Have a 1935 Dodge Sedan on contract paying 13.79 per month balance 151.69
Can I ~~arrange~~ take it with me and if not what should I do with it ?
Electric refrigerator orig balance 150 owe 84.00 payable 5.60 per month
have a five room house of furniture all paid for except 19.00 payable 5.00
per month how should I arrange this ? I owe a hospital 20.00 payable 10.00
per month or as and when I can. Owe the Doctor 60.00 have been paying him
as I can supposed to pay 10.00 per month what should I do regarding these
things.

Arrangements can no doubt be made for the refinancing of the whole account
in one small monthly payment, we do not recommend this at this time, can see
no need of your changing creditors go to each one of your creditors and ask
them when needed for a reasonable length of time say 60 or 90 days if
necessary, you will keep in touch with them advising them where you are
and what the prospects are of paying, if they do this for you and I am sure
they will, if not and your experience difficulty come back and see us and
we will assist in working out some other solution. You can take the with you
in any part of the state, if you have to go out of the state ask the company
if this can be done. if they refuse come back and give us the circumstances
or write to us. You are in a position to sell or store your furniture
recommend Federated Missions of Pasadena Inc for storage.

Principal property involved and scope of problem:

In accordance with your recommendation of March 23rd, 1942 I went to Sears-Roebuck Company and they advise no arrangements have been made for extensions of this kind, the only thing to do is put the furniture in some one else name if they are responsible and wish to take over the contract we will consider it. Went to the General Electric who hold contract on my refrigerator and they told me practically the same thing. The finance Company holding my contract on automobile made me pay two payments in advance and I am to meet the June 15th payment when due or return the car. I took it up with my employer and they have advanced the money to me to pay off as demanded.

We have a small vegetable stand at 1289 North Fair Oaks, Pasadena have been there 8 years have about \$75.00 worth of vegetables scales stands 24 rabbits a 1938 Dodge Panel Delevery truck something around \$100.00 in cash our home we paid our home we bot 4 years ago paid 2200.00 for it and have a balance of 900.00 with Security 1st National Bank who are going to act as our property managers in handling it.

Under date of May 8th, 1939 my husband and I exacuted a note in favor of Affiliated Merchants a Corporation in Los Angeles for \$1786.60 to gether with interest at 7% per anum for vegetables purchased from a wholesale dealer in Los Angeles, this naote was payable on the basis of \$35.00 per month which we have paid and brot the note down to \$631.60 the payment that was due on March 5th 1942 we gave them a post dated c check due March 25th, 1942 that is today, today they served us with a summons in the Municipal Court of Los Angeles #615806 demanding the balance of 631.60 plus interest from May 8th 1939 together with attorney's fees of \$55.00 and costs. What if anything can we do about it ?

I called Mr. Wall Michigan 8788 of the Affiliated Merchants and was quite un-cooperative to say the least, giving me no consideration, and I advised him I was sorry that the matter would be reported to Los Angeles for their consideration. He later called me back in the late afternoon and talked for 30 minutes explaining their possition in the matter which was as far as I am concerned a "Bag of wind" he also stated that he had discussed with Attorney Larrabee, at the Federal Reserve Bank in Los Angeles and that he (Mr. Larrabee) agreed that the Affiliated Merchants were within their rights and justified, I advised him in this case it would be final as Mr. Larrabee's decision would naturally stand. I phoned Mr. Larrabee and gave him the situation from this office, which was some what contrary to the situation as given to him. Therefor this report and it would seem that some relief and

Principal property involved and scope of problem: We operate a grocery store ^{etc} vegetable stand and small meat department at the above location, we rent, no lease pay month by month, have been here 17 years. Have scales Ice cream referator, Cash register, soda water machine I ahe advertized for some time and have had lots of people come but they do not want to give us anything for the equipment, for instance the scales cost me 7 years ago \$250.00 and they wanted to buy them for \$35.00. We have educated our children here in Pasadena and made a living out of the business by early and late hours, this is all we have and no cash money, for moving. what should we do ?

There has been no definite date set for you leaving, you have ample time to ~~make~~ work this thing out, if you are notg being paid an amount for your equipment that you feel is equitable, keep it place it in storage Referred her to Federated Missions, Inc. they will act as you tell them and sell to better advantage possibly at some future date, the charges are reasonable and your property well cared for. It is hard to sell ~~Actual~~ ^{Actual} ~~bag~~ ^{bag} grocery businesses of this nature. when you have made arrangements and when you decide you would like to and are ready, funds are available for your assistance as well as transportation, you will be advised as to what you should take, and if you store your furniture it can be sent to you at some future date. (A rather sad case old and weeping* Rest assured everything is being done by your church, Japanese American league, and they and we are not going to let you or your family suffer. Unless these things work out to your satisfaction would be glad to have you let me know and we can assist you.

Supplementing report of March 24, 1942

Came in in response to our letter of 4-17-1942

License expires on April 30, 1942, has had this store for the past eleven years
License fee 12.00 per year, does it have to be paid in full for so short a time.
Have been unsuccessful in disposing of vegetable stand and meat counter to date,
and therefore doubt if can be sold and lease transferred.

Action taken: * Discussed the possibility of paying for the time this vegetable stand
is used rather than pay a full years license with Mr. Cheshire, License Dept.,
City of Pasadena, advised no provision for this sort of arrangement, it would be up
to the Police Dept. when delinquent notices are forwarded to them to take action,
Discussed with Chief Detective Decker the circumstances who advises would take about
two weeks before they receive reports, go ahead and run the business, in case they have
trouble let me know and will arrange to have the case dismissed.

We have been selling to various Japanese on open account various supplies for a long time in the upkeep of their truck gardens and gardeners who take care of individual places, what can we do about it and where can we find out where they go when they move out.

In most cases there will be a record of change of address at the post office, send a registered letter with request that new address and signature be procured, Records will be kept, and information available at camps where assigned and re-assigned, most of them will no doubt take care of their accounts, exceptions will have to be dealt with as you see fit, before taking too drastic actions, would suggest that you call me and will be glad to discuss a few cases with you.

J. Harry Parr representing the Automobile Club of So. California from their office in Los Angeles called at my house last night and demanded that I sign this paper authorizing them to sell my car and this Power of Attorney to sign off certificate 1941 Plymouth Del Coupe bought July 1941 paid 497.50 down and according to contract balance payable in 24 payments of \$1.24 each all payments have been paid the last due 3-25-42 was paid on due date. Either I must sign this paper giving the car up or pay the entire balance due under the contract.

Called Mr. Greer, manager of the Auto Club of S. Calif in Pasadena and gave him the circumstances, alright Woodward I will call headquarters and call you back. Called back and advised we have had many inquiries asking us to assist in helping these people to dispose of their cars for them, in view of many buyers taking advantage of them, so we are trying to render all possible aid in this re ~~spending~~ ~~transfer~~ not compulsory on the part of the individual to relinquish his car to us or pay off the balance as long as he is not in default. So advised this party.

(Note) May be this is so, the circumstances on both sides of the Auto Club in L. A. and the information gathered thru Pasadena office, there is a question in my mind but somewhere down the line a little high pressure has been brought to bear.

Principal property involved and scope of problem: For the past twelve years I have had a lease at the above address it is a Schell Oil Station paying 100.00 per month pumping around 7000 gallons per month untill late it has fallen off to 5000 and 25% is Japanese trade. I lease the property from Mrs. Kienly 46 Terrance Drive Pasadena I have 4000 worth of equipment paid for there Mr. Frank Savage of Wilshire Investment Co L s Angeles is willing to finance the equipment and Mr. Moran Depot Mgr., Shell Oil Manager wants me to arrange to keep the station. Can I make Mrs. Kienly buy my equipment and finance it. Otherwise what should I do ? Can you have the property frozen.?

Action taken: I talked with Mrs. Kienly yesterday and she wants you to arrange if possible for the continuance of the station by arranging with some other party to take it over, you can sell transfer or otherwise dispose of your lease on the property and at the same time sell your equipment if you can find a buyer for it. You cannot force the Lessor to purchase the equipment or have the property frozen. This is a matter that should be worked out while you are on the ground between yourself the lessor Schell Oil Company and the Wilshire Investment Company I know the property and it would appear that with all parties co-operating this should be done.

I am contemplating purchasing the grocery business from the Japanese people at 1230 East Colorado Street, Pasadena.

Can I buy from them ? Can they sell to me ? Will there be any question regarding the price they sell to me for ? Especially in case they sell less than what they paid wholesale for the goods ? Do you personally know the people and have they been doing a good business ?

Yes if terms are satisfactory to both sides you can buy from them and they are in a position to sell to you. The price they sell for will not be questioned by any one, the set price they are supposed to sell for on the market as laid down by the Fair Trades Act applies to retail purchases only and does not apply when selling out an entire business. Yes I personally know the store and the people and as far as I know they bear a very good reputation in the community doing a good business, you might talk with the Union Oil dealer across the street, they know them very well.

I think you will agree with me that you do not have much if any equity in the refrigerator, suggest you get some one to take over the ~~Arbitration~~ getting what you can if anything for your equity, otherwise let the finance company have it. You have a rightfull equity in your car if you are going to dispose of it better do it now getting what cash you can for your equity and know where you stand, called Leon Kingsley bid from 350. to 400 "If I do not want to buy it can get other bids from dealers who will" sent them down to see Kingsley.

If wnd when they are released and we are not here what can be done to send them to us ? How can my father sell his truck ? Can we take our radio with us ?

According to the correspondence you wrote the Federal Reserve Bank of San F Francisco and they replied and according to the memo. on this letter Mr. Anderson your fathers employer took the matter up with Mr. McRitchie at the Federal Reserve Bank in Los Angeles what information was given Mr. Anderson for your father in your behalf you will have abide by. In case they are to be released and you leave your address where you are residing, proper steps can be taken thru the bank for their release, this can be handled by correspondence. Your father can sell his truck for cash, if it is to be sold on a time payment payment plan take it up with your local bank they will probably handle the contract and advise you as to the terms that should apply. You can take your radio with you except when you go, if you do to one of the Government camps.

I have a contract on my furniture or a small portion with Kays Furniture Company in Los Angeles I have done business with them for 8 or 9 years owe them 180.00. Have an account with Los Angeles Gas and Electric Company on an electric stove 3 year contract paid 14 months what should I do about them? In going to Owens Valley and we have a bank account should we change it to there? What should I do with the furniture that I am not allowed to take with me or do not wish to take? What can we take to camp especially food ~~ix~~ I can buy on a wholesale basis here is it advisable to stock up and take with me?

Go to your creditors and tell them what is necessary for you to do they know it anyway ask them that under the circumstances can you have a reasonable time to get settled and know where you stand as to income location etc. I am sure they will give you the proper cooperation, if not come back and see me and something possible can be worked out from another angle. In changing your bank account that is optional if you have done business with your present bank and know them there is no need to change, there will be banks there who will be glad to cash your checks for some reasonable amount. Regarding the storing your furniture I refer you to the Federated Missions of Pasadena Inc they are in a position to take care of you in this respect. You will be advised as to the amount of things you can take with you at the time you make arrangements for departure, as in the case the men leaving today that were all given instructions in this respect plenty of time in advance, this applies for food supplies as well.

Going east to Pennsylvania will we encounter restricted zones also ? Can we go to schools there ? What about travel permits where do we go to get them ?

Tes Corcoran California is out of the restricted zone. Yes in order and believe the best way to appoint Federal Savings your agent as they now are doing business and will no doubt look after your interest properly. In going east the only restricted zones will be possible airports, large dams power plants and possibly the like you local gas stations will advise you or roads will be posted. This is the only state that we are moving people out of on a large scale except Washington and Oregon. You are privileged to go to school anywhere and have all your rights as a citizen except getting out of this restricted zone. Travel permits are issued in your case it does not apply, this is for aliens only.

We are storing our furniture with some good friends of ours is this alright? Can we take our car to Owens Valley and if we do can we use it or will it be taken away from us?

Go to your bank and work out a plan with them for an extension of time smaller payments according to the income when you get settled, or sell your equity and have the contract transferred, am sure they will assist you, if for any reason they are not co-operative would like to have you come back and let me know. We are empowered to help you and we will. It is alright to store your furniture with your friends if you know they will properly take care of it. This also applies to your refrigerator according to arrangements with your bank. Yes you can take your car to Owens Valley it will not be taken from you you are in a position to use it as you see fit. Your citizen rights do not change in any way except to get out and stay out of the restricted area.

I think after whwt you have told me I will have them wait until I receive word from the Sherriffor County Commision, Salt Lake County whom I am corresponding with, for permission to enter.

Yes they can go, travel permits are issued at this office and they can obtain them, they are not effected by the curfew law in case they are evacuating provided they leave before Saturday night. Yes they can wait until April 10th, unless we receive orders to the contrary. Waiting to hear from the Sherriff etec seems to be the proper thing to do, rather than rush them into this at so short a notice.

We own our home clear and have appointed thru our Real Estate to do the necessary is this alright?

We lease a grocery and vegetable store and we are turning it over to the butcher in the same store to run it for us, we know him very well and he is reliable what would you suggest further.

My brother has a car can he sell it and on what terms ?

Can we make arrangements to go to Utah ?

My brother in law is buying an electric ice box on term payments can he continue and what should he do with it.

Can he take his car with him if he goes to Owens Valley or elsewhere. ? Can he take his trailer in case he goes to Owens Valley

Regarding his trailer would suggest that he get in touch with the

Marynoll Mission Hewitt St. L. A. and discuss this with them.

Yes by appointing your real estate agent with proper authority to handle your property on a property management basis it is perfectly in order. You should do the same thing with the butcher who is going to handle your grocery and vegetable business, giving him proper power of attorney for this purpose before you go so he will be in a position to act in case of necessity, personal permission

Action taken: By word of mouth may at some future time not be sufficient.

Your brother can sell his car for cash in the event he sells on terms refer to your bank for handling of the contract and they will tell you on what terms it can be disposed for. Yes you can make arrangements to go to Utah, by getting permission from the U. S. Attorney's to travel to another location and making proper change of address at Post Office. Your brother can continue payments on his ice box and make arrangements for its storage in his absence, might recommend that you see Rev. Kengo Tajima, of the Japanese Union Church and sure he can help you in this respect. He can also take with him if paid for to any location.

Principal property involved and scope of problem: This party who is a very highly respected Pasadena Citizen has been cooperating with the Japanese people in helping them solve their problems, and working on various boards and committees locally with prominent Pasadena people. He acts as sort of a clearing house here for information and is a great help in instructing the Japanese people in what they should do. I would like to ask you various questions in connection with this program.

In case they go voluntary can they appoint their own agent as custodian of their property and assets. I advised him this would be perfectly in order.

Will our assets be frozen when we go. I advised him they would not.

Can we take if we transport ourselves anything we want, Electric Refrigerators Sewing machines, stoves furniture etc. Other than to a Government camp Yes In going to a government camp specific instructions will be issued by the Marynoll Mission 222 So. Hewitt St., Los Angeles with whom you are familiar.

Can a few stay until the last to take care of certain things for the rest of us? Yes we are not attempting to work a hardship on anyone and will be glad to co-operate with you knowing you are doing the same to us.

Action taken:*

What about our life Insurance policies? They can be taken care of in accordance with the various policy adjustment clauses; Cash surrender value, paid up insurance, Loan values, extended insurance, medical examinations if necessary payments in arrears brought up to date when the individual is in a position to do so.

Should we change our bank account to Owens Valley? Not necessarily, you possibly know your banker here, there will be a bank there to do what ever is in order, this should be optional use your best judgment. Handled by: _____

Can we arrange to operate a Consumers Cooperative Store, having each person put in so much cash and operate it ourselves? We do not any of us know at present how long you will be there this is to act as a clearing house to get as many as possible on a productive basis in the hope that the operation will be self sustaining, that can better be decided after this thing is under way you have been up there yourself, and if it possible and feasible it will be given consideration.

How about transportation for those who are not financially able to pay for it. Transportation will be furnished in such cases.

We anticipate having about 500 ready to go in about 30 days can you handle this many or more if we are ready. Depending on the number going from other sections, would suggest that attempt to work this out thru the Marynoll Missions, 222 So. Hewitt Street, Los Angeles, they are acting as headquarters for such assignments.

We would like to have you all do as much as possible to liquidate your properties and assets if advisable and put your house in order to evacuate gradually and as speedily as accommodations are available.

Called Colonel Evans, in the Army with headquarters in Constance Hotel Pasadena, "the only person delegated to give permission in connection with matters of this kind in Mr. Milton Eisenhower, Wartime Civilian Control Administrator, Whitcomb Hotel, San Francisco, California" so a advised this party in addition I recommended his going into the proposition very carefully in view of a 13,000 to 15,000 investment in case you are given written authority, in ~~real~~ reality this is not necessary, you are already given this authority under 68A and explained this to him, there is no guarantee that the restricted area might be extended and you are pretty close to the present Government Camp at Manazar, Calif.

Can I get a travel permit to go to Idaho, and if I do can I get in the State, I understand the Governor has refused to let us come in, I lived there for 15 years and have friends there and know I can make a living. Bot our home here paid 2400.00 balance 620.00 7 rooms will rent for about 28 to 30.00 per month paying Bank of America 25.00 per month. What arrangements should I make ? If we leave on or about April 10th will that be alright.? Can my Daughter enter school there as well as she can here ? Will there be danger in traveling getting gas and assistance if necessary ?

Travel permits are issued in this office for any destination out of the restricted area. Yes you can enter the State of Idaho, you have the same rights of citizenship that you always have had expect to get out and stay out of the restricted zone. Arrange with your bank on a property management to rent your house collect and do everything you would do if you were here. If they do not wish to do it for you come back and I can send you to some reliable person who will. Yes April 10th will be alright, for your departure. Yes your daughter can go to school there, or any place out of this area. Do not believe you will experience much difficulty in traveling, Reports have come to me in certain small towns Japanese have had some trouble in getting gas, keep your car well filled report to the police or sherriff any difficulty, and to the major companies who distribute gasoline, the companies themselves want to cooperate and help you.

What did you tell them to do, when they came in the other day ?

Do they have to leave in three days ?

According to the terms of your lease you know what you can do regarding the collecting of your rental. I advised them to sell out to the best possible advantage either in full block stock or by the piece or place in storage if they desire. No a definite date has been set for their removal.

Action taken: * There are no restrictions as to amount of cash you can take with you, recommend you take any sizable amount in Bank Money orders. You will have to find a home or otherwise dispose of your dog before going. Arrangement can be made for the storing your automobile before you go, recommend that it be sold as the depreciation and deterioration would not warrant keeping it for so long a possible time.

Under the terms of the policy you can take advantage of several clauses under it cash it in, have paid up policy issued, or extended insurance, under the last clause you can re-instate it at any time by paying up the payments in arrears, a physical may however may be necessary. RE: Santa Anita Camp

Gentlemen:

The writer spent an hour and a half at the above camp this morning to gather certain information first hand to answer certain questions asked by evacuees and to stop certain rumors going about.

There have been reports that clashes had occurred between Japanese and soldiers as the result of the Japanese receiving more money for doing nothing than that received by the soldiers. The Japanese do not have occasion to come in contact with soldiers; there are no soldiers in the camp, all being stationed on the outside as guards. Mr. Wilbur informs me that the Japanese are receiving no money for services performed at the camp.

Laundry facilities are about completed that will be handled by their own people and there will be clothes lines and places for their individual laundry work. There is a certain amount of gambling among the Japanese, and it is not advisable to take any great amount of cash with them; checks can be cashed at camp subject to collection within a few days. Mail is being well distributed promptly. There are recreation centers in and around the grandstand for the children as well as adults.

In view of the possible short stay at camp no education arrangement has been made. It is expected that the camp will be cleared on or about October 1st, 1942, as this is a temporary camp. Several kindergarten classes were being taken care of by Japanese girls. I talked with several families and inspected their quarters; they were quite pleased at our coming out and were apparently well satisfied with their surroundings. They advise bringing all the clothes possible and curtain material for the windows and the partitioning off the interior seems to be in order. Wash basins and pails for washing clothes are essential. In the mess hall they are furnished with cups, knife, fork, spoon and plates with food already on them. The food according to Mr. Wilbur

is very good. Five dollars cash will last a person a month, as all one can buy are cigarettes, candy and ice cream. Within a short time milk stations will be open 24 hours a day and people with small babies can by ration cards get what is necessary for their children.

Respectfully submitted,

N. R. WOODWARD,
Field Representative
