Subject: Reports to the FBI on substitute farmers

The Commanding General has directed me to request that you instruct your property protection field representatives engaged in the evacuation program to do the following:

SUBJECT: Evacuee Property Department Instruction Letter No. 9.

REFERENCE: Your letter April 4, 1942

We understand that the Farm Security Administration has been requested to provide information with respect to property matters coming to its attention and that, therefore, our reports should be limited to those matters in which property transfers have resulted from or have been related to activities of our own representatives. Therefore, we question whether it would be desirable to submit the reports forwarded with your letter unless these transfers fall within the classification discussed above.

It is our further understanding that information of the character discussed in our Instruction Letter No. 9 should be provided locally to the F.B.I. One copy of the report may be forwarded to us for transmittal to the Military Intelligence Division.

To: PORTLAND

Date April 17, 1942

SUBJECT: Evacuee Property Department. Instruction Letter No. 9.

REFERENCE: Your letter April 16, 1942

As pointed out in our letter of April 7, we understand that the Farm Security Administration is reporting direct property transfers which have been handled by it. Obviously the transactions listed in the memorandum accompanying your letter of April 16 were handled by the Farm Security Administration and, no doubt, have been or will be passed on to Military Intelligence by that Agency.

We believe we should avoid duplicating such data, hence, do not believe that it will be necessary for you to continue providing reports on farm property transfer matters.
