MEMORANDUM

Late last week Mr. Lund of the Farm Security Administration informed the writer that Mr. and Mrs. Akiyama, 229 Broadway, Seaside, Oregon wish to discuss their property problems with a representative from the Evacuee Property Department of the Federal Reserve Bank.

Apparently these people own a store at the above address and also own a curio store at Astoria, Oregon. The premises are not owned by the Japanese but are rented on a basis of \$100 per month.

This situation was reported to Mr. Lund by his Astoria representative.

The writer gave assurance that the matter will be looked into.

Mr. E. N. Crouch

ENC:VF

March 31, 1942

MEMORANDUM

Mr. Lund of the Farm Security Administration informed the writer that his representative at Astoria reported that Sakmo Kenda of Clatskanie, Oregon owns two laundries situated in that city, together with several trucks and equipment, and wishes to have advice regarding the disposal of his property.

Apparently the premises occupied by the Japanese is owned by an estate administered by Clarence Oliver, 5015 N. E. Cleveland, Portland, Oregon.

The premises are mortgaged to a Dr. A. Silva of Clatskanie for \$1,500.

No other information was available. The writer assured Mr. Lund that the matter would have our attention.

Mr. E. N. Crouch

ENC:VF

EVACUEE PROPERTY DEPARTMENT

April 3, 1942

MEMORANDUM

SUBJECT: Visit to Clatskanie and Westport on April 1, 1942

Acting on information received through Mr. Lund of the Farm Security Administration, Assistant Manager S. A. MacEachron accompanied by E. V. Risberg visited Clatskanie and Westport, Oregon for the purpose of discussing property problems of the Westport Steam Laundry located at Westport, Oregon, and operating a branch at Clatskanie, Oregon.

This bank's representatives called on Mr. H. B. Hager, cashier First National Bank, Clatskanie, Oregon, who informed us that this laundry was apparently the only property problem in his immediate vicinity.

A call was made on Lester J. Harding, general manager of the Westport Lumber Company who informed us that notice had been served several months ago on the operators of the laundry, located at Westport and occupying a portion of the mill property, to vacate.

In interviewing Mrs. Sakuna Kanda Japanese alien and owner, I. Osakata Japanese alien and manager and Roy Mori American born Japanese and truck driver of the laundry it was learned that they are endeavoring to make some reasonable and equitable disposition of the equipment at Westport and Clatskanie.

It was also learned from Mr. Harding that only two Japanese were on the payroll of the mill and apparently no property problems are involved.

As a matter of record Mr. Risberg called Morris Goldstein attorney for the Westport Steam Laundry 815, 14, & 16 Yeon Bldg., by telephone on April 2, 1942 and suggested that he assist his clients in making some disposition or arrangements for the handling of their property.

Dr. A. Silva of Clatskanie, holder of an approximate \$1,500 mortgage on the laundry equipment and his attorney Edward F. Fisher called at the Evacuee Property Department of this bank on April 2, and informed us that some sort of arrangements should be made whereby the mortgagees debt would be satisfied.

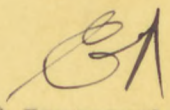

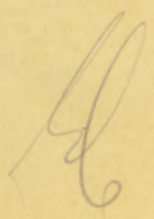

April 3, 1942

It developed during the conversation that part of the Laundry equipment was now located at the Vernonia-Seaside Laundry and Cleaner Company, Vernonia, Oregon and also some equipment was being used at the Troy Laundry & Dry Cleaning Company, Longview, Washington.

It also appeared that some of the Vernonia-Seaside laundry and Cleaner equipment was being used at the Westport and Clatskanie plants.

Mr. Fisher, of course, informed this bank's representative that he is endeavoring to work out some fair and equitable deal with Mr. Goldstein attorney for the Westport laundry whereby all parties concerned will be satisfied.

  
Field Representative

## MEMORANDUM

April 10, 1942

Mr. K. Ono, Rt. 1, Box 49, Orchards, Washington accompanied by his wife and two minor childred called at the office this morning to discuss his financial affairs.

It appears that he operates a fourteen acre farm near Orchards, Washington under a lease agreement calling for \$360 per annum cash rent. The lease has two years to go. The land is owned by Ray Higdon, 301 Maine Street, Vancouver, Washington. The property has on it a five room house, barn and garage building.

Ono says that he owes the landlord accrued rent to March 1, 1942 totaling \$340 and that the landlord has been threatening to place a lien on the various items of equipment owned by Ono. Ono lists his assets as follows:

<u>Item</u>	<u>Value</u>
Plow	\$ 85.00
Disc	85.00
Tractor	500.00
1938 Ford V8 Auto	350.00
Small farm tools	65.00
Total	\$1,085.00
Cash on Hand	250.00
Total	\$1,335.00

The \$250 cash came from the sale of an irrigation plant for \$200 and from a \$50 equity in a truck which was sold. The plow, disc and tractor are covered by a mortgage held by A. C. Haag on S. E. 6th Avenue, Portland.

The total amount owing Haag is \$250 and these vehicles have been turned over to Haag for sale, the first proceeds to be paid to him until he has been paid in full plus a 25% commission on the sales and the balance of the proceeds, if any, is to be turned over to Ono. The Ford V8 and the small tools are on Ono's ranch. He lists his debts as follows:

<u>Creditor</u>	<u>Amount</u>
Teikoku Company	\$253.42
Slotleo Motor Company	134.53
Sumida Seed Company	84.69
Dr. Shiomi	92.00
Small Bills	350.00
Back rent mentioned above	340.00
Total	\$1,254.64

This is in addition to the amounts owing on the tractor, disc, and plow previously mentioned. The landlord Ray Higdon has suggested that he is willing to purchase the Ono automobile for \$250.

The writer told Ono that a representative of this office would call on the landlord and on Ono either tomorrow or Monday and see if a plan can be worked out looking towards straightening up this very involved financial situation.

ENC:VF

MEMORANDUM

Visit to U. S. Employment Service Office, Hood River Hotel Building, Hood River, Oregon on April 10, 1942.

On April 10, 1942 field representatives E. V. Risberg and H. Alger visited the U. S. Employment Service office at Hood River, Oregon.

An informal discussion took place with Gordon Shattuck manager of the office, Walter A. Klundt field agent, Farm Security Administration and Violet Ellis Social Worker regarding property and storage problems.

Mr. J. E. Klahre, general manager of the Apple Growers Association also called at the Employment Service Office and informed us that at the present time he had no evacuee property problems for us.

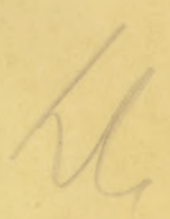

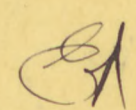

The names of the following business establishments located in The Dalles, Oregon were given to us by the Employment Service Office with the suggestion that they be contacted relative to property problems:

Olympic Cafe, 120 East 2nd St., The Dalles, Oregon.  
Mid-Columbia Radio Shop, 209 Union Street, The Dalles, Oregon.  
Fuji Cafe, 209 Union Street, The Dalles, Oregon.  
Blossom Inn, The Dalles, Oregon.

A call was then made on John M. Mohr, Hall Building, attorney and representative for the Japanese American Citizens League, who requested information regarding motor vehicles. Full information regarding the storage and disposition of motor vehicles was explained to him.

A call was made on E. O. Blanchard formerly with the First National Bank, Hood River, and now with the telephone company, with whom we had an informal discussion regarding storage of personal property and motor vehicles.

A call was also made on Manager Morton of the Hood River Branch, First National Bank of Portland, Hood River, Oregon, and we were informed that no evacuee property problems had come to his attention, but should any arise he would be glad to contact this office.

  
  
Field Representative

MEMORANDUM

April 11, 1942

Visit to United States Employment Service Office, 118 East Second Street,  
The Dalles, Oregon on April 10, 1942

On April 10, 1942 field representatives E. V. Risberg and H. Alger visited the United States Employment Service office at the Dalles, Oregon. Eldon Cone, Manager of the office was out for the day. E. H. Rorick junior employment officer was in charge and informed us that the only evacuee property problems that had come to his attention were those given to us by the Hood River office.

FUJI CAFE

A visit was made to the Fuji Cafe, 209 Union Street, The Dalles, Oregon and an interview was had with Mary June Taniguchi, Japanese alien and her daughter Helen Taniguchi American born Japanese, relative to the disposition of their property. We were informed that she had a prospective buyer, a Mrs. W. R. Webb who contemplated purchasing her business for approximately \$350 and she seemed well pleased with the progress of her transaction.

We were also informed by them that they contemplated storing most of their personal belongings at the residence of Judge Fred Wilson.

MID-COLUMBIA RADIO SHOP

A call was made to the Mid-Columbia Radio Shop, 209 Union Street and a number of questions relative to the storage of property and automobiles were asked, and answers given. The owner of this establishment informed us that he was attempting to either sell or rent his residence and that he had not definitely decided whether or not he would dispose of the stock and equipment in his radio shop. However, it would appear from the conversation that he undoubtedly intends to store most of his equipment. Whether or not he would avail himself of the storage facilities offered by this Bank or provide his own storage space was not definitely decided.

BLOSSOM INN

A call was made on Ben Tamura, now residing at 111 West 4th St. The Dalles, Oregon, former operator of the Blossom Inn which was located on the highway one mile west of The Dalles. He informed us that he had already closed his establishment and stored his fixtures. Consequently, he had no property problem for this bank.

OLYMPIC CAFE

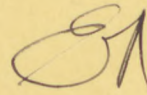

Homosuke Oda, operator of the Olympic Cafe, 120 East Second Street, The Dalles, Oregon called on this bank's representatives at the U. S. Employment Service office and gave us the following information relative to his establishment: Building rented on a month to month basis at \$85; owns fixtures, however, he is delinquent as follows: Rent \$583.15, gas bill \$300, taxes, approximately \$300, unemployment insurance \$60, Knight Packing Company \$35, Pacific Power Company, \$70, telephone company \$12. He has given M. R. Matthew, Manufacturers and Jobbers Agent, 305 Court Street, The Dalles, Oregon, owner of the building a mortgage in the amount of \$585 on his fixtures to cover the delinquent rent. Mr. Oda originally asked \$2,500 for his business but said he would consider taking \$2,000. He now has a tentative offer of \$1,500 from a Mr. Frank Trumbull of The Dalles, Oregon to be paid on the installment plan. No decision as yet has been made but Mr. Matthew has advised this Bank's representative that he would inform us as to the outcome of the transaction.

April 11, 1942

As a matter of record Mr. Matthew stated that during the last year approximately 1,500 people had left The Dalles and the vicinity to seek employment in Defense Industries elsewhere and as a result of this, business in The Dalles is decreasing.

A call was made on Mr. Edward C. Pease, a former director of this branch and he assured us that he would be glad to be of any assistance that he could to us.

Field Representative

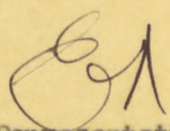

MEMORANDUM

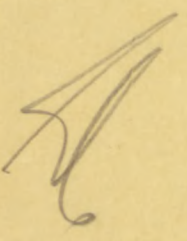

Visit to Watanabe Cleaning Parlor and Dye Works, 345 Union Street, Salem, Oregon.

On April 14, 1942, Shig Watanabe addressed a letter to this bank requesting information relative to the transportation and storage of business property and also information regarding his lease.

Field Representatives E. V. Risberg and Harold Schmeer called on the Watanabe establishment on April 15, 1942, and informed Shig Watanabe that in the event no disposition could be made by him of his equipment or in the event that he did not arrange for his own storage, the facilities of this bank's warehouse would be available for some of his equipment.

We were informed by Shig Watanabe that he leased the premises from a George Thomason, 110<sup>1</sup>/<sub>2</sub> North Commercial St., Salem, Oregon and that his lease did not expire until September, 1944. Mr. Thomason was not in his office, but it developed from a conversation with Sam Adolph, a business associate of Mr. Thomason's that apparently no difficulty would result due to the vacation of the premises by the Watanabe's since it appears that prospective tenants have been found for the building.

  
Field Representative

MEMORANDUM

Visit to Brooks and Salem, Oregon on April 15, 1942.

Acting on information and a request received in a letter dated April 13, 1942 from Frank J. Bartos, Field Agent of the Farm Security Administration stationed at the United States Employment Service office, Salem, Oregon, Field Representatives E. V. Risberg and Harold Schmeer visited the community of Brooks, Oregon and the city of Salem, Oregon to discuss Japanese evacuee property problems.

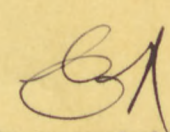

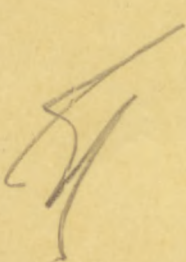

The first call was made at Fukuda's Store, Rt. 2, Box 348, Salem, Oregon which is approximately five miles north of Salem on highway No. 99E, and the following information was obtained from Suzie Fukuda, sister of Frank Fukuda owner of the grocery store, service station and residence located on a three acre tract.

The property is listed with the Hicks Realty Company in Salem, either for rent or for lease. In the event no tenants can be found before evacuation, tentative arrangements have been made with Salem Wholesalers to take back the stock of merchandise on hand.

We were informed Spindlers Refrigerator and Equipment Company have agreed to take back a large refrigerator. Other fixtures would be left in the store and authority left with the Hicks Realty Company to either rent or lease the premises whenever a tenant could be found.

A call was then made on Ronald Jones of the Labish Cold Storage Company at Brooks, Oregon from whom the Fukuda's are purchasing the land and buildings. Mr. Jones informed us that a small balance was due on the property, and that he was well pleased with the Fukuda's and did not anticipate any property problem even though a new tenant could not be located immediately.

A visit was then made to the United States Employment Service at Salem, Oregon and Frank J. Bartos, Field Agent of the Farm Security Administration informed us that no additional property problems had come to his attention.

Field Representative.

MEMORANDUM

May 2, 1942

REFERENCE: Phillip Hotel, 421 West Burnside Street, Portland, Oregon

On April 30, 1942, we were advised by Ronald Shiozoki that he had a prospective purchaser for the hotel, one George Sperry, who apparently would pay \$6,000 with an initial \$2,000 cash payment.

I suggested that he immediately take Sperry to Commonwealth to discuss terms of the lease. Sperry apparently is a Greek who has changed his name. Whether or not he has ~~given~~<sup>any</sup> credit standing we were not advised.

Yesterday Jeffry Holbrook of Commonwealth, Inc., phoned to say that W. M. Fromme was in their office ready to go ahead and purchase the hotel for \$4,000, \$2,000 cash, the balance in three years at 5%, interest with an adjustment on unpaid balance should the property be sold and the lease cancelled.

They asked what we knew about the situation. I again phoned Shiozoki who said that he would have Sperry in the Commonwealth office at 3 P.M. This he failed to do. Holbrook advised that he thought he could hold Fromme in line until next Tuesday the latest evacuation date.

At 5 P. M. last evening he came in the office to say that he was going to show the property to the Coast Guard, their objective being to possibly use the premises for Coast Guard barracks. If this last deal goes through they will undoubtedly force the present occupants out, which means we will have to store the furniture.

DPH:VF

MEMORANDUM

MAY 1, 1942

REFERENCE: CENTER HOTEL, 328 N.W. 5th AVENUE, PORTLAND, OREGON

The building in which this hotel is located is owned by one George Hartness and the property is managed by and rents collected by the National Mortgage and Bond Company, Broadway and Oak Street, manager Harry A. Swart.

A Japanese alien T. Nitta has placed the property in the name of Ted Tsuboi, 636 North Oregon Street, but this legal owner knows very little about the situation and this change of ownership was entered into only as a matter of accomodation. Tsuboi has a bill of sale of the furnishings and the lease which expires August 1, 1942 is in his name. Rental under this lease is \$60 per month. At its expiration the premises will come under the terms of a five year lease covering the entire building held by G. H. Luey, a chinaman, 321 N. W. 4th Avenue, Be. 0472.

The hotel contains approximately fifty-four rooms without water or heat in the rooms. Nitta has been asking \$1,300 to \$1,500 for the property but to date best bid he has gotten has been from Luey who will pay him \$350 on a basis of \$50 down and \$25 per month.

In a conference yesterday between Swart, Luey, Nitta, the undersigned and later Tsuboi, it was brought out that Nitta desires to put in a manager, O'Brien by name, to operate the property until the lease expires at which time he will store the furniture. I advised him that storage of the furniture August 1 would have to be entirely at his expense and that we would store it now and haul it to the warehouse without charge to him.

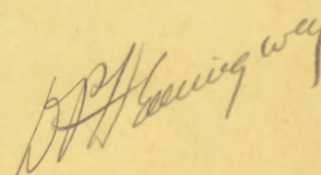

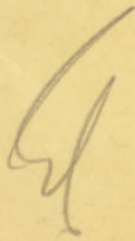

It was later brought out at this meeting that O'Brien's arrangement was only as bookkeeper and that the actual manager was some other white man about whom apparently Nitta knew but little. The manager arrangement meets with the approval of both Luey and the National Mortgage and Bond Company but the hazards of such an arrangement were pointed out by the undersigned.

Nitta has been running the hotel himself acting as clerk and chamber maid. He understands but little and has to be talked to through an interpreter.

The occupancy now consists almost entirely of negroes and filipinos and is very undesirable. The objective of both Luey and the National Mortgage and Bond Company is to clear out the place, make some improvements and rent only to white roomers.

Today we are recommending to Swart that he endeavor to influence Luey to raise the price to \$500 and if this is done we will back up the deal and will advise Nitta to accept.

DPH:VF

MEMORANDUM

May 4, 1942

REFERENCE: CENTER HOTEL, 328 N.W. 5th AVENUE, PORTLAND, OREGON.

A.M.

At a meeting Saturday when Nitta came into our office, and after talking to Swart of the National Mortgage and Bond Company over the telephone, it was very apparent that Nitta would not sell to Luey, the chinaman, at any price.

The only other alternative was that we store the furniture for him and we proceeded with the details. Since Nitta owes approximately \$150 on the furniture, we told him we would do nothing until this was paid off. This he did, bringing in the receipt for payment in full to the Directors Furniture Company.

Inasmuch as preparation of the furniture for storage must be made after Nitta is evacuated someone had to be found to do this work. Two of his Filipino roomers have agreed to do it at a labor cost of \$90. They have been supplied with the necessary tags and inventory sheets. The man who will superintend the job is Jorge Dumlaog who is president of the Northwest Alaska Cannery Workers Union with headquarters at 317 Governor building, telephone Be. 9418.

The furniture stands in the name of Ted Tsuboi. It is necessary for him to sign the personal property form FRB-2.

As the lease has been assigned to Tsuboi and does not terminate until August 1, Earl Bernard, his attorney, advised me it would be necessary to make payment for the full three months until August 1, of the rent due at that time. This Nitta has agreed to do. This amount, \$180, will be held by Harry Swart of The National Mortgage and Bond Company until the furniture is removed from the premises, at which time he will pay it over to Luey to whom this lease has been assigned.

Ted Tsuboi's family number is 16176.

P.M.

It now develops that the above Jorge Dumlaog will not superintend the work of packing the furnishings for storage and he has now secured one Gabriel Gestre, Br. 2096, who says that he will handle it for him. We have given this last named individual the full details, so we hope the work will go forward.

May 5, 1942

The amount due on the furniture, as well as the rent to August 1st have both been paid and receipts for same shown us.

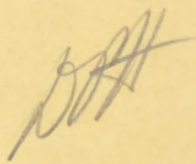

Another Filipino, Morris Aneheta, 208 N. W. Davis St., has finally consented to prepare the furnishings for storage and inspection made by myself this afternoon showed that they were probably 75% ready for the warehouse. The above Filipino will make out the necessary inventory sheets, attach the required tags, etc.

I have discussed with Mr. Swart of the National Mortgage and Bond Company the situation regarding occupancy of the premises between now and

Memorandum - Center Hotel

August 1st, and have referred him to Earl Bernard, attorney for Ted Tsuboi, the legal owner.

May 25, 1942

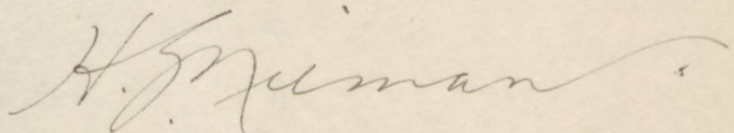

MEMORANDUM

SUBJECT: SHASTA HOTEL SALE

This hotel has been operated by K. Nitta, a Japanese, for a number of years. Mr. Nitta owned the furnishings, the building being owned by Mr. Henry Feldman.

After Mr. Nitta was convinced that he would be evacuated, he made every effort to sell his hotel furnishings. However, each time Mr. Nitta had a prospect Mr. Feldman would demand that the new owner pay as much as \$150 per month rent whereas Mr. Nitta was paying \$70 per month. After several deals fell through for this reason Mr. Nitta came to our office for assistance. I called Mr. Feldman and asked him to come to the office while Mr. Nitta was at my desk. Mr. Feldman, Mr. Nitta, an interpreter and I talked matters over. After explaining the government's position to Mr. Feldman, he agreed to let the new owner have the same rent for the balance of the year and rent \$100 per month thereafter on a lease.

Later we were advised that the hotel was sold at a good price and Mr. Nitta was very appreciative of our help.

H.G. Nieman,  
Federal Reserve Bank Representative.

MEMORANDUM

REFERENCE: S.P. HOTEL, 123 WEST BURNSIDE, PORTLAND, OREGON.

May 2, 1942

Mark Sumida together with his lawyer John Kendall, Jr., called at this office on April 30, 1942 to report they have been unsuccessful in closing any deal involving the sale of the property. Their final decision was to store the furniture with us.

They were concerned with certain legal phases of the eviction of their roomers which Mr. Kendall was checking on. We also checked through Mr. Warner our attorney who advised that in all probability they would have to give thirty days notice. We supplied them with necessary tags and inventory charts and also advised them that if it were necessary to give a thirty days notice to their occupants that we would complete storage arrangements at any time during that period.

Yesterday J. W. Tice phoned advising that Jimmy Sumida apparently had some new prospect that might purchase the hotel. Whether the two brothers are working at cross purposes, we have not yet determined.

The undersigned was advised by Mr. Quinn of the F.B.I. that they would like to find some reason for again interning Jimmy Sumida.

Nothing further developed and we are assuming that they are going ahead with their plans to store the furniture.

May 3, 1942

Called at the hotel today and had an interview with Jimmy Sumida. Apparently they are having little difficulty in getting rid of their roomers and are proceeding with plans to store the furniture.

A vacation notice, drawn apparently by their attorney, is posted in the lobby.

BPH

DPH:VF

MEMORANDUM

April 30, 1942

REFERENCE: S.P. HOTEL, 123 WEST BURNSIDE, PORTLAND, OREGON.

Shortly after the memorandum of yesterday's date was written, Macnamara called the writer by telephone and stated that at no time had it been the intention of Commonwealth to sign a lease in connection with the S.P. Hotel building. He maintained that conversations in the past have been limited to the Phillips Hotel situation. He also stated that neither he nor his people would recommend a lease of any kind on the subject property.

He stated that the furniture in the S.P. Hotel was appraised at \$1,500 using second hand prices. Macnamara says that he obtained an estimate of the cost to refurnish the hotel using partly new furniture and partly second hand furniture, and the cost was estimated to be \$3,500. He stated that Commonwealth would be willing to pay this amount for the furniture now in the hotel, but that this represents the limit.

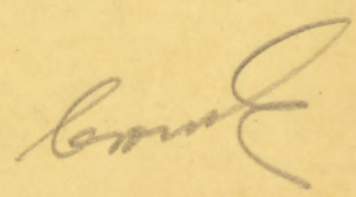

The only alternative mentioned by Macnamara was to allow Sumida to sell the hotel to a white operator for whatever price can be obtained, the white operator to run the hotel on a month to month basis without a written commitment. This information was passed on to attorney Kendall and later in the day Kendall and Mark Sumida called on the writer. The possibilities for taking care of this property were then discussed and reduced to the following:

1. Sumida had a bona fide offer for the purchase of the property at \$6,000 of which \$1,500 was to be a cash payment and the balance to be paid on a monthly basis at a schedule representing roughly the net earning power of the hotel with the unpaid balance, if any, to be cancelled in case the buyer lost the use of the building.
2. Sale to Commonwealth at \$3,500.
3. The furniture could be stored in our warehouse.

The writer explained that it seemed impossible to obtain any better offer from Commonwealth, especially in regard to some assurance that a buyer would be allowed to continue to operate the hotel.

Since the hotel has been operating for many years on a month to month basis with no lease, a basis for asking Commonwealth to enter into the lease on the property did not appear to be present and Commonwealth's offer to purchase the furniture for \$3,500 seemed to be about as far as we could ask it to go from this angle. The writer told Sumida therefore that he would apparently have to base his actions on the situation as he found it. Sumida stated as he left the office that he intended to accept the \$6,000 sale offer on the basis outlined above.

In explanation for the apparent change of attitude towards the lease on the part of Commonwealth, the writer wishes to state that since nothing in writing was obtained from the company and previous memorandums were based on oral conversations there is some possibility of a misunderstanding. In any case there would seem to be nothing further that can be done at this time.

April 29, 1942

REFERENCE: S.P. HOTEL, 123 WEST BURNSIDE, PORTLAND, OREGON.

This hotel apparently owned by Jim Sumida who, until a few days ago, was in the custody of the F.B.I., has been the subject of several discussions.

Shortly after the Wartime Civil Control Administration office was established, Mark Sumida came in the office and stated that he was acting under a power of attorney from his brother Jim Sumida who had been notified to vacate the property by Commonwealth, Inc., who acted on behalf of the owner, the Universal Bond and Mortgage Company.

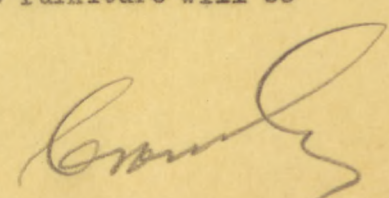

The writer contacted attorney Huntington representing Commonwealth, Mr. Macnamara a representative of Commonwealth, and Mr. C. Moores vice-president of Commonwealth, in an endeavor to arrive at some basis whereby the Japanese owner would be able to salvage at least a part of the value of the furniture in the hotel on a going business basis, rather than to sell it for the second hand value of the furniture.

After several conversations with Moores and Macnamara, Commonwealth finally agreed to recommend to the owner of the building that if the hotel should be sold to a responsible operator a lease be entered into with a new buyer for a three year period, the lease to be subject to a 60 day cancellation clause in case the building was sold. Macnamara also agreed that if the Japanese retained ownership, Commonwealth would rescind its evacuation notice and would allow the Japanese to continue operating the hotel through a management set-up on a month to month basis but without a lease.

This seemed to be satisfactory to Mark Sumida and he started looking for a buyer. About a week ago Commonwealth changed the terms under which a lease would be issued to include an additional clause allowing cancellation of the lease on 60 days notice if the owner of the building wished to operate the hotel himself. Again Mark Sumida started working on a sale and finally this morning reported to this office that he had found two buyers, Maloney and Sauers, responsible operators who would enter into an agreement to purchase the furniture providing a lease on the above terms could be obtained for a price of \$6000. \$2000 was to be paid down and the balance was to be paid at the rate of \$75 to \$100 per month with a provision that should either of the 60 day options mentioned above be exercised so that new operators lose possession of the hotel, that in that case the balance owing on the contract held by Sumida would be cancelled.

Later in the day Sumida called and stated that through J. Kendall Jr., his attorney he had been notified by Macnamara of Commonwealth that the final decision of Commonwealth was to not enter into any lease for the hotel. A few minutes thereafter, Don Hemingway, one of our employees discussed the situation with vice-president Moores of Commonwealth and was assured that attorney Kendall was in error in his statement and that Commonwealth, is still prepared to enter into a lease with a good operator and bona fide buyer on the terms heretofore outlined. The writer then telephoned attorney Kendall, told him of the conversation with Moores and suggested that he contact Moores for verification.

This is the situation as of today. In the meantime the <sup>writer</sup> buyer has assured Sumida that if it is impossible to sell the hotel, the furniture will be stored in the evacuee warehouse.

WARTIME FARM ADJUSTMENT PROGRAM

Procedure Manual

Field Office

UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION  
WARTIME FARM ADJUSTMENT PROGRAM

WFA Instruction 900.1

BACKGROUND AND PURPOSE OF WARTIME FARM ADJUSTMENT PROGRAM

I      **BACKGROUND:**      Acting on authority from the President of the United States, the Commanding General of the Western Defense Command and Fourth Army has ordered all enemy aliens, American-Japanese citizens and certain others to prepare to evacuate within the near future, from the vital defense area of the Pacific Coast. This area covers roughly the western halves of Washington, Oregon and California, and the southern half of Arizona.

It is expected that many Japanese and others will wish to depart voluntarily from the area without waiting for the Army to remove them. The Government desires that they do so. The Farm Security Administration has been assigned the vital emergency task of seeing that agricultural production continues on the lands of Japanese (and other persons subject to evacuation) who voluntarily leave their farms and move from restricted areas.

Persons subject to evacuation orders who fail to depart voluntarily will be dealt with by the Army. Immediate social problems arising from evacuation of families, such as relief, assistance in moving, employment, and relocation, will be handled by the Federal Security Agency through the U. S. Employment Service. The Federal Reserve Bank acting for the Treasury Department will be responsible for custodial arrangements which may have to be made regarding alien property and other evacuated property.

II      **FUNCTIONS:**      The Wartime Farm Adjustment Program has been created to supervise the fair disposition of vacated agricultural lands and to assure continued production on those lands by aiding qualified farmers to take over the vacated land and to obtain operating credit. The program assigned to WFA at present is limited strictly to the voluntary evacuation phase of the larger evacuation problem.

Our immediate task is two-fold:

A      Transfer of Farms:      First, we must encourage voluntary removal of Japanese farmers (and others subject to evacuation orders) by assisting them to dispose of their lands and farming operations to qualified farm operators. The Army and the Government desire that there be as much voluntary moving of persons subject to evacuation as possible. They also desire that Japanese and others be fairly dealt with in selling or leasing their property interests.

B      Stimulation of Production:      Second, we must see that the agricultural lands thus evacuated continue in full production of the crops already planted or of those for which there is a War need. Japanese farmers in California, alone, grow between 35% and 50% of the State's vegetable crop. The Secretary of Agriculture has declared food production to be of first importance in our War effort. The primary objective is to see that these evacuated lands produce to their fullest capacity.

---

DISTRIBUTION:      All Wartime Farm Adjustment Program Personnel.

UNITED STATES DEPARTMENT OF AGRICULTURE  
FARM SECURITY ADMINISTRATION  
WARTIME FARM ADJUSTMENT PROGRAM

WFA Instruction 912.1

FUNCTIONAL ORGANIZATION OF THE WARTIME FARM ADJUSTMENT PROGRAM

I REGIONAL OFFICE:

A WFA Program Chief: The WFA Program will be headed by a Program Chief working under the direct supervision of the Assistant Regional Director, RR. The Program Chief will be responsible for carrying out the objectives of the WFA Program. He will be assisted by a Deputy Chief.

B Executive Assistant and Liaison Officer: The Executive Assistant to the Program Chief will serve also as liaison officer between the WFA and the Western Defense Command of the Fourth Army. In this regard, he will handle all matters of finance, procurement, personnel, etc.

C Staff Sections: The staff of the Program Chief will consist of three or more Sections:

1 Loan Section: The Loan Section will be responsible for approving and servicing all WFA Special Production Loans made under the WFA Program. This Section will contain the following units:

- a Farm Management.
- b Cooperative.
- c Security.
- d Loan Processing.
- e Legal.
- f Audit.

2 Information Section: The Information Section will be responsible for disseminating information on the Program and for supervising the dissemination of information by field personnel. The Section will also devise technique for collecting and imparting information, maintaining necessary contacts with the public, the Army and other Government agencies.

3 Reports and Records Section: The Reports and Record Section will be responsible for collecting and maintaining all records and reports and issuing procedure. This Section will consist of the following operating units:

a Reports and Statistics Unit: Here all reports forwarded by field offices concerning the volume of business transacted, land available, potential production, number and types of transactions completed, etc., will be tabulated and summarized for presentation to the Army each Monday morning.

b Records and Files Unit: Here all case records and general correspondence will be received, sorted, transmitted and filed.

---

DISTRIBUTION: All Wartime Farm Adjustment Program Personnel.

(3-15-42)

Page 1

II DISTRICT FIELD OFFICES: Representing the Program Chief throughout Arizona, California, Oregon and Washington will be District Field Offices. It will be their responsibility to supervise the work of all field offices in their district, and act as liaison between the Field Agent and the Program Chief. They will also make all necessary contacts with other Government agents at the district level.

III FIELD OFFICES: There will be WFA Field Agencies stationed in United States Employment Service Offices throughout the defense areas of Arizona, California, Oregon and Washington. They will be responsible for carrying out the operational functions of the WFA Program in accordance with prescribed procedures. (See WFA Instruction 900.1.)

BUSINESS MANAGEMENT OF WARTIME FARM ADJUSTMENT FIELD OFFICES

I      GENERAL:      This instruction sets forth the procedure for the procurement and custody of government property and the carrying on of daily business in Wartime Farm Adjustment Program Field Offices. It is a condensation and simplification of various Farm Security Administration instructions which should be referred to for further details. Likewise, certain basic FSA forms have been adapted for Wartime Farm Adjustment use.

II      PROCUREMENT OF SUPPLIES, EQUIPMENT, AND SERVICES:      WFA Field Offices will procure property either through loan from the United States Employment Service Offices where they are located, by temporary transfer from other neighboring governmental agencies, or by requisition directed to the Program Chief. Whenever possible, the first two methods should be employed in order to establish the field offices on a going basis, and to save time and avoid delays caused by procurement and shipping difficulties.

Items which may not be secured locally will be furnished by the Farm Security Administration upon receipt of a requisition. Form BM-9, Request for Supplies, Equipment, or Service, should be prepared in an original and four copies indicating the name of the requisitioner, delivery address, delivery date of items requisitioned, and a list of the items requested, indicating complete description and quantity desired. (For further details on the use of Form BM-9, see FSA Instruction 151.1 or 151.3).

Property to operate a field office is of two kinds, office equipment and office supplies.

A      Office Equipment:      Field Agents will, whenever possible, make use of such desks, typewriters, chairs, files, etc., as can be made available to them by the local office of the United States Employment Service where they will be located. If sufficient equipment cannot be secured, contact the WFA Program Chief immediately, requisitioning such equipment as is urgently required, on Form BM-9. The Program Chief will then take steps to provide required equipment from FSA stock or secure permission to transfer the equipment from other agencies or to purchase it locally.

B      Office Supplies:      Pencils, paper, ink, erasers, clips, and similar ordinary office supplies should also be secured from the stock maintained by local United States Employment Service Office. Such items as cannot be obtained in this manner will be provided by the Regional FSA Office in San Francisco or Portland (whichever is nearer the Field Office involved) upon request on Form BM-9.

Printed forms, such as letterheads, reports, etc., which bear directly and exclusively on the functions of the WFA Program will be furnished by the Program Chief. His office will attempt to make an initial supply of all such necessary forms available to a Field Agent upon his assignment to a new Field Office. Replacement and replenishment of supplies of forms or stationery will be requested on Form BM-9 fully itemizing all requirements.

---

DISTRIBUTION:      All Wartime Farm Adjustment Program Personnel

III CUSTODY OF PROPERTY: All government property must be properly accounted for by personnel to whom it is assigned. Office furniture and non-expendable equipment, such as desks, typewriters, chairs, etc., which are assigned for the use of WFA Agents by United States Employment Service will remain on United States Employment Service inventories and FSA personnel assigned to the WFA Program will not be directly responsible for the maintenance of such property records. However, in the case of all non-expendable equipment (furniture, typewriters, pencil sharpeners, filing cases, etc.,) temporarily transferred from FSA offices or other governmental agencies, the WFA Field Agent who will use the equipment must sign Form BM-25, Memorandum Receipt as a record of such temporary transfers.

Careful property records must be maintained on the custodianship of all equipment secured by requisition from the FSA or from other governmental agencies by temporary transfer. The responsibility for the custodianship of such property rests with the WFA personnel to whom it is assigned. (Detailed procedure for the accountability of government property in field offices is set forth in FSA Instruction 152.2).

IV SERVICES:

A Office Space: Office space for all FSA personnel assigned to the WFA will be supplied by the local office of the United States Employment Service. If difficulty is experienced in securing such space, negotiations should be entered into to lease additional office facilities. The WFA Program Chief should be advised immediately in this event of full particulars regarding requirements and needs. (Detailed procedure for securing administrative space for field offices is set forth in FSA Instruction 154.1)

B Telephone Service: Existing telephone installation in United States Employment Service offices will ordinarily be made available for WFA requirements. If these prove insufficient, additional telephones may be installed. In such instances, the WFA Program Chief should be advised.

Long distance calls from the field to the office of the Program Chief should be made collect. Other calls, local and long distance, which Field Agents make away from their field offices and to points other than their offices or the Regional Office, should be paid for personally and reimbursement claimed on travel vouchers. (Detailed procedure for the use of telephones in field offices is contained in FSA Instruction 112.2).

C Telegrams: Arrangements should be made with the local telegraph office for the billing of telegram charges on a monthly basis. The billing should be made on regular telegraph company invoices, and submitted by the Field Agent (indicating his approval thereon) to the WFA Program Chief for processing and payment. (Detailed procedure covering telegraphic communications in the field is contained in FSA Regional Instruction 113.1).

PROCURING PERSONNEL FOR WARTIME FARM ADJUSTMENT OFFICES

I SCOPE: This instruction sets forth the methods whereby all offices of the Wartime Farm Adjustment Program may request and secure needed personnel. It is a condensation and simplification of various personnel instructions in the "200" series of the Farm Security Administration Procedure Manual. FSA Instructions in this series should be consulted for further details regarding the preparation of forms referred to in this instruction and for all other matters pertaining to Government personnel administration

II FIELD OFFICES: In order to fill a new position or make a needed replacement which occurs in a WFA field office, the Field Agent in charge will submit a written request to the Program Chief, describing the position to be filled, the salary rate, official headquarters, desired effective date and any other pertinent information. If the Field Agent desires to recommend a specific applicant for the position, the following fully completed forms should be enclosed with his request:

A Request for Personnel:

1 Form AD 120, Application for Employment: This form must be filled out completely and carefully checked by the Field Agent. Particular attention should be paid to the completeness and accuracy of the following items:

- a Date of application.
- b Answers to questions numbered 20 and 36.
- c Relatives in Federal service.
- d Member of an FSA client family.
- e Military preference.
- f Previous Federal service.
- g Citizenship.
- h Residence.
- i Comments of interviewer.
- j The full name of the applicant must be given (middle initial permissible).

NOTE: By submitting accurate and completely filled out applications Field Agents will avoid the needless exchange of correspondence and telegrams regarding discrepancies and omissions which must be clarified before appointment action can be taken.

2 Standard Form 47, Personnel Affidavit: This affidavit of citizenship completely filled out and notarized must be submitted, together with every Application for Employment.

B Telegraphic Request: If an urgent personnel shortage requires faster action than can be provided by mail, a telegraphic request may be submitted. Such a request must state position to be filled, salary rate

INFORMATIONAL SERVICES OF WARTIME FARM ADJUSTMENT PROGRAM FIELD OFFICES

- I POLICY: Informational policy will be similar to that of the Farm Security Administration. WFA District Officers and Field Agents are authorized to give widest possible dissemination and factual information on the WFA Program. However, all information released must be factual in nature. Matters of policy will be determined by the Information Section and Program Chief.
- II PURPOSE: WFA Field Agents must regard the active dissemination of factual information as one of their most important functions. The primary purpose of their informational activities will be to let Japanese and other farmers, evacuating their lands, know about the work of the program, and to attract other farm operators who may be interested in taking over such lands. Unlike informational services in ordinary operating programs, informing the public will be of secondary nature.
- Since transfer of evacuated land, and provision for continued production must be accomplished with great speed, informational material and techniques will be designed to forestall needless visits to the WFA office by those who cannot be helped, and to save Field Agents from having to answer basic questions.
- III CONTENT: Informational material must be factual. District Officers and Field Agents should make special effort in issuing information to go beyond general statements of interest merely to the public. Information should be as complete and specific as possible for the benefit of those who may determine through such information whether they can be aided through the WFA Program.
- IV MEDIA: District Officers and Field Agents are authorized to use all regular media for disseminating news. This includes newspapers, radios, talks, personal contacts with farm groups, and leaders, etc.
- V COORDINATION WITH OTHER AGENCIES: District Officers, and Field Agents should not release information on phases of the Voluntary Evacuation Program involving the Federal Reserve Bank, Social Security Agency, or other agencies before clearing with representatives of these agencies. Coordination or joint statements may be desirable at times.
- VI RESPONSIBILITY: The Information Section will assist the field in informational matters and from time-to-time supply suggestions and "fill-in" news stories. But the main responsibility for the field information program rests with the field representatives.

## TENURE ARRANGEMENTS

I SCOPE: This instruction describes the tenure arrangements which must be made between Relinquishers of evacuated farm land, and prospective operators. Because of the lack of information now available as to the types of land tenure held by Japanese and other persons who will be evacuated from restricted and prohibited areas, this must be general and will probably require revision in the near future.

## II PRESENT LAND TENURE PATTERNS:

A Classifications: The land tenure of persons to be evacuated will probably fall into one of the following classifications:

- 1 Owner
- 2 Lessee
- 3 Share-cropper

B Owners: Owners may desire either to sell or lease their present premises.

1 Sale: After being informed that the person desires to sell, the Field Agent will advise the owner of prospective purchasers of which he may have knowledge. In cases where the Field Agent is instrumental in bringing together a Relinquisher and a Prospective Purchaser, he should use every effort to see that the seller is not forced to sacrifice his property at an inequitable price. No forms are being prepared at this time to effectuate the sales of real property, since it is believed that in these cases the parties will probably desire to secure the assistance of local attorneys in the preparation of these forms. If a need later develops for a sales contract or other forms, these will be prepared.

2 Lease: The Field Agents will actively assist Relinquishers who desire to lease their present lands and chattels by referring them to qualified farmers who may be interested in acquiring a lease thereon and in carrying on the farming operations previously conducted thereon. In all possible cases the qualified farmer should secure a lease on Form Agri.-1, Flexible Farm Lease.

C Lessees: If the lease held by the Relinquisher permits assignment, Form WFA-8, Assignment of Lease, should be used. This form requires the signatures of the present lessee, the new lessee, and the lessor. If any of the foregoing individuals are married, their respective spouses must also sign this form. Even though the lease held by the Relinquisher may contain an express provision against assignment, it is possible that, under the circumstances, the lessor will waive such a provision and execute the Assignment of Lease, Form WFA-8.

If there is no express provision in the lease against assignment, but the lessor refuses to sign the form of Assignment of Lease, the signature of the lessor on the form is not required. In this event, however, an executed copy of the assignment form must be delivered to the lessor by registered mail immediately upon its execution.

---

DISTRIBUTION: All Wartime Farm Adjustment Program Personnel

1        Subletting:        If the lease contains an express provision against assignment thereof, but not against subletting, the present lessee may sublet the property. For this purpose Form WFA-9, Sublease may be used. This form requires the signature of the present lessee and the sublessee, and their spouses, if any. The Sublease must be for a period at least one day less than the period of lease under which the Relinquisher is now operating. The subletting procedure may also be used in instances where the Relinquisher prefers to retain an interest in the lease and does not desire to make an outright assignment of his interest therein.

2        Present Lease Unsatisfactory:        If it is believed that the terms and conditions of the present lease are inequitable or unsatisfactory to the proposed new lessee, the Field Agent should immediately communicate with the owner of the farm to determine whether he will be willing to execute a new lease with the new lessee on Form Agri.-1, Flexible Farm Lease. If he is willing to give a new lease, the same should be prepared on Form Agri.-1, and executed by the owner, as lessor, and the new lessee, and their respective spouses, if either is married. If the latter lease is executed, the old lease must be terminated and cancelled by mutual consent of the parties thereto.

In the above situation, if the Relinquisher wishes to sell his crops, (growing or harvested), livestock, equipment and other chattels located on the premises to the new lessee, this may be accomplished by execution of Form WFA-10, Bill of Sale, describing accurately all such property and reciting the purchase price to be paid therefor. This form must be signed by the Relinquisher and spouse, if any.

D        Share-Croppers:        If the Relinquisher is at present not occupying his farm under a lease, but simply as a share-cropper, the Field Agent should arrange, if possible, with the landlord, to secure a lease for the qualified farmer on Form Agri.-1, Flexible Farm Lease. A Bill of Sale may be used to cover the sale of any chattels or personal property of which the Relinquisher wishes to dispose, and should be executed in the manner indicated in Paragraph C 2 above.

In effecting transfers of chattels or leasehold interests to qualified farmers, and a loan from the Farm Security Administration or the Wartime Farm Adjustment Program is involved, the Field Agent is responsible for seeing that the arrangements are fair and equitable. If no loan is made or if some other loan agency is involved, the Field Agent should still use every effort to assure that the arrangements made are fair to both parties.

III        RECORD SEARCH:        It will be necessary that a search of the records be made to determine whether the purported transfer of the evacuee's interest in real estate or chattels made in connection with this Program will vest in the transferee a clear and unencumbered title to the property being transferred.

NOTE:        Copies of all tenure instruments must be included in loan dockets.

REFERRAL OF PROSPECTIVE WFA FARM OPERATORS TO OTHER CREDIT AGENCIES

I        REQUIREMENTS:        When a qualified farm operator has arranged to take over the farm of a Japanese (or other relinquisher) the WFA Field Agent will determine, after tenure details have been arranged, whether the new operator has sufficient resources to carry on food production operations for the coming year. Where credit will be needed prospective operators will be referred to existing loan agencies, personally or by letter.

II       CREDIT SOURCES:       It shall be the responsibility of the Field Agent to establish close coordination with the following credit sources in order that he may assist prospective operators in arranging for credit:

A       Banks and Other Commercial Lending Agencies:

B       Farm Credit Administration:

1       Federal Land Bank:       Where need is for a real estate loan.

2       Production Credit Association:       Application must be made to branch covering the community where the land is located for crop and livestock production loans.

3       Farm Security Administration County Office:       Here the various established types of FSA loans, such as Standard Rural Rehabilitation Loans and Food for Freedom Loans, should be considered.

III      WFA LOANS:       If after referral to an established credit agency, the application of a qualified farmer is rejected by such agency, or if it otherwise appears that the farmer is unable to secure finances from other sources, he will be considered for a WFA loan, under established WFA loan procedure (See WFA Instruction 931.1).

APPLICATION AND REGISTRATION RECORDS

I SCOPE: This instruction sets forth the procedure for setting up and maintaining basic records of individuals desiring to relinquish their farms and of qualified farmers seeking land.

II FORMS:

A Form WFA-1, Request to Relinquish Farm: This form will be prepared in an original and one copy for all persons desiring to evacuate military areas voluntarily, and seeking to dispose of their farm holdings with the assistance of the Wartime Farm Adjustment Program.

All spaces on this form are self-explanatory.

The original, on yellow paper, will immediately be placed in a 5-by-8 inch file drawer, divided according to the town near which the farm is located. The purpose of this file is to bring together data on the number and nature of farms in a given area, and information regarding Prospective Farm Operators desiring to acquire farms in such areas.

Data from the card copy will be recorded on the Daily Tally, Form WFA-3, (See Regional Instruction 929.2). The card copy will then be filed alphabetically by name of registrant in a 5-by-8 inch file. This will constitute a permanent alphabetical master card file which will be readily accessible with all pertinent information. All future contacts, referrals, and transactions will be noted on the reverse side of this card as they occur.

B Form WFA-2, Request to Acquire Farm: This form will be prepared in an original and one copy for all persons desiring to acquire farms about to be evacuated in restricted areas.

All spaces on this form are self-explanatory.

The original, on white paper, will be placed in the same 5-by-8 inch file drawer as the yellow registration. (See Paragraph II A). That is, the white forms for Prospective Operators will be filed immediately behind the yellow forms for present operators in the same town division of the file. Thus the two may be brought together by simple matching. Data from the card copy will be recorded on the Daily Tally, Form WFA-3. (See Regional Instruction 929.2). This card copy will then be filed alphabetically along with card copies for registrants which will constitute a permanent alphabetical name file.

C Continued Use of Records: When a Relinquisher and Prospective Farm Operator have reached a final decision as to the transfer of farm operations, the white and yellow originals for both parties will be clipped together, a brief notation made on the reverse side of the white-sheet as to the final transaction and loans involved. This information will also be recorded on the Daily Tally, Form WFA-3. (See Regional Instruction 929.2). The two originals will then be forwarded to the Regional

Office. If however, a WFA loan is involved they will accompany the loan papers to the Regional Office.

All card copies will remain in the alphabetical name file of the field office as a permanent record for future inquiries and referrals.

FILING PROCEDURE FOR WFA FIELD OFFICES

I SCOPE: This Instruction sets forth the procedure for setting up and maintaining case folders and general subject files in WFA field offices.

II FILES:

A Case Folders: Legal size docket folders will be made up on clients as needed and kept in a single alphabetical name file. They will contain all correspondence, copies of correspondence, loan papers, and other material concerning a Farm Relinquisher or a Prospective Operator.

Folder labels will be typed, showing last name first, using yellow labels for Relinquishers and white labels for Prospective Operators.

Acco all correspondence in date order on the left hand side at the bottom of the folder, leaving the right hand side for future attachment of legal documents, loan papers, etc. which are to be accoed in the order of their importance.

B General Subject Folders: Legal size docket folders will be used to set up a general subject file with headings as: Personnel, Business Management, Contacts, Telephone and Telegraph, Travel, and other subjects deemed necessary in the maintenance of files in the field offices.

MAKING SPECIAL WARTIME FARM ADJUSTMENT PRODUCTION LOANS

I SCOPE: This instruction describes the conditions under which special Wartime Farm Adjustment Production Loans may be made to qualified farm operators desiring to take over farms in restricted areas which are about to be evacuated. Money for these loans comes from the War Department rather than the Department of Agriculture. Therefore, the guiding principle for all Field Agents in making loans will be to assure the maximum immediate production of desired crops of which the land in question is capable. Speed in taking over and carrying on farm operations is primary. Standards of rural and social rehabilitation, while desirable, are definitely secondary. However, sound lending practices must be followed, and fulfillment of the obligations assumed by the operator is mandatory.

II PERSONS ELIGIBLE FOR WARTIME FARM ADJUSTMENT LOANS: Farmers, including owner-operators, farm labors, partnerships and corporations, and others may be eligible for Special Wartime Farm Adjustment Production Loans provided they possess the following qualifications. These qualifications will have been determined during earlier contacts.

A Capability: The prospective borrower must be experienced and capable in the particular type of agricultural production involved, and must agree to follow a farm plan which will assure maximum food production.

B Eligibility for Other Credit:

1 He shall not be able to obtain loans, under reasonable terms and conditions, from other sources of credit. (See WFA Instruction 925.1).

2 Security of Tenure: The applicant must possess security of tenure through ownership or lease, or some combination of these which provides for the non-disturbance of his farming operations, at least during the period of the loan. (See WFA Instruction 923.1).

3 Debt Adjustment: Where the success of the farming operations may be threatened by foreclosure on necessary equipment, or where there is a strong possibility that the creditor may secure judgment and levy against such chattels, agreements of subordination or non-disturbance must be obtained covering at least the period of the loan.

NOTE: Where an individual qualified farmer does not possess facilities and services adequate to carry on farming operations, a WFA loan may be made to secure such facilities on a group cooperative basis.

III USE OF LOANS: WFA loans may be made for the purpose of meeting any expense or charge in connection with land use, seed and fertilizer, livestock, farm machinery, equipment and tools, or supplies and/or services.

IV TERMS AND CONDITIONS OF LOAN:

A Period: WFA loans will be made to cover a period of one year or less. Renewal at a future date may be necessary depending upon circumstances which may arise. Additional procedure will be forthcoming to describe such renewals.

B Interest: Interest on the loan will be charged at the rate of five percent per annum. It will accrue on principal only and shall not be compounded.

C Repayment: Repayments on loans will be set up in the Loan Agreement and Note in such installments as are determined to be in accord with the anticipated maximum ability of the borrower to repay. This will be indicated by the probable income shown on the Farm Plan.

D Notes and other Security: WFA loans will be evidenced by Form FSA-LE-31, Promissory Note. Advances to the borrower will be made in one payment only. WFA loans will be secured in the full amount of the loan by a first lien on crops growing, or to be grown by the borrower, and a first lien on any livestock or equipment purchased with the proceeds of the loan. The basic form to be used in obtaining this security is FSA-LE-30, Crop and Chattel Mortgage. Form FSA-LE-80, Assignment of Proceeds From the Sale of Agricultural Products will also be prepared where such security is desirable because of the nature of the loan. Qualified farmers whose security is covered by a mortgage held by some other lending agency will be required to furnish a subordination agreement.

NOTE: Field Agents are authorized and directed to follow the procedure outlined for RR Supervisors in FSA Instruction 731.1, Paragraph X, as regards the executing, recording, and filing of documents prepared to secure WFA loans.

E Supervised Bank Accounts: These may be established in accordance with the provisions of FSA Instruction 753.2.

V LOAN PROCEDURE:

A Application and Farm Plan: When a WFA loan is to be made to an applicant, the Field Agent will prepare Form WFA-6, Loan Application and Farm Plan in an original and two copies. The original will be signed by the applicant and the Field Agent, and forwarded to the Program Chief together with the loan docket. One copy will be kept in the field office file and one kept by the applicant.

B Loan Agreement and Voucher: The Field Agent will prepare Form WFA-7, Loan Agreement for the amount of the loan stipulated in the farm plan. Form FSA-FI-5, Public Voucher will be prepared at the same time.

The Loan Agreement and the Public Voucher will each be prepared in an original and three copies. Originals and all copies will be signed by the applicant and the Field Agent. The originals and first copies will accompany the loan docket. A copy of each will be given the applicant, and a copy retained in the office file.

C Promissory Notes: The Field Agent will prepare and have signed by the applicant and his wife an undated note, Form FSA-LE-31, Promissory Note, for the amount of the advance specified in the voucher. Terms of repayment will be consistent with the schedule of payments set up in the Loan Agreement.

Form FSA-LE-31 will be prepared in an original and three copies. The original only will be signed by the applicant and his wife. The original and one copy will be forwarded with the loan docket; one copy will be given to the applicant, and one copy retained in the field office.

D        Security:        Security need not be taken until the check is ready for delivery. The security documents, FSA-LE-30, Crop and Chattel Mortgage, FSA-LE-80, Assignment, or any other documents used as security, will be prepared in an original and three copies. These instruments will be executed at the time the check is delivered.

E        Submitting Recommendation:        The documents required for submission will be assembled and forwarded to the Program Chief, with a covering letter.

F        Action on Loans:

1        Rejection:        If a submission is rejected by the Program Chief, all legal documents in connection with the docket will be returned to the field office with a full statement of the reasons for rejection. The Field Agent will return the legal documents to the applicant, notifying him of the rejection.

2        Approval:        If the loan is approved, conditions of approval, if any, will be forwarded with the appropriate documents to the Field Agent.

3        Check Delivery:        Receipt of Loan Checks, Check Delivery, undeliverable checks; Procedure regarding the receipt of WFA loan checks and the delivery thereof shall be the same as that contained in FSA Instruction 731.1, Paragraphs XIII B, C, and D.

4        Filing or Recording Security Documents:        Upon delivery of the check to the borrower, the Field Agent will secure the signature of the borrower and his wife upon the crop and chattel mortgage and other security documents. The original or signed copy of the crop and chattel mortgage will be filed or recorded within 48 hours after its execution and the original or signed copy (whichever is not required as a permanent part of the records of the County Clerk or Recorder) forwarded promptly to the Program Chief with notations thereon of filing or recording information. A Form FSA-LE-87, Lien Search Report, and other security instruments will be transmitted with the mortgage or copy thereof.
