Gentlemen:

One of my clients, a farmer in Suisun Valley, is in possession of an automobile left in his possession by a Japanese upon the latter's evacuation.

It was understood between the parties that the automobile should be used by the farmer at his discretion in consideration of his keeping the same.

I am writing, therefore, to determine whether or not your Department has any objection to such an arrangement and, also, whether you would object to a transfer of the title to the Vehicle in the future should the occasion arise.

Very truly yours,

(Signed) Richard C. Dinkelspiel

Attention: Mr. H. D. Armstrong

Dear Sir:

We refer to our telephone conversation of yesterday with reference to a letter, which we enclose herewith, from Mr. Richard C. Dinkelspiel, Attorney at Law at Fairfield, California.

As the contents of this letter no doubt will be one of many inquiries along the same line, we are very anxious to have a copy of the letter that you send to the above party.

It is our opinion that this inquiry involves many questions of import and of course we would want the San Francisco Office to advise us as to future policy with reference to other property questions along the same line.

We are

Very truly yours,

FEDERAL RESERVE BANK OF SAN FRANCISCO

FISCAL AGENT OF THE UNITED STATES

June 6, 1942

Richard C. Dinkelspiel, Attorney-at-Law
Solano County Title Building
Fairfield, California

Dear Sir:

Reference is made to your inquiry of May 26, 1942 relating to the disposition of an evacuee's automobile.

As a general policy such arrangements as you indicate for the custody of vehicles is not unusual. Normally, possession has been protected by mutually satisfactory agreements as to liability on the part of the legal owner and compensation for usage, etc. From the statements in your inquiry we of course cannot determine if a satisfactory relationship is evidenced by a written instrument, whether the legal owner is the same as the registered owner, or if there was any understanding prior to evacuation leading towards eventual sale.

This bank has endeavored not to place itself in the position of objecting to or approving agreements between Japanese and Caucasians. Where disagreements were brought to our attention we have endeavored to act as impartial referee, protecting the interests of all parties concerned. As such, many problems of the character you outline have come to our attention. Nevertheless, we wish to advise you that any arrangement which is satisfactory and equitable to the evacuee need not bear our approval before consummation.

If you and your client and the Japanese feel that we are in position to be of help, please do not hesitate to call upon us.

Very truly yours,

RWB

Mr. A. J. Reid, Field Representative
Federal Reserve Bank of San Francisco
Evacuee Property Department

Dear Sir:

Reference is made to an inquiry posed by you in a telephonic conversation with this office earlier in the week.

We have discussed at some length with prominent insurance brokers, the question of liability risk and insurability in cases where evacuees have delivered vehicles to Caucasians for usage during their absence.

Generally speaking, no objection was expressed by these agencies to such arrangements. They unanimously stated, however, that each such delivery should be evidenced by a written instrument covering the salient points of such an agreement, including a nominal consideration. Ordinarily, a power of attorney or lease agreement would suffice. Reregistration showing the registered owner to be that person who is in possession as distinguished from the legal owner is definitely advisable. Further, some clause should be included in the agreement indicating liability of each party arising under accidents, property damage, etc.

Generally speaking, insurance companies have not welcomed the Japanese as risks. This was the case long prior to war time. In each such case, under the method outlined above, the underwriter would necessarily make an investigation of the possessor of the vehicle in order to determine his desirability as a risk. Additionally, some record would be essential concerning the Japanese legal owner, showing his place of birth, length of residence in this country, etc.

If, after such investigation the operator and the Japanese owner proved satisfactory in conformity with their usual requirements, there was no reason why reasonable protection could not be obtained at a proper rate.

In view of the fact that many such arrangements have already been made throughout Military Area No. 1 and presumably are being made in Military Area No. 2, frequently without written instruments, it is of course impossible for us to inform interested parties concerning these requirements. However, the foregoing will serve for you as a foundation where future problems of this general character arise.

Very truly yours,

Insurance

Mr. Reid:

I spent quite a little time with Mr. Arthur Brown, attorney for Brown Brothers Insurance, also owner of the business.

Mr. Brown says that, to his knowledge, there were only two cases in California the last ten years where an attempt was made to sue the legal owner for damage claims caused by the registered owner operating the vehicle.

In the first case, a court decided in favor of the claimant. However, shortly after, the superior court made a decision in the opposite.

Since then, there has been no record of claims filed against a legal owner where a car was operated by the registered owner. Mr. Brown cited many finance companies in California, and banks and so forth that do not have coverage that would be good examples. There has never been any case to his knowledge where a suit of that kind was brought against a legal owner. He says the legal owner is holding the certificate mostly for interest in the property and not in the operation of said vehicle. However, it is well for the legal owner to stipulate that the registered owner must have insurance covering the vehicle and in that case, it is absolutely impossible to involve the legal owner.

Mr. Brown states that no attorney with any experience will accept a case against both the legal owner and the registered owner.

I talked with McGee and Thielen at lunch. They both agreed that in their experience, it is a rare case where a claim is filed against a legal owner of the vehicle. They also suggest that a legal owner can write a letter to the registered owner and where his equity is of such an amount that it would pay him to insist that the registered owner have insurance on the vehicle.

There was also a district representative from one of the large insurance companies (I did not get his name). However, he sat in on the conversation while McGee and Thielen were rendering their opinions.

I hope this is the information you desire, Mr. Reid. I am on my way to Vacaville with Mr. Schmitt.

Yours truly,

M.J.Richert

June 15, 1942

Mr. Hank Theilan informed me this morning by telephone that none of the Board Companies are writing any insurance involving any Japanese at the present time.

In reference to automobiles, regardless of where the Japanese names may appear, either as registered owner or legal owner, this would apply.

It is possible to obtain a limited insurance policy in a case where a Caucasian registered owner may apply for and be granted insurance under remote circumstances. In this case, the legal owner (Japanese) would still be subject to liability such as a legal action and in this case of course would not have any protection.

Mr. Theilan also informs me that he doubts very much whether any non-Board Company in this District is carrying any insurance in favor of Japanese.

INSTRUCTIONS TO STENOGRAPHERS

LETTERS

1. Letterheads

Three types of letterheads are used for correspondence, as follows:

BANK LETTERHEAD - For use in connection with bank operations and other general correspondence. This letterhead should be used for "Fiscal" activities for which no special Fiscal letterhead is provided.

BRANCH LETTERHEAD - All routine letters to branches should be written on branch letterhead, Form LH-1 or LH-1A. (Credit reports should be written on Form CR 1 as outlined on page 4.)

FISCAL LETTERHEAD - Two styles of Fiscal letterhead are used; i. e., Fiscal Agent of the United States and Fiscal Agent of the Reconstruction Finance Corporation.

If the stenographer is uncertain as to the type of letterhead to be used, the dictator should be consulted.

TISSUE COPIES - Tissue copies corresponding to the Bank, Fiscal Agent of the Reconstruction Finance Corporation and Branch letterheads, are provided for forwarding copies of letters to other than the addressee. The Branch letterhead tissues are Forms LH-1B and LH-1C.

2. Salutation and Closing

The salutation "Dear Sir" or "Dear Sirs" and the complimentary closing "Yours very truly" should be used, with the exception of letters to the Board of Governors of the Federal Reserve System or officials of the Treasury Department, in which case "Sir" or "Sirs" and "Yours respectfully" should be used. (This does not apply to letters to be signed by executive officers, which should bear the salutation "Dear Sirs" and the closing "Yours very truly".)

Letters addressed to the Board should be in the following form:

Board of Governors of the
Federal Reserve System,
Washington, D. C.

Punctuation marks should be used in all addresses.
Letters to branches on Form LH-1 or LH-1A should bear no salutation or complimentary closing. The title of the person who is to sign the letter should be typed a sufficient number of spaces below the end of the letter.

Letters written to branches on Form LH-1 or LH-1A should <u>not</u> be marked for the attention of any particular individual, but addressed to the branch only.

INSTRUCTIONS TO STENOGRAPHERS

LETTERS (Cont'd)

3. Date

The date on Bank and Fiscal Agent letterheads should be placed in the center of the page, just below the printed heading. A space is provided for the date on the branch letterhead. The month should not be abbreviated.

Branch letterheads have printed "Subject" and "Reference" captions. The "Subject" may be ommitted from brief or routine letters.

4. Identical Letters Addressed to All Branches

Letters directed to more than two branches, where there is no change in the text, should be hectographed.

5. Initials of Dictator and Stenographer

The initials of the dictator and the stenographer should appear in the lower left corner of carbon copies only (not tissue copies) of all letters. This may be accomplished by inserting a small slip of paper over the space on the letterhead or tissue copy where the initials would otherwise appear.

6. Spacing

It is preferable that letters be single spaced.

7. Enclosures

Where enclosures should accompany letters, the words "Enclosure" or "Enclosures" should be typed in the lower left corner of the letters.

8. Air Mail

Letters to be sent air mail should have "AIR MAIL" typed in the upper right corner, one and one-half inches from the top.

9. Registered Mail

Letters to be sent registered mail should have "REGISTERED MAIL" typed two spaces above the address.

10. Envelopes

Envelopes need be addressed and attached only to letters directed to commercial banks in other Federal Reserve districts and to individuals, corporations, etc.; other letters are enclosed by the Mail and Messenger Department in envelopes prepared in advance. Envelopes should also be addressed for routine advices directed to individuals and corporations.

Revised June 10, 1941

INSTRUCTIONS TO STENOGRAPHERS

TELEGRAMS

1. Telegram Forms

Two forms of telegraph blanks are used, as follows:

Mis. 16 - for all open messages;
Mis. 15 - for coded messages.

Extra copies of fiscal agency reimbursable leased wire telegrams should be made on Form Mis. 16E.

Inasmuch as those departments coding messages are familiar with the preparation thereof, stenographers should consult with the originator of the message in case of doubt as to the method of preparation

2. Addressing Telegrams

Interdistrict telegrams over system wires should bear the name of the office only as addressee, i.e., "Dallas", "Houston", except those between officials which should be addressed personally.

Intra-district telegrams over branch wires should bear the name of the branch only as addressee.

Telegrams to the Board should be addressed "Board, Washington" and telegrams to officials of the Treasury Department or the Board should be addressed to the official, using the surname only, followed by the word "Washington".

All system wires on Reconstruction Finance Corporation business, sent to the Corporation at Washington, should be addressed to the corporation, or to an individual, without indicating such individual's title.

For example - "Reconstruction Finance Corporation, Washington." or "Mulligan, Washington."

All system wires on Corporation business, sent to other loan agencies of this District, should be addressed to the Manager or Acting Manager of the agency, followed by the letters "R.F.C."

The address on a commercial telegram should be complete, for example: "Federal Reserve Bank of Chicago, Chicago, Illinois."

3. Identical Telegrams Addressed to Two or More Branches

Identical telegrams directed to two or more branches should be prepared on one set of telegraph blank forms, and the names of the branches to which the message is directed should be listed, in alphabetical order, in the space provided for the name of the addressee.

4. Text of Telegrams

All messages should be as short as possible and all words not necessary for clarity, such as "the" and "of, should be ommitted.

INSTRUCTIONS TO STENOGRAPHERS

TELEGRAMS (Cont'd)

It is preferable that the subject matter be double spaced.

Telegrams should be free from erasure or interlineation of any nature.

Use punctuation marks in all groups of figures representing amounts; otherwise only when it is desired that punctuation marks be transmitted. Do not use words "stop", "period", "quote", etc.

Whenever numerals are used in a telegram which is to be sent over the system wires, designate by figures rather than by words.

Figures rather than words should be used in commercial wires, except in instances where the message is of a confidential nature and code is used.

5. Name of Dictator

The name of the dictator should be shown in the lower left corner on the original and all copies of messages.

Discount and Credit Department Stenographers Only

CREDIT REPORTS

Form CR 1 (Credit Reports) should be used in lieu of the usual branch letterheads (Forms LH-1 or LH-1A) in those instances when correspondence with branches contains only credit information relating to a specific account or borrower.

The name of the city in which the branch addressed is situated should be inserted immediately following "MAIL TO" and the form should be dated in the space provided. The "Name of the Individual, Partnership, or Corporation" whose account is referred to in the context should be entered over that caption and the name and address of the bank interested in the paper for discount, collateral or as an industrial loan should be entered over the caption "Name of Bank or Financing Institution". The amount of the note should be shown in the space provided.

Letters prepared on this form should bear no salutation or complimentary closing and the title of the officer who is to sign should be typed as the titles have not been printed on the form.

The carbon copy to be retained in our file should be made on Form CR 1.

NOTE: Further instructions covering the preparation and handling of correspondence and telegrams, including signatures on outgoing telegrams, designating class of commercial telegrams, Pronto telegrams, and word count of both system wires and commercial wires and the use of confirmations, are contained in the Manual of Miscellaneous Instructions, and the Transfer and Telegraph Manual, Subject Caption "Preparation of Telegrams".

B-27 Requests for Reimbursement

FEDERAL RESERVE BANK OF SAN FRANCISCO

FISCAL AGENT OF THE UNITED STATES

March 21, 1942

Field Representatives
Evacuee Property Department

Instruction letter No. 5.

Subject: Expenses

Reimbursement will be made to Field Representatives for traveling expenses (incident to official business), postage, telephone charges, and similar petty expense items. However, stationery and other office supplies should not be purchased locally as such supplies will be forwarded, upon request, by the office of this bank with which you are affiliated.

Requests for reimbursement should be submitted to the office with which you are affiliated as soon as possible after the last day of each month, or may be submitted more frequently if the amount of expense makes it desirable. The expense items for the preceding calendar month (or since last submitted) should be scheduled on Form E 27 in duplicate, indicating expense account "5046" as the unit of charge. Four copies of Form E 27 are attached, together with pages 10 and 11 of the bank's Earnings and Expenses Manual, which outline in detail the basis of reimbursement for traveling expenses and the manner in which Form E 27 should be prepared.

Expense of transportation from place of abode to office is not reimbursable.

Attention: Mr. E. E. Everson, Assistant Cashier

Gentlemen:

A. Walnut Grove

In a survey at Walnut Grove, in an attempt to secure a suitable storage place for evacuees personal property, we found that the Buddhist Temple was unsuitable and the Japanese theater could not be used because of the fact that it is a fire trap. The most logical place, if it can be secured, is the Oriental School Gymnasium at Walnut Grove. This school is operated by a general property school tax. The building would give ample space to meet our needs at Walnut Grove.

The possibility of securing the use of the Gymnasium was taken up with the trustees of the Oriental School Board, Mr. Rod Towne, Al Kammeyer and A. V. Chargin. They favor the idea of renting the property on the basis of a 90-day-lease with option to renew. However, they wish to take the matter up with the Sacramento County School Board. According to the president of the local board, Mr. Kammeyer, he could not see any reason whatsoever why they would not be able to rent the auditorium. In a discussion with the Japanese at Walnut Grove the attendance of this particular school was estimated to be about 70% Japanese and 30% Chinese. However, the school board felt that it was closer to a 50-50 percentage. This would not have any effect upon the renting of the location, but was merely brought out as a point that they would not have to close the school entirely because of the evacuation of the Japanese.

In the particular district it was estimated that there are 160 families and 300 single men, or an estimated total of 1050. Of this, 50 families are ranchers. This covers an area that is normally served by Walnut Grove - namely the Islands of Tyler, Andrus, Grand, Ryde and Ryer, and the towns of Verden and Locke.

B. Isleton

At Isleton, California, we found that the Buddhist church and school would be a suitable place for the storage of the property of the 25 families living in the town and the 40 families living in the outlying areas operating ranches. In the particular district it is estimated that there will be 350 evacuees. This includes 25 ranch hands. After carefully checking over the space available at the school and church it was found that there was approximately 3400 square feet of space available.

In our discussion with the American Citizens Club - President L. Nakano and Secretary George Ike, they assured us that they would immediately start a campaign to induce all of the people in the district, regardless of the fact that some did not belong to the church or to the club, to start packing and crating their belongings, which they will store within the school and church.

In a discussion with Mr. Donnally he had given us to understand that the I.O.O.F. Hall has been rented as a Control Center. Not to be critical of his selection, but this building is located on a levee and it would be necessary for the evacuees to climb a flight of wooden stairs and then a second flight to the top floor of the building. It would seem that this would be rather dangerous for small children and elderly people. Within the town there is a very large vacant store which has a frontage of 50 feet and is approximately 60 feet deep. It is felt that this would better serve our need as a location for the Control Center. We merely mention this point because of the possibility of injury to the evacuees on the double flight of stairs to the present selected building.

C. Suisun and Fairfield

In the Suisun-Fairfield California districts there are approximately 60 families or about 345 individuals. We were able to locate an excellent warehouse at Russel Station, which can be taken over at once. This is approximately 4 miles west of Fairfield and in the center of the Japanese area of Suisun and Fairfield. It has ample area for storage of automobiles and has two warehouses; the largest being 50 by 120 feet; the second building 40 by 60 feet. This place is on the main highway and has a spur tract. The building could also serve as a Civil Control Center.

Unfortunately, we were unable to contact any of the members of the J.A.C.L. in Fairfield or Suisun. We did arrange to have the word passed along to the officers of the League that they must start preparing at once for the storage of their goods and to immediately make settlement of their property problems; which point we stressed two weeks ago at a general meeting.

D. Vacaville

About the only place available in town for storage of property was the garage of Crowe Patterson Motor Company - a building of 50 by 200 feet. Mr. Crowe assured us that the building could be put into condition within 36 hours should the Federal Reserve Bank of San Francisco decide to use it as a storage depot. This place is located in the heart of town. In the Vacaville vacinity there are 128 families, and, around 54 in Winters, or a total of approximately 1150 evacuees.

It was contended by A. Hiyoshi and George Ishimoto of the J.A.C.L. of Vacaville and Winters, California, that the majority of the people in that district would store all of their furniture and belongings in the Federal Reserve Bank of San Francisco warehouse. They have promised their cooperation in inducing all Japanese in the district to immediately start packing and crating their belongings - some of which are temporarily stored at the Buddhist Temple in Vacaville, with the idea in mind that they would be later moved into a warehouse. It was not possible to use, or consider the use of the Buddhist Temple or School, because of the small floor space in the buildings. About half of the present available space within the temple has already been filled with evacuees' household goods.

Unfortunately in this district, the Japanese have been restricted from traveling by the local police and because of the fact that they are 87 miles from Sacramento, and of the previous difficulty of their securing appointments for the settlement of their property problems at the Sacramento Office, very little has been done to solve their business problems. However, Mr. Hiyoshi has assured that he will contact as many of his people as possible by telephone and those within the town of Vacaville and advise them that they must take care of their business problems at once, and, at the same time, to assure them that it will not be necessary to make appointments for sometime next week. He will also get in touch with the J.A.C.L. members at Winters, California, which is in the normal trade area of Vacaville, being but 11 miles away, and request that they take care of their various problems at once and to arrange packing their household goods.

(Walnut Grove)

Dear Mr. Everson:

Mr. Ross, the local manager of Libby, McNeil & Libby Company telephoned today to advise us that their San Francisco office had decided that because of the uncertainty of present conditions and the fact that they "might" need the warehouse at Walnut Grove this summer, they will not lease the plant to the Federal Reserve Bank.

This is very unfortunate in view of the fact that there is no other storage facilities available. As it now develops, the School District at Walnut Grove would prefer to avoid leasing the gymnasium at the Oriental school because of the possible objections that the local residents would have to the loss of the use of the gymnasium for their children.

Subject: A. J. Morrison - Warehouse - Sacramento

Dear Mr. Everson:

In a conversation with the Chief of the California Highway Patrol, E. Raymond Cato, on April 14, 1942, it was agreed by Mr. Cato that he would relinquish possession of the above warehouse which is located at Broadway and 31st Streets in Sacramento. As you will recall, this is the building that you inspected on your recent trip to Sacramento.

It is estimated by Mr. Cato that this building contains 13,560 square feet. However, by including another area that they are not using, this figure would be increased considerably.

Chief Cato advised us that they are paying at the present time $316.00 a month. Their lease on the building was signed on March 18, 1942, and was to run for a period of one year.

Their Department is using this building for the storage of highway patrol cars. He has said that they have already located another suitable warehouse for these cars.

The following day, April 15, the agents of the property, Campbell and Foss of 800 R Street, were contacted. Mr. J. Liddicoat in an interview with Chief E. Raymond Cato and our Mr. Reid made the statement that he could see no reason whatsoever as to why he should request the Highway Patrol to move out of the building as he would much prefer to have them as a tenant than the Federal Reserve Bank. It is his feeling and attitude that he will sit back and wait

to see what the Federal Reserve and the Army will do about it.

We have located another warehouse through City Manager James Dean. This place is known as the River Lines Pier which would give us approximately 45,000 square feet of storage space in a reasonably secure building. I use the term "reasonably" in view of the fact that two-thirds of the building extends out over the Sacramento River and experience has taught shipping men in this District that these buildings are never very safe. For this reason, the greater part of all goods stored are placed on the land side of the building. Under the circumstances, we would have but about 30,000 square feet of storage space in the building.

Subject: Winters, California

Dear Mr. Everson:

Mr. Reid and myself attended a meeting at Winters, California, held by the local members of the J.A.C.L. which twenty-two of their members attended, representing two hundred seventy-five individuals in the community. We found that an unfortunate circumstance existed here inasmuch as thirty of the fifty-five families in the community of Winters live in Solano County. The remaining twenty-five live across the creek in Yolo County.

We went over many of their problems, and they have agreed to transport from the outlaying ranches their personal property into the Buddhist Temple for temporary storage.

However, the day brought up the usual headache. It develops that in the small community, these people have over 350 sacks of Japanese rice which they are not able to sell to the local merchants. If this condition exists in this small community, no doubt the same thing prevails elsewhere. Mr. Reid and myself are wondering if it would be possible to make some sort of a deal whereby the Army Procurement Department would take over this rice to be used in feeding the evacuees at the Assembly Centers. This of course is merely a thought.

It was found that the Japanese grocery store, the only one in the Winters District which is fourteen miles from Vacaville and twenty-five miles from Woodland, was operated by a Mr. Horai, a blocked alien who is operating under License No. 23032. This license was just extended to May 17, 1942. Some difficulty was experienced in convincing this man that he must liquidate his stock immediately. From the appearance of the store, he is still carrying a full stock of merchandise.

In fact, we questioned him as to whether or not he was still buying. His failure to liquidate the business was no doubt brought about by the fact of his inability to move freely to the W.C.C.A. Office in Sacramento. You will recall that in a previous letter, we mentioned that the Sheriff of Solano County had refused permission to all Japanese to go beyond the five-mile radius from their homes without a special permit from the Sheriff's office.

Dear Sir:

After looking over seven buildings in Woodland in an attempt to secure a suitable storage place for evacuees' personal property, we located an exceptionally large garage where they have tentatively agreed to board up one-half of the space which would give the Bank a clear area for storage space of 7200 square feet. This, we feel, would be ample to meet our needs in this particular District.

The Central Garage is owned and operated by Bob Gasson. He is to advise Mr. Reid not later than noon, April 17, as to whether or not this storage space will be available.

The other warehouse would be the former Plymouth dealer's garage building which is owned by Peter Garrett of Woodland, California. This has a storage space of 7500 square feet.

Mr. Garrett is conferring with his mother and will call at the Sacramento Office of the W.C.C.A. before 6:00 Friday, April 17, 1942, to discuss in full the terms and his acceptance of our proposition.

at Woodland, California

Please refer to our letter of April 17, 1942, in regard to storage space at Woodland, California. This is to confirm the fact that Mr. Bob Casson, operator of the Central Garage, will lease his building for the storage of evacuees' personal property, on the basis of a ninety-day-lease with option to renew the lease in three periods of three months each.

In the same letter we mentioned another warehouse which is owned by Peter Garrett of Woodland, California. After a careful survey of this building we found it to be only 5500 square feet. The owner had originally taken into consideration the sidewalks at the time that he advised us that the area of the building was 7500 square feet. Under the circumstances this building would be to small for the purpose for which the Federal Reserve Bank of San Francisco would wish to use it.

Subject: Florin, California FLORIN

Dear Sir:

We attended a meeting of the J.A.C.L. in Florin on Saturday afternoon. The District Captains of the League, who were present, numbered fifty-one. They represented approximately 2600 of the permanent residents of the town and between 375 and 400 evacuees from other districts. The purpose of the meeting was to iron out a few minor details such as storage and the delivery of the evacuees' goods to the warehouse. This was easily adjusted to their satisfaction. In the course of the conversation the members of the J.A.C.L. assured us that the majority of their business affairs had already been adjusted or would be prior to the time of the evacuation order.

The question of the disposal of their surplus supply of sacked rice came up again. It is estimated that they will have between fifteen hundred and eighteen hundred one-hundred-pound sacks. This seems to be a serious problem. The J.A.C.L. has agreed to instruct all Japanese in the district, whether they are members or not, to bring in their unoped sacks. They will issue receipts and store this rice temporarily, until such time that they can be sold as one lot or sold to various grocery jobbers in this district. We are enclosing Bulletin No.4, issued by the Florin Chapter of the J.A.C.L. for your information pertaining to this subject.

There is one other question which came up and which we were unable to answer. This was in regards to

funds on deposit with the Yokohama Species Branch Bank, in San Francisco. It seems that in the particular district there are a number of Japanese who have accounts with this particular bank. They have heard of the arrangement which was worked out with the depositors at the Sumitomo Bank of California, and would like to be in a position where they could assign the full amount of their deposits with the Yokohama Species Branch Bank of San Francisco to some American bank and borrow fifty per cent of the total amount assigned to the local bank. It would be appreciated if you would advise us whether anything has been done to secure a similar arrangement.

A. Loomis

Mr. Cox and myself made a thorough survey of the foothill section relative to storage facilities in the towns of Loomis, Penryn, Newcastle and Auburn. Approximately two miles east of the town of Loomis there is a Japanese recreation hall with approximately 3000 square feet storage space - building in good condition- large grounds - and a good secondary road. This building should take care of all the families in the immediate vicinity of Loomis.

B. Penryn

In the town of Penryn we visited the Buddhist Church and Japanese School and the facilities in Penryn are not too good. It is problematical as to whether or not we can accomodate all these people in Penryn. What facilities are there will provide storage, safe from the elements. These buildings in Penryn will be difficult to guard over twenty-four periods as facilities for a Caucasian will be difficult to obtain unless they go to Roseville or Auburn. In any event storage in Penryn should be of a temporary nature.

C. Newcastle

We attempted to contact Mr. Porter Taylor, Manager of the American Fruit Growers Association at Newcastle. We were informed that we can obtain a building, at least temporarily, for storage. While we have not made definite arrangements we feel that in an emergency all Fruit Companies

of Newcastle will help us if we call upon them. Any storage that families make at Newcastle should also be of a temporary duration.

D. Auburn

In the town of Auburn, which is divided by "One" and "Two" Zones, we found those who were living in "One Zone", (at least those we contacted), not making much attempt to liquidate their affairs. We have also learned that there were probably not thirteen families affected in the "One Zone" in the immediate vicinity of Auburn. Warehouse facilities will be difficult to obtain in Auburn.

We did contact Placer County National Bank at Auburn with reference to a large corrugated iron shed, formerly owned by the Penryn Fruit Company at Penryn, now in the control of the above bank. We were told by the bank that the California Fruit Exchange at Loomis, Mr. Tom Perry, Manager of the Loomis District office, was the man to see with reference to this shed. We contacted him at Loomis in the afternoon of 4/25/42. There is a large amount of shook stored in this shed at the present time, but in case we are faced with an emergency, he would be glad to help us out.

Dear Mr. Everson:

Yesterday I was fortunate enough to obtain some information that would be helpful to the Federal Reserve Bank with respect to rodents in the various warehouses pertaining to storage of evacuees.

We find that a Mr. Harold H. Haecker is in charge of Fish & Wild Life Service of the United States Government whose address is Federal Building, Sacramento, Room No. 271.

In talking with Mr. Haecker yesterday, we find that his department is charged with the responsibility of eradicating rodents and predatory animals covering the area of Arizona, California, and Nevada and that they would be very glad to take any necessary steps to patrol the warehouses under the jurisdiction of the Federal Reserve Bank of San Francisco.

It was my understanding that the only cost to us would be the furnishing of the material and containers necessary for a complete job in each warehouse. We were assured that this cost would be nominal.

It is the opinion of the writer that this would be a solution to a very vexing problem. We pass this on for your information and guidance. Please advise us as to what disposition you may make.

We are enclosing herewith a map showing the area s that are covered by the Sacramento Office - including Sacramento County, Placer County, Yolo and Solano County. We have worked out on the map various areas and marked them according to the prospective town in each area where storage facilities could be obtained. We have also shown the approximate miles from Sacramento to each town in each area, together with the approximate number of families and the number of people in each area. You will note that our estimate is approximately 9200 Japanese. We have attempted to gather this information from the Japanese Buddhist Churches and J.A.C.L., and this figure they consider approximately correct, although the U. S. Department of Commerce, Bureau of Censors, dated Dec. 10, 1941, shows approximately 10,394 people in these four counties.

We have attempted in marking these areas to show that most of the people in each area would assemble at these designated points if they were to have a meeting among themselves voluntarily. We trust this information will be helpful to you.

Dear Mr. Richert:

We, of the Federal Reserve Bank of San Francisco, are endeavoring to find warehouse space for the furniture and personal properties of the Japanese who are to be evacuated from this territory. We have been informed that you have a warehouse in Yolo County. We would like to know if it is available in case the need arises to use it.

Please communicate with Mr. Albert J. Reid, Sacramento Field Representative of the Federal Reserve Bank, who's office is now located at the United States Employment Agency at 1220 Jay Street, Sacramento.

Very truly yours,

A. J. Reid

Dear Mr. Roberts:

We, of the Federal Reserve Bank of San Francisco, are endeavoring to locate storage facilities for the furniture and personal property of the Japanese in case of evacuation. We have heard that the old American Fruit Growers warehouse at Suisun mights be available, and if it is we would be interested in it's possibilities.

We would appreciate it if you would immediately communicate with Mr. A. J. Reid, Sacramento Field Representative, concerning this property. *

Very truly yours,

Attention Mr. A. J. Reid

Gentlemen:

We are the owners of a three story brick building located at 1301 K. Street, Sacramento, the upper two floors of which are suitable for storage purposes. They are in good, clean condition and can be used for such purposes without alteration.

The property is centrally located in the business district and would be easily accessible for inspection and reasonably safe from theft.

The building is of light warehouse construction and was built for storing automobiles. It has 4 inch slow burning floors and is the next thing to a fireproof warehouse.

The elevator will handle a medium sized truck and ceiling heights permit driving the truck into the building. A metal fire door encloses the street entrance and the stairway entrance can also be locked.

These two floors are now rented by a local automobile dealer for storage of new and used cars, but he has agreed to vacate upon reasonable notice in the event we want possession.

Subject to our ability to secure possession of these premises we offer to rent to you upon the following basis:

Two floors, approximately 24000 square feet at a monthly rental of $350.00
Term of lease, 12 months
Privilege to cancel at end of first 6 months upon 30 day notice.
Privilege to cancel at end of next 3 months period upon 30 days notice.

Tenant to maintain and operate elevator at his expense and pay for all utilities used.

Yours very truly,

Attention: Mr. R. E. Everson

Gentlemen:

We enclose herewith the Truck Owners Association of California statements covering the hauling, etc., in connection with Exclusion Orders 78, 52, 47, 48, and 75.

You will notice that we have OKed these statements for payment and we note Woodland Exclusion Order No. 78, May 20, Tag No. 281263 and No. 281264 covering transportation of one van of furniture from Esparto which took 13¼ hours.

Upon investigation, we find that this was a large van which required actually about 9 hours for loading at Esparto and arrived at the warehouse in Woodland at 7:00 p.m. and was advised at that time that they should take the van into Sacramento and return the next day. This required an additional 4¼ hours. There is nothing that we are able to do about this situation at this time.

The rest of the statements all seem to be in order.

We are

Very truly yours,

A. J. Reid
Sacramento Field Representative

Attention: Mr. C. E. Everson, Ass't. Cashier

Gentlemen:

We are writing with reference to problems of business that want to sell or liquidate, and that come to us seeking advice as to whom to sell to. The writer has undertaken to contact the Sacramento Real Estate Board, Mr. A. J. Delano, Secretary, 809 J. Street, and have referred all inquiries with relation to leasing, buying and selling.

We have talked to Mr. George Conover, Manager of Hale Bros. Department Store, and Mr. Ferd Sheid of Bruners, and discussed the problems of dry goods, second-hand furniture, nurseries, etc. They have agreed to call a general meeting of the Retail Merchants Association, Mr. William Ohtem, Secretary, and we are to forward the problems relating the particular merchandise to the committees set up for that particular purpose. They probably will make an appraisal and offer a price, whould this be satisfactory to the persons involved. However, should the leading business men of Sacramento not take a fair attitude in regard to appraisals it would be immediately forwarded to your office for advice.

We enclose, herewith, a clipping that came out in this morning's paper. We particularly would like to have your comment on this.

Very truly yours,

A. J. Reid
Sacramento Field Representative

Dear Mr. Delano:

Mr. Carroll Payne of Jones, Brand & Mullin, Inc., 803 Jay Street, Sacramento, called at this office yesterday to discuss the possibility of selling some of the property of some of the Japanese evacuees. I tried to make it clear to Mr. Payne that in our position we prefer to refer all of these cases to your office. We would be very glad to have you get in touch with Mr. Carroll regarding the possibilities of these cases.

Dear Mr.Reid:

Will you please let me know if a lease between a property owner and a Japanese American or Japanese Alien would be terminated in the event the Japanese were evacuated.

No Court Action

There are cases in Sacramento where property owners have entered into a lease with Japanese and security has been paid to the property owner for the performance of the lease.

We would appreciate knowing if evacuation would terminate the lease and if the property owner would be expected to return the security. Also, if the property owner would be able to re-enter the premises and rent or lease the property to some other tenant.

Very truly yours,

Attention: Mr. E. J. Morrissey, Vice President

Gentlemen:

We acknowledge receipt of your letter of April 1st, wherein you requested that we answer the several questions that you propound to us. Please be advised that a lease between a property owner and a Japanese American or Japanese Alien would not be terminated in the event of Japanese evacuation. The same applies to cases where security has been paid to secure lease. There would be the same legal obligations.

We have taken this matter up with the Secretary of the Sacramento Real Estate Board, Mr. A. J. Delano, who has also asked these same questions. It is our impression that he sent this information to all members of the Board.

While it is recognized that these leases will not terminate and that the obligation is a legal one on behalf of the lessee and lessor, we appreciate that injustices will accrue and that it is manifestly fair that both parties seek voluntarily to settle to their mutual advantage all considerations. Where problems are brought to our attention The Federal Reserve Bank of San Francisco will undertake to settle the case by voluntary agreement, or special blocking of accounts will be undertaken if it is shown that unfair advantage is taken of the evacuee. It is to be understood that there is an obvious necessity for complete cooperation in the administration of the Evacuee Program.

Dear Sir:

We are enclosing a copy of a letter from F. H. Sullivan dated March 14, 1942, together with a copy of our reply.

We suggest that you call this offer to the attention of any evacuee who might be interested in such a transaction. Perhaps it would be advisable to communicate with Walter Tsukamoto, 1228 Fourth Street, Sacramento, who is a member of the Japanese American Citizens League with which we have had some previous contact, with the thought that he might call it to the attention of some of his people.

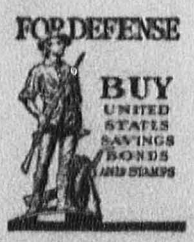

The inquiry should be borne in mind for reference if the occasion arises. Mr. Tsukamoto might be able to make some further suggestions as to how this matter could be brought to the attention of evacuees who might be interested.

It has been called to our attention that the duties of Mr. Robert Ford, the man that has been appointed coordinator of transportation and warehousing of the evacuation of the Japanese in this area have been increased, due to the fact that many new areas have been included which were not anticipated in the original arrangements.

Under the conditions that have existed we find it necessary for Mr. Ford to use his automobile which we are to pay him ten cents ($.10) per mile for.

Gentlemen:

We have today been advised by the Truck Owners Association of the Sacramento Division that they have appointed Mr. Robert Ford as Co-ordinator of Transportation in connection with the evacuation of Japanese.

It is necessary that an automobile be used in the various areas extending from Suison-Fairfield and Auburn and as far up as Rumsey, Yolo County.

We are today advised by Mr. Ford that his car has to have recapped tires on his Plymouth business coupe, 1938 model, license 88 D 190.

We do not know whether this is so or not, but it is imperative that automobiles be used in connection with the evacuation program as set up.

INSTRUCTIONS FOR FILLING IN O. P. A. APPLICATION FORM R-1

In filling in Application Form, applicants shall use ink, typewriter, or indelible pencil, and shall conform with the following instructions:

Name of Applicant:

An *individual* shall state his given name, middle name, and surname. In all cases where an individual regularly doing business under a trade name makes an application, he shall state, in addition to his name, the trade name under which he is doing business; for example, John James Doe doing business as Doe Trucking Company.

A *partnership* shall state the trade name regularly used by such partnership; for example, Doe & Roe Transportation Company, a partnership.

A *corporation* shall give its full name as it appears on its corporate charter; for example, Doe Transportation Company, Inc.

A *State* or any political subdivision thereof shall state its name; for example, the State of Wisconsin; Village of Winnetka, Illinois.

A *Federal* department or agency shall state its name; for example, United States Department of Labor. If a branch thereof, the name of the branch shall be given; for example, Chicago Regional Office of United States Department of Labor.

Addresses and Telephone Numbers of Applicant:

An *individual* shall state his business or office address and telephone number thereof.

A *partnership* shall state the address and telephone number of its principal office, and the address and telephone number of at least one place of business of the partnership within the area administered by the local Tire Rationing Board.

A *corporation* shall state the address and telephone number of its principal office and the address and telephone number of at least one place of business of the corporation within the area administered by the Tire Rationing Board.

A *State* or any political subdivision thereof shall state the address and telephone number of at least one of its offices within the area administered by the Tire Rationing Board.

A *Federal* department or agency shall state the address and telephone number of the office within the area administered by the Tire Rationing Board.

Certification by Applicant:

The applicant shall certify the facts stated in the application, in the manner and form provided for such certification.

An individual shall sign his full name. In cases where an individual does business under a trade name, he shall set forth such trade name following his signature; for example, "John Doe doing business as Doe Transportation Company."

A *partnership* shall set forth the name of the partnership followed by the legend, "a partnership," following which a partner, or a duly authorized agent of the partnership, shall sign his name, giving his position, preceded by the word "by"; for example, "Doe Transportation Company, a partnership, by John James Doe, a partner"; or, "Doe Transportation Company, a partnership, by Richard Roe, Store Manager, its duly authorized agent."

A *corporation* shall set forth the full name of the corporation as it appears on its charter, followed by the legend, "a corporation," following which an officer of the corporation, or a duly authorized agent thereof, shall sign his name, giving his position, preceded by the word "by"; for example, "Doe Transportation Company, Inc., a corporation, by John James Doe, President"; or, "Doe Transportation Company, Inc., a corporation, by Richard Roe, Truck Superintendent, its duly authorized agent."

A *State* or political subdivision thereof shall set forth its name, followed by the signature of an officer or duly authorized representative, giving his position, preceded by the word "by"; for example, "State of ....., by John James Doe, Superintendent of Highways."

A *Federal* department or agency or branch thereof shall set forth its name followed by the signature of an officer authorized by law to make purchases, who shall also state his position.

Certification by Inspector:

An inspector duly authorized by the Tire Rationing Board shall fill in all the information and facts required in the "Certification of Inspector," contained in the application, and shall certify such information and facts, as provided in the application, by signing his name thereto.

ELIGIBILITY CLASSIFICATION

(Established by Order No. M-15-c of the Office of Production Management)

LIST OF VEHICLES WHICH MAY BE EQUIPPED WITH NEW RUBBER TIRES, OR TUBES

No certificate shall be issued unless the applicant for the certificate certifies that the tire or tube for which application is made is to be mounted:

(*a*) On a vehicle which is operated by a physician, surgeon, visiting nurse, or a veterinary, and which is used principally for professional services.

(*b*) On an ambulance.

(*c*) On a vehicle used exclusively for one or more of the following purposes:

1. To maintain fire fighting services;
2. To maintain necessary public police services;
3. To enforce such laws as relate specifically to the protection of public health and safety;
4. To maintain garbage disposal and other sanitation services;

STOCK NO. REG. 154 SPO

STATE OF CALIFORNIA
DEPARTMENT OF MOTOR VEHICLES
DIVISION OF REGISTRATION

Memo.

[DATE] January 8, 1942

To: Mr. All Branch Offices, Department of Motor Vehicles

From: Mr. Howard E. Deems, Registrar

SUBJECT: JAPANESE - 1941 REGISTRATION MEMO. NO. 10-A

On December 30, 1941 this Division issued Registration Memo. No. 10-A. The purpose of the immediate Memo. is to explain the "Statement of Non-Enemy of the United States", as provided at the top of Page 2 of said Registration Memo.

The statement covers three situations:

1. "that he is not an enemy or ally of enemy"

2. "that he is not a 'national' of any enemy country or ally of enemy country as such a word is defined in any Executive Order"

3. that "if such that he is licensed or authorized .... to enter into and complete the transaction".

For our purpose only, the following definitions will assist in explaining the above.

1. ENEMY - An enemy is the government of any nation with which the United States is at war, or any officer, official, agent or agency thereof. Also such other individuals, or body or class of individuals, as may be natives, citizens or subjects of any nation with which the United States is at war, who are resident in the territory of such enemy country. ALLY OF ENEMY - An ally of enemy is the government of any nation which is allied to another nation with which the United States is at war, as stated above. This includes the natives, citizens or subjects of such a nation so allied, and who are resident in the territory of such ally of enemy.

2. NATIONAL (as defined by Executive Order) - A national is any person who has been domiciled in, or a subject, citizen or resident of a foreign country at any time on or since the effective date of this Order. (Order 8785 dated June 14, 1941). The definition includes any

person to the extent that such person is, or has been, since such effective date, acting or purporting to act directly or indirectly for the benefit or on behalf of any national of such foreign country.

3. LICENSED OR AUTHORIZED TO ENTER INTO AND COMPLETE THE TRANSACTION - For our purposes only, Treasury Department General License 68A, dated December 15, 1941, allows the acceptance of an application for transfer to, through, or from a Japanese national of a vehicle registered with this Department if the said Japanese national has been continuously residing in the United States at all times on and since June 17, 1940. For our purposes, said license is not applicable and grants no permission (a) to any national who on or since the effective date of this Order (December 15, 1941) has acted or purported to act directly or indirectly for the benefit or on behalf of Japan, (b) to one who is a national by virtue of some fact other than that he has been domiciled in, or a subject or citizen of, a foreign country at any time on or since the effective date of the Order, (c) to any business institution involving Japanese and which the Treasury Department has taken control of, (d) to any Japanese bank, trust company, shipping concern, steamship agency, or insurance company, (e) or to representatives in this country of concerns located abroad and owned and controlled by persons located abroad. The Department cannot accept an application for transfer of registration from anyone included in the latter class.

The above does not purport nor is it intended to be a legal opinion on the Trading with the Enemy Act of 1917 as amended, or any of the Executive Orders pursuant thereto. It is purely informative matter relating to the aforesaid Registration Memo. No. 10-A relating to persons of Japanese race only. It is not intended to be a guide to anyone, especially Japanese, as to the legality or non-legality of the sale, transfer, etc., of their vehicles. Neither should Department clerks advise anyone as to the propriety of their signing the "Statement of Non-Enemy of the United States". Where the applicant is in doubt in the matter he should be advised to seek counsel from his own attorney. This Memo. governs only the acceptability or non-acceptability of transfer applications by this Department.

Attention: Mr. R. E. Everson

Dear Sirs: Subject: Family No. 25486

Please refer to your letter of June 16 in regard to a letter you received from S. Wakayama of the Marysville Assembly Center in which he stated that he had turned over a "Coleman Gasoline Heater" to us for storage. Our records, however, showed a gas range.

Yesterday, June 18, Mr. Richert and I went to Roseville to check on this matter.

Mr. Wakayama has forty-nine pieces of property stored at the Charles Livoti Company Warehouse in Roseville. After checking these over piece by piece, the forty-third item was found to be a Coleman Gasoline Heater.

We checked the remainder of this man's storage but found no gasoline range. So it is apparent that the gas range shown on our records is really the Coleman Gasoline Heater.

Yours very truly,

A. J. Reid

Mr. A. J. Reid, Field Representative,
Federal Reserve Bank of San Francisco,
Evacuee Property Department,
1008 - 14th Street,
Sacramento, California.

Dear Sir: Re: Family No. 25486

We have a letter from S. Wakayama, Block 1 Bar. 18 Apt. A, Marysville Assembly Center, formerly a resident of Newcastle, California, Civilian Exclusion Order No. 48.

His goods are stored in the Charles Livoti Company Warehouse, Roseville, California, location No. 2-14 & 15. He states that we have received one "Coleman Gasoline Heater" which was not crated but marked with his family number and name. Upon rechecking our "way bill check list", we find a heater listed but on our copy of FRB-2 it was checked off against a gas range. #43

If you will recheck the goods stored for this family to verify whether or not we have received the heater, we would appreciate it.

Yours very truly,

No Gas Range

Assistant Cashier.

Dear Sirs:

We are enclosing Forms FRB-2 covering families evacuated from the Chico area.

Also included are duplicate copies of a tabulation of these FRB-2's with the names of families arranged in accordance with the location of their property in the warehouse. This tabulation shows that there are eleven families, 111 pieces of storage, and 1440 cubic feet of storage space used. This is in connection with Exclusion Order #100.

Yours very truly,

Gentlemen:

The schedule of Inventory Receipts, WCCA Form FRB-2, which you sent to us attached to your letter of June 25, has enabled us to check up completely on the storage at Vacaville.

Attached are four pages, headed Waybill Check List, which contain the names, numbers, location, and number of pieces for everyone who has his storage in the Crowe-Patterson Warehouse in Vacaville. This list is made up according to the location of each family's storage.

The only differences between this attached list and the schedule which you sent us is that four locations are not the same on these lists.

Family number 6172 is stored in Aisle 1, Section 13, instead of Aisle 1, Section 12. Family number 6218 is stored in Aisle 1, Section 16, instead of Aisle 1, Section 17. Family number 6244 is stored in Aisle 1, Section 16, instead of Aisle 1, Section 17. The five pieces stored by Tamatsu Hayashi, #6348, have all be placed in Aisle 4, Section 19. He has no storage left in Aisle 1, Section 20.

These locations have been verified by a personal check by Mr. M. J. Richert and Mr. Robert Ford.

Yours very truly,

A. J. Reid

FEDERAL RESERVE BANK OF SAN FRANCISCO

FISCAL AGENT OF THE UNITED STATES

June 25, 1942

Mr. Albert J. Reid, Field Representative,
Federal Reserve Bank of San Francisco
Evacuee Property Department,
1008 - 14th Street,
Sacramento, California.

Dear Sir:

We are herewith enclosing the schedule of Inventory Receipts, WCCA Form FRB-2 covering property of evacuees situated in the warehouse at Vacaville, California, which you requested by telephone this morning.

Yours very truly,

Assistant Cashier

Enclosure

Case
See #68 for
Buddhist Church
Vacaville

On Bank's list - not on Pat Crowe's

6208 Kiyoko Teramaye - Aisle 1, Section 17 (8 pc.)
6204 Takako Kawabe - Aisle 1, Section 18 (1 pc.)

See if #6348 (Tamatsu Hayashi) is in Aisle 1, Section 20, as well as in Aisle 4, Section 19. Bank shows both locations, and Pat Crowe shows only the latter. (5 pieces)

The Bank shows #6428 (Gibun Kimura) in Aisle 1, Section 11. Pat Crowe shows the Vacaville Buddhist Church in this location. Please check to see if these are the same. If not, learn all you can about each. Kimura has 6 pieces.

Learn extent of leakage in property believed to be Teramae Hiroichi's, #6203, in Aisle 1, Section 18.

The term "Number of interviews: On property problems" is intended to cover only interviews of a character ordinarily handled at WCCA offices in which assistance is provided the evacuee and on which interview reports should ordinarily be made.

Routine discussions of property storage and motor vehicle disposition need not be included in the above mentioned caption, as the only data in which we are interested will appear in captions "Motor vehicles" and "Property warehoused."

Gentlemen:

With reference to your schedule of inventory receipts that you sent us a few days ago, we are short sixteen family numbers under the Elk Grove Evacuation Number 92, as shown by our own records with comparison of the above list you sent us.

It is assumed that there is a Page 4 that was not sent to us and no doubt this is the discrepancy for Elk Grove storage.

Will you please check and if this is true, will you send us a copy of Page 4 of your inventory list?

Yours very truly,

A. J. Reid

The term "Number of interviews: On property problems" is intended to cover only interviews of a character ordinarily handled at WCCA offices in which assistance is provided the evacuee and on which interview reports should ordinarily be made.

Routine discussions of property storage and motor vehicle disposition need not be included in th above mentioned caption, as the only data in which we are interested will appear in captions "Motor vehicles" and "Property warehoused."

Exclusion Order #102

1330 J Street
Sacramento, California
July 14, 1942

Federal Reserve Bank of San Francisco
Evacuee Property Department
400 Sansome Street
San Francisco, California

Attention: Mr. R. E. Everson
Assistant Cashier

Dear Sirs:

We are enclosing Forms FRB-2 covering families evacuated from the Lincoln area. This represents Exclusion Order #102.

Also included are duplicate copies of a tabulation of these FRB-2's with the names of families arranged in accordance with the location of their property in the warehouse. This tabulation shows that there are sixty-three families, 992 pieces of furniture, and 11,900 cubic feet of storage space used.

Yours very truly,

A. J. Reid
Sacramento Field Representative

Dear Sirs:

Attached is list of Japanese registered in the following health resorts: namely, Weimar Sanitarium, Weimar, California; Brethart Sanitarium, Murphys, California; and Ahwahnee Sanitarium, Ahwahnee, California.

These people have been deferred and were not put through the Control Station at Lincoln. So far as we know, there are no property problems involved with any of these people.

Yours very truly,

A. J. Reid By P.D.M.

July 14th 42.
Date

EPF7(4-42)

The term "Number of interviews: On property problems" is intended to cover only interviews of a character ordinarily handled at WCCA offices in which assistance is provided the evacuee and on which interview reports should ordinarily be made.

Routine discussions of property storage and motor vehicle disposition need not be included in the above mentioned caption, as the only data in which we are interested will appear in captions "Motor vehicles" and "Property warehoused."
