief Clerk's Department as soon as possible after the injury occurs, so that report may be made as required for Workmen's Compensation Insurance, and, if necessary, arrangements made for an appointment with the insurance company's physician.

SUBJECT: Approval of Articles for Print

Occasionally, members of the staff are asked to write articles for magazines, papers, or booklets, such as the A. I. B. paper, and the Federal Reserve Bank of San Francisco is heartily in favor of the active participation by the staff in such endeavor.

Usually, when articles appear which have been written by a member of our staff, the name of this bank also appears in association with the author's name. In such case it might quite innocently and unintentionally happen that something would be written which would prove embarrassing to the bank. To avoid the possibility of this, and the consequent embarrassment to the author, each proposed article should be submitted for review before publication. Accordingly, each member of the staff, with the exception of Executive Officers, in preparing an article for print, should submit it to the Cashier for review.

It should be understood that the above applies only in case the name of the bank is to appear with the article, and does not apply if members of the staff sign their names to the article without associating the bank's name.

SUBJECT: Solicitation of Funds from Staff

No solicitation of funds from members of the staff or subscription lists for any purpose are to be circulated among the bank's employees, unless the express permission of the officer in charge of personnel of the bank is first obtained.

The purpose of this rule is to protect the staff from the indiscriminate circulation of subscription lists of all kinds, including participation in public "drives" and campaigns for funds.

The custom of presenting gifts as tokens of regard to individuals who are leaving the bank's service or who are being married is a pleasant and in many respects a commendable one. However, in an organization as large as the Federal Reserve Bank of San Francisco this practice cannot be allowed to become general without being a burden upon many of the staff. It may happen that a member of the staff is requested to contribute towards the purchase of such a gift, the recipient of which is known to him or her only very slightly, if at all. Nevertheless, from the very nature of the solicitation, it is embarrassing to many to decline to participate.

Therefore, any employee desiring to solicit funds from members of the staff should seek permission from the Personnel Officer.

Nothing in this bulletin is to be interpreted as interfering in any manner with the actions of any small group of individuals who voluntarily meet for the purpose of entertaining or giving a present to a mutual friend, provided affairs of this kind are arranged outside working hours.

SUBJECT: Legal Opinions

Requests for legal opinions are to be submitted to our Counsel by an officer of the bank.

Only questions of importance should be submitted.

Problems of a routine character, bearing on interpretations of the Federal Reserve Act, Regulations of the Board of Governors of the Federal Reserve System, technicalities of chattel mortgages, negotiability of promissory notes, etc., have been covered for the most part by rulings and decisions which may be found in the Federal Reserve Bulletins, text books in the Library, or reference files of the bank. These decisions and opinions are more or less familiar to the experienced men of the bank, and an inquiry of, or discussion with, them will frequently eliminate the necessity for imposing upon our Counsel, whose time is fully occupied with very important questions.

SUBJECT: Confidential Nature of the Work of the Federal Reserve Bank of San Francisco

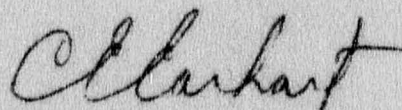

Because of the confidential nature of the work of the Federal Reserve Banks, it is necessary that members of the staff exercise great care not to divulge information to those not entitled to receive it.

Employees should exercise particular care in avoiding discussions pertaining to banks and their affiliated companies, which might be construed as based upon some extraordinary knowledge of the condition or affairs of such banks and companies associated therewith. The purchase or sale of shares of stock or debentures of a bank or affiliated company might be construed as an act influenced by favorable or unfavorable knowledge acquired as an employee of the Federal Reserve Bank. Such transactions should therefore be avoided.

The confidential nature of the work of the bank is so important that the following resolution has been adopted by the Board of Directors of the Federal Reserve Bank of San Francisco:

"In view of the ultra-confidential character of the work of the personnel of the Federal Reserve Bank, and in view of the sometimes exaggerated importance attached to informal or personal comments or statements made by Federal Reserve Bank employees concerning general banking matters, no employee of the Federal Reserve Bank shall in any way disclose to anyone, other than an employee or officer of the bank entitled thereto, any information obtained in the course of his or her work, or discuss any banking matters that may in any way concern or relate to the Board of Governors of the Federal Reserve System, the Federal Reserve Banks, or any member bank, with anyone not connected with the Federal Reserve Bank, and in no event outside of the office of the Federal Reserve Bank.

SUBJECT: Outside Business Interests of Members of Staff

It is obvious that the good conduct and repute of the Federal Reserve Bank of San Francisco requires that a member of the staff should not act as an officer, director, or employee of any corporation or firm conducted for profit, or be identified with or actively engaged in outside business interests. To this end, applicants for employment are required to make the promise: "In event my application is approved, I promise to devote my entire time, energy, and ability to the exclusive service of the Bank."

There is no intention to interfere with an employee's personal investments, such as a farm, or with his doing occasional work, such as playing an instrument in an orchestra, provided these activities will in no way interfere with his service to the bank, and provided they cannot be construed as making improper use of information gained in the bank's service, and that thereby an employee does not place himself in a position where his independence of judgment or disinterestedness may be questioned.

A review will be undertaken periodically, and a questionnaire may be directed to officers and employees soliciting information regarding their outside business interests.

C a s h i e r .

SUBJECT: Indebtedness of Members of Staff

It is important that members of the staff refrain from incurring any indebtedness which might prove embarrassing to them because of their connection with the Federal Reserve Bank of San Francisco.

In accordance with the following resolution of the Board of Directors of the Federal Reserve Bank of San Francisco, adopted at its meeting held on June 15, 1933, inquiry in regard to any indebtedness will be made periodically by the President of the Bank:

"WHEREAS, the work of the officers and employees of the Federal Reserve Bank and their relations with banks should be conducted on a strictly confidential basis and with the utmost discretion, and

"WHEREAS, it is expedient for the Federal Reserve Bank, as employer, to know the confidential transactions and situation of its officers and employees;

"THEREFORE, be it resolved that the President of the Bank be requested to obtain from all officers and such other employees as he sees fit information in regard to any indebtedness they may have (excluding current bills for ordinary personal and household expenses, but not excluding indebtedness incurred to others to obtain funds for payment of such bills) and to bring to the attention of this Board any case or cases which, in his opinion, should have the Board's attention, and to make a similar report applying to himself."

HEAD OFFICE AND BRANCHES

Revised October 14, 1941

SUBJECT: Maintenance of Premises and Equipment in Orderly Condition

The habit of neatness in all things is desirable and should be developed, not only for appearance but for self-improvement and as an essential to maximum efficiency.

Employees should keep their desks and quarters in an orderly condition. The tops of desks, tables, files, bookcases, etc., should be cleared of books, records, or papers which are not actually in use. They should be entirely clear after working hours. Pins, rubber bands, clips, and waste paper should not be scattered over desks or permitted to fall on the floor. Drawers of desks must be maintained in a tidy condition. Papers and letters should not be held in them but should be given prompt attention and then sent to files.

Mechanical equipment should be kept free from dust and dirt, and, to this end, protective covers should be placed over the equipment when the day's use is completed.

Employees are requested to maintain the same degree of neatness in the halls and stairways, lounge rooms and sun porch as is expected in working areas. Candy, gum, and cigarette wrappers and other waste should be deposited in the containers provided, and not thrown on the floors.

The cooperation of all employees is solicited to the end that all areas of the building will be kept neat and clean.

SUBJECT: Rating Slips

All employees are rated periodically as follows:

Attendance Functuality and Department	Initiative Interest in Work and Coop- erative Spirit	Speed and Quantity of Work	Reliability Accuracy & Quality of Work	Value to Department	Total	Rated by:
10	15	20	30	25	100	

Is employee- Capable of more advanced work? \_\_\_\_\_ Suitably assigned? \_\_\_\_\_  
In what characteristics or qualifications is employee particularly outstanding? \_\_\_\_\_

Does it appear that employee will progress satisfactorily? \_\_\_\_\_ If not, state what qualifications  
appear lacking \_\_\_\_\_

Remarks: \_\_\_\_\_

The percentages and remarks are filled in by the department head and must be concurred in by the officer in charge and the Chief Clerk. Thus, each rating reflects the opinion of three different persons, and insures a fair and impartial judgment.

The progress of an employee depends to a large extent on the ratings he receives. Generally speaking, those receiving a total rating of less than 75% are considered as "Unsatisfactory" and will be eliminated from the organization unless their standard is raised. Those receiving between 75% and 80% are considered as only "Passable" but not entirely satisfactory, and not up to the standard desired. Those receiving between 80% and 90% are considered average and their work is "Satisfactory." Those receiving over 90% are considered above the average and the mark indicates an unusually valuable employee.

The following will serve as a guide to the detail of the rating slip, to assist employees in obtaining good ratings:

No. 1 Attendance, Functuality, and Department

An employee's rating will be 10 in this space if he is on duty every day, never tardy, and otherwise punctual in his duties, and takes pride in his good conduct.

No. 2 Initiative, Interest in Work, and Cooperative Spirit

If an employee's work always comes first; if he can work out new plans; if he finds work when his own is done; and if he does everything possible to be of assistance to his co-workers and to be of value to the Bank, the rating slip will show 15 in this column.

June 1, 1936

- 2 -

No. 3. Speed and Quality of Work

To entitle an employee to 20 in this column, he must not only be exceptionally fast and accurate in his work but he cannot afford to waste any time during the regular working hours.

No. 4. Reliability, Accuracy, and Quality of Work

The rating given in this space depends upon the attention and care an employee gives his work. If he uses extraordinary care and applies himself to the limit, thus doing perfect work, he can get 30.

No. 5. Value to Department

In order to register 25 in this column, an employee must be almost indispensable. All employees cannot be that perhaps, but each one should make himself as valuable as possible. In addition to the qualifications listed elsewhere, others such as courtesy and personal appearance, will be considered and given weight in determining the value to department.

"Success is doing the common things uncommonly well."

SUBJECT: Distribution of Board of Governors' "R" and "S" Letters

The Board of Governors of the Federal Reserve System gives certain information, interpretations, or instructions to Federal Reserve banks in numbered letters, the number being preceded by designation "R" or "S". The letter "R" is used for routine letters, and the letter "S" for those letters giving standing instructions or information.

Unless otherwise indicated in the letters, or unless subsequently authorized by the Board, these letters are for the use of the members of the staffs of the Federal Reserve banks, and may be utilized by such employees to the extent that may be appropriate, according to circumstances, in answering inquiries, and otherwise in the performance of their duties.

These letters are not to be used for distribution or made available to persons outside the bank without the prior approval of the Board.

All members of the staff are requested to observe these instructions carefully.

SUBJECT: Group Insurance

The group life insurance policy issued by the Aetna Life Insurance Company enables employees to carry insurance, at their own expense, under the following conditions:

1. The amount of insurance which a participating employee under 55 years of age may carry is governed by such employee's annual salary. For example -

If employee's annual salary is -	The amount of insurance which must be carried is -
Less than \$1800	\$1000
\$1800 but less than \$2400	\$2000
\$2400 but less than \$3600	\$3000
\$3600 or more	\$4000

A change in the annual salary of an insured employee automatically adjusts the insurance of the employee as of the date of change in the classification. However, if the adjustment results in an increase of the employee's insurance and the employee is not regularly performing his or her duties, the increase shall not become effective unless and until the employee resumes the regular performance of such duties.

2. The amount of insurance will be reduced by 5% each year beginning with age 55, the percentage reduction being taken against the insurance in force at age 54. A change in the age classification of an insured employee will automatically adjust the insurance of the employee to conform to the new classification on the renewal of the group policy next following the date the employee attains the higher age.
3. The insurance on any employee automatically ceases -
  - (a) When the employee fails to make the required contribution;
  - (b) Upon termination of employment;
  - (c) Upon attainment of age 65, or
  - (d) Upon discontinuance of the group policy, whichever first occurs.

(Forward)

June 16, 1941.

- 2 -

4. The current net premium rate is 55.2¢ per month per \$1000 of insurance, for which the charge to participating employees will be 55¢ per \$1,000 per month. The 2 mills under-collection will be charged to the premium collection account. Deductions will be made from the payroll of the 15th of the month.
5. The insurance company reserves the right to discontinue the policy at any time, upon notice, if the percentage of the total staff covered by the insurance is less than 75.
6. No benefits are payable for total and permanent disability. However, the insurance may be continued by payment of the premium during disability, prior to age 65, the same as if the employee were in active service.

This group policy provides life insurance to those who participate during service with the Bank, at a low cost to the employees, and may be converted, without medical examination, to other life insurance with the Aetna Life Insurance Company if service is terminated before age retirement.

It must be observed, however, that group insurance is in reality term insurance and is subject to cancelation if the group is not maintained on a satisfactory basis.

SUBJECT: Retirements

The Rules and Regulations of the Retirement System of the Federal Reserve Banks provide for the retirement of members in active service upon attainment of age 65. Certain conditions are also outlined under which members may remain in service for a limited period after reaching age 65.

In this regard, however, there is quoted below a letter (X-9798, dated January 21, 1937) sent to all Federal Reserve Banks by the Board of Governors of the Federal Reserve System:

"At a recent meeting of the Board of Governors, the Board reviewed its policy with respect to the retirement of officers and employees upon attainment of age 65 and directed that the Federal Reserve banks be advised that, except in particular cases involving exceptional circumstances, which should be submitted to the Board for consideration in advance, the Board would not in the future approve a salary beyond the end of the calendar year in the case of any officer or employee who was 65 years of age or more at the end of the preceding calendar year. This action of the Board does not apply, of course, to Presidents and First Vice Presidents who have been appointed for terms of 5 years.

"In the future, therefore, the Board should be advised of each request submitted to the Retirement Committee with respect to the retention in service of an officer or employee after attainment of age 65, with a full statement of the exceptional circumstances which in the judgment of the Board of Directors of the bank justify such retention, and the Board's approval of the payment of salary involved for any period beyond the end of the year in which such officer or employee attains the age of 65 should be obtained in advance."

A PRELIMINARY REPORT ON THE PROBLEMS OF OPERATING,  
SUPERVISING, AND SELLING EVACUEE PROPERTY ACCEPTED  
BY THE EVACUEE PROPERTY DEPARTMENT  
UNDER POWER OF ATTORNEY

---

OBJECTIVE: To establish a system of recording and controlling agency operations of evacuee property.

Sources  
of Data: Interviews with trust officers of:

The Crocker First National Bank	(Mr. Hall & Mr. Olney)
Bank of America	(Mr. Barbieri & Mr. Bruns)
American Trust Co.	(Mr. Unsworth)
Wells Fargo Bank & Union Trust Co.	(Mr. Callahan)
Bank of California	(Mr. Hackett & Mr. Parkinson)

Discussions with Mr. Hardy, Mr. Everson and Mr. Armstrong.

The writer's experience with similar problems.

- I. INITIAL PREMISE: ALL PROPERTY WILL BE ADMINISTERED UNDER  
POWER OF ATTORNEY FORM MIS. 235 (3-42).
- II. POSSIBLE BROAD CATEGORIES OF PROPERTY WHICH THIS DEPARTMENT  
MAY BE CALLED UPON TO HANDLE:
  1. Furniture, household items and personal property, etc.
  2. Securities, bank accounts, etc.
  3. Real estate (all types) including management and rentals.
  4. Business enterprises (all types).(Basis of breakdown - specialized categories of management.)
- III. POSSIBLE TYPES OF MANAGEMENT WHICH THIS DEPARTMENT MAY APPLY  
TO ONE OR MORE OF THE ABOVE CATEGORIES:
  - a. Continuous management for preservation of the property.
  - b. Temporary management for purposes of realizing a fair  
sale price.
  - c. Management for purposes of immediate liquidation.

Note: Categories such as "safekeeping", etc., although not strictly "management" problems, are considered under these headings for purposes of simplicity.

IV. PROPERTY CATEGORIES PLUS MANAGEMENT POSSIBILITIES:

Note: Although many of these categories may not be either confronted or accepted by the Department, nevertheless in anticipation of every contingency, they are being included in order to allow for the "exceptions which might prove the rule".

1. Furniture and household items, personal property, etc:

- a. Storage "for the duration".
- b. Temporary storage while locating a desirable purchaser or awaiting instructions to forward to evacuee.
- c. Sale to first willing buyer.

2. Securities (and bank accounts):

- a. Management trust cancellable on written notice.
- b. In trust subject to instructions for transfer, sale, etc.
- c. Liquidation at current market.

Note: Bank accounts obviously would only be held in trust -- awaiting clarification of some uncertainty at the other end of the evacuee's destination.

3. Real estate (unimproved and improved):

- a. Management of property, collections, insurance, taxes, etc.
- b. Management with intention to sell in a favorable market.
- c. Management of sale at current market.

4. Business operations of all types:

- a. Management of indefinite duration.
- b. Management with instructions to sell without losing "goodwill" and other assets of a "going enterprise".
- c. Management of liquidation operations.

V. RECORDS AND CONTROLS REQUIRED IN THE OPERATION AND/OR SUPERVISION OF EVACUEE PROPERTY CATEGORIES LISTED ABOVE:

Premise: Power of Attorney form (Mis. 235, 3-42) in all instances is first obtained and recorded in such a manner as to clear all negotiations between this Department and any other parties concerning the evacuee's property.

1. Furniture and household items, personal property, etc.:

a. Storage:

Procedure: Furniture to be placed with reputable concerns equipped to store or safeguard these items. If "blanket" problem is faced, the Department should contract with some reputable concern to set up a warehouse, or suitable storage facilities. A control fund will be necessary in some instances in order to pay for storage, removal, etc. Unless special arrangement is made with the evacuee for payment of these charges directly by him.

Control: In any of the above instances:

- An inventory must be taken.
- A control fund is needed either for individual management, or in a pooling arrangement.
- A running file of receipts, and other necessary management data must be established.

b. Temporary Storage:

The above procedure and control (under (a) Storage) would apply, in general, to this problem as well, except that items should be stored with regard to possible frequent inspection or early removal.

c. Sale:

Procedure: Under these circumstances, it is conceivable that the articles in question will be disposed of on the premises and removed therefrom by the buyer.

Control:

- An inventory
- A record of sale, a general information file.

Summary of controls needed for the management of furniture, etc.:

The following "controls" will suffice to cover any of the above 3 (a, b, c) possibilities in relation to furniture, etc.:

- An inventory form, with provisions for an appraisal, if needed.
- A control account for the handling of management funds (for payment of storage and moving charges, unless special assurance was given that evacuee would handle this directly or forward funds regularly to the bank).
- A voucher form for use in connection with the control fund.
- A file space for recording all needed data about the principal and his property.
- A possible cross-file for recording data on furniture, etc., which would be available for sale to interested parties.

2. Securities (and bank accounts):

a. Management trust:

Procedure: Inasmuch as this is a highly specialized operation, it should properly be turned over to a service equipped to handle it, such as a private bank, and negotiations conducted between that bank and the principals.

b. In trust, subject to further instructions:

Procedure: Would probably be held in the bank vault.

Controls: - A schedule, and physical check of all securities.  
- A stock and bond assignment (for purposes of transfer negotiation, etc.)

Note: If this Department is requested to record interest, dividends, and keep a record of principal for tax purposes, the following additional forms will be needed:

- An information record for each security.
- A general debit-credit record of income and principal.
- A statement form for periodical summary.

c. Liquidation at current market:

Procedure: Sale through a responsible brokerage concern.

Controls: - Stock and bond assignment.  
- Schedule of all securities received and physical inventory of these.

Note: Bank savings accounts can be left in the bank of deposit, checking accounts may be converted into deposit accounts with this bank.

Summary of controls needed for the management of securities, etc.:

The following "controls" will suffice to cover any of the above 3 (a, b, c) possibilities in relation to the management of securities (and bank accounts):

- Schedule form for securities.
- Stock and bond assignment forms.
- Information record for each security held.
- A general debit-credit record of income and principal on securities.
- A statement form for periodical handling.
- A cash account debit-credit record (for bank accounts in trust).
- General information file on each principal.
- Cross-file on securities available (possible consideration).
- Tickler system on entry of interest, due dates, etc.

3. Real estate (improved or unimproved).

a. Management of property:

Procedure: As a highly specialized function this may normally be turned over to a bank or real estate concern, depending upon the size and scope of the problem.

Control of Evacuee Property, Page 6.

- Controls: - A management or control fund.  
- A physical check and appraisal form.

Note: If this Department assumes complete management of the property, the following additional controls would be needed:

- Proper disposition of titles, etc. so as to exercise agency.
- A management or control fund and vouchers.
- A detailed appraisal and report form.
- A record of incumbrances, receipts, and disbursements and information on each piece of real estate.
- A general debit-credit record of income and outgo (including a statement form).

b. Management for a favorable market:

- Procedure and control would largely parallel that under (a) above. Property eventually being sold by a manager or administrator through a licensed real estate concern.

c. Management for immediate liquidation:

Procedure: Property would be offered through the usual channels of sale.

- Controls: - Titles and other data on property's legal status.  
- General information on property.

Summary of controls needed:

- The following controls will cover any of the contingencies arising from the above:
  - File of legal papers or information as to location.
  - Management control fund.
  - Appraisal and report form.
  - Real estate record of encumbrances, income and outgo.
  - General debit-credit record of principal's account.
  - Statement form.
  - General file of information.
  - Cross-file on properties available.
  - Tickler system on vital recurring data such as payments on encumbrances, etc.

4. Business enterprises:

a. Management of indefinite duration:

Procedure: Under this possibility, the first problem will be to secure a competent manager who knows the particular business in question, or a business or industrial counsellor who is equipped to analyze the problem. He may be obtained from the Department's staff or employed from outside the bank.

It is suggested, in order to avoid a chaotic system of accounts, to maintain each business as a separate unit, including the general bookkeeping records. A co-ordinator in this office would work with the manager to keep the office properly informed on procedure, and the manager would be considered as compensated as an employee of the firm.

A first check will include a summary of assets, liabilities, a general outline of the nature of the business and the property on which it is conducted, and a physical check of inventory with particular care to ascertain the presence of perishables, etc.

A control fund can then be set up at the bank and bills and receipts handled through this.

Periodical operating statements will provide the data on operations.

If necessary, a revision of the bookkeeping may be made. In any event, initial and periodical audits will be necessary.

However, in order to keep the project within manageable limits, the necessity of operating the business and recording it on the premises is particularly stressed; a control of property funds, statements, and managerial reports, and a reliable manager being the bank's assurance of successful operations.

- Controls:
- Initial report on business (general).
  - Audits.
  - Managerial reports.
  - Management control fund.
  - Bookkeeping system and statements of condition and operation.
  - Reliable manager.
  - General file for each principal.
  - Cross file of businesses available for sale, etc.

b. Temporary management and maintenance of the business:

Procedure: This procedure, in this instance would be the same as above, with the exception that, obviously, such measures would be taken as would be necessary to expedite a favorable sale or lease, or whatever disposition might be made of the enterprise.

Controls: The same as in (a) above.

c. Liquidation proceedings:

Procedure: A general statement of condition and a complete physical check of inventory and other property will be necessary. Such funds as are available will be deposited at the banks and a record of receipts and disbursements kept until the entire procedure is concluded. Contact of allied industries or businesses and the use of forms equipped to liquidate property would be supervised from this office.

- Controls:
- Inventory and general information data.
  - Audit or formal check on books.
  - Management control fund.
  - General file on each principal.
  - Cross file on unliquidated property.

Summary of controls needed for operation of businesses, etc.:

With the selection of a manager and an office co-ordinator (in some instances the office co-ordinator may act in both capacities), the following controls will cover all information requirements:

- Initial report on the business (general).
- Audit and/or physical check and appraisal of property.
- Managerial report form.
- Management control fund.
- General file on each principal.
- Cross file on businesses and equipment available for sale.

VI. POSSIBLE PROCEDURE IN ADMINISTRATION OF EVACUEE PROPERTY MANAGEMENT:

As property is taken over under power of attorney by the Evacuee Property Department, it is anticipated that all data and administration of accounts will be handled therein and that this Department's relation with the bank in these matters will be similar to that of any other account.

For example, in the handling of funds for evacuees, either in the administration of their property or as a deposit, these funds will be deposited with the bank in the name of the Evacuee Property Department (each keyed as a separate account for this Department's records).

As funds are needed the Department will draw drafts upon the bank and charge the appropriate management control fund records which will be in this office. In this way, the bank need only use its regular forms for a debit-credit record of each account, and the detail

of these accounts will be properly maintained in the Evacuee Department, together with all other vital data on each principal. Safekeeping of securities, etc., would be handled similarly.

Consequently, new control forms subsequently recommended are for the use of the Evacuee Property Department and it is not anticipated that any additions need be necessary to the established system of the bank.

#### VII. MAXIMUM PROBABILITIES IN MANAGEMENT PROBLEMS:

If all of the above contingencies are accepted as probabilities, the following equipment and control data should be provided for:

	General Category			
	<u>Furniture</u>	<u>Securities</u>	<u>Real Estate</u>	<u>Bus.</u>
Inventory appraisal	X			X
Management, control or cash account	X	X	X	X
Principal file	X	X	X	X
Cross file	X	X	X	X
Tickler system on timely data		X	X	X
Schedule of securities		X		
Stock & bond assignment		X		
Security information record		X		
Debit-credit card of income & principal		X	X	
Periodical statement form		X	X	
Real estate appraisal & report form			X	
Real estate record form			X	
Operating reports and audit date file				X

VIII. ANTICIPATED CONDITIONS (MINIMUM POSSIBILITIES):

It is anticipated that wherever possible this Department will delegate responsibility to organizations or services better equipped to handle specific problems.

For example, in the matter of security management or real estate management, a private bank or real estate concern would be a logical choice for a subagency.

With this broad principle in mind, a more normal range of probability of management problems facing the Department would include only those of the following which are preceded by an (x). The other categories would be delegated to special services.

1. Furniture & household items, etc.

- (x) Storage
- (x) Temporary storage
- (x) Immediate sale

2. Securities, etc.

- Management trust
- (x) In trust subject to instructions
- Liquidation

3. Real estate, etc.

- Management of property
- Management for sale
- (x) Management for liquidation

4. Business enterprises

- (x) Management of indefinite duration
- (x) Temporary management
- (x) Liquidation proceedings

Inasmuch as there is a lack of precedent for such an operation as undertaken by this Department, it is felt that the preparation of initial control data should not go beyond the minimum of possibilities and should, in addition, be highly elastic in form.

A guide for a minimum preparation is as follows:

	General Category			
	<u>Furniture</u>	<u>Securities</u>	<u>Real Estate</u>	<u>Business</u>
Inventory report form	X			X
Management control forms	X	X	X	X
Principal file	X	X	X	X
Cross file	X	X	X	X
Tickler system	X	X	X	X
Schedule of securities		X		
Stock & bond assignment		X		
General real estate information form			X	
Operating report & audit data file				X

IX. THE MECHANICS OF A SYSTEM OF CONTROL:

The foregoing data was intended as background material in order to support the logic of the accompanying forms submitted for use in a control system. It is realized that the problem categories outlined above are very broad, overlap in many instances, and include some situations which Department policy might not consider acceptable or practical under an agency arrangement. However, the purpose herein was to explore and provide a foundation for thinking on the problem so that, in situations where time is short, the Department will have the "raw material" for a workable control system.

Accompanying this report are sample control forms designed for files currently available to the Department.

Each form is designed primarily for informational and recording purposes necessary to initiate a management arrangement with the principal and with such subagents as will be considered necessary to carry out the details of management. These forms have been generalized sufficiently to allow their broadest possible application under whatever contingencies might arise with the handling of any particular category of property.

Likewise, they have been designed with the knowledge that they will be used, in many instances, by persons uninformed on the problems presented, or without experience in gathering such information. They are to serve as a means of leading field men or interviewers "by the hand" in order that they may gather sufficient pertinent data for use by the Department executives in charting a course of decision.

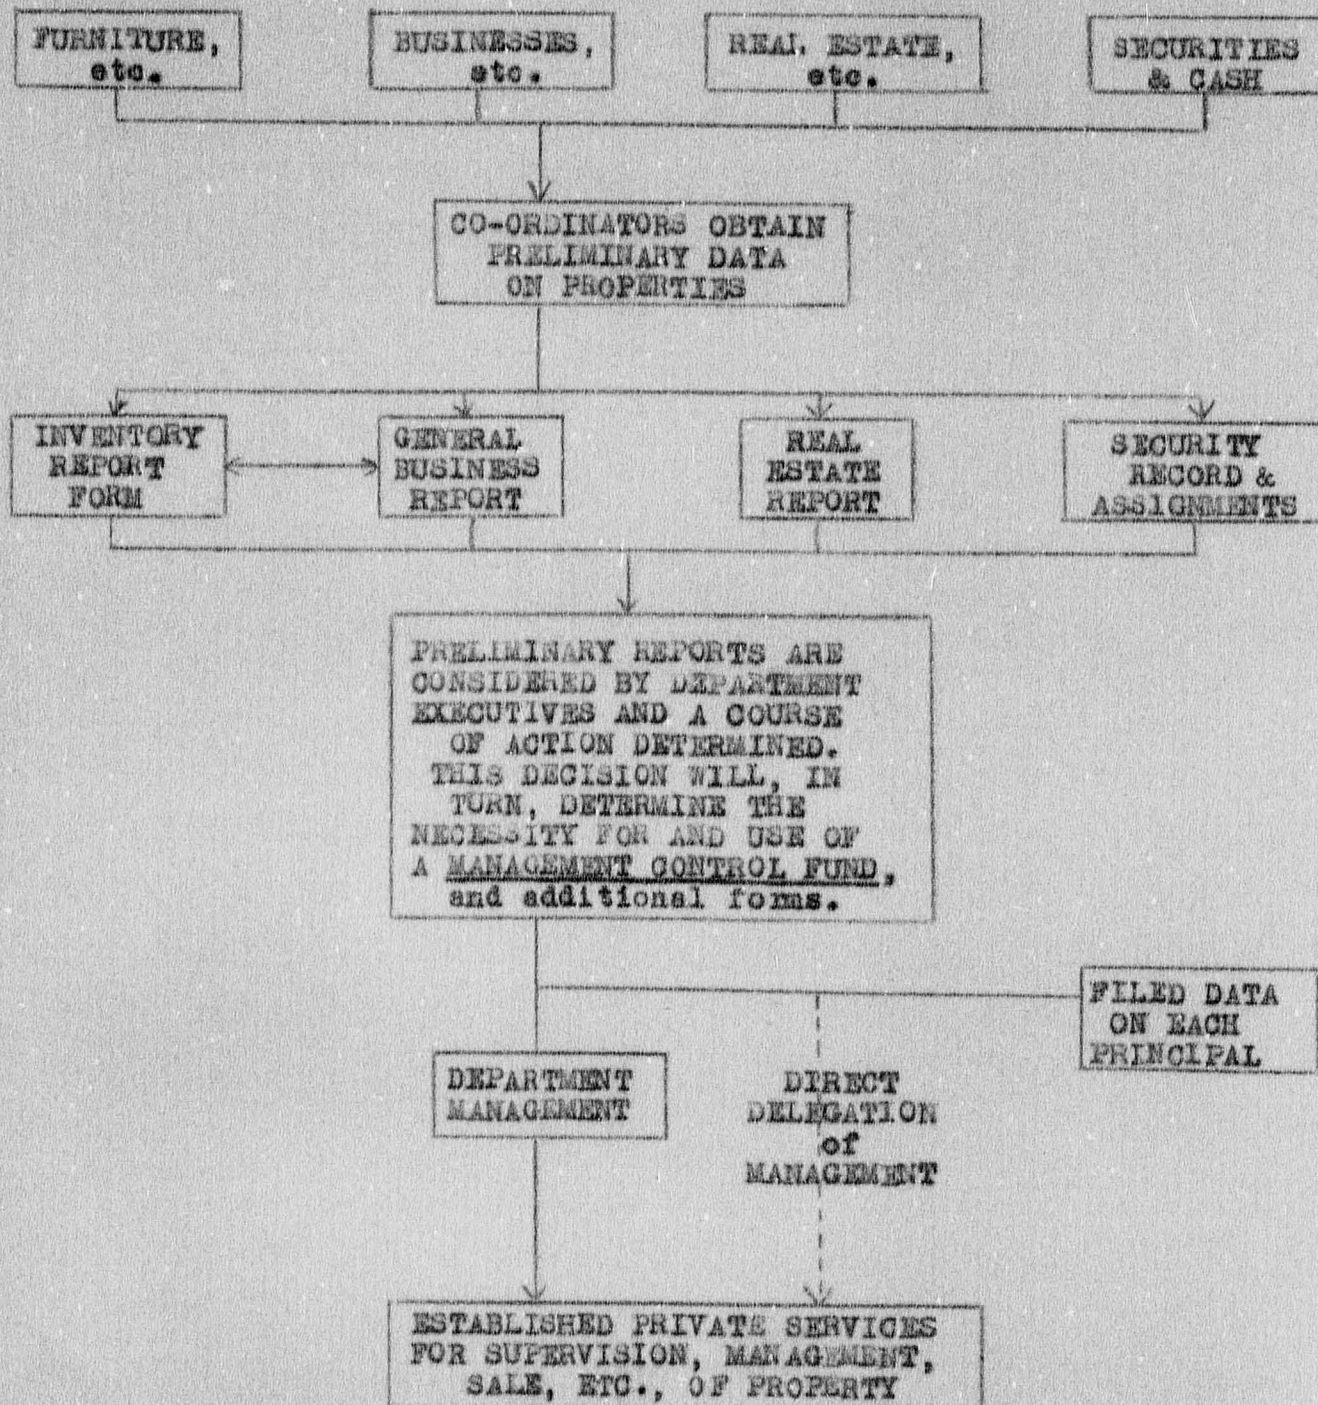

Respectfully submitted,

L. E. Dake

March 27, 1942.

Furniture, Personal Property, etc.

Items in this category are appraised by individuals employed from outside of the banks at the time a bank representative makes a physical check. Sale is handled through known dealers; storage through established warehousing concerns.

Inventory 'forms' are simply a blank sheet of paper. The physical check and appraisal is typed and notaried and kept as a record. An account is maintained of receipts and disbursements, funds being obtained from the principal for the management of the property. A general file is set up for each principal recording all correspondence, etc.

Securities

Handled under many types of arrangement, the most inclusive of which is a management trust, securities are first recorded in a 'schedule' which accompanies a letter of agreement or instructions as to the nature of the relationship between the bank and the principal.

Assignments are obtained for purposes of expediting transactions.

A record is kept of each security received or purchased including entries for principal as well as income changes and sales. In such manner tax requirements, etc. are met.

Periodically principals are given a general statement of income and transactions.

Actual purchases or sales are placed through established brokers.

Real Estate (improved or unimproved):

The principal in these cases refers all documents to the Real Estate Department of the Bank which undertakes a complete survey and report on the property involved, to determine the procedure in handling. This data is placed upon recorded forms.

If the property managed by the bank requires the periodical payment of sums not offset by income, a Control Fund is set up, obtained from the principal, for administering these expenses. In any event, a general debit-credit record of receipts and disbursements is established for the principal's account. Periodical statements are rendered along with other pertinent data, if and when desired by the principal (the principal may be an individual, a court, an estate, etc.).

A general data file is kept on the account.

Businesses:

Banks generally agreed that business problems are so varied that no established system of forms or records is practicable. Furthermore, it was felt that the proper place for the keeping of records in such instances was in the business itself.

Consequently, the general procedure is to place a competent manager in the business, and make him responsible for the establishing or maintenance of adequate records. Only a general report is made on the status of the business, its supplies, equipment and inventories.

For purposes of close control, all funds, other than a petty cash fund on the premises, are kept at the bank and disbursed by the bank at the manager's recommendation and the trust officer's approval. A general record of receipts and disbursements is kept for the account.

cash fund on the premises are kept at the bank and disbursed by the bank at the manager's recommendation and the trust officer's approval. A general record of receipts and disbursements is kept for the account.

In the case of a rapid liquidation involving readily disposable inventories, a professional liquidator or auctioneer is employed on a commission basis; or if a suitable man is available a slow liquidation is accomplished through all channels - retail, jobbing and liquidation.

As pointed out in our letter of April 7, we understand that the Farm Security Administration is reporting direct property transfers which have been handled by it. Obviously the transactions listed in the memorandum accompanying your letter of April 16 were handled by the Farm Security Administration and, no doubt, have been or will be passed on to Military Intelligence by that Agency.

We believe we should avoid duplicating such data, hence, do not believe that it will be necessary for you to continue providing reports on farm property transfer matters.

Gentlemen:

In accordance with Instruction Letter #9, find herewith a list of farm or lease deals which have come to our attention. It is my understanding that most of these transactions have been recorded daily by the F.S.A. so there will be some duplications. If you do not wish this list made up weekly by us but wish to trust to the F.S.A.'s daily reports, please so advise. Otherwise we will continue.

ATTENTION: Mr. Herbert Armstrong.

Gentlemen:-

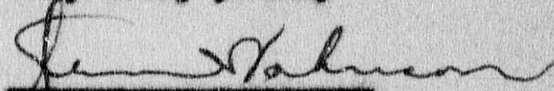

Yesterday afternoon I spent in Delano with Jack L. McKennis, contacting Japanese on outlying properties. As this work largely consists of attempting to find prospective lessors or purchasers of equipment on farms, I will forward reports as soon as definite results are accomplished.

I might add, however, that it is my thought that we may interest several large operators, including the Mettler Farms, and Arthur Mann, and there are indications that results can be obtained.

As far as personal property, store fixtures, etc., are concerned, I am contacting all agencies in Bakersfield that may be in the market for such equipment as we have to offer.

I expect to spend at least a portion of each day in Delano for some little time.

Very truly yours,

Owen L. Johnson  
Field Representative.

Evacuee Property Department Instruction Letter No. 9.

Your letter April 4, 1942

We understand that the Farm Security Administration has been requested to provide information with respect to property matters coming to its attention and that, therefore, our reports should be limited to those matters in which property transfers have resulted from or have been related to activities of our own representatives. Therefore, we question whether it would be desirable to submit the reports forwarded with your letter unless these transfers fall within the classification discussed above.

It is our further understanding that information of the character discussed in our Instruction Letter No. 9 should be provided locally to the F.B.I. One copy of the report may be forwarded to us for transmittal to the Military Intelligence Division.

Dear Sirs:

Referring to instruction letter #9, to date I have no report to make on substitute occupants.

Mr. Hurley informed me that Japanese farmers have made their own arrangements either by crop sharing or by incomplete transfers that are being held in readiness for completion on short notice.

No doubt we will have reports in the next few weeks.

In answer to your instruction letter #9, paragraph A. I present the following: There will not be a long list as most every Japanese is planning to stay on his home place, even if sold or leased, until actual evacuation. I will follow instruction more exactly later, but thought this general list of changes might be of some help to the F. B. I.

Movements influenced by this office:

Mr. Harry Kadoi, vacated his house in Marysville and moved to his ranch on Bogue Road south of Yuba City. Ready to evacuate ranch as new manager will be Bank of America. Three in family.

Maricks family moved from Marysville to their ranch close to Gridley. Father probably in detention. 5 in family.

Mrs. Sasaki moved family from Marysville to ranch Rt. 1, Box 155 C. 2 1/2 miles S. E. of Live Oak on Kent Ave. Six in family.

Changes, the knowledge of which might be of interest to the F. B. I. or F. B. I.

Instruction letter No. 9.

SUBJECT: TRANSFER OF EVACUEE REAL PROPERTY, OR INTEREST THEREIN.

The following memorandum, dated March 25, 1942, was received from the Western Defense Command and Fourth Army, signed by Karl R. Bendetsen, Colonel G. S. C., Assistant Chief of Staff, Civil Affairs Division:

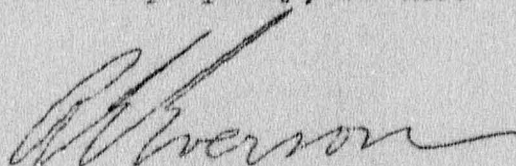

"MEMORANDUM for Mr. William M. Hale, Federal Reserve Bank, San Francisco

Subject: Reports to the FBI on substitute farmers

The Commanding General has directed me to request that you instruct your property protection field representatives engaged in the evacuation program to do the following:

a. Where substitute occupants of property formerly occupied, farmed, owned, rented or operated by Japanese have been procured by your representatives, or have been procured as a result of negotiation initiated by your representative, to furnish a list of such persons to the nearest FBI office for checking and to furnish a duplicate list through WCCA channels to this Division for delivery to the Military Intelligence Division."

In accordance with the above, Field Representatives are requested to forward a weekly report as of the close of business Friday, in triplicate, to the office of the Federal Reserve Bank of San Francisco, with which they are affiliated. This report should include the name of the evacuee, the name of the new owner or operator and a sufficient description of the property, so that it might be readily identified.

Dear Sir:

In accordance with your recent request, we are attaching herewith information concerning the Japanese properties now under our control.

With reference to our powers in all these cases, please be advised that we are working under an agency agreement whereby the property is turned over to us for general care in much the same manner that the owner would care for the property himself. We, of course, have no power of sale and are not vested with title in any way.

In the event of our taking over further properties, you will be immediately advised. We trust this information will be helpful for your purposes.

Very truly yours,

REPORT ON REAL ESTATE AND

BUSINESS ESTABLISHMENT IN PALO ALTO

*File sub James*  
*#27*

*not in pending cases or closed*

1. Home Cleaning & Dyeing Works  
159 California Ave.  
South Palo Alto, California

Report: The former proprietor was not in when I made the inquiry regarding the settlement of their cleaning establishment, but I asked at another source, which is reliable. The entire cleaning establishment has been leased, and the new operators are already doing business. Mr. Crist, of the law firm of Crist and Beene with offices in The American Trust Company Building in Palo Alto, is, I believe, the attorney in fact, and hence, responsible for the handling of the property.

2. Palo Alto Laundry Co.  
644 Emerson Street  
Palo Alto, California

*not in pending or closed files*

Report: Leasing of the establishment has been completed for a period of two and a half years. The new operators are already conducting the business. All matters pertaining to the establishment have been taken care of, and a personal car will be stored. Mr. Crist, of the law firm of Crist and Beene, with offices in the American Trust Company Building of Palo Alto, is the attorney in fact.

3. Stanford Dyeing and Cleaning Works  
766 Emerson Street  
Palo Alto, California

*not in pending or closed*

Report: In an inquiry made of Mr. J. Nakamura, former owner of the above mentioned establishment, I have learned that the establishment has been sold to the Cooperative Society of

Palo Alto, and was effected through his lawyer, Mr. A. Runwell, attorney-at-law in the Bank of America Building in Palo Alto.

4. Residence of Apt. Type  
827 Ramona Street  
Owners: Okazawa, Soyo & Sada

Report: Matters regarding the residence have been cleared.

A power of attorney has been assigned to Reverend P. Offenbier to act in the owner's stead. The house is to be rented.

5. Residence  
721 Wellesley Street  
South Palo Alto, Calif. Owner: Noro, Seiki

Report: All arrangements regarding the above mentioned house has been completed. Through her lawyer, Mr. E. Lakin, a real estate agent will take care of the management of the estate.

6. Residence  
600 California Avenue  
South Palo Alto, Calif. Owner: Kitasako, George

Report: All arrangements regarding the above mentioned house have been completed. A limited power of attorney has been assigned Mr. Harry Hunt of the Home Loan Foundation and Cornish and Carry is to handle the real estate problems. The house is to be for rental purposes.

7. Residence  
834 Ramona St.  
Palo Alto, Calif. Owner: Hirano, Ethel

Report: Mrs. C. Hirano, mother of Ethel Hirano, is taking care of the arrangements. Through Mr. MacDougall, her lawyer, the real estate firm of Mr. J. E. Vandervoort will handle the real estate problem.

MEMORANDUM TO: Kari R. Bendtsen,  
Colonel, U. S. G.,  
Assistant Chief of Staff,  
Civil Affairs Division,  
War-time Civil Control Administration

SUBJECT: REPORTS TO THE FBI ON SUBSTITUTE  
OCCUPANCIES

On April 21, we forwarded to you and to the FBI a complete list of substitute occupants of urban property formerly occupied, owned, rented, or operated by Japanese. This data represented those transfers of which we had knowledge for the field offices of the Northern California zone only.

We are supplementing this material with all such transfers for the same area since that time up to the present. There is also enclosed a complete list of such data for the City and County of San Francisco and all offices operating in the Southern California zone.

A complete recapitulation of this material is also being forwarded to the Federal Bureau of Investigation in accordance with your suggestion.

COPI

LOS ANGELES BRANCH

TO: Head Office

DATE April 29, 1942

Subject: Evacuee Property Department

Referred by Mr. Earhart  
to Mr. Everson

Pursuant to your Instruction Letter No. 9, we are enclosing herewith, in duplicate, the reports of the following field offices in the Southern California area. These reports include all transactions which our field representatives were instrumental in closing from the time these offices were opened up to the close of business on Friday, April 24.

Alhambra	24
El Centro	45
Inglewood	2
Los Angeles	32
Pasadena	25
Phoenix	1
Redlands	2
Riverside	32
San Bernardino	8
Torrance	4

The number following the name of each field office indicates the total of transactions handled by that office.

One set of these reports is for delivery to Western Defense Command for use of Military Intelligence. The other set is for your files. A third set has been sent by this office to the Los Angeles office of the F.B.I.

Our field representatives in offices not shown in the above tabulation have either advised us that they have no completed transactions to report; or that the transfer of interests in real property have involved only farm properties handled by the Farm Security Administration Representative in the field office.

Evacuee Property Dept.  
Federal Reserve Bank of San Francisco  
500 California Street  
San Francisco, California

Gentlemen:

Enclosed find five reports covering cases involving evacuees and three reports covering inquiries for property.

No reports were received today that the Federal Reserve Bank take power of attorney.

No reports were forthcoming for the first and second due to the fact that I assisted Mr. Dake in registering Japanese for evacuation.

For the information of the FBI: T. Takahashi has sold his 1933 Ford truck to R. E. Winter, 825 46th St., Oakland; ✓ Harry Takahashi has sold his stock and business known as the National Cafe, southeast corner of 7th and Franklin Street, Oakland, to J. F. Stone of the same address; S. Shimamura has sold his 1940 Chev. truck for \$525 to John Sardell, 535 7th Street, Oakland, Hi 1956; Mori Nobori has sold the stock and business of a grocery store at 1626 Grove Street, Oakland, to Wayne Rounseville for \$500; George Niitsuma has sold a Ford truck to John Czoberek, 1211 Linden, Oakland; Kiyogi Kanehara has sold his cleaning business known as the Valet Cleaners, 1960 University Avenue, Berkeley, to Lena Epstein; ✓ Frank Iino and his partner Masao Yamado have sold their business and fixtures of the Foothill Market, 5609 Foothill Blvd. to the Winston Sales Co., 476 10th St., Oakland; Bob Kitajima has sold his equipment and business known as the Four Star Market, 3229 Foothill Blvd., Oakland, to V. Brown; and Sadaichi Neishi has sold the Seminary Nursery, 2143 Seminary Avenue, Oakland, to Albert Lew.

Very truly yours,

Gentlemen:

We are listing below a general summary of completed deals and submitting same in triplicate.

1. Satoji Itani, P. O. Box 1533, Salinas is storing his Ford pickup with A. G. Cannell, Watsonville, phone 11W11; his sedan with the Ford dealer in Salinas in the garage at his house; a small truck on the ranch of his brother Masaki Itani.

2. Kinto Onitauka, 113 Lake Street, Salinas has given L. E. Wyatt of the Salinas National Bank, P. of A. on his property at 113 Lake Street through his guardian, Noboru Sugimoto. This is apparently illegal but will probably work out all right as everybody appeared satisfied and there probably will be no legal objection raised.

3. Joe Matsushita, 35 Soledad, Salinas, has cancelled his lease at above address with the owner, Wallace Ahtye and sold his restaurant equipment to Gonzalo Gutierrez, 43 1/2 Soledad, Salinas, as per written agreement.

4. Chikara David Iwanoto and Saburo Iwanoto, 7 Lake Street, Salinas have given Ches. Marcel of Salinas their P. of A. to look after their personal belongings which are being stored, as per written agreement. They have given Kenneth Coutchie, 28 W. Gabilan, Salinas, a general P. of A. to look after their property, collect rents, pay taxes, etc.

5. Masayuki Matsumae, 25 E. Market, Salinas has leased property at 25 E. Market and 211 E. Market to S. W. Peterman of Gilroy and given P. of A. to Miss Dorothy Wood of the Salinas Valley Credit Bureau. Properties in name of Masayuki, Chizuko, Hisae and Mitsue Matsumae.

6. Buddhist Church of Salinas has given K. C. Coutchie, 28 W. Gabilan, their P. of A. signed by all trustees of the church.

Dear Sir:

We have for acknowledgement your inquiry of July 1st regarding disposal of rice owned by Japanese of this area.

Mr. Tom Yego of the Placer County I. A. G. L. has informed us the Japanese have disposed of their surplus rice to the local Red and White Grocery. Further inquiry discloses over one hundred sacks sold for five dollars a sack.

Mr. Yego states people were anxious to sell "for cash"—did not want to sell to the army for fear they might have to wait for payment—were unwilling to have any dealings with Mr. Walter Jansen, despite his offer of \$5.50 per hundred.

We are advised that the Army will pay \$6.80 per cwt. for  
Arkansas Blue Rose Extra Fancy No. 1 Rice, f.o.b. Sacramento.

Additionally, a local Caucasian food broker has expressed  
interest in the rice and is inquiring as to whether the bags have  
any Japanese markings on them or if the printing is all in English.  
Also he wishes assurance as to the grading - in other words, that  
it is all No. 1 Extra Fancy, which apparently is a premium grade.

Please advise us as promptly as possible what the J.A.C.L.'s  
wishes are with reference to the Army's bids as they are holding up  
requisition orders until we hear from you.

SUBJECT: Procurement of Supplies for Recently  
Captured and Liquidation of Japanese  
Grocery Stores.

Dear Sir:

We wish to informally offer certain food items as follows:

215 sacks Arkansas Blue Rose Rice, Extra Fancy

10 Cases Shoyu Sauce (Domestic) 4 Cals. to a Case

10 Bags Shoyu Sauce (Imported) 4 Cals. to a Bag

200 lbs. Iriko in 1 lb. Paper Packages

115 sacks (approximately) Arkansas Blue Rose Rice,  
Extra Fancy

These items have all been discussed in a telephonic conversation with your Mr. Forayte. All of the items with the exception of the 115 sacks of rice are located in Visalia, California, and presumably should be treated as F.I.B. offerings at that point. No price is included because the grocery holding these is trying to obtain the best price possible and we, of course, are in no position to dictate a price either to them or to ourselves. For your information, however, we believe that a competitive bid of \$7.00 per hundred has been submitted on the rice.

The item of 115 sacks of rice is located in Lincoln, California and is an approximate amount, only, of which we will probably deliver slightly less than 115 sacks. Actually, this rice has not been warehoused as yet but will be in our possession shortly and we would be able to deliver, if necessary, warehouse receipts. The price given is indeterminate but in our opinion \$7.00 per hundred will in all probability be acceptable.

The Nippon Company,

Attention: Mr. T. S. Kako

Dear Sir:

Receipt is acknowledged of your letter of June 5, 1942, wherein you inform us of a stock of 2200 cases of Sake, which were moved from your San Francisco office to Visalia, prior to the Exclusion Order for Military Area No. 1.

We appreciate the fact that due to war conditions, etc., the market for this particular product is now practically extinct; this, however, has been true of many other products, regardless of ownership.

As you no doubt know, the Federal Reserve Bank of San Francisco, acting as Fiscal Agent of the United States, has been assisting evacuees in making disposition of their various property, both personal and business, and that in many instances where the evacuee has not been able to dispose of such property, the Government has stored it for them free of charge.

However, the restrictions placed on such storage, necessarily eliminated merchandise of a perishable or semi-perishable nature, the reasons for which you can well understand. We believe there is little doubt but what Sake would be of the latter nature.

The only assistance which we might be able to give you would be in the disposition of such Sake for the purpose of possibly re-distilling. Before further assistance can be given along this line, there are certain questions which we would be pleased to have you answer, in order that we might make a further investigation.

For instance: We would like to know with whom the goods are stored in Visalia; if they are available for sampling, etc.; whether the liquor tax has been paid on such merchandise, or if it is in bond. It would also be necessary to know the number of bottles in each case; the size of each bottle; the number of wine gallons in a case and the total proof gallons in a case. In order to determine whether or not the bottles can be used again, it will be necessary for you to let us know if they have been numbered.

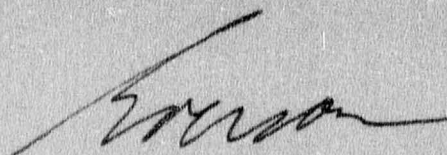

The Nippon Company,  
3801 Vallejo Street,  
Denver, Colorado

-2-

June 10, 1942

Please forward this information to us at your earliest convenience, as the parties we have contacted in regard to this merchandise, inform us that new taxes are contemplated and that any transaction should be completed prior to that time, as the new taxes will no doubt prohibit the realization of any value which might remain in the Sake at this particular time.

Yours very truly,

Assistant Cashier.

SUBJECT: Procurement of Supplies for Assembly

Dear Sir:

Reference is made to a telephonic conversation between your Mr. Forsythe and our representative, Mr. Borden.

We have been endeavoring for some time to obtain a ruling from the Army in connection with an efficient method for disposing of food items remaining in the hands of evacuee grocery store proprietors at the present time. Thus far, our information has been that the Army itself and the Procurement Division of the Treasury could purchase only "round lots". It appears from the above mentioned conversation, that such is not the case, and with this in mind, we are enclosing copies of certain inventories which may be of interest.

In addition to these lists from the Bakersfield and Mountain View area, there are numerous small groceries operating in the Marysville-Colusa area which as yet have had no disposition. If you wish to obtain a list of their inventories, we shall be pleased to acquire this information for you as soon as possible.

No determination has been made of price, although some cost figures are included on one of the inventory lists enclosed. As a beginning level, we suggest that on any item you find of interest, we endeavor to work out an agreement with the owner at cost, or perhaps slightly below that figure. In most cases, the owner would be happy to sell at such level, and you will thus avoid any jobber's profit. Details in connection with the point of destination, freight, shipment, etc. may be worked

out when and if you have determined items in which you have an interest.

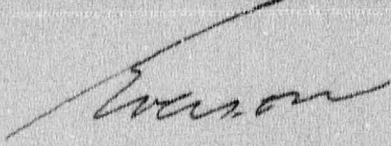

Our representative, Mr. Borden, states that this inquiry was directed to him by Haas Brothers. As a suggested means of expediting your particular problem, the following wholesalers might be in a position to supply you with substantial quantities of all such items as you may need:

North American Trading Co., 330 Front St., San Francisco  
Pacific Trading Co., 100 Sacramento St., San Francisco  
Fujimoto Co., 240 Front St., San Francisco  
Nonaka & Co., 2020 Bush St., San Francisco

May we observe that purchase of these items from Japanese proprietors would simplify the problems of the evacuees, their creditors, and the Government.

LOS ANGELES

April 17, 1942

U.S. Treasury Procurement Office at San Francisco indicates it will be purchasing for Assembly Centers in this area considerable quantities of specialized Japanese foods. Their office in Los Angeles is doing likewise for that area. If you have not already been in touch with Procurement Officer there suggest you contact him in hope that this will help solve problem of liquidation of at least some Japanese food stocks. Undoubtedly office will not desire to buy small quantities from retailers, preferring to deal in large lots. If wholesale stocks not available perhaps arrangements could be made through some wholesaler to pick up retail stocks for resale to Government. Los Angeles Procurement Officer is Earl Loomis, 1206 South Santee Street.

## CONDITIONS

1. The Government reserves the right to reject any or all bids, to waive any informality in bids and, unless otherwise specified by the Government or by the bidder, to accept any item in the bid. In case of error in the extension of prices in the bid, the unit prices will govern.

2. Time, in connection with discount offered, will be computed from date of the delivery of the supplies to carrier when final inspection and acceptance are at point of origin, or from date of delivery at destination or port of embarkation when final inspection and acceptance are at those points, or from date correct bill or voucher properly certified by the contractor is received if the latter date is later than the date of delivery.

3. In case of default of the contractor, the Government may procure the articles or services from other sources and hold the contractor responsible for any excess cost occasioned thereby: *Provided*, That if public necessity requires the use of materials or supplies not conforming to the specifications they may be accepted and payment therefor shall be made at a proper reduction in price.

4. If the contractor refuses or fails to make deliveries of the materials or supplies within the time specified, or any extension thereof, the Government may by written notice terminate the right of the contractor to proceed with deliveries or such part or parts thereof as to which there has been delay. In such event, the Government may purchase similar materials or supplies in the open market or secure the manufacture and delivery of the materials and supplies by contract or otherwise, and the contractor and his sureties (if any) shall be liable to the Government for any excess cost occasioned the Government thereby: *Provided*, That the contractor shall not be charged with any excess cost occasioned the Government by the purchase of materials or supplies in the open market or under other contracts when the delay of the contractor in making deliveries is due to unforeseeable causes beyond the control and without the fault or negligence of the contractor, including, but not restricted to, acts of God or of the public enemy, acts of the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather, and delays of a subcontractor due to such causes unless the contracting officer shall determine that the materials or supplies to be furnished under the subcontract are procurable in the open market, if the contractor shall notify the contracting officer in writing of the cause of any

such delay, within 10 days from the beginning thereof, or within such further period as the contracting officer shall, with the approval of the head of the department or his duly authorized representative, prior to the date of final settlement of the contract, grant for the giving of such notice. The contracting officer shall then ascertain the facts and extent of delay, and his findings of fact thereon shall be final and conclusive on the parties hereto, subject only to appeal within 30 days by the contractor to the head of the department concerned or his duly authorized representative, whose decision on such appeal as to the facts of delay shall be final and conclusive, on the parties hereto. As used herein "head of the department" means the head or any assistant head of the executive department or independent establishment involved, and "his duly authorized representative" means any person authorized to act for him other than the contracting officer; and the term "contracting officer" shall include his duly appointed successor or his authorized representative.

5. No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or to any benefit that may arise therefrom unless it be made with a corporation for its general benefit.

6. Prices bid herein include any Federal tax heretofore imposed by the Congress which is applicable to the material on this bid. If any sales tax, processing tax, adjustment charge, or other taxes or charges are imposed or changed by the Congress after the date set for the opening of this bid, and made applicable directly upon the production, manufacture, or sale of the supplies covered by this bid, and are paid by the contractor on the articles or supplies herein contracted for, then the prices named in this bid will be increased or decreased accordingly, and any amount due the contractor as a result of such change will be charged to the Government and entered on vouchers (or invoices) as separate items.

7. Unless otherwise specified by the bidder, it is understood and agreed that only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured, as the case may be, in the United States shall be delivered pursuant to a contract awarded as a result of this bid.

## INSTRUCTIONS TO BIDDERS

1. Samples of items, when required, must be furnished, free of expense, prior to the opening of bids, and, if not destroyed, will, upon request, be returned at the bidder's expense.

2. Prices should be stated in units of quantity specified, with packing included.

3. Time of proposed delivery must be stated in definite terms. If time varies for different items the bidder shall so state.

4. Envelope containing bids must be sealed and marked on the upper left-hand corner with the name and address of the bidder and the date and hour of opening, and addressed as instructed.

5. For further instructions read U. S. Standard Form 22 (Instructions to Bidders).

## INSTRUCTIONS TO CONTRACTING OFFICERS

1. If shipment is made by Government bill of lading, observe consolidated classification requirements so as to secure the lowest rate applicable.

2. Although this form meets the requirements of a formal contract (R. S. 3744), if the execution of a formal contract with bond is contemplated U. S. Standard Forms 31 and 32 should be used.

3. If there is not sufficient space on the schedule to list all of the items, insert at the bottom of the schedule "Continued on \_\_\_\_\_ sheets of U. S. Standard Form 36", and use that form also.

4. If it is definitely known that final acceptance cannot be accomplished within 10 or 20 days from date of delivery due to necessity for tests or analyses which cannot be accomplished within that time, delete, before issuance, the discount provision relating to 10 calendar days or to both 10 and 20

calendar days. The provision relating to discounts may also be deleted when funds do not become available so that payment may be made within such time limits.

5. If the contract is likely to involve patent liability, the article on patents as contained in U. S. Standard Form 32 should be used.

6. If the contract provides for liquidated damages, the above Condition No. 4 should be deleted and there should be substituted therefor the article entitled "Delays—Liquidated Damages", quoted in Paragraph 5 of the directions on page 6, U. S. Standard Form 32, modified as follows: Delete "in Article 1", line 2, and if no bond is required, delete "and his sureties", lines 6 and 10; add the last sentence (definitions) of the above Condition No. 4.

FINAL INSPECTION AND ACCEPTANCE OF MATERIALS AND FINISHED ARTICLES WILL BE MADE AFTER DELIVERY UNLESS OTHERWISE STATED. IF FINAL INSPECTION IS MADE AT A POINT OTHER THAN PREMISES OF THE CONTRACTOR OR SUBCONTRACTOR, IT SHALL BE AT THE EXPENSE OF THE GOVERNMENT EXCEPT FOR THE VALUE OF SAMPLES USED IN CASE OF REJECTION. FINAL INSPECTION SHALL BE CONCLUSIVE EXCEPT AS REGARDS LATENT DEFECTS, FRAUD, OR SUCH GROSS MISTAKES AS AMOUNT TO FRAUD. FINAL INSPECTION AND ACCEPTANCE OR REJECTION OF THE MATERIALS OR SUPPLIES SHALL BE MADE AS PROMPTLY AS PRACTICABLE, BUT FAILURE TO INSPECT AND ACCEPT OR REJECT MATERIALS OR SUPPLIES SHALL NOT IMPOSE LIABILITY ON THE GOVERNMENT FOR SUCH MATERIALS OR SUPPLIES AS ARE NOT IN ACCORDANCE WITH THE SPECIFICATIONS. IN THE EVENT PUBLIC NECESSITY REQUIRES THE USE OF MATERIALS OR SUPPLIES NOT CONFORMING TO THE SPECIFICATIONS, PAYMENT THEREFORE SHALL BE MADE AT A PROPER REDUCTION IN PRICES.

CONVICT LABOR: NO MATERIALS MANUFACTURED OR PRODUCED BY CONVICT LABOR SHALL BE USED OR FURNISHED IN THE PERFORMANCE OF THIS CONTRACT.

BIDDERS ARE REQUESTED TO INDICATE IN SPACE PROVIDED ON BID, THE MAXIMUM TIME WHICH WILL BE ALLOWED THE TREASURY DEPARTMENT TO ACCEPT BIDS AFTER DATE OF OPENING.

ERASURES OR INTERLINEATIONS MUST BE EXPLAINED BY THE BIDDER, IN THE PROPOSAL, OVER HIS SIGNATURE OR INITIALS.

INCREASE OR DECREASE: UNLESS OTHERWISE SPECIFIED ANY VARIATION IN THE QUANTITIES HEREIN CALLED FOR, NOT EXCEEDING TEN (10) PERCENT, WILL BE ACCEPTED AS A COMPLIANCE WITH THE CONTRACT WHEN CAUSED BY CONDITIONS OF LOADING, SHIPPING, PACKING OR ALLOWANCES IN MANUFACTURING PROCESSES, AND PAYMENT SHALL BE ADJUSTED ACCORDINGLY.

THE CONTRACTOR SHALL HOLD AND SAVE THE GOVERNMENT, ITS OFFICERS, AGENTS, SERVANTS AND EMPLOYEES HARMLESS FROM LIABILITY OF ANY NATURE OR KIND, INCLUDING COST AND EXPENSES FOR OR ON ACCOUNT OF ANY PATENTED OR UNPATENTED INVENTION, ARTICLE OR APPLIANCE MANUFACTURED OR USED IN THE PERFORMANCE OF THE CONTRACT INCLUDING THEIR USE BY THE GOVERNMENT.

NO ORAL STATEMENT OF ANY PERSON SHALL BE ALLOWED IN ANY MANNER OR DEGREE, TO MODIFY OR TO OTHERWISE AFFECT THE TERMS OF THESE CONDITIONS, THE SPECIFICATIONS OR THE CONTRACT.

SUCCESSFUL BIDDERS SHALL NOT USE AWARDS AS A BASIS OF ADVERTISING.

CASH DISCOUNTS OFFERED WITH THIS BID FOR A PERIOD OF LESS THAN TWENTY DAYS WILL NOT BE CONSIDERED IN MAKING THE AWARD. DISCOUNT TERMS MAY STATE "10TH PROXIMO" OR "10TH OF THE FOLLOWING MONTH", BUT THESE TERMS SHALL BE INTERPRETED, AND THE BIDDER HEREBY AGREES THERETO, THAT, IF ACCEPTED, SUCH TERMS WILL GUARANTEE A MINIMUM DISCOUNT PERIOD OF NOT LESS THAN TWENTY DAYS FROM THE DATE THE DISCOUNT PERIOD BEGINS.

NO MEMBER OF OR DELEGATE TO CONGRESS, OR RESIDENT COMMISSIONER, SHALL BE ADMITTED TO ANY SHARE OR PART OF THIS CONTRACT OR TO ANY BENEFIT THAT MAY ARISE THEREFROM, BUT THIS PROVISION SHALL NOT BE CONSTRUED TO EXTEND TO THIS CONTRACT IF MADE WITH A CORPORATION FOR ITS GENERAL BENEFIT.

COVENANT AGAINST CONTINGENT FEES: THE CONTRACTOR WARRANTS THAT HE HAS NOT EMPLOYED ANY PERSON TO SOLICIT OR SECURE THIS CONTRACT UPON ANY AGREEMENT FOR A COMMISSION, PERCENTAGE, BROKERAGE OR CONTINGENT FEE. BREACH OF THIS WARRANTY SHALL GIVE THE GOVERNMENT THE RIGHT TO ANNUL THE CONTRACT, OR, IN ITS DISCRETION, TO DEDUCT FROM THE CONTRACT PRICE OR CONSIDERATION THE AMOUNT OF SUCH COMMISSION, PERCENTAGE, BROKERAGE OR CONTINGENT FEES. THE WARRANTY SHALL NOT APPLY TO COMMISSIONS PAYABLE BY CONTRACTORS UPON CONTRACTS OR SALES SECURED OR MADE THROUGH BONA FIDE ESTABLISHED COMMERCIAL OR SELLING AGENCIES MAINTAINED BY THE CONTRACTOR FOR THE PURPOSE OF SECURING BUSINESS.

#### SUBJECT TO INSPECTION ON DELIVERY

COPIES OF U. S. STANDARD FORM NO. 22 (INSTRUCTIONS TO BIDDERS) ARE AVAILABLE TO ALL PROSPECTIVE BIDDERS UPON APPLICATION TO THE PROCUREMENT OFFICER, 49 FOURTH STREET, (RM. #1104), SAN FRANCISCO, CALIFORNIA.

### NOTICE TO BIDDERS - TAXES

IF SUBMITTED PRICES ARE EXCLUSIVE OF FEDERAL, STATE, OR LOCAL TAXES ON ANY ITEM IN THIS SCHEDULE SUBJECT TO SUCH TAX OR TAXES, OR ARE INCLUSIVE OF SUCH TAXES AND THE BIDDER AGREES TO DEDUCTION OF THE AMOUNT THEREOF FROM THE CONTRACT PRICE AND ACCEPTANCE OF TAX EXEMPTION CERTIFICATES IN LIEU THEREOF, THE BIDDER MUST SHOW UPON THE FACE OF HIS BID THE AMOUNT OF EACH SUCH TAX SO EXCLUDED OR INCLUDED AS TO EACH ITEM. IF THE BID AS SUBMITTED DOES NOT CLEARLY SHOW EITHER THAT THE TAXES ARE EXCLUDED OR THAT IT CONSENTS TO THE DEDUCTION OF A STATED AMOUNT OF TAXES INCLUDED, IT WILL BE PRESUMED THAT THE AMOUNT OF ALL APPLICABLE TAXES IS INCLUDED IN THE BID PRICE, THE BID WILL BE EVALUATED ACCORDINGLY, AND, IF THE BID BE ACCEPTED, NO EXEMPTION CERTIFICATE WILL BE ISSUED.

BIDDERS ARE NOTIFIED THAT THE REVENUE ACT OF 1932, AS AMENDED, IMPOSING A FEDERAL EXCISE TAX OF MANUFACTURERS, PRODUCERS, AND IMPORTERS, PROVIDES FOR EXEMPTION FROM THE PAYMENT OF SUCH TAX WHEN THE MERCHANDISE IS SOLD DIRECT TO THE GOVERNMENT, AND FOR THE ADJUSTMENT OR REFUND OF SUCH TAX IN CASES WHERE THE MERCHANDISE ON WHICH THE TAX HAS BEEN PAID IS RESOLD EXCLUSIVE OF THE FEDERAL TAX, FOR THE EXCLUSIVE USE OF THE UNITED STATES PROVIDED THE MANUFACTURER, PRODUCER, OR IMPORTER SHALL FURNISH EVIDENCE OF THAT FACT SATISFACTORY TO THE COMMISSIONER OF INTERNAL REVENUE. IN CASE THE BIDDER INDICATES BELOW THAT THE FEDERAL TAX IS NOT INCLUDED IN THE PRICE BID, A TAX EXEMPTION CERTIFICATE WILL BE FURNISHED HIM IF HIS BID BE ACCEPTED.

BIDDERS ARE ALSO NOTIFIED THAT THE FEDERAL GOVERNMENT IS EXEMPT FROM THE PAYMENT OF ALL TAXES IMPOSED BY STATES OR LOCAL AUTHORITIES ON COMMODITIES PURCHASED BY THE FEDERAL GOVERNMENT WHERE THE TAX IS LEVIED DIRECTLY ON THE SALE OF THE GOODS. WITH RESPECT TO SUCH TAXES THE BIDDERS MAY, HOWEVER, EITHER EXCLUDE THE AMOUNT OF SUCH TAX FROM THE BID PRICE OR INCLUDE THE TAX THEREIN. IN THE EVENT THAT SUCH TAX IS SPECIFICALLY EXCLUDED FROM THE BID PRICE, THE SUCCESSFUL BIDDER WILL RECEIVE WITH HIS PURCHASE UNDER A TAX EXEMPTION CERTIFICATE.

BIDDERS WILL NOTE PARTICULARLY THAT IN DETERMINING AWARDS, ALL PRICES BID ARE ADJUSTED TO FEDERAL-TAX-INCLUDED BASIS BEFORE COMPARISON; BUT THAT WHERE A STATE OR LOCAL TAX IS INCLUDED IN THE BID PRICE, NO DEDUCTIONS OF SUCH TAXES ARE MADE BEFORE ALL BIDS ARE COMPARED.

WHERE THE STATE OR LOCAL TAX IS NOT A CONSUMER'S TAX, THAT IS, WHERE IT HAS BEEN IMPOSED ON A SALE OR TRANSFER OF THE GOODS PRIOR TO THE SALE TO THE GOVERNMENT, IT THEREUPON BECOMES A PART OF THE PRICE OF THE GOODS AND SHOULD BE DECLARED AS A TAX ITEM ON THIS FORM.

THE BIDDER WARRANTS THAT THE FOREGOING LIST INCLUDES ALL ITEMS OF THE BID WHICH ARE SUBJECT TO FEDERAL, STATE, OR LOCAL TAX WITH RESPECT TO WHICH SUCH TAX IS EXCLUDED FROM THE BID PRICE, OR IF INCLUDED, AS TO WHICH THE UNDERSIGNED AGREES TO THE DEDUCTION OF SUCH TAXES FROM THE BID PRICE.

Dear Sirs:

5-18-42  
The following items have been referred to us since  
our earlier advice to you. These belong to the H. Inaba  
& Sons, grocers, at Walnut Creek, California.

9 cases (48 #1 cans) each Tempura (fish cakes)  
15 cases (48 #2 cans) each Kamaboko (fish Cakes)  
3 cases (24 #2 1/2 cans) each Fuki (vegetable)

As evacuation is imminent at Walnut Grove, we would  
appreciate your prompt attention to this matter.

Yours very truly,

Dear Mr Borden.

The H. Inaba & Son Grocers at Walnut  
Grove have the following Japanese canned  
goods on hand and would like to dispose of  
same to the Government if possible:-

9 cases (48 #1 cans) each Tempura. (fish cakes)  
15 cases (48 #2 cans) each Kamaboko (fish cakes)  
3 cases (24 #2 1/2 cans) each Fuki (vegetable)

I am informed this is a standard Japanese food  
and all Japanese use them -

These people will want to evacuate with this area  
and would like to know as soon as possible if sale  
of this can be made to the camps -

by forwarding to

Dear Sirs:

We are informed that you are interested  
in the purchase of Japanese food stuffs.

You will find enclosed inventory lists  
for those grocery stores which as yet have not  
been liquidated. Prices are not included on the  
bulk of the items but we are under the impression  
that the owners will gladly sell at cost or possibly  
below that figure.

If you prefer to do so you are at liberty  
to contact the owner direct. We shall, however, be  
pleased to have you advise us if and when you con-  
summate any purchases, as a matter of record only.

Very truly yours,

Assistant Cashier

Subject: Japanese  
Food Stocks

Dear Mr. Morrison:

I am forwarding to you herewith inventories of supplies of Japanese Food stocks which you may wish to call to the attention of the Quartermaster at the Advance Depot at Sacramento, and which you may wish to purchase for use in Assembly Centers.

Also would like to call to your attention the fact that Margaret Yamashita, P. O. Box 937, Delano, California has 400 pounds of sugar which she would like to dispose of to the government.

Very truly yours

ATTENTION: Mr. Herbert Armstrong.

Gentlemen:-

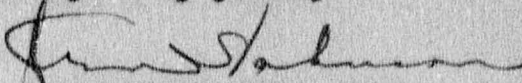

In talking with you on the phone this morning I mentioned the fact that we had a company who were in the market for Japanese Foodstuffs. the name of this company is :

I Sakai Company,  
P.O.Box 5.  
Del Rey, California.

I find that these people will pay a very fair price and while they will probably not be in the market for very much rice, can use practically any other Japanese Food stuffs.

Mr. Evans invited me to go to Tulare with him this morning so I contacted Mr. Adams and Mr. Murray of the Federal Reserve Bank, left my phone number and offered any assistance that I could give.

Very truly yours,

Glen L. Johnson  
Field Representative.

Have been told this concern  
will buy Japanese foodstuffs.  
I have had no personal con-  
tact with them.

SUBJECT: Procurement of Supplies for Assembly Centers  
and Liquidation of Japanese Grocery Stores

Dear Sir:

We are advised that your organization is interested in obtaining Japanese food stuffs suitable for the feeding of evacuees.

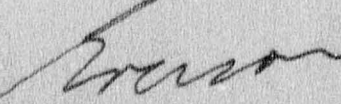

Our information has been that the Army and the Procurement Division of the Treasury were the proper agencies to accomplish this objective. However, due to rulings, with which you no doubt are familiar, pertaining to the origin of such food stuffs and inability to purchase other than "round" lots, we have secured no action as yet.

We are, therefore, enclosing a list of various items, mostly of Japanese origin, representing the inventory of several different grocery enterprises in this area. No decision as to price has been made, but we are reasonably certain that we can work out an agreement with any owner at a price equivalent to cost or lower. Details in connection with delivery, freighting, etc. can be worked out on any items in which you may develop an interest.

May we observe that purchase of these items would simplify the problems of the evacuees, their creditors, and the Government.

Assuring you of our desire to be of service and of our interest in disposing of this problem, we are

Yours very truly,

Assistant Cashier.

Dear Sir:

Please find enclosed inventory list for two  
additional grocery stores located in San Jose.

Thus far we have had no advice as to whether  
you are interested in procuring any of these items for-  
warded by us. We would be pleased to learn whether you  
contemplate any action in view of the imminence of  
evacuation of the proprietors of these stores.

Attention Mr. Robert Borden

Dear Mr. Borden:

Herewith please find enclosed inventory of two Japanese grocery stores, the Dobashi Market and the Okida Company. The Kani grocery store has been entirely closed out. These three stores are the principal ones here in San Jose.

These two companies would be very glad to sell their Japanese groceries in order that they, too, may close out entirely within the next few days.

Grocery Stores.

Dear Sir:

Pursuant to our various telephonic conversations, we are enclosing inventory copy of an additional grocery store in Colusa. Listed additionally are two substantial items of rice, one available in Marysville; the other, in Merced. The latter item, consisting of approximately 50 tons, was submitted by our Merced field representative to your San Bernardino Depot on April 25. Thus far he has had no reply.

Yours very truly,

Assistant Cashier.

Local Quartermaster Corps is purchasing Japanese food stocks including those of Japanese origin for Assembly Centers, having obtained Washington approval of purchase of goods of foreign origin. We understand that they are prepared to purchase odd retail stocks as well as wholesale stocks of needed items on negotiated basis.

If you haven't already done so, suggest you discuss matter with Commander Seattle Quartermaster Depot, Colonel C. O. Thrasher, in the event you are trying to move Japanese food stocks.

We are wiring Portland Branch this information also, inasmuch as Seattle Quartermaster Depot buys for both Oregon and Washington.

Marysville

1. Attached are two inventories offered for sale. (In Marysville) Mr. Hayashi and Mr. Nakagawa, the two largest dealers here have absorbed the stocks of smaller dealers. As they supply a large territory of people, even up around Newcastle and Grass Valley, all in Military #2 and as they do not yet know whether they will be evacuated with Marysville, Military #1, they wish to retain their stocks. When they are actually evacuated they will probably have clean up offerings.

SUBJECT: Procurement of Supplies for Assembly  
Centers and Liquidation of Japanese  
Grocery Stores

Dear Sir:

Reference is made to a telephonic conversation between your Mr. Forsythe and our representative, Mr. Borden.

We have been endeavoring for some time to obtain a ruling from the Army in connection with an efficient method for disposing of food items remaining in the hands of evacuee grocery store proprietors at the present time. Thus far, our information has been that the Army itself and the Procurement Division of the Treasury could purchase only "round lots". It appears from the above mentioned conversation, that such is not the case, and with this in mind, we are enclosing copies of certain inventories which may be of interest.

In addition to these lists from the Bakersfield and Mountain View area, there are numerous small groceries operating in the Marysville-Colusa area which as yet have had no disposition. If you wish to obtain a list of their inventories, we shall be pleased to acquire this information for you as soon as possible.

No determination has been made of price, although some cost figures are included on one of the inventory lists enclosed. As a beginning level, we suggest that on any item you find of interest, we endeavor to work out an agreement with the owner at cost, or perhaps slightly below that figure. In most cases, the owner would be happy to sell at such level, and you will thus avoid any jobber's profit. Details in connection with the point of destination, freight, shipment, etc. may be worked

April 28, 1942

out when and if you have determined items in which you have an interest.

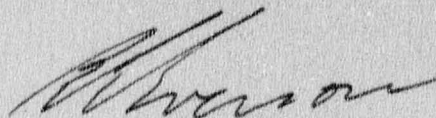

Our representative, Mr. Borden, states that this inquiry was directed to him by Haas Brothers. As a suggested means of expediting your particular problem, the following wholesalers might be in a position to supply you with substantial quantities of all such items as you may need:

North American Trading Co., 330 Front St., San Francisco  
Pacific Trading Co., 100 Sacramento St., San Francisco  
Fujimoto Co., 246 Front St., San Francisco  
Nonaka & Co., 2020 Bush St., San Francisco

May we observe that purchase of these items from Japanese proprietors would simplify the problems of the evacuees, their creditors, and the Government.

Assuring you of our desire to be of service, we are

Yours very truly,

Assistant Cashier.

MEMORANDUM

MARYSVILLE

April 27, 1942

1. In Instruction letter # 17, Revision #1, as of April 25, 1942 the location of Marysville Assembly Center is given as one mile S. of Marysville. It may save someone extra travel to know that this location is actually about seven miles S. of Marysville.

2. Through Mr. Paul Shriver, Mgr. of the Marysville Assembly Camp, I was given the name of Mr. E. F. Morrison, U. S. Army Advance Depot, State Fair Grounds, Sacramento to write to relative to selling for the local Japanese Grocerymen their remaining stocks of specialized Japanese canned goods and groceries. I have contacted these grocerymen and they are now preparing inventories and wholesale prices. Also called Mr. Aki Yoshimura at Colusa asking him to contact the Colusa Grocerymen and have them prepare inventories and wholesale prices of their Japanese groceries.

If these stock are disposed of most of the grocery stores that do not sell as a whole can complete liquidation.

Dear Sir:

With reference to your letter of April 22 in regards rice available in this territory wish to advise that approximately 45 tons of Arkansas Blue Rose is available and will be landed at San Bernadino for \$7.50 per hundred including freight. Approximately 5 tons of California Rice is available and will be landed for \$7.00 per hundred including freight. This will make a 50 ton car. It will take several weeks to get this rice in and to you. It is all top quality and will be fumigated.

Please let me know if you will be able to purchase this rice and when you would expect delivery.

## MEMORANDUM

Marysville

1. In both Marysville and Colusa where small merchants are liquidating their grocery stocks there will be in several cases small lots of specialized Japanese foods. These foods are used almost exclusively by Japanese people and to the older Japanese people are essential. This office called Mr. Shiver, Manager of the Assembly Camp, and he has very courteously consented to try to work out with the proper officials a plan where these odd lots can be purchased for the camps.

2. Yesterday at Colusa the eleven town businesses not yet liquidated were contacted and in each case advise given encouraging action. Also an effort was made to get the names of as many motor vehicle owners as possible. It is not necessary for this office to be a part of each sale except as help is needed and solicited.

ATTENTION: Mr. R. W. Sorden.

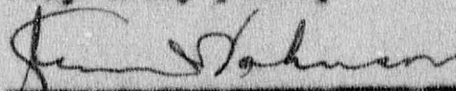

Gentlemen:-

In conformity with your request over the telephone Saturday morning, April 18th, I enclose duplicate list of Japanese goods owned by Japanese Concessioners on the Earl Fruit Co. farm at Delano, and Di Georgia farm at Arvin.

It is hoped that if the Treasury Department is to be a purchasing agency these goods may be disposed of through that medium.

I have also written Colonel Stafford, San Bernardino. However in his case I suggested that if he had use for these goods, I would send a copy of the inventory to him.

Very truly yours,

Glen L. Johnson

Dear Sir:

The following is a letter that I received today from Rosenberg Brothers & Co. of San Francisco, California in regards the rice that the Japanese People have in this area.

"Please accept our thanks for your long distance phone call asking for quotation on approximately 800 bags of Arkansas Long Grain Blue Rose Head Rice.

We can offer you \$6.50 per hundred pounds for this rice stored in a central warehouse. While it is true that the price of this rice is much higher in the South, there has been so much of it thrown back on the market out here we feel that we probably will have to carry the rice for some long time before we can dispose of it."

As yet I have no reply to my letter addressed to the department buying supplies for the evacuee camps. They undoubtedly have been offered rice from most of the Japanese districts and have all they can use. If I hear from them I will let you know.

Yours very truly,

Harold Johnson  
Field Representative

LOS ANGELES

April 17, 1942

U. S. Treasury Procurement Office at San Francisco indicates it will be purchasing for Assembly Centers in this area considerable quantities of specialized Japanese foods. Their office in Los Angeles is doing likewise for that area. If you have not already been in touch with Procurement Officer there suggest you contact him in hope that this will help solve problem of liquidation of at least some Japanese food stocks. Undoubtedly office will not desire to buy small quantities from retailers, preferring to deal in large lots. If wholesale stocks not available perhaps arrangements could be made through some wholesaler to pick up retail stocks for resale to Government. Los Angeles Procurement Officer is Earl Loomis, 1206 South Santee Street.

Attention: Mr. Armstrong

Herewith information regarding the two  
grocery stores in Mountain View.

I inspected these stores last evening,  
and find that the stocks on hand are practically  
all of Japanese manufacture or importation.

The question of the large quantity of  
liquor, "Saki," is a problem. The groceries  
should be sent and be available for use of the  
evacuees at the re-settlement centers.

The wholesalers have refused to take  
"broken lots."

TO: Colonel Karl R. Bendetsen

FROM: W. R. Thomas, Jr.

The Federal Reserve Bank seems to be faced with a food problem:

(1) The average Japanese family has acquired a large stock of foods of various kinds, chiefly rice, sugar, beans, canned fish and crab meat.

(2) The Japs advise the bank representatives that when they attempt to sell this food they are offered only ridiculous prices as low as 10% of cost.

(3) Most of the food items, even the canned goods, will not stand indefinite storage.

(4) Sale to the Q. M. Department seems to involve many complications of assembly, payment, transportation, etc.

In an attempt to solve the problem a tentative agreement was reached with two large grocery chains having outlets throughout the prohibited area. These firms would furnish a list of their several hundred stores and would arrange that these stores would pay approximately 10% below wholesale for all useable food brought to them by evacuees.

Before definite and final arrangements could be made it was necessary to get clearance from the state food authorities. Mr. Duffey, the head of the state Food and Drug Act with headquarters in Los Angeles, was talked to over the telephone Friday, Saturday and again today, when a final answer was given:

(1) The state food authorities, fearing sabotage, are absolutely and unalterably opposed to the sale of any food by evacuees to anyone.

(2) While their enforcement unit is small, their efforts will be directed toward the prosecution of any evacuee who attempts to sell any food items without a license.

It would therefore seem that the only course open is to have the Q. M. acquire the food for their own and/or Assembly and Reception Center use.

TO: HEAD OFFICE  
SUBJECT: Evacuee Property Department

DATE April 6, 1942

Enclosed in duplicate for possible reference to military authorities or other agencies concerned are copies of a letter dated April 3, 1942, addressed to us by James Y. Sakamoto, General Chairman, Emergency Defense Council of the Seattle Chapter, Japanese American Citizens' League.

The letter proposes acquisition by the authorities of the stocks of Japanese food now held by wholesalers and retailers in the area for use in the collection centers and relocation areas.

From conversations with the principal wholesale and retail distributors of Japanese food in Seattle, we find that liquidation of their general merchandise is proceeding fairly rapidly and without undue loss. Japanese individuals, however, are reluctant to buy the various types of Japanese food except on a day-to-day basis, and, in consequence, it appears that considerable stocks of such foods will remain in the hands of the four principal distributors in the area and numerous retailers when exclusion orders are issued. From this standpoint, at least, the proposal of Mr. Sakamoto appears to have some merit.

Dear Mr. Symms:

Further to our telephone conversation of today, I submit herewith in writing the proposal for accumulating through a central organization stocks of Japanese foods now held by wholesalers, retailers and various individual families.

The proposal has a four-fold purpose:

1. To provide Japanese food occasionally for Japanese being cared for at Federal collection centers.
2. To provide a means whereby individual Japanese families permanently located in re-settlement areas may purchase supplies of Japanese food.
3. To help conserve the nation's food supply by making available for consumption stocks of food which might be kept in storage for the duration of the war.
4. To assist wholesalers, retailers, and individual families to liquidate their present stocks of foodstuffs.

It is my suggestion that authority be granted, perhaps to some reputable American corporation or a body set up specifically for this purpose, to purchase existing stocks of Japanese foodstuffs at a reasonable price.

Such stocks would then be made available to the Army for use in Army-operated Collection and Reception centers for those of Japanese lineage.

If, after this phase of the resettlement plan, sufficient stocks are still held, this food would be made available to individual families desiring to purchase their own supplies.

All transactions and proceedings would be under the supervision of the Federal Reserve Bank or some other such proper Federal authority in order that no more than a fair price shall be charged, either by the sellers transferring the stocks to the distributing organization, or by the organization to the ultimate consumers.

Mr. R. T. Symms

I trust that this letter makes the objectives as well as the mechanism of my proposal clear. I shall be glad to confer with you at any time further to this proposal.

Very truly yours,

Dear Sir:

Relevant to your inquiry concerning some 800 sacks of rice, we are informed there is no official army agency through which liquidation might be obtained.

However, one of the men here informally advises us that Colonel Stafford, whose address is Advance Depot, San Bernardino, has been buying substantial quantities of such foods for evacuee purposes.

We would suggest that some spokesman for the Japanese whom you mention, contact this gentleman by letter.

Yours very truly,

Gentlemen:

The Japanese people in the Livingston and Cortez area have recently purchased a carload of rice. This has been distributed among the various families most of them having from 8 to 20 sacks each.

It is estimated that there 800 sacks remaining which haven't been used and they would like to gather them up and sell them to the government or to some wholesale house. The rice is Blue Rose Arkansas Rice, and is cleaned and polished. It would be impossible to sell this to local retail stores as they could not possibly use it.

I have been told that the rice is worth about 10¢ a pound however they might not be able to realize this amount. Do you think this could be taken up with the Army as they probably could use this rice very easily for food.

Yours very truly,
