

FEDERAL RESERVE BANK
OF NEW YORK

[Circular No. 3340]
June 2, 1948

SUPPLEMENT TO REGULATION D
Reserves Required To Be Maintained By Member Banks
With Federal Reserve Banks

Increase Effective June 11, 1948

To all Member Banks in the
Second Federal Reserve District:

Enclosed is a printed copy of a supplement to Regulation D, "Reserves of Member Banks," adopted by the Board of Governors of the Federal Reserve System to supersede the existing supplement to Regulation D and to become effective at the opening of business on June 11, 1948.

The Board's statement for the press, released for publication June 1, 1948, regarding this action is as follows:

As a further step towards restraining inflationary expansion of bank credit, the Board of Governors today increased from 22 to 24 per cent of net demand deposits the amount of reserves required to be maintained with Federal Reserve Banks by central reserve city banks. This action is to become effective Friday, June 11, 1948.

The effect of this increase, like the one which became effective on February 27, 1948, will raise the required reserves of central reserve city banks in New York City by approximately 400 million dollars and those in Chicago by nearly 100 million dollars.

Under the provisions of section 19 of the Federal Reserve Act, the Board of Governors has authority to establish reserve requirements for the various classes of member banks within the following limits:

<i>Against net demand deposits</i>	<i>Minimum</i>	<i>Maximum</i>
Central reserve city banks	13	26
Reserve city banks	10	20
Country banks	7	14
<i>Against time deposits</i>		
All classes of banks	3	6

Reserve requirements are now at the maximum limits in all cases except for net demand deposits at central reserve city banks which, after the present increase becomes effective, will be 2 percentage points less than the maximum under existing authority.

Additional copies of this circular and of the enclosed supplement will be furnished upon request.

ALLAN SPROUL,
President.
