Non-Par List

*To all Banks and Trust Companies in the
Second Federal Reserve District:*

Ever since the establishment of the present clearing system a par list has been published periodically by the Federal Reserve Board in Washington, but as there are now 27,958 par banks, we have decided, for the convenience of our member banks, to issue instead a list of the 2,103 non-par banks, alphabetically arranged by states. A copy of this non-par list is enclosed. Under the law checks on these institutions cannot be handled by the Federal Reserve Banks or their branches.

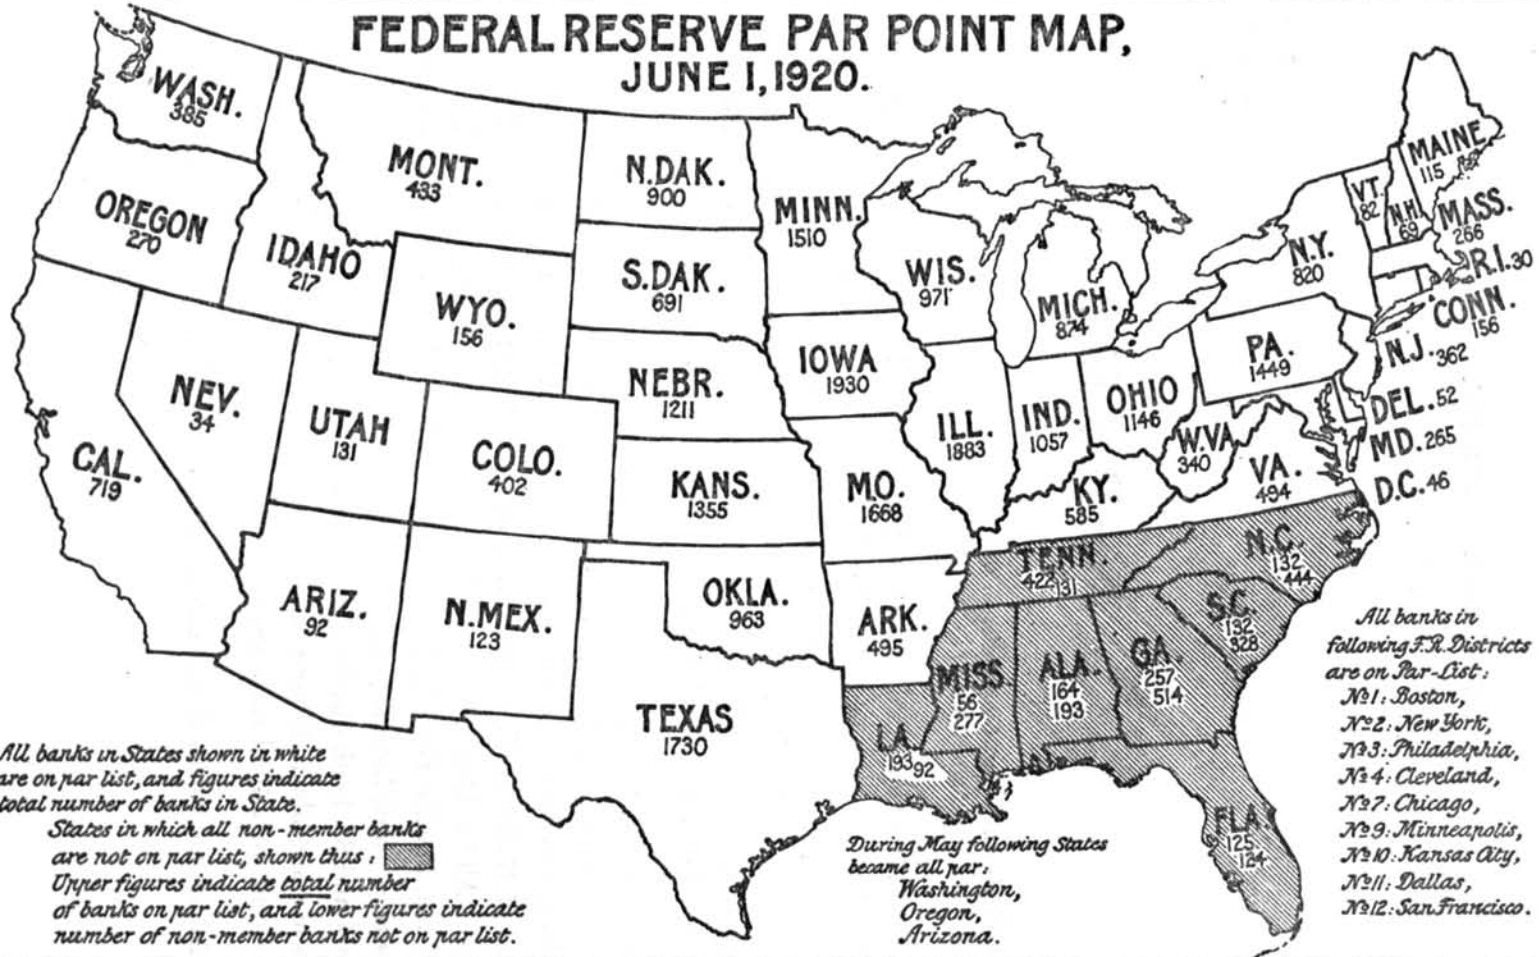

On June 1, 1920 there were 30,061 banking institutions in the United States of which 9,330 were members of the Federal Reserve System and 20,731 non-members. Checks drawn upon 18,628 of the non-members and upon all of the members (or upon a total of 27,958 institutions) can now be collected by the Federal Reserve Banks at par. All banking institutions in 40 states are on the par list, leaving only 8 states (Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee) which have any non-par banks. These states are situated in the Richmond, Atlanta and St. Louis districts, as shown on the par point map printed on the next page. In these states about 40 per cent. of the banks are on the par list while the remaining 60 per cent. or 2,103 banks, are non-par banks.

Additional copies of this non-par list, if desired, may be obtained from this bank.

Very truly yours,

J. H. CASE,
Acting Governor

FEDERAL RESERVE PAR POINT MAP, JUNE 1, 1920.
