CIVILIAN EXCLUSION ORDER NO. 2

Note: Terms: "Not Delivered" "Not Received" "Short" "NR" are synonymous--indicating goods listed but not found at house. Term "Over" indicates goods found at house but not listed on one or more copies supplied by evacuee. Because the Japanese listed the bedroom furniture very inaccurately, these articles have been detailed by the warehousemen as "bundles" and/or single items.

The number of pieces received seldom constituted complete outfits as listed by the owners.

Example: The number 15 in the "Received" column may or may not agree with the owner's listing of 5 beds including springs and mattress.

No attempt was made to reconcile the listing of certain items by the evacuee with the count of the boxes, crates, cartons, and bundles.

Example: A small radio may be listed but also boxed, contents not visible. If this item is needed to complete the box count, it was checked accordingly.
